Please indicate whether the price is a list price or a gross price by crossing out the term that does not apply.
(a) 2. *Dealer's commissions:*
Where all dealers receive the same commission, use the full commission rate even if some sales are not subject to any commission. If several different rates affect the product covered by the application, use the rate that applies to the largest amount of sales.
(a) 3. *Trade discounts:*
Deduct trade discounts at the average rate of discounts prevailing in your company for the product covered by the application.
(b) Use a sufficient number of months prior to the date of the application to give an adequate understanding of the situation. Name the period in the allotted space and fill in commission rates or discounts.
2. *Unit cost data:*
In presenting unit cost data be sure to include only actual cost.
Material cost must represent actual cost. State separately any charges added to costs of materials.
Where standard costs are used, adjust costs for over- and under-absorption during the period to which the costs apply.
The cost data for the ceiling date may be recomputed if the product covered by the application was not manufactured on or about that date. In the recomputation apply the wage rates prevailing in your plant on the ceiling date and material cost of the same date.
Under items (f), (g) and (h) include only costs borne by the manufacturer and not billed separately to the buyer.

PART 1341—CANNED AND PRESERVED FOODS

[MPR 308,[1] Amdt. 12]

CERTAIN PACKED FOOD PRODUCTS

A statement of the considerations involved in the issuance of Amendment No. 12 to Maximum Price Regulation No. 306 has been issued and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 306 is amended in the following respects:

1. Section 1341.551 (e) is amended to read as follows:

(e) "Processor" means the canner, manufacturer, or packer, as the case may be, of the kind and brand of packed food product being priced.

2. Section 1341.553 is amended by adding paragraphs (d) and (e), to read as follows:

(d) *Maximum prices for sales by processors from their branch warehouses.* A processor who sells an item from a branch warehouse owned or controlled by him to an independent retail store or commercial, industrial or institutional user shall figure his maximum price for those sales by adding together factors (1) and (2) and multiplying the result by factor (3):

(1) The maximum price named for the item, f. o. b. factory.

(2) The freight, if any, incurred from factory to branch warehouse. (Processors who have more than one factory or branch warehouse may average freight from factory to branch warehouse in the same manner as processors are allowed under paragraph (a) (1) to average outgoing freight.)

(3) The mark-up figure, appropriate to the particular sale, which would have been applicable to him as a "wholesaler" operating under Maximum Price Regulation No. 421,[2] had he purchased the finished product and not canned, manufactured or packed it. This mark-up, however, may be added only when the particular goods sold have been warehoused at the branch warehouse.

(e) *Maximum prices for sales by processors to ultimate consumers.* Processors who sell the items they make to ultimate consumers other than industrial, commercial or institutional users are normally retailers as well, that is, persons whose general business is selling at retail items manufactured by others. Retailers are covered by Maximum Price Regulations Nos. 422[3] and 423,[4] which also provide a pricing method for items that a retailer may happen to manufacture or process himself (see section 25 of MPR 422). Processor-retailers, therefore, shall figure their maximum prices under those regulations.

3. A new § 1341.562 is added as follows:

§ 1341.562 *Maximum prices for distributors other than wholesalers and retailers*—(a) *Primary distributors.* A "primary distributor" is a distributor, other than a wholesaler or retailer, who purchases all he sells of the kind and brand of packed food product being priced and who customarily receives shipment from the packer of at least 50% of his purchases in carload lots delivered to a warehouse or other receiving station not owned or controlled by any of his customers, for resale by him in less than carload lots.

There are two pricing methods for primary distributors.

Pricing Method No. 1: A primary distributor may use the following pricing method only if he sold the kind of packed food product being priced as a primary distributor before April 28, 1942, and he may use it only when he is selling, in less-than-carload lots, merchandise which he has actually warehoused (in normal situations the pricing method will give him the same dollars and cents margin that he previously had):

If the processor's maximum price for the item under this regulation is *greater* than the processor's maximum price under the maximum price regulation previously applicable to the processor, the primary distributor shall *add* the difference to the maximum price which he had immediately prior to August 5, 1943. If the processor's maximum price for it under this regulation is *less* than the processor's maximum price under the maximum price regulation previously applicable, the primary distributor shall *subtract* the difference from the maximum price which he had immediately prior to August 5, 1943. However, in no event may the primary distributor's maximum price be greater than the net delivered cost (based upon purchases directly from the packer) plus a markup of 8% of that cost. The resulting figure in each case is the primary distributor's maximum price for the item when warehoused by him and sold in less-than-carload lots.

Examples: The processor's ceiling under MPR 152 for the No. 2 can of X brand tomatoes was $1.10 a dozen. Under MPR 306, it is now $1.325. The primary distributor therefore adds the increase of $.225 to his own ceiling price (under GMPR).

The primary distributor handled canned tomatoes as a primary distributor before April 28, 1942. He added canned peas to his line in October 1942. Although he may use Pricing Method No. 1 for canned tomatoes, he must use Pricing Method No. 2 for canned peas.

If the primary distributor handled the kind of packed food product being priced before April 28, 1942, but did not handle the particular brand, size or container type being priced before August 5, 1943, his maximum price for the new item shall be his net delivered cost (based on his first purchase of the item after August 4, 1943) plus the percentage mark-up which he is permitted to charge, under the foregoing pricing method, for the most closely comparable item of that kind of packed food product already handled by him.

Pricing Method No. 2. For all items, and sales of such items, which are not covered by Pricing Method No. 1, the primary distributor's maximum price, f. o. b. shipping point, shall be the maximum price of his supplier, f. o. b. shipping point, plus incoming freight paid by him.

(b) *Distributors who are not primary distributors, wholesalers, or retailers.* The maximum price for an item, f. o. b. shipping point, of a distributor who is not a primary distributor, wholesaler or retailer shall be the maximum price of his supplier, f. o. b. shipping point, plus incoming freight paid by him.

A "distributor" is one who purchases all he sells of the kind and brand being priced and resells it without packing and processing any part of it.

4. A new § 1341.562a is added as follows:

§ 1341.562a *Restriction on packers' sales to primary distributors.* No packer may sell to primary distributors a greater percentage of his 1943 pack of any item than he sold to primary distributors during the one-year period ending April 28, 1942.

5. A new § 1341.566 is added as follows:

§ 1341.566 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

6. Section 1341.577 (a) is amended by adding a new subparagraph (2), as follows:

(2) "Wholesaler" and "retailer" mean the persons respectively referred to as "wholesalers" and "retailers" in Maximum Price Regulations Nos. 421, 422, and 423.

This amendment shall become effective August 5, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681)

PART 1499—COMMODITIES AND SERVICES

[Order 70 Under SR 15, Amdt. 1]

U. S. INDUSTRIAL CHEMICALS, INC.

Amendment No. 1 to Order No. 70 under § 1499.75 (a) (3) of Supplementary Regulation No. 15 to the General Maximum Price Regulation; Docket No. GF3-3315.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. 70 under § 1499.75 (a) (3) to Supplementary Regulation No. 15 is amended in the following respects:

1. The head note of § 1499.1370 is amended to read as follows:

§ 1499.1370 *Adjustment of maximum prices for warehouse services performed by U. S. Industrial Chemicals, Inc.*

2. The text of § 1499.1370 (a), preceding subparagraph (1), is amended to read as follows:

(a) Lawrence Warehouse Company, a California corporation, or U. S. Industrial Chemicals, Inc., of Baltimore, Maryland, may sell and supply, at Curtis Bay, Baltimore, Maryland, the services of handling and storing alcohol for or belonging to Defense Supplies Corporation and acetone for or belonging to the Procurement Division of the Treasury Department at charges not higher than those set forth below:

3. Section 1499.1370 (a) (1) is amended to read as follows:

(1) *For storage.* 1¢ per barrel per month, based on the total storage capacity of all tanks used during such month; plus ¾¢ per barrel per month, based on the average quantity in storage during such month, whenever the storer assumes a warehouseman's liability with respect to the alcohol and acetone. Such average quantity shall be calculated by adding together the number of gallons shown on all reports filed with Defense Supplies Corporation during such month and dividing the total by the number of such reports.

This amendment shall become effective August 4, 1943.

[Regulation 2]

PART 7002—BUTTER PRODUCTION PAYMENTS

Sec.
7002.1 Definitions.
7002.2 Persons eligible to apply for payments.
7002.3 Filing application for payment.
7002.4 Records and reports.
7002.5 Payment of claim.
7002.6 Right to declare claims invalid.
7002.7 Right to modify or revise claims.
7002.8 Termination.
7002.9 Effective date.

AUTHORITY: §§ 7002.1 to 7002.9, inclusive, issued under sec. 5d of the Reconstruction Finance Corporation Act as amended, 52 Stat. 212, 54 Stat. 573; 15 U.S.C. 606b; Defense Supplies Corporation Charter, 6 F.R. 2972.

§ 7002.1 *Definitions.* When used in this regulation, the following terms shall have the following meanings:

(a) "Person" means an individual, corporation, partnership, association, institution, or other business entity, or legal successor or representative of any of the foregoing.

(b) "Manufacture" means to physically process milk or cream into butter without regard to the ownership of the milk or cream or buter.

(c) "Butter" means the food product usually known as butter (including whey butter) and which is made exclusively from milk or cream, or both, with or without salt, and with or without additional coloring matter, and containing not less than 80 percent by weight of milk fat, all tolerances having been allowed. It shall not include adulterated butter or renovated or processed butter, as defined in section 2320, paragraphs (b) and (c) of the Internal Revenue Code.

(d) "Establishment" means each separate plant within the continental United States where butter is manufactured.

(e) "Applicant" means any person who files an application for payment pursuant to this regulation.

(f) "Claim" means a claim for payment filed pursuant to this regulation.

§ 7002.2 *Persons eligible to apply for payments.* Any person who manufactures 1,000 pounds or more of butter in any one establishment in any calendar month may file an application for payment on account of such butter manufactured during a calendar month after May 1943.

§ 7002.3 *Filing application for payment*—(a) *Place of filing.* Applications for payments shall be mailed in the same envelope with Dairy Products Report No. 1 (U. S. D. A. Form No. C. E. 9–119) to P. O. Box No. 6910–A, Chicago, Illinois.

(b) *Time of filing.* Applications for payments shall be filed after the last day of the calendar month in which the manufacture took place and on or before the last day of the calendar month following the month in which the manufacture took place.

(c) *Form of application.* All applications for payments shall be filed in triplicate on forms approved by the Defense Supplies Corporation, and all information therein provided for shall be supplied. Only one application can be filed on account of the butter manufactured in one establishment during a calendar month and an application cannot cover manufacture during a period longer than one calendar month. A separate application shall be filed for each establishment of the applicant.

§ 7002.4 *Records and reports*—(a) *Reports required by other agencies.* Every applicant shall file with the Office of Price Administration and with the United States Department of Agriculture the reports required of him by those agencies applicable to butter.

(b) *Inspection of records.* Every applicant shall preserve for inspection, for a period of not less than two years after the date of filing an application, books, records and other documents, which furnish information in support of such application and Defense Supplies Corporation, or its designated agent, shall have the right at any time to make such examinations and audits of the books, records and other documents as may be necessary to ascertain the facts set forth in such application or as may be required by Defense Supplies Corporation.

(c) *Failure to comply.* The Defense Supplies Corporation shall have the right to declare invalid any claim of an applicant who has failed to comply with the requirements of this section.

§ 7002.5 *Payment of claim*—(a) *Rate of payment.* Defense Supplies Corporation will make payment on approved claims at the rate of five cents per pound for butter manufactured on and after June 1, 1943.

(b) *Base of payment.* Payments will be made on the amount of butter to the nearest pound manufactured by an applicant during the calendar month covered by his application. A claim may be approved in whole or in part.

(c) *Persons to whom payments are to be made.* Payments shall be made only to the person who files the claim with the Defense Supplies Corporation. No claim filed pursuant to this regulation shall be assignable except as a part of a bona fide transfer of the applicant's business to a legal successor.

(d) *Terms of payment.* Payments shall be made monthly upon preliminary approval of the claim. Preliminary approval and payment of claims shall not constitute final acceptance of the validity or amount of the claim. On a finding that the claim is invalid or defective Defense Supplies Corporation shall have the right to require restitution of any payments or any part thereof. Any sums found to be due to Defense Supplies Corporation shall be deductible against any accrued or subsequent claim for any payment by Defense Supplies Corporation to the person.

§ 7002.6 *Right to declare claims invalid*—(a) *Compliance with other regulations.* The Defense Supplies Corporation shall have the right to declare invalid in whole or in part any application for payment not in accordance with this regulation, or any claim on account of butter manufactured or distributed in violation of any regulation of the War Food Administration or the Office of Price Administration.

(b) *Payments to producers of butterfat.* The Defense Supplies Corporation shall have the right to declare invalid in whole or in part any claim of any applicant who fails to pass on to producers of butterfat the benefits secured from payments under this regulation, either in the original purchase price or through provision for supplementary payments.

§ 7002.7 *Right to modify or revise claims.* Upon the announcement of any decision or interpretation issued hereunder any applicant may within thirty (30) days apply to Defense Supplies Corporation for the right to modify or revise any claims theretofore filed which are affected by such decision or interpretation and which accrued within the period of ninety (90) days immediately preceding the first of the month following the date when the decision or interpretation was announced. If Defense Supplies Corporation finds justification for reopening the claim it shall notify the applicant and the latter may thereupon submit a new application for payment which shall be processed in the same manner as though submitted within the required time.

§ 7002.8 *Termination.* This regulation may be terminated at any time after ten (10) days notice. Such termination shall not preclude the filing of applications on account of butter manufactured on or before the date of termination for which the applicant would otherwise have been eligible. Such applications must be filed within thirty (30) days after the date of termination.

§ 7002.9 *Effective date.* This Regulation No. 2 shall become effective as of June 1, 1943.

Issued this 7th day of June 1943.

AUTHORITY: §§ 7003.1 to 7003.13, inclusive, issued under sec. 5d of the Reconstruction Finance Corporation Act as amended; 52 Stat. 212, 54 Stat. 573; 15 U.S.C. 606b; Defense Supplies Corporation Charter, 6 F.R. 2972.

§ 7003.1 *Definitions.* When used in this regulation, the following terms shall have the following meanings:

(a) "Person" means an individual, corporation, partnership, association, institution, or other business entity, or legal successor or representative of any of the foregoing.

(b) "FDO 27" means Food Distribution Order No. 27, as amended or as it may be amended from time to time, by the War Food Administration.

(c) "MRO 1" means Meat Restriction Order No. 1, as amended, issued by the Office of Price Administration, as amended, or as it may be amended from time to time by the War Food Administration.

(d) "Permit" means the permit to slaughter livestock required by FDO 27.

(e) "Registration" means the registration required of slaughterers under MRO 1.

(f) "Slaughter" means to kill livestock or have it killed for the purpose of obtaining meat. For purposes of this regulation, livestock is slaughtered by the person who owns it at the time of slaughter.

(g) "Livestock" means cattle, calves, hogs and pigs, and sheep and lambs.

(h) "Live weight" means the purchase weight of livestock slaughtered except that if the livestock have been fed for more than thirty (30) days after purchase by the slaughterer, live weight means the transfer weight from feed lots.

(i) "Establishment" means each separate plant within the continental United States where livestock is slaughtered.

(j) "Accounting period" means the customary accounting period of a calendar month or a period of at least four weeks and not more than five weeks in length used by the slaughterer in keeping his books and records, and shall be the same period used by him in making the monthly reports required by War Food Administration and the Office of Price Administration covering his slaughtering operations.

(k) "Applicant" means any person who files a claim for payment under this regulation.

(l) "Class" means the class of slaughterer to which a person belongs under this regulation such as farm slaughterer, butcher, local slaughterer or packer.

(m) "Farm slaughterer" has the same meaning as given it in FDO 27.

(n) "Butcher" has the same meaning as given it in FDO 27.

(o) "Local slaughterer" has the same meaning as given it in FDO 27.

(p) "Packer" has the same meaning as the term "slaughterer" as defined in MRO 1. A person is a packer if he is registered as a slaughterer under that order.

(q) "Claim" means a right to payment on an application filed pursuant to this regulation.

(r) "Maximum base of payment" means the maximum number or weight of livestock on account of which any person is entitled to payment, computed in accordance with paragraph (b) of §§ 7003.6, 7003.7, 7003.8 or 7003.9.

(s) "Condemned meat" is meat that has been condemned at the time of slaughter as unfit for human consumption by inspectors of the United States Department of Agriculture or of any state or local governmental agency.

(t) "Quota base" means the quota base of a slaughterer calculated in accordance with the provisions of FDO 27 and MRO 1.

(u) "Quota" means the quota established for slaughter of livestock or of any one kind of livestock or for deliveries of meat produced from any one kind of livestock for any person under FDO 27 or MRO 1.

(v) "Quarterly quota period" means the period for which a quota is established for farm slaughterers under FDO–27 or for packers under MRO 1.

§ 7003.2 *Persons eligible to apply for payment.* Any person who has a permit or registration and whose permit or registration has not been suspended or revoked and who slaughters 4,000 pounds or more of livestock, live weight, in any one establishment in any one calendar month after May 1943, may file an application for payment on account of such livestock slaughtered in each such establishment on and after June 7, 1943. No person who kills livestock for the account of others is eligible to file application for payment on account of such livestock.

§ 7003.3 *Filing application for payment*—(a) *Application forms.* Requests for application forms may be directed to Defense Supplies Corporation at any one of the addresses listed in Appendix A, which contains the location of the regional office for each district. Each request should contain a statement as to the class of the applicant under this regulation and the county and state where his establishment or main office is located.

(b) *Place of filing.* Application for payment shall be filed with the Defense Supplies Corporation at the regional office for the district in which the establishment is located, except that a person slaughtering in more than one establishment must file applications for payment for all of the establishments at the regional office for the district in which his main office is located.

(c) *Time of filing.* Application for payments shall be filed after the last day of the accounting period in which the slaughter took place, and on or before the last day of the calendar month following the end of the accounting period in which the slaughter took place.

(d) *Form of application*—(1) *In general.* All applications for payments shall be filed in triplicate on forms specified for the applicant's class and approved by the Defense Supplies Corporation and all information therein provided for shall be supplied. Only one application can be filed on account of the livestock slaughtered in one establishment during an accounting period, and an application cannot cover livestock slaughtered during a period longer than the accounting period. A separate application shall be filed for each establishment of the applicant. A separate application shall be filed on account of the livestock slaughtered on and after June 7, 1943, and before the beginning of the applicant's next accounting period.

(2) *Custom slaughter.* Applications of persons who slaughter in establishments operated by others must be accompanied by a statement from the operator of such establishment on forms approved by Defense Supplies Corporation, giving all the information therein provided for. If a person kills livestock for another, and also slaughters for his own account, his application for payment on account of the livestock he slaughters for his own account must be accompanied by a complete report of the livestock killed for each other slaughterer.

(e) *Supporting documents.* Every applicant shall file the reports required of his class under §§ 7003.6, 7003.7, 7003.8 or 7003.9.

§ 7003.4 *Records and reports*—(a) *Reports required by other agencies.* Every applicant shall file with the Office of Price Administration and with the War Food Administration the reports required of him after June 1, 1943 by those agencies under Ration Order No. 16, MRO 1 or FDO 27.

(b) *Records required by this regulation.* Every applicant shall keep the records required of him by FDO 27 and MRO 1 and in addition keep the records required of his class by §§ 7003.6, 7003.7, 7003.8 or 7003.9.

(c) *Inspection of records.* Every applicant shall preserve for inspection for a period of not less than two years after the date of filing an application, books, records and other documents, which furnish information in support of such application and Defense Supplies Corporation or its designated agent shall have the right at any time to make such examinations and audits of the books, records and other documents as may be necessary to ascertain the facts set forth in such application or as may be required by Defense Supplies Corporation.

(d) *Failure to comply.* The Defense Supplies Corporation shall have the right to declare invalid any claim of an applicant who has failed to comply with the requirements of this section.

§ 7003.5 *Payment of claims*—(a) *Rate of payment.* Defense Supplies Corporation will make payment on approved claims at the following rates:

	Cents per lb.
Cattle and calves	1.1
Sheep and lambs	.95
Hogs and pigs	1.3

(b) *Base of payment.* Payments will be made on the live weight of the livestock slaughtered by an applicant during the accounting period covered by his application subject to the following qualifications:

(1) Payments will not be made on account of a greater number or weight of live stock than the applicant's maximum base of payment.

(2) No payments will be made on the live weight equivalent of the applicant's production of condemned meat. The applicant shall reduce the amount of his livestock slaughtered by the actual live weight of the livestock which produced the condemned meat, or in the event this figure is not obtainable, by the livestock weight equivalent computed by multiplying the number of condemned carcasses of each kind of livestock by the average live weight of the same kind of livestock which he slaughtered during the accounting period covered by his application.

(3) A claim may be approved in whole or in part.

(c) *Persons to whom payments are to be made.* Payments will be made only to the person who files the claim with the Defense Supplies Corporation. No claim filed pursuant to this regulation shall be assignable except as a part of a bona fide transfer of the applicant's business to a legal successor.

(d) *Terms of payment.* Payments will be made monthly upon preliminary approval of the claim. Preliminary approval and payment of claims shall not constitute final acceptance of the validity or amount of the claim. On a finding that the claim is invalid or defective Defense Supplies Corporation shall have the right to require restitution of any payment or any part thereof. Any sums found to be due to Defense Supplies Corporation shall be deductible against any accrued or subsequent claim for any payment by Defense Supplies Corporation to the person.

§ 7003.6 *Special provisions for farm slaughterers*—(a) *Filing application for payment.* A farm slaughterer shall file applications for payment in accordance with § 7003.3 with the following specific limitations:

(1) His accounting period shall be a calendar month, except that for the month of June, 1943, he may file an application on account of livestock slaughtered during the period on and after June 7, 1943 and before July 1, 1943.

(2) His application shall be on a form provided for farm slaughterers and butchers.

(3) He shall file with his first application for payment a copy of his current permit for livestock slaughter (FDO–27–1 of the United States Department of Agriculture) certified by the applicant to be a true copy of the original in effect on the date of certification. Such copy need not be refiled as long as the information contained therein remains current. When any change is made in a

farm slaughterer's permit or his quota base for ay period, a new copy shall be submitted similarly certified. If the applicant obtains permission to transfer any part of his quota from one period to another, a copy of such authorization shall be filed.

(4) Each application shall be accompanied by a copy of the report required of him by the Office of Price Administration in regard to his slaughtering operations during the period covered by his application for payment. This report shall be on Form OPA R–1609 or OPA R–1605.

(b) *Payments.* Payments will be made on claims of farm slaughterers in accordance with § 7003.5. A farm slaughterer's maximum base of payment during any quarterly quota period is his quota for that period.

(c) *Records required.* Every farm slaughterer making application for payments must keep accurate records of numbers and purchase weight and price of livestock slaughtered for each kind of livestock. He must keep records of the live weight at the time of slaughter, the date and place of weighing and by whom it was weighed.

§ 7003.7 *Special provisions for butchers*—(a) *Filing application for payments.* A butcher shall file applications for payments in accordance with § 7003.3 with the following specific limitations:

(1) His accounting period shall be a calendar month, except that for the month of June, 1943, he may file an application on account of livestock slaughtered during the period on and after June 7, 1943, and before July 1, 1943.

(2) His application shall be filed on a form provided for farm slaughterers and butchers.

(3) He shall file with his first application for payment a copy of his current permit for livestock slaughter (FDO–27–2 of the United States Department of Agriculture) certified by the applicant to be a true copy of the original in effect on the date of certification. Such copy need not be refiled as long as the information contained therein remains current. When any change is made in a butcher's permit or his quota base or his quota for any period, a new copy shall be submitted similarly certified.

(4) Each application shall be accompanied by a copy of the report required of him by the Office of Price Administration in regard to his slaughtering operations during the period covered by his application for payment. This report shall be on Form OPA R–1609 or OPA R–1606.

(b) *Payments.* Payments will be made on claims of butchers in accordance with § 7003.5. A butcher's maximum base of payment during any month is his quota for that month, and shall not include the amount of any slaughter for home consumption permitted by paragraph (d) (2) of FDO 27.

(c) *Records required.* Every butcher making application for payments must keep accurate records of numbers and purchase weight and price of livestock slaughtered for each kind of livestock. If the livestock is slaughtered more than thirty (30) days after its purchase, he must keep records of the live weight at the time of slaughter, the date and place of weighing, and by whom it was weighed. In addition he must keep a complete record with weights and prices of all of his other livestock purchases and of all of his livestock sales.

§ 7003.8 *Special provisions for local slaughterers*—(a) *Filing application for payments.* A local slaughterer shall make application for payments in accordance with § 7003.3, with the following specific limitations:

(1) The accounting period covered by his application for payment must contain the same number of days as the period for which his quota is established, except that for the first accounting period ending after June 7, 1943, he may file an application on account of livestock slaughtered during the period on and after June 7, 1943 and before the beginning of his next accounting period.

(2) His application shall be on a form provided for local slaughterers.

(3) He shall file with his first application for payment a copy of his current permit for livestock slaughter (FDO–27–3 of the United States Department of Agriculture) certified by the applicant to be a true copy of the original in effect on the date of certification. Such copy need not be refiled as long as the information contained therein remains current. When any change is made in a local slaughterer's permit or his quota base or in his quota for any period (aside from general changes in percentages used in determining quotas from quota bases) a new copy shall be submitted similarly certified.

(4) Each application shall be accompanied by a copy of the report required of him by the United States Department of Agriculture in regard to his slaughtering operations during the period covered by his application for payment. This report shall be on Form FDO–27–5 of the United States Department of Agriculture.

(b) *Payments.* Payments will be made on claims of local slaughterers in accordance with § 7003.5. A local slaughterer's maximum base of payment during any accounting period is the amount of his quota for that period plus his deliveries to governmental agencies and authorized processors for delivery to governmental agencies, computed in live weight or live weight equivalents in the following manner:

(1) Deliveries to governmental agencies and authorized processors for delivery to governmental agencies shall be expressed as conversion weight by multiplying the actual weight by the conversion facts set out in MRO 1, § 1407.913 (c).

(2) In the case of beef, veal, sheep and lamb these conversion weights shall be added to the amount of the quota and the totals expressed as live weight equivalents by using the applicable dressing percentage from the local slaughterer's records.

(3) In the case of pork, the conversion weight shall be converted to live weight equivalent by using the applicable dressing percentage from the local slaughterer's records, and the result added to the quota.

(c) *Records required.* Every local slaughterer making application for payments must keep accurate records of numbers and purchase weight and price of livestock slaughtered for each kind of livestock. If livestock is slaughtered more than thirty (30) days after its purchase, he must keep records of the transfer weight from feed lots. In addition he must keep a complete record with weights and prices of all of his other livestock purchases and all of his livestock sales.

§ 7003.9 *Special provisions for packers*—(a) *Filing application for payments.* A packer shall make application for payments in acordance with § 7003.3, with the following specific limitations:

(1) His application shall cover a full accounting period, except that for the first accounting period ending after June 7, 1943, he may file an application on account of the livestock slaughtered on and after June 7, 1943, and before the beginning of his next accounting period.

(2) His application shall be on a form provided for packers.

(3) He shall file with the first application for payment two copies of his current registration under MRO 1 (OPA Form No. RS01:1) showing his current quota bases. Such copies need not be refiled as long as the information contained therein remains current. When any change is made in a packer's registration or his quota base or in his quota for any period (aside from general changes in percentages used in determining quotas from quota bases) two new copies shall be submitted.

(4) He shall file a copy of each report required of him under MRO 1 after June 1, 1943 (OPA Form RS01:2, or such other reports as may be required) before the end of the accounting period following the period covered by the report. No application may be filed on account of slaughter during any accounting period until a copy of the report required for the preceding period has been filed.

(b) *Payments.* Payments will be made on claims of packers in accordance with § 7003.5. A packer's maximum base of payment during any quarterly quota period shall be computed in live weight or live weight equivalents in the following manner:

(1) Inventory at the opening, deliveries of meat to the packer from all persons, inventory at the close and deliveries without charge against quota for each quarterly quota period shall be expressed as conversion weight by multiplying the actual weight by the conversion factors set out in MRO 1, § 1407.913 (c).

(2) The conversion weights of inventory at the close of the period, deliveries without charge against quota and amount of quota shall be totaled. From these totals shall be subtracted the sums of the conversion weights of inventory at the opening of the period and deliveries of meat to the packer from all persons. The results shall be expressed as live weight equivalents by using the applicable dressing percentage determined from the packer's records.

(c) *Records required.* Every packer must keep a complete record with weights and prices of livestock sales for each kind of livestock.

§ 7003.10 *Right to declare claims invalid*—(a) *Compliance with other regulations.* Defense Supplies Corporation shall have the right to declare invalid, in whole or in part, any claim which does not meet the requirements of this regulation, and any claim filed by an applicant who, in the judgment of the War Food Administrator or the Price Administrator has wilfully violated any regulation of their respective agencies applicable to livestock slaughter or the sale or distribution of meat.

(b) *Payments to producers of livestock.* Defense Supplies Corporation shall have the right to declare invalid in whole or in part any claim of any applicant who fails to pass on to persons from whom he purchases livestock the benefits secured from payments under this regulation.

§ 7003.11 *Right to modify or revise claims.* Upon announcement of any decision or interpretation issued hereunder any applicant may within thirty (30) days apply to Defense Supplies Corporation for the right to modify or revise any claims theretofore filed which are affected by such decision or interpretation and which accrued within the period of ninety (90) days immediately preceding the first of the month following the date when the decision or interpretation was announced. If Defense Supplies Corporation finds justification for reopening the claim it shall so notify the applicant and the latter may thereupon submit a new application for payment which shall be processed in the same manner as though submitted within the required time.

§ 7003.12 *Termination.* This regulation may be terminated at any time after ten (10) days notice. Such termination shall not preclude the filing of applications on account of livestock slaughtered on or before the date of termination for which the applicant would otherwise have been eligible. Such applications must be filed within thirty (30) days after the date of termination.

§ 7003.13 *Effective date.* This Regulation No. 3 shall become effective as of June 7, 1943.

Issued this 16th day of June 1943.

[Docket No. 5020]

HOLZBEIERLEIN & SONS, INC.

COMPLAINT AND NOTICE OF HEARING

Complaint

The Federal Trade Commission having reason to believe that the party respondent named in the caption hereof and hereinafter more particularly designated and described since June 19, 1936, has violated and is now violating the provisions of subsection (d) of section 2 of the Clayton Act as amended by the Robinson-Patman Act, approved June 19, 1936 (U. S. C. Title 15, sec. 13), hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. The respondent, Holzbeierlein & Sons, Inc., is a corporation organized and existing under and by virtue of the laws of the State of Delaware, with its principal office and place of business located at 1849 Seventh Street, Northwest, Washington, D. C.

PAR. 2. Respondent corporation is now and has been since prior to June 19, 1936, engaged in the business of processing and manufacturing and offering for sale, selling and distributing bakery bread in the several states of the United States and the District of Columbia, and causes said product to be shipped and transported from its place of business to the purchasers thereof who are located in the several states of the United States other than the District of Columbia in which respondent's place of business is located. The respondent distributes its bakery bread under the name of "Bamby Bread". There is and has been at all times mentioned a continuous course of trade and commerce in the said product across state lines between respondent's bakery and warehouse and the purchasers of said product. Such product is sold and distributed for use and resale within the several states of the United States and in the District of Columbia.

PAR. 3. In the course and conduct of its business as aforesaid, respondent is now and has been during all the time herein mentioned in substantial competition with other corporations and with individuals, partnerships and firms engaged in the business of processing, manufacturing, offering for sale, selling and distributing bakery bread in commerce.

PAR. 4. Respondent corporation in the course and conduct of its business and in the course of such commerce is now and has been subsequent to June 19, 1936, engaged in manufacturing and processing bakery bread for distribution and sale, and in selling such product to customers who are competitively engaged with each other in the handling, offering for sale and sale of such bakery bread to consumers, and to others for resale to consumers, and the respondent corporation has contracted to pay, and has paid to one of its preferred customers, namely, the District Grocery Stores, Inc., of Washington, D. C., the sum of $250 per month in consideration of and as compensation for advertising services and facilities contracted to be furnished and furnished by said District Grocery Stores, Inc., in connection with the handling, offering for sale and sale of said bakery bread. The respondent has made and makes such payments as compensation for advertising services and facilities in connection with the preferred customer's offering for sale bakery bread and with the general understanding and agreement that the District Grocery Stores, Inc., will advertise its bread in its weekly newspaper advertising and by handbills and bulletins. Respondent has not made payments of advertising allowance available on proportionally equal terms to any other customers who compete in the distribution of its bread.

PAR. 5. Such acts of respondents since June 19, 1936, in interstate commerce in the manner and form aforesaid in paying and contracting to pay valuable consideration to and for the benefit of one preferred customer for services and facilities furnished by and through such customer in connection with the handling, offering for sale and sale of its bakery bread without making such payments available on proportionally equal terms to all other competing customers is in violation of the provisions of Section 2 (d) of the Robinson-Patman Act.

Wherefore, the premises considered, the Federal Trade Commission on this 29th day of July, A. D., 1943, issues its complaint against said respondent.

Notice

Notice is hereby given you, Holzbeierlein & Sons, Inc., a corporation, respondent herein, that the 3rd day of September, A. D., 1943, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise state-

ment of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 29th day of July, A. D. 1943.

By the Commission.

INTERSTATE COMMERCE COMMISSION.

[Ex Parte No. 158]

COMPETITIVE BIDDING IN SALE OF DESIGNATED SECURITIES

ORDER FOR INVESTIGATION

At a general session of the Interstate Commerce Commission, held at its office in Washigton, D. C., on the 31st day of July, A. D. 1943.

In the matter of competitive bidding in the sale of securities issued under section 20a of the Interstate Commerce Act.

It appearing, that it is necessary for the proper administration, execution, and enforcement of section 20a of the Interstate Commerce Act that a determination be made (1) whether competitive bidding shall be required in the sale of railroad securities issued under the provisions of said section, and (2) if competitive bidding is required, to what class or classes of railroad securities should it be applicable and what regulations or conditions should be prescribed relating to such sales:

It is ordered, That an investigation be, and it is hereby, instituted into the matters set forth in the preceding paragraph;

It is further ordered, That briefs in this proceeding may be filed by any interested party on or before September 15, 1943;

It is further ordered, That parties shall indicate in their briefs whether oral hearing is desired;

And it is further ordered, That notice of this order be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

OFFICE OF ALIEN PROPERTY CUSTODIAN.

[Vesting Order 279, Amdt.]

STOCK OF NORTH POINT CONSOLIDATED ENGINEERING COMPANY

Whereas by Vesting Order Number 279 of October 31, 1942, the undersigned vested among other items, all right, title, interest, and estate of the persons listed in Exhibit "A" attached to that Vesting Order and by reference made a part thereof, in and to certain shares of stock in the North Point Con. Irrigation Company, and water certificates in said company, as described therein; and

Whereas in describing said shares and water certificates certain typographical errors were inadvertently made;

Now therefore, Vesting Order Number 279 is hereby amended as follows and not otherwise:

Under section (a), subparagraph (1), the following words are deleted:

160 shares of North Point Con. Irrigation Company stock, Certificate #164 and Water Certificate Nos. 161 and 163, for an additional 70 shares of water in said Irrigation Company; and

and the following substituted therefor:

140 shares of North Point Consolidated Irrigation Company stock (Certificate No. 184) and 140 shares of water in said irrigation company (Water Certificates Nos. 151 and 163 for 70 shares each); and

All other provisions of said Vesting Order Number 279 and all action taken on behalf of the undersigned in reliance thereon, pursuant thereto and under the authority thereof, are hereby ratified and confirmed.

Executed at Washington, D. C., on July 28, 1943.

[Vesting Order 1593]

ORIGINAL LAMINATED PATENTBARREL CO. INC.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that M. Georg Mueller, whose principal place of business is located in Leipzig, Germany, is a national of a designated enemy country (Germany);

2. Finding that Original Laminated Patentbarrel Co. Inc. is a corporation organized under the laws of and doing business in the State of New York and is a business enterprise within the United States;

3. Finding that 160 shares of $100 par value common capital stock of Original Laminated Patentbarrel Co., Inc. are registered in the name of and owned by M. Georg Mueller;

4. Finding that said 160 shares constitute a substantial part (namely, 31.37%) of all the issued and outstanding capital stock of Original Laminated Patentbarrel Co. Inc. and represent an interest therein;

5. Finding, therefore, that Original Laminated Patentbarrel Co. Inc. is a national of a designated enemy country (Germany);

6. Determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country (Germany);

7. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

8. Deeming it necessary in the national interest;

hereby (i) vests in the Alien Property Custodian the property described in subparagraph 3 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States, and (ii) undertakes the direction, management, supervision and control of the Original Laminated Patentbarrel Co. Inc. to the extent deemed necessary or advisable from time to time by the undersigned.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof or to indicate that compensation will not be paid in lieu thereof, or to vary the extent of such direction, management, supervision or control or to terminate the same, if and when it should be determined that any of such action should be taken.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C., on June 5, 1943.

[Vesting Order 1747]

A. V. PUBLISHING CORPORATION

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Having found in Vesting Order No. 1640 of June 10, 1943, that German American Bund, an unincorporated association, with its principal office in New York, New York, is a business enterprise within the United States and is a national of a designated enemy country (Germany);

2. Finding that A. V. Publishing Corporation is a corporation organized under the laws of and doing business in the State of New York and is a business enterprise within the United States;

3. Finding that while none of the certificates of the common (voting) stock has been issued, four shares thereof, constituting control of A. V. Publishing Corporation, were authorized to be issued to the following:

	Share
G. Wilhelm Kunze	1
August Klapprott	1
Gustav J. Elmer	1
Willy Luedtke	—
Total	4

as officers of both A. V. Publishing Corporation and German American Bund, to be held by them in trust for the benefit of the German American Bund;

4. Finding that A. V. Publishing Corporation as an instrumentality of the German American Bund is controlled by and acts for and on behalf of a designated enemy country (Germany) or persons within such country;

5. Determining, therefore, that A. V. Publishing Corporation is a national of a designated enemy country (Germany);

6. Finding that the property described as follows:

All right, title and interest in and to, including the right to the issuance of certificates for, 4 shares of the no par value common stock of A. V. Publishing Corporation, authorized to be issued to G. Wilhelm Kunze, August Klapprott, Gustav J. Elmer, and Willy Luedtke, and to be held by them in trust for the benefit of the German American Bund,

is an interest in the aforesaid business enterprise held by a national of a designated enemy country (Germany);

7. Determining that to the extent that such nationals are not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country (Germany);

8. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

9. Deeming it necessary in the national interest;

hereby (i) vests in the Alien Property Custodian the property described in subparagraph 6 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States, and (ii) undertakes the direction, management, supervision and control of said business enterprise to the extent deemed necessary or advisable from time to time by the undersigned.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, or to vary the extent of such direction, management, supervision or control or to terminate the same, if and when it should be determined that any of such action should be taken.

Any person, except a national of a designated enemy country (Germany), asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of anw such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C., on June 24, 1943.

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate special account or accounts pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country", as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Dated: July 26, 1943.

OMAHA, NEBRASKA AREA

COORDINATED OPERATIONS OF CERTAIN TAXICAB OPERATORS

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof[1] (hereinafter called "operators") pursuant to General Order ODT 20 A (8 F.R. 9231), a copy of which plan is attached hereto as Appendix 2,[1] and it appearing that the operators propose, by the plan, to coordinate their taxicab operations within the area of Omaha, Douglas County, Nebraska, so as to assure maximum utilization of their facilities, services and equipment, and to conserve and providently utilize vital equipment, materials and supplies, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved, and the operators are directed to place the plan into operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the operators shall forthwith file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order.

3. The provisions of this order shall not be construed or applied as to permit any operator named herein to alter his legal liability to any passenger. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing operating authority of any operator named herein, such operator forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the operators possessing or obtaining the requisite operating authority.

4. All records of the operators pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

5. The plan for joint action hereby approved and all contractual arrangements made by the operators to effectuate the plan shall not continue in operation beyond the effective period of this order.

6. Any operator duly authorized or permitted to operate taxicabs within the area herein described, and having suitable equipment and facilities therefor, may make application in writing to the Division of Local Transport, Office of Defense Transportation, Chicago, Illinois, for authorization to participate in the plan. A copy of each such application shall be served upon each of the operators named in this order. Upon receiving authorization to participate in the plan, each such operator shall become subject to this order and shall thereupon be entitled and required to participate in the plan in accordance

FRESH FRUITS AND VEGETABLES IN THE DETROIT DISTRICT

Order No. G–2 under Maximum Price Regulation No. 376. Certain fresh fruits and vegetables.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by section 4 (c) of Maximum Price Regulation No. 376, and by him delegated to the District Director of the Detroit District Office of the Office of Price Administration under the provisions of that section, *It is hereby ordered:*

(a) *Maximum price.* (1) The maximum price per pound in the Detroit District for sales by any packer of repacked tomatoes packed by him shall be determined in accordance with the provisions of Order No. G–1 under Maximum Price Regulation No. 376 issued by the Cleveland Regional Office April 29, 1943, except that the packer's terminal base price per pound for repacked tomatoes shall be his terminal base price per pound for field grown tomatoes in the original container plus 2½ cents.

(b) *Definitions*—(1) "Repacked tomatoes" are tomatoes which have been selected, graded, culled, ripened and repacked in other than the original container.

(2) A "packer" shall be any wholesaler as defined in Order No. G–1 under Maximum Price Regulation No. 376 issued by the Cleveland Regional Office who purchases field grown tomatoes and processes them into repacked tomatoes.

(3) The definitions contained in Order No. G–1 under Maximum Price Regulation No. 376 issued by the Cleveland Regional Office are hereby incorporated into and made a part of this order.

(4) The Detroit District consists of the following counties of the State of Michigan:

Clinton.	Macomb.

[Region IV Order G–3 of Rev. MPR 122]

SOLID FUELS IN FULTON AND DE KALB COUNTIES, GA.

Order No. G–3 under § 1340.260 of Revised Maximum Price Regulation No. 122—Solid Fuels Sold and Delivered by Dealers. Maximum prices for solid fuels in Fulton and De Kalb Counties, in the State of Georgia.

Pursuant to the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122 and for reasons stated in the opinion issued herewith, *It is ordered:*

(a) *What this order does.* (1) This order establishes maximum prices for sales of specified solid fuels made in Fulton and De Kalb Counties in the State of Georgia. These are the highest prices that any dealer may charge when he delivers any of such fuel at or to a point in Fulton and De Kalb Counties in the State of Georgia; they are also the highest prices that any buyer in the course of trade or business may pay for them.

(2) This order contains three price schedules. The first applies to sales of high volatile bituminous coal for domestic or consumers delivery in various quantities and forms of delivery, and includes charges for services. The second applies to less than carload sales of forty tons or more of specified high volatile bituminous coals, and the third applies to carload sales of high volatile bituminous coals.

(b) *What this order prohibits.* Regardless of any obligation, no person shall (1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this Order No. G–3 but less than maximum prices may at any time be charged, paid, or offered,

(2) Obtain a higher than maximum price by (i) Charging for a service which is not expressly requested by the buyer and which is not specfically authorized by this order,

(ii) Charging a price higher than the schedule price for a service,

(iii) Making a charge higher than the schedule charge authorized for the extension of credit,

(iv) Using any tying agreement or making any requirement that anything other than the fuel requested by the buyer be purchased by him, or

(v) Using any other device by which a higher than maximum price is obtained, directly or indirectly.

(c) *Price schedule I—Sales on a "direct delivery or domestic" basis.* (1) Price Schedule 1 sets forth maximum prices for retail sales of specified sizes, kinds and quantities of solid fuels deliv-

ered to consumers at any point in Fulton and De Kalb Counties of the State of Georgia.

HIGH VOLATILE BITUMINOUS COAL FROM DISTRICT NOS. 8 AND 13

Size	Per ton 2,000 lbs.	Per ½ ton 1,000 lbs.	Per ¼ ton 500 lbs.
Lump, chunk, or block	$9.20	$4.85	$2.68
Egg	8.95	4.73	2.61
Stoker	8.95	4.73	2.61
Nut and slack	6.70	3.60	2.05
Montevallo 8" block	10.40	5.45	2.98

(2) *Maximum authorized service charges and deductions*—(i) *Carry or wheel service.* If buyer requests such service, the dealer may charge not more than 50 cents per ton for such service.

(ii) *Carry upstairs.* If buyer requests such service, the dealer may charge not more than $1.00 per ton for such service.

(iii) *Sacking.* Dealer may charge $1.00 per ton for the service of putting coal in sacks furnished by the purchaser; the dealer may charge $3.00 per ton for the same service if he furnishes the sacks.

(iv) *Credit.* Dealer may charge not more than 25 cents per ton for credit extending beyond 10 days after date of delivery.

(v) *Yard sales.* When the buyer picks up coal at the dealer's yard the dealer must reduce the domestic price of lump, chunk, or block coal $1.25 per ton, and must reduce the domestic price of egg coal $1.00 per ton on one ton or more.

(vi) *Less than ¼ ton yard sales.* On yard sales of sacked high volatile bituminous coal a dealer may charge not more than 50 cents per 80 lb. sack. On yard sales of unsacked coal in quantities of less than 500 pounds, buyer furnishing the take away receptacle, a dealer may charge not more than 40 cents per 100 lbs. for high volatile bituminous coal and may limit such sales to not less than 250 lbs.

(d) *Price Schedule II—Sales on less than carload commercial basis.* Price Schedule II sets forth maximum prices for commercial sales, 40 tons or more, of specified sizes and kinds of solid fuels delivered to consumers at any point in Fulton and DeKalb Counties in the State of Georgia.

HIGH VOLATILE BITUMINOUS COAL FROM DISTRICT NOS. 8 AND 13

Size:	Per ton 2,000 lbs.
Egg	$7.45
Nut and slack	6.25

(e) *Price Schedule III—Sales on commercial carload basis.* Price Schedule III sets forth maximum prices for commercial carload sales of specified sizes and kinds of solid fuels delivered to consumers at any point in Fulton and DeKalb Counties in the State of Georgia.

HIGH VOLATILE BITUMINOUS COAL FROM DISTRICT NOS. 8 AND 13

Size:	Per ton 2,000 lbs.
Egg	$6.80
Nut and slack	6.10

(f) *Ex parte 148 freight rate increase; transportation tax*—(1) *The freight rate increase.* Since the ex parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealer's freight rates are the same as those of December 1941. Therefore, no dealer may increase any schedule price on account of freight rates.

(2) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order provided the dealer states it separately from the price on the statement given to the buyer under paragraph (n) (2). But no part of that tax may be collected in addition to the maximum price on sales of quarter-ton or lesser quantities or on sales of any quantity of bagged coal.

(g) *Addition of increase in supplier's prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Administrator.

(h) *Petitions for amendment.* Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(i) *Power to amend or revoke.* The Price Administrator or Regional Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(j) *Applicability of other regulations.* Every dealer subject to this order is governed by the licensing and registration provisions of sections 15 and 16 of the General Maximum Price Regulation. Sections 15 and 16 provide, in brief, that a license is required of all persons selling at retail commodities for which maximum prices are established. It is not necessary to apply for the license, but a dealer may later be required to register. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(j) *Records and reports.* Every dealer subject to this order shall preserve, keep, and make available for examination by the Office of Price Administration, the same records he was required to preserve and keep under § 1340.262 (a) and (b) of Regulation No. 122.

It is not necessary that these maximum prices be filed with the War Price and Rationing Boards.

(k) *Posting of maximum prices: sales slips and receipts.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, the price charged and separately stating any item which is required to be separately stated by this order. This paragraph (n) (2) shall not apply to sales of quantities of less than one-quarter ton or to sales of bagged coal unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December 1941 customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size and quantity of the solid fuel sold to him or the price charged, the dealer shall comply with the buyer's request as made by him.

(l) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Atlanta Office of the Office of Price Administration.

(m) *Definitions and explanations.* When used in this Order No. G–3 the term,

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor representative of any of the foregoing, and includes the United States, any other government, or any agency or subdivision of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase" and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven, or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but, if this is physically impossible, the term means discharging the fuel directly from the seller's truck at a point where this can be done and at the point nearest and most accessible to the buyer's bin or storage space.

"Direct delivery" of bagged fuel or of any fuel in quarter ton or lesser lots always means delivery to the buyer's storage space.

(5) "Carry" and "wheel" refer to the movement of fuel to buyer's bin or storage space by wheelbarrow, barrel, sack or otherwise from the seller's truck or from the point of discharge therefrom when made in the course of "direct delivery".

(6) "Yard sales" shall mean deliveries made by the dealer in his customary manner at his yard or at any place other than his truck.

(7) "District No." refers to the geographical bituminous coal-producing districts as delineated and numbered by the Bituminous Coal Act of 1937, as amended.

(8) "High volatile bituminous coal" is produced in the high volatile sections of the producing districts specified herein.

(9) "Lump, egg, stoker, nut and slack" sizes of bituminous coal refer to the size of such coal as defined in the Bituminous Coal Act of 1937, as amended, and as prepared at the mine in accordance with the applicable minimum price schedule promulgated by the Bituminous Coal Division of the United States Department of the Interior, except that "domestic run-of-mine" shall be that size sold as such by the dealer.

(10) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.355 and 1340.266 of Regulation No. 122 shall apply to terms used herein.

(q) *Effect of order on Revised Maximum Price Regulation No. 122.* To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

This order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. C–3 shall become effective August 7, 1943.

[Fort Worth Order G–1 Under GO 50]

DOMESTIC MALT BEVERAGES IN THE FORT WORTH, TEXAS, DISTRICT

Order No. G–1 under General Order 50. Filing of prices by restaurants and similar establishments: Delegations of authority to fix maximum prices. Prices of domestic malt beverages in the Fort Worth District.

In the judgment of the District Director of Fort Worth, Texas, the prices of domestic malt beverages sold for immediate consumption in the counties of Archer, Bell, Concho, Falls, McLennan, Palo Pinto, Shackelford, Stephens, Tarrant, and Tom Green, Texas, have risen and are threatening further to rise to an extent and in a manner inconsistent with the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the District Director of Fort Worth, Texas, Region No. V, the maximum prices established by this order are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act. So far as practicable, the District Director of Fort Worth, Texas, Region V, gave due consideration to prices prevailing between October 1 and 15, 1941, and March, 1942, and April, 1943, and has consulted with the representatives of those affected by this regulation.

An opinion accompanying this order is issued simultaneously herewith.

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living" (F.R. 7565), 77th Congress, Second Session, and under the authority of Executive Order 9250, Executive Order 9328, and General Order No. 50, issued by the Administrator of the Office of Price Administration and Region V Delegation Order, dated April 13, 1943, District Director of Fort Worth, Texas, Region V hereby issues this Fort Worth Order No. G–1, establishing as maximum prices for domestic malt beverages sold for immediate consumption in the counties mentioned, the maximum prices set forth in section 9 herein.

SECTION 1. *What this order does.* In accordance with the provisions of General Order No. 50, this order establishes in section 9 hereof, "dollars-and-cents" maximum prices for certain beverage items offered for sale or sold by any "person" owning or operating an "eating or drinking place" located in the Fort Worth District, composed of the following counties in the State of Texas:

Archer.	Palo Pinto.
Bell.	Shackelford.
Concho.	Stephens.
Falls.	Tarrant.
McLennan.	Tom Green.

SEC. 2. *What this order covers.* The beverage items to which this order applies are: (a) Domestic malt beverages as defined in section 7 hereof and commonly known as beer or ale.

SEC. 3. *Prohibition against sales of beverage items above maximum prices.* (a) On and after the effective date of this order, regardless of any contract, agreement, lease, or other obligation:

(1) No person shall sell or deliver any beverage item subject to this order at higher prices than the maximum prices set forth herein.

(2) No person shall buy or receive any beverage item subject to this order in the course of trade or business at higher prices than the maximum prices set forth herein.

(3) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

SEC. 4. *Posting*—(a) *Selling prices.* All persons subject to this order must post in the "eating or drinking place", plainly visible to their customers, their selling prices for the beverage items listed in section 9 hereof, at or near the place where the beverage item is offered for sale.

(b) *Maximum prices.* All persons subject to this order must post in a conspicuous place in the "eating or drinking place" a list of the "dollars-and-cents" maximum prices of the beverage items offered for sale, so that such list will be plainly visible to their customers.

SEC. 5. *Applicability of General Order No. 50.* This order is subject to all the provisions of General Order No. 50 which are hereby made a part of this order.

SEC. 6. *Applicability of General Maximum Price Regulation.* The following sections of the General Maximum Price Regulation, as well as amendments thereto, shall be applicable to all "eating or drinking places", subject to this order:

(a) Sales slips and receipts—§ 1499.14.
(b) Registration—§ 1499.15.
(c) Licensing—§ 1499.16.

SEC. 7. *Definitions.* (a) "Domestic malt beverage" shall mean any and all malt beverages produced within the continental United States, or its territories and possessions, made by the alcoholic fermentation of an infusion or decoction, or combinations of both, in potable brewing water, of malted barley with hops, or their parts, or their products, and with or without other malted cereals, and with or without the addition of unmalted or prepared cereals, other carbohydrates or products prepared therefrom, and with or without the addition of carbon dioxide, and with or without other wholesome products suitable for human food consumption.

(b) "Domestic malt beverage sold on draught" means domestic malt beverage dispensed from a barrel, keg, or other container by a "person" owning or operating an "eating or drinking place" subject to this regulation.

(c) "Person" includes an individual, corporation, partnership, trust or estate, association, or other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, any state, county, or municipal government, or any of its political subdivisions, and any agencies of any of the foregoing: *Provided*, That no punishment provided by this regulation shall apply to the United States, or to any such government, political subdivisions, or agency.

(d) "Eating or drinking place" means any place, establishment, business, or location, whether temporary or permanent, stationary or movable, including, but not limited to, a restaurant, hotel, cafe, boarding house, coffee shop, tea room, private club, bar, tavern, delicatessen, soda fountain, cocktail lounge, catering business, or any other place from which any beverage item subject to this order is offered for sale or sold, except those places which are specifically exempted in section 8 hereof.

(e) "Beverage items" listed herein shall include all domestic malt beverages sold or served by "eating or drinking places" for consumption in or about the place or to be taken out for consumption, without additional preparation other than cooling.

(f) "Hotel room service sale" means sale to a guest or guests in a hotel room when delivery is made to a guest's hotel room.

(g) "Hotel" means any establishment generally regarded as such in its community and used predominately for transient occupancy.

(h) *Other definitions.* Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 and in the General Maximum Price Regulation, issued by the Office of Price Administration, shall apply to other terms used herein.

SEC. 8. *Exempt sales.* Sales by the following "eating or drinking places" are specifically exempt from the provisions of this regulation:

(a) Eating and drinking places (when operated as such) located on board common carriers, including railroad dining cars, club, bar, and buffet cars, and peddlers aboard railroad cars traveling from station to station.

(b) Hospitals, except for beverage items served to persons other than patients.

(c) Hotel room service sales.

(d) Any place of business which does not make sales of food or beverages for consumption on the premises where sold.

Such aforesaid sales, not otherwise exempt from price control, shall remain subject to the appropriate Maximum Price Regulation or order.

SEC. 9. *Maximum "dollars-and-cents" prices.* (a) The maximum "dollars-and-cents" prices which may be charged for the beverage items subject to this order, are:

(1) In bottles	Maximum price per bottle	
	12 oz.	32 oz.
Brand or trade name:	*Cents*	*Cents*

(2) *On draught.* All brands domestic malt beverage (beer or ale) ten (10) fluid ounces, exclusive of foam, for ten cents (10¢).

Other quantities of any or all brands of domestic malt beverage (beer or ale), sold on draught, may be sold by any "eating or drinking place" to which this order applies: *Provided,* That such "eating or drinking place" dispenses no less than one (1) fluid ounce, exclusive of foam, of domestic malt beverage (beer or ale) for each one cent (1¢) charge.

(3) *Non-labeled bottles.* Any domestic malt beverage item (beer or ale) offered for sale or sold in bottles by any "eating or drinking place" subject to this regulation, which does not have the manufacturer's label affixed thereto, or the trade name or brand stamped, printed, or engraved or appearing in raised letters on the cap or bottle as proper identification, shall not be offered for sale or sold at a price higher than the lowest maximum price fixed herein for the size of bottle of domestic malt beverage (beer or ale) offered for sale or sold.

SEC. 10. *Less than maximum prices.* Lower prices than those established by this order may be charged, demanded, paid or offered.

SEC. 11. *Other brands of domestic malt beverages.* Any person subject to this order desiring to sell any other trade name or brand of domestic malt beverage not specifically priced by section 9 herein, shall, before offering such domestic malt beverage for sale, apply to and receive from the Fort Worth District Office of the Office of Price Administration a maximum price for such beverage.

Such application need not be in any particular form, but must contain the following information: Name and address of applicant, location and type of "eating or drinking place", trade name or brand of domestic malt beverage, size of bottle, and cost per case, delivered. The Fort Worth District Office of the Office of Price Administration shall then fix the maximum price for such trade name or brand of domestic malt beverage, and shall notify such applicant accordingly. The price so fixed shall be the maximum price for which such trade name or brand of domestic malt beverage may be sold by such applicant.

SEC. 12. *Taxes.* The dollars-and-cents maximum prices for the beverage items listed in section 9 hereof, include municipal, state, and federal taxes in effect as of the effective date of this regulation. In the event of an increase in an existing tax or of the levy of a new or additional tax, not in effect on the effective date of this regulation, the Fort Worth District Director of the Office of Price Administration may make such adjustment in the maximum prices provided for herein, as may appear equitable and just.

SEC. 13. *Evasion.* The price limitations set forth in this order shall not be evaded by direct or indirect methods in connection with an offer, solicitation, agreement, sale or delivery of, or relating to the sale of any beverage item, alone or in connection with any other commodity or by way of commission, service, transportation, or any charge or discount, premium, or other privilege, or by tying agreement or other trade understanding, or by any other means, manner, method, device, scheme, or artifice, or otherwise.

SEC. 14. *Enforcement.* "Persons" violating any provisions of this order are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages, provided by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Petition for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment, in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with and acted upon by the District Director.

SEC. 16. *Effective date.* This order becomes effective at 12:01 a. m., central war time, July 26, 1943.

SEC. 17. *Revocation.* This order may be amended, corrected, revised, or revoked at any time.

NOTE: The reporting and record keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Oklahoma City Order G-1 Under G. O. 50, Amdt. 1]

DOMESTIC MALT BEVERAGES IN THE OKLAHOMA CITY, OKLA. DISTRICT

Order No. G-1, Amendment No. 1 under General Order No. 50. Filing of prices by restaurants and similar establishments: Delegation of authority to fix maximum prices.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Oklahoma City, Oklahoma, District Office of Region V of the Office of Price Administration by General Order No. 50, issued by the Administrator of the Office of Price Administration, and Region V Delegation Order dated April 13, 1943, *It is hereby ordered,* That section 11 be amended to read as set forth below:

SEC. 11. *Other brands of domestic malt beverages.* Any person subject to this order desiring to sell any domestic malt beverage of a trade name or brand not specifically priced by section 9 herein shall determine the price of such domestic malt beverages in the following manner:

If the bona fide net cost of the unlisted brand of domestic malt beverage is $1.99 or less per case of 24 twelve-ounce bottles, the maximum retail ceiling price shall be 11 cents per 12-ounce bottle. Such unlisted brands of domestic malt beverage in the 32-ounce size shall have a maximum retail ceiling price of 26 cents per 32-ounce bottle.

If the bona fide net cost of the unlisted brand of domestic malt beverage is $2 or more per case of 24 twelve-ounce bottles, the maximum retail ceiling price shall be 16 cents per 12-ounce bottle. Such unlisted brands of domestic malt beverage in the 32-ounce size shall have a maximum retail ceiling price of 36 cents per 32-ounce bottle.

Domestic malt beverage served in any container other than 12-ounce or 32-ounce shall be priced on an exact quantity ratio basis adjusted to the nearest cent; such ratio shall be to either the 12-ounce size or the 32-ounce size of the same brand, whichever is most nearly comparable in size.

The retailer is required to maintain and make available to any authorized representative of the Office of Price Administration invoices, receipts, or other prima facie evidence, to substantiate such net cost, and, in addition, such evidence must identify the source of supply by name and address.

"Net cost" as that term is used herein means the price charged by the wholesale supplier of domestic malt beverage to the retailer provided that such price is not in excess of the wholesale supplier's maximum ceiling price as determined under Maximum Price Regulation No. 259.

Within five days after determining the price for a new brand of malt beverage, the seller shall report the price so determined to the Price Panel of the War Price and Rationing Board of the county in which said place of business is located, setting forth the brand, unit package, and net cost, and also the source of supply, whether jobber, wholesaler, manufacturer or distributor. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Amendment to Order No. G-1 under General Order No. 50 shall become effective at 12:01 a. m., central war time, July 21, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681, Gen. Order 50, 8 F.R. 4808.

[Region VI Order G-2 Under SR 15 to GMPR]

FLUID MILK IN GRAND FORKS, N. DAK., AND EAST GRAND FORKS, MINN.

Order No. G-2 under § 1499.75 (a) (2) of Supplementary Regulation No. 15 to the General Maximum Price Regulation. Adjustment of fluid milk prices in Grand Forks, North Dakota and East Grand Forks, Minnesota. (Formerly Order No. G-13.)

The Regional Administrator has determined on his own motion after investigation that (1) the price paid to producers by manufacturers of butter, cheese, condensed and evaporated milk, or milk powder for milk produced within the milk shed on which Grand Forks, North Dakota, and East Grand Forks, Minnesota, depend for their supply of fluid milk has increased 41¢ or more per cwt. since March 1942; (2) distributors of fluid milk in said locality, which has a population of less than 100,000, in order to obtain the supply of milk for fluid use necessary to satisfy the normal requirements of the locality, are paying producers of such milk at least 41¢ more per cwt. than they paid in March 1942, and (3) notwithstanding the savings that have been effected or which may be effected as the result of the adoption of all practicable measures designed to reduce distribution costs, such distributors cannot fairly be expected to continue to distribute milk in the locality hereinafter designated at the maximum prices established for them under § 1499.2 of the General Maximum Price Regulation.

Accordingly, for the reasons more fully set forth in the accompanying opinion and pursuant to the Emergency Price Control Act of 1942, and sub-paragraph (2) (ii) of § 1499.75 (a) of Supplementary Regulation No. 15 to the General Maximum Price Regulation, *It is ordered:*

1. Subject to the limitations in paragraph 3 hereof the maximum prices established for sellers of milk at wholesale and retail by § 1499.2 of the General Maximum Price Regulation are herein increased as follows:

	Gallon	Quart	Pint	½ pint
Wholesale (cents)	4.0	1.0	0.5	0.25
Retail (cents)	4.0	1.0	.5	.25

2. Where the adjusted maximum price is a unit figure containing a fraction of a cent, the seller at wholesale must multiply such fractional per unit figure by the number of units in each sale. The seller at retail, however, will adjust unit figures containing a fraction of a cent to the next highest half cent; for example, a maximum price of 12½¢ for one unit would be adjusted to 13¢ for one unit, 25¢ for two units, etc.

3. No distributor shall sell or deliver any milk at the increased prices provided for under section 1 hereof until and unless the following requirements have been met:

(a) With respect to a distributor who buys directly from a producer, until and unless he shall have purchased or contracted to purchase fluid milk from a producer at a price of 41¢ or more per cwt. in excess of the highest price paid in March 1942, and shall have reported such fact to the Regional Office of the Office of Price Administration located in Chicago, Illinois, or a duly authorized representative thereof.

(b) With respect to a seller at retail purchasing milk from a distributor at wholesale until and unless he shall have purchased or contracted to purchase milk at a price increase. In no event shall the maximum price of such seller at retail be increased by more than the highest increase in cost to himself.

4. Every person selling milk in bottles or paper containers at the increased prices herein permitted to a seller at retail shall furnish each such purchaser of milk with a statement which may be substantially in the following form.

The prices for milk have been increased in the amounts indicated below pursuant to permission of the Office of Price Administration. You are permitted to increase your prices by the same amount.

	Price increase
Gallon	----
Quart	----
Pint	----
½ pint	----

5. This order shall apply to sales and deliveries within the cities of Grand Forks, North Dakota and East Grand Forks, Minnesota, and within an area of one mile from the respective city limits thereof.

6. Milk shall mean cow's milk produced, processed, distributed and sold for consumption in fluid form as whole milk. Sales at wholesale or retail shall include all sales whether by producer, distributor or other person of milk in bottles or paper containers.

7. All sellers of milk who purchase milk directly from the producers thereof shall file with the Chicago Regional Office of the Office of Price Administration a statement on the 20th day of each month beginning with December 1942 of the prices paid by them to producers of milk for all milk purchased during the preceding month.

8. Every seller of milk at retail shall make the necessary changes in its posting of maximum prices for cost-of-living commodities required by section 13 of the General Maximum Price Regulation, to reflect the increase in maximum prices for fluid milk in accordance with the permission granted hereby.

9. A copy of this order shall be sent to all known distributors of fluid milk and to the appropriate War Price & Rationing Board, and insofar as practicable the information contained herein shall be made available to the press serving Grand Forks, North Dakota and East Grand Forks, Minnesota.

10. This order shall be effective from the date hereof. It is subject to revocation or amendment by the Regional Administrator at any time hereafter upon a finding that butterfat prices have decreased to the point where no diversion is threatened or for other reasons. This Order is further subject to revocation by any price regulation issued hereafter, or by any supplement or amendment hereafter issued as to any price regulation the provisions of which may be contrary hereto.

(Pub. Laws 421 and 279, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 16th day of November 1942.

[Region VI Order G–3 Under SR 15 to GMPR]

FLUID MILK IN THE BLACK HILLS AREA OF SOUTH DAKOTA

Order No. G–3 under § 1499.75 (a) (2) of Supplementary Regulation No. 15 to the General Maximum Price Regulation. Adjustment of fluid milk prices in Black Hills Area, South Dakota. (Formerly Order No. 14.)

The Regional Administrator has determined on his own motion after investigation that (1) the price paid to producers by manufacturers of butter, cheese, condensed and evaporated milk, or milk powder for milk produced within the milk shed on which the Black Hills area in South Dakota depends for their supply of fluid milk has increased 41¢ or more per cwt. since March 1942; (2) distributors of fluid milk in said locality, which has a population of less than 100,000, in order to obtain the supply of milk for fluid use necessary to satisfy the normal requirements of the locality, are or shortly will be paying to producers of such milk at least 41¢ more per cwt. than they paid in March 1942, and (3) notwithstanding the savings that have been effected or which may be effected as the result of the adoption of all practicable measures designed to reduce distribution costs, such distributors cannot fairly be expected to continue to distribute milk in the locality hereinafter designated at the maximum prices established for them under § 1499.2 of the General Maximum Price Regulation.

Accordingly, for the reasons more fully set forth in the accompanying opinion and pursuant to the Emergency Price Control Act of 1942, and subparagraph (2) (ii) of § 1499.75 (a) of Supplementary Regulation No. 15 to the General Maximum Price Regulation, *It is ordered:*

1. Subject to the limitations in paragraph 3 hereof the maximum prices established for sellers of milk at wholesale and retail by § 1499.2 of the General Maximum Price Regulation are herein increased as follows:

	Gallon	Quart	Pint	Half pint
Wholesale (cents)	4.0	1.0	0.5	0.25
Retail (cents)	4.0	1.0	.5	None

2. Where the adjusted maximum price is a unit figure containing a fraction of a cent, the seller at wholesale must multiply such fractional per unit figure by the number of units in each sale. The seller at retail, however, will adjust unit figures containing a fraction of a cent to the next highest half cent; for example, a maximum price of 12½¢ for one unit would be adjusted to 13¢ for one unit, 25¢ for two units.

3. No distributor shall sell or deliver any milk at the increased prices provided for under section 1 hereof until and unless the following requirements have been met:

(a) With respect to a distributor who buys directly from a producer, until and unless he shall have purchased or contracted to purchase fluid milk from a producer at a price of 41¢ or more per cwt. in excess of the highest price paid in March 1942, and shall have reported such fact to the South Dakota State Office of the Office of Price Administration, or a duly authorized representative thereof.

(b) With respect to a seller at retail purchasing milk from a distributor at wholesale until and unless he shall have purchased or contracted to purchase milk at a price increase. In no event shall the maximum price of such seller at retail be increased by more than the highest increase in cost to himself.

4. Every person selling milk in bottles or paper containers at the increased prices herein permitted to a seller at retail shall furnish each such purchaser of milk with a statement which may be substantially in the following form:

The prices for milk have been increased in the amounts indicated below pursuant to permission of the Office of Price Administration. You are permitted to increase your prices by the same amount.

	Price increase
Gallon	-------
Quart	-------
Pint	-------
½ pint	None.

5. This order shall apply to sales and deliveries within the area of the State of South Dakota described as follows: all of Butte, Lawrence, Custer and Fall River Counties, and that part of Pennington and Meade Counties lying west of a line extended south from the eastern boundary of Butte County, to a point where such line intersects the north boundary of Custer County, except the area already covered by Order No. 2 (redesignated as Order No. G–2) under Amendment No. 34 to Supplementary Regulation No. 14 dated October 7, 1942, being the area written by the city limits of Rapid City and within six miles from the city limits thereof and in addition the Rapid City Army Air Base.

6. Milk shall mean cow's milk produced, processed, distributed and sold for consumption in fluid form as whole milk. Sales at wholesale or retail shall include all sales whether by producer, distributor or other person of milk in bottles or paper containers.

7. All sellers of milk who purchase milk directly from the producers thereof shall file with the South Dakota State Office of the Office of Price Administration a statement on the 20th day of each month beginning with December 1942 of the prices paid by them to producers of milk for all milk purchased during the preceding month.

8. Every seller of milk at retail shall make the necessary changes in its posting of maximum prices for cost-of-living commodities required by section 13 of the General Maximum Price Regulation, to reflect the increase in maximum prices for fluid milk in accordance with the permission granted hereby.

9. A copy of this order shall be sent to all known distributors of fluid milk and to the appropriate War Price and Rationing Boards, and insofar as practicable the information contained herein shall be made available to the press serving the Black Hills area.

10. This order shall be effective from the date hereof. It is subject to revocation or amendment by the Regional Administrator at any time hereafter upon a finding that butterfat prices have decreased to the point where no diversion is threatened or for other reasons. This order is further subject to revocation by any price regulation issued hereafter, or by any supplement or amendment hereafter issued as to any price regulation the provisions of which may be contrary hereto.

FLUID MILK IN VELVA, N. DAK.

Order No. G–4 under § 1499.75 (a) (2) of Supplementary Regulation No. 15 to the General Maximum Price Regulation. Adjustment of fluid milk prices in Velva, North Dakota. (Formerly Order No. 15.)

The Regional Administrator has determined on his own motion after investigation that (1) the price paid to producers by manufacturers of butter, cheese, condensed and evaporated milk or milk powder for milk produced within the milk shed on which Velva, North Dakota depends for its supply of fluid milk has increased 41¢ or more per cwt. since March 1942; (2) distributors of fluid milk in said locality, which has a population of less than 100,000, in order to obtain the supply of milk for fluid use necessary to satisfy the normal requirements of the locality, are paying producers of such milk at least 41¢ more per cwt. than they paid in March 1942, and (3) notwithstanding the savings have been effected or which may be effected as the result of the adoption of all practicable measures designed to reduce distribution costs, such distributors cannot fairly be expected to continue to distribute fluid milk in the locality hereinafter designated at the maximum prices established for them under § 1499.2 of the General Maximum Price Regulation.

Accordingly, for the reasons more fully set forth in the accompanying opinion and pursuant to the Emergency Price Control Act of 1942, and sub-paragraph (2) (ii) of § 1499.75 (a) of Supplementary Regulation No. 15 to the General Maximum Price Regulation, *It is ordered:*

1. Subject to the limitations in paragraph 3 hereof the maximum prices established for sellers of milk at wholesale and retail by § 1499.2 of the General Maximum Price Regulation are herein increased as follows:

	Quart	Pint	½ pint
Wholesale (cents)	1.0	0.5	0.25
Retail (cents)	1.0	.5	None

2. Where the adjusted maximum price is a unit figure containing a fraction of a cent, the seller at wholesale must multiply such fractional per unit figure by the number of units in each sale. The seller at retail, however, will adjust unit figure containing a fraction of a cent to the next highest half cent; for example, a maximum price of 12½¢ for one unit would be adjusted to 13¢ for one unit, 25¢ for two units, etc.

3. No seller at retail purchasing milk from a distributor at wholesale shall sell milk at the increased prices provided by paragraph 1 hereof until and unless he shall have purchased or contracted to purchase milk at an increased price.

4. Every person selling milk in bottles or paper containers at the increased prices herein permitted to a seller at retail shall furnish each such purchaser of milk with a statement which may be substantially in the following form:

The prices for milk have been increased in the amounts indicated below pursuant to permission of the Office of Price Administration. You are permitted to increase your prices by the same amount.

	Price increase
Quart	--------

5. This order shall apply to all sales and deliveries within the City of Velva, North Dakota, within an area of one mile of the city limits thereof and to sales and deliveries made to the Truax Traer mine located near Velva, North Dakota and to persons employed in said mine and any retailers serving said employees.

6. Milk shall mean cow's milk produced, processed, distributed and sold for consumption in fluid form as whole milk. Sales at wholesale or retail shall include all sales whether by producer, distributor, or other person, of milk in bottles or paper containers.

7. All sellers of milk who purchase milk directly from the producers thereof shall file with the North Dakota State Office of the Office of Price Administration a statement on the 20th day of each month beginning with December 1942 of the prices paid by them to producers of milk for all milk purchased during the preceding month.

8. Every seller of milk at retail shall make the necessary changes in its posting of maximum prices for cost-of-living commodities required by section 13 of the General Maximum Price Regulation, to reflect the increase in the maximum prices for fluid milk in accordance with the permission granted hereby.

9. A copy of this order shall be sent to all known distributors of fluid milk and to the appropriate War Price and Rationing Board and insofar as practicable the information contained herein shall be made available to the press serving Velva, North Dakota.

10. This order shall be effective from the date hereof. It is subject to revocation or amendment by the Regional Administrator at any time hereafter upon a finding that butterfat prices have decreased to the point where no diversion is threatened or for other reasons. This order is further subject to revocation by any price regulation issued hereafter, or by any supplement or amendment hereafter issued as to any price regulation the provisions of which may be contrary hereto.

Order No. G-9 under § 1499.75 (a) (2) of Supplementary Regulation No. 15 to the General Maximum Price Regulation. Adjustment of fluid milk prices in Rockford, Illinois. (Formerly Order No. 20.)

The Regional Administrator has determined on his own motion after investigation that (1) the price paid to producers by manufacturers of butter, cheese, condensed and evaporated milk or milk powder for milk produced within the milk shed on which Rockford, Illinois depends for its supply of fluid milk has increased 41¢ or more per cwt. since March 1942; (2) distributors of fluid milk in said locality, which has a population of less than 100,000, in order to obtain the supply of milk for fluid use necessary to satisfy the normal requirements of the locality are paying producers of such milk at least 41¢ more per cwt. than they paid in March 1942, and (3) notwithstanding the savings that have been effected as the result of the adoption of all practicable measures de-

signed to reduce distribution costs, such distributors cannot fairly be expected to continue to distribute fluid milk in the locality hereinafter designated at the maximum prices established for them under § 1499.2 of the General Maximum Price Regulation.

Accordingly, for the reasons more fully set forth in the accompanying Opinion and pursuant to the Emergency Price Control Act of 1942, and subparagraph (2) (ii) of § 1499.75 (a) of Supplementary Regulation No. 15, *It is ordered:*

1. The maximum prices for milk in quart containers at wholesale and retail shall be the prices established for such sellers under § 1499.2 of the General Maximum Price Regulation or the following prices, whichever shall be higher:

	Wholesale to stores	Retail out of stores	Home delivery
Quarts (cents)	9.5	11.0	12.5

2. This order shall apply to all sales and deliveries within the City of Rockford, Illinois, and within an area of two miles of the city limits thereof.

3. Milk shall mean cow's milk produced, processed, distributed and sold for consumption in fluid form as whole milk. Sales at wholesale or retail shall include all sales whether by producer, distributor, or other person, of milk in bottles or paper containers.

4. All sellers of milk who purchase milk directly from the producers thereof shall file with the Illinois State Office of the Office of Price Administration a statement on the 20th day of each month beginning with December 1942 of the prices paid by them to producers of milk for all milk purchased during the preceding month.

5. Every seller of milk at retail shall make the necessary changes in its posting of maximum prices for cost-of-living commodities required by section 13 of the General Maximum Price Regulation, to reflect the increase in the maximum prices for fluid milk in accordance with the permission granted hereby.

6. A copy of this order shall be sent to all known distributors of fluid milk and to the appropriate War Price and Rationing Board and insofar as practicable the information contained herein shall be made available to the press serving Rockford, Illinois.

7. This order shall be effective from the date hereof. It is subject to revocation or amendment by the Regional Administrator at any time hereafter upon a finding that butterfat prices have decreased to the point where no diversion is threatened or for other reasons. This order is further subject to revocation by any price regulation issued hereafter, or by any supplement or amendment hereafter issued as to any price regulation the provisions of which may be contrary hereto.

BITUMINOUS COAL IN WORCESTER, MASS.

Order No. G-8 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers—straight run of mine bituminous coal—Worcester, Massachusetts area.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by §§ 1340.259 (a) (1) and 1340.260 of Revised Maximum Price Regulation No. 122 and the Emergency Price Control Act of 1942, as amended, *It is hereby ordered:*

(a) *Maximum prices.* The maximum prices established by §§ 1340.254, 1340.256 and 1340.265 of Revised Maximum Price Regulation No. 122 for Straight Run of Mine bituminous coal sold and delivered in the Worcester, Massachusetts Area by dealers are modified, so that the maximum prices therefor per net ton shall be as follows:

Customer classifications: (net ton):	Price per net ton
1–2	$10.75
3–60	9.95
61–500	9.35
Over 500	9.10

(b) *Terms and conditions of sale.* (1) The maximum prices established hereby are for delivery of the coal into customer's bin. No additional charge shall be added thereto for carrying or wheeling from truck to bin or for trimming in the bin.

(2) Terms of sale shall be 2% 10 days, net 30 days.

(3) A dealer subject to this order may collect, in addition to the specified maximum prices established herein, provided he states it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by him, or an amount equal to the amount of such tax paid by any of his prior suppliers and separately stated and collected from the dealer by the supplier from whom he purchased.

(c) *Customer classifications.* The classification of a customer in one of the tonnage classifications set forth in the Table of Prices in section (a) shall be made upon the basis of that customer's total annual consumption even though he may purchase portions thereof from two or more dealers. In the event that it is impossible for any reason to determine the customer's proper classification at the time of the sale or delivery (as, for example, in the case of a customer who converts from oil to coal), an estimate shall be made of his probable consumption, he shall be tentatively classified upon the basis of that estimate, and the dealer or dealers supplying him shall make an appropriate refund and may require that the customer agree to pay an appropriate additional amount if, when his actual classification has been determined, it appears that he was entitled to a lower price or could properly have been charged a higher one.

(d) *Definitions.* (1) "Straight run of mine bituminous coal" means bituminous coal produced in Producing District 1 which contains all of the coal as produced at the mine; that is, from which no screenings or other sizes have been removed. It shall not include the coal commonly sold by the dealers in the Worcester, Massachusetts Area as "Lumpy run of mine," and which is bituminous coal produced in Producing District 1 and defined by the Bituminous Coal Division as "Domestic, dealer, modified or screened run of mine."

(2) The "Worcester, Massachusetts area" shall consist of the following cities and towns in the Commonwealth of Massachusetts: Auburn, Boylston, Grafton, Holden, Leicester, Millbury, Paxton, Shrewsbury, West Boylston and Worcester.

(3) "Dealer" means any person selling bituminous coal except coal which is delivered from a mine or preparation plant by a producer or distributor, or a person who sold bituminous coal subject to Revised Maximum Price Regulation No. 122 or subject to Maximum Price Regulation No. 122.

(4) "Bituminous Coal Division" means the Bituminous Coal Division of the United States Department of the Interior, and all references to Producing Districts are to the geographical bituminous coal producing districts as defined in the Bituminous Coal Act of 1937, as amended, and as they have been or may be modified from time to time by the Bituminous Coal Division.

(5) Except as otherwise specifically provided, and unless the context otherwise requires, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to the terms used herein.

(e) *Applicability of Revised Maximum Price Regulation No. 122.* Except as otherwise provided herein, the provisions of Revised Maximum Price Regulation No. 122 shall apply to all transactions which are the subject of this order, except that prices established hereby need not be reported under § 1340.262 (c) of Revised Maximum Price Regulation No. 122.

(f) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed in the Boston Regional Office of the Office of Price Administration. No appeal from a denial in whole or in part of such petition by the Regional Administrator may be made to the Price Administrator.

(g) Lower prices than those set forth herein may be charged, paid or offered.

(h) This order may be revoked, amended or corrected at any time.

This order shall become effective July 30, 1943.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 59-41, 70-312]

MICHIGAN GAS AND ELECTRIC CO. AND THE MIDDLE WEST CORP.

NOTICE OF FILING AND ORDER FOR HEARING AND DIRECTING CONSOLIDATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 31st day of July, A. D., 1943.

Notice is hereby given that an amended declaration or application (or both) has been filed with the Commission pursuant to the Public Utility Holding Company Act of 1935 by Michigan Gas and Electric Company, a subsidiary company of The Middle West Corporation, a registered holding company. All interested persons are referred to said amended declaration or application, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Michigan Gas and Electric Company is a subsidiary company of The Middle West Corporation, a registered holding company. The Michigan company heretofore filed an application, and amendments thereto, pursuant to section 6 (b) of the Act, for exemption from the provisions of section 6 (a) of the Act of the issuance and sale of $3,500,000 principal amount of its First Mortgage Bonds, due March 1, 1972, and $750,000 principal amount of its Serial Debentures, due serially September 1, 1942–March 1, 1952 (File No. 70–312). The Commission ordered a hearing on said application, and instituted proceedings under sections 11 (b) (2), 12 (c) and 15 (f) of the Act against the Michigan company and Middle West (File No. 59–41). The two proceedings were consolidated for hearing.

On June 6, 1942, this Commission entered an Order in said proceedings granting the amended application of the Michigan company, subject to the condition, among others, "that Michigan Gas and Electric Company by appropriate charges to earned surplus set up a reserve for plant adjustments in the amount of $470,000". Said Order further provided "that jurisdiction be and is hereby reserved to consider all matters in these proceedings not hereby determined, including specifically, without limiting the generality of the foregoing, proper statement of the accounts of Michigan Gas and Electric Company, appropriate changes in its reserve for plant adjustments, fair and equitable distribution of voting power among its security holders, restriction of dividends, and any other problems presented under sections 11 (b) (2), 12 (c), 15 (f) and other applicable sections of the Act." Hearings are being held in the proceedings, pursuant to said reservation of jurisdiction.

On June 9, 1942, the Michigan company entered on its books a charge in the amount of $470,000 against earned surplus and a credit in the amount of $470,000 to "reserve for plant adjustments". The effect of making said entry on the Michigan company's books in compliance with said condition of the Commission's said order was to place the earned surplus of the Michigan company in a deficit position. Such earned surplus deficit amounted to approximately $208,400 at June 30, 1942, and to $30,065 at December 31, 1942.

The Michigan company now proposes (1) to reverse on its books said entry of June 9, 1942, above referred to, by charging the "reserve for plant adjustments" account now existing on its books with the sum of $470,000 and by crediting earned surplus on its books with the sum of $470,000; (2) to create capital surplus on its books in the amount of $781,000 through a reduction of its common capital or common capital stock in the amount of $781,000 to be effected by the surrender for cancellation and the retirement of 5,935 shares (out of 15,560 shares presently outstanding) of its $100 par value common stock and 2,500 shares (all presently outstanding) of its no par value common stock, stated value $187,500; (3) to charge such capital surplus with the sum of $470,000 and credit gas utility plant adjustment account with the sum of $470,000; and (4) to use the remainder of such capital surplus ($311,000) to write off such additional items as may be determined in the proceedings, or as a reserve for such purpose, any balance to be available for proper corporate purposes.

The Michigan company states that, so far as it can ascertain from its records, it has received no consideration of any substantial value for $470,000 par amount of its capital stock and has no objection to the elimination of that amount from its plant account through capital surplus to be created by the surrender for cancellation and the retirement of $470,000 par amount of common capital stock of the Michigan company now outstanding.

Middle West and Halsey, Stuart & Co., Inc., holders of the outstanding shares of common capital stock of the Michigan company, have agreed informally to surrender to the Michigan company without consideration, for cancellation and retirement, the 8,435 shares of common stock, for the purposes stated above. Middle West would surrender 4,785 shares (retaining 6,885 shares) of the $100 par value common stock and 1,250 shares (retaining none) of the no par value common stock. Halsey, Stuart & Co., Inc. would surrender 1,150 shares (retaining 2,740 shares) of the $100 par value common stock and 1,250 shares (retaining none) of the no par value common stock.

The Michigan company further proposes to amend its Articles of Incorporation to provide in part as follows:

(1) Each outstanding share of stock of every class shall have one vote, except as otherwise provided by Michigan law and by the amended Articles, on all matters voted upon at any meeting of stockholders.

(2) If at the date of any annual election of directors dividends equivalent to four quarterly dividend installments shall be in default on any outstanding shares entitled to any dividend preference over any other shares, then at such annual election and at each annual election of directors held thereafter, until such default shall have been remedied, the holders of all preference shares, voting as a single class separately from the common stock, shall be entitled to elect the smallest number of directors necessary to constitute a majority of the board, and the common stock, voting separately as a class, shall be entitled to elect the remaining directors.

(3) Any default in dividends on any preference stock shall be deemed remedied when all dividends on each such share shall have been paid in full. Dividends shall be deemed to have been paid in full whenever legally declared and paid, or whenever there shall be surplus or net earnings, earned since the date of the default which gave rise to the special voting right, legally available for such dividends.

(4) Special voting rights for the preference stock shall terminate whenever the default or defaults giving rise to such rights shall have been remedied.

The Michigan company further proposes, out of its earned surplus (to be restored as above set forth), forthwith to pay all arrears ($305,611 at February 28, 1943) in dividends on its Prior Lien Stock, and to resume payment of regular dividends on its Prior Lien Stock and on its Preferred Stock. The Michigan company further proposes to make payments on the arrears of dividends on its Preferred Stock from time to time in such amounts as may be feasible.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, and that said amended application shall not be granted nor said amended declaration permitted to become effective except pursuant to further order of this Commission; and

It further appearing to the Commission that some of the evidence in the pending proceedings under sections 11 (b) (2), 12 (c) and 15 (f) of the Act (File No. 59–41) is also relevant to said amended declaration or application filed by Michigan Gas and Electric Company, and that there are common issues to be determined in both proceedings; *It is ordered,* That a hearing on such matters under the applicable provisions of the Act and rules of the Commission thereunder be held on August 24, 1943 at 10 o'clock a. m. e. w. t. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pa. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why such amended declaration or application (or both) shall become effective or shall be granted.

It is further ordered, That Charles S. Lobingier or any other officer or officers of the Commission designated for that purpose shall preside at the hearing on such matters. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to this Commission under section 18 (c) of the Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of the issues presented by

such amended declaration or application (or both) otherwise to be considered in this proceeding particular attention will be directed at the hearing to the following matters and questions, in addition to those involved in the pending proceedings:

(1) Whether, under section 12 (c) and 12 (f) of the Act, the proposed acquisition by Michigan Gas and Electric Company of shares of its common stock, the proposed surrender by The Middle West Corporation, for cancellation, of shares of the common stock of Michigan Gas and Electric Company, and the proposed declaration and payment of dividends by Michigan Gas and Electric Company would be consistent with protection of the financial integrity and working capital of Michigan Gas and Electric Company and of The Middle West Corporation.

(2) Whether, under section 15 (f) of the Act, the proposed entries, charges and credits in and to the books and accounts of Michigan Gas and Electric Company would properly reflect the proposed transactions.

(3) Whether, and in what amounts, the plant accounts of Michigan Gas and Electric Company include items properly to be recorded as plant adjustments (Account 107), and whether, under section 15 (f) of the Act, such amounts may properly be charged to or reserved for out of capital surplus to be created in the manner proposed.

(4) Whether, under sections 6 (a) (2) and 7 (e) of the Act, the proposed amendment to the Articles of Incorporation of Michigan Gas and Electric Company would result in an unfair or inequitable distribution of voting power among holders of the securities of Michigan Gas and Electric Company or be otherwise detrimental to the public interest or the interest of investors or consumers.

(5) Whether, under sections 6 (a) (2) and 7 (g) of the Act, the proposed amendment to the Articles of Incorporation of Michigan Gas and Electric Company would comply with State laws applicable to said proposed amendment.

(6) Whether, pursuant to sections 6 (a) (2), 7 (e), 7 (f), 7 (g), 12 (c), 15 (f) and other applicable sections of the Act, it is necessary or appropriate to impose any terms and conditions with respect to the proposed transactions in the public interest, for the protection of investors and consumers, or in order to assure compliance with the standards of the Act.

It is further ordered, In the interest of expeditious procedure that the hearing on the matters recited above be and the same is hereby consolidated for hearing with the pending proceedings in the matter of Michigan Gas and Electric Company and The Middle West Corporation, Files No. 59-41 and 70-312, and that evidence be taken in said consolidated hearing with respect to both proceedings, reserving however the right at any time hereafter to sever said proceedings and to issue separate orders therein.

It is further ordered, That notice of said hearing is hereby given to Michigan Gas and Electric Company and The Middle West Corporation, their respective security holders, all States, municipalities and political subdivisions of States within which are located any of the physical assets of said companies, or under the laws of which any of said companies are incorporated, all State Commissions, State Securities Commissions and all agencies, authorities or instrumentalities of one or more States, municipalities or other political subdivisions having jurisdiction over Michigan Gas and Electric Company and The Middle West Corporation or over either of said companies or over any of the businesses, affairs, or operations of either of them; that the Secretary of the Commission shall serve notice of the hearing aforesaid by mailing a copy of this order by registered mail to Michigan Gas and Electric Company and The Middle West Corporation not less than fifteen days prior to the date hereinbefore fixed as the date of hearing; that such notice shall be given further by a general release of the Commission, distributed to the press and mailed to the mailing list for releases issued under the Act; and that further notice be given to all persons by publication of this order in the FEDERAL REGISTER not less than fifteen days prior to the date hereinbefore fixed as the date of hearing.

It is further ordered, That any person proposing to intervene in these proceedings shall file with the Secretary of the Commission on or before the 20th day of August 1943 his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission.

By the Commission.

VESSEL "CATALINA"

DETERMINATION OF OWNERSHIP REQUIREMENT

Notice is hereby given that, pursuant to section 3 (b) of Public Law 17, 78th Congress, the following determination has been made:

Whereas, on August 25, 1942, title to the S. S. *Catalina* (including all spare parts appertaining thereto, whether aboard or ashore) was requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended, and

Whereas, section 3 (b) of the Act approved March 24, 1943 (Public Law 17, 78th Cong.), provides in part as follows:

(b) The Administrator, War Shipping Administration, may determine at any time prior to the payment in full or deposit in full with the Treasurer of the United States, or the payment or deposit of 75 per centum, of just compensation therefor, that the ownership of any vessel (the title to which has been requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended or the Act of June 6, 1941 (Public Law 101, Seventy-Seventh Congress), is not required by the United States, and after such determination has been made and notice thereof has been published in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned for all purposes as of the date of the original taking: *Provided, however*, That no such determination shall be made with respect to any vessel after the expiration of a period of two months after the date of delivery of such vessel pursuant to title requisition except with the consent of the owner. • • •

Whereas just compensation for the said vessel has not been determined by the Administrator, War Shipping Administration, and no part thereof has been paid or deposited with the Treasurer of the United States; and

Whereas the ownership of the said vessel, its spare parts and appurtenances, is not required by the United States; and

Whereas, by mutual agreement between the Administrator, War Shipping Administration, and Wilmington Transportation Company, the latter has consented to the determination by the Administrator that the use rather than the title of the said vessel, its spare parts and appurtenances, shall be deemed to have been requisitioned as of the date of the original taking thereof, namely, August 25, 1942;

Now, therefore, I, Emory S. Land, Administrator, War Shipping Administration, acting pursuant to the above quoted provisions of law, do determine that the ownership of said vessel, its spare parts and appurtenances, is not required by the United States, and that the requisition on August 25, 1942 of the above mentioned vessel, its spare parts and appurtenances, shall, from and after the date of publication hereof in the FEDERAL REGISTER, be deemed to have been, for all purposes, a requisition of the use rather than of the title of the said vessel, its spare parts and appurtenances, as of the date of the original taking, namely, August 25, 1942.

Dated: August 2, 1943.

Chapter VIII—War Food Administration

PART 802—SUGAR DETERMINATIONS

NORMAL YIELDS OF COMMERCIALLY RECOVERABLE SUGAR PER ACRE FOR SUGAR BEETS (REVISED)

Pursuant to the provisions of section 303 of the Sugar Act of 1937, as amended, and Executive Order No. 9322, issued March 26, 1943, as amended by Executive Order No. 9334, issued April 19, 1943, the following determination is hereby issued:

§ 802.15e *Determination of normal yields of commercially recoverable sugar per acre for sugar beets.* (a) The normal yield of commercially recoverable sugar per acre for any farm on which sugar beets are planted shall be the amount of sugar obtained by multiplying the normal yield of sugar beets in tons per acre for the farm by the amount of sugar, raw value, determined to be commercially recoverable under section 302 (a) of the Sugar Act of 1937, as amended, from a ton of sugar beets of normal percentage of sugar content for the farm.

(b) For the purposes of this determination:

(1) "Planted" sugar beets shall be deemed to include only sugar beets planted for harvest for the extraction of sugar.

(2) The "normal yield" of sugar beets shall be:

(i) For a farm on which sugar beets were planted in three or more of the next preceding seven years, the simple average of the annual average yields of sugar beets in tons per acre planted on the farm for all of such years in which sugar beets were planted;

(ii) For a farm on which sugar beets were planted in only one or two of the next preceding seven years, the number of tons obtained by multiplying the county normal yield of sugar beets by the percentage that the simple average of the yields of sugar beets in tons per acre planted on the farm in such year or years is of the simple average of the county average yields of sugar beets for such year or years, except that the normal yield for such farm shall not be less than 80 percent nor more than 120 percent of the county normal yield; and

(iii) For a farm on which sugar beets were not planted in any of the next preceding seven years, 90 percent of the county normal yield of sugar beets.

(3) The "county average yield" of sugar beets shall be:

(i) For each of the years 1936–1941, inclusive, the yield established, or which could have been established, under the 1942 sugar beet program; and

(ii) For the year 1942 and any subsequent year, for a county with ten or more farms with respect to which applications for sugar payments were approved, the weighted average yield in tons per planted acre on such farms in such year, and for a county with less than ten farms with respect to which applications for sugar payments were approved, the yield per acre established by the State Agricultural Conservation Committee on the basis of the yields per acre for such year in the county and in adjacent counties with similar production conditions.

(4) The "county normal yield" of sugar beets shall be:

(i) For a county for which county average yields are established for three or more of the next preceding seven years on the basis of ten or more farms, the simple average of all the average yields in tons per acre so established for such county for such years; and

(ii) For a county for which county average yields are established for less than three of the next preceding seven years on the basis of ten or more farms, the yield established by the State Agricultural Conservation Committee on the

basis of the yields per acre for the next preceding seven years in the county and in adjacent counties with similar production conditions.

(5) The "normal percentage of sugar content" of sugar beets for a farm from which sugar beets were contracted to be marketed under that type of agreement commonly known as an "individual test contract" shall be:

(i) In case sugar beets were so marketed in three or more of the next preceding seven years, the simple average of the annual average percentages of sugar content, at the time of delivery to a processor, of the sugar beets marketed in all of such years in which sugar beets were so marketed;

(ii) In case sugar beets were so marketed in only one or two of the next preceding seven years, the percentage of sugar content obtained by multiplying the county normal percentage of sugar content of sugar beets by the percentage that the simple average of the average percentages of sugar content, at the time of delivery to a processor, of the sugar beets marketed in such year or years is of the simple average of the county average percentages of sugar content of sugar beets for such year or years; and

(iii) In case sugar beets were not so marketed, in any of the next preceding seven years, the county normal percentage of sugar content of sugar beets.

(6) The "county average percentage of sugar content" of sugar beets shall be:

(i) For each of the years 1936–41, inclusive, the percentage established, or which could have been established, under the 1942 sugar beet program; and

(ii) For the year 1942 and any subsequent year, for a county with ten or more farms with respect to which applications for sugar payments were approved, the weighted average percentage of sugar content, at the time of delivery to a processor, of all sugar beets marketed under individual test contracts in such year from farms in the county, and for a county with less than ten farms with respect to which applications for sugar payments were approved, the percentage established by the State Agricultural Conservation Committee on the basis of the percentage of sugar content, at the time of delivery to a processor, of the sugar beets so marketed in such year from farms in the county and in adjacent counties.

(7) The "county normal percentage of sugar content" of sugar beets shall be:

(i) For a county for which county average percentages are established for three or more of the next preceding seven years on the basis of ten or more farms, the simple average of all the average percentages so established for the county for such years; and

(ii) For a county for which county average percentages are established for less than three of the next preceding seven years on the basis of ten or more farms, the percentage established by the State Agricultural Conservation Committee on the basis of the percentage of sugar content, at the time of delivery to a processor, of the sugar beets marketed under individual test contracts in the next preceding seven years from farms in the county and in adjacent counties.

(8) The "normal percentage of sugar content" of sugar beets for a farm from which sugar beets were contracted to be marketed under any type of agreement other than that commonly known as an "individual test contract" shall be the normal percentage of sugar content of sugar beets for the district (an area in which a common marketing agreement was in use).

(9) The "normal percentage of sugar content of sugar beets for the district" shall be:

(i) For a district in which a beet sugar factory was operated in three or more of the next preceding seven years, the simple average of the annual average percentages of sugar content, at the time of processing, of all of the sugar beets processed in the district in all of such years in which sugar beets were processed; and

(ii) For a district in which a beet sugar factory was operated in less than three of the next preceding seven years, the percentage of sugar content of sugar beets established by the Agricultural Adjustment Agency on the basis of the average percentage of sugar content, at the time of processing, of sugar beets produced under similar conditions in the next preceding seven years.

This determination supersedes, with respect to the 1943 and subsequent crops, the "Determination of Normal Yields of Commercially Recoverable Sugar Per Acre for Sugar Beets, Pursuant to the Sugar Act of 1937, as Amended," issued July 27, 1942.

AUTHORITY: §§ 86.0 to 86.75, inclusive, issued under secs. 1029 and 3791 of the Internal Revenue Code (53 Stat. 157, 467; 26 U.S.C. 1029, 3791)

§ 86.0 *Scope of regulations.* These regulations deal with the gift tax imposed by chapter 4 of the Internal Revenue Code and apply to transfers of property by gift during the calendar year 1940 and thereafter. They do not affect gift tax regulations (including Treasury decisions) heretofore issued in so far as they relate to taxes imposed on gifts made prior to January 1, 1940.

Each section, subsection, or paragraph of the Internal Revenue Code appearing in the regulations is followed by the section or sections of the prescribed regulations relating thereto and shall be considered as a part thereof. Sections of the Code set forth are readily distinguishable from the prescribed regulations sections since the latter appear in larger type and bear a number commencing with 86 and a decimal point. The number "86" is used in numbering the sections of the regulations for the reason that the regulations constitute Part 86 of Title 26 of the Code of Federal Regulations. Identifying portions of the section numbers (following 86.) begin with "0" and follow in sequence. Except as otherwise indicated, the statutory references are to the Internal Revenue Code.

To the extent that Regulations 79 (1936 Edition), as amended by Treasury decisions, have been made applicable to gift taxes imposed by the Internal Revenue Code, they are hereby superseded.

SEC. 1000. IMPOSITION OF TAX. [As originally enacted.]

(a) For the calendar year 1940 and each calendar year thereafter a tax, computed as provided in section 1001, shall be imposed upon the transfer during such calendar year by any individual, resident or nonresident, of property by gift. Gift taxes for the calendar years 1932–1939, inclusive, shall not be affected by the provisions of this chapter, but shall remain subject to the applicable provisions of the Revenue Act of 1932, except as such provisions are modified by legislation enacted subsequent to the Revenue Act of 1932.

(b) The tax shall apply whether the transfer is in trust or otherwise, whether the gift is direct or indirect, and whether the property is real or personal, tangible or intangible; but, in the case of a nonresident not a citizen of the United States, shall apply to a transfer only if the property is situated within the United States.

SEC. 452. POWERS OF APPOINTMENT. [Revenue Act of 1942, Title IV, Part II, Enacted October 21, 1942.]

(a) *General rule.* Section 1000 (relating to imposition of gift tax) is amended by inserting at the end thereof the following new subsection:

(c) *Powers of appointment.* An exercise or release of a power of appointment shall be deemed a transfer of property by the individual possessing such power. For the purposes of this subsection the term "power of appointment" means any power to appoint exercisable by an individual either alone or in conjunction with any person, except—

(1) A power to appoint within a class which does not include any others than the spouse of such individual, spouse of the creator of the power, descendants of such individual or his spouse, descendants (other than such individual) of the creator of the power or his spouse, spouses of such descendants, donees described in section 1004 (a) (2), and donees described in section 1004 (b). As used in this paragraph, the term "descendant" includes adopted and illegitimate descendants, and the term "spouse" includes former spouse; and

(2) A power to appoint within a restricted class if such individual did not receive any beneficial interest, vested or contingent, in the property from the creator of the power or thereafter acquire any such interest, and if the power is not exercisable to any extent for the benefit of such individual, his estate, his creditors, or the creditors of his estate.

If a power to appoint is exercised by creating another power to appoint, such first power shall not be considered excepted under paragraph (1) or (2) from the definition of power of appointment to the extent of the value of the property subject to such second power to appoint. For the purposes of the preceding sentence the value of the property subject to such second power to appoint shall be its value unreduced by any precedent or subsequent interest not subject to such power to appoint.

(b) *Powers with respect to which amendments not applicable.* (1) The amendments made by this section shall not apply with respect to a power to appoint, created on or before the date of enactment of this Act, which is other than a power exercisable in favor of the donee of the power, his estate, his creditors, or the creditors of his estate, unless such power is exercised after the date of enactment of this Act.

(2) The amendments made by this section shall not become applicable with respect to a power to appoint created on or before the date of enactment of this Act, which is exercisable in favor of the donee of the power, his estate, his creditors, or the creditors of his estate, if at such date the donee of such power is under a legal disability to release such power, until six months after the termination of such legal disability. For the purposes of the preceding sentence, an individual in the military or naval forces of the United States shall, until the termination of the present war, be considered under a legal disability to release a power to appoint.

(c) *Release on or before January 1, 1943.* (1) A release of a power to appoint before January 1, 1943, shall not be deemed a transfer of property by the individual possessing such power.

(2) This subsection shall apply to all calendar years prior to 1943.

SEC. 10. EXTENSION OF TIME IN CONNECTION WITH RELEASE OF POWER OF APPOINTMENT. [Current tax payment act of 1943.]

* * * section 452 (c) of the Revenue Act of 1942 is amended to read as follows:

(c) *Release before March 1, 1944.* (1) A release of a power to appoint before March 1, 1944, shall not be deemed a transfer of property by the individual possessing such power.

(2) This subsection shall apply to all calendar years prior to 1944 and to that part of the calendar year 1944 prior to March 1, 1944.

SEC. 453. GIFTS OF COMMUNITY PROPERTY. [Revenue Act of 1942, Title IV, Part II. Effective for calendar year 1943 and each calendar year thereafter.]

Section 1000 (relating to tax on gifts) is amended by inserting at the end thereof the following new subsection:

(d) *Community property.* All gifts of property held as community property under the law of any State, Territory, or possession of the United States, or any foreign country shall be considered to be the gifts of the husband except that gifts of such property as may be shown to have been received as compensation for personal services actually rendered by the wife or derived originally from such compensation or from separate property of the wife shall be considered to be gifts of the wife.

SEC. 451. GIFTS TO WHICH AMENDMENTS APPLICABLE. [Revenue Act of 1942, Title IV, Part II.]

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to gifts made in the calendar year 1943, and succeeding calendar years.

§ 86.1 *Imposition of tax.* The statute imposes no tax upon property, but subjects to tax transfers of property by gift. The statute taxes all such transfers of property (other than gifts specified in section 1003 (b) (2) and (3) and other than releases before March 1, 1944, of powers to appoint created on or before October 21, 1942, the date of enactment of the Revenue Act of 1942) to the extent that they exceed the deductions authorized by section 1004. The tax is not limited in its imposition to transfers of property without a valuable consideration, which at common law are treated as gifts, but extends to sales and exchanges for less than an adequate and full consideration in money or money's worth. (See § 86.8.) The tax applies to all individuals, whether resident or nonresident of the United States, but, in the case of a nonresident not a citizen, the tax applies only to transfers of property situated within the United States. For the definition of "resident," see § 86.4. With reference to the situs of property, see § 86.18.

§ 86.2 *Transfers reached*—(a) *In general.* The statute imposes a tax whether the transfer is in trust or otherwise, whether the gift is direct or indirect, and whether the property is real or personal, tangible or intangible. Thus, for example, a taxable transfer may be effected by the declaration of a trust, the forgiving of a debt, the assignment of a judgment, the assignment of the benefits of a contract of insurance, or the transfer of cash, certificates of deposit, or Federal, State, or municipal bonds. Various statutory provisions, which exempt bonds, notes, bills and certificates of indebtedness of the Federal Government or its agencies and the interest thereon from taxation, are not applicable to the gift tax since this tax is an excise tax on the transfer, and is not a tax on the subject of the gift. However, a gift of a bond, note, or certificate of indebtedness issued by the Federal Government prior to March 1, 1941, if made by a nonresident alien not engaged in business in the United States, is not subject to the tax; but a gift by any such nonresident alien of an obligation of the Federal Government issued on or after March 1, 1941, is subject to the tax. Inasmuch as the tax also applies to gifts indirectly made, all transactions whereby property or property rights or interests are gratuitously passed or conferred upon another, regardless of the means or device employed, constitute gifts subject to tax. See, further, § 86.8. (However, for special provisions with respect to the exercise or release of powers of appointment, see paragraph (b) of this section.) In the following examples of transactions resulting in taxable gifts, it will be understood that the transfers were not made for an adequate and full consideration in money or money's worth:

(1) Transfer of property by a corporation to B is a gift to the latter from the stockholders of the corporation. If B himself is a stockholder, the transfer, not being a distribution from earnings or in liquidation to which B is entitled as a stockholder, is a gift to him from the other stockholders.

(2) The transfer of property to B where there is imposed upon B the obligation of paying a commensurate annuity to C is a gift to C.

(3) The payment of money or the transfer of property to B in consideration whereof B is to render a service to C, is a gift to C, or both to B and C, depending on whether the service to be rendered by B to C is or is not an adequate and full consideration in money or money's worth for that which is received by B.

(4) If A creates a joint bank account for himself and B (or similar type of ownership where A can regain the entire fund without B's consent), there is a gift to B when B draws upon the account for his own benefit, to the extent of the amount drawn.

(5) If A with his own funds purchases property and has the title thereto conveyed to himself and B as joint owners, with rights of survivorship (other than a joint ownership described in example (4) of this section), but which rights may be defeated by either party severing his interest, there is a gift to B in the amount of one-half the value of such property.

(6) If a husband with his own funds purchases property and has the title thereto conveyed to himself and wife as tenants by the entirety, and under the law of the jurisdiction governing the rights of the tenants there is no right of severance by which either of the tenants, acting alone, can defeat the right of the survivor to the whole of the property, he consummates a gift of such property valued as provided in § 86.19 (h).

(7) If A, without retaining a power to revoke the trust or to change the beneficial interests, transfers property in trust whereby B is to receive the income therefrom for life and at his death the trust is to terminate and the corpus is to be returned to A provided A survives but if A predeceases B the corpus is to pass to C, A consummates a gift of such property valued as provided in § 86.19 (g).

(8) If the insured purchases a life insurance policy, or pays a premium on a previously issued policy, the proceeds of which are payable to a beneficiary or beneficiaries other than his estate, and with respect to which the insured retains no power to revest the economic benefits in himself or his estate or to change the beneficiaries or their proportionate benefits (or if the insured relinquishes by assignment, by designation of a new beneficiary or otherwise, every such power that was retained in a previously issued policy), the insured consummates a gift of the value of such policy, or to the extent of such premium, even though the right of the assignee or beneficiary to receive the benefits is conditioned upon his surviving the insured. For the valuation of life insurance policies, see § 86.19 (i).

(b) *Transfers under power of appointment.* The exercise of a power of appointment after June 6, 1932, and before January 1, 1943, constitutes a gift by the individual possessing the power if the power is exercisable in favor of any person or persons in the discretion of such individual, or, however limited as to the persons or objects in whose favor the appointment may be made, if it is exercisable in favor of the individual possessing the power, his estate, his creditors, or the creditors of his estate. The release before March 1, 1944, of a power to appoint created on or before October 21, 1942, the date of enactment of the Revenue Act of 1942, is excepted from the application of the tax by reason of the express provisions of section 452 (c) of the Revenue Act of 1942, as amended by section 10 of the Current Tax Payment Act of 1943. It is presumed that all general powers of appointment are releasable, unless the local law on the subject is to the contrary; and it is presumed that the method employed to release the power is effective, unless it is not in accordance with the local law on the subject (or, in the absence of such local law, is not in accordance with the local law relating to similar transactions). Section 452 (c) of the Revenue Act of 1942, however, does not apply to any release of a power reserved, directly or indirectly, by a donor upon a transfer, as distinguished from a donee of a power of appointment who releases the power which he had received from another person. See § 86.3 with respect to the taxability of the relinquishment of reserved powers.

During the calendar year 1943 and any calendar year thereafter, section 1000 (c), as added by the Revenue Act of 1942, applies, subject, however, to sec-

tion 452 (c) of such Act, as amended by section 10 of the Current Tax Payment Act of 1943. That is, during such years an exercise or release (other than a release prior to March 1, 1944), without an adequate and full consideration in money or money's worth, of a power of appointment created on or before October 21, 1942, the date of enactment of the Revenue Act of 1942 (including a power to appoint exercisable in conjunction with another person) constitutes a gift by the individual possessing such power, except in the case of the following:

(1) The exercise or release of a power to appoint which is not exercisable to any extent for the benefit of such individual, his creditors, his estate, or the creditors of his estate, and which is exercisable in favor of only one or more other persons or objects:

(i) Within a class which does not include any others than the spouse of such individual, spouse of the creator of the power, descendants of such individual or his spouse, descendants of the creator of the power or his spouse, spouses of such descendants, charitable, etc., organizations described in section 1004 (a) (2) and charitable, etc., organizations described in section 1004 (b); or

(ii) Within a restricted class if such individual did not receive any beneficial interest, vested or contingent, in the property from the creator of the power or thereafter acquire any such interest.

For the purposes of this paragraph, the term "descendant" includes adopted and illegitimate descendants, and the term "spouse" includes former spouse. The treatment of adopted and illegitimate children (and their descendants and their adopted and illegitimate children (and their descendants and their adopted and illegitimate children) as descendants, if such children would be descendants had they been born as legitimate children in the station to which they are adopted or born. The provisions of (ii) apply to a power possessed by a disinterested trustee or one occupying a similar status to appoint within a relatively small class. For example, a power to appoint within a class composed of A's children would be a power to appoint within a restricted class. On the other hand, a power to appoint to anyone except A and his family would not be a power confined to a restricted class. The restricted character of a class is not affected by the fact that the decedent has power to appoint to any number of charitable, etc., organizations described in section 1004 (a) (2) or (b). A power to appoint is not confined to a restricted class merely because the power is not exercisable in favor of such individual, his creditors, his estate, or the creditors of his estate, or all of them.

(2) The release of a power to appoint created on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, which is not a power exercisable in favor of the donee of the power (who is the appointer), his estate, his creditors, or the creditors of his estate.

(3) The release of a power to appoint created on or before October 21, 1942, the date of the enactment of the Revenue Act of 1942, which power is exercisable in favor of the donee of the power (who is the appointor), his creditors, his estate, or the creditors of his estate, if on such date such appointor was under a legal disability to release such power and if the release thereof is effected prior to March 1, 1944, or the day after six months immediately following the termination of the legal disability, whichever is later. The legal disability referred to is determined under local law and may include the disability of an insane person, a minor, or an unborn child. The fact that a power of appointment of the type possessed by the individual was not generally releasable under the local law does not place the individual under a legal disability within the meaning of section 452 (b) (2) of the Revenue Act of 1942. Until the termination of the present war, an individual in active service in the military or naval forces of the United States on October 21, 1942, shall be considered under a legal disability to release a power to appoint while such individual is in such service.

If a power to appoint is exercised by creating another power to appoint, to the extent of the property subject to such second power to appoint, such first power shall not be considered excepted in (1) above of this paragraph. For this purpose the statute prescribes that the value of the property subject to such second power to appoint shall be its value unreduced by any precedent or subsequent interest not subject to such power to appoint. Thus if the donor has a power to appoint a fund of $100,000 within a class consisting only of his children (which is one of the excepted powers) and during his lifetime exercises such power by giving one child a power to appoint $25,000 of such fund and by making an outright appointment of $75,000, only $25,000 is considered a gift. If, however, the individual had appointed the income from the entire fund to such child for life with power in such child to appoint the remainder in his will, the whole $100,000 would be considered a gift. This provision applies whether or not the newly created power to appoint is of a kind described in (1) above of this paragraph.

The term "power of appointment" includes any power received by the appointor from another person which is in substance and effect a power to appoint regardless of the nomenclature used in creating the power and local property law connotations. For example, if a settlor transfers property in trust for the life of his wife with a power in the wife to appropriate or consume the principal of the trust, the wife has a power of appointment and the release of such a power constitutes a taxable transfer. On the other hand, if, for example, a power of appointment with respect to the remainder, exercisable by the life tenant, is subject to the consent of the trustee who is a disinterested third party not receiving any beneficial interest upon such transfer, upon the exercise or release of the power by the life tenant no part of the gift of such remainder is attributable to the trustee personally. Similarly, if property is transferred in trust by a grantor reserving the power to alter, amend, revoke, or terminate the trust with the consent of the trustee who is a disinterested party not receiving any beneficial interest upon the transfer, the exercise or relinquishment of such power by the grantor with the consent of such trustee is not a taxable transfer by the latter. Ordinarily, powers of management with respect to property in trust, such as the determination of whether distributions shall be made annually or quarterly, the making of investments and reinvestments, or the determination of items of income or principal under recognized rules of accounting, are not powers of appointment over property under section 1000 (c).

A power to appoint is exercised where the property subject thereto is appointed to the taker in default of appointment, regardless of whether or not the appointed interest and the interest in default of appointment are identical, and regardless of whether or not the appointee renounces any right to take under the appointment. For the purposes of section 1000 (c), a release of a power of appointment need not be express or formal in character. For example, the failure to exercise a power of appointment within a specified time, resulting in the termination of the power of appointment, is taxable if the other conditions imposed by section 1000 (c) are present.

The reduction in scope of a power of appointment, as defined in section 1000 (c), to an excepted power under section 1000 (c) (1) or (2), which is not a power of appointment as thus defined, constitutes the release of the power of appointment. In such case, the release is effected at such time as under the applicable law the power cannot be exercised in favor of persons or objects other than those described in section 1000 (c) (1) or (2). If such release of a power created on or before October 21, 1942, the date of enactment of the Revenue Act of 1942, is effected prior to March 1, 1944 (or, in a case described in (3) above of this paragraph, relating to persons under a legal disability, prior to the date specified therein), a taxable transfer does not result. For the purpose of determining whether a power created on or before October 21, 1942, satisfied the requirements of section 1000 (c) (2) on March 1, 1944 (or other applicable date in a case described in (3) above of this paragraph), the fact as to whether the individual received any beneficial interest in the property is to be ascertained without regard to the power to appoint which he received. If such release is effected on or after March 1, 1944 (or, in a case described in (3) above of this paragraph, relating to persons under a legal disability, on or after the date specified therein), a taxable transfer results.

Section 1000 (c) does not apply to a power reserved, directly or indirectly, by a donor upon a transfer, as distinguished from the possessor of a power of appointment received from another person. See § 86.3 with respect to the taxability of reserved powers.

(c) *Transfers of community property after 1942.* During the calendar year 1943 and any calendar year thereafter any gift of property held as community property under the law of any State, Territory, or possession of the United States, or any foreign country constitutes a gift of the husband for the purpose of the gift tax statute (regardless of whether under the terms of the transfer the husband alone or the wife alone is designated as the donor or whether both are so designated as donors), except to the extent that such property is shown (1) to have been received as compensation for personal services actually rendered by the wife or derived originally from such compensation, or (2) to have been derived originally from separate property of the wife. The entire property comprising the gift is prima facie a gift of the husband, but any portion thereof which is shown to be economically attributable to the wife as prescribed in the preceding sentence constitutes a gift of the wife.

The rule stated in the preceding paragraph applies alike to a transfer by way of gift of community property to a third party or third parties, to a division of such community property between husband and wife into the separate property of each, and to a transfer by the husband and wife of any part of such community property into the separate property either of the husband or of the wife, or into a joint estate or tenancy by the entirety of both spouses. In all of such cases the value of the property so transferred or so divided, as the case may be, is a gift by the husband to the extent that it exceeds the aggregate amount of the value of that portion which is shown to be economically attributable to the wife, as prescribed in the preceding paragraph, and of the value of the husband's interest in such property after such transfer or division. The value of the property so transferred or so divided, as the case may be, is a gift by the wife to the extent that the portion of such value which is shown to be economically attributable to her, as prescribed in the preceding paragraph, exceeds the value of her interest in such property after such transfer or division. See subparagraphs (5) and (6) of paragraph (a) of this section. No gift tax results from a transfer on or after January 1, 1943, of separate property of either spouse into community property.

Property derived originally from compensation for personal services actually rendered by the wife or from separate property of the wife includes property that may be identified as (1) income yielded by property received as such compensation or by such separate property, and (2) property clearly traceable (by reason of acquisition in exchange, or other derivation) to property received as such compensation, to such separate property, or to such income. The rule established by this statute for apportioning the respective contributions of the spouses is applicable regardless of varying local rules of apportionment, and State presumptions are not operative against the Commissioner.

§ 86.3 *Cessation of donor's dominion and control.* The tax is not imposed upon the receipt of the property by the donee, nor is it necessarily determined by the measure of enrichment resulting to the donee from the transfer, nor is it conditioned upon ability to identify the donee at the time of the transfer. On the contrary, the tax is a primary and personal liability of the donor, is an excise upon his act of making the transfer, is measured by the value of the property passing from the donor, and attaches regardless of the fact that the identity of the donee may not then be known or ascertainable.

As to any property, or part thereof or interest therein, of which the donor has so parted with dominion and control as to leave in him no power to change the disposition thereof, whether for his own benefit or for the benefit of another, the gift is complete. But if upon a transfer of property (whether in trust or otherwise) the donor reserves any power over the disposition thereof, the gift may be wholly incomplete, or may be partially complete and partially incomplete, depending upon all the facts in the particular case. Accordingly, in every case of a transfer of property subject to a reserved power, the terms of the power must be examined and its scope determined.

A gift is incomplete in every instance where a donor reserves the power to revest the beneficial title to the property in himself. A gift is also incomplete where and to the extent that a reserved power give the donor the right to name new beneficiaries or to change the interests of the beneficiaries as between themselves. Thus, the transfer of an estate for life where, by an exercise of the power, the estate may be terminated or cut down to one of less value, and without restriction upon the extent to which the estate may be so cut down, constitutes an incomplete gift. If in this example the power was confined to the right to cut down the estate for life to one for a term of five years, the certainty of an estate for not less than that term results in a gift to that extent complete.

A gift shall not be considered incomplete, however, merely because the donor reserves the power to change the manner or time of enjoyment thereof. Thus, the creation of a trust the income of which is to be paid annually to the donee for a period of years, the corpus being distributable to him at the end of the period, and the power reserved by the donor being limited to a right to require that, instead of the income being so payable, it should be accumulated and distributed with the corpus to such donee at the termination of the period, constitutes a completed gift.

A donor shall be considered as himself having the power where it is exercisable by him in conjunction with any person not having a substantial adverse interest in the disposition of the transferred property or the income therefrom. A trustee, as such, is not a person having an adverse interest in the disposition of the trust property or its income.

The relinquishment or termination of a power to change the disposition of the transferred property, occurring otherwise than by the death of the donor (the statute being confined to transfers by living donors), is regarded as the event which completes the gift and causes the tax to apply. For example, if A transfers property in trust for the benefit of B and C but reserves the power as trustee to change the proportionate interests of B and C, and if A thereafter has another person appointed trustee in place of himself, such later relinquishment of the power by A to the new trustee completes the gift of the transferred property, whether or not the new trustee has a substantial adverse interest. The receipt of income or of other enjoyment of the transferred property by the transferee or by the beneficiary (other than by the donor himself) during the interim between the making of the initial transfer and the relinquishment or termination of the power operates to free such income or other enjoyment from the power, and constitutes a gift of such income or of such other enjoyment taxable as of the calendar year of its receipt.

If the donor contends that the power is of such nature as to render the gift incomplete, and hence not subject to the tax as of the calendar year of the initial transfer, the transaction shall be disclosed in the return and evidence showing all relevant facts, including a copy of the instrument of transfer, should be submitted.

If for any calendar year prior to the calendar year 1939 a transfer has been subjected to payment of the tax despite the fact that the donor retained a power to name new beneficiaries or to change the interests of the beneficiaries as between themselves, and if the tax for such calendar year has been finally determined on such basis, and for all gift tax purposes such transfer has been treated, for such calendar year and each subsequent calendar year, as subject to the tax, and the donor agrees, in a closing agreement executed under the provisions of section 3760, that he will continue so to treat such transfer, then the relinquishment or termination of the power so retained by the donor shall not be treated as a gift subject to the tax.

§ 86.4 *Residence.* The statute imposes the tax upon the transfer of property by gift made by any individual, resident or nonresident, but provides that in the case of a nonresident not a citizen of the United States the tax shall apply to a transfer only if the property is situated within the United States. (See § 86.18.) If the donor is a citizen of the United States, whether a resident or a nonresident, thereof, or is a resident of the

United States, whether or not a citizen thereof, the tax applies, regardless of where the property, whether real or personal, is situated.

A resident is one who has his domicile in the United States (including only the States, the Territories of Alaska and Hawaii, and the District of Columbia) at the time of the gift. (See section 3797 (a) (9).) All others are nonresidents. A person acquires a domicile in a place by living there for even a brief period of time with no definite present intention of moving therefrom. Residence without the requisite intention to remain indefinitely will not suffice to constitute domicile, nor will intention to change domicile effect such change unless accompanied by an actual removal.

SEC. 1001. COMPUTATION OF TAX.

(a) The tax for each calendar year shall be an amount equal to the excess of—

(1) A tax, computed in accordance with the Rate Schedule hereinafter set forth, on the aggregate sum of the net gifts for such calendar year and for each of the preceding calendar years, over

(2) A tax, computed in accordance with the said Rate Schedule, on the aggregate sum of the net gifts for each of the preceding calendar years.

$24,271,950 upon net gifts of $50,000,000; and upon net gifts in excess of $50,000,000, 52½ per centum in addition of such excess.

SEC. 207. GIFT TAX. [Revenue Act of 1940. Enacted on June 25, 1940; effective for calendar years 1940 and 1941.]

Section 1001 of the Internal Revenue Code is amended by adding at the end thereof the following new subsection:

(d) *Defense tax for 1940–1945.* Despite the provisions of subsection (a)—

(1) The tax for each of the calendar years 1941 to 1945, both inclusive, shall be an amount equal to the excess of—

(A) 110 per centum of a tax, computed in accordance with the Rate Schedule hereinbefore set forth, on the aggregate sum of the net gifts for such calendar year and for each of the preceding calendar years, over

(B) 110 per centum of a tax, computed in accordance with the said Rate Schedule, on the aggregate sum of the net gifts for each of the preceding calendar years.

(2) The tax for the calendar year 1940 shall be the sum of (A) the tax computed under subsection (a), plus (B) an amount which bears the same ratio to 10 per centum of the tax so computed as the amount of gifts made after the date of the enactment of the Revenue Act of 1940 bears to the total amount of gifts made during the year. For the purposes of this paragraph, the term "gifts" does not include gifts which, under section 1003 (b) (2), are not to be included in computing the total amount of gifts made during the calendar year 1940, or gifts which, in the case of a citizen or resident, are allowed as a deduction by section 1004 (a) (2), or gifts which, in the case of a nonresident not a citizen of the United States, are allowed as a deduction by section 1004 (b).

SEC. 402. GIFT TAX RATES. [Revenue Act of 1941.]

(a) *Rates.* The Rate Schedule of section 1001 of the Internal Revenue Code is amended to read as follows:

* * * * * *

(b) *Years to which amendments applicable.* The amendments made by this section shall be applied in computing the tax for the calendar year 1942 and each calendar year thereafter (but not the tax for the calendar year 1941 or a previous calendar year), and such amendments shall be applied in all computations in respect of the calendar year 1941 and previous calendar years for the purpose of computing the tax for the calendar year 1942 and any calendar year thereafter.

(c) *Defense tax repealed.* Section 1001 (d) of the Internal Revenue Code (relating to defense tax for five years on gifts) is repealed.

§ 86.5 *Tax rate schedules.* The rate schedule of section 1001 of the Internal Revenue Code as enacted on February 10, 1939, is applicable in computing the tax under the provisions of subsection (a) of that section for the calendar years 1940 and 1941. The defense tax imposed by subsection (d) of section 1001 (as added by section 207 of the Revenue Act of 1940) is applicable to the calendar years 1940 and 1941. For such years the tax is the sum of the amount computed in accordance with the rate schedule plus 10 percent thereof (or plus a proportion of such 10 percent for the calendar year 1940 as explained in § 86.7), and only such 10 percent or proportion thereof is referred to as the defense tax. The Revenue Act of 1941 (section 402) increased the rates and repealed the defense tax, effective for the calendar year 1942 and each calendar year thereafter, and the rate schedule of section 1001 as amended by such Act is applicable in computing the tax for the calendar year 1942 and each calendar year thereafter.

§ 86.6 *Use of table for computing gift tax.* On the following page is a tabulation of the rate schedules (1) applicable to the calendar year 1942 and each calendar year thereafter and (2) applicable to the calendar years 1940 and 1941. Care should be exercised in selecting the appropriate rate schedule (column 1 or 2). Only column 1 should be used in the computation of the tax for the year 1942 or any year thereafter. Only column 2 should be used in the computation of the tax for the years 1940 and 1941.

In using the table, select the amount set out in column A which is equal to, or which is the largest amount shown therein that is less than, the amount of the net gifts upon which tax is to be computed as provided in § 86.7. The tax upon the amount so selected is indicated on the same line in the first subcolumn of column 1 or 2. The tax upon any part of the amount of the net gifts in excess of the amount so selected is computed by multiplying the amount of such excess by the percentage indicated on the same line in the second subcolumn of column 1 or 2. If the amount of the net gifts is less than $5,000, the tax is computed at the rate indicated on the first line in the second subcolumn of the appropriate column. An illustration of the use of the table follows.

The tax according to the rate schedule in column 1 upon net gifts of $62,500 is computed as follows:

Tax on $60,000 (from first subcolumn of column 1)	$7,125
Tax on $2,500 at 21 percent (from second subcolumn of column 1)	525
Tax on net gifts of $62,500	7,650

For examples showing computation of tax for the calendar years 1940, 1941, and 1943, including the defense tax for the years 1940 and 1941, see § 86.7.

§ 86.7 *Computation of tax.* The first step in the determination of the tax is to ascertain the amount of the net gifts for the calendar year for which the return is being prepared. (For meaning of "net gifts," see § 86.9.) The second step is to ascertain the aggregate sum of the net gifts for each of the preceding calendar years, considering only gifts made after June 6, 1932. By the words "aggregate sum of the net gifts for each of the preceding calendar years" (aside from the amount of the specific exemption (deductible) is meant the true and correct aggregate of such net gifts, not necessarily that returned for such years and in respect to which tax was paid. In determining the aggregate sum of the net gifts for each of the preceding calendar years, the total amount of the specific exemption claimed and allowed for such preceding years should be deducted, except that if tax is being computed for the calendar year 1943 or for any calendar year thereafter such deduction cannot exceed $30,000, or if the tax is being computed for the calendar year 1940, 1941, or 1942 such deduction cannot exceed $40,000. (See § 86.12.) The third step is to add to the amount of net gifts for the calendar year for which the return is being prepared the aggregate sum of the net gifts for each of the preceding calendar years. The fourth step is to compute the tax upon the total amount of net gifts (as ascertained by the third step) by use of the rate schedule in force for the calendar year for which the return is being prepared. (See §§ 86.5 and 86.6.) The fifth step is to compute a tax in accordance with the same rate schedule upon the aggregate sum of net gifts for each of the preceding calendar years only. The sixth step is to subtract from the amount of tax as computed in the fourth step the amount of tax as computed in the fifth step. The amount remaining after such subtraction is the tax for the calendar year for which the return is being prepared, except in the case of a return for the calendar year 1940 or 1941.

If the return is being prepared for the calendar year 1940 or 1941, the defense tax, imposed by subsection (d) of section 1001 of the Internal Revenue Code, as added by section 207 of the Revenue Act of 1940, must be computed. The defense tax was repealed by section 402 of the Revenue Act of 1941 and is not applicable to gifts made during the calendar year 1942 or any calendar year thereafter but

remains in effect for the calendar years 1940 and 1941.

If the return is being prepared for the calendar year 1941, the defense tax is ascertained by computing 10 percent of the tax determined in the manner set forth in the first paragraph of this section. For such calendar year the total amount of tax payable is the amount determined in the manner explained in that paragraph plus the defense tax of 10 percent thereof.

In case of a return for the calendar year 1940, the amount of the defense tax to be added is that proportion of 10 percent of the tax computed in the manner indicated in the first paragraph of this section which the total amount of the gifts made after Jun 25, 1940 (determined after the allowance of any applicable exclusions authorized by section 1003 (b) (2) of the Internal Revenue Code, or deductions for charitable, etc., gifts authorized by sections 1004 (a) (2) and 1004 (b) of the Internal Revenue Code, but without the allowance of the specific exemption or any portion thereof) bears to the total amount of gifts made during the calendar year determined in the same manner. In computing this ratio, the exclusion authorized by section 1003 (b) (2) with respect to gifts made to the same person both on or before and after June 25, 1940, is applied against the first such gifts made during the calendar year.

In case no reportable gifts were made during the preceding calendar years, considering only gifts made after June 6, 1932, the tax for the calendar year for which the return is being prepared is the tax computed in accordance with the rate schedule in force for such year upon the amount of the net gifts for such calendar year, plus the amount of the defense tax, if applicable.

Example (1) (showing computation of tax for calendar year 1943). A donor makes gifts (other than gifts of future interests in property) during the calendar year 1943 of $30,000 to A and $33,000 to B. After excluding $6,000 for the two donees in accordance with section 1003 (b) (3), the total amount of gifts made during that year is $57,000. The specific exemption was previously exhausted and the amount of the net gifts for 1943 is $57,000. The total amount of gifts made by the donor during the preceding years, after excluding $5,000 for each donee for each calendar year in accordance with section 1003 (b) (1), is computed as follows:

Calendar year 1934	$120,000
Calendar year 1935	25,000
Total amount of gifts for preceding calendar years	145,000

The aggregate sum of the net gifts for the preceding calendar years, $115,000, is determined by deducting a specific exemption of $30,000 from $145,000. The deduction for such specific exemption cannot exceed $30,000, even though $50,000 was allowed as the specific exemption in the computation of the tax applicable to the preceding years 1934 and 1935. See § 86.12. The computation of the tax for the calendar year 1943 is shown below:

1. Amount of net gifts for year	$57,000
2. Total amount of net gifts for preceding years	115,000
3. Total net gifts	172,000
4. Tax computed on item 3 (in accordance with rate schedule)	31,725
5. Tax computed on item 2 (in accordance with rate schedule)	18,900
6. Tax for year 1943 (item 4 minus item 5)	12,825

Example (2) (showing computation of defense tax for calendar year 1941). During the calendar year 1941 a resident donor makes the following gifts:

To daughter	$44,000
To son	14,000
To a charitable organization	10,000

The amount of his net gifts for preceding calendar years, subsequent to June 6, 1932, is $50,000. Only $25,000 of his specific exemption was claimed for such preceding years. The remaining $15,000 of his specific exemption is claimed for the calendar year 1941. The amount of the net gifts for the calendar year 1941 is determined as follows:

Total gifts		$65,000.00
Less exclusions under the section 1003 (b) (2) of the Internal Revenue Code		12,000.00
Total included amount of gifts for year		56,000.00
Total deductions for charitable gifts ($10,000 less exclusion of $4,000)	$6,000	
Specific exemption claimed	15,000	
Total deductions		21,000.00
Amount of net gifts for year		35,000.00

The total amount of the tax payable for the calendar year 1941 is computed as follows:

1. Amount of net gifts for year	$35,000.00
2. Total amount of net gifts for preceding years	50,000.00
3. Total net gifts	85,000.00
4. Tax computed on item 3 (in accordance with rate schedule)	5,625.00
5. Tax computed on item 2 (in accordance with rate schedule)	2,250.00
6. Tax on net gifts for year without addition of defense tax (item 4 minus item 5)	3,375.00
7. Defense tax (10 percent of item 6)	337.50
8. Total tax payable for year (item 6 plus item 7)	3,712.50

Example (3) (showing computation of defense tax for calendar year 1940). The facts are the same as in the preceding example except that the remaining $15,000 of the donor's specific exemption is claimed for the calendar year 1940 and the gifts to the daughter, son, and charitable organization were made during the calendar year 1940, as follows:

To daughter before June 26, 1940	$44,000
To son after June 25, 1940	14,000
To charitable organization after June 25, 1940	10,000

The determination of the amount of the net gifts and the computation of the tax, without the addition of the defense tax, is the same as in the preceding example.

The computation of the defense tax and the total amount of the tax payable for the calendar year 1940 is shown as follows:

Total included amount of gifts for year, less amount deducted for charitable gift ($56,000 minus $6,000)	$50,000.00
Total included amount of gifts made after June 25, 1940, less amount deducted for charitable gift made after June 25, 1940 ($16,000 minus $6,000)	$10,000.00
10 percent of $3,375, the amount of the tax without the addition of the defense tax	337.50
Defense tax for 1940 $\left(\frac{10,000}{50,000} \times \$337.50\right)$	67.50
Total amount of tax payable for calendar year 1940 ($3.375 plus $67.50)	3,442.50

SEC. 1002. TRANSFER FOR LESS THAN ADEQUATE AND FULL CONSIDERATION.

Where property is transferred for less than an adequate and full consideration in money or money's worth, then the amount by which the value of the property exceeded the value of the consideration shall, for the purpose of the tax imposed by this chapter, be deemed a gift, and shall be included in computing the amount of gifts made during the calendar year.

§ 86.8 *Transfers for a consideration in money or money's worth.* Transfers reached by the statute are not confined to those only which, being without a valuable consideration, accord with the common law concept of gifts, but embrace as well sales, exchanges, and other dispositions of property for a consideration in money or money's worth to the extent that the value of the property transferred by the donor exceeds the value of the consideration given therefor. However, a sale, exchange, or other transfer of property made in the ordinary course of business (a transaction which is bona fide, at arm's length, and free from any donative intent), will be considered as made for an adequate and full consideration in money or money's worth. A consideration not reducible to a money value, as love and affection, promise of marriage, etc., is to be wholly disregarded, and the entire value of the property transferred constitutes the amount of the gift.

SEC. 1003. NET GIFTS. [As originally enacted.]

(a) *General definition.* The term "net gifts" means the total amount of gifts made during the calendar year, less the deductions provided in section 1004.

(b) *Exclusions from gifts.*—(1) *Gifts prior to 1939.* In the case of gifts (other than of future interests in property) made to any person by the donor during the calendar year 1938 and previous calendar years, the first $5,000 of such gifts to such person shall not, for the purposes of subsection (a), be included in the total amount of gifts made during such year.

(2) *Gifts after 1938.* In the case of gifts (other than gifts in trust or of future interests in property) made to any person by the donor during the calendar year 1939 and subsequent calendar years, the first $4,000 of such gifts to such persons shall not, for the purposes of subsection (a), be included in the total amount of gifts made during such year.

SEC. 454. EXCLUSION FROM NET GIFTS REDUCED. [Revenue Act of 1942, Title IV, Part II. Effective for calendar year 1943 and each calendar year thereafter.]

Section 1003 (b) (2) (relating to exclusion of gifts) is amended to read as follows:

(2) *Gifts after 1938 and prior to 1943.* In the case of gifts (other than gifts in trust or of future interests in property) made to any person by the donor during the calendar year 1939 and subsequent calendar years prior to 1943, the first $4,000 of such gifts to such person shall not, for the purposes of subsection (a), be included in the total amount of gifts made during such year.

(3) *Gifts after 1942.* In the case of gifts (other than gifts of future interests in property) made to any person by the donor during the calendar year 1943 and subsequent calendar years, the first $3,000 of such gifts to such person shall not, for the purposes of subsection (a), be included in the total amount of gifts made during such year.

SEC. 451. GIFTS TO WHICH AMENDMENTS APPLICABLE. [Revenue Act of 1942, Title IV, Part II.]

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to gifts made in the calendar year 1943, and succeeding calendar years.

§ 86.9 *Net gifts.* The tax is computed upon the amount of the donor's net gifts (see §§ 86.5, 86.6, and 86.7. The term "net gifts" means the "total amount of gifts" computed as provided in section 1003 (see § 86.10), less the deductions provided in section 1004. (See §§ 86.12 and 86.13.)

§ 86.10 *Total amount of gifts.* Except with respect to any gift of a future interest in property, the first $3,000 of gifts made to any one donee during the calendar year 1943 or during any calendar year thereafter shall be excluded in determining the total amount of gifts for such calendar year. In the case of a gift in trust, the beneficiary of the trust is the donee of the gift. Except with respect to any gift in trust or of a future interest in property, the first $4,000 of gifts made to any one donee during any one of the calendar years 1939 to 1942, inclusive, shall be excluded in determining the total amount of gifts for any such calendar year. Except with respect to any gift of a future interest in property, the first $5,000 of gifts made to any one donee during the calendar year 1938 or during any calendar year prior thereto shall be excluded in determining the total amount of gifts for such calendar year. The entire value of any gift of a future interest in property, and the entire value of any gift made by a transfer in trust during the calendar years 1939 to 1942, inclusive, must be included in the total amount of gifts for the calendar year in which such a gift is made.

§ 86.11 *Future interests in property.* No part of the value of a gift of a future interest may be excluded in determining the total amount of gifts made during the calendar year. "Future interests" is a legal term, and includes reversions, remainders, and other interests or estates, whether vested or contingent, and whether or not supported by a particular interest or estate, which are limited to commence in use, possession, or enjoyment at some future date or time. The term has no reference to such contractual rights as exist in a bond, note (though bearing no interest until maturity), or in a policy of life insurance, the obligations of which are to be discharged by payment in the future. But a future interest or interests in such contractual obligations may be created by the limitations contained in a trust or other instrument of transfer employed in effecting a gift. For the valuation of future interests, see § 86.19 (g).

SEC. 1004. DEDUCTIONS.

In computing net gifts for the calendar year 1939 and preceding calendar years, there shall be allowed (except as otherwise provided in paragraph (1) of subsection (a) such deductions as are provided for under the gift tax laws applicable to the years in which the gifts were made.

In computing net gifts for the calendar year 1940 and subsequent calendar years, there shall be allowed as deductions:

(a) *Residents.* In the case of a citizen or resident—

(1) *Specific exemption.* An exemption of $40,000, less the aggregate of the amounts claimed and allowed as specific exemption in the computation of gift taxes for the calendar year 1932 and all calendar years intervening between that calendar year and the calendar year for which the tax is being computed under the laws applicable to such years. This exemption shall be applied in all computations in respect of the calendar year 1939 and previous calendar years for the purpose of computing the tax for the calendar year 1940 or any calendar year thereafter.

(2) *Charitable, etc., gifts.* The amount of all gifts made during such year to or for the use of—

(A) The United States, any State, Territory, or any political subdivision thereof, or the District of Columbia, for exclusively public purposes;

(B) A corporation, or trust, or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals; no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation;

(C) A fraternal society, order, or association, operating under the lodge system, but only if such gifts are to be used exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals;

(D) Posts or organizations of war veterans, or auxiliary units or societies of any such posts or organizations, if such posts, organizations, units, or societies are organized in the United States or any of its possessions, and if no part of their net earnings inures to the benefit of any private shareholder or individual;

(E) The special fund for vocational rehabilitation authorized by section 12 of the World War Veterans' Act, 1924, 43 Stat. 611 (U. S. C., title 38 § 440).

(b) *Nonresidents.* In the case of a nonresident not a citizen of the United States, the amount of all gifts made during such year to or for the use of—

(1) The United States, any State, Territory, or any political subdivision thereof, or the District of Columbia, for exclusively public purposes;

(2) A domestic corporation organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals; no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation;

(3) A trust, or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals, no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation; but only if such gifts are to be used within the United States exclusively for such purposes;

(4) A fraternal society, order, or association, operating under the lodge system, but only if such gifts are to be used within the United States exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals;

(5) Posts or organizations of war veterans, or auxiliary units or societies of any such posts or organizations, if such posts, organizations, units, or societies are organized in the United States or any of its possessions, and if no part of their net earnings inures to the benefit of any private shareholder or individual;

(6) The special fund for vocational rehabilitation authorized by section 12 of the World War Veterans' Act, 1924, 43 Stat. 611 (U.S.C., Title 38, § 440).

(c) *Extent of deductions.* The deductions provided in subsection (a) (2) or (b) shall be allowed only to the extent that the gifts therein specified are included in the amount of gifts against which such deductions are applied.

SEC. 455. *Specific Exemption of Gifts Reduced.* [Revenue Act of 1942, Title IV, Part II. Effective for calendar year 1943 and each calendar year thereafter.]

That part of section 1004 which precedes paragraph (2) of subsection (a) is amended to read as follows:

SEC. 1004. DEDUCTIONS.

In computing net gifts for the calendar year 1942 and preceding calendar years, there shall be allowed (except as otherwise provided in paragraph (1) of subsection (a)) such deductions as are provided for under the gift tax laws applicable to the years in which the gifts were made.

In computing net gifts for the calendar year 1943 and subsequent calendar years, there shall be allowed as deductions:

(a) *Residents.* In the case of a citizen or resident—

(1) *Specific exemption.* An exemption of $30,000, less the aggregate of the amounts claimed and allowed as specific exemption in the computation of gift taxes for the calendar year 1932 and all calendar years intervening between that calendar year and the calendar year for which the tax is being computed under the laws applicable to such years. This exemption shall be applied in all computations in respect of the calendar year 1942 and previous calendar years for the purpose of computing the tax for the calendar year 1943 or any calendar year thereafter.

SEC. 451. GIFTS TO WHICH AMENDMENTS APPLICABLE. [Revenue Act of 1942, Title IV, Part II.]

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to gifts made in the calendar year 1943, and succeeding calendar years.

§ 86.12 *Specific exemption.* In determining the amount of net gifts for the calendar year there may be deducted, if the donor was a citizen or resident of the United States at the time the gifts were made, a specific exemption of $30,000 ($40,000 if the calendar year is 1940, 1941, or 1942), less the sum of the amounts claimed and allowed as an exemption in prior calendar years. The exemption, at the option of the donor, may be taken in its entirety in a single

year, or be spread over a period of years in such amounts as he sees fit, but after the limit has been reached no further exemption is allowable. In determining the aggregate sum of the net gifts for the preceding calendar years (see § 86.7), the total amount of the specific exemption claimed and allowed for such preceding years should be deducted, except that if tax is being computed for the calendar year 1943 or for any calendar year thereafter such deduction cannot exceed $30,000, or if the tax is being computed for the calendar year 1940, 1941, or 1942, such deduction cannot exceed $40,000. The specific exemption is authorized only in the case of a citizen or resident of the United States. A donor who was a nonresident not a citizen of the United States at the time of the gift or gifts is not entitled to this exemption.

§ 86.13 *Charitable, etc., gifts.* In determining the amount of net gifts of a given calendar year, in the case of a donor who was a citizen or resident of the United States at the time when the gifts were made, there may be deducted the amount of such gifts as were to or for the use of (a) the United States, any State, Territory, or any political subdivision thereof, or the District of Columbia, for exclusively public purposes; or (b) any corporation, trust, community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals, provided no part of the net earnings of such organization inures to the benefit of any private shareholder or individual, and no substantial part of its activities is carrying on propaganda, or otherwise attempting, to influence legislation; or (c) a fraternal society, order, or association, operating under the lodge system, provided such gifts are to be used by such fraternal society, order, or association exclusively for one or more of the purposes enumerated in (b); or (d) any organization of war veterans or auxiliary unit or society thereof if such organization, auxiliary unit, or society thereof is organized in the United States or any of its possessions, and if no part of its net earnings inures to the benefit of any private shareholder or individual. The special fund for vocational rehabilitation authorized by section 12 of the World War Veterans' Act, 1924, referred to in section 1004, has been discontinued. See notes, 38 U. S. C. 440, 531–539.

In case the donor was a nonresident not a citizen of the United States at the time the gifts were made, the deduction of the amount of charitable, etc., gifts is governed by the same rules as those applying to similar gifts made by citizens or residents, subject, however, to the two following exceptions: (1) If the gift be made to or for the use of a corporation, such corporation must be one created or organized under the laws of the United States or of any State or Territory thereof; and (2) if made to or for the use of a trust, or community chest, fund, or foundation, or a fraternal society, order, or association, operating under the lodge system, the gift must be for use within the United States exclusively for religious, charitable, scientific, literary or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals.

The deduction is not limited in the case of donors who were citizens or residents to gifts to or for the use of domestic corporations, or for use within the United States when made to a trust, or community chest, fund, or foundation, or a fraternal society, order, or association, operating under the lodge system.

If money or other property is so given that the income is, for the duration of a life or a term of years, to be paid to the donor or other individual, or is to be used for a purpose not described in section 1004 (a) (2) or (b), and the property is then to be devoted exclusively to some one or more of the uses described in section 1004 (a) (2) or (b), only the present worth of the remainder is deductible. To determine the present worth or value of such remainder (that is, its value as of the date of the gift), the amount of the money or the value of the property transferred should be multiplied by the appropriate factor in column 3 of Table A or B, a part of § 86.19.

§ 86.14 *Religious, charitable, scientific, literary, and educational organizations.* The corporation, or trust, or community chest, fund, or foundation to which a gift is made must meet three tests to entitle the donor to deduct the amount of the gift: (1) It must be organized and operated exclusively for one or more of the purposes specified in the statute; (2) it must not by a substantial part of its activities carry on propaganda, or otherwise attempt, to influence legislation; and (3) no part of its net earnings shall inure to the benefit of private shareholders or individuals.

The donor is not deprived of the right to deduct an amount equal to the value of property so transferred by reason of the fact that private individuals are the recipients of the benefits which the organization dispenses. Such right is lost, however, where any part of the net earnings of the organization inures to the benefit of a private shareholder or individual.

§ 86.15 *Proof required.* In order to prove the right to this deduction, the donor must submit such documents or evidence as may be requested by the Commissioner.

§ 86.16 *Charitable, etc., gifts, with power to divert.* If a fraternal society, order, or association, operating under the lodge system, is empowered to divert a part of the property or fund transferred by gift to a use or purpose which would have rendered it, to the extent that it is subject to such power, not deductible had it been directly transferred by the donor for such use or purpose, deduction will be limited to that part of the property or fund which is not subject to the exercise of the power.

SEC. 1005. GIFTS MADE IN PROPERTY.

If the gift is made in property, the value thereof at the date of the gift shall be considered the amount of the gift.

§ 86.17 *Gifts made in property.* A gift made in property is subject to the tax in the same manner as a gift of cash, and the amount of the gift is the value of the property at the date of the gift.

§ 86.18 *Situs of property.* The statute imposes a tax upon gifts made by citizens of the United States, residents or nonresidents thereof, and upon those made by residents of the United States, whether or not citizens, irrespective of whether the property transferred (real or personal, tangible or intangible) be situated within or without the United States. But gifts by nonresidents of the United States who are not citizens thereof (see § 86.4) are subject to tax only if the property transferred is, at the time of the transfer, situated within the United States.

Real estate, tangible personal property, and the written evidence of intangible personal property which is treated as being the property itself are within the United States if physically situated therein. For example, a bond for the payment of money is not within the United States unless physically situated therein. Stock of a domestic corporation, however, constitutes property within the United States, irrespective of where the certificates thereof are physically located. (See section 1030 (b) and § 86.74.) Intangible personal property the written evidence of which is not treated as being the property itself constitutes property within the United States if consisting of a property right issuing from or enforceable against a resident of the United States or a domestic corporation (public or private), irrespective of where such written evidence is physically located.

Paragraph (9) of section 3797 (a) of the Internal Revenue Code defines the term "United States," when used in a geographical sense, as including only the States, the Territories of Alaska and Hawaii, and the District of Columbia.

§ 86.19 *Valuation of property.* (a) *General.* The statute provides that if the gift is made in property, the value thereof at the date of the gift shall be considered the amount of the gift. The value of the property is the price at which such property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell. The value of a particular kind of property is not to be determined by a forced sale price. Such value is to be determined by ascertaining as a basis the fair market value at the time of the gift of each unit of the property. For example, in the case of shares of stock or bonds, such unit of property is a share or a bond. All relevant facts and elements of value as of the time of the gift should be considered.

(b) *Real estate.* In returning a gift of real estate, the local assessed value thereof should not be returned as the value of the gift unless such value represents the fair market value of the property as of the date of the gift. (See § 86.24 for manner of listing and describing real estate in returns.)

(c) *Stocks and bonds.* The value at the date of the gift in the case of stocks

and bonds, within the meaning of the statute, is the fair market value per share or bond on such date.

In the case of stocks and bonds listed on a stock exchange, the mean between the highest and lowest quoted selling prices on the date of the gift shall be considered as the fair market value per share or bond. If there were no sales on the date of the gift, such value shall be determined by taking the mean between the highest and lowest sales on the nearest date before and the nearest date after the date of the gift (both such nearest dates being within a reasonable period), and by prorating the difference between such mean prices to the date of the gift, and by adding or subtracting, as the case may be, such prorated portion of the difference to or from the mean price obtaining on such nearest date before the date of the gift. For example, assume that sales of stock nearest the date of the gift (June 15) occurred two days before (June 13) and three days after (June 18) and that on such days the mean sale prices per share were $10 and $15, respectively. The price of $12 shall be taken as representing the fair market value of a share of such stock as of the date of the gift. If, however, on June 13 and June 18 the mean sale prices per share were $15 and $10, respectively, the price of $13 shall be taken as representing the fair market value of a share of such stock as of the date of the gift. If the security was listed on more than one exchange, the records of the exchange where the security is principally dealt in should be employed. In valuing listed stocks and bonds the donor should observe care to consult accurate records to obtain values as of the date of the gift.

In the case of stocks and bonds which are not listed upon an exchange, but are dealt in through brokers, or have a market, the fair market value shall be determined by taking the mean between the highest and lowest selling prices as of the date of the gift; or, if there were no sales on that date, such value shall be determined by taking the mean between the highest and lowest sales on the nearest date before and the nearest date after the date of the gift (both such nearest dates being within a reasonable period), and by prorating the difference between such mean prices to the date of the gift, and by adding or subtracting, as the case may be, such prorated portion of the difference to or from the mean price obtaining on such nearest date before the date of the gift. If quotations are obtained from brokers, or evidence as to the sale of securities is obtained from the officers of the issuing companies, the donor should preserve in his files the letters furnishing such quotations or evidence of sale for inspection when the return is verified by an investigating officer.

If actual sales are not available during a reasonable period beginning before and ending after the date of the gift, the fair market value may be determined by taking the mean between the bona fide bid and asked prices on the nearest date before and the nearest date after the date of the gift (both such nearest dates being within a reasonable period), and by prorating the difference between such mean prices to the date of the gift, and by adding or subtracting, as the case may be, such prorated portion of the difference to or from the mean price obtaining on such nearest date before the date of the gift.

If actual sale prices or quoted bona fide bid and asked prices are available on a date within a reasonable period prior to the date of the gift, and if no actual sale prices or bona fide bid and asked prices are available on a date within a reasonable period after the date of the gift, or vice versa, then the mean between such highest and lowest available sale prices or bid and asked prices may be taken as the value.

If actual sales or bona fide bid and asked prices are not available, then, in the case of corporate or other bonds, the value is to be arrived at by giving consideration to the soundness of the security, the interest yield, the date of maturity, and other relevant factors, and, in the case of shares of stock, upon the basis of the company's net worth, earning power, dividend-paying capacity, and all other relevant factors having a bearing upon the value of the stock. Complete financial and other data upon which the donor bases his valuation should be submitted with the return.

In cases in which it is established that the value per bond or share of any security determined on the basis of selling or bid and asked prices as herein provided does not reflect the fair market value thereof, then some reasonable modification of such basis or other relevant facts and elements of value shall be considered in determining fair market value.

(d) *Interest in business.* Care should be taken to arrive at an accurate valuation of any business which the donor transfers without an adequate and full consideration in money or money's worth, whether the interest transferred is that of a partner or of a proprietor. A fair appraisal as of the date of the gift should be made of all the assets of the business, tangible and intangible, including good will, and the business should be given a net value equal to the amount which a willing purchaser, whether an individual or a corporation, would pay therefor to a willing seller in view of the net value of the assets of the business and its demonstrated earning capacity. Special attention should be given to fixing an adequate figure for the value of the good will of the business.

The factors hereinbefore stated relative to the valuation of other property, if applicable, will be considered in determining the valuation of a proprietary or partnership interest in the business. All evidence bearing upon such valuation should be submitted with the return, including copies of reports in any case in which examinations of the business have been made by accountants, engineers, or any technical experts as of or near the date of the gift.

(e) *Notes, secured and unsecured.* The value of notes, whether secured or unsecured, will be presumed to be the amount of unpaid principal, plus accrued interest to the date of the gift, unless the donor establishes a lower value. Unless returned at face value, plus accrued interest, it must be shown by satisfactory evidence that the note is worth less than the unpaid amount because of the interest rate, or date of maturity, or other cause, or that the note is uncollectible in part by reason of the insolvency of the party or parties liable, or for other cause, and that the property, if any, pledged or mortgaged as security is insufficient to satisfy it.

(f) *Annuities, life estates, remainders and reversions*—(1) *Annuities—General.* For valuation of annuities purchased from life insurance companies or other companies regularly engaged in issuing annuity contracts, see (i) under this section. In case the donor creates a trust under which a specified annuity is payable to the donee, the value of such gift should be determined by using Table A or Table B, whichever is applicable, shown at the end of this section. If the annuity is payable at the end of each annual period, the factor is obtained directly from the table. If the annuity is payable for the life of an individual, the amount payable annually should be multiplied by the figure in column 2 of Table A opposite the number of years in column 1 of such table nearest the age of the individual (as of the date of the gift) whose life measures the duration of the annuity, or if payable for a definite number of years the amount payable annually should be multiplied by the figure in column 2 of Table B opposite the number of years in column 1 of such table.

Example (1). The donee is made the beneficiary of an annuity of $10,000 payable at the end of annual periods during his life. The age of the donee at the date of the gift is 40 years and 8 months. By reference to Table A, it is found that the figure in column 2 opposite 41 years, the number nearest to the donee's age, is 14.86102. The value of the gift is, therefore, $148,610.20 ($10,000 multiplied by 14.86102).

Example (2). The donor was entitled to receive an annuity of $10,000 a year payable at the end of annual periods throughout a term of 20 years; the donor, when 15 years have elapsed, makes a gift thereof to his son. By reference to Table B, it is found that the figure in column 2 opposite 5 years, the unexpired portion of the 20-year period, is 4.45182. The present worth of the annuity is, therefore, $44,518.20 ($10,000 multiplied by 4.45182).

(2) *Annuities payable at end of semiannual, quarterly, or monthly periods.* If the annuity is payable semiannually, quarterly, or monthly, the value should be determined by multiplying the aggregate amount to be paid within a year by the figure in column 2 of Table A opposite the number of years in column 1 nearest the actual age of the person whose life measures the annuity, or the figure in column 2 of Table B opposite the number of years the annuity is payable, as the case may be, and then multiplying the product by 1.01820 for monthly payments, by 1.01488 for quarterly payments, or by 1.00990 for semiannual payments.

Example. If, in example (1) given above under (1) *Annuities—General*, the annuity is payable semiannually, the factor, 14.86102, should be multiplied by 1.00990 and the prod-

uct multiplied by $10,000. The value of the gift is, therefore, $150,081.44 ($10,000×14.86102×1.00990).

(3) *Annuities payable at beginning of annual, semiannual, quarterly, or monthly periods*—(i) *Annuity for life.* If the first payment of an annuity for the life of an individual is to be paid at once, the value of the annuity is the sum of the first payment plus the present worth of a similar annuity the first payment of which is not to be made until the end of the first period.

Example. The donee is made the beneficiary for life of an annuity of $50 a month payable from the income of a trust, subject to the right reserved by the donor to cause the annuity to be paid for his own benefit or for the benefit of another. On the day a payment is due, the donor relinquishes his reserved power. The donee is then 50 years of age. The value of the gift is $50 plus the product of $50×12×12.47032 (see Table A)×1.01820, or $7,668.37 [$50 plus ($50×12×12.47032×1.01820)].

(ii) *Annuity for term of years.* If the first payment of an annuity for a definite number of years is to be paid at once, the applicable factor is the product of the factor shown in Table B multiplied by 1.02154 for monthly payments, by 1.02488 for quarterly payments, by 1.02990 for semiannual payments, or by 1.04 for annual payments.

Example. The donee is the beneficiary of an annuity of $50 a month subject to a reserved right in the donor to cause the annuity or the cash value thereof to be paid for his own benefit or for the benefit of another. On the day a payment is due, the donor relinquishes his power. There are 300 payments to be made covering a period of 25 years, including the payment due. The value of the gift is the product of $50×12×15.62208 (factor for 25 years, Table B)×1.02154, or $9,575.15 ($50×12×15.62208×1.02154).

(4) *Actuarial calculations by Bureau.* If in the case of a completed gift an annuity is to be paid during the life of an individual and in any event for a definite number of years, or for more than one life, or in any other manner rendering inapplicable both Table A and Table B, the case may be stated to the Commissioner, who will thereupon furnish the applicable factor. In making such calculations when life interests or remainders upon life interests are involved, use will be made of the Actuaries' or Combined Experience Table of Mortality, as extended (that being the basis of Table A), with interest at 4 percent per annum compounded annually.

(5) *Life estates, terms for years.—Hypothetical annuity.* If the gift consists of the donor's right for life or for the life of another person, or for a term of years, either to receive the income of certain property or to use nonincome-producing property, a hypothetical annuity at the rate of 4 percent of the value of the property should be made the basis of the calculation. A provision for the payment of income in semiannual, quarterly, or monthly installments does not affect the value to be assigned to the life interest.

(6) *Remainders or reversionary interests.* If the gift is of a remainder or reversionary interest subject to an outstanding life estate, the value of the gift will be obtained by multiplying the value of the property at the date of the gift by the figure in column 3 of Table A opposite the number of years nearest to the age of the life tenant. In case the remainder or reversion is to take effect at the end of a term of years, Table B should be used.

Example. The donor transferred by gift property worth $50,000 which he was entitled to receive upon the death of his brother, to whom the income for life had been bequeathed. The brother at the date of the gift was 31 years of age. By reference to Table A, it is found that the figure in column 3 opposite 31 years is 0.31262. The value of the gift is, therefore, $15,631 ($50,000×0.31262).

(g) *Transfers conditioned upon survivorship.* If A, without retaining a power to revoke the trust or to change the beneficial interest, transfers property in trust whereby B is to receive the income therefrom for life and at his death the trust is to terminate and the corpus is to be returned to A provided A survives but if A predeceases B the corpus is to pass to C, A consummates a gift of such property less the present value of his right to the corpus should he survive the life tenant. The value of such gift is to be determined in accordance with the Actuaries' or Combined Experience Table of Mortality, as extended.

A case involving the value of the right of survivorship (provided the gift is completed and not merely proposed or hypothetical) may be submitted to the Commissioner, who will furnish the applicable factor, computed in accordance with recognized actuarial principles.

(h) *Tenancies by the entirety.* If either a husband or his wife purchases property and causes the title thereto to be conveyed to themselves as tenants by the entirety, or if either causes to be created such a tenancy in property already owned by him or her, and under the law of the jurisdiction governing the rights of the spouses with respect to the property neither of them may, acting alone, defeat the right of the survivor of them to the whole of the property, the transfer effects a gift from the spouse owning the property at the time of the creation of the tenancy or who furnished the consideration in the purchase of the property. The value of the gift is the value of such property less the value of the right, if any, of the donor spouse to the income or other enjoyment of the property, or share thereof, during the joint lives of the spouses, and the value of the right of the donor spouse to the whole of the property should he or she be the survivor of them. The value of each of such rights is to be determined in accordance with the Actuaries' or Combined Experience Table of Mortality, as extended.

A case of this character (provided the gift is completed and not merely proposed or hypothetical) may be submitted to the Commissioner, who will, in accordance with recognized actuarial principles, compute the applicable factor to be used in determining such value, and will advise the donor of the factor.

(i) *Life insurance and annuity contracts.* The value of a life insurance contract or of a contract for the payment of an annuity issued by a company regularly engaged in the selling of contracts of that character is established through the sale of the particular contract by the company, or through the sale by the company of comparable contracts. As valuation through sale of comparable contracts is not readily ascertainable when the gift is of a contract which has been in force for some time and on which further premium payments are to be made, the value may be approximated, unless because of the unusual nature of the contract such approximation is not reasonably close to the full value, by adding to the interpolated terminal reserve at the date of the gift the proportionate part of the gross premium last paid before the date of the gift which covers the period extending beyond that date.

The examples given below, so far as relating to life insurance contracts, are of gifts of such contracts on which there are no accrued dividends or outstanding indebtedness.

Example (1). A donor purchases from a life insurance company for the benefit of another a life insurance contract or a contract for the payment of an annuity; the value of the gift is the cost of the contract.

Example (2). An annuitant, having purchased from a life insurance company a single payment annuity contract by the terms of which he was entitled to receive payments of $1,200 annually for the duration of his life, five years subsequent to such purchase, and when of the age of 50 years, gratuitously assigns the contract. The value of the gift is the amount which the company would charge for an annuity contract providing for the payment of $1,200 annually for the life of a person 50 years of age.

Example (3). A donor owning a life insurance policy on which no further payments are to be made to the company (e. g., a single premium policy or paid-up policy) makes a gift of the contract. The value of the gift is the amount which the company would charge for a single premium contract of the same specified amount on the life of a person of the age of the insured.

Example (4). A gift is made four months after the last premium due date of an ordinary life insurance policy issued nine years and four months prior to the gift thereof by the insured, who was 35 years of age at date of issue. The gross annual premium is $2,811. The computation follows:

Terminal reserve at end of tenth year	$14,601.00
Terminal reserve at end of ninth year	12,965.00
Increase	1,636.00
One third of such increase (the gift having been made four months following the last preceding premium due date), is	545.33
Terminal reserve at end of ninth year	12,965.00
Interpolated terminal reserve at date of gift	13,510.33
Two-thirds of gross premium ($2,811)	1,874.00
Value of the gift	15,384.33

(j) *Other property.* Any property not specifically treated in this section should be valued in accordance with the rule laid down under paragraph (a) of this section.

SEC. 1006. RETURNS.

(a) *Requirement.* Any individual who within the calendar year 1940 or any calendar year thereafter makes any transfers by gift (except those which under section 1003 are not to be included in the total amount of gifts for such year) shall make a return under oath in duplicate. The return shall set forth (1) each gift made during the calendar year which under section 1003 is to be included in computing net gifts; (2) the deductions claimed and allowable under section 1004; (3) the net gifts for each of the preceding calendar years; and (4) such further information as may be required by regulations made pursuant to law.

(b) *Time and place for filing.* The return shall be filed on or before the 15th day of March following the close of the calendar year with the collector for the district in which is located the legal residence of the donor, or if he has no legal residence in the United States, then (unless the Commissioner designates another district) with the collector at Baltimore, Maryland.

§ 86.20 *Persons required to file return.* Any individual citizen or resident of the United States who within the calendar year 1943, or within any calendar year thereafter, makes a transfer or transfers by gift to any one donee of a value or total value in excess of $3,000 (or regardless of value in the case of a gift of a future interest in property) must file a gift tax return for such year on Form 709. Any individual citizen or resident of the United States who within the calendar year 1940, 1941, or 1942 makes a transfer or transfers by gift to any one donee of a value or total value in excess of $4,000 (or regardless of value in the case of a gift in trust or of a future interest in property) must file a gift tax return for such year on Form 709. A nonresident not a citizen of the United States who made such a gift must also file a return on Form 709 if the subject of the gift consisted of property situated in the United States. The return is required even though because of authorized deductions (the specific exemption, in the case of a citizen or resident, and charitable, public, and similar gifts) no tax may be payable. Individuals only are required to file returns as donors, and not trusts, estates, partnerships, or corporations.

If the donor dies before filing his return, the executor of his will or the administrator of his estate shall file the return. If the donor becomes legally incompetent before filing his return, his guardian or committee shall file the return.

The return shall not be made by an agent unless by reason of illness, absence, or nonresidence, the person liable for the return is unable to make it within the time prescribed. Mere convenience is not sufficient reason for authorizing an agent to make the return. If by reason of illness, absence, or nonresidence, a return is made by an agent, such return must be ratified by the donor or other person liable for its filing within a reasonable time after such person becomes able to do so; otherwise the return filed by the agent will not be considered the return required by the statute. Supplemental data may be submitted at the time of ratification. The ratification must be in the form of an affidavit, filed with the Commissioner, and must specifically state that the return made by the agent has been carefully examined and that the affiant ratifies such return as his own. If a return is signed by an agent, a statement fully explaining the inability of the donor must accompany the return.

§ 86.21 *Donees and trustees required to file notice of gifts.* An information return or notice on Form 710 must be filed by every donee or trustee (except in the case of an organization receiving a gift for a public, charitable, etc., purpose as hereinafter explained) to whom is transferred in any one calendar year property by gift for which, as set forth in § 86.20, the donor is required to file a gift tax return. An organization which has been held by the Commissioner to come within the purview of section 1004 (a) (2) of the Internal Revenue Code or the corresponding provision of the Revenue Act of 1932 need not file such information return if the gift was made

by a citizen or resident of the United States. An organization which has been held by the Commissioner to come within the purview of section 1004 (b) of the Internal Revenue Code or the corresponding provision of the Revenue Act of 1932 need not file such information return if the gift was made by a nonresident not a citizen of the United States. Copies of this form may be obtained from any United States collector of internal revenue upon application. When a gift is made in trust notice thereof should be filed by either the beneficiary of the trust or the trustee, but in such case one notice only is required. If the donor retains a power over transferred property, the notice (which is for information purposes only) should be filed even though it is considered that the retention of the power renders the transfer wholly incomplete as a gift within the meaning of the statute. The notice shall be filed in duplicate with the collector for the district in which the donor resides, or with the Commissioner of Internal Revenue at Washington, D. C., on or before the 15th day of March following the close of the calendar year in which the transfer was made. The notice shall disclose the following information: (1) Name and address of donor, (2) date of transfer, (3) a general description of the property transferred, and (4) the approximate value thereof at the date of the transfer. If the donee dies or becomes legally incompetent, his executor, administrator, guardian, or committee, as the case may be, shall file such notice as would be required of the donee.

§ 86.22 *Time and place of filing return.* Gift tax returns must be filed in duplicate on or before the 15th day of March following the close of the calendar year in which gifts were made. The return shall be filed with the collector of internal revenue for the district in which is located the legal residence of the donor, or, if he has no legal residence in the United States, then, unless the Commissioner otherwise designates, with the collector of internal revenue at Baltimore, Md. When the due date for the filing of the return falls on a Sunday or a legal holiday, the due date will be the day next following which is not a Sunday or a legal holiday. If placed in the mails, the return should be posted in ample time to reach the collector's office, under ordinary handling of the mails, on or before the date on which the return is required to be filed. If a return is made and so placed in the mails, properly addressed, and postage paid, in ample time to reach the office of the collector on or before the due date, no penalty will attach should the return not be actually received by such officer until subsequent to that date. As to additions to the tax in the case of failure to file a return within the period prescribed, see section 3612 (d) (1) and § 86.50.

Section 3634 provides:

If the failure to file a return (other than a return of income tax) or list at the time prescribed by law or by regulation made under authority of law is due to sickness or absence, the collector may allow such further time, not exceeding thirty days, for making or filing the return or list as he deems proper.

No such extension of time may be granted unless the application therefor is received by the collector prior to the expiration of the period for which the extension is requested and authorized. An extension of time for filing the return does not in itself operate to extend the time for the payment of the tax.

§ 86.23 *Form of return.* The return must be made on Form 709, copies of which will be supplied by the collector upon application. The return must be filed in duplicate and under oath. If the return is filed for the calendar year 1943, or for any calendar year thereafter, it must set forth every transfer by gift to any one donee during such calendar year, as to which the donor is required to make a return under § 86.20, which singly or in the aggregate exceeds $3,000 in value (or regardless of value in the case of a gift of a future interest in property). A return filed for the calendar year 1940, 1941, or 1942 must set forth every transfer by gift to any one donee during such calendar year, as to which a return is required under § 86.20, which singly or in the aggregate exceeds $4,000 in value (or regardless of value in the case of a gift in trust or of a future interest in property). The return shall also set forth the fair market value of all such gifts not made in money, including gifts resulting from sales and exchanges of property made for less than an adequate and full consideration in money or money's worth (see § 86.8), giving the fair market value of the property sold or exchanged and that of the consideration received by the donor, both as of the date of sale or exchange. The return shall also contain information with respect to transfers which the donor considers incomplete gifts because of his retained power over such transferred property (see § 86.3). The deductions claimed must also be fully set forth. The instructions printed on the form of return should be carefully followed. All documents and vouchers used in preparing the return should be retained by the donor so as to be available for inspection by representatives of the Bureau whenever required. Certified or verified copies of all documents required by the instructions printed on the form, or any documents which the donor may desire to submit, should be filed with the return.

In addition to the list of gifts made during the calendar year for which the return is filed, the return shall set forth for each of the preceding calendar years both the amount of gifts (other than charitable, public, and similar gifts) and the amount of specific exemption claimed and allowed.

The tax, if any, for the calendar year for which the return is filed shall be computed and entered on the return, as provided by the form. (See § 86.7.)

§ 86.24 *Description of property listed on return.* In listing upon the return the property comprising the gifts made during the calendar year, the description thereof should be such that the property may be readily identified. Thus, there should be given for each parcel of real estate a legal description, its area, a short statement of the character of any improvements, and if located in a city the name of street and number. Description of bonds should include the number transferred, principal amount, name of obligor, date of maturity, rate of interest, date or dates on which interest is payable, series number where there is more than one issue, the exchange upon which listed, or the principal business office of the corporation, if unlisted. Description of stocks should include number of shares, whether common or preferred, and, if preferred, what issue thereof, par value, quotation at which returned, exact name of corporation, and, if the stock is unlisted, the location of the principal business office and State in which incorporated and the date of incorporation. If a listed security, state principal exchange upon which sold. Description of notes should include name of maker, date on which given, date of maturity, amount of principal, amount of principal unpaid, rate of interest and whether simple or compound, and date to which interest has been paid. If the gift of property includes accrued income thereon to the date of the gift, the amount of such accrued income should be separately set forth. Description of land contracts transferred should include name of vendee, date of contract, description of property, sale price, initial payment, amounts of installment payments, unpaid balance of principal, interest rate and date prior to gift to which interest has been paid. Description of life insurance policies should show the name of the insurer and the number of the policy. A supplemental statement, Form 938, must be filed for every life insurance policy. (See § 86.26.) In describing an annuity, the name and address of the issuing company should be given, or if payable out of a trust or other fund such a description as will fully identify such trust or fund. If the annuity is payable for a term of years, the duration of the term and the date on which it began should be given, and if payable for the life of any person, the date of birth of such person should be stated. Judgments should be described by giving the title of the cause and the name of the court in which rendered, date of judgment, name and address of judgment debtor, amount of judgment, rate of interest to which subject, whether any payments have been made thereon, and, if so, when and in what amounts.

SEC. 1007. RECORDS AND SPECIAL RETURNS.

(a) *By donor.* Every person liable to any tax imposed by this chapter or for the collection thereof, shall keep such records, render under oath such statements, make such returns, and comply with such rules and regulations, as the Commissioner, with the approval of the Secretary, may from time to time prescribe.

(b) *To determine liability to tax.* Whenever in the judgment of the Commissioner necessary he may require any person, by notice served upon him, to make a return, render under oath such statements, or keep such records, as the Commissioner deems sufficient to show whether or not such person is liable to tax under this chapter.

§ 86.25 *Aids to determination and collection of tax.* In assessing and collecting gift taxes, the Commissioner has the benefit of all existing internal revenue laws in so far as such laws are applicable. (See section 1028.) The Commissioner may require any person to keep specific records, render under oath such statements, make such returns, and comply with such rules and regulations, as the Commissioner, with the approval of the Secretary, may prescribe in order that he may determine whether such person is liable for the tax. In accordance with this provision, every individual shall, for the purpose of determining the total amount of his gifts, keep such permanent books of account or records as are necessary to establish the amount of his total gifts (limited as provided in section 1003 (b)), together with the deductions allowable in determining the amount of his net gifts, and the other information required to be shown in a gift tax return.

§ 86.26 *Supplemental data.* In order that the Commissioner may determine the correct tax the donor shall furnish such supplemental data as may be deemed necessary by the Commissioner. It is, therefore, the duty of the donor to furnish upon request copies of all documents relating to his gift or gifts, appraisal lists of any items included in the total amount of gifts, copies of balance sheets, or other financial statements relating to the value of stock constituting the gift, and any other information obtainable by him that may be found necessary in the determination of the tax. (See § 86.19.) For every policy of life insurance listed on the return, the donor must procure a statement from the insurance company on Form 938, in accordance with instructions printed thereon, and file it with the collector who receives the return. If specifically requested by the Commissioner, the insurance company shall file this statement direct with the Bureau.

§ 86.27 *Recognition of attorneys and other persons representing taxpayers.* For regulations governing the recognition of attorneys, agents, and other persons representing claimants before the Treasury Department, reference should be made to Treasury Department Circular No. 230, as revised, copies of which may be obtained upon application to the secretary of the Committee on Practice, Treasury Department, Washington, D. C.

If an attorney or other person asks a ruling on a question of law arising in a specific case, the Commissioner will require satisfactory evidence of the right to obtain such ruling. The transaction on which the ruling is sought must be completed and not merely proposed or planned. Hypothetical questions cannot be answered.

SEC. 1008. PAYMENT OF TAX.

(a) *Time of payment.* The tax imposed by this chapter shall be paid by the donor on or before the 15th day of March following the close of the calendar year.

(b) *Extension of time for payment.* At the request of the donor, the Commissioner may extend the time for payment of the amount determined as the tax by the donor, for a period not to exceed six months from the date prescribed for the payment of the tax. In such case the amount in respect of which the extension is granted shall be paid on or before the date of the expiration of the period of the extension.

(c) *Voluntary advance payment.* A tax imposed by this chapter, may be paid, at the election of the donor, prior to the date prescribed for its payment.

(d) *Fractional parts of cent.* In the payment of any tax under this chapter a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to 1 cent.

(e) *Receipts.* The collector to whom any payment of any gift tax is made shall, upon request, grant to the person making such payment a receipt therefor.

§ 86.28 *Date of payment.* The tax is required to be paid by the donor on or before the 15th day of March following the close of the calendar year in which the gifts were made, unless an extension of time for payment thereof has been granted by the Commissioner. (See § 86.29.)

§ 86.29 *Extension of time for payment of tax shown on return.* If it is shown to the satisfaction of the Commissioner that the payment of the amount determined as the tax by the donor, or any part thereof, upon the due date will result in undue hardship to the donor, the Commissioner, at the request of the donor, may grant an extension of time for the payment for a period not to exceed six months. The extension will not be granted upon a general statement of hardship. The term "undue hardship" means more than an inconvenience to the donor. It must appear that substantial financial loss, for example, due to the sale of property at a sacrifice price, will result to the donor from making payment of the amount at the due date. If a market exists, the sale of property at the current market price is not ordinarily considered as resulting in undue hardship. An application for an extension of time for the payment of such tax should be made under oath and must be accompanied or supported by evidence showing the undue hardship that would result to the donor if the extension were refused. A sworn statement of assets and liabilities of the donor and an itemized statement under oath showing all receipts and disbursements for each of the three months immediately preceding the month in which falls the date prescribed for the payment of the tax are required and should accompany the application. The application, with the evidence, must be filed with the collector, who will transmit it to the Commissioner with his recommendations as to the extension. When it is received by the Commissioner, it will be examined and, if possible, within 30 days will be denied, granted, or tentatively granted subject to certain conditions of which the donor will be notified. The Commissioner will not consider an application for such an extension unless request therefor is made to the collector on or before the due date. If the donor desires to obtain an additional extension, the request therefor must be made to the collector on or before the date of the expiration of the previous extension.

As a condition to the granting of such an extension, the Commissioner will usually require the donor to furnish a bond in an amount not exceeding double the amount for which the extension is desired, or to furnish other security satisfactory to the Commissioner for the payment of the liability on or before the date prescribed for the payment in the extension, so that the risk of loss to the Government will not be more at the end of the extension period than it was at the beginning of the period. If a bond is required it shall be conditioned upon the payment of the amount for which the extension is granted, together with interest and additional amounts assessed in connection therewith, in accordance with the terms of the extension granted, and shall be executed by a surety company holding a certificate of authority from the Secretary of the Treasury as an acceptable surety on Federal bonds, and shall be subject to the approval of the Commissioner. In lieu of such a bond, the donor may file a bond secured by the deposit of bonds or notes of the United States, any public debt obligations of the United States, or any bonds, notes, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, equal in their total par value to the amount of such bond. (See section 1126 of the Revenue Act of 1926, as amended by section 7 of the Act of February 4, 1935, 49 Stat. 22, 6 U.S.C. 15.)

The amount for which an extension is granted, with the additions thereto, shall be paid on or before the expiration of the period of the extension without the necessity of notice and demand from the collector. Payment of the amount for which the extension was granted and the additions thereto before the expiration of the extension will not relieve the donor from paying the entire amount of interest provided for in the extension.

§ 86.30 *Voluntary advance payment.* The gift tax may be paid at the election of the donor prior to the date prescribed for its payment, that is, prior to the 15th day of March following the close of the calendar year in which the gift or gifts were made. No discount will be allowed for payment in advance of the due date.

§ 86.31 *When fractional part of cent may be disregarded.* In the payment of tax a fractional part of a cent shall be disregarded, unless it amounts to one-half cent or more, in which case it shall be increased to 1 cent. A fractional part of a cent should not be disregarded in the computation of the tax.

§ 86.32 *Receipts for taxes.* Upon request the collector will give a receipt for tax payments. In the case of payments made by check or money order, the canceled check or the money order receipt is usually a sufficient receipt. In case of payments in cash, however, it might be to the donor's interest to require the collector to furnish a receipt.

§ 86.33 *Payment by check.* Collectors may accept uncertified checks in the payment of the tax, provided such

checks are collectible at par—that is, for the full amount without any deduction for exchange or other charges. The day on which the check is received will be considered the date of payment so far as the taxpayer is concerned unless the check is uncollectible.

All expenses incident to the attempt to collect unhonored checks and their return through the depositary bank must be paid by the drawer of the check to the bank on which it is drawn. (See section 3971.) If a check has been returned uncollected by the depositary bank, the collector should proceed to collect the tax as though no check had been given, and the taxpayer will remain liable for payment of the tax and for all interest, legal penalties, and additions, if any attach, to the same extent as though such check had not been tendered. A taxpayer who tenders a certified check in payment of taxes is not released from his obligation until the check has been paid. (See section 3656.)

§ 86.34 *Donor liable for tax.* The statute provides that the donor shall pay the tax. If the donor dies before the tax is paid, his executor or administrator shall make payment thereof to the collector. If there is no duly qualified executor or administrator, the heirs, legatees, devisees, and distributees are liable for and required to pay the tax to the extent of the value of their inheritance, bequest, devise, or distributive share of the donor's estate. As to the personal liability of the donee, see § 86.35, and as to that of the executor or administrator, see § 86.70.

SEC. 1009. LIEN FOR TAX.

The tax imposed by this chapter shall be a lien upon all gifts made during the calendar year, for ten years from the time the gifts are made. If the tax is not paid when due, the donee of any gift shall be personally liable for such tax to the extent of the value of such gift. Any part of the property comprised in the gift sold by the donee to a bona fide purchaser for an adequate and full consideration in money or money's worth shall be divested of the lien herein imposed and the lien, to the extent of the value of such gift, shall attach to all the property of the donee (including after-acquired property) except any part sold to a bona fide purchaser for an adequate and full consideration in money or money's worth. If the Commissioner is satisfied that the tax liability has been fully discharged or provided for, he may, under regulations prescribed by him with the approval of the Secretary, issue his certificate, releasing any or all of the property from the lien herein imposed.

§ 86.35 *Lien for tax.* A lien attaches upon all gifts made during the calendar year for the amount of the tax imposed upon the gifts made during such year. The lien extends for a period of 10 years from the time the gifts were made, unless the tax is sooner paid. If the tax is not paid when due, the donee of any gift becomes personally liable for the tax to the extent of the value of his gift. Any part of property which was the subject of a gift, sold by the donee to a bona fide purchaser for an adequate and full consideration in money or money's worth, is divested of the lien, but a like lien to the extent of the value of such gift attaches to all the property of the donee, including after-acquired property, except any part sold to a bona fide purchaser for an adequate and full consideration in money or money's worth.

§ 86.36 *Release of lien.* The statute provides that, if the Commissioner is satisfied that the tax liability has been fully discharged or provided for, he may issue his certificate releasing any or all property from the lien imposed thereon. The issuance of certificates releasing such lien is a matter resting within the discretion of the Commissioner, and certificates will be issued only in case there is actual need therefor. The primary purpose of such release is not to evidence payment or satisfaction of the tax but to permit transfer of property free from the lien in case it is necessary to clear title. Receipts for payment of tax are issued by the collector. (See § 86.32.)

If the tax liability has been fully discharged, or its discharge provided for to the satisfaction of the Commissioner by the applicant for the release of lien filing with the collector a surety bond, a certificate may then be issued releasing any or all property from the lien imposed thereon. The tax will be considered fully discharged only when the return has been examined and payment of the tax, including any deficiency determined to be due, has been made. If the tax liability has not been fully discharged, or provided for as above stated, no general release will be granted, but certificates releasing the lien on particular items of property may be issued by the Commissioner, who may require as a prerequisite, in such amount as he may designate, a partial payment of the tax, or a surety bond. As to the character of surety bonds required, see § 86.29. In lieu of a surety bond, the taxpayer may file a bond secured by the deposit of bonds or notes of the United States, any public debt obligations of the United States, or any bonds, notes, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, equal in their total par value to the amount of such bond. (See section 1126 of the Revenue Act of 1926, as amended by section 7 of the Act of February 4, 1935, 49 Stat. 22, 6 U.S.C. 15.)

The application for a release should be filed with the Commissioner, should explain the circumstances that require the release, and should fully describe the particular items for which the release is desired. If the application is made prior to the filing of the return for gift tax, an affidavit may be required showing the value of the property to be released from the lien, the basis for such valuation, the total amount of gifts made during the calendar year and the prior calendar years subsequent to the enactment of the Revenue Act of 1932, the approximate value of all real estate upon which the lien has attached, and, in case the property is to be sold or otherwise transferred, the name and address of the purchaser or transferee and the consideration, if any, paid or to be paid by him.

SEC. 1010. EXAMINATION OF RETURN AND DETERMINATION OF TAX.

As soon as practicable after the return is filed the Commissioner shall examine it and shall determine the correct amount of the tax.

§ 86.37 *Examination of return and determination of tax by the Commissioner.* As soon as practicable after returns are filed, they will be examined and the amount of tax determined under such procedure as may be prescribed from time to time by the Commissioner. (See section 1012 and § 86.39.)

SEC. 1011. DEFINITION OF DEFICIENCY.

As used in this chapter in respect of the tax imposed by this chapter the term "deficiency" means—

(1) The amount by which the tax imposed by this chapter exceeds the amount shown as the tax by the donor upon his return; but the amount so shown on the return shall first be increased by the amounts previously assessed (or collected without assessment) as a deficiency, and decreased by the amounts previously abated, refunded, or otherwise repaid in respect of such tax; or

(2) If no amount is shown as the tax by the donor upon his return, or if no return is made by the donor, then the amount by which the tax exceeds the amounts previously assessed (or collected without assessment) as a deficiency; but such amounts previously assessed, or collected without assessment, shall first be decreased by the amounts previously abated, refunded, or otherwise repaid in respect of such tax.

§ 86.38 *Deficiency defined.* Section 1011, by its definition of the word "deficiency," provides a term which will apply to any amount of tax determined to be due in excess of the amount of tax reported by the donor upon his return; or in excess of the amount reported by the donor after adjustment made for prior assessments, abatements, credits, refunds, or collections without assessment. In defining the term "deficiency" section 1011 recognizes two classes of cases—one, where the taxpayer makes a return showing some tax liability; the other, where the taxpayer makes a return showing no tax liability, or where the taxpayer fails to make a return. Additional tax shown on any so-called "amended return" is a deficiency within the meaning of the statute.

When a donor's taxability is considered for the first time, the deficiency is the excess of the amount determined to be the correct amount of tax over the amount shown as the tax by the donor on his return, or, if no tax was reported by the donor, the deficiency is the amount determined to be the correct amount of tax. Subsequent information sometimes discloses that the amount previously determined to be the correct amount of tax is less than the correct amount, and that a redetermination of the tax is necessary. In such a case, the deficiency on redetermination is the excess of the amount determined to be the correct amount of tax over the sum of the amount of tax reported by the donor and the deficiency assessed in connection with the previous determination. If it is a case where no tax was reported by the donor, the deficiency is the excess of the amount determined to be the correct amount of tax over the amount of deficiency assessed in connection with the previous determination. If the previous determination resulted in a credit or refund to the taxpayer, the deficiency upon the second determination is the excess of the amount determined to be the correct amount of tax over the amount of tax reported by the donor decreased by the amount of the credit or refund.

SEC. 1012. ASSESSMENT AND COLLECTION OF DEFICIENCIES. [As originally enacted.]

(a) (1) *Petition to Board of Tax Appeals.* If the Commissioner determines that there is a deficiency in respect of the tax imposed by this chapter, the Commissioner is authorized to send notice of such deficiency to the donor by registered mail. Within 90 days after such notice is mailed (not counting Sunday or a legal holiday in the District of Columbia as the ninetieth day), the donor may file a petition with the Board of Tax Appeals for a redetermination of the deficiency. No assessment of a deficiency in respect of the tax imposed by this chapter and no distraint or proceeding in court for its collection shall be made, begun, or prosecuted until such notice has been mailed to the donor, nor until the expiration of such 90-day period, nor, if a petition has been filed with the Board, until the decision of the Board has become final. Notwithstanding the provisions of section 3653 (a) the making of such assessment or the beginning of such proceeding or distraint during the time such prohibition is in force may be enjoined by a proceeding in the proper court.

(2) *Cross references.* For exceptions to the restrictions imposed by this subsection see—

Subsection (d) of this section, relating to waivers by the donor;

Subsection (f) of this section, relating to notifications of mathematical errors appearing upon the face of the return;

Section 1013, relating to jeopardy assessments;

Section 1015, relating to bankruptcy and receiverships; and

Section 1145, relating to assessment or collection of the amount of the deficiency determined by the Board pending court review.

(b) *Collection of deficiency found by board.* If the donor files a petition with the Board, the entire amount redetermined as the deficiency by the decision of the Board which has become final shall be assessed and shall be paid upon notice and demand from the collector. No part of the amount determined as a deficiency by the Commissioner but disallowed as such by the decision of the Board which has become final shall be assessed or be collected by distraint or by proceeding in court with or without assessment.

(c) *Failure to file petition.* If the donor does not file a petition with the Board within the time prescribed in subsection (a) the deficiency, notice of which has been mailed to the donor, shall be assessed, and shall be paid upon notice and demand from the collector.

(d) *Waiver of restrictions.* The donor shall at any time have the right, by a signed notice in writing filed with the Commissioner, to waive the restrictions provided in subsection (a) on the assessment and collection of the whole or any part of the deficiency.

(e) *Increase of deficiency after notice mailed.* The Board shall have jurisdiction to redetermine the correct amount of the deficiency even if the amount so redetermined is greater than the amount of the deficiency, notice of which has been mailed to the donor, and to determine whether any additional amount or addition to the tax should be assessed, if claim therefor is asserted by the Commissioner at or before the hearing or a rehearing.

(f) *Further deficiency letters restricted.* If the Commissioner has mailed to the donor notice of a deficiency as provided in subsection (a) of this section, and the donor files a petition with the Board within the time prescribed in such subsection, the Commissioner shall have no right to determine any additional deficiency in respect of the same calendar year, except in the case of fraud, and except as provided in subsection (e) of this section, relating to assertion of greater deficiencies before the Board, or in section 1013 (c), relating to the making of jeopardy assessments. If the donor is notified that, on account of a mathematical error appearing upon the face of the return, an amount of tax in excess of that shown upon the return is due, and that an assessment of the tax has been or will be made on the basis of what would have been the correct amount of tax but for the mathematical error, such notice shall not be considered (for the purposes of this subsection, or of subsection (a) of this section, prohibiting assessment and collection until notice of deficiency has been mailed, or of section 1027 (c), prohibiting credits or refunds after petition to the Board of Tax Appeals) as a notice of a deficiency, and the donor shall have no right to file a petition with the Board based on such notice, nor shall such assessment or collection be prohibited by the provisions of subsection (a) of this section.

(g) *Jurisdiction over other calendar years.* The Board in redetermining a deficiency in respect of any calendar year shall consider such facts with relation to the taxes for other calendar years as may be necessary correctly to redetermine the amount of such deficiency, but in so doing shall have no jurisdiction to determine whether or not the tax for any other calendar year has been overpaid or underpaid.

(h) *Final decisions of Board.* For the purposes of this chapter the date on which a decision of the Board becomes final shall be determined according to the provisions of section 1140.

(i) *Extension of time for payment of deficiencies.* Where it is shown to the satisfaction of the Commissioner that the payment of a deficiency upon the date prescribed for the payment thereof will result in undue hardship to the donor the Commissioner, under regulations prescribed by the Commissioner, with the approval of the Secretary (except where the deficiency is due to negligence, to intentional disregard of rules and regulations, or to fraud with intent to evade tax), may grant an extension for the payment of such deficiency or any part thereof for a period not in excess of eighteen months, and, in exceptional cases, for a further period not in excess of twelve months. If an extension is granted, the Commissioner may require the donor to furnish a bond in such amount, not exceeding double the amount of the deficiency, and with such sureties, as the Commissioner deems necessary, conditioned upon the payment of the deficiency in accordance with the terms of the extension.

(j) *Address for notice of deficiency.* In the absence of notice to the Commissioner under section 1026 (a) of the existence of a fiduciary relationship, notice of a deficiency in respect of a tax imposed by this chapter, if mailed to the donor at his last known address, shall be sufficient for the purposes of this chapter even if such donor is deceased, or is under a legal disability.

SEC. 456. PERIOD FOR FILING PETITION EXTENDED IN CERTAIN CASES. [Revenue Act of 1942, enacted October 21, 1942.]

(a) *Period extended.* Section 1012 (a) (1) (relating to period of filing petition with Board of Tax Appeals) is amended by inserting at the end thereof the following new sentence: "If the notice is addressed to a donor outside the States of the Union and the District of Columbia, the period specified in this paragraph shall be one hundred and fifty days in lieu of ninety days."

(b) *Effective date.* The amendment made by this section shall be applicable with respect to notices of deficiency mailed after the date of the enactment of this Act.

SEC. 504. CHANGE OF NAME OF BOARD OF TAX APPEALS. [Revenue Act of 1942, enacted October 21, 1942.]

(a) *The Tax Court of the United States.* Effective on the day after the date of enactment of this Act, section 1100 (relating to status of Board of Tax Appeals) is amended by inserting at the end thereof the following new sentence: "The Board shall be known as The Tax Court of the United States and the members thereof shall be known as the presiding judge and the judges of The Tax Court of the United States."

(b) *Powers, tenure, etc., unchanged.* The jurisdiction, powers, and duties of The Tax Court of the United States, its divisions and its officers and employees, and their appointment, including the designation of its officers, and the immunities, tenure of office, powers, duties, rights, and privileges of the presiding judge and judges of The Tax Court of the United States shall be the same as by existing law provided in the case of the Board of Tax Appeals. The Commissioner shall continue to be represented by the same counsel in the same manner before the Court as he has heretofore been represented in proceedings before the Board of Tax Appeals and the taxpayer shall continue to be represented in accordance with rules of practice prescribed by the Court. No qualified person shall be denied admission to practice before such Court because of his failure to be a member of any profession or calling.

(c) *References.* All references in any statute (except this section), or in any rule, regulation, or order, to the "Board of Tax Appeals" or to the "Board" when used in the sense of "Board of Tax Appeals", or to the "member", "members", or "chairman" thereof shall be considered to be made to The Tax Court of the United States, the judge, judges, and presiding judge thereof, respectively.

§ 86.39 *Assessment of deficiency.* If the Commissioner determines that there is a deficiency in respect of the tax he is authorized to notify the donor of the deficiency by registered mail. In the absence of notice to the Commissioner under section 1026 (a) of the existence of a fiduciary relationship, the Commissioner is authorized to mail the notice of a deficiency to the donor at his last known address, and such notice is sufficient even if the donor is deceased or is under a legal disability. Within 90 days after the notice of deficiency is mailed (or within 150 days after the notice of deficiency is mailed in case such notice is mailed after October 21, 1942, addressed to a donor outside the States of the Union and the District of Columbia), a petition may be filed with The Tax Court of the United States (formerly known as the Board of Tax Appeals) for a redetermination of the deficiency. In determining such prescribed period, Sunday or a legal holiday in the District of Columbia is not to be counted as the last day thereof. Except as stated in paragraphs (a), (b), (c), (d), and (e) of this section, no assessment of deficiency in respect of the tax shall be made until such notice has been mailed to the donor, nor until the expiration of the period prescribed for the filing of a petition with The Tax Court, nor, if a petition

has been filed, until the decision of The Tax Court has become final. As to the date on which a decision of The Tax Court becomes final, see sections 1140 and 1142.

(a) The donor may, at any time, by a signed notice in writing filed with the Commissioner, waive the restrictions on the assessment of the whole or any part of the deficiency. The notice must in all cases be filed with the Commissioner. The filing of such notice with The Tax Court does not constitute filing with the Commissioner within the meaning of the statute. After such waiver has been acted upon by the Commissioner and the assessment has been made in accordance with its terms, the waiver cannot be withdrawn. After a waiver of the restrictions on the assessment of the deficiency has been filed, there will be assessed at the same time as the assessment made in accordance with the terms of the waiver interest upon the tax so assessed at the rate of 6 percent per annum from the due date of the tax to the thirtieth day after the filing of such waiver or to the date the deficiency is assessed, whichever is the earlier. (See section 1021 and § 86.53.)

(b) If a donor is notified of an additional amount of tax due on account of a mathematical error appearing upon the face of his return, such notice is not a notice of deficiency prescribed by section 1012 (a) and the donor has no right to file a petition with The Tax Court upon the basis of such notice, nor is the assessment of such additional tax prohibited by the provisions of section 1012 (a).

(c) If the Commissioner believes that the assessment or collection of a deficiency will be jeopardized by delay, such deficiency shall be assessed immediately as provided in section 1013. (See § 86.43.)

(d) Upon the adjudication of bankruptcy of a donor in any bankruptcy proceeding or the appointment of a receiver for a donor in any receivership proceedings before any court of the United States or of any State or Territory or of the District of Columbia, any deficiency determined by the Commissioner in respect of the tax shall be assessed immediately irrespective of the provisions of section 1012 (a) if such deficiency has not been assessed in accordance with the law prior to the adjudication of bankruptcy or the appointment of the receiver. (See section 1015 and § 86.45.)

(e) If The Tax Court renders a decision and determines that there is a deficiency, and, if the donor duly files a petition for review of the decision by a Circuit Court of Appeals (or the United States Court of Appeals for the District of Columbia), the filing of the petition will not operate as a stay of the assessment of any portion of the deficiency determined by The Tax Court, unless the donor has filed a bond with The Tax Court as provided in section 1145. If, in such a case, the necessary bond has not been filed by the donor, the amount determined by The Tax Court as a deficiency will be assessed immediately after the filing of such petition. If the Commissioner files a petition for review and the donor has not filed a petition for review within three months after the decision of The Tax Court is rendered, the amount determined by The Tax Court as a deficiency will be assessed immediately after the expiration of the 3-month period. If the Commissioner files a petition for review, and a similar petition is filed by the donor, but the bond required by section 1145 has not been filed with The Tax Court, the deficiency will be assessed immediately after the filing of the petition for review by the donor.

If no petition is filed with The Tax Court within the period prescribed, the Commissioner shall assess the amount determined by him as the deficiency and of which he has notified the donor by registered mail. In such case, the Commissioner will not be precluded from determining a further deficiency and notifying the donor thereof by registered mail. In case a petition is filed with The Tax Court, the entire amount redetermined as the deficiency by the decision of The Tax Court which has become final shall be assessed by the Commissioner. If the Commissioner mails to the donor notice of a deficiency and the donor files a petition with The Tax Court within the period prescribed, the Commissioner is barred from determining any additional deficiency for the same taxable year except in the case of fraud and except as provided in section 1012(e), relating to the assertion of greater deficiencies before The Tax Court, or in section 1013, relating to jeopardy assessments. (See § 86.43.)

§ 86.40 *Waiver by donor of restrictions on Assessment.* If the donor acquiesces in any proposed, tentative, or final determination of the whole or any part of the deficiency, the donor has the right by a signed notice in writing filed with the Commissioner to waive the restrictions on the assessment and collection of such whole or part of the deficiency under the provisions of section 1012(d). A form of notice of such waiver for filing with the Commissioner will be supplied the donor upon notice of any proposed, tentative, or final determination of a deficiency. Filing of the notice of waiver will expedite assessment and stop the accrual of interest on the amount assessed until after notice and demand by the collector. As to interest on deficiencies, see section 1021 and § 86.53.

§ 86.41 *Collection of deficiency.* If a deficiency as redetermined by a decision of The Tax Court which has become final is assessed, or the donor has not filed a petition with The Tax Court and the deficiency as determined by the Commissioner has been assessed, or the restrictions upon the assessment and collection of the whole or any part of the deficiency provided in subsection (a) of section 1012 have been waived and an assessment made in accordance with such waiver, the amount so assessed shall be paid upon notice and demand from the collector. As to deficiencies coming within the provisions of sections 1013, 1015, and 1145, relating to jeopardy assessments, bankruptcies and receiverships, and deficiencies determined by The Tax Court pending court review, see §§ 86.43, 86.45, and 86.39 (e). As to interest on deficiencies, see section 1021 and § 86.53.

§ 86.42 *Extension of time for payment of deficiencies.* If it is shown to the satisfaction of the Commissioner that the payment of a deficiency upon the date prescribed for payment thereof would result in undue hardship to the donor, the Commissioner may grant an extension of time for the payment of the deficiency or any part thereof for a period of time not in excess of 18 months and in exceptional cases for a further period not in excess of 12 months. The extension will not be granted upon a general statement of hardship. The term "undue hardship" means more than an inconvenience to the donor. It must appear that substantial financial loss, for example, due to the sale of property at a sacrifice price, will result to the donor from making payment of the deficiency at the date prescribed for payment. If a market exists, the sale of property at the current market price is not ordinarily considered as resulting in undue hardship. The statute provides that no extension will be granted where the deficiency is due to negligence or intentional disregard of rules and regulations or to fraud with intent to evade tax.

An application for an extension of time for the payment of the deficiency should be made under oath and must be accompanied or supported by evidence showing the undue hardship that would result to the donor if the extension were refused. A sworn statement of assets and liabilities of the donor and an itemized statement under oath showing all receipts and disbursements for each of the three months immediately preceding the month in which falls the date prescribed for the payment of the deficiency are required and should accompany the application. The application, with the evidence, must be filed with the collector, who will transmit it to the Commissioner with his recommendation as to the extension. When it is received by the Commissioner, it will be examined and, if possible, within 30 days will be denied, granted, or tentatively granted subject to certain conditions of which the donor will be notified. The Commissioner will not consider an application for an extension of time for the payment of a deficiency unless request therefor is made to the collector on or before the date prescribed for payment thereof, as shown by the notice and demand from the collector. If the donor desires to obtain an additional extension, the request therefor must be made to the collector on or before the date of the expiration of the previous extension.

As a condition to the granting of such an extension, the Commissioner will usually require the donor to furnish a bond in an amount not exceeding double the amount of the deficiency, or to furnish other security satisfactory to the Commissioner for the payment of the liability on or before the date prescribed for the payment in the extension, so that the risk of loss to the Government will not be more at the end of the extension period than it was at the beginning of the period. If a bond is required it shall be conditioned upon the payment of the deficiency, interest, and additional amounts assessed in connection therewith in accordance with the terms of the extension granted, and shall be executed by a surety company holding a certificate of authority from the Secretary of the Treasury as an acceptable surety on Federal bonds, and shall be subject to the approval of the Commissioner. In lieu of such a bond, the donor may file a bond secured by the deposit of bonds or notes of the United States, any public debt obligations of the United States, or any bonds, notes, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, equal in their total par value to the amount of such bond. (See section 1126 of the Revenue Act of 1926, as amended by section 7 of the Act of February 4, 1935, 49 Stat. 22, 6 U.S.C. 15.)

The amount for which an extension is granted, with the additions thereto, shall be paid on or before the expiration of the period of the extension without the necessity of notice and demand from the collector. Payment of the amount for which the extension was granted and the additions thereto before the expiration of the extension will not relieve the donor from paying the entire amount of interest provided for in the extension.

SEC. 1013. JEOPARDY ASSESSMENTS.

(a) *Authority for making.* If the Commissioner believes that the assessment or collection of a deficiency will be jeopardized by delay, he shall immediately assess such deficiency (together with all interest, additional amounts, or additions to the tax provided for by law) and notice and demand shall be made by the collector for the payment thereof.

(b) *Deficiency letters.* If the jeopardy assessment is made before any notice in respect of the tax to which the jeopardy assessment relates has been mailed under section 1012 (a), then the Commissioner shall mail a notice under such subsection within 60 days after the making of the assessment.

(c) *Amount assessable before decision of Board.* The jeopardy assessment may be made in respect of a deficiency greater or less than that notice of which has been mailed to the donor, despite the provisions of section 1012 (f) prohibiting the determination of additional deficiencies, and whether or not the donor has theretofore filed a petition with the Board of Tax Appeals. The Commissioner may, at any time before the decision of the Board is rendered, abate such assessment, or any unpaid portion thereof, to the extent that he believes the assessment to be excessive in amount. The Commissioner shall notify the Board of the amount of such assessment, or abatement, if the petition is filed with the Board before the making of the assessment or is subsequently filed, and the Board shall have jurisdiction to redetermine the entire amount of the deficiency and of all amounts assessed at the same time in connection therewith.

(d) *Amount assessable after decision of Board.* If the jeopardy assessment is made after the decision of the Board is rendered such assessment may be made only in respect of the deficiency determined by the Board in its decision.

(e) *Expiration of right to assess.* A jeopardy assessment may not be made after the decision of the Board has become final or after the donor has filed a petition for review of the decision of the Board.

(f) *Bond to stay collection.* When a jeopardy assessment has been made the donor, within 10 days after notice and demand from the collector for the payment of the amount of the assessment, may obtain a stay of collection of the whole or any part of the amount of the assessment by filing with the collector a bond in such amount, not exceeding double the amount as to which the stay is desired, and with such sureties, as the collector deems necessary, conditioned upon the payment of so much of the amount, the collection of which is stayed by the bond, as is not abated by a decision of the Board which has become final, together with interest thereon as provided in section 1022 or 1023 (b) (4). If any portion of the jeopardy assessment is abated by the Commissioner before the decision of the Board is rendered, the bond shall, at the request of the taxpayer, be proportionately reduced.

(g) *Same—Further conditions.* If the bond is given before the donor has filed his petition with the Board under section 1012 (a), the bond shall contain a further condition that if a petition is not filed within the period provided in such subsection, then the amount the collection of which is stayed by the bond will be paid on notice and demand at any time after the expiration of such period, together with interest thereon at the rate of 6 per centum per annum from the date of the jeopardy notice and demand to the date of notice and demand under this subsection.

(h) *Waiver of stay.* Upon the filing of the bond the collection of so much of the amount assessed as is covered by the bond shall be stayed. The donor shall have the right to waive such stay at any time in respect of the whole or any part of the amount covered by the bond, and if as a result of such waiver any part of the amount covered by the bond is paid, then the bond shall, at the request of the donor, be proportionately reduced. If the Board determines that the amount assessed is greater than the amount which should have been assessed, then when the decision of the Board is rendered the bond shall, at the request of the donor, be proportionately reduced.

(i) *Collection of unpaid amounts.* When the petition has been filed with the Board and when the amount which should have been assessed has been determined by a decision of the Board which has become final, then any unpaid portion, the collection of which has been stayed by the bond, shall be collected as part of the tax upon notice and demand from the collector, and any remaining portion of the assessment shall be abated. If the amount already collected exceeds the amount determined as the amount which should have been assessed, such excess shall be credited or refunded as provided in section 1027, without the filing of claim therefor. If the amount determined as the amount which should have been assessed is greater than the amount actually assessed, then the difference shall be assessed and shall be collected as part of the tax upon notice and demand from the collector.

§ 86.43 *Jeopardy assessments.* If the Commissioner believes that the assessment or collection of a deficiency will be jeopardized by delay, he is required to assess such deficiency immediately, together with the interest and other additional amounts provided by law. If a deficiency is assessed on account of jeopardy after the decision of The Tax Court of the United States (formerly known as the Board of Tax Appeals) is rendered, the jeopardy assessment may be made only with respect to the deficiency determined by The Tax Court. The Commissioner is prohibited from making a jeopardy assessment after a decision of The Tax Court has become final (see section 1140) or after the donor has filed a petition for review of the decision of The Tax Court.

If notice of a deficiency was mailed to the donor (see section 1012 (a) and § 86.39) before it was discovered that delay would jeopardize the assessment or collection of the tax, a jeopardy assessment may be made in an amount greater or less than that included in the deficiency notice. On the other hand if the assessment on account of jeopardy was made without mailing the notice required by section 1012 (a), the Commissioner must within 60 days after the making of the assessment send the donor notice of the deficiency by registered mail. The donor may file a petition with The Tax Court for a redetermination of the amount of the deficiency within 90 days after such notice is mailed (or within 150 days after mailing in case such notice is mailed after October 21, 1942, addressed to a donor outside the States of the Union and the District of Columbia), and in determining such prescribed period Sunday or a legal holiday in the District of Columbia is not to be counted as the last day thereof. If the petition of the donor is filed with The Tax Court, either before or after the making of the jeopardy assessment, the Commissioner is required to notify The Tax Court of such assessment, and The Tax Court has jurisdiction to redetermine the amount of the deficiency together with all other amounts assessed at the same time in connection therewith. If the jeopardy assessment is made, the Commissioner may, at any time before the decision of The Tax Court is rendered, abate the assessment or any unpaid portion thereof, to the extent that he believes it to be excessive in amount. (See section 1013 (c).)

After a jeopardy assessment has been made, the list showing such assessment will be immediately transmitted to the collector. Upon receipt of the list containing the assessment, the collector is required to send notice and demand to the donor for the amount of the jeopardy assessment. Regardless of whether the donor has filed a petition with The Tax Court, he is required to make payment of the amount of such assessment within 10 days after the sending of notice and demand by the collector, unless before the expiration of such 10-day period he files with the collector a bond of the character hereinafter prescribed. The bond must be in such amount, not exceeding double the amount for which the stay is desired, as the collector deems necessary and must be executed by sureties satisfactory to the collector. In lieu of a surety bond, the taxpayer may file a bond secured by the deposit of bonds or notes of the United States, any public debt obligations of the United States, or any bonds, notes, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, equal in their total par

value to the amount of such bond. (See section 1126 of the Revenue Act of 1926, as amended by section 7 of the Act of February 4, 1935, 49 Stat. 22, 6 U.S.C. 15.) The bond must be conditioned upon the payment of so much of the amount, the collection of which is to be stayed by the bond, as is not abated by a decision of The Tax Court which has become final, together with the interest on such amount as may accrue under section 1022 and section 1023 (b) (4). If the bond is given before the donor has filed his petition with The Tax Court, it must contain a further condition that if a petition is not filed before the expiration of the period provided for the filing of such petition, the amount stayed by the bond will be paid upon notice and demand at any time after the expiration of such period, together with interest thereon at the rate of 6 percent per annum from the date of the jeopardy notice and demand to the date of the notice and demand made after the expiration of such period. If a petition is not filed with The Tax Court within the period prescribed for the filing of such petition, the collector will be so advised, and, if collection of the deficiency has been stayed by the filing of a bond within 10 days after the date of jeopardy notice and demand, he should then give notice and make demand for payment of the amount assessed plus interest. Any bond filed after the expiration of 10 days from the date of the jeopardy notice and demand is not such a bond as is contemplated by section 1013 (f), although the collector may in his discretion accept the bond and stay collection of the deficiency. If the Commissioner believes that the amount of the jeopardy assessment is excessive and abates a portion thereof before the decision of The Tax Court is rendered, the amount of the bond will be proportionately reduced at the request of the donor.

Upon the filing of a bond of the character described within 10 days after the date of notice and demand for payment of the amount assessed, the collection of so much thereof as is covered by the bond will be stayed. The donor may at any time waive the stay of collection of the whole or any part of the amount covered by the bond. If as a result of such waiver any part of the amount covered by the bond is paid, then the bond will at the request of the donor be proportionately reduced.

After The Tax Court has rendered its decision and such decision has become final, the collector will be notified of the action taken. The collector will then send notice and demand for the unpaid portion of the amount determined by The Tax Court, the collection of which has been stayed by the bond. The collector is required to include in the notice and demand for the unpaid portion, interest at the rate of 6 percent per annum from the date of the jeopardy notice and demand to the date of the notice and demand referred to in this paragraph. If the amount of the jeopardy assessment is less than the amount determined by The Tax Court, the difference, together with interest as provided in section 1021, will be assessed, and collected as part of the tax upon notice and demand from the collector. If the amount included in the notice and demand made after the decision of The Tax Court is not paid within 10 days after such notice and demand, there shall be collected, as part of the tax, interest as provided in section 1023. (See § 86.55.) If the amount of the jeopardy assessment is in excess of the amount determined by The Tax Court, the unpaid portion of such excess will be abated. If any part of the excess amount has been paid, it will be credited or refunded to the donor as provided in section 1027. (See §§ 86.60–86.63.)

As to bankruptcy and receivership cases, see sections 1015 and 1023 (b) (5) and §§ 86.45 and 86.55.

SEC. 1014. CLAIMS IN ABATEMENT.

No claim in abatement shall be filed in respect of any assessment in respect of any tax imposed by this chapter.

§ 86.44 *Claims in abatement.* Section 1014 prohibits the filing of claims for abatement by donors in respect of any assessment of gift tax imposed by the Internal Revenue Code. This provision does not prohibit the filing of claims in abatement by collectors. (See also § 86.62.)

SEC. 1015. BANKRUPTCY AND RECEIVERSHIPS.

(a) *Immediate assessment.* Upon the adjudication of bankruptcy of any donor in any bankruptcy proceeding or the appointment of a receiver for any donor in any receivership proceeding before any court of the United States or of any State or Territory or of the District of Columbia, any deficiency (together with all interest, additional amounts, or additions to the tax provided for by law) determined by the Commissioner in respect of a tax imposed by this chapter upon such donor shall, despite the restrictions imposed by section 1012 (a) upon assessments be immediately assessed if such deficiency has not theretofore been assessed in accordance with law. Claims for the deficiency and such interest, additional amounts and additions to the tax may be presented, for adjudication in accordance with law, to the court before which the bankruptcy or receivership proceeding is pending, despite the pendency of proceedings for the redetermination of the deficiency in pursuance of a petition to the Board; but no petition for any such redetermination shall be filed with the Board after the adjudication of bankruptcy or the appointment of the receiver.

(b) *Unpaid claims.* Any portion of the claim allowed in such bankruptcy or receivership proceeding which is unpaid shall be paid by the donor upon notice and demand from the collector after the termination of such proceeding, and may be collected by distraint or proceeding in court within six years after termination of such proceeding. Extensions of time for such payment may be had in the same manner and subject to the same provisions and limitations as are provided in sections 1012 (i), 1020 (b), and 1023 (b) (3) in the case of a deficiency in a tax imposed by this chapter.

§ 86.45 *Bankruptcy and receivership proceedings.* During a bankruptcy proceeding, or an equity receivership proceeding in either a Federal or a State court, the assets of the donor are in general under the control of the court in which such proceeding is pending, and the collection of taxes cannot be made by distraining upon such assets. However, any assets which under applicable provisions of law are not under the control of the court may be subject to distraint.

As used in these regulations the term "bankruptcy proceeding" includes proceedings under Chapters I to VII of the Bankruptcy Act, as amended, or under section 75 (11 U.S.C. 203), or Chapters XI to XIII, of such Act, as amended; and the term "adjudication of bankruptcy" includes an adjudication in a proceeding under Chapters I to VII, as amended, and the filing of a petition under section 75 or Chapters XI to XIII with a court of competent jurisdiction.

The clerk of a court of bankruptcy is required to mail to the Commissioner of Internal Revenue a certified copy of every order of adjudication forthwith upon the entry thereof. In every such case, the court of bankruptcy is required to mail or cause to be mailed a copy of the notice of the first meeting of creditors to the Commissioner of Internal Revenue and to the collector of internal revenue for the district in which the court located. (See section 58 (e) of the Bankruptcy Act, 11 U.S.C. 94 (e).)

Collectors should, promptly after notice of outstanding liability against a donor in any bankrutcy or receivership proceeding, and in any event within the time limited by the appropriate provisions of the Bankruptcy Act, as amended, and the orders of the court in which such proceeding is pending, file claim covering such liability in the court in which such proceeding is pending. Such claim should be filed whether the unpaid taxes involved have been assessed or not, except in cases where the departmental instructions direct otherwise; for example, where the payment of the taxes is secured by a suffcient bond. Such claim should cover the amount represented by the assessment, plus interest at the rate of 6 percent per annum for the period from the date of filing claim by the collector to the date of termination of the bankruptcy or receivership proceeding or to the date of payment if payment is made in full prior to such termination. At the same time claim is filed with the bankruptcy or receivership court, the collector will send notice and demand for payment to the donor together with a copy of such claim.

Under section 3466 of the Revised Statutes (31 U.S.C. 191) and section 3467 of the Revised Statutes, as amended by section 518 of the Revenue Act of 1934 (31 U.S.C. 192), and section 64 of the Bankruptcy Act, as amended (11 U.S.C. 104), taxes are entitled to the priority over other claims therein stated and the trustee, receiver, debtor in possession, or other person designated as in control of the assets of the debtor by the court in which bankruptcy or receivership proceeding is pending, may be held personally liable for failure on his part to protect the priority of the Government respecting taxes of which he has notice. Bankruptcy courts have jurisdiction under the Bankruptcy Act, as amended, to determine all disputes regarding the amount and validity of taxes of a bankrupt or of a debtor in a proceeding under the Bankruptcy Act, as amended. A bankruptcy or receivership proceeding for the donor does not discharge any portion of a claim of the United States for taxes except to the extent which may be provided in a plan or arrangement duly effectuated in a bankruptcy proceeding; and any portion of a claim of the United States for taxes which has been allowed by the court in which the bankruptcy or receivership proceeding is pending and which remains unsatisfied after the termination of the bankruptcy or receivership proceeding shall be collected, with interest as provided in section 1023 (b) (5).

§ 86.46 *Immediate assessments in bankruptcy and receivership cases.* If the Commissioner has determined that a deficiency is due in respect of gift tax and the donor has filed a petition with The Tax Court of the United States (formery known as the Board of Tax Appeals) prior to the adjudication of bankruptcy or the appointment of a receiver, the trustee, receiver, debtor in possession, or other person designated as in control of the assets of the debtor by the court in which the bankruptcy or receivership proceeding is pending, may prosecute the donor's appeal before The Tax Court as to that particular determination. No petition shall be filed with The Tax Court for a redetermination of the deficiency after the adjudication of bankruptcy or the appointment of a receiver.

Claim for the amount of a deficiency, even though pending before The Tax Court for consideration, may be filed with the court in which the bankruptcy or receivership proceeding is pending without awaiting final decision of The Tax Court. In case of final decision of The Tax Court before the termination of the bankruptcy, debtor, or receivership proceeding, a copy of The Tax Court decision may be filed by the Commissioner with the court in which such proceeding is pending.

While the Commissioner is required by section 1015 to make immediate assessment of any deficiency, such assessment is not made as a jeopardy assessment within the meaning of section 1013 and consequently the provisions of that section do not apply to any assessment made under section 1015. Therefore, the notice of the deficiency provided for in section 1013 (b) will not be mailed. Although such notice will not be issued, nevertheless a letter will be sent to the donor, or to the trustee, receiver, debtor in possession, or other person designated by the court in which the bankruptcy or receivership proceeding is pending, as in control of the assets of the debtor, notifying him in detail how the deficiency was computed, that he may furnish evidence showing wherein the deficiency is incorrect, and that upon request he will be granted a hearing with respect to such deficiency. If after such evidence is submitted and hearing held any adjustment appears necessary in the deficiency, appropriate action will be taken. A copy of the notification letter will be attached to the assessment list as the collector's authority for filing claim in any bankruptcy or receivership proceeding.

If any portion of the claim allowed by the court in a bankruptcy or receivership proceeding remains unpaid after the termination of such proceeding, the collector will send notice and demand for payment thereof to the donor. Such unpaid portion with interest as provided in section 1023 (b) (5) may be collected from the donor by distraint or proceeding in court within six years after the termination of the bankruptcy, debtor, or receivership proceeding. Extensions of time for the payment of such unpaid amount may be granted in the same manner and subject to the same provisions and limitations as provided in sections 1012 (i), 1020 (b), and 1023 (b) (3). (See § 86.42.)

This section deals only with immediate assessments provided for in section 1015 and the procedure in connection with such assessments.

SEC. 1016. PERIOD OF LIMITATION UPON ASSESSMENT AND COLLECTION.

(a) *General rule.* Except as provided in subsection (b), the amount of taxes imposed by this chapter shall be assessed within three years after the return was filed, and no proceeding in court without assessment for the collection of such taxes shall be begun after the expiration of three years after the return was filed.

(b) *Exceptions*—

(1) *False return or no return.* In the case of a false or fraudulent return with intent to evade tax or of a failure to file a return the tax may be assessed, or a proceeding in court for the collection of such tax may be begun without assessment, at any time.

(2) *Collection after assessment.* Where the assessment of any tax imposed by this chapter has been made within the statutory period of limitation properly applicable thereto, such tax may be collected by distraint or by a proceeding in court, but only if begun (1) within six years after the assessment of the tax, or (2) prior to the expiration of any period for collection agreed upon in writing by the Commissioner and the donor.

§ 86.47 *Period of limitation upon assessment of tax.* The amount of the tax must be assessed within three years after the return was filed. Exceptions to this period of limitation are as follows:

(1) In case of a false or fraudulent return with intent to evade tax, the tax may be assessed at any time after such false or fraudulent return is filed.

(2) In the event the donor fails to file a return, the amount of tax due may be assessed at any time after the date prescribed for filing the return. See section 1017 and § 86.49 for provisions relating to the suspension of the running of the statute of limitations on the making of assessments.

With respect to the period of limitation for assessing the amount of the liability of a transferee of property of a donor, or for assessing the amount of the liability of a fiduciary under section 3467 of the Revised Statutes, as amended by section 518 of the Revenue Act of 1934 (31 U.S.C. 192), see section 1025 and § 86.58.

§ 86.48 *Period of limitation upon collection of tax.* A proceeding in court without assessment for the collection of the tax must be begun within three years after the return was filed, except that if the donor files a false or fraudulent return with intent to evade tax or fails to file a return, a proceeding in court for the collection of the tax may be begun at any time.

In any case in which the tax has been assessed within the statutory period of limitation properly applicable thereto, a proceeding in court or distraint for the collection of such tax may be begun within six years after the assessment thereof, or prior to the expiration of any period for collection agreed upon in writing by the Commissioner and the donor. In determining the running of the statute of limitations in respect of distraint, the distraint shall be considered to have been begun, in the case of personal property, on the date on which the levy upon such property is made, or, in the case of real property, on the date on which notice of the time and place of sale is given to the person whose property it is proposed to sell.

See section 1017 and § 86.49 for provisions relating to the suspension of the running of the statute of limitations on the beginning of distraint or a proceeding in court for collection of the tax.

SEC. 1017. SUSPENSION OF RUNNING OF STATUTE.

The running of the statute of limitations provided in section 1016 on the making of assessments and the beginning of distraint or a proceeding in court for collection, in respect of any deficiency, shall (after the mailing of a notice under section 1012 (a)) be suspended for the period during which the Commissioner is prohibited from making the assessment or beginning distraint or a proceeding in court (and in any event, if a proceeding in respect of the deficiency is placed on the docket of the Board, until the decision of the Board becomes final), and for 60 days thereafter.

§ 86.49 *Suspension of running of statute of limitations.* If a notice of a deficiency has been mailed to the donor under the provisions of section 1012 (a) (see § 86.39), then the running of the statute of limitations on assessment, on the beginning of distraint after assessment, or on the beginning of a proceeding in court after assessment or without assessment, in respect of any deficiency, shall be suspended for the period during which the Commissioner is prohibited from making the assessment or from beginning distraint or a proceeding in court (and in any event, if a proceeding in respect of the deficiency is placed on the docket of The Tax Court of the United States (formerly known as the Board of Tax Appeals), until the decision of The Tax Court becomes final), and for 60 days thereafter.

SEC. 1018. ADDITION TO THE TAX IN CASE OF DELINQUENT RETURN.

For addition to the tax in case of failure to make and file a return required by this chapter within the time prescribed by law or prescribed by the Commissioner in pursuance of the law, see section 3612 (d) (1).

SEC. 3612. RETURNS EXECUTED BY COMMISSIONER OR COLLECTOR.

(d) *Additions to tax*—(1) *Failure to file return.* In case of any failure to make and file a return or list within the time prescribed by law, or prescribed by the Commissioner or the collector in pursuance of law, the Commissioner shall add to the tax 25 per centum of its amount, except that when a return is filed after such time and it is shown that the failure to file it was due to a reasonable cause and not to willful neglect, no such addition shall be made to the tax: *Provided*, That in the case of a failure to make and file a return required by law, within the time prescribed by law or prescribed by the Commissioner in pursuance of law, if the last date so prescribed for filing the return is after August 30, 1935, then there shall be added to the tax, in lieu of such 25 per centum: 5 per centum if the failure is for not more than 30 days, with an additional 5 per centum for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 per centum in the aggregate.

(2) *Fraud.* In case a false or fraudulent return or list is willfully made, the Commissioner shall add to the tax 50 per centum of its amount.

(3) *Cross reference.*

For additions to tax in the case of income tax, see sections 291 and 293, and in the case of a deficiency in gift tax, see section 1019.

(e) *Collection of additions to tax.* The amount added to any tax under paragraphs (1) and (2) of subsection (d) shall be collected at the same time and in the same manner and as a part of the tax unless the tax has been paid before the discovery of the neglect, falsity, or fraud, in which case the amount so added shall be collected in the same manner as the tax.

* * * * *

§ 86.50 *Addition to the tax for failure to file return.* For failure to file the return required by the Internal Revenue Code within the time prescribed or within an extension of time granted by the collector, unless it is filed after such time and the failure is shown to have been due to a reasonable cause and not to willful neglect, 5 percent of the amount of the tax will be added thereto if the failure is for 30 days or less, with an additional 5 percent for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 percent in the aggregate.

Two classes of delinquents are subject to this addition to the tax:

(a) Those who do not file returns, and

(b) Those who file tardy returns and are unable to show reasonable cause for the delay.

A donor who files a tardy return and wishes to avoid the addition to the tax must make an affirmative showing of all facts alleged as a reasonable cause for failure to file the return on time in the form of an affidavit or affidavits which should be attached to the return. If affidavits are furnished with the return or upon the collector's demand, the collector, unless otherwise directed by the Commissioner, will forward the affidavits with the return, and, if the Commissioner determines that the delinquency was due to a reasonable cause and not to willful neglect, the addition to the tax will not be assessed. If the donor exercised ordinary business care and prudence and was nevertheless unable to file the return in the prescribed time, then the delay is due to reasonable cause.

If the addition to the tax for delinquency in filing the return has been added, the amount so added shall be collected in the same manner as the tax except that the interest provisions of section 1021 (see § 86.53) shall not apply to such additional amount. (But see § 86.55 as to interest accruing after issuance of notice and demand.)

For addition to the tax in case of fraud, see sections 1019 (b) and 3612 (d) and § 86.51.

SEC. 1019. ADDITIONS TO THE TAX IN CASE OF DEFICIENCY.

(a) *Negligence.* If any part of any deficiency is due to negligence, or intentional disregard of rules and regulations but without intent to defraud, 5 per centum of the total amount of the deficiency (in addition to such deficiency) shall be assessed, collected, and paid in the same manner as if it were a deficiency, except that the provisions of section 1021, relating to interest on deficiencies, shall not be applicable.

(b) *Fraud.* If any part of any deficiency is due to fraud with intent to evade tax, then 50 per centum of the total amount of the deficiency (in addition to such deficiency) shall be so assessed, collected, and paid, in lieu of the 50 per centum addition to the tax provided in section 3612 (d) (2).

§ 86.51 *Additions to the tax in case of deficiency.* If any part of any deficiency is due to negligence, or intentional disregard of rules and regulations but without intent to defraud, 5 percent of the total amount of the deficiency shall be added to the deficiency, and shall be assessed, collected, and paid in the same manner as the deficiency.

If any part of the deficiency is due to fraud with intent to evade tax, 50 percent of the total amount of the deficiency, in addition to the deficiency, shall be assessed, collected, and paid in the same manner as the deficiency. The 50 percent addition to the tax provided by section 1019 (b) is in lieu of the 50 percent addition provided in section 3612 (d) (2).

The interest provisions of section 1021 (see § 86.53) shall not apply to the additions to the tax described in this section. (But see § 86.55 as to interest accruing after issuance of notice and demand.)

For penalties other than additions to the tax for willful attempts to evade or defeat the tax, see section 1024 and § 86.56.

SEC. 1020. INTEREST ON EXTENDED PAYMENTS.

(a) *Tax shown on return.* If the time for payment of the amount determined as the tax by the donor is extended under the authority of section 1008 (b), there shall be collected as a part of such amount, interest thereon at the rate of 6 per centum per annum from the date when such payment should have been made if no extension had been granted, until the expiration of the period of the extension.

(b) *Deficiency.* In case an extension for the payment of a deficiency is granted, as provided in section 1012 (1), there shall be collected, as a part of the tax, interest on the part of the deficiency the time for payment of which is so extended, at the rate of 6 per centum per annum for the period of the extension, and no other interest shall be collected on such part of the deficiency for such period.

§ 86.52 *Interest on extended payments.* In case an extension of time has been granted for paying any portion of the tax shown by the donor upon his return, the statute requires the imposition of interest upon the amount, the time for payment of which has been extended, at the rate of 6 percent per annum from the date upon which such payment should have been made (the 15th day of March following the close of the calendar year) to the expiration of the period of the extension.

If an extension of time for paying the deficiency, or any portion thereof, has been granted, section 1020 (b) requires the imposition of interest upon the amount, the time for payment of which has been extended, at the rate of 6 percent per annum for the period of the extension, i. e., from the date prescribed for the payment (10 days after the date of the notice and demand) to the expiration of the period of the extension.

For provisions relating to interest in case the amount, the time for payment of which has been extended, is not paid on or before the expiration of the period of the extension granted, see § 86.55.

Example. A deficiency in tax amounting to $500 was determined and assessment thereof made on the 15th day of July, the due date of the tax being March 15 preceding. The amount of the assessment in this instance is $500, plus interest thereon at 6 percent per annum from and including March 16 to and including July 15, amounting to $10.03, computed upon the basis of 365 days to the year (or 366 days in a leap year), or a total assessment of $510.03, which thereupon becomes the amount of the deficiency. The date of the notice and demand by the collector for payment was August 1 following the assessment. Within 10 days thereafter $255.02 was paid and request was made for an extension of time for paying the balance of the deficiency ($255.01), and an extension from August 11 to and including February 11 was granted for the payment thereof. This amount bears interest at 6 percent per annum for the period of the extension, amounting to $7.71. The remaining liability is, therefore, $262.72.

SEC. 1021. INTEREST ON DEFICIENCIES.

Interest upon the amount determined as a deficiency shall be assessed at the same time as the deficiency, shall be paid upon notice and demand from the collector, and shall be collected as a part of the tax, at the rate of 6 per centum per annum from the due date of the tax to the date the deficiency is assessed, or, in the case of a waiver under section 1012 (d), to the thirtieth day after the filing of such waiver or to the date the deficiency is assessed whichever is the earlier.

§ 86.53 *Interest on deficiencies.* The statute provides that the deficiency shall bear interest at the rate of 6 percent per annum from the due date of the tax (the 15th day of March following the close of the calendar year) to the date the deficiency is assessed, except in the case of a waiver of the restrictions against the assessment and collection of the deficiency, and that such interest shall be assessed at the same time as the deficiency and shall be collected as part of the tax. The deficiency in respect to which the restrictions against the assessment and collection are waived under the provisions of section 1012 (d) bears interest at the rate of 6 percent per annum from the due date of the tax to the thirtieth day after the filing of such waiver or to the date the deficiency is assessed, whichever is the earlier. The term "deficiency" as used in this section includes any tax resulting from the correction of a mathematical error appearing upon the face of a return. (See §§ 86.38 and 86.39 (b).)

For provisions relating to interest upon the deficiency in case an extension of time for payment is granted, see §§ 86.52 and 86.55. For provisions relating to interest in case of a jeopardy assessment, see § 86.54.

SEC. 1022. INTEREST ON JEOPARDY ASSESSMENTS.

In the case of the amount collected under section 1013 (f) there shall be collected at the same time as such amount, and as a part of the tax, interest at the rate of 6 per centum per annum upon such amount from the date of the jeopardy notice and demand to the date of notice and demand under section 1013 (1), or, in the case of the amount collected in excess of the amount of the jeopardy assessment, interest as provided in section 1021.

§ 86.54 *Interest on jeopardy assessments.* In case a stay of the collection of a jeopardy assessment of a deficiency tax (together with interest and any other amount assessed and collectible as a part thereof) is obtained in accordance with the provisions of section 1013 (f) (see § 86.43), and a petition for a redetermination of the deficiency is filed with The Tax Court of the United States (formerly known as the Board of Tax Appeals), interest accrues on the unpaid portion of any such amount determined by a decision of The Tax Court which becomes final, at the rate of 6 percent per annum from the date of the notice and demand from the collector following the jeopardy assessment to the date of the notice and demand by the collector subsequent to the final action taken on the petition filed with The Tax Court. If the amount determined by The Tax Court as the amount which should have been assessed is greater than the amount actually assessed, the difference bears interest at the rate of 6 percent per annum from the due date of the tax until the assessment of such difference. If the collection of the jeopardy assessment is stayed, and no petition is filed with The Tax Court for a redetermination of the deficiency, interest accrues upon the deficiency so assessed at the rate of 6 percent per annum from the date of the jeopardy notice and demand to the date of the notice and demand made by the collector after the expiration of the period prescribed for the filing of the petition.

SEC. 1023. ADDITIONS TO THE TAX IN CASE OF NONPAYMENT.

(a) *Tax shown on return*—(1) *Payment not extended.* Where the amount determined by the donor as the tax imposed by this chapter, or any part of such amount, is not paid on the due date of the tax, there shall be collected as a part of the tax, interest upon such unpaid amount at the rate of 6 per centum per annum from the due date until it is paid.

(2) *Payment extended.* Where an extension of time for payment of the amount so determined as the tax by the donor has been granted, and the amount the time for payment of which has been extended, and the interest thereon determined under section 1020 (a), is not paid in full prior to the expiration of the period of the extension, then, in lieu of the interest provided for in paragraph (1) of this subsection, interest at the rate of 6 per centum per annum shall be collected on such unpaid amount from the date of the expiration of the period of the extension until it is paid.

(b) *Deficiency*—(1) *Payment not extended.* Where a deficiency, or any interest assessed in connection therewith under section 1021, or any addition to the tax provided for in section 3612 (d), is not paid in full within 10 days from the date of notice and demand from the collector, there shall be collected as part of the tax, interest upon the unpaid amount at the rate of 6 per centum per annum from the date of such notice and demand until it is paid.

(2) *Filing of jeopardy bond.* If a bond is filed, as provided in section 1013, the provisions of paragraph (1) of this subsection shall not apply to the amount covered by the bond.

(3) *Payment extended.* If the part of the deficiency the time for payment of which is extended as provided in section 1012 (1) is not paid in accordance with the terms of the extension, there shall be collected, as a part of the tax, interest on such unpaid amount at the rate of 6 per centum per annum for the period from the time fixed by the terms of the extension for its payment until it is paid, and no other interest shall be collected on such unpaid amount for such period.

(4) *Jeopardy assessment—payment stayed by bond.* If the amount included in the notice and demand from the collector under section 1013 (1) is not paid in full within 10 days after such notice and demand, then there shall be collected, as part of the tax, interest upon the unpaid amount at the rate of 6 per centum per annum from the date of such notice and demand until it is paid.

(5) *Interest in case of bankruptcy and receiverships.* If the unpaid portion of the claim allowed in a bankruptcy or receivership proceeding, as provided in section 1015, is not paid in full within 10 days from the date of notice and demand from the collector, then there shall be collected as a part of such amount interest upon the unpaid portion thereof at the rate of 6 per centum per annum from the date of such notice and demand until payment.

§ 86.55 *Interest on delinquent taxes.* If any portion of the tax shown on the donor's return is not paid on or before the due date (the 15th day of March following the close of the calendar year) and no extension of time for payment thereof has been granted, such unpaid portion bears interest from the due date until payment is received by the collector at the rate of 6 percent per annum.

If any portion of a deficiency assessed, together with interest and any other amount assessed and collectible as a part thereof, is not paid within 10 days from the date of the notice and demand issued by the collector (except a deficiency with respect to which a jeopardy assessment is made and collection is stayed by the filing of bond), and no extension of time for payment thereof has been granted, such unpaid amount bears interest from the date of the notice and demand until payment is received by the collector at the rate of 6 percent per annum.

If an extension of time has been granted for paying any portion of the tax shown on the donor's return (see § 86.29) or for any portion of a deficiency (see § 86.42) and the amount due is not paid in full prior to the expiration of the extension, the total unpaid amount (tax and interest for the period of the extension) bears interest from the expiration of the extension until payment is received by the collector at the rate of 6 percent per annum.

If a deficiency as determined by a decision of The Tax Court of the United States (formerly known as the Board of Tax Appeals) which has become final is in the amount of a jeopardy assessment, collection of which was stayed by the filing of a bond and such amount is not paid in full within 10 days after the notice and demand issued subsequent to such final decision, interest accrues on the unpaid amount for which such notice and demand was made, from the date of the notice and demand until it is paid at the rate of 6 percent per annum.

If, in the case of bankruptcy, debtor's relief proceeding, or a receivership for any donor, any portion of the claim for a deficiency (including interest and any other amount assessed and collectible as a part thereof) presented for adjudication in accordance with law is unpaid, the unpaid portion of the claim, if not paid in full within 10 days from notice and demand from the collector, bears interest from the date of such notice and demand until paid at the rate of 6 percent per annum.

SEC. 1024. PENALTIES.

(a) Any person required under this chapter to pay any tax, or required by law or regulations made under authority thereof to make a return, keep any records, or supply any information, for the purposes of the computation, assessment, or collection of any tax imposed by this chapter, who willfully fails to pay such tax, make such return, keep such records, or supply such information, at the time or times required by law or regulations, shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than one year, or both, together with the costs of prosecution.

(b) Any person who willfully attempts in any manner to evade or defeat any tax imposed by this chapter or the payment thereof, shall, in addition to other penalties provided by law, be guilty of a felony and, on conviction thereof, be fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution.

§ 86.56 *Penalties.* Two kinds of penalties are provided for delinquency with respect to duties imposed by the statute:

(1) Criminal penalties, and

(2) Penalties of a certain percentage of the tax, to be added to and collected in the same manner as the tax.

In any case where more than one penalty is provided, the Government may assert any one or more thereof.

Any person required by the Internal Revenue Code to pay any tax, or required by law or regulations made under authority thereof to file any notice or make a return, keep any records, or supply any information, for the purposes of the computation, assessment, or collection of the tax, who willfully fails to pay such tax, file such notice or make such return, keep such records, or supply such information as required by the

law and the regulations, shall, in addition to the other penalties, be guilty of a misdemeanor and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than one year, or both, together with the costs of prosecution.

Any person who willfully attempts in any manner to evade or defeat any gift tax shall, in addition to other penalties provided by law, be guilty of a felony and, on conviction thereof, shall be fined not more than $10,000, or imprisoned, for not more than five years, or both, together with the costs of prosecution.

Any person who willfully aids or assists in the preparation or presentation of a false or fraudulent notice or return, or procures, counsels, or advises the preparation or presentation of such notice or return, whether such falsity or fraud is with or without the knowledge or consent of the person required to make the notice or return, will be guilty of a felony and, upon conviction thereof, fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution. (See section 3793 (b).)

Any person who, in connection with any compromise entered into or offer made under the provisions of section 3761, or who, in connection with any closing agreement under section 3760 (see § 86.69) or the offer to enter into any such agreement, willfully conceals from any officer or employee of the United States any property belonging to the estate of the donor or to any person liable in respect of the tax, or receives, destroys, mutilates, or falsifies any book, document, or record, or makes under oath any false statement relating to the estate or financial condition of the donor or other person liable in respect of the tax, shall, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than one year, or both. (See section 3762.)

For penalties imposed for failure to make and file a return, or for fraud with intent to evade tax, which consist of a percentage of the tax to be added thereto and collected in the same manner as the tax, see sections 1019 and 3612 (d) and §§ 86.50 and 86.51.

SEC. 3761. COMPROMISES.

(a) *Authorization.* The Commissioner, with the approval of the Secretary, or of the Under Secretary of the Treasury, or of an Assistant Secretary of the Treasury, may compromise any civil or criminal case arising under the internal revenue laws prior to reference to the Department of Justice for prosecution or defense; and the Attorney General may compromise any such case after reference to the Department of Justice for prosecution or defense.

(b) *Record.* Whenever a compromise is made by the Commissioner in any case there shall be placed on file in the office of the Commissioner the opinion of the General Counsel for the Department of the Treasury, or of the officer acting as such, with his reasons therefor, with a statement of—

(1) The amount of tax assessed,

(2) The amount of additional tax or penalty imposed by law in consequence of the neglect or delinquency of the person against whom the tax is assessed, and

(3) The amount actually paid in accordance with the terms of the compromise.

(c) *Cross reference.* For compromises after judgment, see R. S. 3469 (U. S. C., Title 31, § 194).

§ 86.57 *Compromises.* Offers in compromise should be filed with the appropriate collector of internal revenue. No offer in compromise of tax, interest, and ad valorem penalty collectible as part of the tax will be accepted unless there is a substantial doubt as to either liability or collectibility.

SEC. 1025. TRANSFERRED ASSETS.

(a) *Method of collection.* The amounts of the following liabilities shall, except as hereinafter in this section provided, be assessed, collected, and paid in the same manner and subject to the same provisions and limitations as in the case of a deficiency in the tax imposed by this chapter (including the provisions in case of delinquency in payment after notice and demand, the provisions authorizing distraint and proceedings in court for collection, and the provisions prohibiting claims and suits for refunds):

(1) *Transferees.* The liability, at law or in equity, of a transferee of property of a donor, in respect of the tax (including interest, additional amounts, and additions to the tax provided by law) imposed by this chapter.

(2) *Fiduciaries.* The liability of a fiduciary under section 3467 of the Revised Statutes (U. S. C., Title 31, sec. 192) in respect of the payment of any such tax from the estate of the donor.

Any such liability may be either as to the amount of tax shown on the return or as to any deficiency in tax.

(b) *Period of limitation.* The period of limitation for assessment of any such liability of a transferee or fiduciary shall be as follows:

(1) Within one year after the expiration of the period of limitation for assessment against the donor.

(2) If a court proceeding against the donor for the collection of the tax has been begun within the period provided in paragraph (1),—then within one year after return of execution in such proceeding.

(c) *Period for assessment against donor.* For the purposes of this section, if the donor is deceased, the period of limitation for assessment against the donor shall be the period that would be in effect had the death not occurred.

(d) *Suspension o running of statute of limitations.* The running of the statute of limitations upon the assessment of the liability of a transferee or fiduciary shall, after the mailing of the notice under section 1012 (a) to the transferee or fiduciary, be suspended for the period during which the Commissioner is prohibited from making the assessment in respect of the liability of the transferee or fiduciary (and in any event, if a proceeding in respect of the liability is placed on the docket of the Board, until the decision of the Board becomes final), and for 60 days thereafter.

(e) *Prohibition of suits to restrain enforcement of liability of transferee or fiduciary.* No suit shall be maintained in any court for the purpose of restraining the assessment or collection of (1) the amount of the liability, at law or in equity, of a transferee of property of a donor in respect of any gift tax, or (2) the amount of the liability of a fiduciary under section 3467 of the Revised Statutes (U. S. C., Title 31, sec. 192) in respect of any such tax.

(f) *Definition of "transferee."* As used in this section the term "transferee" includes donee, heir, legatee, devisee, and distributee.

(g) *Address for notice of liability.* In the absence of notice to the Commissioner under section 1026 (b) of the existence of a fiduciary relationship, notice of liability enforceable under this section in respect of a tax imposed by this chapter, if mailed to the person subject to the liability at his last known address, shall be sufficient for the purposes of this chapter even if such person is deceased, or is under a legal disability, or, in the case of a corporation, has terminated its existence.

§ 86.58 *Claims in cases of transferred assets.* The amount for which a transferee of the property of a donor is liable, at law or in equity, and the amount of the personal liability of a fiduciary under section 3467 of the Revised Statutes, as amended by section 518 of the Revenue Act of 1934, 31 USC 192, in respect of the tax, whether such tax is shown on the return of the donor or determined as a deficiency, shall be assessed against such transferee or such fiduciary, as the case may be, and collected and paid in the same manner and subject to the same provisions and limitations as in the case of a deficiency in the tax, except as hereinafter provided.

The term "transferee" as used in this section includes among others a donee, heir, legatee, devisee, and distributee.

The period of limitation for assessment of the liability of a transferee or of a fiduciary, is as follows:

(1) Within one year after the expiration of the period of limitation for assessment against the donor.

(2) If a court proceeding against the donor for the collection of the tax has been begun within the period of limitation for the bringing of such proceeding, then within one year after the return of the execution in such proceeding.

For the purpose of determining the period of limitation for assessment against a transferee or a fiduciary, if the donor is deceased, the period of limitation for assessment against the donor shall be the period that would be in effect had the death not occurred.

If a notice of the liability of a transferee or the liability of a fiduciary has been mailed to such transferee or to such fiduciary under the provisions of section 1012 (a) (see § 86.39), then the running of the statute of limitations shall be suspended for the period during which the Commissioner is prohibited from making the assessment in respect of the liability of the transferee or fiduciary (and in any event, if a proceeding in respect of the liability is placed on the docket of The Tax Court of the United States (formerly known as the Board of Tax Appeals), until the decision of The Tax Court becomes final), and for 60 days thereafter.

SEC. 1026. NOTICE OF FIDUCIARY RELATIONSHIP.

(a) *Fiduciary of donor.* Upon notice to the Commissioner that any person is acting in a fiduciary capacity such fiduciary shall assume the powers, rights, duties, and privileges of the donor in respect of a tax imposed by this chapter (except as otherwise specifically provided and except that the tax shall be collected from the estate of the donor), until notice is given that the fiduciary capacity has terminated.

(b) *Fiduciary of transferee.* Upon notice to the Commissioner that any person is acting in a fiduciary capacity for a person subject to the liability specified in section 1025, the fiduciary shall assume, on behalf of such person, the powers, rights, duties, and privileges of such person under such action (except that the liability shall be collected from the estate of such person), until notice is given that the fiduciary capacity has terminated.

(c) *Manner of notice.* Notice under subsection (a) or (b) shall be given in accordance with regulations prescribed by the Commissioner with the approval of the Secretary.

§ 86.59 *Notice of fiduciary relationship.* As soon as the Commissioner recieves notice that any person is acting in a fiduciary capacity for a donor or a donor's estate, such fiduciary must, except as otherwise specifically provided, assume the powers, rights, duties, and privileges of the donor in respect of the the tax. If the person is acting as a fiduciary for a transferee or other person subject to the liability specified in section 1025 (see § 86.58), such fiduciary is required to assume the powers, rights, duties, and privileges of the transferee or other person under that section. The amount of the tax or liability is, however, not collectible from the estate of the fiduciary but is collectible from the estate of the donor or from the estate of the transferee or other person subject to the liability specified in section 1025. The "notice to the Commissioner" provided for in section 1026 shall be a written notice signed by the fiduciary and filed with the Commissioner. The notice must state the name and address of the person for whom the fiduciary is acting and the nature of the liability of such person; that is, whether it is a liability for the tax, and, if so, the year or years involved, or a liability at law or in equity of a transferee of property of the donor, or a liability of a fiduciary under section 3467 of the Revised Statutes, as amended by section 518 of the Revenue Act of 1934, 31 U.S.C. 192, in respect of the payment of any tax from the estate of the donor. Satisfactory evidence of the authority of the fiduciary to act for such person in the fiduciary capacity must be filed with and made a part of the notice. If the fiduciary capacity exists by order of court, a certified copy of the order may be regarded as such satisfactory evidence. When the fiduciary capacity has terminated, the fiduciary, in order to be relieved of any further duty or liability as such, must file with the Commissioner written notice that the fiduciary capacity has terminated as to him, accompanied by satisfactory evidence of the termination of the fiduciary capacity. The notice of termination should state the name and address of the person, if any, who has been substituted as fiduciary.

If the notice of the fiduciary capacity described in the preceding paragraph is not filed with the Commissioner prior to the sending of notice of a deficiency by registered mail to the last known address of the donor (see section 1012 (a)), or the last known address of the transferee or other person subject to liability (see section 1025), no notice of the deficiency will be sent to the fiduciary. In such a case the sending of the notice to the last known address of the donor, transferee, or other person, as the case may be, will be a sufficient compliance with the requirements of the statute, even though such donor, transferee, or other person is deceased, or is under a legal disability, or, in the case of a corporation, has terminated its existence. Under such circumstances if no petition is filed with The Tax Court of the United States (formerly known as the Board of Tax Appeals) before the expiration of the period prescribed for the filing of the petition by the donor, transferee, or other person, the tax, or liability under section 1025, will be assessed immediately upon the expiration of such period, and demand for payment will be made by the collector. The term "fiduciary" is defined by section 3797 (a) (6) to mean guardian, trustee, executor, administrator, receiver, conservator, or any person acting in any fiduciary capacity for any person.

SEC. 1027. REFUNDS AND CREDITS. [As originally enacted.]

(a) *Authorization.* Where there has been an overpayment of any tax imposed by this chapter, the amount of such overpayment shall be credited against any gift tax then due from the taxpayer, and any balance shall be refunded immediately to the taxpayer.

(b) *Limitation on allowance*—(1) *Period of limitation.* No such credit or refund shall be allowed or made after three years from the time the tax was paid, unless before the expiration of such period a claim therefor is filed by the taxpayer.

(2) *Limit on amount of credit or refund.* The amount of the credit or refund shall not exceed the portion of the tax paid during the three years immediately preceding the filing of the claim, or if no claim was filed, then during the three years immediately preceding the allowance of the credit or refund.

(c) *Effect of petition to Board.* If the Commissioner has mailed to the taxpayer a notice of deficiency under section 1012 (a) and if the taxpayer files a petition with the Board of Tax Appeals within the time prescribed in such subsection, no credit or refund in respect of the tax for the calendar year in respect of which the Commissioner has determined the deficiency shall be allowed or made and no suit by the taxpayer for the recovery of any part of such tax shall be instituted in any court except—

(1) As to overpayments determined by a decision of the Board which has become final; and

(2) As to any amount collected in excess of an amount computed in accordance with the decision of the Board which has become final; and

(3) As to any amount collected after the period of limitation upon the beginning of distraint or a proceeding in court for collection has expired; but in any such claim for credit or refund or in any such suit for refund the decision of the Board which has become final, as to whether such period has expired before the notice of deficiency was mailed, shall be conclusive.

(d) *Overpayment found by Board.* If the Board finds that there is no deficiency and further finds that the taxpayer has made an overpayment of tax in respect of the taxable year in respect of which the Commissioner determined the deficiency, the Board shall have jurisdiction to determine the amount of such overpayment, and such amount shall, when the decision of the Board has become final, be credited or refunded to the taxpayer. No such credit or refund shall be made of any portion of the tax unless the Board determines as part of its decision that such portion was paid within three years before the filing of the claim or the filing of the petition, whichever is earlier, or that such portion was paid after the mailing of the notice of deficiency.

SEC. 457. OVERPAYMENT FOUND BY BOARD. [Revenue Act of 1942, Title IV, Part II. Effective for calendar year 1943 and each calendar year thereafter.]

The second sentence of section 1027 (d) (relating to overpayment found by the Board of Tax Appeals) is amended by striking out "or the filing of the petition" and inserting in lieu thereof "or the mailing of the notice of deficiency".

SEC. 451. GIFTS TO WHICH AMENDMENTS APPLICABLE. [Revenue Act of 1942, Title IV, Part II.]

Except as otherwise expressly provided, the amendments made by this Part shall be applicable only with respect to gifts made in the calendar year 1943, and succeeding calendar years.

SEC. 503. SUIT AGAINST COLLECTOR; BAR IN OTHER SUITS. [Revenue Act of 1942.]

Section 3772 (relating to suits) is amended by inserting at the end thereof the following new subsection:

(d) *Suits against collector a bar.*—A suit against a collector (or former collector) or his personal representative for the recovery of any internal revenue tax alleged to have been erroneously or illegally assessed or collected, or of any penalty claimed to have been collected without authority, or of any sum alleged to have been excessive or in any manner wrongfully collected shall be treated as if the United States had been a party to such suit in applying the doctrine of res judicata in all suits instituted after June 15, 1942, in respect of any internal revenue tax, and in all proceedings in the Board and on review of decisions of the Board where the petition to the Board was filed after such date.

SEC. 3770. AUTHORITY TO MAKE ABATEMENTS, CREDITS, AND REFUNDS.

(a) *To taxpayers.*

* * * * * *

(2) *Assessments and collections after limitation period.* Any tax (or any interest, penalty, additional amount, or addition to such tax) assessed or paid after the expiration of the period of limitation properly applicable thereto shall be considered an overpayment and shall be credited or refunded to the taxpayer if claim therefor is filed within the period of limitation for filing such claim.

SEC. 3775. CREDITS AFTER PERIODS OF LIMITATION.

(a) *Period against United States.* Any credit against a liability in respect of any taxable year shall be void if any payment in respect of such liability would be considered an overpayment under section 3770 (a) (2).

SEC. 3771. INTEREST ON OVERPAYMENTS.

(a) *Rate.* Interest shall be allowed and paid upon any overpayment in respect of any internal revenue tax at the rate of 6 per centum per annum.

(b) *Period.* Such interest shall be allowed and paid as follows:

(1) *Credits.* In the case of a credit, from the date of the overpayment to the due date of the amount against which the credit is taken, but if the amount against which the credit is taken is an additional assessment of a tax imposed by the Revenue Act of 1921, 42 Stat. 227, or any subsequent Revenue Act, then to the date of the assessment of that amount.

(2) *Refunds.* In the case of a refund, from the date of the overpayment to a date preceding the date of the refund check by not more than thirty days, such date to be determined by the Commissioner, whether or not such refund check is accepted by the taxpayer after tender of such check to the taxpayer. The acceptance of such check shall be without prejudice to any right of the taxpayer to claim any additional overpayment and interest thereon.

(c) *Additional assessment defined.* As used in this section the term "additional assessment" means a further assessment for a tax

of the same character previously paid in part, and includes the assessment of a deficiency of any income or estate tax imposed by the Revenue Act of 1924, 43 Stat. 253, or by any subsequent Revenue Act.

* * * * *

§ 86.60 *Authority for abatement, credit, or refund.* Authority for the credit or refund of an overpayment is contained in section 1027. As to the abatement of a jeopardy assessment by the Commissioner before The Tax Court of the United States (formerly known as the Board of Tax Appeals) renders a decision, see § 86.43.

Section 1014 prohibits the filing of claims for abatement by donors with respect to assessments of the tax. The provisions of section 1014 do not impair the authority of the collectors to file claims with the Commissioner for relief from charges against them for uncollectible items, in accordance with section 3950, which provides:

SEC. 3950. CHARGES AND CREDITS.

(a) *Charges.* Every collector shall be charged with—

(1) *Taxes.* The whole amount of taxes, whether contained in lists transmitted to him by the Commissioner, or by other collectors, or delivered to him by his predecessor in office, and the additions thereto;

(2) *Stamps.* The par value of all stamps deposited with him; and

(3) *Moneys.* All moneys collected for penalties, forfeitures, fees, or costs.

(b) *Credits.* Every collector shall be credited with—

(1) *Payments into Treasury.* All payments into the Treasury made as provided by law;

(2) *Returned stamps.* All stamps returned by him uncancelled to the Treasury;

(3) *Taxes transmitted to other collectors.* The amount of taxes contained in the lists transmitted in the manner provided in section 3651 (b) to other collectors, and by them receipted as therein provided;

(4) *Taxes of insolvent or absconded persons.* The amount of the taxes of such persons as may have absconded or become insolvent, prior to the day when the tax ought, according to the provisions of law, to have been collected;

(5) *Uncollected taxes transferred to successor.* All uncollected taxes transferred by him or by his deputy acting as collector to his successor in office: *Provided*, That it shall be proved to the satisfaction of the Commissioner, who shall certify the facts to the General Accounting Office, that due diligence was used by the collector; and

(6) *Property purchased for United States.* The amount of all property purchased by him for the use of the United States, provided he faithfully account for and pay over the proceeds thereof upon a resale of the same as required by law.

§ 86.61 *Credit and refund adjustments.* Overassessments and overpayments of gift taxes will be adjusted by means of certificates of overassessment. Credits or refunds of overpayments on the basis of such certificates of overassessment will be allowed or made even though claim for credit or refund has not been filed. However, credits or refunds may not be allowed or made after the expiration of the statutory period of limitation properly applicable unless prior to the expiration of such period a proper claim therefor has been filed by the donor. The claim, together with appropriate supporting evidence, must be filed in the office of the collector for the district in which the tax was paid. (See § 86.63.) As to interest in case of credits or refunds, see section 3771 of the Internal Revenue Code and section 177 (b) of the Judicial Code as amended by Act of June 22, 1936 (28 U.S.C. 284).

§ 86.62 *Claims by collectors.* A collector may present blanket claims for the abatement of certain items which were erroneously assessed. Many of these items fall in a class where the error in assessment is apparent, and the abatement of such assessment by the use of blanket claims serves to relieve the collector of the charge against him for such amount and to relieve him in an expeditious manner of the duty of collecting from the donor certain amounts which a summary examination clearly shows are not due from the donor. Some of the items included in this class of cases are duplicate assessments, amounts assessed as unidentified collections and later identified, assessments resulting from errors in computation, and amounts assessed as excess collections which are subsequently credited against taxes later found to be due.

In the event an erroneous assessment has been paid, the collector may file a blanket claim for credit of such amounts against any unpaid assessments standing against the donor upon the assessment lists held by the collector. If there are no such unpaid assessments against which credit may be taken, the collector shall submit refund schedules to cover such amounts in accordance with instructions issued by the Commissioner. But no such credit or refund shall be allowed or made unless allowed or made within the statutory period of limitation properly applicable thereto.

The collector may also present claims for credit of taxes not erroneously assessed but found to be uncollectible. (See section 3950.) In such cases the collector or deputy collector who made the demand for the payment and is conversant with the facts may prepare the claim for credit. Even though the collector is so credited with the amount allowed as uncollectible, nevertheless the obligation to pay still remains upon the person assessed. It is the duty of the collector to use the same diligence to collect the tax after he has received credit for an amount as uncollectible as before the allowance of such credit. Collectors should, therefore, keep a record of all taxes thus credited and of the persons from whom they are due and should enforce payment whenever it is in their power to do so.

§ 86.63 *Claims for credit or refund by donors.* Claims for the crediting or refunding of taxes, interest, penalties, and additions to tax erroneously or illegally collected shall be made on Form 843 and should be filed with the collector of internal revenue, although a claim will not be considered defective solely by reason of the fact that it is not made on the form or that it is filed with the Commissioner of Internal Revenue. A separate claim on such form shall be made for each taxable year.

Claims must set forth in detail and under oath each ground upon which a credit or refund is claimed and facts sufficient to apprise the Commissioner of the exact basis thereof. No credit or refund will be allowed or made after three years from the date of the payment of the tax sought to be credited or refunded, except upon one or more of the grounds set forth in a claim or an amendment thereof filed prior to the expiration of such period. A claim which does not comply with this paragraph will not be considered for any purpose as a claim for credit or refund.

The burden of proof to sustain a claim for credit or refund rests upon the claimant and all facts relied upon in support of the claim must be clearly set forth under oath. Every affidavit, argument, brief, or statement of facts, prepared or filed by an attorney or agent as argument or evidence in the matter of a claim, must have therein a statement signed by such attorney or agent showing whether or not he prepared such document and whether or not the attorney or agent knows of his own knowledge that the facts contained therein are true. When there is a hearing, should the donor not appear in person, his representative who appears must present a properly executed power of attorney and be enrolled to practice before the Treasury Department. (See § 86.27.)

If a return is filed by a donor who subsequently dies and a refund claim is thereafter filed by a legal representative of the deceased, certified copies of the letters testamentary or letters of administration, or other similar evidence must be annexed to the claim to show the authority of the executor, administrator, or other fiduciary by whom the claim is filed. If an executor, administrator, guardian, trustee, receiver, or other fiduciary files a return and thereafter a refund claim is filed by the same fiduciary, documentary evidence to establish the legal authority of the fiduciary need not accompany the claim, provided a statement is made in the claim showing that the return was filed by the fiduciary and that the latter is still acting. In such cases, if a refund or interest is to be paid, letters testamentary, letters of administration, or other evidence may be required, but should be submitted only upon the receipt of a specific request therefor. If a claim is filed by a fiduciary other than the one by whom the return was filed, the necessary documentary evidence should accompany the claim.

Checks in payment of claims allowed will be drawn in the names of the persons entitled to the money and may be sent to such persons in care of an attorney or agent who has filed a power of attorney specifically authorizing him to receive such checks. The Commissioner may, however, send any such check direct to the claimant. In this connection, see section 3477 of the Revised Statutes (31 U.S.C. 203), the pertinent part of which provides:

All transfers and assignments made of any claim upon the United States, or of any part or share thereof, or interest therein, whether absolute or conditional, and whatever may be the consideration therefor, and all powers of attorney, orders, or other authorities for receiving payment of any such claim, or of any part or share thereof, shall be absolutely null and void, unless they are freely made and executed in the presence of at least two attesting witnesses, after the allowance of such a claim, the ascertainment of the amount due, and the issuing of a warrant for the payment thereof. Such transfers, assignments, and powers of attorney, must recite the warrant for payment, and must be acknowledged by the person making them, before an officer having authority to take acknowledgments of deeds, and shall be certified by the officer; and it must appear by the certificate that the officer, at the time of the acknowledgment, read and fully explained the transfer, assignment, or warrant of attorney to the person acknowledging the same.

The Commissioner has no authority to refund on equitable grounds penalties or other amounts legally collected. As to claims for refund of sums recovered by suit see §§ 86.64 and 86.65.

§ 86.64 *Claims for refund in case of judgment obtained against collector.* (a) Claims for the amount of a judgment against a collector of internal revenue for the recovery of taxes, penalties, or other sums should be made on Form 843 and filed with the Commissioner of Internal Revenue, Washington, D. C. The claimant should state the grounds of his claim under oath, giving the names of all the parties to the suit, the cause of action, the date of its commencement, the date of the judgment, the court in which it was recovered, and its amount. To this affidavit there should be annexed a certified copy of the final judgment in duplicate, a certificate of probable cause, and an itemized bill of the costs paid, receipted by the clerk or other proper officer of the court. In this connection section 989 of the Revised Statutes (28 U.S.C. 842) provides:

When a recovery is had in any suit or proceeding against a collector or other officer of the revenue for any act done by him, or for the recovery of any money exacted by or paid to him and by him paid into the Treasury in the performance of his official duty, and the court certifies that there was probable cause for the act done by the collector or other officer, or that he acted under the directions of the Secretary of the Treasury, or other proper officer of the Government, no execution shall issue against such collector or other officer, but the amount so recovered shall, upon final judgment, be provided for and paid out of proper appropriation from the Treasury.

(b) If the judgment debtor shall have already paid the amount recovered against him, the claim should be made in his name. A certificate of the clerk of the court in which the judgment was recovered (or other satisfactory evidence), showing that the judgment has been satisfied and specifying the exact sum paid in its satisfaction, with a detail of all items of costs which were paid by the judgment debtor or for which he is liable, should accompany the claim. (See further, § 86.63.)

§ 86.65 *Claims for refund in case of judgment obtained against the United States.* Claims for the payment of judgments rendered by United States district courts and the United States Court of Claims against the United States representing taxes, penalties, or other sums, should be executed on Form 843 in duplicate and filed directly with the Commissioner of Internal Revenue, Washington, D. C. The claimant should state the grounds of his claim under oath, giving the names of all parties to the suit, the cause of action, the date of its commencement, the date of the judgment, the court in which it was recovered, and its amount. To this affidavit there should be annexed two certified copies of the final judgment, and an itemized bill of the costs paid, receipted by the clerk or other proper officer of the court. In the case of a judgment rendered by the Court of Claims, there may be submitted in lieu of a certified copy of the final judgment, a certificate of judgment issued by the clerk of the court and two copies of the court's opinion, if any was rendered.

§ 86.66 *Limitations upon the crediting and refunding of taxes paid.* (a) Except as provided in (b) of this section, (1) the Commissioner is prohibited from making credits or refunds of the tax after three years from the time the tax was paid unless before the expiration of such 3-year period a claim therefor is filed, and (2) the amount of such credit or refund shall not exceed the portion of the tax paid during the 3-year period immediately preceding the date of the allowance of the credit or refund, or, if the credit or refund is based upon a claim, the amount of the credit or refund shall not exceed the portion of the tax paid during the 3-year period immediately preceding the date of filing such claim.

(b) In any case where a person having a right to file a petition with The Tax Court of the United States (formerly known as the Board of Tax Appeals) with respect to a deficiency in the tax files such petition within the prescribed time, no credit or refund of the tax for the year to which the deficiency relates shall be allowed or made, and no suit for the recovery of any part of such tax shall be instituted by the donor, except that:

(1) If The Tax Court finds that the tax has been overpaid for the year to which the notice of the deficiency relates, if the decision of The Tax Court as to the amount overpaid has become final (see section 1140 of the Internal Revenue Code), and if The Tax Court determines as a part of its decision (i) that, as to gifts made during the calendar year 1943 or thereafter, any portion of the overpayment was made within three years before the filing of the claim for refund or the mailing of the notice of deficiency, whichever is earlier, or, as to gifts made during the calendar year 1940, 1941, or 1942, any portion of the overpayment was made within three years before the filing of the claim or the filing of the petition, whichever is earlier, or (ii) that any portion of the overpayment was made after the mailing of the notice of deficiency, the amount of such portion of the overpayment will be credited or refunded.

(2) In the case of a jeopardy assessment made under section 1013, if the amount which should have been assessed as determined by a decision of The Tax Court which has become final is less than the amount already collected, the excess payment shall be credited or refunded subject to the limitations provided in (b) (1) of this section.

(3) If the amount of the deficiency determined by The Tax Court (in a case where collection has not been stayed by the filing of a bond) is disallowed in whole or in part by the reviewing court, then the overpayment resulting from such disallowance shall be credited or refunded without the making of claim therefor. (See section 1146.)

(4) Where the amount collected is in excess of the amount computed in accordance with the decision of The Tax Court which has become final, the excess payment shall be credited or refunded within the period of limitation provided in section 1027 (b).

(5) Where an amount is collected after the statutory period of limitation upon the beginning of distraint or a proceeding in court for collection has expired (see § 86.48), the donor may file a claim for refund of the amount so collected within the period of limitation provided in section 1027 (b). In any such case, the decision of The Tax Court as to whether the statutory period upon collection of the tax expired before notice of the deficiency was mailed shall, when the decision becomes final, be conclusive.

§ 86.67 *Crediting of accounts of collectors in cases of assessments against several persons covering same liability.* If assessments have been made against several persons covering the same tax liability, and payment of such liability by one or more of such persons has been duly certified to the Commissioner, the Commissioner, for the purpose of temporarily relieving the collector from liability under section 3950, may authorize him to take credit temporarily with respect to the assessments not specifically paid. Such action, however, shall not constitute an abatement and shall not discharge the liability of the persons concerned.

SEC. 3774. REFUNDS AFTER PERIODS OF LIMITATION.

A refund of any portion of an internal revenue tax (or any interest, penalty, additional amount, or addition to such tax) shall be considered erroneous—(a) *Expiration of period for filing claim.* If made after the expiration of the period of limitation for filing claim therefor, unless within such period claim was filed; or

(b) *Disallowance of claim and expiration of period for filing suit.* In the case of a claim filed within the proper time and disallowed by the Commissioner if the refund was made after the expiration of the period of limitation for filing suit, unless—

(1) Within such period suit was begun by the taxpayer, or

(2) Within such period, the taxpayer and the Commissioner agreed in writing to suspend the running of the statute of limitations for filing suit from the date of the agreement to the date of final decision in one or more named cases then pending before the Board of Tax Appeals or the courts. If such agreement has been entered into, the running of such statute of limitations shall

be suspended in accordance with the terms of the agreement.

(c) *Cross reference.* For procedure by the United States to recover erroneous refunds, see section 3746.

SEC. 3775. CREDITS AFTER PERIODS OF LIMITATION.

* * * * *

(b) *Period against taxpayer.* A credit of an overpayment in respect of any tax shall be void if a refund of such overpayment would be considered erroneous under section 3774.

SEC. 3746. SUITS AND RECOVERY OF ERRONEOUS REFUNDS.

(a) *Refunds after limitation period.* Any portion of an internal revenue tax (or any interest, penalty, additional amount, or addition to such tax), refund of which is erroneously made, within the meaning of section 3774, may be recovered by suit brought in the name of the United States, but only if such suit is begun within two years after the making of such refund.

* * * * *

(c) *Refund based on fraud or misrepresentation.* Despite the provisions of subsections (a) and (b) such suit may be brought at any time within five years from the making of the refund if it appears that any part of the refund was induced by fraud or the misrepresentation of a material fact.

* * * * *

§ 86.68 *Erroneous refunds and credits.* A refund is erroneous when made after the expiration of the period of limitation for filing a claim therefor, unless within such period a claim was filed. In the case where a claim was filed within the proper time and such claim was disallowed by the Commissioner and the period of limitation for filing suit by the donor had expired prior to the making of the refund, a refund is erroneous unless suit was begun by the donor within the period of limitation for filing suit, or unless within such period the donor and the Commissioner agreed in writing to suspend the running of the statute of limitations for filing suit from the date of the agreement to the date of the final decision of one or more named cases then pending before The Tax Court of the United States (formerly known as the Board of Tax Appeals) or the courts. Any erroneous refund may be recovered by suit brought in the name of the United States within two years after the refund was made. If it appears that any part of an erroneous refund was induced by fraud or the misrepresentation of a material fact, the entire amount of such refund may be recovered by suit brought in the name of the United States within five years after the refund was made.

Where a refund of an overpayment would be an erroneous refund under the preceding paragraph of this section, a credit of such overpayment allowed against any tax is void. A credit is also void if allowed against a liability the assessment and collection of which was barred by the expiration of the period of limitation properly applicable thereto.

SEC. 3760. CLOSING AGREEMENTS.

(a) *Authorization.* The Commissioner (or any officer or employee of the Bureau of Internal Revenue, including the field service, authorized in writing by the Commissioner) is authorized to enter into an agreement in writing with any person relating to the liability of such person (or of the person or estate for whom he acts) in respect of any internal revenue tax for any taxable period.

(b) *Finality.* If such agreement is approved by the Secretary, the Under Secretary, or an Assistant Secretary, within such time as may be stated in such agreement, or later agreed to, such agreement shall be final and conclusive, and, except upon a showing of fraud or malfeasance, or misrepresentation of a material fact—

(1) The case shall not be reopened as to the matters agreed upon or the agreement modified, by any officer, employee, or agent of the United States, and

(2) In any suit, action, or proceeding, such agreement, or any determination, assessment, collection, payment, abatement, refund, or credit made in accordance therewith, shall not be annulled, modified, set aside, or disregarded.

§ 86.69 *Closing agreements relating to tax liability in respect of internal revenue taxes.* Closing agreements provided for in section 3760 may relate to the total tax liability of the donor, or to one or more separate items affecting such liability. For example, an agreement may be entered into with respect to the total amount of gifts, to deductions, or to the value of property on the date of gift. Accordingly, there may be a series of agreements relating to the tax liability for a single taxable period. Any tax or deficiency in tax determined pursuant to such an agreement shall be assessed and collected, and any overpayment determined pursuant thereto shall be credited or refunded, in accordance with the applicable provisions of the statute. Such agreements are final and conclusive, except upon a showing of fraud or malfeasance, or misrepresentation of a material fact. (See also section 3762.)

SEC. 3467. REVISED STATUTES, AS AMENDED BY SECTION 518 OF THE REVENUE ACT OF 1934 (31 U. S. C. 192). LIABILITY OF FIDUCIARIES.

Every executor, administrator, or assignee, or other person, who pays, in whole or in part, any debt due by the person or estate for whom or for which he acts before he satisfies and pays the debts due to the United States from such person or estate, shall become answerable in his own person and estate to the extent of such payments for the debts so due to the United States, or for so much thereof as may remain due and unpaid.

§ 86.70 *Personal liability of fiduciaries.* Every executor, administrator, or assignee, or other person, who pays, in whole or in part, any debts due by a donor or a donor's estate for whom or for which he acts before he satisfies and pays the gift tax due to the United States from such donor, is, to the extent of such payments, personally liable for the payment of such tax.

SEC. 3614. EXAMINATION OF BOOKS AND WITNESSES.

(a) *To determine liability of the taxpayer.* The Commissioner, for the purpose of ascertaining the correctness of any return or for the purpose of making a return where none has been made, is authorized, by any officer or employee of the Bureau of Internal Revenue, including the field service, designated by him for that purpose, to examine any books, papers, records, or memoranda bearing upon the matters required to be included in the return, and may require the attendance of the person rendering the return or of any officer or employee of such person, or the attendance of any other person having knowledge in the premises, and may take his testimony with reference to the matter required by law to be included in such return, with power to administer oaths to such person or persons.

(b) *To determine liability of a transferee.* The Commissioner, for the purpose of determining the liability at law or in equity of a transferee of the property of any person with respect to any Federal taxes imposed upon such person, is hereby authorized, by any officer or employee of the Bureau of Internal Revenue, including the field service, designated by him for that purpose, to examine any books, papers, records, or memoranda bearing upon such liability, and may require the attendance of the transferor or transferee, or of any officer or employee of such person, or the attendance of any other person having knowledge in the premises, and may take his testimony with reference to the matter, with power to administer oaths to such person or persons.

SEC. 3633. JURISDICTION OF DISTRICT COURTS.

(a) *To enforce summons.* If any person is summoned under the internal revenue laws to appear, to testify, or to produce books, papers, or other data, the district court of the United States for the district in which such person resides shall have jurisdiction by appropriate process to compel such attendance, testimony, or production of books, papers, or other data.

* * * * *

SEC. 3800. JURISDICTION OF DISTRICT COURTS TO ISSUE ORDERS, PROCESSES, AND JUDGMENTS.

The district courts of the United States at the instance of the United States shall have such jurisdiction to make and issue, both in actions at law and suits in equity, writs and orders of injunction, and of ne exeat republica, orders appointing receivers, and such other orders and process, and to render such judgments and decrees, granting in proper cases both legal and equitable relief together, as may be necessary or appropriate for the enforcement of the internal revenue laws. The remedies hereby provided are in addition to and not exclusive of any and all other remedies of the United States in such courts or otherwise to enforce such laws.

SEC. 3632. AUTHORITY TO ADMINISTER OATHS, TAKE TESTIMONY, AND CERTIFY.

(a) *Internal Revenue personnel*—(1) *Persons in charge of administration of internal revenue laws generally.* Every collector, deputy collector, internal revenue agent, and internal revenue officer assigned to duty under an internal revenue agent, is authorized to administer oaths and take evidence touching any part of the administration of the internal revenue laws with which he is charged, or where such oaths and evidence are authorized by law or regulation authorized by law to be taken.

* * * * *

(b) *Others.* Any oath or affirmation required or authorized by any internal revenue law or by any regulations made under authority thereof may be administered by any person authorized to administer oaths for general purposes by the law of the United States, or of any State, Territory, or possession of the United States, or of the District of Columbia, wherein such oath or affirmation is administered, or by any consular officer of the United States. This subsection shall not be construed as an exclusive enumeration of the persons who may administer such oaths or affirmations.

§ 86.71 *Securing evidence; taking testimony.* In order to ascertain the correctness of a return or to determine the liability of a transferee of the property, the Commissioner has power to require the attendance and to take the testimony of the person rendering the return, any employee of such person, a transferee of the property, or any other person having knowledge in the premises. Such persons may be required to produce any relevant book, paper, or other record. This power may be exercised by any revenue agent or inspector designated for the purpose. For penalties, see § 86.56.

§ 86.72 *Power to compel compliance.* Where any person is summoned to appear and testify, or to produce books, papers, or other data, the district court of the United States for the district in which such person resides has power to compel the giving of testimony, the production of books, papers, or data, and to issue any appropriate process, writ, or order.

SEC. 1028. LAWS MADE APPLICABLE.

All administrative, special, or stamp provisions of law, including the law relating to the assessment of taxes, so far as applicable, are hereby extended to and made a part of this chapter.

§ 86.73 *Laws made applicable.* All administrative, special, or stamp provisions of law, including the law relating to the assessment of taxes, so far as applicable, are made a part of chapter 4 of the Internal Revenue Code imposing the gift tax for the calendar year 1940 and each calendar year thereafter. For provisions of law and regulations authorizing the postponement by reason of war of the performance of certain acts required or permitted under the gift tax law, see section 507 of the Revenue Act of 1942 and regulations pertaining thereto separately promulgated.

SEC. 1030. DEFINITIONS. [As originally enacted.]

For the purposes of this chapter—

(a) *Calendar year.* The term "calendar year" includes only the calendar year 1932 and succeeding calendar years, and, in the case of the calendar year 1932, includes only the portion of such year after June 6, 1932.

(b) *Property within the United States.* Stock in a domestic corporation owned and held by a nonresident shall be deemed property situated within the United States.

SEC. 458. DEFINITION OF PROPERTY IN UNITED STATES. [Revenue Act of 1942]

(a) *Technical amendment to definition.*—Section 1030 (b) is amended to read as follows:

(b) *Property within the United States.* Stock in a domestic corporation owned and held by a nonresident not a citizen of the United States shall be deemed property situated within the United States.

(b) *Effective date of amendment.*—The amendment made by this section shall be effective as of February 10, 1939.

§ 86.74 *Definitions*—(a) *Calendar year.* The term "calendar year" as used in the gift tax provisions of the Internal Revenue Code includes the portion of the calendar year 1932 after the date of the enactment of the Revenue Act of 1932, i. e., June 6, 1932, and succeeding calendar years.

(b) *Property within the United States.* Section 1030 provides that stock in a domestic corporation owned and held by a nonresident not a citizen of the United States shall be deemed property situated in the United States for the purposes of the gift tax provisions of the Internal Revenue Code. For regulations relating to situs of property generally, see § 86.18.

(c) *Other definitions.* For other definitions, see section 3797.

SEC. 1031. PUBLICITY OF RETURNS.

For provisions with respect to publicity of returns under this chapter, see subsection (a) (2) of section 55.

SEC. 1029. RULES AND REGULATIONS.

The Commissioner, with the approval of the Secretary, shall prescribe and publish all needful rules and regulations for the enforcement of this chapter.

SEC. 3791. RULES AND REGULATIONS.

(a) *Authorization*—(1) *In general.* The Commissioner, with the approval of the Secretary, shall prescribe and publish all needful rules and regulations for the enforcement of this title.

(2) *In case of change in law.* The Commissioner may make all such regulations, not otherwise provided for, as may have become necessary by reason of any alteration of law in relation to internal revenue.

(b) *Retroactivity of regulations or rulings.* The Secretary, or the Commissioner with the approval of the Secretary, may prescribe the extent, if any, to which any ruling, regulation, or Treasury Decision, relating to the internal revenue laws, shall be applied without retroactive effect.

SEC. 3802. SEPARABILITY CLAUSE.

If any provision of this title, or the application thereof to any person or circumstances, is held invalid, the remainder of the title, and the application of such provisions to other persons or circumstances, shall not be affected thereby.

§ 86.75 *Promulgation of regulations.* In pursuance of the Internal Revenue Code, the foregoing regulations are hereby made and promulgated.

[SEAL] NORMAN D. CANN,
Acting Commissioner of Internal Revenue.

Approved: July 30, 1943.

D. W. BELL,
Acting Secretary of the Treasury.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-2049]

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 4 for the establishment of price classifications and minimum prices for the coals of certain mines; for changes in shipping points of certain other mines and for other relief.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 4; for changes in shipping points of certain other mines in District No. 4; for correction of minimum prices of Long Hollow Coal Company, Mine Index No. 750, by showing the correct location of the mine as Hocking County rather than Athens County; and for correction of minimum prices of John W. Freetage, Mine Index No. 2060, and Dickerson & McCullough Coal Co. (Everett Dickerson), Mine Index No. 2059, by showing the correct location of said mines as being in Subdistrict No. 4, Middle, instead of Subdistrict No. 5; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 324.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 324.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division on or before August 7, 1943, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final on August 10, 1943, unless it shall otherwise be ordered.

The minimum prices proposed by petitioner for the coals of the Sidwell Bros. Mine, Mine Index No. 3160, for truck shipments do not appear to reflect the minimum price increases provided for by the order entered in General Docket No. 21 on August 28, 1942. Accordingly, the minimum prices established for these coals are 20 cents per net ton more than the minimum prices requested therefor in the respective size groups.

Dated: July 24, 1943.

[SEAL] DAN H. WHEELER,
Director.

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT NO. 7

MEMORANDUM OPINION AND ORDER ESTABLISHING MINIMUM PRICES

Memorandum opinion and order of the Director in the matter of the petition of District Board No. 7 for the establishment of minimum prices for river and ex-river shipments of the coals of Midvale No. 2 Mine (Mine Index No. 122) of Eastern Gas & Fuel Associates (Koppers Coal Division), a code member in District 7.

On August 26, 1942, after notice and hearing, Floyd McGown, a duly designated Examiner of the Bituminous Coal Division, submitted a report in which he found that: (1) minimum f. o. b. mine prices should be established for the high volatile coals in Size Groups 1 to 27, inclusive, produced by Eastern Gas & Fuel Associates (Koppers Coal Division) at its Midvale No. 2 Mine (Mine Index No. 122) in District 7, for shipment by Kanawha River to free alongside consumers at all destinations for all uses except for railway locomotive fuel, except that when floating equipment is loaded on the Kanawha River, at Cabin Creek Junction, West Virginia, Mine Index No. 122 may reduce said prices 25 cents per net ton; (2) the Special River Price Instructions and Exceptions for river (free alongside) and ex-river deliveries set forth on pages 37, 38, 40, 41 and 42, and amendments thereto, of the schedule of effective minimum prices for District No. 8 for all shipments except truck should be made applicable to the coals in question; (3) seasonal discounts for domestic coal should apply; (4) there should be added to the f. o. b. mine price for river (free alongside) not less than a reasonable charge for all transportation and handling to the point at which the purchaser takes possession of the coal, determined in the light of charges currently quoted or used by competing river transporters and others rendering similar services; and (5) for the determination of minimum f. o. b. mine prices for the coals produced at the Midvale No. 2 Mine for ex-river deliveries, the Special River Price Instructions and Exceptions shown on pages 37, 38, 40, 41, and 42 of the schedule of effective minimum prices for District No. 8 for all shipments except truck, and amendments thereto, should be made applicable. The Examiner recommended that an order be entered in conformity with the foregoing provisions.

An opportunity to file exceptions to the report of the Examiner was afforded all interested parties. As of the date hereof, no such exceptions have been filed.

I have considered the entire record in this proceeding and the report of the Examiner, and upon the basis thereof, I find that the report of the Examiner adequately and accurately reflects the law and the facts, as disclosed by the record. Accordingly, I have concluded to approve and adopt the proposed findings of fact and the proposed conclusions of law of the Examiner, as the findings of fact and conclusions of law of the Director.

Upon the entire record in this proceeding, upon the basis of the foregoing findings of fact and conclusions of law, and pursuant to section 4 II (d) and other provisions of the Bituminous Coal Act of 1937.

It is ordered, That the proposed findings of fact and the proposed conclusions of law of the Examiner be, and the same hereby are, approved and adopted as the findings of fact and conclusions of law of the Director; and

It is, further, ordered, That § 327.14 (*Special prices*) be, and the same hereby is, added to the schedule of effective minimum prices for District No. 7 for all shipments except truck in acordance with the minimum prices[1] for river (free alongside deliveries) and ex-river shipments and the provisions set forth, in detail, in Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.

Dated: July 23, 1943.

[SEAL] DAN H. WHEELER, *Director*.

SUPPLEMENT R

§ 327.14 *Special prices*—(a) *Prices for river (free alongside deliveries) and ex-river shipments*—(1) *Special river price instructions and exceptions*—(i) *Definitions of river (free alongside) deliveries.* "River (free alongside) deliveries", as used in this schedule, means:

(a) Deliveries in barges or other floating equipment alongside river docks or other barge unloading facilities to purchasers for consumption in their plants which adjoin such docks or other barge unloading facilities;

(b) Deliveries in barges or other floating equipment to purchasers for consumption on floating equipment operated by them;

(c) Deliveries in barges or other floating equipment alongside river docks or other barge unloading facilities to those retail dealers (not located in the Cincinnati, Louisville, Memphis, Chicago or Minneapolis-St. Paul areas as herein defined), for resale at retail, who operate such river docks or other barge unloading facilities and whose yard and storage facilities (in which the coal purchased free alongside is stored, when it is stored) adjoin such river docks or other barge unloading facilities; and

(d) Deliveries to any person at the mine or at a point nearer the mine than the river docks or other barge unloading facilities for transportation in barges or other floating equipment to a purchaser who takes free alongside delivery, within the meaning of Item (1) (*a*) or Item (1) (*c*) above.

(ii) *Definition of ex-river deliveries.* "Ex-river deliveries", as used in this schedule, means deliveries involving river transportation other than those defined in Item (1), above.

(iii) *Special cases.* (*a*) Any code member or Consumers Counsel Division, on behalf of any consumer or retail dealer (which consumer or retail dealer falls within the definition of a purchaser of ex-river coal, as defined in Item 2 above, but who (*a*) in the past customarily purchased coal moving by river at such prices and under such conditions that the coal moving by river was not competitive with coal of comparable quality moving by rail, truck or ex-lake dock, or (*b*) in the past regularly purchased coal moving by river at a savings over available prices for comparable coal moving by rail, truck or ex-lake dock) may file a petition requesting that such consumer or retail dealer be enabled to purchase at the minimum f. o. b. mine prices for free alongside delivery; and the Division shall, after hearing and upon satisfactory showing, authorize the sale of river coal to such purchaser by one or more code members at minimum f. o. b. mine prices for free alongside delivery, subject to such conditions as may be necessary to accomplish the objectives of the Act and to maintain the prescribed minimum prices. Any such petition filed by a code member or Consumers Counsel Division, as herein provided, and the procedure subsequent thereto shall be governed by the rules and regulations governing the procedure in respect to applications under section 4 II (d) of the Bituminous Coal Act of 1937.

Similarly, any code member or Consumers Counsel Division may file a petition requesting appropriate relief on behalf of any consumer or retail dealer, who in the absence of established minimum f. o. b. mine prices and by virtue of some future development, would have customarily purchased coal moving by river at such prices and under such conditions that the coal moving by river would not be competitive with coal of comparable quality moving by rail, truck or ex-lake dock, or would have regularly purchased coal moving by river at savings over available prices of comparable coal moving by rail, truck or ex-lake dock. Such future development may pertain to the location of the plant or facilities of the consumer or retail dealer, the cost of river transportation or other similar matters.

Any State or political subdivision of a State, which is a consumer of ex-river coal, may, on its own behalf, file petitions such as those which a code member or the Consumers Counsel Division may file, as above provided.

(*b*) Any code member may sell at the free alongside prices to the following consumers, subject to the limitations indicated:

(*1*) American Rolling Mill Company (for consumption at its plants located at Hamilton and Middletown, Ohio).

(*2*) Champion Paper & Fibre Company (for consumption at its plant located at Hamilton, Ohio).

(*3*) The City of Cincinnati, Ohio (for consumption within the city limits).

(*4*) The Board of Education of the City School District in the City of Cincinnati, Ohio (for consumption within the city limits).

(*5*) The Cincinnati Gas and Electric Co. (for consumption at its West End Station, located at Cincinnati, Ohio).

(*6*) The County of Hamilton, Ohio (for consumption at the County Home, the Court House, and the Tuberculosis Hospital).

(*7*) James Walsh and Company, Inc. (for consumption at its plant located at Lawrenceburg, Indiana).

(*8*) Key City Gas Company (for consumption at its plant located at Dubuque, Iowa).

(*9*) Lawrenceburg Roller Mills Company (for consumption at its plant located at Lawrenceburg, Indiana).

(*10*) The Northern States Power Company (for consumption at its Riverside Station Plant at Minneapolis, Minnesota, and its High Bridge Station Plant at St. Paul, Minnesota, limited to coals in Size Groups Nos. 20, 21, and 22).

(*11*) Old Quaker Company (for consumption at its plant located at Lawrenceburg, Indiana).

(*12*) Procter and Gamble Company (for consumption at its Ivorydale and St. Bernard plants located at St. Bernard, Ohio, provided that such coal is delivered in not less than barge load lots).

(*13*) Joseph E. Seagram and Sons, Inc. (for consumption at its plant located at Lawrenceburg, Indiana).

[1] The foregoing prices shall include the general increase in prices granted by Order of the Director in General Docket No. 21, dated August 28, 1942.

(2) *Price tables.*

Market Areas 113, 117; 120 to 124, inclusive; 130, 132, 142, 143; 145 to 148, inclusive; and 150	Add 10¢.

(b) *Ex-river deliveries*—(1) *F. o. b. mine prices.* When coal is sold for ex-river delivery, whether the sale is made f. o. b. mine or f. o. b. destination or at some intermediate point, the minimum f. o. b. mine price of the size and quality of coal reloaded at the river terminals shall be such that the price at destination, including the rail, truck, river and other transportation and terminal and dock charges or expenses, shall be not less than the minimum all-rail price for the same size and quality of coal f. o. b. the originating mine for the destination Market Area plus the base freight origin group all-rail freight rate from District No. 7 to the same destination.

(2) *Delivery costs.* Producers or distributors shall promptly submit to the Coal Division such data and information as will establish that the coal sold ex-river was sold on a basis whereby it would be delivered at the destination at an amount not less than the sum of the f. o. b. mine price for the same size and quality of coal destined to the same Market Area and the base freight origin group all-rail freight rate from District No. 7 to the destination.

(3) *Seasonal discounts.* Seasonal discounts for domestic coal as provided in the price instructions and exceptions as shown for high volatile coals in section I of this schedule may be applied to prices for such coal for ex-river delivery.

(4) *Price exceptions for screenings.* The f. o. b. mine price for high volatile coal in Size Groups 18 to 22, inclusive, when destined to Market Areas 24, 25, 26, 28, 31 and that part of 23 located east of and including points on the N. Y. C. Railroad from Anderson to and including Alexandria and south of and including all destinations on the N. Y. C. & St. L. Railroad between and including Alexandria and Muncie and south of and including all destinations on the N. Y. C. Railroad between Muncie and Winchester, and that part of 27 lying south of and including the line of the N. Y. C. Railroad between Indianapolis and Anderson, may be adjusted so that such coal will deliver at 17¢ per net ton below the price for the same coal delivered via all-rail movement to the same destination.

(5) *Price exceptions for retail dealers*—(i) *F. o. b. mine prices.* All sizes to retail dealers having facilities, as described under Item 1 (c) of Special River Price Instructions, but who are located within the Cincinnati, Louisville, Memphis, Chicago or Minneapolis-St. Paul areas, as herein described, shall be made on the basis of an f. o. b. mine price, plus the all-rail or lake (as the case may be) freight rate to the destination, the same as herein described for ex-river movement, except that not more than the following deductions in cents per net ton may be made from the f. o. b. mine price in order that such coal may deliver in barges alongside such retail dealers' barge unloading facilities at delivered prices less than the all-rail or lake delivered price by the amount of these deductions:

	Cents
Size Groups 1 to 15, inclusive, 24, 25, 26	Deduct 60
Size Groups 16 to 23, inclusive, 27	Deduct 20

No deductions are applicable to the Chicago area (see base freight rates to the Chicago area following).

(ii) *Base freight rates.* In determining the base delivered price from which these deductions may be made, the published freight rates from the following Freight Origin Groups shall be used:

Cincinnati Area: Freight Origin Groups 61, 123, 150.

Louisville Area: Freight Origin Groups 80, 100.

Memphis Area: Freight Origin Groups 70, 71, 90.

Chicago Area: The rail freight rate from Freight Origin Groups 61, 123, 150 to Lake Erie ports plus the dumping charge plus the bulk vessel cargo rate of 55¢ to the Chicago Area. This results in the same delivered price for the same coal alongside such retail dealers' barge unloading facilities within the Chicago area, whether the coal is delivered alongside in river barges or in lake vessels.

Minneapolis-St. Paul Area: The rail freight rate from Freight Origin Groups 61, 123, 150 to Lake Erie ports plus the dumping charge plus the bulk vessel cargo rate of 45¢ to Duluth-Superior plus a dock handling charge of $1.00 on Lump and Double Screened coal and 50¢ on other than Lump and Double Screened coal plus the rail freight rate from Duluth-Superior to the destination.

(iii) *Description of retail dealers areas.* The following are descriptions of the areas to which prices for retail dealers, as referred to in Ex-River Deliveries, Item 5, are applicable:

Cincinnati area. Both banks of the Ohio River from a point at and on the opposite bank of the River from Silver Grove, Kentucky, downstream to and including a point at and on the opposite bank of the River from Columbia Park, Ohio.

Both banks of the Licking River from a point at and on the opposite bank of the River from DeCoursey, Kentucky, downstream to the confluence of the Licking and Ohio Rivers.

Louisville area. Both banks of the Ohio River from a point at and on the opposite bank of the River from Utica, Indiana, downstream to and including a point at and on the opposite bank of the River from Locust Point, Indiana.

Memphis area. Both banks of the Mississippi River from a point 10 miles upstream from the northerly limits of the City of Memphis on the water front to a point 10 miles downstream from the southerly limits of the City of Memphis on the water front, including a similar distance on the opposite bank of the River.

Both banks of the Wolf River from the head of navigation, downstream to its confluence with the Mississippi River.

Chicago area. Both banks of the Des Plaines River and the Chicago Sanitary and Ship Canal from a point at and on the opposite side of the Canal and River from Lockport, Illinois, upstream to and including all navigable points connected with the Chicago Sanitary and Ship Canal within Cook and Will Counties, Illinois and Lake County, Indiana including the Lake Michigan harbor.

Minneapolis-St. Paul area. Both banks of the Mississippi River from a point at the confluence of the St. Croix and Mississippi Rivers and on the opposite bank of the Mississippi River from this point upstream to a point at and on the opposite bank of the River from Anoka, Minnesota.

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT NO. 7

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 7 for the establishment of price classifications and minimum prices for coals produced from certain mines in District No. 7.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals produced from certain mines in District No. 7.

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 327.11 (*Low volatile coals: Alphabetical list of code members*) is amended by adding thereto Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division on or before August 7, 1943, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final on August 10, 1943, unless it shall otherwise be ordered.

Dated: July 24, 1943.

PART 329—MINIMUM PRICE SCHEDULE, DISTRICT NO. 9

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 9 for the establishment of price classifications and minimum prices and for other relief for the coals in certain mines.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been filed with this Division by the above-named party requesting the establishment, both temporary and permanent, of price classifications and minimum prices; for change in shipping point for the coals of Mine Index No. 212; and also requesting changes, both temporary and permanent, in price classifications and minimum prices heretofore established for Mine Index Nos. 922 and 682; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and no petitions of intervention having been filed with the Division in the above-entitled matter, and the following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 329.5 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 329.24 (*General prices in cents per net ton for shipment into any market area*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division on or before August 7, 1943, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final on August 10, 1943, unless it shall otherwise be ordered.

No relief is granted herein as to that part of the petition requesting changes in price classifications and minimum prices for the coal produced by Alvey's No. 2 Mine, Mine Index No. 922, of Alvey Brothers (Bernard Alvey) and S. S. Wathen Mine, Mine Index No. 682, of Wathen-Deanfield Coal Co. (S. S. Wathen) for the reasons that a hearing would be necessary and that insufficient time remains prior to August 24, 1943, when the Bituminous Coal Act of 1937 will cease to be in effect to finally determine this question.

No relief is granted herein for the coals of Johnson Mine, Mine Index No. 1094 of Will Johnson, for the reasons that no prices were proposed for this mine in petitioner's Exhibit A.

No relief is granted herein for the coals of the Daniel Boone No. 2 Mine, of Sterling Mining Company, for the reason that the Code Membership Acceptance submitted with respect to this mine has not been approved by the Division.

Dated: July 24, 1943.

PART 334—MINIMUM PRICE SCHEDULE, DISTRICT NO. 14

[Docket No. A-1859]

MEMORANDUM OPINION AND ORDER

Memorandum opinion and order of the Director in the matter of the petition of District Board 14 for revision of the effective price classifications and minimum prices for the coals produced at certain mines in Production Group No. 5, in District No. 14, pursuant to Section 4 II (d) of the Bituminous Coal Act of 1937.

This proceeding was instituted upon a petition filed with the Bituminous Coal Division on March 18, 1942, by District Board 14, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests the revision of the effective price classifications and minimum prices for the coals produced at the following six[1] mines, all located in Sebastian County, Arkansas, in Production Group 5 of District 14:[2]

Mine index No.	Mine name	Code member
2	Watson Excelsior	Barr Excelsior Coal Co. (herein referred to as Barr).
14	Boyd No. 3	Boyd-Sicard Coal Co. (herein referred to as Boyd).
34	Barr	Excelsior Thin Vein Coal Co., Inc. (herein referred to as Excelsior).
176	Peerless No. 2	Peerless Coal Co. (herein referred to as Peerless).
195	Gary	Harper, W. T. (Harper-Excelsior Coal Co.) (herein referred to as Harper).
511	Paris Purity No. 6	Paris Purity Coal Co. (herein referred to as Paris Purity)

All of these mines except the Paris Purity mine hereinafter sometimes will be referred to collectively as the Group 1 mines.

Motions of intervention and protest were filed by all operators whose mines were involved in the petition. The Bituminous Coal Consumers' Counsel filed a notice of appearance and brief. After due notice, a hearing was held in this matter, commencing April 21, 1942, before Examiner Scott A. Dahlquist, in Fort Smith, Arkansas, at which the above-named intervenors appeared. Thereafter, D. C. McCurtain was designated as Examiner vice Dahlquist.

On April 7, 1943, the Examiner filed his Report in this proceeding. He recommended the following revisions of classifications and prices:

1. FOR THE COALS PRODUCED AT THE MINES OF BARR, BOYD, EXCELSIOR, AND PEERLESS

Size groups	4	6	7	8	9	18
Rail	D	E	E	E	E	J
Truck	4.75	4.75	4.75	4.75	4.50	3.75

2. FOR THE COALS PRODUCED AT THE MINE OF HARPER

Size groups	4	6	7	8	9	10	11	13	17	18
Rail	D	E	E	E	E	G	F	D	A	J
Truck	4.75	4.75	4.75	4.75	4.50	4.00	3.85	2.30	2.15	3.75

3. FOR THE COALS PRODUCED AT THE MINE OF PARIS PURITY

Size groups	4	6	7	8	9	10	11	13	17	18
Rail	G	H	H	H	H	G	F	D	A	N
Truck	4.55	4.55	4.55	4.55	4.30	4.00	3.85	2.30	2.15	3.55

These changes are identical with those requested in the petition, as amended at the hearing, except that the recommended minimum prices for Paris Purity mine coals in Size Group 18 are 10 cents per ton lower, and except that the changes reflect the increases effected by the Order of August 28, 1942 in General Docket No. 21. The Examiner found that these changes were justified in order to effect the proper coordination between the prices of the coals of the various competing code members. In arriving at this conclusion, he took into consideration not only the evidence concerning mine conditions, operating and preparation methods, analyses, appearance, production, and market history, but also that concerning the size stability, friability, and slack content of the coals, including the results of drop shatter tests.

Paris Purity filed exceptions to the Report of the Examiner but no exceptions have been filed by the operators of the Group 1 mines. By letter, the operators of the Group 1 mines have requested disposition of the petition on the merits in so far as the relief recommended by the Examiner is applicable to the coals produced at their mines. Paris Purity, on the other hand, has indicated by letter that it would not object to the issuance of such an order, nor to dismissal of the entire proceeding, but it does object to a revision of prices for coals produced at its mine without affording it an opportunity to present oral argument to the Director, its application for oral argument having been previously granted.

Although a motion for severance of that portion of the docket relating to price changes for coals produced at the Group 1 mines was denied by me July 6, 1943, the case has assumed a new complexion by reason of the fact that it now appears that the Bituminous Coal Act of 1937 will expire (save as provided in section 19 of the Act) August 24, 1943.

Examination of the entire record in this proceeding leads me to believe that the Report of the Examiner, in so far as it relates to prices for coals produced by the Group 1 mines, adequately and accurately reflects the evidence. To this extent, I believe that the proposed findings of fact and proposed conclusions of law of the Examiner should be adopted as the findings of fact and conclusions of law of the Director.

On the other hand, Paris Purity has vigorously attacked the conclusions and recommendations of the Examiner with respect to prices the Examiner found to be appropriate for the coals produced at Mine Index No. 511 of Paris Purity. It has filed voluminous exceptions which raise varied and complex questions of law and fact. Normally, oral argument would be heard and the entire proceeding decided at one time. In view of the approaching elapse of the statute, however, it is hardly feasible to schedule oral argument, permit the filing of appropriate briefs, and finally determine the issues raised by Paris Purity. Moreover, any order which might be entered would become inoperative after the Act expires. For these reasons it seems advisable to dismiss the petition in so far as it relates to Paris Purity Coal Company, effective midnight, August 23, 1943. This appears to be satisfactory to Paris Purity as well as the other group of mines involved, and will prejudice neither.

It is therefore ordered, That the proposed findings of fact and conclusions of law of the Examiner are approved and adopted as the findings of fact and conclusions of law of the Director in so far as they relate to the coals produced at Mine Index Nos. 2, 14, 34, 176, and 195.

It is further ordered, That § 334.5 (*Alphabetical list of code members*) and § 334.24 (*General prices for shipment into all market areas*) in the Schedule of Effective Minimum Prices for District No. 14 for All Shipments Except Truck and the Schedule of Effective Minimum Prices for District Nc. 14 for Truck Shipments are amended, effective fifteen (15) days from the date hereof, by establishing in lieu of the present price classifications and minimum prices for the coals of Mine Index Nos. 2, 14, 34, 176, and 195, in certain size groups, those set forth in Supplement R and Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That the petition is dismissed effective midnight August 23, 1943, in so far as it relates to revisions of the classifications and minimum prices of the coals produced at Mine Index No. 511 of the Paris Purity Coal Company.

Date: July 24, 1943.

[SEAL] DAN H. WHEELER,
Director.

[1] The petition was amended at the hearing, on motion of petitioner, by eliminating the request for revision of the price classifications and minimum prices of the coals of a seventh mine, Mine Index No. 553 (Lewis Excelsior Mine) of the Lewis Excelsior Coal Company (T. E. Lewis).

[2] Mine names and code member names listed here vary, in several cases, from those listed in the petition. The designations listed conform with the current official records of the Division.

AUTHORITY: Regulations in this subchapter issued under P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176.

PART 962—IRON AND STEEL

[Supplementary Order M-21-h as Amended August 4, 1943]

TOOL STEEL

§ 962.9 *Supplementary Order M-21-h*—(a) *Definitions.* For the purpose of this order:

(1) "Tool steel" means any steel to be used for the manufacture of tools for use in mechanical fixtures for cutting, shaping, forming, and blanking of material, either hot or cold, or for precision gauges. It is not deemed to include steel for use as shanks in the manufacture of tipped or welded tools or for hand tools such as chisels, pliers, screw drivers, wrenches, centering punches and nail-sets.

(2) "Alloy steel" means alloy steel as defined in paragraph (a) of Supplementary Order M-21-a.

(3) "High-speed steel" means alloy tool steel of either of the following classes:

(i) "Class A high-speed steel" means either alloy steel containing not less than .60% carbon and more than 3.0% molybdenum; or alloy steel containing not less than .60% carbon, 6.0% or less tungsten, and more than 3.0% molybdenum.

(ii) "Class B high-speed steel" means alloy steel containing not less than .55% carbon and more than 12.0% tungsten.

Other alloying elements may be present in the high-speed steels of either class, but steel not containing the elements named, in the amount specified, shall not be deemed high-speed steel.

(4) "Producer" means any person who melts tool steel.

(b) *Purchasers' statements.* In addition to any statement required by General Preference Order M-21, on and after May 1, 1943, every order placed with a producer for steel to be used for the manufacture of tools for use in mechanical fixtures for cutting, shaping, forming or blanking of material, either hot or cold, or for precision gauges, shall include the statement, "This is an order for 'tool steel' ", over the signature, either manual or as provided in Priorities Regulation No. 7, of a duly authorized official of the purchaser, which will constitute a representation to the producer and to the War Production Board that the steel ordered will be used only for one or more of the above purposes.

(c) *Producers' forms.* Each producer shall file monthly with the War Production Board, Ref.: M-21-h, melting schedules on form PD-440. The War Production Board may make such changes in any melting schedule as shall seem appropriate and may from time to time issue supplementary directions with regard to melting of tool steel.

(d) *Melting and deliveries of tool steel.* Except pursuant to specific authorization in writing by the War Production Board, tool steel shall be melted and delivered as follows:

(1) Each producer shall melt tool steel in accordance and only in accordance with such melting schedules as are approved by the War Production Board or such supplementary directions as may from time to time be issued by the War Production Board.

(2) Each producer shall deliver tool steel on an order and only on an order for which the melting has been specifically authorized or directed by the War Production Board.

(e) *Special instructions.* The War Production Board may from time to time issue directions as to facilities to be used in production and directions specifying as to any alloying element the quantities and proportions which may be used in making tool steel, and whether and in what proportions any such element is to be the metal, a ferroalloy, reclaimed metal, scrap, a chemical compound or any other material containing such element.

(f) *Restrictions of deliveries under toll agreements.* Except pursuant to specific authorization in writing by the War Production Board, no person shall make or accept delivery under any toll agreement whereby one person melts tool steel for another person.

(g) *Melting and deliveries of high-speed steel.* Except pursuant to specific authorization in writing by the War Production Board

(1) No producer shall melt high-speed steel except within the limits below specified for the following elements:

(i) Class A high-speed steel:

Grade	C.	Cr.	W.	Mo.	V.	Co.
	Min.	Max.	Max.	Max.	Max.	
I	.60	4.5	6.0	5.0	1.6	0.0
Ic	.60	4.5	6.0	5.0	1.9	3.5 Min.
II	.60	4.5	1.8	8.75	1.2	0.0
IIc	.60	4.5	1.8	8.75	1.9	3.5 Min.
III	.60	4.5	------	8.75	1.9	0.0
IIIc	.60	4.5	------	8.75	1.9	3.5 Min.

(ii) Class B high-speed steel:

Grade	C.	Cr.	W.	Mo.	V.	Co.
	Min.	Max.	Max.		Max.	
IV	.55	4.5	19.0	0.0	1.10	0.0
IVc	.55	4.5	22.0	1.1 Max.	1.90	3.5 Min.

(2) No producer shall melt in any calendar quarter, Class B high-speed steel which will exceed, in the aggregate, by weight, 35% of the total high-speed steel melted by him in such quarter.

(3) No person shall place an order with a producer or any other person for Class B high-speed steel if Class A high-speed steel would reasonably fulfill his requirements.

(4) No person shall place with a producer, and no producer shall accept, in any calendar quarter orders for Class B high-speed steel which will exceed, in the aggregate, by weight, 35% of the total high-speed steel ordered by such person from such producer during such quarter. This provision does not apply to the placement of orders for high-speed steel with warehouses.

(5) No person shall accept from producers in any calendar quarter, deliveries of Class B high-speed steel which will exceed in the aggregate, by weight, 35% of the total deliveries of all high-speed steel made to him by all producers during such quarter. This provision does not apply to deliveries of high-speed steel by warehouses.

(6) Customers' orders for high-speed steel which are to be filled in whole or in part by the use of material, including ore, ferro alloys, and alloy-bearing scrap, furnished by such customers shall be subject to all the restrictions and provisions of this order.

(7) The foregoing provisions of this paragraph (g) do not authorize the purchase or acquisition of Class A high-speed steel for the purpose of obtaining complementary quantities of Class B high-speed steel when the Class A high-speed steel being purchased or acquired will not be put into productive use within the time limits allowable by applicable War Production Board inventory regulations.

(h) *Exceptions to restrictions on deliveries of high-speed steel.* The provisions of paragraphs (g) (4) and (5) with respect to maximum permitted purchases and deliveries of Class B high-speed steel shall not apply to:

(1) Deliveries of high-speed steel to any person whose total receipts of high-speed steel from all producers does not exceed 100 lbs. per calendar quarter.

(2) Deliveries of high-speed steel to any person whose total receipts of high-speed steel from any producer in any calendar quarter balance within 5%, by weight, or 500 lbs., whichever is the lesser, of the permissive ratio of Class B high-speed steel to total high-speed steel.

(i) *Melting and deliveries of Class A high-speed steel.* Except pursuant to specific authorization in writing by the War Production Board:

(1) On and after December 1, 1942, no producer shall melt during any calendar month Class A high-speed steel, grades II and III, in excess of 30% of the monthly average tonnage of such Class A high-speed steel melted by him during the second calendar quarter of 1942.

(2) On and after January 1, 1943, no person shall accept for delivery from a producer during any calendar quarter Class A high-speed steel, grades II and III, in excess of 35% of the amount of such Class A high-speed steel received by him during the second calendar quarter of 1942.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) *Appeal.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(l) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Steel Division, Washington 25, D. C.; Ref.: M-21-h.

Issued this 4th day of August 1943.

PART 962—IRON AND STEEL

[Direction 1 to Supplementary Order M-21-h]

USE OF VANADIUM IN MELTING ALLOY TOOL STEELS

The following Direction 1 is issued pursuant to Supplementary Order M-21-h.

Except pursuant to specific authorization or direction of the War Production Board, no producer shall use vanadium in the melting of alloy tool steel except within the limits below specified:

Grades I-IVc, High speed steel: In accordance with paragraph (g) of Order M-21-h.

Grade V, Hot work steels:

C	Mn	Si	Cr	W	Mo	V
.25/.55	.15/.45	.15/.45	3.50/4.50	16.00/18.00		.30/.40
.25/.55	.15/.45	.15/.45	2.50/4.50	13.00/15.00		.30/.40
.25/.55	.15/.45	.15/.45	2.50/4.50	10.00/12.00		.30/.40
.25/.55	.15/.45	.15/.45	2.50/4.50	7.50/9.50		.30/.40
.30/.45	.20/.75	.80/1.35	4.50/6.00		1.00/1.50	.30/.40

Grade VI, High chrome die steels; No vanadium permissible.

Grade VII, All other alloy tool steels:

1.00/1.30	.15/.40	.10/.45	.25/.80	1.00/1.50	/.30 max.	.15/.25
.60/1.35	.10/.45	.10/.45				.15/.25
.45/.70	.30/1.20	.70/2.25	/.50 max.		/.50 max.	.15/.25
.40/1.00	.20/.90	.15/.55	.60/1.10			.15/.25

Issued this 4th day of August 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–395]

BECK ENGINEERING COMBUSTION KOMPANY

Vernon S. Beck is engaged in business as a manufacturer and fabricator of furnaces under the firm name of Beck Engineering Combustion Kompany, 3033 Spruce Street, St. Louis, Mo. During the fourth quarter of 1942 he extended ratings to obtain deliveries and accepted deliveries of over 40 tons of carbon steel in excess of quantities authorized on his PD–25–A certificate. This was in violation of Priorities Regulation No. 11. In January and February, 1943, he put into production and completed six furnaces without having obtained approval from the War Production Board in violation of Limitation Order L–22–A. Vernon S. Beck had knowledge of Priorities Regulation No. 11 and of Limitation Order L–22–A and the aforesaid violations were wilful.

These violations of Limitation Order L–22–A and of Priorities Regulation No. 11 have hampered and impeded the war effort of the United States. In view of the foregoing: *It is hereby ordered*, That:

§ 1010.395 *Suspension order No. S–395.* (a) Deliveries of material to Vernon S. Beck, individually, or doing business as Beck Engineering Combustion Kompany, or otherwise, his or its successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation or allotment shall be made to Vernon S. Beck, individually, or doing business as Beck Engineering Combustion Kompany, or otherwise, his or its successors or assigns, of any material or product, the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall prevent deliveries of materials made pursuant to allotment or preference rating assigned by CMPL–150 issued May 20, 1943 and CMPL–200 issued June 4, 1943.

(d) Nothing contained in this order shall be deemed to relieve Vernon S. Beck, individually, or doing business as Beck Engineering Company, or otherwise, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions of this order.

(e) This order shall take effect on August 4, 1943, and shall expire on September 30, 1943.

Issued this 4th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1227—AROMATIC PETROLEUM SOLVENTS

[Allocation Order M–150 as Amended August 4, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of aromatic petroleum solvents for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1227.1 *Allocation Order M–150*—(a) *Definitions.* For the purposes of this order:

(1) "Aromatic petroleum solvents" means solvents or naphthas of petroleum origin, other than benzol and toluol, containing more than 30% by volume of aromatic hydrocarbons as determined by the analytical procedure described as "Proximate Analysis of Hydrocarbon Thinners" published in the Scientific Section Circular No. 568 of the National Paint, Varnish and Lacquer Association, November, 1938, pages 381–388, and having A. S. T. M. 50% distillation point lower than 330° F.

Such term also includes all grades of xylol, regardless of whether derived from petroleum, coal tar or other sources, and includes high-flash naphtha as defined in the next paragraph.

(2) "High-flash naphtha" means water white coal tar solvent naphtha, refined from coke oven light oil, coal tar distillate, drip oils or holder oils.

(3) "Producer" means any person engaged in the production of aromatic petroleum solvents and includes any person who has such materials produced for him pursuant to toll agreement.

(4) "Distributor" means any person who purchases or has purchased aromatic petroleum solvents for resale, excluding, however, any person who sells aromatic petroleum solvents only in containers of capacities of sixty (60) gallons or less.

(b) *Restrictions on use and delivery of aromatic petroleum solvents.* (1) No producer or distributor shall deliver aromatic petroleum solvents other than high-flash naphtha at any time, or high-flash naphtha on and after September 1, 1943, and no person shall accept such delivery, except as specifically authorized in writing by the War Production Board upon application pursuant to paragraph (f).

(2) No person, including a producer or distributor, shall use aromatic petroleum solvents other than high-flash naphtha at any time or high-flash naphtha on and after September 1, 1943, except as specifically authorized in writing by the War Production Board upon application pursuant to paragraph (f).

(3) Each person accepting delivery of any aromatic petroleum solvent pursuant to specific authorization of the War Production Board shall use such aromatic petroleum solvent only for the purposes specified in such authorization.

(4) Each person affected by this order shall comply with such directions as may be given from time to time by the War Production Board, with respect to the use or delivery by such person of any aromatic petroleum solvent.

(c) *Small order exemptions.* Notwithstanding the provisions of paragraphs (b) (1) and (2):

(1) Any person may, without specific authorization, accept delivery from all suppliers, and use for any purpose, 60 gallons or less of aromatic petroleum solvents in any calendar month.

(2) Any person may, without specific authorization, accept delivery of 550 gallons or less of aromatic petroleum solvents other than high-flash naphtha, including quantities received pursuant to paragraph (c) (1) above, from all suppliers during any calendar month, and may use these solvents only as follows:

(i) Toluene range aromatic petroleum solvents only for barrage balloon cloth treatment, aircraft finishes, synthetic rubber manufacture and processing, or impregnation of wire and cable coatings.

(ii) Aromatic petroleum solvents other than toluene range solvents only for the uses listed in Schedule A annexed hereto.

(3) Authorization by the War Production Board is required for any producer or distributor to make such small order deliveries, upon application pursuant to paragraph (f) requesting an aggregate quantity of aromatic petroleum solvents for small orders.

(d) *Special exemption.* The restrictions provided for in paragraph (b) (1) hereof shall not apply to, and the specific authorization provided for in paragraph (b) (2) hereof, shall not be required with respect to, delivery to, or acceptance of delivery or use by, any person of any intermediate fraction for the manufacture of any aromatic petroleum solvents.

(e) *Production of aromatic petroleum solvents.* Each producer shall comply with such directions as may be given from time to time by the War Production Board with respect to the production of any aromatic petroleum solvent.

(f) *Applications and reports.* (1) The following instructions for filling out Forms WPB 2945 (formerly PD–600) and WPB 2946 (formerly PD–601) are intended to clarify but not to alter the practice previously followed in allocations under this order.

(2) Each person seeking authorization to use or accept delivery of aromatic petroleum solvents shall file application on Form WPB 2945 (formerly PD–600) in the manner prescribed therein, subject to the following instructions for the purpose of this order:

Form WPB 2945. Copies of Form WPB 2945 (formerly PD–600) may be obtained at local field offices of the War Production Board.

Time. Applications shall be made in time to ensure that copies will have reached the supplier and the War Production Board on or before the 10th day of the month preceding the month for which authorization to use or accept delivery is requested, if the supplier is a producer, on or before the 5th day if the supplier is a distributor.

Number of copies. Five copies shall be prepared, of which one shall be retained by the applicant, one (with Tables II, III and IV left blank) shall be forwarded to the supplier, and three completely filled out certified copies shall be forwarded to the War Production Board, Chemicals Division, Washington, D. C., Reference M–150.

Number of sets. A separate set of WPB 2945 (formerly PD–600) application blanks shall be submitted for each supplier, and for each plant of the applicant.

Heading. Under name of chemical specify aromatic petroleum solvents; under War Production Board order number, specify M–150; under unit of measure, specify gallons; and otherwise fill in as indicated.

Table I. Specify in the heading the month and year for which authorization for acceptance of delivery or use is requested.

Column 1. Specify trade name and number or letter, except in the case of xylol, in which case specify "xyol" and the degrees of range or other common identification.

Column 2. Specify gallons of aromatic petroleum solvents requested for each primary product and product use specified in Columns 3 and 4.

Column 3. Fill in as follows:

Paint, varnish, lacquer.
Flameproof composition.
Natural and synthetic rubber solution.
General solvents.
Dyestuffs.
Intermediates.
Other organic chemical.
Other (specify).
Resale (in original form).
Export (in original form).
Inventory (in original form).

Column 4. Opposite each primary product listed in Column 3, specify in Column 4 the product end use and governing military or Lend-Lease contract or specification number, if any. In describing end use the applicant may be guided by end use lists issued by the Chemicals Division for the guidance of protective coating manufacturers.

Opposite "Resale" or "Inventory" in Column 3, write in Column 4 "subject to further authorization", or specify "deliveries exclusively in containers of 60 gallons or less".

Opposite "Export" in Column 3, specify in Column 4 the name of the individual company or governmental agency to whom or for whose account the solvents will be exported, the country of destination and governing export license or contract numbers, unless Lend-Lease, in which case merely specify the Lend-Lease contract or serial number.

Columns 9 and 10. Leave blank, except for remarks, if any, in Column 10.

Table II. Fill in as indicated for each grade or solvent listed in Column 1 of the application.

Table III. Fill in as indicated.

Table IV. Leave blank.

(3) Each producer and distributor shall apply for authorization to make deliveries of aromatic petroleum solvents on Form WPB 2946 (formerly PD–601) in the manner prescribed therein, subject to the following instructions for the purpose of this order:

Form WPB 2946. Copies of Form WPB 2946 (formerly PD–601) may be obtained at local field offices of the War Production Board.

Time. Application shall be made in time to ensure that copies will have reached the War Production Board on or before the 15th day of the month preceding the month for which authorization to make delivery is sought.

Number of copies. Four copies shall be prepared, of which one shall be retained by the applicant and three certified copies shall be forwarded to the War Production Board, Washington, D. C., Reference M–150.

Number of sets. A separate set of forms shall be filed for each plant or distribution point.

A separate set of forms shall be submitted for each type of solvent.

Heading. Under name of chemical, specify type of aromatic petroleum solvent; under War Production Board order number, specify M–150; specify allocation month; under unit of measure, specify gallons; and otherwise fill in as indicated.

Columns 1, 2, 3, 4 and 5. Fill in as indicated Each customer who has filed Form WPB 2945 (formerly PD–600) with the producer or distributor (including the producer himself if he consumes part of his own production) shall be listed in Column 1. Column 5 is optional. At the end of the list of customers, application may be made for aggregate small order deliveries pursuant to paragraph (c) (4).

Columns 5a, 6 and 7. Leave blank, except for remarks, if any, in Column 7.

Rolling stock requirements. The columns relating to number of hopper cars and tank cars required may be left blank.

Table II. Fill in as indicated for each grade of solvent listed in Column 3, and leave Column 16 blank.

(4) The War Production Board may require any person affected by this order to file such other reports as may be prescribed, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942, and may issue special instructions to any such person with respect to filing Form WPB 2945 (formerly PD–600) and Form WPB 2946 (formerly PD–601). Form WPB 2945 and Form WPB 2946 have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(g) *Allocations for inventory.* Aromatic petroleum solvents allocated for inventory shall not be used for any purpose, except as specifically directed by the War Production Board or except to fill orders for authorized uses pending arrival of the solvent allocated to fill such orders. Upon arrival of such solvents, the allocated inventory shall be restored.

(h) *Notification of customers.* Each producer and distributor is requested to notify each of his regular customers as soon as possible of the requirements of this order as amended, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(i) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(2) *Intra-company deliveries.* The prohibitions and restrictions of this order with respect to deliveries of aromatic petroleum solvents, shall apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(3) *Violations.* Any person who wilfully violates any provisions of this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington, D. C., Reference: M–150.

Issued this 4th day of August 1943.

PART 3119—REAGENT CHEMICALS

[Supplementary Order P-135-a]

§ 3119.2 *Supplementary Order P-135-a*—(a) *What this order does.* This order provides a standard form of certification for laboratories ordering reagent chemicals for analysis, testing, control, educational or research purposes.

This order also provides that each laboratory shall be entitled to the full small order exemption of each WPB chemicals order.

(b) *Form of certification under small order exemptions.* Laboratories and laboratory suppliers ordering reagent chemicals under the small order exemption provided by any WPB chemicals order, may use this form of certification:

Pursuant to Order P-135-a, the undersigned represents to the seller and to the War Production Board that the reagent chemicals called for by this purchase order will be used, or resold for use, in a laboratory for one or more of the following purposes: Analysis, testing, control, educational or research. This purchase order is placed in accordance with the small order exemption(s) provided by the applicable WPB order(s).

(Name of purchaser)

By ---
(Signature and title of duly authorized official)

(c) *Form of end use certificate.* Laboratories and laboratory suppliers ordering reagent chemicals may use the following form of certificate in any case in which a WPB chemicals order requires a certificate of end use as a basis for allocation:

Pursuant to Order P-135-a, the undersigned represents to the seller and to the War Production Board that the reagent chemicals called for by this order will be used, or resold for use, in a laboratory for one or more of the following purposes: Analysis, testing, control, educational or research.

(Name of purchaser)

By ---
(Signature and title of duly authorized official)

Attention is drawn to the fact that the above end use certificate is the same as the small order certificate with the last sentence struck out.

(d) *Optional use of certificate.* The above standard certificate is optional. The certificate specified in the applicable WPB chemicals order may be used instead, and it is not necessary to use any certificate if the applicable WPB chemicals order does not require a certificate.

(e) *When the certificate may not be used.* The above certificate may not be used:

(1) In place of any certificate required to apply or extend preference ratings or allotment numbers or symbols.

(2) In place of a WPB-2945 (formerly PD-600) application form or any similar form.

(3) In any case where the applicable WPB order expressly prohibits use of the chemical except for one or more purposes which are specified in the WPB order, and where the WPB order requires that purchase orders carry a certificate specifying one of the permitted uses; for example, the Quinine Order, M-131.

(f) *Separate small order exemptions for laboratories.* Each laboratory shall be considered a separate person for the purpose of the small order exemption provisions of WPB chemicals orders, and therefore shall be entitled to the full exemption provided by each order.

(g) *Communications to the War Production Board.* All communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C., Ref: P-135-a.

Issued this 4th day of August 1943.

PART 3171—COMMERCIAL DISHWASHERS

[Limitation Order L-248 as Amended August 4, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron, steel and other metals for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3171.1 *General Limitation Order L-248*—(a) *Definitions.* For the purposes of this order:

(1) "Commercial dishwasher" means any mechanical device designed for washing dishes, cutlery, glassware or kitchen utensils in establishments where food is prepared for consumption or sale on the premises. The term does not include dishwashers designed for domestic use.

(2) "Ultimate consumer" means any person who uses a commercial dishwasher for washing dishes, cutlery, glassware and kitchen utensils.

(3) "New commercial dishwasher" means any commercial dishwasher which has never been used by an ultimate consumer.

(4) "Used commercial dishwasher" means any commercial dishwasher which has been used by an ultimate consumer.

(5) "Copper base alloy" means any alloy metal in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy. It shall include alloy metal produced from scrap.

(b) *Restrictions on manufacture.* No manufacturer of commercial dishwashers shall put into process in the manufacture of such dishwashers, including finished units and parts thereof, during any calendar quarter, a weight of metal in excess of six and one quarter percent (6¼%) of the weight of metal put into process in the manufacture of finished commercial dishwashers by him during the calendar year 1941 except that in addition to the quotas set forth in this paragraph any manufacturer may put any weight of metal into process in the manufacture of any such dishwashers for delivery to or for the account of the Army, the Navy, the Maritime Commission, or the War Shipping Administration of the United States.

(c) *Restrictions on delivery.* Regardless of the terms of any contract, sale, other commitment or any preference rating, no person shall make or accept physical delivery of any new or used commercial dishwashers except that:

(1) Any person may make or accept physical delivery of any such dishwasher on a specific contract or subcontract for delivery to or for the account of the Army, the Navy, the Maritime Commission, or the War Shipping Administration of the United States;

(2) Any person may make or accept physical delivery of any such dishwasher pursuant to specific authorization of the War Production Board on Form WPB-1529 (formerly PD-638A). Applications under this order and Order L-182 may be made on a single Form WPB-1529 (formerly PD-638A);

(3) Any manufacturer may make physical delivery of any such dishwasher to any dealer or distributor of such dishwashers, or to any ultimate consumer, from whom he has received a written order or contract which bears a certification substantially as follows signed by an authorized official, either manually or as provided in Priorities Regulation No. 7; and any such dealer, distributor or ultimate consumer may accept such delivery:

I certify that I have received specific authority from the War Production Board to accept delivery of the equipment listed hereon; that I have knowledge of and am in compliance with Limitation Orders L-182 and/or L-248; and, further, that authorization was received by me on the following Form(s) WPB-1529 (formerly PD-638A):

(List number or numbers)

Firm Name

Signature & Title of Officer

Such certification shall constitute a representation to the War Production Board, as well as to the manufacturer of the facts certified therein.

No manufacturer shall make delivery under this order who has reason to believe that the purchaser has furnished a false certification; and no person shall falsely furnish the certification specified above.

Any manufacturer may rely upon the facts furnished in the above mentioned certification and shall not be responsible for any action taken by him under this order in reliance upon inaccurate or untrue statements therein, unless he has reason to believe that such statements are inaccurate or untrue;

(4) Any ultimate consumer may make physical delivery of any such dishwasher to any manufacturer, dealer or distributor of such dishwashers; and such manufacturer, dealer, or distributor may accept such delivery;

(5) Any such dishwasher actually in transit on March 2, 1943, may be delivered to its immediate destination; and

(6) Any such dishwasher manufactured in accordance with an appeal granted prior to March 2, 1943, may be physically delivered to the person specified in the appeal, and such person may accept delivery of such dishwasher.

(d) *Delivery of repair and replacement parts.* Nothing in this order shall prevent the delivery of repair or replacement parts for commercial dishwashers.

(e) *Simplified practices.* No person shall manufacture, fabricate or assemble any commercial dishwasher designed for washing cutlery, glassware or kitchen utensils exclusively. No person shall manufacture, fabricate or assemble any other type of commercial dishwasher except in accordance with the specifications and practices given below in this paragraph. However, this paragraph does not revoke or modify the terms of any appeal granted under this order.

(1)

Minimum capacity (dishes per hour)	Maximum content exclusive of motor, switches and wiring (pounds)		Maximum motor size (h. p.)
	Iron and steel	Copper base alloy	
1,500	600	18	¾
3,500	900	22	2
5,000	1,150	35	3

NOTE: Center column heading of Table amended August 4, 1943.

(2) Body (hood and tanks) shall be manufactured of not heavier than 14 gauge black iron or 14 gauge galvanized iron.

(3) No thermostatic controls shall be used.

(4) Spray pipes, feed pipes, and other piping shall be galvanized iron.

(5) To the extent that copper base alloy castings are permitted by this order, the alloy shall be of a type and grade in the production of which the use of refined copper or refined tin is not necessary.

(6) No metal other than iron, steel or copper base alloy shall be used, except zinc for coating or spraying, and metal necessary for assembling or installing.

(f) *Exceptions from simplified practices.* None of the restrictions in paragraph (e) shall apply to commercial dishwashers manufactured to specifications of the Army, Navy, Maritime Commission or War Shipping Administration of the United States for use on ships.

(g) *Reports.* Every manufacturer, dealer and distributor of any commercial dishwasher shall execute and file with the War Production Board on or before the tenth day of each calendar quarter a report on Form WPB-1509 (formerly PD-638), which may be obtained from the nearest field office of the War Production Board. Reports under this order and order L-182 may be made on a single Form WPB-1509 (formerly PD-638).

(h) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of all the priorities regulations of the War Production Board, as amended from time to time.

(i) *Applicability of other orders.* Insofar as any other order issued, or to be issued hereafter, limits the production or delivery of commercial dishwashers to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter, in triplicate, referring to the particular provision appealed from and stating the grounds of the appeal.

(k) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the War Production Board, Plumbing and Heating Division, Washington (25), D. C., Ref: L-248.

(l) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing and using, materials under priority control and may be deprived of priorities assistance.

Issued this 4th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1

Paragraph (c) (1) of General Limitation Order L-248 (Commercial Dishwashers) reads as follows:

(1) Any person may make or accept physical delivery of any such dishwasher on a specific contract or subcontract for delivery to or for the account of the Army, the Navy, the Maritime Commission, or the War Shipping Administration of the United States;

Question has been raised as to whether purchase by the Army Pre-Flight Training Schools is within the exception stated in this subparagraph or whether such schools desiring to purchase this equipment must apply on Form WPB 1529, formerly Form PD-638A for authorization.

The exception referred to applies only to specific contracts or subcontracts for deliveries to or for the account of the agencies named. It does not include equipment which will be owned by the training schools and not by the Army, even though it is intended

that the equipment will for the present be used solely for the benefit of the personnel assigned to the school. Such a delivery is not made on a specific contract or subcontract for delivery to or for the account of the Army within the meaning of the provision quoted above. Accordingly, any training school desiring to purchase this equipment under these circumstances must apply on Form WPB 1529 formerly Form PD–638A for authorization. (Issued April 24, 1943.)

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[Amdt. 2 to CMP Reg. 1 as Amended May 28, 1943]

Section 3175.1 (t) (3) (iv) of CMP Regulation No. 1 is hereby amended to read as follows:

(iv) A delivery to fill a sample order. Delivery of a sample order must be supported by the purchaser's certificate that the material covered by the order will be used by him for testing purposes only in connection with war production. On orders for steel (except stainless steel, tool steel and steel castings), the purchaser must also certify that the total amount received and on order for delivery within any calendar quarter does not exceed 1000 pounds of any composition nor a total of 3000 pounds of all compositions. On orders for other controlled materials (including stainless steel, tool steel and steel castings) the aggregate amount of any item delivered by any producer to any one purchaser in any one month shall not exceed 1 percent of the minimum mill quantity prescribed with respect to such item in Schedule IV of this regulation.

Issued this 4th day of August 1943.

PART 3191—CIVILIAN AIRCRAFT

[Preference Rating Order P–47 as Amended August 4, 1943]

Limited Preference Rating Order P–47 is hereby amended to read as follows:

§ 3191.21 *General Preference Rating Order P–47*—(a) *Purpose and scope.* The purpose of this order is to provide persons operating civilian type aircraft with a uniform procedure for obtaining material for the operation of aircraft and aircraft facilities, both in the case of controlled materials obtained by use of allotment symbols under the Controlled Materials Plan, and in the case of materials or products, including components, obtained by preference ratings.

(b) *Definitions.* (1) "Aircraft facility" means any machinery, material, equipment, or structure, used in connection with the operation or shelter, or the maintenance or repair of aircraft.

(2) "Operator" means any individual, partnership, association, business trust, corporation, or any organized group of persons (whether incorporated or not), any air carrier holding a certificate of necessity from the Civil Aeronautics Board, any state or local governmental agency, any United States Governmental Agency, other than the Army or Navy of the United States, engaged in the operation of aircraft, or in the business of maintaining or repairing aircraft. Operator, as herein defined, may include foreign operators and domestic operators carrying on business outside of the United States.

(c) *Application for material.* Each operator may file Form WPB–1747 in accordance with the instructions accompanying the form, for the material, parts and products required for operation of aircraft and aircraft facilities. The War Production Board may approve the acquisition of materials, parts, and products, and will assign preference ratings for approved materials other than controlled materials, will authorize the use of the allotment symbol MRO (P–47) for approved controlled materials, and will assign a serial number on the form.

(d) *Restrictions on the acquisition of materials.* No operator may apply ratings or use any allotment symbol to acquire any material, parts or products in excess of the amounts approved, or at a time other than that specified in the approval.

(e) *Acquisition of materials.* Operators may obtain materials approved on Form WPB–1747 by placing on their purchase orders the following certification, (or the alternative form of certification provided in CMP Regulation No. 7) signed manually or as provided in Priorities Regulation No. 7:

MRO (P–47 Serial Number ——) [Insert Preference Rating]. The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35(A) of the United States Criminal Code, that the items covered by this order are within the amounts approved by the War Production Board under Preference Rating Order P–47, and are to be used for a purpose so approved.

Name_____
By_____
Authorized official.
Date_____

A purchase order bearing this certification shall be deemed an authorized controlled material order for the purpose of all CMP Regulations.

(f) *Penalties for misrepresentation.* (1) The placing of any order bearing a certification or symbol, as provided by this order, shall constitute a representation, subject to the criminal penalties of section 35(A) of the United States Criminal Code (18 U. S. C. 80), that the person placing the order is entitled, under the terms of this order, to use of the symbol or preference rating indicated thereon.

(g) *Inventory restrictions.* No person shall receive any delivery if acceptance thereof would increase his inventory above a practicable working minimum, as provided in § 944.14 of Priorities Regulation No. 1, or would exceed the inventory limitations prescribed for such person by CMP Regulation No. 2, or by any other applicable regulation or order of the War Production Board.

(h) *Applicability of other orders and regulations.* (1) Nothing in this order shall be construed to relieve any person from complying with any applicable regulation or order of the War Production Board (including orders in the "E", "L", and "M" series) or with any order of any other competent authority.

(2) No operator may acquire material by use of any preference rating or allotment symbol assigned by any order in the "P" series except this order, by CMP Regulation No. 5 or No. 5A, or on Form PD–408.

(i) *Records.* Each person acquiring materials, parts, or products, pursuant to this order, shall keep and preserve for a period of not less than two years accurate and complete records of all such supplies so acquired and used, which shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(j) *Communications.* All communications concerning this order should be addressed to: War Production Board, Washington 25, D. C., Ref. P–47.

Issued this 4th day of August 1943.

PART 3281—PULP AND PAPER [1]

[General Conservation Order M–241 as amended August 4, 1943]

PAPER AND PAPERBOARD

Section 3096.1 *General Conservation Order M–241,* as amended July 14, 1943, is hereby amended to read as follows:

§ 3281.63 [1] *General Conservation Order M–241*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Produce" includes all operations involved in the manufacture of paper or paperboard in primary roll or sheet form, and only includes secondary operations when such operations are performed by an integral part of the paper machine (Yankee, Harper, Fourdrinier, Cylinder, or Wet Machine).

(c) *Restrictions on production of paper and paperboard.* Unless specifically authorized by the War Production Board, no person shall produce paper or paperboard on any machine which did not produce paper or paperboard in the period May 1, 1943 to July 15, 1943, inclusive.

(d) *Reserve production.* Each manufacturer of paper or paperboard shall reserve in the production schedule of each of his mills for the month of August 1943, and for each calendar month thereafter, time and supplies sufficient to produce and deliver within such month, at the order of the War Production Board 2% of such mill's potential production for the current calendar quarter. In general this should amount to approximately 6% of each month's production. The War Production Board may on or before the 15th day of any month direct any manufacturer to employ such reserve to produce any kind of paper or paperboard usually produced at such mill, and in any quantity thereof, not to exceed in the aggregate for any one month 2% of such mill's potential production for the current quarter, and sell and deliver the same within the month to any person named by the War Production Board. The manufacturer may refuse so to produce and deliver only for the reasons specified for the refusal of rated orders in § 944.2 (b) Priorities Regulation No. 1. If the manufacturer does not on or before the 15th day of any month receive from the War Production Board directions as to the disposition of such reserve (or has received directions as to the disposition of a part but not of the remainder) he may employ the same (or such remainder) as he may desire, consistent with the other provisions of this order.

(e) *Restrictions on inventory.* Unless specifically authorized by the War Production Board or excepted by paragraph (e) (4):

(1) *Consumers inventories.* (i) Prior to January 1, 1944, no person shall knowingly deliver to any person except a paper merchant and no person except a paper merchant shall accept delivery of, any quantity of any grade of paper or paperboard (other than newsprint) if the inventory of such grade in the hands of the person accepting delivery is, or will by virtue of such acceptance become, either (*a*) in excess of two carloads or (*b*), if in excess of two carloads, greater than forty-five days' supply, on the basis of either his average rate of consuming such grade of paper or paperboard for the preceding quarter or his average rate of consuming such grade of paper or paperboard as projected for the then current quarter.

(ii) After January 1, 1944, no person shall knowingly deliver to any person except a paper merchant and no person except a paper merchant shall accept delivery of, any quantity of any grade of paper or paperboard (other than newsprint) if the inventory of such grade in the hands of the person accepting delivery is, or will by virtue of such acceptance become, either (*a*) in excess of two carloads or (*b*), if in excess of two carloads, greater than thirty days' supply, on the basis of either his average rate of consuming such grade of paper or paperboard for the preceding quarter or his average rate of consuming such grade of paper or paperboard as projected for the then current quarter.

(2) *Merchants inventories.* (i) Prior to January 1, 1944, no person shall knowingly deliver to a paper merchant, and no paper merchant shall accept delivery of any quantity of any grade of paper or paperboard (other than newsprint) if the inventory of such grade in the hands of such paper merchant is, or will by virtue of such acceptance become, either (*a*) in excess of two carloads, or (*b*), if in excess of two carloads, greater than sixty days' supply, on the basis of either his average rate of distributing such grade of paper or paperboard for the preceding quarter or his average rate of distributing such grade of paper or paperboard as projected for the then current quarter.

(ii) After January 1, 1944, no person shall knowingly deliver to a paper merchant, and no paper merchant shall accept delivery of any quantity of any grade of paper or paperboard (other than newsprint) if the inventory of such grade in the hands of such paper merchant is, or will by virtue of such acceptance become, either (*a*) in excess of two carloads, or (*b*), if in excess of two carloads, greater than forty-five days' supply, on the basis of either his average rate of distributing such grade of paper or paperboard for the preceding quarter or his average rate of distributing such grade of paper or paperboard as projected for the then current quarter.

(3) *Mill Inventories.* No person shall produce at any mill any quantity of paper or paperboard, if his inventory at such mill is, or will by virtue of such production, become, in excess of (*a*) two carloads or (*b*), if in excess of two carloads, greater than sixty days' supply, on the basis of either the average rate of shipment of paper or paperboard from such mill for the preceding quarter or the average rate of shipment of paper or paperboard from such mill as projected for the then current quarter.

(4) *Item Inventories.* The term "grade of paper or paperboard" refers to the classification on United States Department of Commerce (Census) Form WPB–514, as revised February 24, 1943, each caption (except those which are further broken down by following captions) representing a separate grade. If a person's gross inventory of a grade is in excess of two carloads or the specific number of days supply as specified in (e) (1), (2), or (3), but his inventory of a particular item within that grade is less than thirty days' supply (or, in the case of a paper merchant, less than forty-five days' supply) he may accept delivery of or produce, and others may deliver to him, any quantity of such item as may be required to provide him with thirty days' supply (or in the case of a paper merchant forty-five days' supply). The restrictions of this paragraph (e) apply equally to paper and paperboard of foreign and domestic origin, and apply to intra company deliveries as defined in § 944.12 of Priorities Regulation No. 1. They do not, however, apply to those papers commonly reported on United States Department of Commerce (Census) Form WPB–514 as revised February 24, 1943 under the captions "Blueprint and similar base stock" (07610); "Photographic and other sensitizing stock" (07611); and "Cigarette" (08512), or to any paper or paperboard after it is printed or converted beyond waxing or coating.

(f) *Miscellaneous provisions*—(1) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(2) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(3) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(4) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using materials under priority control and may be deprived of priorities assistance.

(5) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(6) *Communications.* All communications concerning this order shall unless otherwise directed be addressed to War Production Board, Pulp and Paper Division, Washington 25, D. C., Ref.: M–241.

Issued this 4th day of August 1943.

PART 1302—ALUMINUM

[MPR 2,[1] Amdt. 2]

ALUMINUM SCRAP AND SECONDARY ALUMINUM INGOT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 2 is amended in the following respects:

1. The provisos in paragraphs (a) and (b) of section 2, permitting contracts entered into prior to June 23, 1943 at prices in conformance with Revised Price

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 8495, 8948.

Schedule No. 2, as amended, to be carried out at contract prices until July 23, 1943, are amended by extending the expiration date for the carrying out of such contracts to August 23, 1943.

2. The proviso in section 4 is amended to read as follows:

Provided, That any person may sell and deliver, or deliver secondary aluminum ingot until August 1, 1943, and may carry out until August 23, 1943 contracts entered into before August 1, 1943, at prices no higher than the maximum prices heretofore established for secondary aluminum ingot, so long as the quantity of secondary aluminum ingot delivered by such person at such prices between June 1, 1943 and August 23, 1943, inclusive, does not exceed the quantity of aluminum scrap and secondary aluminum ingot which such person had on hand in his plant at the close of business on May 31, 1943 and which he reported to the War Production Board on Form PD–272, plus the amount of scrap purchased under contract or other firm commitment prior to June 23, 1943, and which was not included on said inventory reported to the War Production Board on Form PD–272.

This amendment shall become effective August 9, 1943.

RETAIL AND WHOLESALE PRICES FOR VICTORY LINE WATERPROOF RUBBER FOOTWEAR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 229 is amended in the following respects:

1. Section 1315.1705b is added to read as follows:

§ 1315.1705b *Terms and conditions of sale.* (a) The maximum prices established by this regulation shall not be increased by any charges for the extension of credit unless (1) the seller during the period February 11 to September 29, 1941, required payment of a separately stated additional charge for the extension of credit by purchasers of the same class on sales of the same or similar types of commodities, and (2) the amount charged for the extension of credit is not in excess of the charge in effect during the period February 11 to September 29, 1941, for extension of credit involving the same amount and term.

(b) In the case of sales at wholesale a service charge of 5 cents a pair may be added to the maximum price on all orders of six pairs or less. However, the maximum prices established by this regulation shall not be increased by any other additional charges for services rendered to the purchaser by the seller unless (1) the seller during the period February 11 to September 29, 1941, required the payment of a separately stated additional charge for the rendition of services to purchasers of the same class, and (2) the amount charged for the rendition of services is not in excess of the charge in effect during the period February 11 to September 29, 1941, to purchasers of the same class for the rendition of the same or similar services.

2. Section 1315.1706a (b) is revoked.

3. Section 1315.1713 is amended by adding the following items to the table under the heading "Severe occupational".

Item	Sales at wholesale	Class I	Class II	Class III	Class IV	Class V
Men's black 10" no-lace mine pac	$3.30	$4.95	$4.69	$4.42	$4.19	$3.96

FINE COTTON GOODS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 11 is amended in the following respects:

1. Section 1316.4 (d) Table I reference number AK10 is amended to read as follows:

AK10 40" 88 x 88 11.00 (Mule Spun Fill)---------- 20.50

2. Section 1316.4 (d) Table I reference number AO2 is amended by adding the following footnote.

AO2 [2a]

[2a] The maximum price for 37" 102 x 48 3.15 poplin on subcontracts entered into prior to July 3, 1943 under any prime contract with a war procurement agency is the maximum price in effect for the fabric on July 2, 1943.

3. Section 1316.4 (d) Table I reference number AV1 is amended by deleting the parenthetical phrase "(Ply Warp)".

4. Section 1316.4 (d) Table I reference number AZ1 is amended to read as follows:

AZ1 54" 70 x 216 1.24 (Combed-Ply Warp, Carded Fill)---------- 95.20

5. Section 1316.4 (d) Table I reference number BD8 under Printer's Blanket Fabric is added to read as follows:

BD8 42" 54 x 60 2.02 (Ply Yarn)------ 56.48

6. Section 1316.4 (d) Table I reference number BE1 is amended by adding after the numerals "1.93" the following parenthetical phrase: "(40/1 combed cotton yarn twisted with 20/1 carded spun rayon warp)".

7. Section 1316.4 (d) Table I reference number BE2 is amended by adding after the numerals "1.66" the following parenthetical phrase: "(40/1 combed cotton yarn twisted with 20/1 carded spun rayon warp)".

8. Section 1316.4 (d) Table I reference numbers BR1, BR2 and BR3 are amended to read as follows:

BR1 39"–40" 50 x 52 8.00 [4]---------- 14.57
BR2 45–1/2" 50 x 52 6.85 [4]---------- 16.94
BR3 49–1/2" 50 x 52 6.28 [4]---------- 17.75

[4] The maximum prices for the above insect nettings on contracts entered into prior to July 3, 1943, with a war procurement agency or on subcontracts entered into prior to July 3, 1943, under any prime contract with a war procurement agency are the maximum prices in effect for the respective fabrics on July 2, 1943.

9. Section 1316.4 (d) Table I reference numbers BT1 and BT2 are amended by adding after the title "madras" the following parenthetical phrase: "(Dobby Weave)".

10. Section 1316.4 (d) Table I reference number BT1, is amended to read as follows:

BT1 38" 92 x 88 4.62---------- 24.50

11. Section 1316.4 (d) Table I is amended by adding to the colored shirting and seersuckers group the following footnote:

Colored shirting and seersuckers [5]

[5] The maximum prices listed above for colored shirting and seersuckers are for plain weave single beam patterns with plain draw-in of not more than one color and greige in the warp, or pattern draw-in, of not more than two colors and greige in the warp, whichever is indicated, and in warp lengths of not less than 50 pieces.

For patterns or constructions of colored shirting and seersuckers varying from those for which maximum prices are established above, the maximum price shall be the maximum price for the nearest related pattern or construction listed in Table I adjusted in accordance with the premiums provided in paragraph (c) of this section and the following:

(A) Color or yarn changes:

For a substitution in the warp of a color, shade or greige for another color, shade or greige, or a substitution of one yarn size for another yarn size (the total change not to involve more than 12½% of the total count of warp ends); or for the addition of extra warp ends (colored and/or greige) for the purpose of producing pattern effects, (the total change not to exceed 5% of the total count of warp ends):

(1) Deduct from the maximum price of the listed construction the entire cost of its warp as calculated from the following table and to the result add the new warp cost calculated in accordance with the same table.

	40/1	50/1	60/1	40/2	40/3	40/4	50/2	60/2
Greige per 100 ends	.00210	.00195	.00173	.0042	.0063	.0084	.0039	.00346
Pastel 27¢ color per 100 ends	.00302	.00268	.00234	------	------	------	------	------
Medium 46¢ color per 100 ends	.00357	.00320	.00277	------	------	------	------	------
Dark 66¢ color per 100 ends	.00435	.00374	.00323	------	------	------	------	------

To determine the cost of each 100 ends of 40s, 50s or 60s colored ply yarns, use single yarn table for 40s, 50s and 60s respectively times the ply.

For any substitution involving a color of a cost other than the above listed costs, the warp cost shall be obtained by interpolation between or extrapolation from the costs listed above.

(B) Draw-in changes:

Where a listed pattern draw-in construction is converted to a plain draw-in construction deduct ½¢ per yard.

Where a listed plain draw-in construction is converted to a fancy draw-in construction, in addition to the premium provided in paragraph (c) of this section for fancy draw, add ⅛ of a cent per yard for each additional color, shade or equivalent in excess of two colors and greige. For the purposes of determining this premium tapes, ply cords, bunched ends, skip dents, double draw (2 ends or more weaving as 1), reverse twist warp stripes, or any other novelty draw, shall each be considered the equivalent of a color or shade.

(C) Pickage changes:

For each pick (not exceeding 4 picks per inch) added to or omitted from a listed construction for the purpose of producing pattern effects add or subtract 0.15 cent per pick for greige filling yarns number 30 to 60, and 0.25 cent per pick for greige filling yarn number 60 and above.

(D) Short warps:

For short warps of any construction of colored shirting or seersucker subject to the maximum prices set in this regulation the following premiums may be added:

32 to 49 pieces to a warp, add 1¢ per yard
20 to 31 pieces to a warp, add 1¾¢ per yard
12 to 19 pieces to a warp, add 3¾¢ per yard

Where any one sale of a given pattern is for various size warps of different colors or shades with a resulting variation in the maximum prices for such warps the seller may, after computing the maximum price separately for each warp, determine and use as his maximum price for that sale a weighted average of such varying prices: *Provided*, That (1) The contract of sale or invoice shall contain the data from which the weighted average price is obtained; (2) Each delivery shall be accompanied by an invoice or similar document which shall either contain the information required by (1) above or make reference to the contract in which such information is set forth.

12. Section 1316.4 (d) Table I reference number KC16 is amended by deleting the maximum price "26.90" and inserting the maximum price "27.60" under the column headed "50% color, medium."

13. Section 1316.4 (d) Table I reference number KC17 is amended by deleting the maximum price "27.59" and inserting the maximum price "28.28" under the column headed "50% color, medium."

This amendment shall become effective on the 9th day of August, 1943.

PART 1340—FUEL

[RPS 88,[1] Amdt. 118]

PETROLEUM AND PETROLEUM PRODUCTS

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.*

Revised Price Schedule No. 88 is amended in the following respects:

1. Section 1340.159 (a) (2) is amended as follows:

(2) Where on October 1, 1941, there was for any given pool no posted purchase price, or more than one posted purchase price, the maximum price for a particular producer at the receiving tank for crude petroleum from such pool shall be the price paid for crude petroleum at any receiving tank of the same producer as of October 1, 1941 unless this price is below the lower or lowest of the posted purchase prices, if any, and in that case, the maximum price shall not be in excess of such lower or lowest posted purchase price: *Provided, however*, That a price paid pursuant to a contract in effect on October 1, 1941 and entered into prior to that date, shall not be considered in determining the maximum price for crude petroleum unless the contract price reflected current market conditions on or about October 1, 1941.

2. Section 1340.159 (a) (4) is amended to read as follows:

(4) Where the maximum price for any sale of crude petroleum at the receiving tank cannot be determined under (1) through (3) above, the seller or purchaser shall set a tentative price for the crude petroleum at the particular receiving tank or tanks which shall be in line with the maximum prices for comparable crude petroleum in the same general area. Within ten days after setting such a tentative price the seller or purchaser shall file with the Petroleum Branch of the Office of Price Administration, Washington, D. C., a written request for approval of such tentative price. The person filing such request, shall file in connection therewith a statement setting forth:

(i) Such tentative price,

(ii) An explanation as to why it is impossible to determine his maximum price under subparagraphs (1), (2) or (3) of this paragraph (a),

(iii) A description of the available transportation facilities, and a description of the gravity, characteristics and source of the crude petroleum in question.

Such tentative price shall be the maximum price for crude petroleum produced from the same pool until a substitute maximum price is set in writing by the Petroleum Branch of the Office of Price Administration, Washington, D. C. If a seller and purchaser have agreed upon a price for the sale of crude petroleum subject to the approval of the Office of Price Administration, a maximum price determined in accordance with this subparagraph (4) shall be effective retroactively to February 2, 1942 or the date of the agreement whichever is later.

3. Section 1340.159 (c) (1) (vii) (g) is added to read as follows:

(vii) The maximum price at the receiving tank for crude petroleum produced in the Woodsboro Field, Refugio County, Texas, and sold by owners of royalty interests shall be $1.35 flat per barrel.

4. Section 1340.159 (c) (1) (xiii) (*a*) is amended to read as follows:

(xiii) *Kentucky* (*a*). The maximum prices at the receiving tank for crude oil produced in the areas, in the State of Kentucky, designated below shall be:

Area:	*Price per 42 gallon barrel*
Big Sandy River (Somerset crude)	$1.43
Sebree Field, Webster County	1.37
Belton Field,, Muhlenberg County	1.37
Spottsville, Henderson County	1.37
Owensboro Area	1.37
Bowling Green Area	1.17
Butler County	1.32

Maximum prices established herein may be charged any purchaser who agreed on or prior to June 1, 1943 to pay a price determined in accordance with the disposition of a petition filed with the Office of Price Administration.

5. In § 1340.159 (c) (3) (xi) the words, "at seller's yard for deliveries in containers in quantities of 10 gallons or over," are corrected to read, "at seller's yard for deliveries in containers in quantities of 10 gallons or less."

6. In § 1340.159 (a) (5) (ii) the word "may" in the phrase, "the seller may establish a tentative differential for a sale of crude petroleum at such point," is corrected to "shall," and will now read, "the seller shall establish a tentative differential for a sale of crude petroleum at such point."

This amendment shall become effective August 9, 1943.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 259,[1] Amdt. 2]

DOMESTIC MALT BEVERAGES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 259 is amended in the following respects:

1. Section 1420.66 (h) is amended to read as follows:

(h) If the seller's maximum price for a domestic malt beverage to be priced cannot be determined under any of the above paragraphs of this section, the seller's maximum price for a domestic malt beverage shall be:

(1) *For manufacturers.* (i) The maximum price established by the manufacturer under the provisions of this regulation for the similar domestic malt beverage most nearly like it, for sales to purchasers of the same class: *Provided,* That if the maximum price established under this regulation for the manufacturer's similar domestic malt beverage most nearly like the domestic malt beverage to be priced, does not include the increases, or any part thereof, permitted under § 1420.66 (a) and (c), the maximum price established under this paragraph may include such permitted increases or part thereof.

(ii) If the manufacturer's maximum price cannot be determined under (i), he shall apply to the Office of Price Administration for authorization to determine his maximum price in accordance with the maximum price established under this regulation by his most closely competitive seller of the same class for the similar domestic malt beverage most nearly like it, for sales to purchasers of the same class: *Provided,* That if the maximum price established by the most closely competitive seller of the same class for his domestic malt beverage most nearly like the domestic malt beverage to be priced, does not include the increases, or any part thereof, permitted under § 1420.66 (a) and (c), the maximum price established under this paragraph may include such permitted increases or parts thereof.

(a) *Form and contents of application.* The application shall be in writing, signed by the manufacturer or his authorized agent and sent to the Office of Price Administration, Beverage Section, Washington, D. C., by registered mail. It shall contain information presented in the following way:

1. Brand name and description of item to be priced _____

_____

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 8950, 9495, 9621.

2. Maximum price which applicant seeks to establish for new item _____ per (specify unit) _____

3. For all other domestic malt beverages manufactured and sold by applicant, give: Brand name and description _____

_____

Total raw material costs _____ per (same unit as given in 2) _____ Maximum price _____ per (same unit as given in 2) _____

4. For most closely competitive seller's similar item, give: Brand name and description _____

_____

Maximum price _____ per (same as unit as given in 2) _____

5. Explanation of reasons applicant is unable to establish maximum price for new item according to maximum price of any of his own brands.

(b) *Approval of or objection to application.* If within 30 days after receipt of the application by the Office of Price Administration, the manufacturer shall not receive notice of objection to the maximum price proposed in the application by letter from the Office of Price Administration, he shall be deemed authorized to establish such maximum price for sales of the item: *Provided,* That if within the 30-day period the Office of Price Administration shall by letter request supplemental information with respect to any matter set forth in the application, that period shall be figured from the date on which the requested supplemental information is received in writing by the Office of Price Administration. The authority so granted may be revoked at any time by the Price Administrator. Upon written request of the manufacturer received by the Office of Price Administration within 30 days after the date of a notice of objection given under this paragraph, the Office of Price Administration will issue a formal order denying authority to establish the maximum price requested in his application.

(c) *New products priced since March 31, 1942 and prior to August 9, 1943.* A manufacturer who since March 31, 1942 and prior to August 9, 1943 has established a maximum price for a domestic malt beverage newly produced by him, according to the maximum price of a competitor's similar item, shall within 30 days after the latter date apply to the Office of Price Administration for authorization to use the established price, in the manner prescribed under (a) and subject to the method of approval or objection prescribed under (b): *Provided,* That with respect to a domestic malt beverage for which an application is required to be filed pursuant to this paragraph, the manufacturer may not sell or deliver such item after August 8, 1943 until a maximum price is authorized under this paragraph, except under an agreement with the purchaser to adjust the selling price to a figure not higher than the maximum price which is later authorized under this paragraph. The maximum prices authorized under this paragraph may be revoked or amended at any time.

(2) *For wholesalers and retailers.* (i) The maximum price established by the wholesaler or retailer under the provisions of this regulation for the similar domestic malt beverage most nearly like it, for sales to purchasers of the same class: *Provided,* That if the maximum price established under this regulation for the wholesaler's or retailer's similar domestic malt beverage most nearly like the domestic malt beverage to be priced, does not include the increases, or any part thereof, permitted under § 1420.66 (a), (b) and (c), the maximum price established under this paragraph may include such permitted increases or part thereof.

(ii) If the wholesaler's or retailer's maximum price cannot be determined under (i), the maximum price established by the most closely competitive seller of the same class for (a) the same domestic malt beverage, or, if the same domestic malt beverage is not sold or offered for sale, then (b) the similar domestic malt beverage most nearly like it, for sales to purchasers of the same class: *Provided,* That if the maximum price established by the most closely competitive seller of the same class for such seller's same domestic malt beverage or similar domestic malt beverage most nearly like the domestic malt beverage to be priced, does not include the increases, or any part thereof, permitted under § 1420.66 (a), (b) and (c), the maximum price established under this paragraph may include such permitted increases or part thereof.

(iii) *New items priced since March 31, 1942 and prior to August 9, 1943.* A wholesaler or retailer who since March 31, 1942 and prior to August 9, 1943 has established a maximum price for a new domestic malt beverage according to the maximum price of a competitor's similar domestic malt beverage, shall within 30 days after the latter date establish a maximum price for such new domestic malt beverage under (i) or, if he cannot establish a maximum price for such item under that paragraph, the wholesaler or retailer shall continue the maximum price established according to his competitor's maximum price for the same or similar item: *Provided,* That if the manufacturer of such new domestic malt beverage is required under this section for any reason to decrease his maximum price therefor in accordance with any determination of the Office of Price Administration, the wholesaler or retailer shall re-examine the basis of his original determination in establishing a maximum price for such domestic malt beverage and establish a new maximum price for such item in accordance with the pricing methods of this section.

2. Section 1420.66 (d) is hereby revoked.

This amendment shall become effective August 9, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681)

SECTION 1. *Geographical applicability.* This regulation shall apply to all sales, whether for immediate or future delivery, within the 48 states and the District of Columbia of the United States of imported and domestic cottonseed oil meal, cake, sized cake and pellets; and cottonseed hulls and cottonseed hull bran whether produced from domestic or imported cottonseed.

SEC. 2. *Effect of maximum prices.* (a) While this regulation remains in effect, regardless of any contract or obligation, no person shall in the course of trade or business sell, deliver, buy or receive any cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or cottonseed hull bran at prices above the maximum prices established by this regulation; nor shall any person agree, offer, solicit or attempt to do any of the foregoing.

(b) However, prices lower than the maximum prices established by this regulation may be charged and paid.

Article II—Definitions, Maximum Prices and Terms of Sale

SEC. 3. *Definitions.* When used herein the following terms shall have the following meanings:

"Person" means an individual, corporation, partnership, association or other organized group of persons or the legal successor or representative of any of the foregoing, and includes the United States or any other government or any political subdivision or agency of any of the foregoing.

"Processor" is a person who processes cottonseed by expeller, extraction or hydraulic process into cottonseed oil and cottonseed oil cake or meal, sized cake, pellets, cottonseed hulls, hull bran and linters.

"Grinder" is a person who buys cottonseed oil cake and processes or procures the processing of such cake into cottonseed oil meal, sized cake or pellets and sells such oil meal, sized cake or pellets It includes a processor who buys cottonseed oil cake and processes such cake into cottonseed oil meal, sized cake or pellets and sells such oil meal, sized cake or pellets.

"Cottonseed oil meal, cake, sized cake and pellets" refer to the products produced by a processor or grinder from cottonseed as above described. The cottonseed used must not contain screenings or other foreign materials except in such quantities as might have occurred in good production practice as in vogue prior to price control. Further, screenings or other foreign materials must not be added to the meal, or cake, sized cake or pellets after the crushing of the oil from the cottonseed.

"Cottonseed hulls and hull bran" refer to the by-products produced by a processor from cottonseed as above described.

"Jobber" is a person other than a processor, grinder or retailer who distributes cottonseed oil meal, cake, sized cake, pellets, cottonseed hulls or hull bran owned by him without unloading into a warehouse.

"Wholesaler" is a person who buys cottonseed oil meal, cake, sized cake or pellets, or cottonseed hulls or hull bran, unloads it into a warehouse and resells the same to a retailer or a person who processes the same further. It includes a processor or grinder where he transports and unloads the aforesaid products into a warehouse operated as a place of business separate from the production plant and thereafter sells the same to the persons above mentioned.

"Retailer" is a person who buys cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran and resells the same to a feeder. It includes a processor or grinder where he transports and unloads the aforesaid products into a store operated as a place of business separate from the production plant and thereafter sells the same to a feeder.

"Feeder" is a person who feeds any cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran to animals or poultry.

"Carload lot" means a lot of cottonseed oil meal, cake, sized cake or pellets of 30 tons or more and for cottonseed hulls or hull bran the minimum established in official railroad tariffs.

"Less than carload lots" means a quantity other than a carload or pool car lot, and includes truck quantities.

"Pool car lot" means a railroad car lot in which two or more buyers have combined for the purpose of obtaining a carload rail freight rate.

"North-South dividing line" consists of a line extending along the following state boundary lines: the boundary line between North Carolina and Virginia; the boundary lines between Tennessee and Virginia, Kentucky and Missouri; the boundary line between Arkansas and Missouri; the boundary lines between Oklahoma and Missouri, Kansas and Colorado; the boundary line between New Mexico and Colorado; the boundary line between Arizona and Utah and Nevada; and the boundary line between California and Nevada and Oregon.

"Transportation charges" shall be computed at:

(i) The lowest common carrier rate (including the 3 per cent tax provided for in section 620 of the Revenue Act of 1942, as amended) for the billing or shipment in question; or

(ii) If there is no such rate, the reasonable value of the service (including said 3 per cent tax, if any) not exceeding any maximum price established therefor.

*Copies may be obtained from the Office of Price Administration.

SEC. 4. *Maximum prices for sale of domestic cottonseed oil meal, cake, sized cake and pellets, other than that specified in section 5 hereof by processors.* (a) The maximum price for the sale and delivery of domestic cottonseed oil meal, and sized cake (other than that specified in section 5 hereof) per ton, in carload lots or pool car lots, bulk, 41 per cent up to 43 per cent of protein, at production plant, by a processor shall be as follows:

State where production plant is located:	*Maximum price*
Mississippi	$45.00
Tennessee	45.50
Arkansas (east of White River)	45.50
Arkansas (other points)	46.00
Missouri	46.00
Illinois	46.25

Oklahoma	47.00
Texas (exclusive of El Paso)	47.00
Texas (El Paso)	48.00
Alabama	46.00
Georgia	46.50
Florida	46.50
South Carolina	47.00
North Carolina	47.50
New Mexico	48.00
Arizona	48.00
California	48.00
Any other state	The maximum price of the state wherein is located the production plant nearest to the plant in question.

(b) The foregoing maximum prices shall be decreased at the rate of 75 cents per ton for a like sale and delivery of a like quality of cottonseed oil cake.

(c) The maximum prices specified in paragraph (a) of this section shall be increased at the rate of $1.50 per ton for a like sale and delivery of a like quality of cottonseed oil meal pellets.

(d) The foregoing maximum prices shall be decreased for the sale of lots of cottonseed oil meal, cake, sized cake or pellets containing less than 41 per cent protein at the rate of 75 cents per ton for each 1 per cent or fraction thereof of protein below 41 per cent of protein.

(e) The foregoing maximum prices shall be increased at the rate of $2.00 per ton for the sale of any lot of cottonseed oil meal, cake, sized cake or pellets containing 43 per cent or more of protein.

(f) The foregoing maximum prices shall be increased at the rate of $1.00 per ton for a sale of any cottonseed oil meal, cake, sized cake or pellets in a less than carload lot.

(g) The foregoing maximum prices shall be increased for a sale and delivery of any cottonseed oil meal, cake, sized cake or pellets by a processor at any point other than the plant where produced by transportation charges from said production plant to such point by a usual route and method of transportation; plus, in the case of a sale and delivery by any processor in carload lots of any cottonseed oil meal, cake, sized cake or pellets produced at any production plant to a point north of the North-South dividing line, a further increase at the rate of $1.00 per ton.

SEC. 5. *Maximum prices for sale of domestic cottonseed oil meal, cake, sized cake or pellets owned or under contract by a processor or produced from cottonseed owned or under contract by a processor on July 31, 1943.* (a) The maximum price for the sale and delivery of domestic cottonseed oil meal, cake, sized cake or pellets, which is owned or under contract by a processor or which is produced from cottonseed of the 1942 crop owned or under contract by a processor on July 31, 1943, per ton, in carload lots or pool car lots, bulk, 41 per cent up to 43 per cent of protein at production plant, by a processor shall be $2.00 per ton above the maximum trade prices specified in Schedule A of the Processor Contract, 1942 Cottonseed Program, of the Commodity Credit Corporation.

(b) The foregoing maximum prices shall be increased at the rate of $1.00 per ton for a sale of any cottonseed oil meal, cake, sized cake or pellets in a less than carload lot.

(c) The maximum prices established by this section shall be applicable to all processors irrespective of whether or not the above named Processor Contract is in effect.

SEC. 6. *Maximum prices for the sale of domestic cottonseed hulls and hull bran for processors.* (a) The maximum price for the sale of domestic cottonseed hulls, per ton, bulk, by the processor shall be $12.00 per ton for sales in carload lots, and $13.00 per ton for sales in less than carload lots, plus transportation charges from plant where produced to the buyer's receiving point by a usual route and method of transportation.

(b) The foregoing maximum prices shall be increased at the rate of $4.00 per ton for a sale of any cottonseed hull bran.

SEC. 7. *Maximum prices for the sale of domestic cottonseed oil meal, sized cake or pellets by grinders.* (a) The maximum price for the sale or delivery of cottonseed oil meal, sized cake or pellets by a grinder shall be the maximum price of the processor (from whom the cottonseed oil cake was obtained) for a like sale of such oil meal, sized cake or pellets (that is, the maximum price of the processor determined according to the applicable provisions of section 5 or 6) plus an addition at the rate of 50 cents per ton plus actual or reasonable transportation charges, if any, incurred by the seller in respect to the lot sold.

(b) Where a processor makes a sale as a grinder, the burden shall always rest upon him to establish by clear evidence that he in fact actually performed the functions of a grinder.

SEC. 8. *Maximum prices for the sale of domestic cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran by jobbers.* The maximum price for the sale of domestic cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran by a jobber shall be:

(a) 50 cents per ton (maximum markup) for all sales in carload lots; and

(b) $1.00 per ton (maximum markup) for sales in less than carload lots or pool car lots, over the maximum price which he could lawfully have paid a processor or grinder for the quantity or quality of the commodity as purchased by him and which he is reselling plus transportation charges actually incurred by the seller in respect to the lot sold.

SEC. 9. *Maximum prices for the sale of domestic cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran by wholesalers.* The maximum price for the sale of domestic cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran by a wholesaler shall be:

(a) $2.50 per ton (maximum markup) for sales of cottonseed oil meal, cake, sized cake or pellets; and

(b) $2.00 per ton (maximum markup) for sales of cottonseed hulls or hull bran, over the maximum price which he could lawfully have paid the processor, grinder or jobber for the quantity or quality purchased (from out of which lot the sale in question is made) delivered at his warehouse plus transportation charges actually incurred by the seller from said warehouse to the buyer's receiving point.

SEC. 10. *Maximum prices for sales of domestic cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran by retailers.* The maximum price for the sale of domestic cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran by a retailer shall be:

(a) $5.50 per ton (maximum markup) for sales of cottonseed oil meal, cake, sized cake or pellets; and

(b) $4.00 per ton (maximum markup) for sales of cottonseed hulls or hull bran over the maximum price which he could lawfully have paid the processor, grinder, jobber or wholesaler for the quantity and quality purchased (from out of which lot the sale in question is made) delivered at his receiving point plus transportation charges actually incurred by the seller from his receiving point to his buyer's receiving point.

SEC. 11. *Maximum prices for sales of imported cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran.* (a) The basic maximum price for the sale (within the 48 states and the District of Columbia of the United States) of any imported cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls shall be the maximum price for a like sale by a processor of a like quantity and quality of the domestic product produced at that domestic production plant located nearest the port of entry: *Provided*, That:

(1) If the port of entry is located in Oregon or Washington said basic maximum price for such sale thereof shall be the maximum price for a like sale by a processor of a like quantity and quality of the domestic product produced at San Francisco, California; or

(2) If the port of entry is not located in a state specifically named in section 4 (a) hereof or in Oregon or Washington said basic maximum price for such sale thereof shall be the maximum price for a like sale by a processor of a like quantity and quality of the domestic product produced at Memphis, Tennessee.

(b) Jobbers, wholesalers and retailers making sales (within the 48 states and the District of Columbia of the United States) of any such imported products shall add their respective permitted markups as provided as to domestic products over the basic maximum price of the imported products as provided in paragraph (a) of this section.

(c) A mixed feed manufacturer in determining his maximum prices under Maximum Price Regulation 378 on his mixed feed for animals and poultry shall calculate his "cost" of any such imported products at the maximum price thereof as above provided if he purchased the same within the 48 states and the District of Columbia of the United States; and if he did not then at the maximum price thereof as specified in paragraph (a) of this section.

SEC. 12. *Maximum prices in other cases.* (a) The maximum price for the sale of any cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran by any other person of a class of seller not hereinbefore specifically provided for shall be the maximum price which the person from whom he purchased could lawfully have charged for a like sale: *Provided*, That no grower or ginner of cottonseed shall sell or deliver cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran obtained from a processor in exchange for cottonseed at a higher price than the maximum price of the processor with whom he traded for a like sale or delivery.

(b) Notwithstanding any other provision of this regulation, sales between persons of one of the classes of sellers hereinbefore specifically provided for shall be permissible: *Provided*, That no such sales, nor sales to a person of a different class, shall be at a higher price than the maximum price hereinbefore prescribed for said class of sellers.

SEC. 13. *Increases for sacks.* When any seller has bulk domestic or imported cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran and desires to sell the same sacked the foregoing maximum prices where determined on a bulk basis shall be increased at the following rates per ton:

(a) For sales of cottonseed oil meal, cake, sized cake or pellets:

(1) In seller's sacks, the reasonable market value of the sacks, not exceeding any maximum price thereon at the time of the sale or delivery: *Provided*, That if the sacks were purchased from the buyer by the seller, the seller shall not charge more than the price he paid for such sacks.

(2) In buyer's new or recleaned sacks, $0.50.

(3) In buyer's sacks of any other kind, $1.00.

(b) For sales of cottonseed hulls and hull bran:

(1) In seller's sacks, the reasonable value of the sacks, not exceeding any maximum price thereon at the time of the sale or delivery.

(2) In buyer's sacks, 50 cents per ton for the sacking.

SEC. 14. *Sales of cottonseed oil meal, cake, sized cake or pellets on basis of guaranteed minimum percentage of protein and adjustment for deficiencies.* (a) No person shall sell any domestic or imported cottonseed oil meal, cake, sized cake or pellets except on the basis of a specified guaranteed minimum percentage of protein therein.

(b) If an actual analysis of any lot of domestic or imported cottonseed oil meal, cake, sized cake or pellets differs from the guaranteed minimum percentage of protein therein then:

(1) If above said guaranteed minimum percentage of protein, no increase in the maximum price is permitted.

(2) If below said guaranteed minimum percentage of protein, the deficiency shall be adjusted and settled in accordance with the applicable rules of the National Cottonseed Crushers Association and the resulting figure is the adjusted maximum price thereof.

SEC. 15. *Maximum prices for export sales.* The maximum price for export sales of cottonseed oil meal, cake, sized cake or pellets shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.[1]

Article III—Miscellaneous Provisions

SEC. 16. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 17. *Evasion.* The provisions of this regulation shall not be evaded whether by direct or indirect methods in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of any commodity covered by this regulation alone or in connection with any other commodity or by way of commission, service, transportation or other charge, or discount, premium or other privilege or by tying-agreement or other trade understanding or otherwise.

SEC. 18. *Records and reports.* (a) Every seller subject to this regulation shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect his customary records including, if any, all bills, invoices and other documents relating to every sale or delivery of cottonseed oil meal, cake, sized cake or pellets after the effective date of this regulation.

(b) Upon demand every such seller shall submit such records to the Office of Price Administration and keep such further records as the Office of Price Administration may from time to time require.[2]

SEC. 19. *Enforcement.* Persons violating any provision of this regulation are subject to the license revocation or suspension provisions, civil enforcement actions, suits for treble damages, and criminal penalties as provided in the Emergency Price Control Act of 1942, as amended.

SEC. 20. *Protests and petitions for amendment.* Any person desiring to file a protest against or seeking an amendment of any provisions of this regulation may do so in accordance with Revised Procedural Regulation No. 1 issued by the Office of Price Administration.[3]

Effective Date

This regulation shall become effective July 31, 1943.

NOTE: The record keeping provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 31st day of July 1943.

CEILING PRICES FOR CERTAIN SAUSAGE ITEMS AT WHOLESALE

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 389 is amended in the following respects:

1. Item 1 of the table contained in section 12 (a) is amended by the addition of footnote "[1]" to follow the word "Pork" and to appear below the table, to read as follows:

[1] On sales of pork sausage in sheep castings, packaged in 1 pound wax paper cartons, seller may add $1.00 per hundredweight.

2. Section 7 is amended to read as follows:

SEC. 7. *Indirect price increases.* No person shall evade any of the provisions of this regulation by any scheme or device and no person shall indirectly charge or receive for sausage subject to this regulation a price higher than the maximum prices permitted by this regulation. No person shall as a condition of selling any such sausage require a purchaser to buy any other meat or any other product: *Provided*, That a payment by a buyer to a seller for icing services performed by the seller after June 1, 1943, and before delivery of sausage to a railroad whose charges are paid directly to such railroad by the buyer shall not be constituted as an evasion of such price limitations, if the charge for such icing services is no higher than the cost actually incurred by the seller in performing such service and in no event higher than the charge which could lawfully have been made by the railroad if such services had been performed by the railroad.

This amendment shall become effective August 3, 1943.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Reclamation, Department of the Interior

PART 451—BOAT AND WHARF PRIVILEGES ON CERTAIN RESERVOIRS [1]

GREEN MOUNTAIN RESERVOIR, COLORADO-BIG THOMPSON PROJECT

1. *Permits.* Any person desiring to keep or operate a boat or to construct and maintain a wharf or boathouse on the Green Mountain Reservoir will first be required to obtain a permit to do so from the Project Engineer of the Bureau of Reclamation, Estes Park, Colorado. For the issuance of such a permit there will be charged the sum of $1.50 per calendar year for each rowboat or canoe, the sum of $3.00 per calendar year for each sailboat or power boat, and the sum of $7.50 per calendar year for each houseboat: *Provided,* That where any such boat is used for hire or for the carriage of persons or property for compensation, a charge shall be fixed according to the capacity thereof, but in no case less than $3.00 per calendar year for each rowboat or canoe, $7.50 per calendar year for each sailboat or power boat, and $15.00 per calendar year for each houseboat. Permits will continue in force until the end of the calendar year in which issued, unless sooner terminated by the permittee or revoked by the Project Engineer with refund of the unearned portion of the charge paid: *Provided,* That if revoked by the Project Engineer for a violation of law or of these regulations no refund will be made. The Project Engineer will furnish the permittee license numbers for each boat, which must be displayed in a conspicuous place on each of the outer sides of the boat, and the permittee shall keep in his possession and available for inspection the permit granted to him.

2. *Use of land for wharfs and boathouses.* Where desired and if deemed by the Project Engineer not detrimental to the interest of the United States, there may be granted to a permittee, in addition to the general landing privilege conferred as an accompaniment to the boating permit contemplated by paragraph 1 hereof, the exclusive privilege to use and occupy, in connection with such boating permit, a certain described tract of land belonging to the United States and abutting the reservoir shoreline. A charge of $7.50 per calendar year will be made for the use of such land where the same is to be used only for a private wharf or as combined private wharf and boathouse site: *Provided,* That, when any wharf or combined wharf and boathouse site is used for hire, a charge shall be fixed according to the capacity of such improvements, but in no case less than $15.00 per calendar year for each wharf; and $30.00 per calendar year for each combined wharf and boathouse site. All wharves and boathouses shall be constructed in a substantial and workmanlike manner satisfactory to the Project Engineer. Neither the use nor occupation of the land shall be transferred or sublet by the permittee without the consent of the Project Engineer, and the permit shall terminate and all right or interest of the permittee thereunder shall cease upon the service of notice on the permittee because of failure to observe such condition. The Project Engineer will furnish the permittee license numbers which must be displayed in a conspicuous place on the wharf or on the outer side of the boathouse.

3. *Rates to be charged by permittees.* Where boats, wharves or boathouses are used for hire or for the carriage or accommodation of persons or property for compensation, the permittee shall file with the Project Engineer certified copies of schedule of rates: *Provided,* That the rates to be charged persons engaged in the survey, construction, and operation and maintenance of the Green Mountain Reservoir and Dam or any works in connection therewith shall not exceed one-half of such rates.

4. *Rowboats and canoes.* Each boat shall, when in use at any time between sunset and sunrise, carry a lantern or other suitable light visible all around the horizon.

5. *Sailboats and power boats.* (a) From sunset to sunrise, boats under way shall carry signal lights, and during such time no other lights that may be mistaken for those prescribed shall be exhibited. Each boat shall carry a white light aft, to show around the horizon, and a combination lantern in the fore part of the boat to show green to the right and red to the left so fixed as to throw the light from right ahead to two points abaft the beam on their respective sides. In addition, a white light may be used in the center of the boat near the bow, but the aft light shall be higher than the forward lights and so placed as to form a range therewith and shall be clear of house, awnings and other obstructions.

(b) From sunset to sunrise, a boat at anchor while in use shall carry forward, where it can best be seen, at a height not exceeding 20 feet above the hull, a white light visible all around the horizon.

(c) Each boat shall be provided with an anchor of sufficient size and rope of sufficient length and strength to hold the boat in case of accident; with two or more oars; and with efficient life preservers equal in number to the maximum number of persons to be carried.

(d) Each boat shall be provided with a whistle or other sound-producing mechanical appliance capable of producing a blast of two seconds', or more, duration. A mouth whistle that can be heard at least one-half mile will be held in compliance with this rule.

6. *Rules of travel.* (a) When boats are approaching each other head-on or so nearly as to endanger collision, it shall be the duty of each to turn to the right and to pass to the port, or left, side of the other.

(b) Whenever power boats are so approaching, either boat shall give, as a signal of her intention, one short and distinct blast of her whistle which the other boat shall answer promptly by a similar blast of her whistle, and thereupon each boat shall pass on the port, or left, side of the other.

(c) If the course of the approaching boats is so far to the starboard, or right, side of each other as not to endanger collision, either boat shall give two sharp and distinct blasts of her whistle as an indication of her intention to continue on her course, which the other boat shall answer promptly by two similar blasts of her whistle, and thereupon each boat shall pass on the starboard, or right, side of the other.

(d) When two boats are crossing so as to involve risk of collision, the boat which has the other on her starboard, or right, side shall keep out of the way of the other boat.

(e) A boat overtaking any other boat shall keep out of the way of the overtaken boat.

(f) No boat shall approach, pass, or be located within five hundred (500) feet of any structure or other appliance constructed, operated or maintained by the United States in connection with the Green Mountain Reservoir, nor within twenty-five hundred (2,500) feet of the Green Mountain Dam or appurtenant works.

7. *Responsibility of owners.* Boats, which in the opinion of the Project Engineer, whose opinion shall be final and conclusive, are not properly constructed, operated or maintained, shall not be permitted to be placed or remain on the waters of the reservoir. All boats shall be securely anchored or tied up when not in use. Boats found floating loose on the reservoir will be taken up and the permittee shall be liable to the United States for any expense incurred in making the boat secure. Owners of power boats shall not permit the operation thereof for passenger service by any person not competent to handle the machinery.

8. *Order.* No intoxicated person shall be permitted upon land within the reservoir area belonging to the United States or wharves or boathouses constructed thereon, or boats on the waters of the reservoir, nor shall any person take any intoxicating liquor upon such land, wharf, boathouse or boat. The person in charge of such boat, wharf or boat house shall preserve order therein or thereon and shall extend courteous treatment to passengers and persons therein or thereon.

9. *Firearms.* The carrying of firearms in or upon the land within the reservoir area belonging to the United States or in or on any boat, boathouse or wharf by any person shall not be permitted.

10. *Sanitation.* No bottles, cans, garbage, rubbish or refuse of any kind shall be thrown into the waters of the reservoir, but the same shall be disposed of as directed by the Project Engineer, and the permittee shall locate and construct outhouses and cesspools as directed by the Project Engineer, and shall observe all sanitary regulations for the reservoir area which may be promulgated by the Project Engineer.

11. *Fishing and hunting.* Fishing in the waters of the reservoir will be permitted upon compliance with the laws, rules and regulations prescribed by the State of Colorado but subject to such additional regulations as it may be necessary for the United States to make for the protection of the reservoir, canals, diversion works, buildings or structures belonging to the United States. Hunting of any kind is prohibited on the reservoir or the lands bordering thereon.

12. *Camp fires.* The building of camp fires or any other fires within the reservoir area is prohibited except as may be permitted in accordance with existing Forest Service or other regulations, or regulations which may be promulgated by the Project Engineer.

13. *Violation of regulations.* The permit of any person, violating any of the foregoing regulations, may be revoked by the Project Engineer and such person shall remove his boat, wharf or boathouse from the reservoir and lands belonging to the United States; failing to do so, the boat may be impounded and sold or otherwise disposed of, or the boathouse or wharf may be removed or destroyed by the United States without liability of the United States to the owner.

14. *Waiver of liability.* The main purpose of the Green Mountain Reservoir is to impound water for irrigation and other regulatory purposes. Accordingly, any person at any time going in or upon the waters thereof or upon any of the structures or lands upon the margin thereof or upon adjacent lands belonging to the United States and held or reserved for the use in connection therewith, whether as licensee or permittee of the United States or otherwise, thereby assumes all risk of injury to or death of himself or damage to or destruction of property resulting directly or indirectly, wholly or in part, from said reservoir or appurtenant structures or their construction, operation and control by the United States.

Approved: July 26, 1943.

First Assistant Secretary.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[Service Order 142]

PART 95—CAR SERVICE

SAND OR GRAVEL SHIPMENTS TO DAINGERFIELD, TEXAS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 3d day of August, A. D. 1943.

It appearing that shipments of sand and gravel in carloads originating at Jury, Texas (billing point Texarkana, Texas), and destined to Daingerfield, Texas, for use by the Austin Bridge Company are being weighed on railroad track scales, thus impeding the use, control, supply, movement, and distribution of cars; in the opinion of the Commission an emergency exists requiring immediate action to avoid a shortage of equipment and congestion of traffic:

It is ordered, That:

§ 95.24 *Carloads of sand or gravel destined to Daingerfield, Texas, for use by Austin Bridge Company, not to be weighed.* (a) No common carrier by railroad subject to the Interstate Commerce Act shall weigh, or permit to be weighed, any shipment of sand or gravel in either straight or mixed carloads, on any railroad track scales when such traffic originates on or after the effective date of this order at Jury, Texas (billing point Texarkana, Texas), and is destined to Daingerfield, Texas, for use by the Austin Bridge Company, except that a limited number of cars may be weighed as is necessary to obtain average weights. The operation of all tariff rules or regulations insofar as they conflict with the provisions of this order is hereby suspended.

(b) *Announcement of suspension.* Each of such railroads shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

(40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17)).

It is further ordered, That this order shall become effective at 12:01 a. m., August 4, 1943, and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

PART 501—CONSERVATION OF MOTOR EQUIPMENT

SUBPART K—MOTOR CARRIERS OF PROPERTY

Pursuant to Executive Orders 8989 and 9156, *It is hereby ordered*, That, subparagraph (3) of paragraph (a) of § 501.76 of General Order ODT 17, as amended (7 F.R. 5678, 7694, 9623; 8 F.R. 8278, 8377), is amended by adding thereto subdivisions (viii), (ix), and (x), to read as follows:

§ 501.76 *Number of wholesale and retail deliveries limited.* (a) * * *:

(3) * * *:

(viii) To deliveries of property sold upon orders received by mail, telephone, or any other system of public communication;

(ix) To deliveries of property to the address of a person, other than the purchaser, which person is to retain possession of the property;

(x) To deliveries made to return or replace property delivered in error or property damaged in delivery.

This Amendment 5 to General Order ODT 17 shall become effective on August 5, 1943.

[Vesting Order 1828]

R. AVENARIUS AND CO. AND/OR AVENARIUS BROS.

Re: Trade-marks owned by R. Avenarius & Company and/or Avenarius Brothers.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Carbolineum Wood Preserving Company, a Wisconsin corporation of Milwaukee, Wisconsin, is a business enterprise within the United States;

2. Finding that R. Avenarius & Company and Avenarius Brothers, also known as Gebruder Avenarius, are partnerships organized under the laws of Germany and therefore are nationals of a foreign country (Germany);

3. Finding that the property described in subparagraph 5-a hereof is held by said Carbolineum Wood Preserving Company as agent for the beneficial interest of said R. Avenarius & Company and/or Avenarius Brothers who are the equitable owners thereof;

4. Finding that the property described in subparagraphs 5-b and 5-c hereof is the property of said R. Avenarius & Company and/or Avenarius Brothers;

5. Finding that the property described as follows:

a. The trade-mark registered in the United States Patent Office under the number and on the date set out in Exhibit A Part I attached hereto and made a part hereof and the registration thereof, together with

(1) The goodwill of the business in which the United States and all its possessions to which the trade-mark is appurtenant,

(2) Any and all indicia of such goodwill (including but not limited to formulae, whether secret or not, secret processes, methods of manufacture and procedure, customers' lists, labels, machinery, and other equipment);

(3) Any interest of any nature whatsoever in, and any rights and claims of every character and description to, said business, goodwill and trade-mark and registration thereof, and

(4) All accrued royalties payable or held with respect to said trade-mark and all damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement thereof,

b. The trade-marks registered in the United States Patent Office under the numbers and on the dates set out in Exhibit A Part II attached hereto and made a part hereof and the registrations thereof, together with

(1) The respective good-will of the business in the United States and all its possessions to which the trade-marks are appurtenant,

(2) Any and all indicia of such good-will (including but not limited to formulae, whether secret or not, secret processes, methods of manufacture and procedure, customers' lists, labels, machinery, and other equipment),

(3) Any interest of any nature whatsoever in, and any rights and claims of every character and description to, said business, goodwill and trade-marks and registrations thereof, and

(4) All accrued royalties payable or held with respect to said trade-marks and all damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement thereof.

c. All interests and rights (including all royalties and other monies payable or held with respect to such interests and rights and all damages for breach of the agreement hereinafter described, together with the right to sue therefor) created in R. Avenarius & Company and/or Avenarius Brothers by virtue of an agreement dated July 17, 1922 (including all modifications and supplements thereto, including, but not by way of limitation, supplemental agreement of September 9, 1922, letter of December 11, 1939 from R. Avenarius & Company to Carbolineum Wood Preserving Company and cable of January 6, 1940 and letter of January 10, 1940 from Carbolineum Wood Preserving Company to R. Avenarius & Company) by and between R. Avenarius & Company and Carbolineum Wood Preserving Company, which agreement relates, among other things, to the trade-marks "Carbolineum", "Avenarius Carbolineum", "Carbolineum Avenarius" and "Avenarius",

is property of, or is property payable or held with respect to trade-marks, or rights related thereto, in which interests are held by, and such property itself constitutes interests held therein by, nationals of a foreign country (Germany);

6. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

7. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 5, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meaning prescribed in section 10 of said Executive Order.

[Amdt. 8 to Order A-1 Under MPR 188]

PLASTIC PIPE TUBING, PIPE FITTINGS AND TUBING FITTINGS

MODIFICATION OF MAXIMUM PRICES

Amendment No. 8 to Order No. A-1 under § 1499.159b of Maximum Price Regulation No. 188—Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (a) (9) is added to read as follows:

(9) *Modification of maximum prices of plastic pipe, plastic tubing, plastic pipe fittings, and plastic tubing fittings*—(i) *Scope of this amendment.* This subparagraph (9) sets maximum prices for sales and deliveries of plastic pipe, plastic tubing, plastic pipe fittings, and plastic tubing fittings manufactured from Co-Polymer Vinyl and Vinylidene chlorides commercially known as "Saran B 11."

(ii) *Maximum prices.* On and after the 9th day of August, 1943, regardless of any contract, agreement, lease or other obligation, no person shall sell and deliver, and no person shall buy and receive any plastic pipe, plastic tubing, plastic pipe fittings, and/or plastic tubing fittings, in the course of trade or business at prices higher than those set forth below. Lower than maximum prices may be charged or paid. The maximum prices computed under this subparagraph shall be subject to all cash discounts, allowances, and price differentials established by the seller and in effect to his various classes of customers during the month of March 1942 for similar commodities such as brass pipe, copper tubing, brass fittings and/or copper fittings.

(a) *Manufacturer's maximum prices*—(1) *Manufacturer to jobber.* The maximum prices for sales by manufacturers to jobbers, f. o. b. point of manufacture, shall be the prices contained in subdivision (d) subject to a discount of 50%. Upon shipments of 200 pounds and over, freight on the entire shipment shall be allowed to destination.

(2) *Manufacturer to all purchasers other than jobbers.* (i) The maximum prices for sales by manufacturers to all purchasers other than jobbers on direct shipments of 200 pounds and over, from point of manufacture, shall be the prices contained in subdivision (d) subject to successive discounts of 17% and 25% and 10%. Such maximum prices shall include free delivery to point of destination designated by the purchaser.

(ii) The maximum prices for sales by manufacturers to all purchasers other than jobbers (1) out of warehouse stock or (2) on direct shipments of less than 200 pounds from point of manufacture, shall be the prices contained in subdivision (d) subject to successive discounts of 17% and 20%. Such maximum prices shall include free delivery within customary free delivery zones.

(b) *Jobber's maximum prices*—(1) *Jobber to installer or retailer.* (i) The maximum prices for sales by jobbers to installers or retailers on direct shipments of 200 pounds and over, from point of manufacture, shall be the prices contained in subdivision (d) subject to successive discounts of 17% and 25% and 10%. Such maximum prices shall include free delivery to point of destination designated by the purchaser.

(ii) The maximum prices for sales by jobbers to installers or retailers out of stock or on direct shipments of less than 200 pounds from point of manufacture shall be the prices contained in subdivision (d) subject to successive discounts of 17% and 20%. Such maximum prices shall include free delivery within customary free delivery zones.

(2) *Jobber to industrial or commercial user.* The maximum prices for all sales by jobbers to industrial or commercial users shall be the prices contained in subdivision (d) subject to successive discounts of 17% and the customary differential discount allowed during the month of March 1942 to that particular class of purchaser for purchases of similar commodities.

(3) *Jobber to ultimate consumer (sales at retail).* The maximum prices for all sales by jobbers to ultimate consumers (sales at retail) shall be the prices contained in subdivision (d). Such maximum prices shall include free delivery within customary free delivery zones.

(c) *Maximum prices for other sellers*—(1) *Retailer's and installer's maximum prices (on an uninstalled basis).* The maximum prices for all sales by retailers and installers on an uninstalled basis shall be the prices contained in subdivision (d). Such maximum prices shall include free delivery within customary free delivery zones.

(2) *Automotive installer's maximum buying and selling prices.* (i) The maximum prices for all sales to automotive installers by any person shall be the prices contained in subdivision (d) subject to a discount of 25%. Such maximum prices shall include free delivery within customary free delivery zones.

(ii) The maximum prices for all sales by automotive installers, whether installed or uninstalled, shall be the prices contained in subdivision (d). Such installation charges as are established by any applicable regulation issued by the Office of Price Administration may be added to the maximum prices listed herein provided such installation charges are stated separately on the invoice.

(d) *Tables of maximum list prices.*

(iii) *Notification of purchasers of existence of this subparagraph (9).* Every person selling plastic pipe, plastic tubing, plastic pipe fittings, and /or plastic tubing fittings subject to this subparagraph (9) shall, before making an initial sale to each purchaser, notify such purchaser of the existence of this subparagraph, and, upon request of such purchaser, make available a copy of it for examination.

(iv) *New products.* The maximum list price of any article of plastic pipe, plastic tubing, plastic pipe fittings, and/or plastic tubing fittings, for which prices are not established in subdivision (d) of this subparagraph (9) shall be the price determined in accordance with the appropriate method contained in Maximum Price Regulation No. 188 as amended.

(v) *Records.* Every person selling plastic pipe, plastic tubing, plastic pipe fittings, and/or plastic tubing fittings subject to this subparagraph (9), shall have available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a record of each sale made under this subparagraph showing the date of the sale, the name and address of the purchaser, the manufacturer's plate number or the jobber's plate number, the list price of each unit, the discount allowed, and the point of delivery of the shipment.

(vi) *Reports.* All persons making sales subject to the provisions of this subparagraph (9) shall submit such reports as the Office of Price Administration may at any time request, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(vii) *Definitions.* For the purpose of this subparagraph (9) the term:

"Manufacturer" means a person who manufactures or extrudes synthetic organic thermoplastic into plastic pipe, plastic tubing, plastic pipe fittings or plastic tubing fittings.

"Jobber" means a person other than a "manufacturer" who purchases plastic pipe, plastic tubing, plastic pipe fittings, or plastic tubing fittings from a "manufacturer" for resale, customarily receives physical possession, and who sells primarily to an installer, industrial user or retailer.

"Installer" means any person customarily engaged in the installation of plumbing, heating, refrigeration, and/or air-conditioning systems and furnishes an installation service, but does not include automotive installers.

"Automotive installer" means any person who is engaged in the repair or maintenance of automotive vehicles.

"Retailer" means any person who sells to the ultimate consumer.

"Industrial or commercial user" means any person who customarily purchases for use in an industrial plant or commercial enterprise, such as an oil or sugar refinery, a chemical plant, shipyard, or railroad.

"Ultimate consumer" means a person who purchases for use rather than resale, other than an industrial or commercial user.

This Amendment No. 8 shall become effective August 9, 1943.

[Amdt. 10 to Order A-1 Under MPR 188]

ASPHALT

MODIFICATION OF MAXIMUM PRICES

Amendment No. 10 to Order No. A-1 under § 1499.159b of Maximum Price Regulation No. 188—Manufacturer's Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel.

Modification of maximum prices in Maximum Price Regulation 188. An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (a) (11) is added to read as follows:

(a) *Modification of maximum prices in Maximum Price Regulation No. 188.* The provisions of Maximum Price Regulation No. 188 as applied to certain commodities subject thereto are modified in accordance with § 1499.159b of Maximum Price Regulation No. 188 as hereinafter provided.

* * * * * *

(11) *Modification of maximum prices for asphalt and/or tar base roof coatings and cements in containers*—(i) *Explanation.* The purpose of the new method of pricing provided by this subparagraph (11) is to permit a manufacturer who is now packing asphalt and/or tar base roof coatings and cements in containers which have increased in cost to adjust his maximum prices and add the exact amount of the increase in the cost of the containers and in receiving delivery of them. The method permits him to account for differences in container costs without permitting him to increase the price per unit of the asphalt and/or tar

base roof coatings and cement packed in the container. The method is formulated for low-price sellers of these products who are unable to sell them at their established maximum prices because of the increased cost of the containers. Subdivision (ix) specifies the maximum prices in excess of which no manufacturer may sell asphalt and/or tar base roof coatings and cements if he adjusts his established maximum prices in accordance with this subparagraph. Any manufacturer whose established maximum prices for these commodities are higher than the prices itemized in subdivision (ix) may continue to sell at his established maximum prices without any adjustment.

(ii) *Pricing method.* To figure the adjusted maximum price to any class of purchasers for the commodity in containers, the manufacturer shall:

(*a*) *Determine the base container cost.* The manufacturer shall take as the "base container cost" his average direct cost of each type or size of container during March 1942. "Direct cost" means the net cost, at the manufacturer's plant, of the container and closure, but it does not include costs of filling, closing, labeling, or packing. If a manufacturer is unable to compute his base container cost because of lack of purchases during March 1942, he shall determine his base container cost by any purchase during the period December 1941 through February 1942, or if no purchases were made during this period, by the offering price during that period by the manufacturer's usual source of supply.

(*b*) *Determine the current container cost.* The manufacturer shall take as the "current container cost" his average direct cost of each type or size of container for any quarterly period subsequent to January 1, 1943. "Direct cost" means the net cost, at the manufacturer's plant, of the container and closure, but it does not include cost of filling, closing, labeling, or packing.

(*c*) *Determine the increased container cost.* Taking his "current container cost" the manufacturer shall then subtract the "base container cost." The difference, if any, represents the "increased container cost."

(*d*) *Determine the adjusted maximum price.* The manufacturer shall next add the "increased container cost" to his established maximum price. If the result is less than the prices itemized in subdivision (ix), such result shall be the adjusted maximum price. If the result is the same as or higher than the prices itemized in subdivision (ix), the prices in subdivision (ix) shall be his adjusted maximum prices. No manufacturer may sell in excess of the sum of his "increased container cost" plus his established maximum prices, even if such total does not equal the prices contained in subdivision (ix).

(*e*) *Changes in current container cost.* Each manufacturer must redetermine his "current container cost" upon a quarterly basis. If the manufacturer has determined his "current container cost" in accordance with subdivision (ii) (*b*), he may, if the redetermination of "current container cost" reflects an increase over his previous "current container cost", readjust his maximum prices for the ensuing quarterly period to include such increases provided such readjusted maximum prices do not exceed the prices contained in subdivision (ix). If the redetermination reflects a decrease of his "increased container cost", the manufacturer must readjust his maximum prices and reduce his adjusted maximum prices by the amount of the decrease for the ensuing quarterly period.

(iii) *Commodity and geographical coverage.* This subparagraph (11) applies to all sales of asphalt and/or tar base roof coatings and cements in containers in the forty-eight states of the United States and the District of Columbia. The only commodities covered by the subparagraph are plastic cement, asbestos roof coating and roof coating without asbestos fiber.

(iv) *Container deposits.* If the container used by any manufacturer is one which is capable of reuse, and if the manufacturer made a deposit charge for containers during March 1942, he shall not be permitted to adjust his maximum prices. If any manufacturer made no deposit charge during March 1942, and now desires to do so, he must reduce his established maximum price of his product by an amount equal to ⅓ of his "base container cost". If a manufacturer adjusts his established maximum prices to recover his "increased container cost" and desires to charge a container deposit, he must reduce his adjusted maximum price in the amount of his "increased container cost" plus ⅓ of the "base container cost".

(v) *Wholesalers, jobbers and retailers.* This subparagraph (11) permits adjustments by manufacturers. Other levels of distribution are permitted to adjust their maximum prices to the same extent as the manufacturer. Any purchaser who buys asphalt and/or tar base roof coatings and cement in containers for the purpose of resale, may increase his established maximum price by the exact amount which he is required to pay his supplier in excess of the maximum price previously charged by the said supplier. It is the purpose of this subdivision to permit wholesalers, jobbers and retailers to increase their maximum prices by the exact amount of the "increased container cost", provided such "increased container cost" is paid by them to their supplier.

(vi) *Mode of pricing.* The amount of the increase may be reflected in the mode of pricing which each seller used during the month of March 1942.

(vii) *Notification to purchasers by manufacturers.* All manufacturers selling asphalt and/or tar base roof coatings and cements in containers under the authority of this subparagraph shall send the following notice to every purchaser thereof at the time of the first sale:

We have increased our established maximum price for ---------- from ---------- to ----------. The difference represents our increased container cost. This increase is permitted by Amendment No. 10 to Order No. A-1 under Maximum Price Regulation No. 188, issued by the Office of Price Administration.

You may increase your established maximum price to the same extent, namely, ----------. Our increase and adjusted maximum price does not exceed the amount permitted by the Order of the Office of Price Administration.

If our container cost decreases, you will be notified and must reduce your established maximum price accordingly on these commodities you purchase from us at the reduced prices.

(viii) *Records and reports*—(*a*) *Records.* Manufacturers shall keep records showing how they compute their adjusted or readjusted maximum prices.

(*b*) *Reports.* Within 20 days after any adjustment or readjustment of maximum prices under this subparagraph, each manufacturer shall submit a report to the Building Materials Branch, Office of Price Administration, Washington, D. C., showing:

(*1*) The "base container cost";

(*2*) The "current container cost", including a description of the current containers, quantity purchased, and the name and address of the supplier or suppliers;

(*3*) The adjusted or readjusted maximum price and the method by which such price was established;

(*4*) Whether, in the case of a readjustment which results in a decrease, the manufacturer has notified his purchasers of the decreased prices applying on sales for the ensuing quarterly period, and the amount of the decrease.

(ix) *Adjusted maximum prices.* The following table of prices are those prices in excess of which no manufacturer may sell or deliver his products after he has adjusted his established maximum prices.

[Region III Order G-3 Under MPR 154, as Amended]

GREENSBURG ICE COMPANY, GREENSBURG, IND.

Order No. G-3 under Maximum Price Regulation 154, as amended—Ice. Order and opinion on application of the Greensburg Ice Company of Greensburg, Indiana for adjustment of its maximum prices for ice. (Formerly Order No. CV-154-17.)

On September 8, 1942, the Greensburg Ice Company of Greensburg Indiana, filed an application for adjustment of its maximum prices for ice as established by Maximum Price Regulation No. 154, and has requested that any adjustment granted be made applicable to all distributors purchasing ice from it for resale. After due consideration of the application and other available information, it has been decided that the application should be granted in part for the reasons set forth below.

The applicant is the sole remaining manufacturer of ice in the County of Decatur in the State of Indiana, and sells both at retail and at wholesale. As the result of a protracted and enervating price war between applicant and a former competitor, the prices existing at the time of the promulgation of the General Maximum Price Regulation and Maximum Price Regulation No. 154 were abnormally low. Labor, operating and delivery costs have risen appreciably since that time, and applicant's financial position is not sufficiently strong to absorb such increased costs. It is established to the satisfaction of the Regional Administrator of Region III that the perpetuation of such prices would force the applicant to discontinue operations.

By reason of the foregoing, it is found by the Regional Administrator of Region III that the maximum prices for ice established for the Greensburg Ice Company of Greensburg, Indiana, under the provisions of § 1393.12 of Maximum Price Regulation No. 154, as amended, are so low as to cause it substantial hardship and make it impossible for said company to continue selling or supplying ice; that such discontinuance will cause its customers substantial inconvenience disproportionate to the needs of the national or local economy.

Accordingly, pursuant to the authority vested in the Regional Administrator of Region III by virtue of the provisions of § 1393.8 (a) and (b) of Maximum Price Regulation No. 154 and General Order 32, the Greensburg Ice Company of Greensburg, Indiana, and all distributors purchasing ice from the Greensburg Ice Company for resale at retail are granted the following adjusted maximum prices for sales of ice at retail:

DELIVERED OR PLATFORM PRICES

1. For sales in units of 100 pounds or more:

Class of purchaser	Price per ton when monthly purchase is—	
	Less than 4000#	4000# or more
City domestic consumers	$9.00	$8.00
City commercial consumers	8.00	7.50
Rural domestic consumers	10.00	9.00
Rural commercial consumers	9.00	8.50

2. For sales in units of less than 100 pounds:

Weight	When ton price is—		
	$8.00	$9.00	$10.00
Maximum price for 75# shall be	20¢	40¢	40¢
Maximum price for 50# shall be	20¢	25¢	30¢
Maximum price for 25# shall be	10¢	15¢	15¢

The above prices are applicable both to sales on a coupon basis and on a cash basis.

The Greensburg Ice Company is hereby further granted on adjusted maximum price of $5.25 per ton for its platform sales to distributors who purchase for resale at retail.

[Region III Order G-12 Under 18 (c) of GMPR, Amdt. 2]

FLUID WHOLE MILK IN INDIANA

Amendment No. 2 to Order No. G-12 under § 1499.18 (c), as amended, of the General Maximum Price Regulation. (Formerly Order No. III-1499.18 (c)-15.) Adjustment of the maximum prices of fluid whole milk sold at retail and wholesale in the State of Indiana.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1499.18 (c) of the General Maximum Price Regulation, *It is hereby ordered*, That subparagraph B of paragraph VII be amended to read as set forth below.

VII. *Definitions.* • • •

B. Approved fluid milk is defined to mean fluid cows' milk, whether raw or pasteurized meeting the minimum butterfat content, sanitary and health requirements for fluid milk for human consumption in the particular area wherein it is delivered, including standards set by the army or navy purchasing officer making purchases for the armed forces of the United States.

This amendment no. 2 shall become effective April 23, 1943.

Issued April 22, 1943.

[Region III Order G-19 Under 18 (c) of GMPR, Amdt. 1]

RAW MILK IN INDIANA, KENTUCKY, MICHIGAN, OHIO AND WEST VIRGINIA

Amendment No. 1 to Order No. G-19 (Formerly Order No. III-1499.18 (c)-30) under § 1499.18 (c), as amended, of the General Maximum Price Regulation adjusting the maximum rates of haulers of raw milk in the states of Indiana, Kentucky, Michigan, Ohio, and West Virginia.

For the reasons set forth in the opinion attached hereto, order No. G-19 adjusting the maximum rates of haulers of raw milk in the states of Indiana, Kentucky, Michigan, Ohio, and West Virginia, is amended by the addition of two new paragraphs, as set forth below:

Notwithstanding the provisions of the preceding paragraph, this order shall not apply to any carrier hauling raw milk from a farmer or other producer thereof to processing plants located in Coldwater, Ohio, or Holgate, Ohio.

This order shall remain in effect until modified or revoked by the Regional Administrator of Region III.

This amendment No. 1 to Order No. G-19 shall become effective at 12:01 a. m. March 18, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

PART 12—REMOVALS AND REDUCTIONS

REDUCTIONS IN FORCE

Sec.
12.301 Coverage.
12.302 Transfers.
12.303 Organization unit and class.
12.304 Categories of tenure.
12.305 Order within category of tenure.
12.306 Military preference.
12.307 Length of service.
12.308 Preparation of reduction in force list.
12.309 Separations; demotions; furloughs.
12.310 Notice to employees.
12.311 Submission of reduction in force list to the Commission.
12.312 Effect of decisions on postaudits and appeals.
12.313 Prior reduction in force regulations superseded.

AUTHORITY: §§ 12.301 to 12.313, inclusive, issued under authority of sec. 1 of E.O. 9063, 7 F.R. 1075.

§ 12.301 *Coverage.* The following reduction in force procedure is promulgated for use whenever one or more employees in positions within the jurisdiction of the Commission are to be involuntarily separated or furloughed in excess of 90 days as a result of decrease or stoppage of work or funds, change in working conditions, abolition of positions, consolidation or reorganization of functions or organization structure, or upon orders of the Bureau of the Budget.

§ 12.302 *Transfers.* Whenever a department or agency in the executive branch of the government service finds that a reduction in force is necessary, the Commission shall be notified in writing immediately. Heads of departments and agencies in Washington, D. C., and vicinity shall notify the Commission's central office in Washington, D. C., of all anticipated reductions in force, departmental and field, specifying the locations where they are to be made and the probable number at each location. Heads of agencies and activities outside of Washington, D. C., and vicinity shall report anticipated reductions to the appropriate regional offices of the Commission. Representatives of the Commission will thereupon work with designated representatives of the department or agency concerned in transferring employees who are declared available to other departments and agencies whenever their services are needed and they can be effectively utilized by other departments or agencies.

Except where a reduction in force involves all employees in all classes in an organizational unit designated as a separate group for reduction in force purposes, departments and agencies shall proceed with the reduction in force procedures prescribed in the following paragraphs simultaneously with this transfer activity.

§ 12.303 *Organization unit and class.* The head of each department or establishment shall determine the organization units and classes in which the contemplated reduction in force is to be made. Organization units designated as separate groups for reduction in force purposes shall be materially distinct from each other in work functions or in geographical location and shall be organized and operated as separate entities with clearly separable staffs of employees. Ordinarily, organization units located within the same local commuting area shall not be considered to be materially distinct from each other in geographical location. The organization unit designated as a separate group for reduction in force purposes shall be as large and have as wide coverage as is administratively feasible. Consideration shall be given to making organization units correspond with the organizational jurisdiction of efficiency rating committees. Within the determined organization unit, the class in which the contemplated reduction in force is to be made shall include all positions allocated to the same class, service, and grade, and all positions of the same grade (although designated by another title) that are sufficiently alike that intertransfer of personnel is feasible. In ungraded positions, the class shall include all positions in an occupational level.

§ 12.304 *Categories of tenure.* Within the organization unit and class, the fol-

lowing categories of tenure constitute separate groups for reduction in force purposes, consideration being given to the categories in the following order:

(a) All employees serving under temporary appointment limited to a specific period of time of one year or less.

(b) All employees serving probational or trial periods in their present positions, not including those who served previously with a classified (competitive) civil service status.

(c) All employees who have completed probational or trial periods or an equivalent thereof but who do not have a classified (competitive) civil service status. (Until required appointment forms have been submitted to the Commission, employees who have completed probational periods shall not be considered as having a civil service status. The fact that the character investigation has not been completed will not prevent considering the probational period to be completed for status purposes if all other requirements have been met.)

(d) All employees serving under any type of appointment, except temporary, who have classified (competitive) civil service status in their present positions or who served previously with a classified (competitive) civil service status. (When there is doubt as to the civil service status of an employee, the Commission should be consulted.)

An employee in a lower category of tenure may be retained in preference to an employee in a higher category of tenure if the position is to be retained and its duties cannot be acceptably performed after a reasonable preliminary training period by any available employee who would be affected by reason of the retention.

Seasonal employees shall be considered in competition only with other seasonal employees in the same class of work. Reduction in force within this group shall be effected in the order of the categories of tenure.

Temporary employees and probation or trial period employees may be considered according to regulations controlling their appointment and status without regard to reduction in force procedures at the discretion of the head of the department or agency: *Provided*, That employees in the other categories of tenure are not affected thereby.

§ 12.305 *Order within category of tenure.* With respect to employees whose performance is evaluated under an efficiency rating system, the order of reduction in force within each category of tenure shall be:

(a) Employees without military preference who have "Fair" efficiency ratings, in order of reduction credits.

(b) Employees with military preference who have "Fair" efficiency ratings, in order of reduction credits.

(c) Employees without military preference who have efficiency ratings of "Good" or better, in order of reduction credits.

(d) Employees with military preference who have efficiency ratings of "Good" or better, in order of reduction credits.

Reduction credits shall be computed by giving a numerical value of 80 for a "Good" efficiency rating, 88 for a "Very Good" efficiency rating, and 96 for an "Excellent" efficiency rating, and adding one credit for each full year of service with the Federal government. No numerical value shall be given for a "Fair" efficiency rating, but one reduction credit shall be given for each full year of service with the Federal government.

With respect to all employees whose performance must be evaluated under the uniform efficiency rating system approved by the Commission, the current efficiency rating shall be used. In the event an employee does not have a current efficiency rating based on performance in a position of the class in which reduction in force is being made

and the reduction of force does not affect all employees in the category of tenure in which he falls, such employee shall be given a special efficiency rating in accordance with the regular procedure and his order in the reduction in force shall be determined accordingly. Such cases will be particularly noted in the reduction in force list by placing after their names in the remarks column the words "Special rating" followed by a statement of the number of days of service on which the rating is based.

With respect to employees whose performance is not required to be evaluated under a uniform system of efficiency ratings approved by the Commission but who are rated under an efficiency rating system approved by administrative authority, the foregoing rules shall be applied in so far as they are applicable. Reduction credits shall be given and the order of separation determined on the basis of ratings construed under the following efficiency rating definitions:

"Fair"—performance that conforms generally to that reasonably required with certain deficient performance not compensated by other outstanding performance.

"Good"—performance that conforms generally to that reasonably required with deficient performance in any phase compensated by outstanding performance in other phases.

"Very Good"—performance that is distinctly better than that reasonably required in most of the especially important phases provided no deficient performance is present in any phase.

"Excellent"—performance that is distinctly better than that reasonably required in all especially important phases provided no deficient performance is present in any phase.

Where there is no efficiency rating system in general use, or where the efficiency rating system cannot be adapted to the efficiency rating adjectives as defined above, separations in each category of tenure shall be determined on the basis of military preference and reduction credits, one credit for each full year of service with the federal government, those with the lowest number of reduction credits in the nonmilitary preference group to be selected first for separation.

An employee may be retained in preference to another employee who is higher in the order of reduction of force if the position is to be retained and its duties cannot be acceptably performed after a reasonable preliminary training period by any available employee who would be affected by reason of the retention.

No credits shall be allowed for dependency, official conduct, or like factors; but they shall be considered when two or more employees are tied for position in the order of reduction in force and one or more but not all employees so tied for position are to be affected.

§ 12.306 *Military preference.* It is incumbent upon the official charged with making a reduction in force to ascertain which among the employees affected are entitled to military preference. Such employees as are entitled to military preference but who have not furnished the necessary proof should be given opportunity to establish their claim to military preference before the reduction in force takes place.

§ 12.307 *Length of service.* Only full years of service shall be considered in the ultimate total; fractions of a year are to be counted in the periods of service that add up to the total service. The length of service shall be the total of all periods of service that are eligible for consideration for retirement purposes, without regard to whether the employee is or will be eligible to receive retirement benefits.

§ 12.308 *Preparation of reduction in force list.* The reduction in force list will be prepared in triplicate on any convenient form and will list employees in each organization unit and class in which the reduction in force is to be made (1) in accordance with the categories of tenure, and (2) in the order in which selections are to be made. The highest category of tenure shall be at the head of the list and names shall be so arranged that those first to be selected for action shall be at the bottom of the list.

The reduction in force list need give complete information only for all employees in the highest category of tenure affected. For all employees in the lower categories of tenure, the list shall show (1) the name of the employee, (2) the class title of the position occupied if different from the class title shown in the heading (supplemented in parentheses, where necessary, by the customary office title), and (3) the action to be taken. However, if any employee in a lower category of tenure is to be retained or is to be demoted to a position of a lower grade (or occupational level) rather than separated, the list must give full information for all employees from the lowest category of tenure in which this occurs to the highest category of tenure affected, inclusive. The reduction in force list shall contain:

(a) *The heading.* The heading will identify the department, bureau, division, organization unit, and class in which the reduction in force is being made.

(b) *The list.* The list, identified by the appropriate category of tenure, will contain the following information:

1. Name of employee. Names should be listed in the order of selection, with the first name to be selected at the bottom of the list.
2. Class title of position occupied by employee if different from the class title shown in the heading (supplemented in parenthesis, where necessary, by the customary office title).
3. Salary rate.
4. Statement whether employee is entitled to military preference. No entry need be made for employees not entitled to military preference.
5. Efficiency rating (adjective rating only; the numerical rating, if any, is not considered).
6. Length of service (total years of federal government service).
7. Reduction credits.
8. Action to be taken. Enter the letter "S" if employee is to be separated, "F" if employee is to be furloughed, the letter "D" if to be demoted to a position of lower grade (or occupational level). If no reduction in force action is to be taken but the salary of the employee is to be reduced, enter the letter "R". If the employee is to be retained in preference to other employees, enter an asterisk (*). Any convenient code may be used to indicate other changes if explained on the form.
9. A "Remarks" column or space for brief explanations or reference to footnotes or separate memoranda regarding basis for breaking ties when necessary, retention in preference to other employees, special efficiency rating, or any other matter which may be pertinent.

(c) *The certificate.* The reduction in force list shall bear substantially the following certificate by the head of the department or some person authorized to act for him:

I certify that the foregoing list contains the names of all employees holding positions in the organization unit and class in which a reduction in force is contemplated who are in the categories of tenure affected by such reduction in force; that, to the best of my knowledge and belief, the efficiency ratings are fair and just, and that the foregoing list is correct and in accordance with the procedure prescribed for reduction in force.

The actions proposed above are to be effective upon the expiration of accrued leave after the last day of active duty which will be _____, 19____, unless otherwise indicated in the "Remarks" column. The employees affected were notified of the proposed actions on _____, 19____.

§ 12.309 *Separations; demotions; furloughs.* Heads of departments and independent establishments shall determine whether employees affected by reductions in force shall be separated, demoted, or furloughed, in accordance with the following rules:

(a) Where the reduction in force is permanent, as nearly as can reasonably be determined administratively, the affected employees shall be separated unless they have restoration rights to lower-grade positions or unless there is an administrative policy to demote employees in higher-grade positions to lower-grade positions and make separations in lower-grade positions, in either of which cases they may be demoted. No employee entitled to military preference shall be separated instead of being demoted if any other employee of lower standing on the reduction in force list is demoted unless such employee has restoration rights to the lower-grade position or unless it can be demonstrated as a matter of fact that the employee entitled to military preference could not perform the duties of the lower-grade position within a reasonable training period.

(b) Employees may be furloughed if the reduction in force is the result of a temporary condition that will exist for less than one year. The furlough period shall be one year or the period of tenure determined by the type and restrictions of appointment, whichever is less. While on furlough, employees shall have preferential rights to recall to duty over persons who may be considered for original

appointment to positions of the class and organization unit from which furloughed, in the inverse order of furlough ranking. Employees who are not recalled to duty within the furlough period shall be separated from the service.

These provisions shall not disturb any other reinstatement or reemployment list rights that employees may otherwise have. This procedure shall not be interpreted to conflict with any statutory provisions relating to restoration ts after return from military service.

§ 12.310 *Notice to employees.* Each employee affected by a reduction in force shall be given an individual notice in writing at least 30 days before the action becomes effective. Wherever possible, the notice should be given 30 days before the employee is relieved from active duty. Whenever appropriated funds can be made available to pay for accrued leave, employees affected by reductions in force shall have at least 30 days' notice before they are separated from a pay status and shall be carried in a pay status for such additional period as is necessary to exhaust accrued leave. In no case shall an employee be separated as a result of a reduction in force without 30 days' notice in advance of such separation.

In addition to the nature of the action and the date of termination of active duty, the notice shall inform the employee:

(a) Of his right to be continued in a pay status until accrued leave is exhausted.

(b) Of his right to appeal the proposed action to the Commission (Washington employees to the Central Office and others to the appropriate regional office) within 5 days from the receipt of the notice.

(c) Of any restoration or reemployment list rights he may have, and of the procedure and departmental or field channels through which the employee may apply for other government employment.

§ 12.311 *Submission of reduction in force list to the Commission.* As soon as employees are notified of the proposed action, two signed copies of the reduction in force list shall be transmitted to the appropriate office of the Commission (Central Office in the case of employees in Washington and vicinity, and regional offices in the case of employees stationed outside of Washington and vicinity). Actions may be made effective on the date indicated on the reduction in force list without the prior approval of the Commission but subject to a postaudit in the Commission's discretion, and subject to appeal to the Commission by any employee who feels that there has been a violation of his rights under military preference laws or these regulations. Appeals from employees must be submitted to the Commission in writing within 5 days from the receipt of notice of the proposed action. Any department or establishment desiring to do so may request the Commission to preaudit and approve the reduction in force list before proposed actions have been made effective. In so far as possible, the Commission will assist departments and establishments in planning the preparation of reduction in force lists upon request.

Whenever a department or establishment determines to separate, demote, or furlough employees whose names, with complete information, have already appeared on a reduction in force list that has been certified to the Commission during the same efficiency rating period in connection with action on other cases, it shall be necessary only for the department or establishment to report such cases to the Commission, referring to the list on which the ratings appear, and certifying as to the notices to employees.

§ 12.312 *Effect of decisions on postaudits and appeals.* Whenever the Commission, in acting upon the appeal of an employee or as a result of a postaudit, disapproves the separation of an employee under these regulations, if the employee is still carried on the rolls of the department or agency shall cancel the leave, or nonpay status, the head of such department or agency shall cancel the notice of separation. In such a case, where the employee has been relieved from active duty, he shall be restored to active duty. If the employee has been separated from the service before the department or agency is advised of the disapproval of the action by the Commission, the head of such department or agency shall promptly restore the employee to the position from which separated whenever such action can be accomplished under the law and regulations and in the public interest. In the case of the disapproval of a demotion, the employee shall be restored to the position from which he was demoted. In the case of the disapproval of a furlough in excess of 90 days, the employee shall be restored to active duty immediately, if the furlough has been in effect for 90 days, or within 91 days of the time he entered a nonpay status if the furlough has not been in effect for 90 days. If additional separations, demotions, or furloughs in excess of 90 days are necessary as a result of cases disapproved by the Commission, they shall be made in accordance with reduction in force procedures. With respect to reductions of force outside of Washington, D. C., and vicinity, the decision of the Commission's Regional Director is the decision of the Commission on appeals and postaudits.

§ 12.313 *Prior reduction in force regulations superseded.* Effective immediately, these regulations supersede all rules, regulations, or interpretations, or any parts of them, which are inconsistent with the procedure contained herein.

By the United States Civil Service Commission.

TITLE 7—AGRICULTURE

Chapter VII—Agricultural Adjustment Agency

[ACP-1943-14]

PART 701—AGRICULTURAL CONSERVATION PROGRAM

SUBPART E—1943

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, and in the War Food Administrator by Executive Order No. 9322 as amended by Executive Order No. 9334, the 1943 Agricultural Conservation Program, as amended, is further amended as follows:

1. Section 701.403 (c) is amended to read as follows:

§ 701.403 *Production adjustment allowance and deductions.* • • •

(c) *Deductions for exceeding allotments.* Deductions for exceeding allotments shall be made from the remainder of the farm production adjustment allowance after any deduction provided for in paragraph (b) above has been made. If the deductions for exceeding allotments are in excess of the remainder of the farm production adjustment allowance, each person's share of the excess after proration of net deductions shall be deducted from such person's share in the production adjustment payment for any other farm in the county, and may be deducted from such person's share of the production adjustment payment for any other farm in the State, if the State committee finds that the crops grown on the farm or farms with respect to which such deductions are computed substantially offset the contribution to the program made on such other farm or farms. These deductions shall be determined as follows:

(1) *Tobacco*—(i) *Farms on which county committee determines that any crop has been destroyed or planting interfered with by flood.* No deduction.

(ii) *Other farms.* Ten times the payment rate for each acre planted to cigar filler (type 41), cigar filler and binder (except types 41 and 45) and Georgia-Florida (type 62) tobacco in excess of the applicable allotment and for each acre planted to Burley, flue-cured, dark air-cured, and fire-cured tobacco in excess of the applicable allotment plus the larger of .1 of an acre or 5 percent of the allotment, except that no deduction will be made for dark air-cured or fire-cured tobacco if an amount of such tobacco equivalent to the production of the acreage otherwise subject to deduction is delivered to an agency designated by the Food Distribution Administration for diversion to nicotine.

2. Section 701.406 (a) (1) is amended by inserting immediately following the first proviso thereof, the following:

§ 701.406 *Division of payments and deductions*—(a) *Payments and deductions in connection with crop acreage allotments and Irish potato and truck crop payments.* (1) • • • *Provided further,* That if for any reason the total acreage of cotton on a farm in 1943 is less than 80 percent of the cotton allotment for the farm and the acreage of cotton planted or which would have been planted thereon by any producer in 1943 is a substantially smaller proportionate share of the acreage planted to cotton thereon than such producer normally plants thereon and all the persons who are or would have been entitled to receive a share of the proceeds of the cotton agree, as shown by their signatures on the application for payment or a separate statement, the net payment computed for cotton for the farm shall be divided among the landlords, tenants, and sharecroppers in the proportion that the county committee determines that such persons would have been entitled to share in the proceeds of the cotton crop if the entire acreage in the cotton allotment had been planted and harvested in 1943, but in no event shall the acreage share so determined for any person be less than such person's acreage share of the acreage planted to cotton on the farm in 1943:

3. Section 701.411 (e), the second paragraph thereof, is amended to read as follows:

§ 701.411 *General provisions relating to payments.* • • •

(e) *Excess cotton acreage.* • • •

Any person who knowingly plants cotton or causes cotton to be planted on a farm in 1943 in excess of 110 percent of the 1943 farm cotton allotment shall not be eligible for payment on any farm except a farm on which the county committee determines that planting has been interfered with by flood in 1943 or on which a substantial part of any crop has been destroyed or damaged by flood or insects in 1943 so that abandonment or replanting is necessary, and the overplanting of cotton on any farm so affected by flood or insects shall not cause a person to become ineligible for payments on other farms. No person shall be deemed to have knowingly overplanted cotton on a farm if the acreage planted to cotton on the farm in 1943 does not exceed 110 percent of the farm cotton allotment by more than the larger of three acres or three percent. Otherwise, he shall be presumed to have knowingly overplanted cotton on the farm if notice of the farm cotton allotment is mailed to him prior to the completion of the planting of cotton on the farm and he fails to establish the fact that the excess acreage was planted to cotton due to his lack of knowledge of the number of acres in the tract(s) planted to cotton. Such notice, if mailed to the operator of the farm, shall be deemed to be notice to all persons sharing in the production of cotton on the farm in 1943.

Done at Washington, D. C., this 4th day of August 1943.

MARVIN JONES,
War Food Administrator.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-372]

PEERLESS STEEL EQUIPMENT CO.

Peerless Steel Equipment Company, Philadelphia, Pennsylvania, is a corporation engaged in the manufacture of filing cabinets, furniture and furnishings principally for equipment for vessels. Subsequent to June 1, 1942 the company manufactured and assembled 9,324 wooden, four-drawer filing cases containing more than two pounds per drawer of essential operating steel hardware. This item is a Group III product, as defined in Supplementary Limitation Order L-13-a, and its manufacture and assembly are prohibited by said order. At the time the company manufactured and assembled these filing cases, as aforesaid, they had knowledge of the provisions of Supplementary Limitation Order L-13-a, but nevertheless used steel in excess of the permitted amount, because they found it advantageous to them to do so. Such conduct was deliberate and wilful.

This violation of Supplementary Limitation Order L-13-a has hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered,* That:

§ 1010.372 *Suspension Order No. S-372.* (a) Peerless Steel Equipment Company, its successors and assigns, are hereby prohibited from manufacturing, assembling, producing or selling any filing cases made of any materials, for a period of six (6) months from the effective date of this order, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Peerless Steel Equipment Company, its successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on August 5, 1943, and expire on February 5, 1944, after which latter date it shall have no further force and effect.

Issued this 29th day of July 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-374]

PEERLESS ALLOY CO.

Peerless Alloy Company, a corporation, of 1445 Osage Street, Denver, Colorado, is engaged in the business of smelting, refining and alloying tin and tin products. Between April 1, 1942 and November 15, 1942, it delivered 9663 pounds of tin to customers which had not furnished it with certificates as required by General Preference Order M-43, as amended. Between April 29, 1942 and December 8, 1942, it sold and delivered to Wensley Metal Products Company over 90,000 pounds of solder having a tin content of more than 16 per cent by weight, without receiving therefor any preference rated orders or certificates, as required by Amendment No. 2 to General Preference Order M-43, dated April 10, 1942. At the time of these transactions Peerless Alloy Company had knowledge of the provisions of General Preference Order M-43, and these unauthorized deliveries of tin and tin products were so grossly negligent as to constitute wilful violations of the order.

These violations have hampered and impeded the war effort of the United States by distributing scarce materials in a manner unauthorized by the War

Production Board. In view of the foregoing; *It is hereby ordered,* That:

§ 1010.374 *Suspension Order No. S-374.* (a) Peerless Alloy Company, its successors and assigns, shall not purchase, accept delivery of, sell, deliver, process or otherwise deal in tin, as defined in General Preference Order M-43, except as specifically authorized in writing by the War Production Board.

(b) Deliveries of material to Peerless Alloy Company, its successors or assigns, shall not be accorded priority, directly or indirectly, over deliveries under any other contract or order, and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, or any other orders or regulations of the War Production Board, except as specifically authorized in writing by the War Production Board.

(c) No allocation shall be made to Peerless Alloy Company, its successors or assigns, of any material the supply or distribution of which is governed by any order of the War Production Board, except as specifically authorized in writing by the War Production Board.

(d) The provisions of this order shall not apply to the purchase, use, manufacture, sale or delivery by Peerless Alloy Company of tin for end use in "implements of War", as defined in General Preference Order M-43, but in all such cases the Company shall, as a condition precedent to delivery, secure from its purchasers a written statement to the effect that the tin is to be used in the manufacture of, or incorporated into, "implements of war".

(e) Nothing contained in this order shall be deemed to relieve Peerless Alloy Company, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except in so far as the same may be inconsistent with the provisions hereof.

(f) This order shall take effect on August 5, 1943, and shall expire on November 5, 1943.

Issued this 29th day of July 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-375]

WENSLEY METAL PRODUCTS CO.

Wensley Metal Products Company, a corporation, of 1445 Osage Street, Denver, Colorado, is engaged in the business of extruding, manufacturing and selling metal pipe and tin products. From April 16, 1942, through October 30, 1942, it violated General Preference Order M-43, by selling and delivering 7594 lbs. of solder having a tin content of more than 16 per cent by weight, on orders which bore no preference ratings, and which were not otherwise permitted. Wensley Metal Products Company had knowledge of the provisions of General Preference Order M-43, and these unauthorized deliveries of solder were made with such gross negligence as to constitute wilful violations of said order.

These violations have hampered and impeded the war effort of the United States by distributing scarce materials in a manner unauthorized by the War Production Board, and also diverting them to unauthorized uses. In view of the foregoing; *It is hereby ordered,* That:

§ 1010.375 *Suspension Order No. S-375.* (a) Wensley Metal Products Company, its successors and assigns, shall not purchase, accept delivery of, sell, deliver, process or otherwise deal in tin, as defined in General Preference Order No. M-43, except as specifically authorized in writing by the War Production Board.

(b) Deliveries of material to Wensley Metal Products Company, its successors or assigns, shall not be accorded priority, directly or indirectly, over deliveries under any other contract or order, and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, or any other orders or regulations of the War Production Board, except as specifically authorized in writing by the War Production Board.

(c) No allocation shall be made to Wensley Metal Products Company, its successors or assigns, of any material the supply or distribution of which is governed by any order of the War Production Board, except as specifically authorized in writing by the War Production Board.

(d) The provisions of this order shall not apply to the purchase, use, sale or delivery by Wensley Metal Products Company of tin for end use in "implements of war", as defined in General Preference Order M-43, but in all such cases the company shall, as a condition precedent to delivery, secure from its purchasers a written statement to the effect that the tin is to be used in the manufacture of, or incorporated into, "implements of war".

(e) Nothing contained in this order shall be deemed to relieve Wensley Metal Products Company, its successors or assigns, from any restriction, prohibition or provision contained in any order or regulation of the War Production Board except in so far as the same may be inconsistent with the provisions hereof.

(f) This order shall take effect on August 5, 1943, and shall expire on November 5, 1943.

Issued this 29th day of July 1943.

Chapter XI—Office of Price Administration

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RO 1 C]

MILEAGE RATIONING: TIRE REGULATIONS FOR THE VIRGIN ISLANDS

Preamble: This Ration Order No. 1 C for the Virgin Islands is issued pursuant to the direction of the Rubber Director to carry out the recommendations of the report of the President's special Committee to study the rubber situation.

The Committee's report states:

We are faced with certainties as to demands; with grave insecurity as to supply. Therefore, this Committee conceives its first duty to be the maintenance of a rubber reserve that will keep our armed forces fighting and our essential civilian wheels turning. This can best be done by "bulling through" the present synthetic program and by safeguarding jealously every ounce of rubber in the country.

The Committee points out that the tires on civilian cars have been wearing down at a rate eight times greater than they have been replaced. If this rate were permitted to continue "by far the larger number of cars will be off the road next year and in 1944 there will be all but complete collapse of the 27 million passenger cars in America." The conservation program recommended by the Committee includes "more rubber to those who need it; less to those who don't. . . . Only actual needs, not fancied wants, can or should be satisfied."

This order has been geared to the Gasoline Regulations for the Virgin Islands (Ration Order No. 8) and puts into practice the various recommendations of the Committee. These recommendations include:

1. Immediate institution of a tire replacement and recapping program with the allocation of reclaimed rubber for that purpose.
2. Nation-wide gasoline rationing to hold the average annual mileage to 5,000 miles.
3. Prompt and strict enforcement of a nation-wide speed limit not exceeding thirty-five miles an hour. . . .
4. Compulsory periodic tire inspection.

The mileage rationing. Tire regulations (Ration Order 1 C) control the use, care and acquisition of tires, tubes and recapping services for all types and classes of rubber borne motor vehicles and are adjusted to conform to local transportation conditions in the Virgin Islands.

§ 1315.15 *Mileage rationing: tire regulations for the Virgin Islands.* Under the authority vested in the Office of Price Administration and the Price Administrator by Directive No. 1 of the War Production Board, issued January 24, 1942, and by Supplementary Directive No. 1–J as amended, issued October 27, 1942, this Ration Order No. 1 C (Mileage Rationing: Tire Regulations for the Virgin Islands) which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: Section 1315.15 issued under Pub. Law 671, 76th Congress, as amended by Public Law 89, 77th Congress and by Public Law 507, 77th Congress, Public Law No. 421 and 729, 77th Congress; Executive Order 9125, 7 F.R. 2719, issued April 7, 1942, WPB Directive No. 1, issued January 24, 1942, Supp. Directive No. 1–J as amended, issued October 27, 1942.

SEC. 1.2 *Effect on other ration orders.* Ration Order No. 1 C shall not be construed to permit any act which would be in violation of any other ration order issued by the Office of Price Administration.

Article II—Definitions

SEC. 2.1 *Definitions.* (a) For the purpose of this Ration Order No. 1 C:

(1) "Acquire" means to accept a transfer.

(2) "Board" means a war price and rationing board established by the Office of Price Administration.

(3) "Bus" means any motor vehicle, other than a station wagon or suburban carryall, built or rebuilt primarily for the purpose of carrying passengers, licensed by a municipality of the Virgin Islands to carry passengers for hire, and having a rated seating capacity of eight or more persons.

(4) "Camelback" means any rubber compound designed for application to a worn tire to make a new tread in the process of recapping.

(5) "Certificate" unless the context requires otherwise, means a certificate issued by the Office of Price Administration authorizing the acquisition of any tire, tube or recapping service.

(6) "Consumer" means any person who holds or acquires a tire or tube for use and not for resale.

(7) "Dealer" means any person, other than a manufacturer, engaged in the business of recapping tires, or selling tires, tubes or camelback.

(8) "Director" means the Director of the Office of Price Administration for the Virgin Islands.

(9) "Grade I", as applied to tires, means a new passenger type tire other than a Grade III tire.

(10) "Grade III", as applied to tires, means a passenger-type tire which is either a used or recapped tire or a new tire manufactured principally from reclaimed rubber as specified by the War Production Board.

(11) "Implement tire" means a tire which has the word "implement" or the name of a type of farm equipment, other than a tractor or combine, molded into the sidewall of the tire by the manufacturer.

(12) "Manufacturer" means any person engaged in the business of manufacturing tires, tubes, or camelback.

(13) "New", as applied to tires and tubes, means a tire or tube that has been used less than 1,000 miles.

(14) "Passenger automobile" means any motor vehicle, (other than an ambulance, hearse or taxicab), built primarily for the purpose of transporting persons and having a rated seating capacity of seven or less persons, including any motorcycle, station wagon or suburban carryall.

(15) "Passenger-type camelback" means Grade F camelback as defined by the War Production Board.

(16) "Passenger-type tire" means a tire primarily designed for use on a passenger automobile.

(17) "Person" means any individual, partnership, corporation, association, government, government agency, or subdivision, or any other organized group or enterprise.

(18) "Recapping" means the process of tread renewal in which camelback is applied to the tread surface of a tire.

(19) "Recapping service" means the recapping of a certificate holder's tire, or the transfer by a dealer or manufacturer to a certificate holder of a recapped tire in exchange for a recappable tire carcass.

(20) "Rubber" means any form or type of natural, reclaimed, or synthetic rubber, or other similar materials.

(21) "Serial number" means the serial number either on the sidewall or on the inner surface of a tire or, if no such number appears on a tire, the brand name.

(22) "Tire" means any solid or pneumatic rubber tire or casing capable of being used, or capable of being repaired for use, on a passenger automobile, bus, truck or farm implement.

(23) "Transfer" means any change in right, title, interest, possession or control, including but not limited to, sale, purchase, lease, loan, trade, exchange, gift, delivery, shipment and hypothecation.

(24) "Truck-type camelback" means Grade A or Grade C camelback as defined by the War Production Board.

(25) "Tube" means any rubber type capable of being used, or capable of being repaired for use, within a tire casing on a passenger automobile, bus, truck or farm implement.

(26) "Truck" means any vehicle, other than a motorcycle, built or rebuilt primarily for the purpose of transporting or hauling property or equipment.

(27) "Used", as applied to tires and tubes, means any tire or tube which has been used 1,000 miles or more.

(b) Where the context so requires, words in the singular shall include the plural, words in the plural shall include the singular, and the masculine gender shall include the feminine and neuter.

Article III—Administration, Jurisdiction and Quota

SEC. 3.1 *Administration and personnel*—(a) *Personnel.* Ration Order No. 1 C shall be administered by the Office of Price Administration through its Boards and such other administrative personnel as it may select. The persons appointed to administer Ration Order No. 1 C shall have such powers and duties as are herein described and as the Office of Price Administration has delegated, and may from time to time delegate.

(b) *Self interest shall disqualify official.* No person participating in the administration of Ration Order No. 1 C shall act officially in any matter arising thereunder as to which he has any interest, by reason of business connection or relationship by blood, marriage or adoption.

SEC. 3.2 *Jurisdiction of Boards.* A board shall have jurisdiction to receive and act upon applications with respect to a vehicle normally stationed or garaged within the area served by the board.

SEC. 3.3 *Quotas*—(a) *Quota not to be exceeded by boards.* No board shall issue a certificate for the acquisition of tires, tubes, or recapping service in excess of its quota established by the Office of Price Administration.

(b) *Basis for board consideration.* If a board has before it eligible applications in excess of its quota, the board shall, in determining which of the competing applications are to be granted, be governed by the relative importance of each applicant to the war effort, public health and public safety. The board shall base its determination upon the application for a certificate, the application for a gasoline ration for the vehicle for which tires, tubes or recapping services are sought, and all other information which comes to its knowledge. The board shall at all times serve the objectives sought to be accomplished by the tire rationing program and allot certificates for the most vital civilian uses and for uses essential to the war effort.

(c) *List B vehicles.* No board shall issue a certificate for a vehicle eligible under section 4.4 (b) (List B) except between the twentieth and the last day of a month. No such certificate shall be granted at any time if there is pending any application for a vehicle eligible under section 4.4 (a) (List A).

Article IV—Proof of Need and Eligibility

SEC. 4.1 *General proof of need.* No board shall grant a certificate authorizing any consumer to acquire a tire, tube, or recapping service, and no consumer shall accept such a certificate, unless the applicant is eligible under either section 4.2, 4.4, or 4.5 and in addition meets each of the following conditions:

(a) *Immediate need.* That the tire, tube, or recapping service for which application is made is to equip a vehicle held for use and not for resale and is:

(1) To replace a tire which requires recapping or which will require recapping by the date the applicant may reasonably be expected to secure replacement; or

(2) To replace a tire or tube which cannot be repaired, but not as a result of applicant's abuse; or

(3) To replace a lost or stolen tire or tube; or

(4) To equip a vehicle which requires tires or tubes because of alteration or reconstruction; or

(5) To replace a tire or tube delivered as original equipment upon a vehicle, if the tire or tube is not serviceable for the use to which the vehicle is to be put.

(b) *No abuse or neglect.* That the applicant has not in any manner abused or neglected or permitted to be abused or neglected the tire or tube which he seeks to replace or recap. The board may consider, among other things, as evidence of tire abuse:

(1) That the vehicle for which a certificate is sought has been operated in excess of the applicable speed limit; or

(2) That the tire for which replacement is sought has become unfit for recapping through the fault of the applicant, such as failure to make timely application for a replacement, or driving for unnecessary purposes or when other means of transportation are available.

(c) *Unlawful mileage.* That the applicant has not used the tires or tubes which he seeks to replace or recap on a vehicle which has been used for purposes other than those permitted under Ration Order No. 8 or for mileage in excess of that allowed by Ration Order No. 8.

(d) *Ply construction.* That, if the application is for a certificate for a new passenger-type tire of six or more ply construction, the vehicle upon which the tire is to be mounted cannot be operated satisfactorily in the use to which it is to be put with a tire of less than six-ply construction.

(e) *No available tire or tube.* That the applicant, other than a Federal, Insular, municipal or foreign government or government agency, does not own or control a tire or tube, other than tires or tubes mounted upon vehicles in current use (including one spare for each size wheel per vehicle) which can be used, or repaired for use, in lieu of the tire or tube sought to be replaced or the tire sought to be recapped. In computing the number of tires or tubes owned or controlled, applicant need not include tires or tubes reported on OPA Form R–17 or R–17 (revised).

(f) *Tire inspection.* That the applicant has declared all his tires upon a Tire Inspection Record; and that the applicant's Tire Inspection Record has been signed by an authorized tire inspector showing that the required tire inspections have been made, and that either the serial number of the tire to be replaced has been entered upon such record or the applicant has Part D of a certificate authorizing acquisition of such tire. A board may waive the requirement that the applicant have a Tire Inspection Record showing the required tire inspections if the applicant can establish that serious illness of the applicant or the physical condition or location of the vehicle made it impossible to obtain the required inspections, and if the current inspection shows no evidence of abuse or neglect of any of the tires or tubes upon the vehicle. The provisions of this paragraph shall not apply to vehicles exempt from maintaining a Tire Inspection Record under section 6.1.

(g) *Gasoline ration.* That, if application is made to equip a passenger automobile, the applicant has a gasoline ration currently valid under Ration Order No. 8.

(h) *Condition of vehicle.* That the vehicle for which application is made is capable of operation without abuse of tires and is not in such a condition of disrepair as to prevent its operation for the purposes stated in the application.

SEC. 4.2 *Eligibility of passenger automobile*—(a) *Reconsideration of gasoline ration.* When application is made for a tire, tube, or recapping service for a passenger automobile, the board shall reconsider the applicant's gasoline ration before passing upon his application.

(b) *Redetermination of supplemental or fleet ration.* If upon reconsideration of the gasoline ration as provided in paragraph (a) of this section, the board finds that the applicant has been granted either a larger or a smaller gasoline ration than he is entitled to under Ration Order No. 8, or a ration of a class other than to which he is entitled under Ration Order No. 8, it shall recall excess gasoline coupons or issue an additional or a different gasoline ration for the corrected mileage: *Provided, however,* That no gasoline coupons shall be recalled if application is made for a fleet passenger automobile using an interchangeable gasoline ration book, but such mileage redetermination shall be used as the basis for determining whether the applicant is entitled to a Grade I or a Grade III tire.

(c) *Eligibility determined on basis of adjusted gasoline ration.* When the board has adjusted an applicant's mileage requirements pursuant to paragraphs (a) and (b) of this section, it shall determine the applicant's eligibility for a tire, tube, or recapping service on the basis of such adjusted mileage, and not on the basis of his former allowed gasoline mileage, in accordance with the following table:

Total allowed gasoline mileage	Kind of tire or recapping service	Kind of tube
440 or less miles per month	Recapping service with passenger-type camelback if applicant has a recappable tire carcass; or a Grade III tire, at applicant's option.	New or used at applicant's option.
441 miles per month or over	Recapping service with passenger-type camelback if the applicant has a recappable tire carcass, or a Grade I or Grade III tire at applicant's option.	New or used at applicant's option.
For fleet passenger automobiles for which interchangeable gasoline ration books have been currently issued.	Recapping service with passenger-type camelback if applicant has a recappable tire carcass; or a Grade III tire, at applicant's option.	New or used at applicant's option.

Provided, That an applicant applying for a fleet passenger automobile for which an interchangeable gasoline ration book has been currently issued may receive a certificate for a Grade I tire only if he establishes that the particular vehicle will be operated 441 or more miles per month:

Provided, further, That, in applying the mileage requirements stated in this paragraph, mileage allowed on a special ration issued pursuant to Ration Order No. 8 shall not be included.

(d) *Exceptions to eligibility—mileage not governing.* (1) An applicant may obtain a certificate for any grade of tire or tube if he clearly establishes that he must answer emergency calls which require him to operate a passenger automobile at high rates of speed, and that the vehicle is:

(i) Used exclusively for maintaining fire-fighting services or in investigation or patrolling necessary to the maintenance of public police services; or

(ii) Used by a licensed physician, surgeon, veterinarian, midwife, or nurse, for making necessary professional calls or rendering necessary professional services; or

(iii) Used as an emergency maintenance vehicle by a public utility and is clearly and permanently marked as such.

(2) An applicant whose allowed gasoline mileage would entitle him to a Grade I tire may be limited by a board to a certificate for a Grade III tire if the length of time for which he will need his allowed monthly mileage will be substantially less than the normal life of a Grade I tire.

SEC. 4.3. *Additional proof of need for truck, bus or taxicab.* In addition to meeting all the conditions of section 4.1 an applicant for a tire, tube, or recapping service for a truck, bus, or taxicab, must meet the following conditions:

(a) *Importance to war effort, public health, or safety.* That the functions to be performed by the use of the tire, tube, or recapping service are essential to the war effort, the public health or the public safety; and

(b) *Comparative need.* That the issuance of the certificate to the applicant will not deprive other applicants of tires, tubes, or recapping service needed to perform functions deemed by the Board to be more essential to the war effort, public health or public safety than the functions performed by the applicant; and

(c) *Passenger-type tires unavailable.* That, if application is made for a truck-type tire, a passenger-type tire of suitable size is not available in the muncipality; and

(d) *No other vehicle available.* That if application is made for a vehicle eligible under section 4.4 (a) (List A), all other vehicles owned or controlled by the applicant are either eligible under section 4.4 (a) (List A) or cannot practicably be used to perform the services for which a certificate is sought.

SEC. 4.4 *Eligibility of truck, bus, or taxicab*—(a) *List A.* A certificate may be issued for any tire, tube, or recapping service for a truck or bus which meets the applicable conditions of sections 4.1 and 4.3, and which is used exclusively for one or more of the following purposes:

(1) As an ambulance, for the transportation of injured or sick persons; or a hearse, for the transportation of deceased persons.

(2) To transport mail on behalf of the United States Government.

(3) To maintain fire fighting services.

(4) To maintain necessary public police services, to enforce laws relating specifically to the protection of public health or property.

(5) To maintain garbage and night soil disposal, and other sanitation services.

(6) To transport passengers as part of the services rendered to the general public by a bus from which the general public may obtain service upon payment of a standard fare, if such services are

rendered along regular routes or with regular schedules. No certificate shall be issued for a bus used for sight-seeing trips or similar excursions.

(7) Transporting students, teachers, or other school employees between their homes, or regular stops, and regular places of instruction.

(8) Transporting workers (including executives, technicians, or office workers) to, from, within or between the establishments or facilities listed below, where other practicable means of transportation are not available:

(i) Naval, military, or hospital establishments or facilities;

(ii) Establishments or facilities of common carriers, or other carriers performing services essential to the community or to the war effort; or plants engaged in the production or distribution of light, power, electricity, or sanitation systems; or telephone, telegraph, radio, or other communication systems; or construction projects;

(iii) Industrial, extractive, or agricultural establishments essential to the war effort.

(9) Transporting the following persons: (i) Persons between their homes and their places of regular weekly worship for the purpose of attending religious services, where other practicable means of transportation are not available.

(ii) Civilians from their homes for purposes of evacuation, in the interest of their safety and to serve military purposes, or to their homes after evacuation, pursuant to orders of governmental or military authorities.

(10) To transport persons by taxicab. No certificate shall be issued to any taxicab unless the operator presents to the Board a receipt of registration as a "taxicab" issued to the operator by the appropriate municipal authority, or in lieu thereof, presents such evidence as the Board may in its discretion require to satisfy it that the applicant customarily operates his vehicle as a taxicab. The Board shall refuse to grant the certificate unless the applicant can establish that his vehicle is regularly available as a taxicab to any member of the general public at an established stand or call station. A taxicab shall be eligible only for a Grade III tire unless its allowed monthly mileage, pursuant to Ration Order No. 8 exceeds 440 miles a month. No tire or tube obtained on a certificate issued under this subparagraph shall be used on any taxicab unless it:

(i) Carries as many persons as is legally and practicably possible on each trip;

(ii) Is conspicuously marked as a taxicab.

(iii) Does not "cruise" for the purpose of seeking fares; and

(iv) Is not used for sightseeing purposes.

(11) For transportation of any property by a common carrier which holds itself out to serve the public at standard rates, fixed in advance, and which does not serve persons whom it chooses as its customers on terms separately arranged for each customer.

(12) For transportation, by contract or private carriers, of the following kinds of property:

(i) Ice, water, milk, and fuel.

(ii) Materials and equipment for strictly essential farms, highway, industrial, or government construction, maintenance or repair.

(iii) Waste and scrap material.

(iv) Such raw materials, semi-manufactured goods, and finished products, including foods and farm products, as are essential to the war effort or to the public health and safety. No certificate shall be issued, except to a common carrier, for transportation of such commodities to the ultimate consumer for personal, family, or household use, or for transportation to any person other than a shipper for purposes of export of alcoholic beverages, soft drinks and similar beverages, finished tobacco products, ice cream, confections, candy, flowers, toys, novelties, jewelry, radios, phonographs, musical instruments, or any luxury goods, or for furnishing transportation for the purpose of repairing any such effects, equipment, furniture, or machines as are portable, or for the purpose of providing materials or service solely for landscaping or beautification of any construction project or other establishment, except as such transportation or deliveries can be made in conjunction with and incidental to the transportation of commodities or services recognized as eligible herein, without diverting the vehicle from its normal route or schedule.

(b) *List B.* A certificate for any tire, tube, or recapping service may be granted for a truck which meets the applicable requirements of sections 4.1 and 4.3 and is used for any important purpose not included in section 4.4 (a) (List A), subject to the following conditions:

(1) Certificates may be granted under this paragraph to equip trucks performing functions which the board may find to be essential to the community, such as delivering milk, bread or other foods to the ultimate consumer for personal, family, or household use, and other vehicles performing services not provided for in section 4.4 (a) (List A).

(2) No certificate shall be granted under this paragraph if the transportation services can be obtained by using animal-drawn vehicles.

(3) The board shall issue certificates under this paragraph only between the twentieth day and the last day of a month. No such certificate shall be granted if its issuance would exceed the applicable quota, or if there is pending any application for a vehicle eligible under section 4.4 (a) (List A) which has not been satisfied.

(c) *Trucktype camelback.* No certificate shall be issued authorizing the acquisition of truck-type camelback for recapping a tire to be mounted on any station wagon or passenger automobile, unless the vehicle is a taxicab.

SEC. 4.5 *Eligibility of farm implement, industrial equipment and nonhighway vehicle*—(a) *Eligibility requirements.* A certificate authorizing the acquisition of a tire, tube, or recapping service necessary to equip a vehicle which meets the applicable conditions of sections 4.1 and 4.3, and is designed and used as one of the following may be granted, provided tires are essential for its operation:

(1) A farm tractor or other farm implement. Tractors or combines may be issued certificates to acquire tractor tires or implement tires only. Other types of farm equipment may be issued certificates for implement tires only: *Provided, however,* That if an implement or front wheel tractor tire of suitable size is not available, the board may issue a certificate for a Grade III tire.

(2) Industrial and construction equipment, other than passenger automobiles, or vehicles eligible under section 4.4.

(3) Non-highway vehicles for road grading, earth-moving, or similar off-the-road purposes.

(b) No certificate shall be issued for any vehicle regularly drawn by an animal.

(c) A certificate for a spare tire or tube may be issued for any vehicle which satisfies the conditions of this section, if the board finds that a spare tire or tube is necessary for the continued operation of the vehicle.

SEC. 4.6 *Issuance of certificates by Office of Price Administration.* (a) Certificates for tires, tubes or recapping service may be issued by the Director, in his discretion, to the Army, Navy, Marine Corps, Coast Guard and the law enforcement agencies of the United States, solely for the use of such agencies and for distribution to and use by their officers, agents, or employees in the performance of official duties which depend upon secrecy.

SEC. 4.7 *Eligibility for allotment of tires and tubes*—(a) *Applicant must be a dealer.* The Director or Assistant Director may issue certificates authorizing the following persons to acquire allotments of passenger type tires and tubes:

(1) A person who was a dealer on December 31, 1942, and who filed OPA Form R–17 for the quarter ending December 31, 1942, for the establishment for which application is made;

(2) A person who intends in good faith to become a dealer may obtain an allotment of tires and tubes, if he, or a person in his employ, has had previous experience in the sale and servicing of tires, possesses the equipment and facilities necessary to inspect and service tires properly and agrees to become a tire inspector. The Director or Assistant Director may refuse the allotment if granting it will defeat or impair the effectiveness or policies of this Ration Order No. 1 C.

(b) *Amount of allotment of grade III tires.* Application for an allotment of Grade III tires shall be made on OPA Form R–54. Each applicant may be allotted a number of Grade III tires equal to forty per centum of the total number of passenger type tires sold by him during the calendar year 1941, but any applicant shall be entitled to at least six (6) Grade III tires; *Provided,* That a certificate shall be granted to authorize the acquisition of no more than the difference between such allotment and his inventory of Grade III tires (including Parts B of certificates authorizing the acquisition of Grade III tires which he received in exchange for Grade III tires, but upon which he has not yet obtained replenishment) as of the date of his application.

(c) *Amount of allotment of Grade I tires.* Application for Grade I tires shall be made on OPA Form R–54. In addition, each applicant may be allotted a number of Grade I tires equal to twenty per centum of his allotment as set forth in paragraph (b) above, but any applicant shall be entitled to at least three (3) Grade I tires: *Provided,* That a certificate shall be granted to authorize the acquisition of no more than the difference between such allotment and his inventory of Grade I tires (including Parts B of certificates authorizing the acquisition of Grade I tires which he received in exchange for Grade I tires but upon which he has not yet obtained replenishment) as of the date of his application.

(d) *Allotment of tubes.* Each applicant authorized to acquire an allotment of passenger type tires as provided in paragraph (b) and (c) above may be granted a certificate by the Director or Assistant Director authorizing him to acquire one passenger type tube (either new or used) for each passenger type tire that he has been authorized to acquire.

(e) *One allotment only.* The Director or Assistant Director shall grant only one allotment to an applicant under paragraph (b); one allotment under paragraph (c); and one allotment under paragraph (d) for each establishment for which such allotments are sought.

(f) *Calculation of sales by dealers in business part of 1941.* In determining his allotments under this section, an applicant who was a dealer for at least one (1) month in 1941 but for less than the entire year, may calculate his annual sales of passenger type tires and tubes by multiplying by twelve (12) his average monthly sales for the time during 1941 that he was a dealer.

Article V—Applications and Certificates

SEC. 5.1 *Applications*—(a) *Who may execute and file.* Any person may file with the board having jurisdiction an application for a certificate authorizing the acquisition of tires, tubes or recapping service. Application may be made by an agent; but if the agent is not an employee of the applicant, he may sign the application only if the applicant for whom he is acting is physically unable to sign or is outside the area served by the board. No member or employee of the board to whom application is made and no authorized tire inspector shall act as agent of an applicant. The board may require that principal and agent, or owner and operator join in an application.

(b) *Contents of application.* Each applicant shall set forth (1) facts showing jurisdiction of the board, (2) facts showing need and eligibility for the tires, tubes or recapping service for which application is made; and (3) such additional information and commitments as may be required by the application or by the board.

(c) *Presentation of tire inspection record.* Any applicant for a certificate who is required to have a Tire Inspection Record shall present to the board such record at the time of filing his application. If the serial numbers of any tire shown on the Tire Inspection Record are different from those previously entered on the record, the applicant shall produce Part D of a certificate authorizing the acquisition of such tire.

(d) *Certification by applicant.* The applicant shall, in his application, state the true and complete facts required by the application or the board to be set forth therein, and shall certify such facts. If an application is made by an agent, both the principal and agent shall be bound by and deemed to have knowledge of all statements set forth in the application.

SEC. 5.2 *Filing of applications.* Applications for certificates authorizing the acquisition of tires, tubes or recapping service shall be filed with the board having jurisdiction under § 3.2. A separate application must be filed on OPA Form R–1 (Revised) for each vehicle.

SEC. 5.3 *Certification by inspector prior to filing of application*—(a) *Inspection of tires and tubes.* No consumer may file an application for a certificate, and no such application shall be considered by a board, until an inspector appointed and authorized by the Director has currently inspected the tires or tubes to be replaced or recapped and has executed and signed the "Certification by Inspector" contained in OPA Form R–1 (Revised). This paragraph shall not apply when application is made to acquire a tire or tube necessary to equip an altered or reconstructed vehicle, or a vehicle not equipped with the number of tires permitted in section 4.1 (e), or to replace a lost or stolen tire or tube.

(b) *Thorough inspection required.* No inspector may certify any fact concerning the condition of a tire or tube without making a personal and adequate inspection to determine such fact; and no inspector shall certify that a tire can be recapped or that a tube needs replacement unless he removes the tire or tube from the wheel or rim.

(c) *No compensation to be paid for inspection.* No applicant may pay any compensation for the certification or the inspection required by this section, except that sums, not in excess of those set forth in the following schedule, may be paid the inspector, or any other person, for the service of removing and replacing a tire when such service is necessary for inspection purposes:

Type of tire	*Maximum fee*
(1) Passenger car tires, each	$0.25
(2) Small truck tires (7.50–20 or smaller) each	.50
(3) Large truck tires (larger than 7.50–20) each	.75
(4) Aditional charge for removing inside dual truck tires (larger than 7.50–20)	.50

SEC. 5.4 *Investigation of facts by boards*—(a) *Power of the board.* Before issuing a certificate the board may require such assurances and proof of such facts as it may deem necessary to determine whether an applicant should be issued a certificate. For this purpose the board may make inquiries and investigations and may require an applicant to appear in person or by agent at the Office of the Board at a designated time and supply such additional evidence and information and furnish such records and affidavits as may relate to the application.

(b) *Additional information.* If the applicant is applying for tires or tubes to be mounted on a vehicle which has less than the number of tires and tubes permitted by section 4.1 (e) and which he has purchased or contracted to purchase, the board shall require him to submit together with his application an affidavit from the vendor of the vehicle stating in full the reasons why the vehicle is not equipped with a sufficient number of tires or tubes. The board must be satisfied from such an affidavit before it may grant a certificate that the vendor is not responsible for the lack of a sufficient number of tires or tubes for such vehicle.

SEC. 5.5 *Notation of reasons for action.* Whenever the board acts upon an application, it shall note the reasons for its action upon the application. If the application is granted, the number, grade, and type of tires or tubes, or the type of recapping service shall be noted upon the application.

SEC. 5.6 *Form of certificates to be issued*—(a) *By a board.* The board may issue to an applicant who has established need and eligibility under this Ration Order No. 1 C a certificate on OPA Form R–2 (Revised) authorizing an applicant to acquire tires, tubes, or recapping service. Separate certificates shall be issued for tires and for tubes and for recapping service.

(b) *By director or assistant director.* The Director or Assistant Director may issue the following certificates to an applicant:

(1) *For allotment of tires or tubes.* OPA Form R–2 (Revised) authorizing an applicant to acquire an allotment of Grade I or Grade III tires or passenger tubes.

SEC. 5.7 *Certificates non-transferable.* No certificate or any part thereof may be transferred except as authorized by Ration Order No. 1 C, or by the Office of Price Administration, or in exchange for tires, tubes or recapping service.

SEC. 5.8 *Execution and issuance of certificate*—(a) *Execution of certificates.* It shall be the responsibility of the board prior to issuing any certificate to fill in Parts A and B of the certificate setting forth the information required. It shall also be the responsibility of the board to indicate on Parts C and D of the certificate the number of the board and its address. No certificate shall be valid unless Part A is signed by the issuing officer of the board, who may be either a member of the board or one of its clerks designated to act as issuing officer.

(1) The board shall indicate on the certificate the tubes or the serial number of the tires to be replaced (including scrap tires or tubes), which the applicant must turn in. If the tire to be

replaced is a recappable carcass, the board shall write on the certificate after the serial number of such tire "recappable carcass."

(f) The applicant shall turn in all tires and tubes to be replaced, except when he is having his tire recapped, or if he can establish that he has no tires or tubes to turn in because he is acquiring a tire or tube necessary to equip a vehicle not equipped with the number of tires or tubes permitted by section 4.1 (e), replacing a lost or stolen tire or tube, or is a government agency forbidden by law to make such disposition.

(2) The board shall indicate on the certificate the exact number, type, grade, and size of the tires or tubes or the amount and type of recapping service which may be acquired in exchange for the certificate.

(b) *Issuance of certificates.* When all of the foregoing steps have been taken, the board shall issue the certificate by delivering or mailing it to the applicant or his agent.

(1) If the certificate to be issued by the board is for recapping service, the board shall note on Parts A and B whether the certificate entitles the applicant to truck-type camelback or to passenger-type camelback, as provided in section 4.4 (c) and shall mark Part B thereof "good for (truck or passenger-type) camelback only."

(2) If the certificate to be issued by the board is for implement tires, the board shall mark Part B thereof "good for implement or tractor tires only."

SEC. 5.9 *Action by certificate holders*—(a) *Use of certificate.* A certificate properly executed and issued may be used by the person to whom it was issued within the time and for the purpose specified thereon. After the expiration date thereon, the certificate shall be void and the applicant shall surrender it to the issuing board.

(b) Replaced tires or tubes to be turned in. If the certificate indicates that a tire or tube being replaced must be turned in and does not indicate that such tire is a recappable carcass the applicant shall, before acquiring from a dealer any tire or tube in exchange for the certificate, turn in the tire or tube to be replaced to such dealer, except in the case of purchase by mail. If the applicant acquires a tire or tube by mail, he shall within five days thereafter transfer the replaced tire or tube to a dealer. If the tire turned in is a recappable carcass, a dealer who is not a recapper shall transfer such tire to a recapper.

(c) *Signing of certificates.* The applicant or his agent shall sign and execute the appropriate portions of the certificate in accordance with the instructions thereon, prior to acquiring the tires, tubes or recapping service specified thereon. The same person shall sign Parts B, C and D of OPA Form R–2 (Revised) where the signature of the certificate holder is required. No member or employee of the board issuing the certificate, no authorized tire inspector, and no dealer shall act as agent of the applicant in signing Parts A, B, C, or D of OPA Form R–2 (Revised).

SEC. 5.10 *Action by suppliers*—(a) *Turn in of tire or tube prerequisite to transfer.* If the applicant is required to turn in a tire or tube, no dealer shall transfer any tire or tube pursuant to the certificate until the applicant has turned in to him the tire or tube to be replaced, except in the case of purchase by mail.

(b) *Certificate to be completed.* No dealer shall transfer tires or tubes until both he and the applicant have properly signed and executed the certificate in accordance with the instructions thereon.

(c) *Delivery pursuant to certificate.* If the foregoing requirements have been fulfilled, the dealer to whom the certificate has been surrendered, shall deliver to the person indicated thereon, or to his agent, no more than the number and the exact type, grade and size of tires or tubes or the type of recapping service set forth on the certificate.

SEC. 5.11 *Splitting of certificates.* The holder of a certificate or part of a certificate who is unable to acquire from one supplier all the tires, tubes or recapping service which he has been authorized to acquire, may return the certificate to the issuing Board and the board shall thereupon cancel the returned certificate and issue as many certificates as are necessary to permit the acquisition of such tires, tubes or recapping service from several suppliers.

SEC. 5.12 *Revocation of certificates.* Any certificate, part of a certificate or authorization issued under Ration Order No. 1C shall be subject to revocation, cancellation, suspension, correction or modification by a board or other agent designated for this purpose by the Office of Price Administration.

SEC. 5.13 *Refusal of certificate.* If a board or other agent designated by the Office of Price Administration finds after due notice and hearing that an applicant has violated any provision of Ration Order No. 1C or Ration Order No. 8, the board may refuse to issue a certificate to the applicant and may declare that he shall not be eligible to receive a certificate for such period as it shall deem appropriate in the public interest. In such case, the board or such other agent shall serve upon the applicant a written statement of the grounds upon which the certificate was refused and the period for which he is declared ineligible.

Article VI—Periodic Inspection and Declaration of Tires

SEC. 6.1 *Periodic inspection*—(a) *Vehicles subject to inspection.* On or before June 1, 1943, every person controlling the use of a passenger automobile, truck, bus, or taxicab, shall obtain a Tire Inspection Record from his board and shall have the tires mounted on such vehicle inspected by a tire inspector appointed by the Director. The tires, at the time of inspection, shall be mounted on the vehicle for which the Tire Inspection Record has been issued. A separate Tire inspection Record shall be obtained for each vehicle. The provisions of this section shall not apply to:

(1) Motorcycles.

(2) Vehicles operated solely on special gasoline rations.

(3) Vehicles not registered for use on the highway.

(4) Farm tractors, farm implements, road-graders, earth-movers, or other industrial, mining or construction equipment not designated primarily for use on the highway.

(5) Vehicles operated by the armed forces of the United States.

(6) Tires reported on OPA Form R–17 by any person required to file such form.

(7) Tires obtained pursuant to section 4.6.

(b) *Time of inspection.* The time for periodic inspections shall be as follows:

Type of coupon book issued	First inspection must be made by	Subsequent inspections
Class A	Sept. 30, 1943	Within every 6-months period thereafter; i. e., on or before March 31 and Sept. 30 of each year. Inspections must be at least 90 days apart.
Class B	Aug. 31, 1943	Within every 4-month period thereafter; i. e., on or before Dec. 31, April 30, and Aug. 31, of each year. Inspections must be at least 60 days apart.
Class C	July 31, 1943	Within every 3-month period thereafter; i. e., on or before Oct. 31, Jan. 31, Apr. 30, and July 31, of each year. Inspections must be at least 45 days apart.

(c) *Declaration of tires.* Every person required to obtain a Tire Inspection Record pursuant to paragraph (a) of this section, shall set forth thereon a declaration of the number, size and serial number of all tires (including scrap tires but not including tires listed in paragraph (a) (6) or (a) (7)) which are owned by the registered owner of the vehicle or by any person living in his household and related to him by blood, marriage or adoption, and shall file such declaration with the board.

(d) *Check of serial numbers.* If the serial number of any tire inspected is not identical with that indicated on the Tire Inspection Record, the inspector shall not sign such record unless Part D of a certificate is presented as evidence that the tire was obtained on certificate. Any discrepancy between the serial numbers on the Tire Inspection Record, including those on Parts D and those on the mounted tire shall be recorded by the inspector and reported to the board.

(e) *Report on mileage and condition of tires.* The inspector shall indicate on the Tire Inspection Record as of the time of the inspection:

(1) The odometer reading of the vehicle,

(2) Whether the tires inspected should be replaced or recapped, and

(3) Any repairs and adjustments necessary to keep the tires in proper running order; if the inspector indicates that repairs and adjustments, other than recapping or replacements, are necessary, he shall not sign the Tire Inspection Record until such repairs or adjustments have been made, if parts are available to make such repairs or adjustments.

SEC. 6.2 *Inspection of tire transferred.* In addition to the periodic inspection, every consumer who acquires a passenger automobile, truck, bus or taxicab with tires mounted thereon, if such vehicle is not exempted under section 6.1 (a), shall have the tires inspected within ten days after they have been acquired. The Tire Inspection Record of the prior consumer shall be delivered to the transferee who shall turn in such record to the board to which application for a gasoline ration is made and thereupon a new Tire Inspection Record may be delivered by the board to such transferee: *Provided*, That if such tires are mounted on a passenger automobile for which no Tire Inspection Record has been issued, the transferee shall present to the board a statement from the transferor specifying the serial numbers of the tires mounted on the vehicle and stating that they were either mounted on the vehicle on September 30, 1942, or were acquired mounted on the vehicle since that date. The board may thereupon issue a new Tire Inspection Record to such transferee.

SEC. 6.3 *Compensation to be paid for inspection.* An inspector may charge a fee not to exceed twenty-five cents (25c) per vehicle for the inspection required by sections 6.1 and 6.2 In addition, sums not in excess of those set forth in section 5.3 (c) may be paid the inspector or any other person for the service of removing and replacing a tire when such service is necessary for inspection purpose under said sections.

SEC. 6.4 *Shifting of tires*—(a) *Prohibition.* No person shall mount on any vehicle, to which the provisions of section 6.1 (a) apply, any tire not duly entered upon the Tire Inspection Record for such vehicle, or acquired in exchange for a certificate issued to equip such vehicle, except as provided in paragraph (b).

(b) *Application for authorization.* A person may apply to a board for authorization to shift tires from one such passenger automobile owned by him to another such passenger automobile, or from one such vehicle eligible under section 4.4 owned by him to another such vehicle. Upon approval by the board, he may be issued Tire Inspection Records authorizing such shifting or mounting of tires in exchange for the surrender of the Tire Inspection Records then applicable to such vehicles.

SEC. 6.5 *Replacement of lost tire inspection records.* Any person who has lost a Tire Inspection Record shall apply to a board for a new record. Before issuing such record, the board shall reexamine and redetermine the current gasoline ration and shall satisfy itself that the serial numbers of the tires shown on such new record are those which were entered on the lost record or that discrepancies are accounted for by Part D of certificates in the possession of the applicant.

Article VII—Prohibited and Permitted Transactions

SEC. 7.1 *Prohibitions.* Notwithstanding the terms of any contract, agreement or other obligations, regardless of when made, no person, unless permitted by Ration Order No. 1 C, or by an order, authorization or regulation issued by the War Production Board, shall:

(a) Make or offer to make, accept or offer to accept, or solicit a transfer of any tire, tube, or camelback; or

(b) Use, alter, or change the physical location of any tire, tube, or camelback; or

(c) Mount any tire or tube upon a wheel or rim.

SEC. 7.2 *Mounting or use of tires or tubes*—(a) *Mounting or use generally.* Subject to the restrictions of paragraph (b) of this section, any person may change the physical location of, mount or use;

(1) Tires or tubes which have been acquired or recapped on certificate issued by the Office of Price Administration on the vehicle eligible under section 4.2 or 4.4 for which they were acquired, or on any other such vehicle owned or controlled by such person but only when pursuant to section 6.4;

(2) Tires or tubes which have been acquired or recapped on certificate issued by the Office of Price Administration on the vehicle eligible under section 4.5 for which they were acquired, or on any other vehicle eligible under section 4.5 owned or controlled by such person;

(3) Tires or tubes owned and possessed by him prior to October 1, 1942, on any vehicle owned by him. If such vehicle is not exempted from the provisions of section 6.1, tires or tubes may only be mounted thereon if they have been declared on a Tire Inspection Record for such vehicle.

(b) *Mounting from stock prohibited.* No dealer shall declare in his Tire Inspection Record or mount or use tires or tubes taken from his stock unless he has obtained a certificate authorizing such mounting or use or unless such tires or tubes were permanently removed from his stock and mounted on his vehicle prior to October 1, 1942.

SEC. 7.3 *Transfer to consumers upon certificate*—(a) *By dealers.* A dealer may, in exchange for a certificate, transfer tires or tubes to a consumer.

(b) *No tire in stock.* A dealer who does not have in stock a tire or tube ordered by a consumer may, with the consumer's permission, transfer the replenishment portion of a certificate or receipt to a supplier and obtain the number of tires or tubes specified thereon for transfer to the consumer.

(c) *Tire requiring repair or recapping.* No dealer may transfer to a consumer a tire that requires repair or recapping.

SEC. 7.4 *Dealer transfers*—(a) *Changes of location.* A manufacturer or dealer may change the location of tires or tubes within a single establishment or the location of the establishment itself, including the entire stock of tires or tubes contained therein: *Provided*, That no change in ownership, possession or control occurs.

(b) *Tires or tubes*—(1) *Restrictions on transfer of Parts B.* No person shall transfer Part B of OPA Form R–2 (Revised) and no person shall accept such transfer, unless the transferor first endorses his name and address thereon. A Part B of a certificate or receipt shall become void for purposes of replenishment when it has been transferred five times for such purpose: *Provided*, That a supplier may, without endorsement, return a Part B to the dealer from whom he received it, if he is unable to supply the tires or tubes specified thereon.

(2) *Permitted replenishment of tires or tubes.* Any dealer may, in exchange for a properly endorsed replenishment portion (Part B) of a certificate or receipt, transfer to another dealer or manufacturer the number of tires or tubes authorized by the certificate or receipt in accordance with the table below:

If Part B calls for:	*Dealer may replenish with:*
Any size grade I tire.	Any size Grade I or III tire.
Any size Grade III tire.	Any size grade III tire.
Any size truck-type tire.	Any size truck-type tire.
Any size tractor-type tire.	Any size tractor, truck or implement-type tire.
Any size implement-type tire.	Any size tractor or implement - type tire.
Any size passenger tube.	Any size passenger tube.
Any size truck tube.	Any size truck tube.

(3) *Transfers by dealers without certificates.* Any dealer may, without certificate, transfer tires or tubes to his supplier only for the following purposes:

(i) To return tires or tubes of a size, grade, type or quality other than that ordered by him, and his supplier may, without certificate, transfer to him in exchange therefor tires or tubes of the size, grade, type or quality ordered;

(ii) To effect adjustments between the dealer and his supplier pursuant to a contract or sales agreement.

(c) *Transfer of dealer's business.* Any dealer may, without certificate, transfer as a unit his entire stock of tires or tubes together with any replenishment portions (Parts B) of certificates or receipts to other dealers who may acquire such stock for resale: *Provided*, That the transferor shall file a statement containing the name and address of the transferee and an inventory of the tires, tubes, and replenishment portions (Parts B) to be transferred, with the Director at least ten days before making such transfer.

(d) *Transfers to dealer's warehouses.* Any dealer may, without certificate, transfer tires or tubes for the purpose of storage to any warehouse owned or operated by him if no change in ownership or control of such tires or tubes is thereby effected. Any dealer may, without certificate, withdraw the tires or tubes stored in such warehouse.

SEC. 7.5 *Acquisition for retransfer purposes*—(a) *Persons who may acquire.* Tires or tubes may be acquired, without certificate, in the following cases:

(1) *Exercise of governmental rights or powers.* The United States or the Government of the Virgin Islands may acquire from any person any tire, tube or camelback in the exercise of governmental rights or powers against such tire, tube or camelback.

(2) *Judicial process.* Any person may acquire any tire, tube or camelback pursuant to judicial process or under the supervision of a court of competent jurisdiction.

(3) *Salvage.* A person who is engaged principally and primarily in the business of adjusting losses, or reconditioning and selling damaged commodities, and who takes possession of such commodities on the occurrence or imminence of casualties, or in direct connection with the adjustment of losses resulting from such casualties, may acquire any tire, tube or camelback that has been damaged or that is in imminent danger of being damaged or destroyed.

(4) *Subrogation upon payment of claim.* A common or contract carrier or any person duly authorized by law to engage in the insurance business may acquire any tire, tube or camelback in consequence of the right of subrogation or in consequence of the payment of a claim.

(5) *Security transfers.* The Government of the Virgin Islands, the United States or any agency thereof, or any person duly licensed to engage in the business of making loans upon collateral and regulated in conducting such business may, without certificate, acquire tires, tubes or camelback for security purposes and may, without certificate, transfer such tires, tubes or camelback to the debtor upon release or extinguishment of the debt so secured. Any person may, without certificate, acquire a lien created by operation of law on tires, tubes or camelback and may satisfy or release such lien. Such security interest or liens may be enforced in the manner provided by applicable laws, and subject to the provisions of this section, transfers necessary to such enforcement may be made.

SEC. 7. *Transfers without certificate, special authorization or notice*—(a) *Transfers to Defense Supplies Corporation.* A person may, without certificate, transfer tires or tubes to Defense Supplies Corporation, Rubber Reserve Company, or Reconstruction Finance Corporation or any representative designated to receive tires or tubes on their behalf.

(b) *Changes in location.* A person, other than a dealer, may, without certificate, change the location of tires or tubes if no change in ownership, possession or control results.

(c) *By persons other than dealers.* A person, other than a dealer or manufacturer, may, without certificate, transfer tires or tubes to a dealer. A record of the serial number of any tire so transferred shall be given to the transferor and a copy shall be sent by the dealer to the board which issued the transferor's Tire Inspection Record.

(d) *Transfers on vehicles.* A person may, without certificate, transfer a tire or tube as part of the equipment of a vehicle provided that such transfer is not prohibited by any order or regulation issued by the Office of Price Administration or the War Production Board.

(e) *Transfers for repair, mounting or inspection.* A person may, without certificate, temporarily transfer tires or tubes to any person engaged in the business of repairing tires or tubes, for purposes of inspection, mounting or repair only, and may, without certificate, acquire such tires or tubes after such mounting, repair or inspection.

(f) *Return of lost or stolen tires or tubes.* A person may, without certificate, transfer tires or tubes which have been lost, stolen or otherwise wrongfully or mistakenly acquired to the person rightfully entitled thereto.

(g) *Exchange of tires or tubes.* A consumer who in exchange for a certificate acquires any tire or tube that is of a size or grade different from that ordered may, without certificate, but only within thirty (30) days after its acquisition, exchange it with the transferor for the size or grade ordered if such tire or tube has not been used by such person.

(h) *Turn-in of tires or tubes to be replaced.* A consumer who holds a certificate authorizing the purchase of a tire or tube, and is required to turn in a tire or tube to be replaced, shall transfer such tire or tube to a dealer: *Provided,* That such dealer, if not a recapper, must sell the replaced tire, if recappable, to a recapper.

(i) *Transfers for recapping.* (1) A consumer may transfer a tire for recapping service to a dealer but only if accompanied by a certificate authorizing recapping service.

(2) A dealer may transfer a tire for recapping to a recapper if accompanied by Part B of a certificate authorizing recapping service, and the recapper may transfer a Grade III tire in exchange for such Part B.

(j) *Transfer of recappable tire to recapper.* A dealer who is not a recapper may, without certificate, transfer a recappable tire carcass to a recapper.

(k) *Transfers to and from carriers.* A person may, without certificate, transfer tires or tubes to a common or contract carrier for shipment, and such tires or tubes may be transferred by such carrier to the consignee in the regular course of business.

(l) *Change-overs.* A dealer or manufacturer may transfer tires or tubes to a rebuilder or dealer in vehicles in exchange for tires or tubes mounted on a new or rebuilt vehicle as part of its original equipment, upon authorization in writing from the director.

(m) *Tires, new tubes, or camelback held in customs.* Tires, new tubes or camelback imported into this Territory and held in customs may not be released to the claimant unless he holds a certificate, receipt or authorization from the Office of Price Administration that would entitle him to acquire such tires, new tubes or camelback.

SEC. 7.7 *Transfers to certain government agencies*—(a) *Transfers.* A person may transfer tires, tubes or camelback to or for the account of the Army, Navy, Marine Corps, or Coast Guard of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development, but not to or for the account of any officer, member, or employee of any of the foregoing for use on a privately owned vehicle, regardless of the extent to which such vehicle is used on official business, nor to or for the account of any post exchange, ships' service store, commissary, or similar agency or organization, except for use on vehicles operated by it,

(b) *Receipt.* A dealer who makes any transfer pursuant to paragraph (a) shall obtain a receipt from the purchaser upon OPA Form R–12 (Revised).

Article VIII—Other Prohibited Acts

SEC. 8.1 *Offenses.* (a) Mutilation and forgery of certificates. No person shall without lawful authority wilfully deface, mutilate, or destroy any certificate, receipt, authorization (whether issued or unissued), Tire Inspection Record, or any part thereof, and no person shall counterfeit or forge any such instrument or any part thereof.

(b) *Illegal transfer of certificates.* No person shall transfer or assign and no person shall accept any transfer or assignment of any certificate, receipt, authorization (whether issued or unissued), or any part thereof, except in accordance with the provisions of this ration order.

(c) *Illegal use and possession of certificates.* No person shall use, possess, or control any certificate, receipt, authorization, or any part thereof, except the person or the agent of the person to whom such certificate, receipt, authorization (whether issued or unissued), or any part thereof, was issued or by whom it was acquired in accordance with the provisions of this ration order.

(d) *Possession of forged certificates.* No person shall without lawful authority transfer or accept a transfer of or have in his possession or under his control any forged, altered, or counterfeited certificate, receipt, authorization (whether issued or unissued), or any part thereof.

(e) *Illegal possession or use of tires.* No person shall possess, use, or permit the use of any tires, tubes or camelback acquired in violation of this ration order, and no person shall possess, use or permit the use of tires, tubes or camelback acquired under this ration order for any purpose other than one for which a tire, tube, or camelback may be obtained under this ration order.

(f) *Abuse of tires.* No person shall, without lawful authority, abuse, alter, damage or neglect any tire, tube or camelback in his possession or control. Failure to make timely application for recapping or replacement shall constitute one form of abuse within the meaning of this paragraph.

(g) *Speed limitation.* No person shall use or permit the use of tires or tubes in the operation of a motor vehicle at any rate of speed in excess of the applicable speed laws. This restriction shall not apply to the operation of a motor vehicle by the Army, Navy, Marine Corps, Coast Guard or where necessary to meet an emergency involving serious threat to life, health, or safety: *Provided,* That this paragraph shall not be construed to authorize any such motor vehicle to be driven at a rate of speed in excess of that which is reasonable under the circumstances.

(h) *Tire Inspection Record.* No person shall use or permit the use of tires or tubes unless he has obtained and kept current the Tire Inspection Record required by section 6.1.

(i) *Declaration of tires.* No person shall use or permit the use of tires or tubes on a motor vehicle unless he has filed a declaration of tires as required by the Office of Price Administration.

(j) *Illegal use of gasoline.* No person shall use or permit the use of tires or tubes upon a motor vehicle for which gasoline has been obtained in violation of Ration Order No. 8 or for which gasoline or other fuel is used in violation of that order.

(k) *False statements.* No person shall, in any application record, report, certificate or other document made pursuant to or required by the terms of this ration order, make any untrue statement of any fact, or omit to state any fact required to be stated therein or necessary to make the statements therein not misleading.

(l) *Attempts.* No person shall solicit offer, attempt, or agree to do, either directly or indirectly, any act in violation of this ration order.

(m) *Price violation.* No person shall sell or transfer any tire, tube, camelback or recapping service at a price in excess of the applicable maximum price for such article or service established by the Office of Price Administration.

Article IX—Records and Reports

SEC. 9.1 *Posting names of successful applicants.* At intervals of not more than one week, a list of the names of the recipients of certificates issued during the previous week for Grade I passenger tires or truck tires shall be posted at the Office of Price Administration for public inspection and shall be released to the press. This requirement shall not apply to certificates issued pursuant to section 4.6 or 4.7.

SEC. 9.2 *Disposition of parts of certificates and receipts—*(a) *Certificates or receipts for tires or tubes.* A transferor of tires or tubes to whom a certificate is surrendered by an applicant or who receives an OPA Form R–12 (Revised) receipt shall complete all the parts thereof and dispose of them as follows:

(1) *Part A.* Part A of OPA Form R–2 (Revised) shall be retained by the transferor as his record; Part A of OPA Form R–12 (Revised) shall be sent to the Director within fifteen (15) days from the end of each calendar month in which deliveries have been made.

(2) *Part B.* Part B not used for replenishment must be retained by the dealer as his record.

(3) *Part C.* Part C of OPA Form R–2 (Revised) shall within three days of the date of transfer of the tires or tubes, be sent to the issuing Board which shall retain it as its record. Part C of OPA Form R–12 (Revised) shall be retained by the transferor as his record.

(4) *Part D.* Part D of OPA Form R–2 (Revised) and OPA Form R–12 (Revised) shall be retained by the transferee as his record.

(b) *File of certificates and receipts.* Every dealer shall maintain a file of all certificates, receipts, or parts thereof which he is required to keep as his records.

SEC. 9.3 *Records and reports of transfers—*(a) *Records of transfers to and from dealers.* Every dealer shall keep true, accurate and complete records of all transfers of tires or tubes to or by him: *Provided,* That no records need be kept of transfers permitted by section 7.6 (e) relating to transfers for mounting or inspection. Such records shall show the serial number of the certificate or the receipt (if the transfer involved the use of a certificate or receipt); sales price; date of transfer; the name of the transferee and

(1) If tires, other than recapped tires, are transferred, the number, size, type and grade;

(2) If recapped tires are transferred, the number, size, type and grade thereof and the type of camelback used in recapping the tires;

(3) If tubes are transferred, the number, type and size thereof; or

(4) If tires or tubes are transferred for repair, information sufficient to identify the ownership of the tires.

(b) *Report of transfer of dealer's business.* A transferor under section 7.4 (d) shall file a statement containing the name and address of the transferee and an inventory of the tires or tubes and replenishment portions (Parts B) to be transferred, with the director at least ten days before making such transfer.

SEC. 9.4 *Inventories of sellers of tires, tubes and vehicles.* Every person engaged in the business of selling or holding for sale tires, tubes or vehicles, and every person extending credit to another upon the security of a vehicle under an agreement permitting the lender to take possession of the vehicle shall:

(a) At the close of business on the last day of each month take an inventory of all unmounted tires and tubes in his possession or control and keep a record thereof. Such inventory shall be based on a physical count.

(b) File a report on OPA Form R–17 in accordance with the instructions thereon, for each quarter ending March 31, June 30, September 30, and December 31, setting forth all unmounted tires and tubes in his possession or control on the last day of such quarter and all transfers of tires and tubes made during such quarter. Transfers permitted by section 7.6 (e) relating to transfers for repair, mounting or inspection need not be recorded hereunder. A separate report for each establishment where tires or tubes are located, whether such establishment is used for purposes of sale or storage, shall be filed on or before the fifteenth day after the end of each quarter with the Director.

(c) File a report with the Director if the grade of any tire has been changed, setting forth the reason for such change of grade, and shall not sell the tire until five days after the report has been filed.

SEC. 9.5 *Preservation and filing of records.* Any person affected by this ration order shall keep and file such additional records and reports as the Office of Price Administration may require. Any record required to be kept by this ration order shall be preserved for not less than two years, except that records of transfers for repair need be preserved only while the tires or tubes to be repaired are in the possession of the repairer. Such records and any other records relating to tires or tubes shall be available at all times for inspection by the Office of Price Administration.

SEC. 9.6 *Notice of local proceedings.* Every person holding a certificate, part of a certificate or authorization shall, immediately upon the commencement of any legal action or proceeeding involving such certificate, part of a certificate or authorization, notify the Director.

SEC. 9.7 *Report of violations—*(a) *By any person.* Any person may report a violation of this ration order to a board or to the Director.

(b) *By a board.* Whenever a board finds that an applicant has violated section 8.1 (k), it shall immediately inform the director of that fact in writing, transmitting all relevant documents with its report.

Article X—Appeals

SEC. 10.1 *Decision of board.* After acting upon an application the board shall, within three (3) days, notify the applicant of its decision and, if the application is denied in whole or in part, shall state the reasons for its decision.

SEC. 10.2 *Who may appeal.* Any applicant for a certificate, part of a certificate, or authorization, whose application has been denied in whole or in part by the action of a board, or whose certificate, part of a certificate, or authorization has been revoked, cancelled, suspended, or modified by action of a board,

may appeal from such action to the Director.

SEC. 10.3 *Procedure.* An appeal shall be taken only in accordance with the provisions of Procedural Regulation No. 9, and amendments thereto, issued by the Office of Price Administration.

Enforcement

SEC. 10.51 *Criminal prosecutions.* (a) Any person who knowingly falsifies an application or any other record, report or certificate made pursuant to or required by the terms of this ration order, or who otherwise knowingly furnishes false information to a board, inspector, or any other agent, employee or officer of the Office of Price Administration, or falsifies or conceals or covers up by any trick, scheme or device a material fact, or makes or causes to be made any false or fraudulent statements, or representations, in any matter within the jurisdiction of the Office of Price Administration, may upon conviction be fined not more than $10,000 or imprisoned for not more than ten years, or both, and shall be subject to such other penalties or action as may be prescribed by law. Any person who conspires with another person to perform any of the foregoing acts or to violate any provision of this ration order may upon conviction be fined not more than $10,000 or imprisoned for not more than two years, or both, and shall be subject to such other penalties or action as may be prescribed by law.

(b) Any person who wilfully performs any act prohibited, or wilfully fails to perform any act required, by any provision of this ration order, may upon conviction be fined not more than $10,000 and imprisoned for not more than one year, or both, and shall be subject to such other penalties or action as may be prescribed by law.

SEC. 10.52 *Suspension orders.* Any person who violates this ration order may by administrative suspension order be prohibited from receiving any transfers or deliveries of, or selling or using or otherwise disposing of any tires, tubes, or gasoline. Such suspension order shall be issued for such period as in the judgment of the Director or such person as he may designate for such purpose, is necessary or appropriate to permit the efficient rationing of tires, tubes, or gasoline in the Virgin Islands.

SEC. 10.98 *Effect on other orders.* (a) Ration Order No. 1 C supersedes the Revised Tire Rationing Regulations insofar as applicable to the Virgin Islands: *Provided, however,* That any violations which occurred prior to the effective date of this ration order shall be governed by the orders, regulations and amendments thereto, in effect at the time such violations occurred.

Effective date. Ration Order No. 1 C shall become effective September 1, 1943.

Issued this 15th day of July 1943.

JACOB A. ROBLES,
Territorial Director Virgin Islands.

WALLACE M. COHEN,
Acting Regional Administrator.

PART 1340—FUEL

[MPR 120,[1] Amdt. 57]

BITUMINOUS COAL DELIVERED FROM MINE OR PREPARATION PLANT: ADJUSTABLE PRICING

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 120 is amended in the following respect:

1. Section 1340.203 is amended to read as follows:

§ 1340.203 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

This amendment shall become effective August 10, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681)

Issued this 4th day of August 1943.

PRENTISS M. BROWN,
Administrator.

PART 1340—FUEL

[MPR 189,[1] Amdt. 14]

BITUMINOUS COAL SOLD FOR DIRECT USE AS BUNKER FUEL: ADJUSTABLE PRICING

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 189 is amended in the following respect:

1. Section 1340.303 is amended to read as follows:

§ 1340.303 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

This amendment shall become effective August 10, 1943.

PART 1425—LUMBER DISTRIBUTION

[Rev. MPR 215,[1] Amdt. 1]

DISTRIBUTION YARD SALES OF SOFTWOOD LUMBER

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Revised Maximum Price Regulation 215 is amended in the following respects:

1. Section 2 (a) is amended to read as follows:

SEC. 2. *Summary of the regulation.* (a) The general plan of this regulation divides lumber yards into two groups: wholesale and retail.

Wholesale distribution yards have one fixed mark-up for all their sales, regardless of quantity or purchaser: $5.00 and 10%.

As to retail yards, the plan is to extend specific mark-ups to them for all sales as soon as they can be worked out. So far, the only specific mark-up which applies to all retail yards in the country is the mark-up of $5.00 and 10% for "wholesale-type" sales, that is, sales to five large-scale classes of buyers in quantities of 5,000 feet or more. An optional pricing provision permits the application of a similar mark-up to all other sales in the Common grades. Specific mark-ups are established herein for the North Central, North Atlantic, Great Plains, South Central, California, Texas, Louisiana, and Mountain States areas as set forth in section 6, paragraphs (b) and (c). Outside of these particular areas, except in the case of "wholesale-type" sales and sales made under the "optional pricing" provision, the General Maximum Price Regulation[2] continues to apply.

2. Section 3 is amended by adding to the list of species and regulations covered, the following:

Western Red Cedar Lumber—MPR 402.[3]
Tidewater Red Cypress Lumber—MPR 412.[4]

3. Section 4 (a) is amended by inserting at the end of the first sentence the following sentence: "In determining the dollar volume of softwood lumber hereunder, direct mill sales shall not be included".

4. Section 5 (a) is amended by adding at the end of the paragraph the following sentence: "In determining the dollar volume of softwood lumber hereunder, direct mill sales shall not be included".

5. Section 6 is amended to read as follows:

SEC. 6. *Maximum prices for retail yards: All other sales (other than "wholesale-type")*—(a) *General.* All sales out of retail yard stock other than the "wholesale-type" and the "optional pricing type" (where the optional pricing provision has been adopted) are subject to the General Maximum Price Regulation, except in the North Central, North Atlantic, Great Plains, South Central, California, Louisiana, Texas, and Mountain States areas.

(b) *Area definitions.* (1) The North Atlantic Area consists of Maine, New Hampshire, Connecticut, Rhode Island, Vermont and Massachusetts, New York, New Jersey, Eastern Pennsylvania (east of the western border of the counties of Juanita, Perry, Cumberland, Adams, Tioga, Lycoming, Union and Snyder), Maryland, Delaware, District of Columbia, the City of Alexandria and Fairfax and Arlington Counties of Virginia.

(2) The North Central Area consists of Western Pennsylvania (from the western border of the following counties: Juniata, Perry, Adams, Cumberland, Tioga, Lycoming, Union, and Snyder), West Virginia, Indiana, Ohio, Michigan (lower Peninsula only) and Illinois.

(3) The Great Plains Area consists of Minnesota, North Dakota, South Dakota and Iowa.

(4) The South Central Area consists of Kansas, Nebraska, Missouri and Oklahoma.

(5) The California Area consists of California.

(6) The Texas Area consists of Texas.

(7) The Mountain States Area consists of Wyoming, Utah, Colorado, Arizona and New Mexico.

(8) The Louisiana Area consists of Louisiana.

(c) *Mark-ups for North Atlantic, North Central, Great Plains, South Central, California, Texas, Mountain States, and Louisiana Areas.* The maximum prices for sales out of retail yard stock in the North Atlantic, North Central, South Central, California, Texas, Louisiana, and Mountain States Areas, other than "wholesale-type" sales is the sum of the following:

(1) F. o. b. mill maximum price, in the mill regulation for the particular species; plus

(2) Inbound transportation charges to the distribution yard figured under the rules in section 7; plus

(3) $5.00 "handling charge" (or 30¢ per square for shingles, and 60¢ per M pieces for lath) plus

(4) The following percentage mark-ups, to be applied to the sum of (1), (2) and (3) above.

(v) In Louisiana Area, all quantities:

All items, 30%

(vi) In all Areas, if sale of softwood lumber and/or shingles totals less than $7.50 add 10% of total.

(d) *Meaning of "lower and upper bracket" items.* (1) "Lower bracket" items include the following grades and sizes:

(i) *Grades.*

#1 Common & lower in the following species:
Southern Pine (longleaf and shortleaf)
Douglas Fir
West Coast Hemlock
Sitka Spruce
White Fir (W. C. L. A. Rules)
Redwood
Eastern Spruce
Aspen
Eastern Hemlock
Red Cedar
Tidewater Red Cypress
#2 Common & lower in the following species:
Jack Pine
Engelman Spruce
Lodgepole Pine
Larch
#3 Common & lower in the following species:
Ponderosa Pine
Norway Pine
Idaho Pine
Sugar Pine
Eastern and Northern White Pine (Pinus Strobus)
Ottawa Valley White Pine

NOTE: "Lower bracket" items include all special specifications applicable to the grades listed, such as dense or medium grain, or stress grades, and also any items of flooring, ceiling and similar patterns in the grades listed.

(ii) *Sizes.* All thicknesses of boards and strips: all widths in boards and Dimension 12" and under in nominal width; all 3" and 4" timbers 10" and under in nominal width; all 5" and 6" timbers 8" and under in nominal width; and all lengths in the above up to and including 24'; also all shingles and lath.

(2) "Upper bracket" items include all grades higher, sizes larger and lengths longer than those listed as "lower bracket" items.

(e) *Delivery in North Atlantic and North Central Areas.* The mark-ups for sales (other than "wholesale-type") in the North Atlantic and North Central areas include delivery within a radius of 25 miles. For deliveries more than 25 miles an addition of 10¢ per M'BM may be made for each mile beyond the first 25, but not for any part of the return trip. If the buyer picks up the lumber at the yard, no reduction in price is required; but it is a violation of this regulation for a yard unreasonably to refuse to make delivery when requested to do so, or unreasonably to insist that the buyer pick up the lumber at the yard.

(f) *Delivery in other specified areas.* The mark-up for sales (other than "wholesale-type") in the Great Plains, South Central, California, Texas, Louisiana, and Mountain States areas include delivery within a radius of 10 miles to those classes of customers to whom free delivery was extended in March 1942 and thereafter. For deliveries more than 10 miles to such classes of customers an addition of 10¢ per M'BM may be made for each mile beyond the first 10, but not for any part of the return trip. If the buyer picks up the lumber at the yard, no reduction in price is required, but it is a violation of this regulation for a yard unreasonably to refuse to make delivery when requested to do so or unreasonably to insist that the buyer pick up the lumber at the yard.

To all classes of customers to whom free delivery was not included in March 1942 and thereafter an additional charge for delivery may be made: *Provided,* That such charge does not exceed that made for the same type of delivery during March 1942. Any amount added for delivery must be shown separately on the invoice, bill of sale, or other billing.

6. Section 7 (a) is amended by the addition of the following subparagraphs (11) and (12):

(11) Western Red Cedar Lumber—MPR 402.

Seattle, Washington.

(12) Tidewater Red Cypress Lumber—MPR 412.

Perry, Florida: Alabama, Connecticut, Delaware, District of Columbia, Florida, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and Wisconsin.

Ponchatoula, Louisiana: Arizona, Arkansas, California, Colorado, Idaho, Iowa, Kansas, Louisiana, Mississippi, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming. Distribution yards located in these states may make the additions allowed for Louisiana producers in calculating mill prices. See Section 24 of MPR 412.

Albany, Georgia: Georgia and Tennessee.

Sumter, South Carolina: North Carolina and South Carolina.

NOTE: The following items of Tidewater Red Cypress are not subject to the mark-ups set forth in this regulation but continue to be subject to the General Maximum Price Regulation:

1. Mouldings.
2. Grounds.
3. Plant stakes and car strips
4. Pickets
5. Battens

7. Section 7 (b) is amended to read as follows:

(b) *Minimum rate.* If the distribution yard is located at the basing point, or within a radius of 10 miles from such point, or at a point which takes a lower freight rate (as determined in Section 20 (c)) than 10¢ per cwt., a rate of 10¢ per cwt. may be used to figure inbound transportation charges.

8. A new paragraph (e) is added to section 7 to read as follows:

(e) *Trucking from railhead to yard site in certain areas.* The provisions of this paragraph apply only to the Mountain States, and Texas Areas. Where the distribution yard is located at a distance greater than 10 miles from the nearest railhead it may add to its transportation charges, figured in accordance with paragraphs (b) and (d) of this section, for the cost of trucking from the railhead to the yard's site, an amount not to exceed the following: $2.00 per M'BM for any distance over 10 miles and less than 20 miles; $2.50 per M'BM for any distance 20 miles or greater. Distance is to be determined by the speedometer reading for the shortest route between the railhead and yard site or as indicated on the official state highway road map.

9. Section 10 (a) is amended by the addition of the following subparagraph (6):

(6) Where a distribution yard purchases lumber rough or green and works that lumber prior to the time of sale the milling or drying charges shall not exceed those charges for these services provided for in the mill regulation governing that particular species for the same type of processing. The maximum processing charges herein provided may only be added where the lumber is stocked rough or green and the method or type of processing required cannot be determined until the sale is made and the buyer's specifications are received. Under any condition, these charges may not be added to produce any item of boards or dimension in standard sizes, or sizes reasonably similar thereto, shown in the applicable regulation.

10. Section 24 is amended by the addition of the following sentence immediately at the end of the first sentence: "(Any wholesale yard as defined in section 4 (a) hereof, which prior to June 23, 1943, separately operated a retail department under conditions conforming with the definition of a retail yard as set forth in section 5 (a) hereof, may apply for approval to continue the operations of its retail yard department in the manner and under the conditions above set forth.)"

This amendment shall become effective August 10, 1943, except that:

(a) If this amendment lowers any maximum price below that fixed in any earlier regulation, contracts that were in existence before the date of issuance of this amendment at lawful prices may be completed according to their terms, if delivery is made on or before September 1, 1943.

(b) The mere fact that this amendment increases some maximum prices does not of itself allow any seller to apply the higher prices to existing uncompleted contracts without the consent of the buyer. The regulation permitting agreements to cover such situations. Apart from that, increasing prices in existing uncompleted contracts to the level of increased maximum prices in the amendment is purely a matter of agreement between buyer and seller.

[Rev. SR 14 to GMPR, Amdt. 10]

PICK-UP AND DELIVERY SERVICES

The statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Supplementary Regulation 14 is amended in the following respects:

1. Section 7.11 (d) (1), (2) and (3) are amended to read as follows:

(d) *Definitions.* (1) "Pick-up service" means the transportation of property to a terminal of a line haul carrier from the point of origin from which the line haul carrier's rate applies or the local transfer of property from a terminal of a line haul carrier to a terminal of a connecting line haul carrier.

(2) "Delivery service" means the transportation of property from a terminal of a line haul carrier to the point of destination to which the line haul carrier's rate applies or the local transfer of property from a terminal of a line haul carrier to a terminal of a connecting line haul carrier.

(3) "Pick-up and delivery carrier" means a carrier who performs pick-up and delivery services as herein above defined for a line haul carrier.

2. In OPA Form 383:8 in section 7.11 (e), the definitions of "pick-up service", "delivery service" and "pick-up and delivery carrier" are amended to read as follows:

"Pick-up service" means the transportation of property to a terminal of a line haul carrier from the point of origin from which the line haul carrier's rate applies or the local transfer of property from a terminal of a line haul carrier to a terminal of a connecting line haul carrier.

"Delivery service" means the transportation of property from a terminal of a line haul carrier to the point of destination to which the line haul carrier's rate applies or the local transfer of property from a terminal of a line haul carrier to a terminal of a connecting line haul carrier.

"Pick-up and delivery carrier" means a carrier who performs pick-up and delivery services as herein above defined for a line haul carrier.

PART 1364—FRESH, CURED, AND CANNED MEAT AND FISH PRODUCTS

[MPR 418,[2] Amdt. 3]

FRESH FISH AND SEAFOOD

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 418 is amended in the following respects:

1. Section 2 (a) is amended by inserting after the sentence "For each month, there are two columns of prices." the sentence "The prices in Table A on sales by producers apply irrespective of the nature of the purchaser and irrespective of whether the fish are sold through an agent of any kind."

2. Section 3 (a) is amended to read as follows:

(a) *Sale by a primary fish shipper wholesaler.* A sale by a primary fish shipper wholesaler is a sale by a person who buys fresh fish or seafood from a producer and who distributes bulk, boxed, barreled, or packaged fish and seafood to other wholesalers (retailer-owned cooperative, cash and carry, and service and delivery) or to a retail chain store warehouse.

3. Section 3 (a) (1) is amended by inserting after the sentence "These prices are f. o. b. his established place of doing business in bulk." the sentence "The prices in Table B on sales by primary fish shipper wholesalers apply irre-

[2] 8 F.R. 9366, 10086.

spective of whether the fish are sold through an agent of any kind."

4. Section 4 (a) (1) is amended to read as follows:

(1) *Maximum prices for sales by a retailer-owned cooperative wholesaler and by a wholesaler other than a primary fish shipper wholesaler to other wholesalers.* Maximum prices for sales by a retailer-owned cooperative wholesaler are the prices listed in Table C (Article IV, section 20 (c)) plus the container prices provided in section 19 when containers are used, plus transportation as provided in section 7. The prices in Table C also shall apply in sales by a wholesaler other than a primary fish shipper wholesaler to other wholesalers and chain store warehouses.

5. Section 4 (b) (1) is amended by deleting the sentence "These prices apply to sales to other wholesalers as well as to retailers and purveyors of meals."

6. Section 4 (c) is amended by inserting after the phrase "and who delivers the goods to his customer's usual receiving point" the phrase "by means other than a common carrier."

7. Section 4 (c) (1) is amended by deleting the sentence "These prices apply to sales to other wholesalers as well as to retailers and purveyors of meals."

8. The text of section 7 (a) preceding the example is amended to read as follows:

(a) *When a wholesaler may add his transportation cost to listed prices.* The prices set forth in section 20 list maximum prices for sales by a retailer-owned cooperation, cash and carry, and service and delivery wholesaler, exclusive of container costs and transportation costs incurred in transporting the fish to his established place of doing business. Where such transportation changes have been incurred (excluding local trucking and handling changes), a wholesaler who purchases fresh fish and seafood from a primary fish shipper wholesaler may add to the maximum prices the actual cost of transportation from the primary fish shipper wholesaler's established place of doing business to such wholesaler's customary receiving point, and must record the allowed transportation cost in an invoice to his customer. Any customer of such wholesaler may add to to his selling price the transportation cost as shown in the invoice. Where a primary fish shipper wholesaler has a branch warehouse located at a remote point from the market of origin to which it ships fresh fish and seafood, the branch warehouse for the purpose of transportation allowance may be considered a wholesaler who purchases fresh fish and seafood from a primary fish shipper wholesaler. In no instance may transportation costs exceed common carrier rates when such rates are availabe.

9. In section 20, table A, the name of Schedule No. 24 is amended to read as follows:

24 Ling Cod (Pacific Coast) (Ophiodon elongatus)[4]

10. In section 20, Table A, the name of Schedule No. 26 is amended to read as follows:

26 Sablefish (Anoplopoma fimbria).[4]

11. In section 20, Table A, Schedule No. 26, the size of Item No. 1 is amended to read "5 lbs. & over" instead of "6 lb. & over".

PART 1429—POULTRY AND EGGS

[Rev. MPR 269,[1] Amdt. 12]

POULTRY

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation 269 is amended in the following respects:

1. Section 1429.1 is amended to read as follows:

§ 1429.1 *Prohibition against selling poultry at prices above the maximum.* On and after December 18, 1942, regardless of any contract, agreement, or other obligation, no person shall sell or deliver, or cause to be sold or delivered whether for his own account or otherwise, the poultry items specified in this regulation, and no person in the course of trade or business shall buy or receive such poultry items at a price higher than the maximum prices permitted by this regulation; and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of poultry items to a purchaser, if, prior to December 18, 1942, such poultry items have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

2. Section 1429.4 (b) is amended to read as follows:

(b) Every person shipping any of the poultry items specified in this regulation by freight car, truck, or other means of transport from one place to another, shall post within such freight car, truck or other means of transport, a manifest showing the place from which such poultry items were shipped, the name and address of the owner of such poultry items while in transit, the name and address of the person or persons to whom such poultry items are being shipped, the name and address of the seller or sellers, the quantities, types, grades, weight classes of poultry bought and sold, the number of head of each type, grade, and weight class of poultry bought and sold, and the price paid.

3. Section 1429.14 (d) (4) is added to read as follows:

(4) The Administrator of the War Food Administration is notified in writing of every proposed uniform maximum base price for any live poultry item which reduces the maximum base price for such live poultry item at any place in the political subdivision or other defined area for which the uniform maximum base price is proposed by more than one-tenth of one cent per pound, and has consented in writing to the establishment of such uniform maximum base price.

4. Section 1429.24 is added to read as follows:

§ 1429.24 *Maximum prices for poultry items requisitioned or purchased by the United States Government or any agency thereof.* (a) If the United States Government or any agency thereof requisitions or purchases any of the poultry items specified in Table A of § 1429.19 of this regulation from a truck, freight car, or any other carrier, irrespective of the fact that such truck, freight car or carrier is in transit or at stoppage it shall pay no more than the maximum base price established for such poultry item at the place where the requisitioning or transfer of physical possession of such poultry item occurs, plus a sum not in excess of one cent per pound.

(b) The weight of any poultry item requisitioned or purchased by the United States Government or any agency thereof from a truck, freight car, or any other carrier, shall be determined at the time and place where the requisitioning or transfer of physical possession of such poultry item occurs: *Provided*, That, if the United States Government or any agency thereof believes it is impracticable for it to determine the weight of such poultry item at the time and place where the requisitioning or transfer of physical possession occurs, then such poultry item shall be transported immediately to the nearest available weighing station, and its weight shall there be determined as soon as possible.

5. Section 1429.25 is added to read as follows:

§ 1429.25 *Sale of poultry items requisitioned or purchased by the United States Government or any agency thereof.* (a) Whenever the United States Government or any agency thereof finds it necessary to sell any poultry item which it requisitioned or purchased pursuant to the provisions of this regulation, it may sell such poultry item, and any person may purchase such poultry item at a price not in excess of the price which the United States Government or any agency thereof paid for such poultry item pursuant to the provisions of this regulation.

6. Section 1429.26 is added to read as follows:

§ 1429.26 *Service charge for the processing of poultry items owned by the United States Government or any agency thereof.* (a) Any person who converts any of the live poultry items specified in Table A of § 1429.19 of this regulation into a dressed poultry item, may charge as compensation for his services a sum not in excess of the differential between the maximum base price established in Table A of § 1429.19 of this regulation for such live poultry item and the maximum base price established in such Table A for the corresponding dressed poultry item into which the live poultry item is converted: *Provided*, That, such poultry is and remains the property of the United States Government or any agency thereof.

This amendment shall become effective August 4, 1943.

*Copies may be obtained from the Office of Price Administration.

PART 95—CAR SERVICE

REFRIGERATION OF VEGETABLES USING TOP AND BODY ICE

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 4th day of August A. D. 1943.

At the request of the Office of Defense Transportation and upon further consideration of the provisions of Service Order No. 133 (8 F.R. 9037) of June 19, 1943, and Amendment No. 1 to Service Order No. 133 (8 F.R. 9728) of July 13, 1943;

It is ordered, That Service Order No. 133 (8 F.R. 9037) and Amendment No. 1 to Service Order No. 133 (8 F.R. 9728) be, and they are hereby, further amended to read as follows:

§ 95.313 *Refrigeration of vegetables using top or body ice*—(a) (1) *Restriction on refrigeration service.* Effective at once and until further order of the Commission any common carrier by railroad subject to the Interstate Commerce Act may accept or move a refrigerator car or cars loaded with fresh or green vegetables in straight or mixed carloads using top or body ice only under the following conditions:

(i) Refrigerator cars equipped with collapsible bunkers shall not be used unless the bunkers are collapsed.

(ii) Refrigerator cars not equipped with collapsible bunkers may be initially bunker iced, providing initial top or body ice used does not exceed 15,000 pounds.

(iii) Refrigerator cars not equipped with collapsible bunkers shall not be initially bunker iced if initial top or body ice used exceed 15,000 pounds.

(2) *Retop or rebody icing prohibited.* After the first or initial top or body icing no common carrier by railroad subject to the Interstate Commerce Act shall retop or rebody ice any refrigerator car or cars loaded with fresh or green vegetables in Straight or mixed carloads originating at points in Arizona or California, at any point or points west of the western border of the States of Indiana, Kentucky, Michigan (Lower Peninsula), Mississippi, or Tennessee.

(3) *Bunker icing in California.* For carriers' convenience shipments originating in the Salinas-Watsonville District of California may be initially bunker iced at Roseville, California, where bunker ice is permissible under paragraph (a) (1), subparagraph (ii). The operation of all tariff rules or regulations insofar as they conflict with the provisions of this order is hereby suspended.

(4) *Announcement of suspension.* Each of such railroads shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

(b) *Special and general permits.* The provisions of this order shall be subject to any special or general permits issued by the Director of the Bureau of Service, Interstate Commerce Commission, Washington, D. C., to meet specific needs or exceptional circumstances. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with

the Director, Division of the Federal Register, The National Archives.

By the Commission, Division 3.

PART 95—CAR SERVICE

REICING OF GREEN FRUITS AND VEGETABLES IN TRANSIT

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 4th day of August, A. D. 1943.

It appearing that an acute shortage of ice is affecting the movement of perishables in refrigerator cars originating in states on the Pacific Coast, and Rocky Mountain Territory; in the opinion of the Commission an emergency exists requiring immediate action:

It is ordered, That:

§ 95.315 *Refrigerator cars*—(a) *Cars of fresh or green fruits or vegetables not to be reiced after first reicing in excess of 75 percent of capacity of bunkers.* Notwithstanding the provisions of Service Order No. 133 (8 F.R. 9037) of June 19, 1943, as amended, no common carrier by railroad subject to the Interstate Commerce Act shall reice or allow or permit reicing with more than enough ice to bring ice to three-fourths of the refrigerator car bunker capacity at Belen, New Mexico; Big Spring, Texas; Dalhart, Texas; Del Rio, Texas; Denver, Colorado; Laramie, Wyoming; or Pueblo, Colorado after the first reicing of a refrigerator car or cars loaded with fresh or green fruits or vegetables moving under standard refrigeration or defined in Agent Quinn's Perishable Protective Tariff No. 12, I.C.C. No. 19, supplements thereto or reissues thereof. The operation of all tariff rules or regulations insofar as they conflict with the provisions of this order is hereby suspended.

(b) *Announcement of suspension.* Each of such railroads, or their agent, shall publish, file, and post a supplement to each of its tariffs affected thereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

(c) *Special and general permits.* The provisions of this order shall be subject to any special or general permits issued by the Director of the Bureau of Service, Interstate Commerce Commission, Washington, D. C., to meet specific needs or exceptional circumstances. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-17))

It is further ordered, That this order shall become effective at 12:01 a. m., August 5, 1943, and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register, The National Archives.

[Public Land Order 152]

COLORADO

WITHDRAWING PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Subject to valid existing rights, the following-described public lands are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the War Department for airport purposes:

SIXTH PRINCIPAL MERIDIAN

T. 9 S., R. 80 W.,
Sec. 9, NE¼NE¼, S½NE¼, E½SW¼, and NW¼SE¼.
The areas described aggregate 240 acres.

This order shall be subject to (1) the withdrawal for reservoir purposes made by the orders of February 28 and October 11, 1891, of the Secretary of the Interior (Tennessee Park Reservoir Site No. 7), and (2) the withdrawal for water power sites made by the Executive Order of July 2, 1910 (Power Site Reserve No. 92), so far as such withdrawals affect the above-described lands.

Jurisdiction over the lands hereby reserved shall revert to the Department of the Interior, and to any other Department or agency of the Federal Government which had any jurisdiction over such lands immediately preceding the issuance of this order, according to their respective interests, upon expiration of the six months' period following the termination of the unlimited national emergency declared by Proclamation No. 2487 of May 27, 1941 (55 Stat. 1647). The lands, however, shall remain withdrawn from appropriation as herein provided until otherwise ordered, pending classification and a determination as to whether the lands, or portions thereof, are needed for public purposes.

[Docket No. G-490]

CITIES SERVICE GAS COMPANY

ORDER FIXING DATE OF HEARING AND REQUIRING CONTINUANCE OF SERVICE

AUGUST 3, 1943.

It appearing to the Commission that:

(a) On June 19, 1943, Cities Service Gas Company (hereinafter referred to as "Cities Service") filed with the Commission notice of its intention to cancel and terminate its Rate Schedule FPC No. 51, as supplemented, providing for the sale of natural gas to Union Gas System, Inc. (hereinafter referred to as "Union") for resale for industrial use, and to discontinue service thereunder effective August 22, 1943;

(b) On July 3, 1943, Union filed its informal protest to the proposed cancellation and termination of Cities Service Gas Company Rate Schedule FPC No. 51, as supplemented, and the discontinuance of service thereunder and stated, among other things, that it had no other means of obtaining the gas purchased under that rate schedule and that the public convenience and necessity will be adversely affected if the proposed discontinuance of service is permitted;

(c) On July 26, 1943, Union filed with the Commission an informal complaint, a copy of which was served upon Cities Service, alleging that Cities Service refuses to deliver gas to Union at a point near Olathe, Kansas, as provided by Cities Service Gas Company Rate Schedule FPC No. 42, that Cities Service can economically furnish gas to Union at that point, and that the refusal of Cities Service to make deliveries at such point is unreasonable, discriminatory and constitutes a violation of the Natural Gas Act;

(d) On July 26, 1943, Union also requested that these matters be heard together;

The Commission orders that:

(A) The proceedings in the above-entitled matters relating to Cities Service Gas Company Rate Schedules FPC Nos. 51 and 42 be set for public hearing to be held on August 23, 1943, at 9:30 a. m. in Room No. 527 in the U. S. Court House, Kansas City, Missouri;

(B) To expedite the disposition of these matters, Cities Service shall file its answer to Union's complaint with respect to Cities Service Gas Company Rate Schedule FPC No. 42 on or before August 16, 1943;

(C) Until further order of the Commission, Cities Service shall continue service to Union under Cities Service Gas Company Rate Schedule FPC No. 51;

(E) Interested State commissions may participate in this hearing as provided in Section 67.4 of the Provisional Rules of Practice and Regulations under the Natural Gas Act.

ADLANCO X-RAY CORP. AND ROENTGEN SUPPLIES, INC.

In re: Adlanco X-Ray Corporation and Roentgen Supplies, Inc. (Vesting Orders Numbers 28, 102, 425 and 1786).

Whereas Siemens-Reiniger-Werke, A. G., Berlin, Germany (hereinafter referred to as Siemens, Berlin), owned all of the issued and outstanding shares of the capital stock of Siemens Elektrisitats Erzeugnisse, A. G. of Switzerland (hereinafter called Siemens, Switzerland) and General Radiological, Ltd. of London, England (hereinafter called General); and

Whereas Siemens, Berlin and General owned all of the issued and outstanding shares of the capital stock of Adlanco X-Ray Corporation, a New York corporation (hereinafter referred to as Adlanco); and Adlanco owned all of the issued and outstanding shares of the capital stock of Roentgen Supplies, Inc., a New York corporation (hereinafter called Roentgen); and

Whereas all of the aforesaid business enterprises have heretofore been found by the undersigned to be nationals of a designated enemy country (Germany); and

Whereas by Vesting Order No. 28, dated June 18, 1942 (7 F.R. 4632, June 23, 1942), the undersigned vested all of the issued and outstanding shares of the capital stock of Adlanco; and by Vesting Order No. 102, dated August 11, 1942 (7 F.R. 7153, September 10, 1942) the undersigned vested all of the issued and outstanding shares of the capital stock of Roentgen; and

Whereas by Vesting Order No. 425, dated December 1, 1942 (7 F.R. 10633, December 19, 1942), the undersigned vested a certain claim against Adlanco in the sum of $30,482.80 owned by Siemens, Berlin, and a certain other claim against Adlanco in the sum of $6,000 owned by Siemens, Switzerland; and

Whereas by Vesting Order No. 1786, dated July 12, 1943 (8 F.R. 10041, July 20, 1943), the undersigned vested a certain claim against Adlanco in the sum of $20,033.75 owned by General; and

Whereas the said business enterprises above-named purport to have other claims each against the other as follows:

(a) Adlanco purports to have a claim in the sum of $41,177.75 against Roentgen; and

(b) Roentgen purports to have a claim against Adlanco in the sum of $1,028.85; and

Whereas Adlanco and Roentgen are presently being liquidated:

Now, under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Siemens, Switzerland, General, Adlanco, and Roentgen were subsidiaries of Siemens, Berlin and were dominated by it, and that all said business enterprises were in fact adjuncts and parts of a single organization and that their activities and affairs were interwoven; and

2. Finding that the advances and transactions which resulted in the claims above-described and set forth were in the nature of capital advances and were of such nature and consummated under such circumstances as to indicate that the parties did not intend to create enforceable debt obligations thereby; and

3. Finding that the assets of Adlanco and Roentgen are insufficient to pay claims against them in full; and

4. Determining that it is equitable and in the national interest of the United States to subordinate said claims to the claims of other creditors of Adlanco and Roentgen;

Hereby directs Roentgen and its duly authorized officers to subordinate the claim of Adlanco in the sum of $41,177.75, as aforesaid, to the claims of other creditors of and claimants against Roentgen; and further

Directs Adlanco and its duly authorized officers to subordinate the claim of Roentgen in the sum of $1,028.85, and the claims of Siemens, Berlin in the sum of $30,482.80, and the claim of Siemens, Switzerland in the sum of $6,000, and the claim of General in the sum of $20,033.75, the last-mentioned three of which were heretofore vested by the undersigned, as aforesaid, to the claims of other creditors of and claimants against Adlanco; and further

Directs Roentgen to pay all its other creditors except Adlanco in full, and to deliver and pay over to the undersigned all assets remaining after such payment, the same to be applied on account of said claim of Adlanco against Roentgen hereby directed to be subordinated; and further

Directs Adlanco to pay all its other creditors except Roentgen and Siemens, Berlin and Siemens, Switzerland and General, in full and pay over to the undersigned all assets remaining after such payment, the same to be applied pro rata on account of the said claims of Roentgen and Siemens, Berlin and Siemens, Switzerland and General hereby directed to be subordinated.

ORMA REALTY CORPORATION

In re: Orma Realty Corporation (Vesting Order Number 44)

Whereas all of the issued and outstanding shares of the capital stock of Orma Realty Corporation, a New York

corporation, were owned and held by Banco di Sicilia, Direzione Generale, Palermo, Italy, a national of a designated enemy country (Italy) and were vested by the undersigned by Vesting Order No. 44 dated July 1, 1942 (7 F.R. 5104, July 7, 1942); and

Whereas a certain promissory note in the amount of $314,455, dated May 5, 1938, executed by the aforesaid Orma Realty Corporation, payable on demand to the aforesaid Banco di Sicilia, and bearing interest at the rate of 3%, on which there is presently due and owing a balance of $158,500, together with accrued interest in the sum of $29,059.76, were vested by the undersigned by the aforesaid vesting order; and

Whereas Orma Realty Corporation is presently being liquidated;

Now, under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Orma Realty Corporation was a wholly owned subsidiary of Banco di Sicilia, Direzione Generale, Palermo, Italy, and was dominated by it, and that both said business enterprises were in fact adjuncts and parts of a single organization; and

2. Finding that the advances by said Banco di Sicilia which resulted in the said promissory note above described were in the nature of capital contributions to Orma Realty Corporation, and that the transactions which gave rise to the said claim were of such nature and consummated under such circumstances as to indicate that the parties did not intend to create an enforceable debt obligation; and

3. Finding that the assets of Orma Realty Corporation are insufficient to pay all claims against it in full; and

4. Determining that it is equitable and in the national interest of the United States to subordinate said claim of Banco di Sicilia to the claims of other creditors of Orma Realty Corporation;

Hereby directs Orma Realty Corporation and its duly authorized officers to subordinate the claim of Banco di Sicilia in the sum of $158,500 and accrued interest in the sum of $29,059.76, as represented by the promissory note above-described, and heretofore vested by the undersigned as aforesaid to the claims of other creditors and claimants against Orma Realty Corporation; and further

Directs Orma Realty Corporation to pay all its other creditors in full and to deliver and pay over to the undersigned all assets remaining after such payments, the same to be applied on account of the balance due on the promissory note hereby directed to be subordinated.

Executed at Washington, D. C., July 31, 1943.

REAL PROPERTY OWNED BY WILHELM STENZEL, ET AL

Re: Certain real property in Barber County, Kansas, owned by Wilhelm Stenzel, Gustave Stenzel, Wilhelm Hassel, et al; File D-28-1440; E. T. sec. 104.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that Wilhelm Stenzel, Gustave Stenzel, Wilhelm Hassel, Karl Hassel, Fritz Hassel, August Hassel, Auguste Schmidt Schwering, Marie Schmidt Rieso, Marie Hassel Wiegmann, Auguste Hassel, Gustave Hassel, Leni Hassel Meier, Carl Hassel, Jr. and Helmut Hassel and each of them, are residents of Germany and are nationals of a designated enemy country, Germany;

2. Finding that the said Wilhelm Stenzel, Gustave Stenzel, Wilhelm Hassel, Karl Hassel, Fritz Hassel, August Hassel, Auguste Schmidt Schwering, Marie Schmidt Rieso, Marie Hassel Wiegmann, Auguste Hassel, Gustave Hassel, Leni Hassel Meier, Carl Hassel, Jr. and Helmut Hassel and each of them, are the owners of the real property described in subparagraph 3 hereof;

3. Finding that the property described as follows:

That certain real property, together with all fixtures, improvements and appurtenances thereto, situated in Barber County, State of Kansas, and particularly described as follows:

All that certain lot, piece or parcel of land with the buildings and improvements thereon, situate, lying and being in Barber County, Kansas, bounded and described as follows:

Northwest Quarter (NW¼) of Section 9; East half of Southwest Quarter (E½SW¼) and West half of Southeast Quarter (W½SE¼) of Section 4, all in Township 31, Range 10, Barber County, Kansas.

is property within the United States owned by nationals of a designated enemy country, Germany;

4. Determining that to the extent that either or both of said nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons and each of them be treated as nationals of the aforesaid enemy country, Germany;

5. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

6. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property described in subparagraph 3 hereof, subject to recorded liens, encumbrances and other rights of record, held by or for persons who are not nationals of designated enemy countries, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Dated: July 29, 1943.

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Hungary; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

Cash distributable and payable to Rosa Tressel, also known as Rosa Tressel, in the sum of $2,000.00, which amount was deposited in the County Treasury of Macoupin County, Illinois, for the use of the said designated national, in accordance with the Executor's Report and Court Order dated September 28, 1940, to the credit of the aforesaid national,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

OFFICE OF PRICE ADMINISTRATION.

[Order 3 Under R03]

SUGAR IN CERTAIN TENNESSEE COUNTIES

ORDER GRANTING TEMPORARY INCREASES IN ALLOTMENT NECESSITATED BY MILITARY MANEUVERS

Order No. 3 issued pursuant to § 1407.86b under Rationing Order No. 3 [1]—Sugar Rationing Regulations.

Military maneuvers of the armed forces of the United States are to be held in the counties of Bedford, Cannon, Clay, Coffee, DeKalb, Franklin, Jackson, Macon, Moore, Putnam, Rutherford, Smith, Sumner, Trousdale, Warren, White, and Wilson, in the State of Tennessee, during a substantial part of the remainder of 1943.

The undersigned finds that these military maneuvers will cause temporary abnormal demands for sugar-containing products within the counties named and they are hereby defined as the area affected by this order. The undersigned also finds that certain temporary increases in the allotments of registering units delivering such products within the affected area will be necessary in consequence of such abnormal demands.

Accordingly, pursuant to the authority vested in the Director of the Food Rationing Division of the Office of Price Administration by § 1407.86b of Rationing Order No. 3,

It is hereby ordered, That a registering unit which during January and

[1] 8 F.R. 5909, 5846, 6135, 6442, 6626, 6961, 7351, 7383, 8010, 8184, 8678, 8811, 9304, 9458, 10304.

February 1943 delivered within the affected area products in which it used 25 per cent or more of the total amount of sugar used by it in all products it delivered during those months may apply to the board on OPA Form R–315 for a temporary increase of its July–August, September–October, and November–December 1943 allotments. The amount of the temporary increases shall be determined as follows:

(a) The amount of sugar used by it in the products it delivered within the affected area during January and February 1943 shall be divided by the total amount of sugar used by it in all the products it delivered during those months.

(b) The temporary increase to be granted in the registering unit's July–August 1943 allotment shall be computed by

(1) Multiplying its July–August allotment by the figure obtained in (a) and

(2) Taking 10 per cent of the figure obtained in (1).

(c) The temporary increase to be granted in the registering unit's September–October 1943 allotment shall be computed by

(1) Multiplying its September–October allotment by the figure obtained in (a) and

(2) Taking 15 percent of the figure obtained in (1).

(d) The temporary increase to be granted in the registering unit's November–December 1943 allotment shall be computed by

(1) Multiplying its November–December allotment by the figure obtained in (a) and

(2) Taking 15 per cent of the figure obtained in (1).

Application for the temporary increases in the July–August, and the September–October allotments shall be made on or before September 5, 1943, and in the November–December allotment on or before November 5, 1943. However, application for the temporary increases for the September–October and November–December allotments may be made after such dates, but in such case the board shall reduce such temporary increases by the amount allocable to the expired portion of the allotment period, in the proportion which the number of days which have elapsed from the start of the period bears to the total number of days in that period.

A registering unit may use an increase provided by this order only in products to be delivered by it within the affected area. As a further condition of using the increase, it must, in addition to its delivery of these products, continue to deliver within the affected area during July, August, September, October, November, and December 1943, at least the same proportion of its products, in sugar content (counting only sugar used by it), as it delivered within the affected area during January and February 1943.

As used in this order the term "registering unit" refers only to the industrial users which are included within such registering unit.

This order shall become effective August 5, 1943.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Order 4 Under RO 3]

SUGAR IN CERTAIN LOUISIANA AND TEXAS AREAS

ORDER GRANTING TEMPORARY INCREASES IN ALLOTMENTS NECESSITATED BY MILITARY MANEUVERS

Order No. 4 issued pursuant to § 1407.86b under Rationing Order No. 3 [1]—Sugar Rationing Regulations.

Military maneuvers of the armed forces of the United States are to be held in the parishes of Allen, Beauregard, and Vernon in the State of Louisiana and the county of Newton in the State of Texas during a substantial part of the remainder of 1943.

The undersigned finds that these military maneuvers will cause temporary abnormal demands for sugar-containing products within the parishes and the county named and they are hereby defined as the area affected by this order. The undersigned also finds that certain temporary increases in the allotments of registering units delivering such products within the affected area will be necessary in consequence of such abnormal demands.

Accordingly, pursuant to the authority vested in the Director of the Food Rationing Division of the Office of Price Administration by § 1407.86b of Rationing Order No. 3,

It is hereby ordered, That a registering unit which during January and February 1943 delivered within the affected area products in which it used 25 per cent or more of the total amount of sugar used by it in all products it delivered during those months may apply to the board on OPA Form R–315 for a temporary increase of its July–August and September–October 1943 allotments. The amount of the temporary increases shall be determined as follows:

(a) The amount of sugar used by it in the products it delivered within the affected area during January and February 1943 shall be divided by the total amount of sugar used by it in all the products it delivered during those months.

(b) The temporary increase to be granted in the registering unit's July–August 1943 allotment shall be computed by:

(1) Multiplying its July–August allotment by the figure obtained in (a) and

(2) Taking half of the figure obtained in (1).

(c) The temporary increase to be granted in the registering unit's September–October 1943 allotment shall be computed by

(1) Multiplying its September–October allotment by the figure obtained in (a) and

(2) Taking 65 per cent of the figure obtained in (1).

Application for the temporary increases authorized by this order shall be made on or before September 5, 1943. However, application for the temporary increase in the September–October allotment may be made after such date, but in such case the board shall reduce the temporary increase by the amount allocable to the expired portion of the September–October allotment period, in the proportion which the number of days which have elapsed from the start of the period bears to the total number of days in that period.

A registering unit may use an increase provided by this order only in products to be delivered by it within the affected area. As a further condition of using the increase, it must, in addition to its deliveries of these products, continue to deliver within the affected area during July, August, September, and October 1943, at least the same proportion of its products, in sugar content (counting only sugar used by it), as it delivered within the affected area during January and February 1943.

As used in this order the term "registering unit" refers only to the industrial users which are included within such registering unit.

This order shall become effective August 5, 1943.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Order 107 Under RPS 64]

SUPREME FOUNDRY & MANUFACTURING CO.

APPROVAL OF MAXIMUM PRICE

Order No. 107 under § 1356.10 (a) of Revised Price Schedule No. 64 [1]—Domestic Cooking and Heating Stoves—Approval of maximum price for a gas plate manufactured by Supreme Foundry & Manufacturing Company, Belleville, Illinois.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, *It is ordered:*

(a) *Sales by Supreme Foundry & Manufacturing Company, Belleville, Illinois.* Supreme Foundry and Manufacturing Company may sell and deliver its model V–6 gas plate at a price no higher than $2.83 f. o. b. factory to dealers, subject to percentage discounts, allowances, and terms for sales to distributors, jobbers, mail order houses, and other classes of purchasers, no less favorable than those in effect with respect to its model 2–6 as established under Revised Price Schedule No. 64.

(b) *Sales of this model by distributors and dealers.* Distributors and dealers (whose maximum prices for the model V–6 manufactured by the Supreme Foundry & Manufacturing Company were formerly fixed by the General Maximum Price Regulation [2]) may sell this model at prices no higher than those arrived at by the following method:

The distributor finds the highest percentage markup which he received on sales of the model 2–6 gas plate during the month of March 1942, to each class of purchaser. His maximum price to each class of purchaser is found by applying that percentage markup to the manufacturer's maximum price for sales to him, as fixed by this order. If the distributor did not sell the model 2–6 gas plate model during March 1942, then his maximum price is determined under the provisions of section 3 (a) of the General Maximum Price Regulation.

The dealer finds the highest percentage markup which he received on sales of the model 2–6 gas plate during the month of March 1942. His maximum price is found by applying that percentage markup to the maximum price for sales to him. If the dealer did not sell the model 2–6 during March, 1942, then his maximum price is the price determined under section 3 (a) of the General Maximum Price Regulation.

(c) *Notification of manufacturers and dealers.* On the first sale of its model V–6 gas plate after the effective date of this order, the Supreme Foundry & Manufacturing Company shall notify the buyer of the method of calculating maximum prices fixed by this order, for sales by such buyer. Each distributor shall, on the first sale of the model V–6 gas plate after the effective date of this order, notify the dealer of the method of calculating maximum prices for sales by dealers, fixed by this order.

(d) This Order No. 107 shall become effective on the 5th day of August 1943.

[Region III Order G–20 Under 18 (c)]

MILK IN STATE OF MICHIGAN

Order No. G–20 under § 1499.18 (c), as amended, of the General Maximum Price Regulation. Order adjusting the maximum prices of fluid whole milk and special milk sold at retail and wholesale in the State of Michigan. (Formerly Order No. III–1499.18 (c)–29).

For the reasons set forth in the opinion attached hereto, and pursuant to the au-

thority vested in the Regional Administrator of Region III under the provisions of § 1499.18 (c) of the General Maximum Price Regulations and § 1351.807 of Maximum Price Regulation No. 280, and notwithstanding the provisions of § 1499.2 of the General Maximum Price Regulation and § 1351.803 of Maximum Price Regulation No. 280, *it is hereby ordered*, That:

I. *Sales of fluid whole milk.* Any person may sell or deliver fluid whole milk at retail or wholesale in any County in the State of Michigan at (1) the maximum prices established for him under § 1499.2 of the General Maximum Price Regulations, or (2) the maximum prices established for him under any previous order issued by the Regional Administrator of Region III, or (3) the maximum prices set forth in the schedule under the applicable paragraph in Schedule A hereof.

II. *Sales of special milk.* A. Except as hereinafter provided in paragraph B of this section II, any person selling special milk, as hereinafter defined, at retail or wholesale in any County in the State of Michigan who is permitted under the provisions of this order or has been permitted under the provisions of any previous order issued by the Regional Administrator of Region III to increase the price of fluid whole milk (raw or pasteurized regular, standard milk) sold by him, may add an amount equal to such increase to the retail and wholesale prices of special milk established for him under the provisions of § 1499.2 of the General Maximum Price Regulation.

B. The adjusted maximum price of plain homogenized milk, chocolate drink, buttermilk and skim milk as established under the preceding Paragraph A shall in no event exceed the adjusted maximum price of fluid whole milk (raw or pasteurized regular, standard milk) established under the applicable provisions of this order.

C. If any person selling special milk at retail or wholesale in any County in the State of Michigan canot determine his maximum prices for such special milk under the provisions of paragraph A or B of this section II, he may apply by letter to the Regional Office, Office of Price Administration, Union Commerce Building, Cleveland, Ohio, for determination of his maximum prices. He shall submit full information as to his present maximum prices, the prices of his most closely competitive sellers, the type and approximate butter-fat content of the special milk sold by him and his most closely competitive sellers, and a full statement of the reasons why he is unable to determine adjusted prices under paragraph A and B hereof.

III. *Fractional sales.* A. Whenever the seller's maximum price, as established under this order, results in a unit figure containing a fraction of a cent, the seller, if the sale be at retail, may adjust the unit price therefor to the next highest full cent. For sales of two or more such units, such seller shall, however, multiply such fractional unit figure by the number of units in such sale; for example, a maximum price of 7½¢ per unit may be adjusted to 8¢ for the sale of one unit, but must be 15¢ for the sale of two units, etc.

B. Whenever the seller's maximum price, as established under this order, results in a unit figure containing a fraction of a cent, the seller, if the sale be at wholesale, shall multiply such fractional unit figure by the number of units in such sale; for example, the maximum price for 24 one-half pints of fluid milk at a per unit cost of 3¼¢ would be 78¢.

IV. *Reports.* Each person, other than a retail store, adjusting his maximum prices pursuant to the provisions of this order, shall, within five (5) days after such action, notify the Regional Office of the Office of Price Administration, Union Commerce Building, Cleveland, Ohio, by letter, of his maximum prices established pursuant to this order, together with a statement of his previous maximum prices.

Each such person shall, in addition to the above, file with the Regional Office of the Office of Price Administration, Union Commerce Building, Cleveland, Ohio, such reports as may hereafter be required by said Regional Office.

V. *Discounts.* Any person selling fluid whole milk and/or special milk at retail or wholesale in the State of Michigan may discontinue the granting of discounts.

VI. *Sales tax.* Any person selling fluid whole milk and/or special milk at retail or wholesale in the State of Michigan may add to the maximum prices established for him under this order the amount of any sales taxes imposed by the State of Michigan upon the sale of milk.

VII. *Notification of retail stores.* Each distributor selling fluid whole milk and/or special milk at wholesale to a retail store or stores shall notify each store to whom he sells, by letter, of the adjustment permitted in this order, and each retail store is hereby required to comply with the requirements of the General Maximum Price Regulation as to the posting of prices of cost-of-living commodities.

VIII. *Definitions.* A. "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or successors of the foregoing.

B. *Fluid whole milk and special milk.* 1. "Fluid whole milk" is defined to mean all grades of cow's milk which has been produced, processed, distributed, and sold for human consumption in fluid form as raw or pasteurized regular, standard whole milk, with essentially the same butterfat content as each person or seller maintained during the applicable base period.

2. "Special milk" is defined to mean vitamin D homogenized milk, plain homogenized milk, softcurd milk, buttermilk, regular or standard milk flavored with chocolate, chocolate drink, skim milk and, in addition to the foregoing, any milk conforming to both of the following requirements: (a) it must contain a greater butterfat content than regular or standard milk, and (b) it must have sold during the month of March, 1942 at a price higher than regular or standard milk. For the purposes of this order, special milk does not include certified milk, lactic acid milk and acidophilus milk.

C. "Sale or delivery at retail" means a sale or sales of fluid whole milk or special milk in glass, paper, or other containers to an ultimate consumer, other than an industrial or commercial user.

D. "Sale or delivery at wholesale" refers to a sale of fluid whole milk or special in glass, paper, or other containers to any person, including an industrial or commercial user, other than an ultimate consumer. For the purposes of this order, a sale or delivery at wholesale shall include a sale or delivery to stores, hotels, restaurants, institutions and any branch of the Armed Forces of the United States. A sale or delivery at wholesale does not include a sale of bulk milk made by one distributor to another, or a sale by a cooling station to a distributor.

IX. This order shall remain in effect until modified or revoked by the Regional Administrator.

Issued January 30, 1943.

Effective February 1, 1943.

BIRKETT L. WILLIAMS,
Regional Administrator.

closely competitive sellers, and a full statement of the reasons why he is unable to determine adjusted prices under paragraphs A, B, or C hereof.

III. *Fractional sales.* A. Whenever the seller's maximum price, as established under this order, results in a unit figure containing a fraction of a cent, the seller, if the sale be at retail, may adjust the unit price therefor to the next highest full cent. For sales of two or more such units, such seller shall, however, multiply such fractional unit figure by the number of units in such sale; for example, a maximum price of 7½¢ per unit may be adjusted to 8¢ for the sale of one unit, but must be 15¢ for the sale of two units, etc. Home deliveries shall be considered multiple unit sales unless separate collections are made for single unit deliveries.

B. Whenever the seller's maximum price, as established under this order, results in a unit figure containing a fraction of a cent, the seller, if the sale be at wholesale, shall multiply such fractional unit figure by the number of units in such sale; for example, the maximum price for 24 one-half pints of fluid milk at a per unit cost of 3¾¢ would be 90¢.

IV. *Reports.* Each person, other than a retail store, adjusting his maximum prices pursuant to the provisions of this order, shall, within five (5) days after such action, notify the Regional Office of the Office of Price Administration, Union Commerce Building, Cleveland, Ohio, by letter, of his maximum prices established pursuant to this order, together with a statement of his previous maximum prices.

Each person shall, in addition to the above, file with the Regional Office of Office of Price Administration, Union Commerce Building, Cleveland, Ohio, such reports as may hereafter be required by said Regional Office.

V. *Discounts.* Any person selling fluid whole milk and/or special milk at retail or wholesale in Allen County in the State of Indiana may discontinue the granting of discounts.

VI. *Notification of retail stores.* Each distributor selling fluid whole milk and/or special milk at wholesale to a retail store or stores shall notify each store to whom he sells, by letter, of the adjustment permitted in this order, and each retail store is hereby required to comply with the requirements of the General Maximum Price Regulation as to the posting of prices of cost-of-living commodities.

VII. The provisions of this order supersede the provisions of General Order No. 1 (Redesignated as Order No. G–17 Under § 1499.18 (c), as amended, of the General Maximum Price Regulation) pertaining to certain trade practices in Region III. Said General Order No. 1 is, therefore, revoked as to Allen County in the State of Indiana.

VIII. *Definitions.* A. "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or successors of the foregoing.

B. *Fluid whole milk and special milk.* 1. "Fluid whole milk" is defined to mean all grades of cow's milk which has been produced, processed, distributed, and sold for human consumption in fluid form as raw or pasteurized regular, standard whole milk, with essentially the same butterfat content as each person or seller maintained during the applicable base period.

2. "Special milk" is defined to mean vitamin D homogenized milk, plain homogenized milk, softcurd milk, buttermilk, regular or standard milk flavored with chocolate, chocolate drink, skim milk and, in addition to the foregoing, any milk conforming to both of the following requirements: (a) it must contain a greater butterfat content than regular or standard milk, and (b) it must have sold during the month of March, 1942 at a price higher than regular or standard milk.

C. "Sale or delivery at retail" means a sale of fluid whole milk or special milk in glass, paper or other containers to an ultimate consumer other than to an industrial, institutional, commercial or governmental user.

D. "Sale or delivery at wholesale" refers to a sale of fluid whole milk or special milk in glass, paper or other containers to any person, including an industrial or commercial user, other than an ultimate consumer. For the purposes of this order, a sale or delivery at wholesale shall include a sale or delivery to stores, hotels, restaurants, institutions and any branch of the Armed Forces of the United States. A sale or delivery at wholesale does not include a sale of bulk milk made by one distributor to another, or a sale by cooling station to a manufacturing plant or to a distributor.

IX. This order shall remain in effect until modified or revoked by the Regional Administrator.

[Region III Order G–25 Under 18 (c)]

MILK IN STATE OF OHIO

Order No. G–25 under § 1499.18 (c), as amended, of the General Maximum Price Regulation. General order adjusting the maximum prices of approved fluid milk and special milk in the State of Ohio. (Formerly Order No. III–1499.18 (c)–43.)

For the reasons set forth in the opinion attached hereto, and pursuant to the authority vested in the Regional Administrator of Region III under the provisions of § 1499.18 (c) of the General Maximum Price Regulation, § 1351.807 of Maximum Price Regulation No. 280 and § 1351.408 of Maximum Price Regulation No. 329, and notwithstanding the provisions of § 1499.2 of the General Maximum Price Regulation, § 1351.803 of Maximum Price Regulation No. 280 and § 1351.402 of Maximum Price Regulation No. 329, *It is hereby ordered,* That:

I. *Sales of approved fluid milk.* Any person may sell or deliver approved fluid milk at retail or wholesale in any County in the State of Ohio at (1) the maximum prices established for him under § 1499.2 of the General Maximum Price Regulation or § 1351.803 of Maximum Price Regulation No. 280, or (2) the maximum prices established for him under any previous order issued by the Regional Administrator of Region III, or (3) the maximum prices set forth in the section of Schedule A hereof which is applicable to the County or Township in which the sale or purchase is made, whichever are greater.

II. *Sales of special milk.* A. Except as hereinafter provided in paragraph C of this section II, any person selling special milk, as hereinafter defined, at retail in any County in the State of Ohio who is permitted under the provisions of this order or has been permitted under the provisions of any previous order issued by the Regional Administrator of Region III to increase the retail quart price of approved fluid milk sold by him, may add an amount equal to such increase or increases to the retail quart price (or a proportional amount of such increase or increases in the case of containers of greater or lesser content than one quart) of special milk established for him under the provisions of § 1499.2 of the General Maximum Price Regulation or § 1351.803 of Maximum Price Regulation No. 280.

B. Except as hereinafter provided in paragraph C of this section II, any person selling special milk, as hereinafter defined, at wholesale in any County in the State of Ohio who is permitted under the provisions of this order or has been permitted under the provisions of any previous order issued by the Regional Administrator of Region III to increase the wholesale quart price of approved fluid milk sold by him, may add an amount equal to such increase or increases to the wholesale quart price (or a proportional amount of such increase or increases in the case of containers of greater or lesser content than one quart) of special milk established for him under the provisions of § 1499.2 of the General Maximum Price Regulation or § 1351.803 of Maximum Price Regulation No. 280.

C. The adjusted maximum price of plain homogenized milk, chocolate drink, buttermilk and skim milk as established under the preceding paragraphs A and B shall in no event exceed the adjusted maximum price of approved fluid milk established under the applicable provisions of this order.

D. If any person selling special milk at retail or wholesale in any County in the State of Ohio cannot determine his maximum prices for such special milk under the provisions of paragraphs A, B or C of this section II, he may apply by letter to the Office of Price Administration, Cleveland Regional Office, Union Commerce Building, Cleveland, Ohio, for determination of his maximum prices. He shall submit full information as to his present maximum prices, the prices of his most closely competitive sellers, the type and approximate butterfat content of the special milk sold by him and his most closely competitive sellers, and a full statement of the reasons why he is unable to determine adjusted prices under paragraphs A, B or C hereof.

III. *Maximum prices to producers.* The provisions of "Region III order adjusting milk distributors' maximum prices to producers, Order No. VC–329–14" are hereby incorporated in and made a part of this order, and for the purposes of this section III the effective date of said Order No. CV–329–14 shall be deemed to be March 2, 1943.

IV. *Fractional sales.* A. Whenever the seller's maximum price, as established under this order, results in a unit figure containing a fraction of a cent, the seller, if the sale be at retail, may adjust the unit price therefor to the next highest full cent. For sales of two or more such units, such seller shall, however, multiply such fractional unit figure by the number of units in such sale; for example, a maximum price of 7½¢ per unit may be adjusted to 8¢ for the sale of one unit, but must be 15¢ for the sale of two units, etc. Home deliveries shall be considered multiple unit sales unless separate collections are made for single unit deliveries.

B. Whenever the seller's maximum price, as established under this order, results in a unit figure containing a fraction of a cent, the seller, if the sale be at wholesale, shall multiply such fractional unit figure by the number of units in such sale; for example, the maximum price for 24 one-half pints of fluid milk at a per unit cost of 3½¢ would be 84¢.

V. *Reports.* A. Each person, other than a retail store, adjusting his maximum prices pursuant to the provisions of this order, shall, within five (5) days after such action, notify the Office of Price Administration, Cleveland Regional Office, Union Commerce Building, Cleveland, Ohio, by letter or postcard, of his maximum prices established pursuant to this order, together with a statement of his previous maximum prices.

B. Each milk distributor increasing his price to producers for whole milk in a raw and unprocessed state pursuant to the provisions of this order shall, within five (5) days after such action, notify the Office of Price Administration, Cleveland Regional Office, Union Commerce Building, Cleveland, Ohio, by letter or postcard, of his price established pursuant to the provisions of this order, together with a statement of his previous price.

C. Each person shall, in addition to the above, file with the Office of Price Administration, Cleveland Regional Office, Union Commerce Building, Cleveland, Ohio, such reports as may hereafter be required by said Regional Office.

VI. *Discounts.* Any person selling approved fluid milk and/or special milk at retail or wholesale in the State of Ohio may discontinue the granting of discounts.

VII. *Notification of retail stores.* Each distributor selling approved fluid milk and/or special milk at wholesale to a retail store or stores shall notify each store to whom he sells, by letter, of the adjustment permitted in this order, and each retail store is hereby required to comply with the requirements of the General Maximum Price Regulation as to the posting of prices of cost-of-living commodities.

VIII. The provisions of this order supersede the provisions of the following orders which have previously been issued by the Regional Administrator of Region III:

General Order No. 1

Order No. III–1499.18 (c)–1: In the matter of Deerlick Dairy, Leonardburg, Ohio.

Order No. III–1499.18 (c)–2: Order adjusting the maximum prices of fluid milk at retail and wholesale in the Counties of Erie and Ottawa in the State of Ohio.

Order No. III–1499.18 (c)–33: Order adjusting the maximum prices of fluid whole milk and special milk at retail and wholesale in the County of Lucas in the State of Ohio.

Said Orders Nos. III–1499.18 (c)–1, 2, 4, 5, 6, 9, 10, 11, 16 and 33 are, therefore, revoked, and General Order No. 1 is revoked as to all Counties in the State of Ohio.

IX. *Definitions.* A. "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or successors of the foregoing.

B. "Milk distributor" is defined to mean any individual, corporation, partnership, association, or any other organized group of persons or successors of the foregoing who purchases whole milk in a raw and unprocessed state for the purpose of resale as fluid whole milk in glass, paper or other containers.

C. *Approved fluid milk and special milk.* 1. "Approved fluid milk" is defined to mean fluid cow's milk, whether raw or pasteurized, meeting the minimum butterfat content, sanitary and health requirements for fluid milk for human consumption in the particular area wherein it is delivered, including standards set by the Army or Navy purchasing officer making purchases for the Armed Forces of the United States.

2. "Special milk" is defined to mean vitamin D homogenized milk, plain homogenized milk, softcurd milk, buttermilk, approved fluid milk flavored with chocolate, chocolate drink, skim milk and, in addition to the foregoing, any milk conforming to both of the following requirements: (a) it must contain a greater butterfat content than approved fluid milk, and (b) it must have sold during the month of March, 1942 at a price higher than approved fluid milk.

D. "Sale or delivery at retail" means a sale of approved fluid milk or special milk in glass, paper or other containers to an ultimate consumer, other than to an industrial, institutional, commercial or governmental user.

E. "Sale or delivery at wholesale" refers to a sale of approved fluid milk or special milk, in glass, paper or other containers to any person, including an industrial or commercial user, other than an ultimate consumer. For the purposes of this order, a sale or delivery at wholesale shall include a sale or delivery to stores, hotels, restaurants, institutions and any branch of the Armed Forces of the United States. A sale or delivery at wholesale does not include a sale of bulk milk made by one distributor to another, or a sale by a cooling station to a manufacturing plant or to a distributor.

X. This order shall remain in effect until modified or revoked by the Regional Administrator.

This Order No. G–25 shall become effective March 1, 1943.

Issued March 1, 1943.

BIRKETT L. WILLIAMS,
Regional Administrator.

[Region IV Order G-1 Under SR 14]

FLUID MILK IN BEN HILL COUNTY, GA.

Order No. G-1 under § 1499.73 (a) (1) (vi) of Supplementary Regulation No. 14 to the General Maximum Price Regulation. (Formerly Atlanta Regional Price Order No. 14-34-1.) Adjustment of fluid milk prices for Ben Hill County, Georgia.

The Regional Administrator of the Office of Price Administration for Region IV has determined upon his own motion that the maximum prices established in § 1499.2 of the General Maximum Price Regulation for the sale of fluid milk has established an abnormal differential between the prices charged for fluid whole milk in the community of Fitzgerald, Ben Hill County, Georgia, and other surrounding communities. The Regional Administrator has further found that the abnormal differential which has been established is causing a diversion of a material portion of the normal supply of fluid whole milk from the community of Fitzgerald to other communities, and that there is a serious shortage of such milk in that locality. So far as practicable the Regional Administrator has advised and consulted with representative members of the industry which will be affected by this order and the prices herein established have been discussed with such persons.

In the judgment of the Regional Administrator the maximum prices established by this order are and will be generally fair and equitable and will adjust maximum prices established in § 1499.2 of the General Maximum Price Regulation to the minimum extent necessary to relieve the condition of shortage of fluid whole milk now existing in the locality of Fitzgerald, Ben Hill County, Georgia.

Therefore, under the authority vested in the Regional Administrator, by Amendment 34 to Supplementary Regulation 14 to the General Maximum Price Regulation issued September 26, 1942, Atlanta Regional Order No. G-1 is hereby issued.

I. *Adjusted maximum prices for fluid whole milk.* On and after November 9th, 1942, the maximum price for fluid whole milk sold and delivered in the locality of Fitzgerald, Ben Hill County, Georgia, by any person at wholesale shall be 12¢ per quart and 7¢ per pint; and the maximum price for fluid whole milk sold and delivered in the locality of Fitzgerald, Ben Hill County, Georgia, by any person at retail shall be 14¢ per quart and 8¢ per pint.

II. *Definitions.* For the purposes of this order:

(1) "Locality of Fitzgerald, Ben Hill County, Georgia" shall mean the area included within the boundaries of the County of Ben Hill.

(2) All other terms used, unless the context otherwise requires, including the terms "retail" and "wholesale" shall be construed in accordance with § 1499.20 of General Maximum Price Regulation.

III. *Requirements of notification.* (1) All persons making sales at wholesale pursuant to this Order shall in writing notify each purchaser of the maximum prices established by this order for sales at wholesale on or before the first delivery of such product to such purchaser after the effective date hereof.

(2) All persons making sales at retail pursuant to this order, except persons making such sales from a retail store, shall in writing notify each purchaser of the maximum prices established by this order for sales at retail on or before the first delivery of such product to such purchaser after the effective date hereof.

(3) The written notifications required in subparagraphs III (1) and (2) shall contain the following statement:

By Order No. G-1 issued by the Atlanta Regional Office on October 31, and effective November 9th, the Regional Administrator of the Office of Price Administration for Region IV established adjusted maximum prices for fluid whole milk in the locality of Fitzgerald, Ben Hill County, Georgia, as follows:

	Quart	Pint
	Cents	*Cents*
Wholesale	12	7
Retail	14	8

Copy of said order may be inspected at the place of business of the seller.

(4) Every person making sales and deliveries of fluid whole milk at wholesale or retail pursuant to this order shall post a copy of this order at a conspicuous place in his place of business, and shall make such order available during usual business hours for examination by any person requesting to see same.

IV. *Applicability of the General Maximum Price Regulation.* Except as otherwise provided herein, all transactions subject to this order remain subject to all the provisions of the General Maximum Price Regulation, together with all amendments that have been heretofore or which may be hereafter issued.

V. *Effective date.* This order shall become effective November 9th, 1942.

This order may be revoked or amended by the Regional Administrator at any time.

FIREWOOD IN RICHLAND, LEXINGTON AND FAIRFIELD COUNTIES, S. C.

Order No. G-1 under Supplementary Regulation No. 15 to the General Maximum Price Regulation. (Formerly Price Order No. 1.)

The Director of the State Office of the Office of Price Administration for the State of South Carolina has determined upon his own motion that in his judgment the maximum prices established in § 1499.2 of the General Maximum Price Regulation for the sale or delivery of firewood are inadequate to insure a sufficient supply of firewood to meet heating requirements in the Counties of Richland, Lexington, and Fairfield, in the State of South Carolina. The State Director has ascertained and given due consideration to the increased costs of production and transportation which sellers of firewood in the Counties of Richland, Lexington, and Fairfield, in the State of South Carolina must incur in order to produce such firewood compared with such costs in March 1942, and in any earlier months in which firewood was generally produced in the three Counties aforesaid. So far as practicable, the Director has advised and consulted with sellers of firewood who will be affected by this order.

In the judgment of the State Director, the maximum prices established by this order are and will be generally fair and equitable and will adjust maximum prices established in § 1499.2 of the General Maximum Price Regulation to the minimum extent necessary to insure a sufficient supply of firewood in the Counties of Richland, Lexington, and Fairfield, State of South Carolina.

Therefore, under the authority vested in the State Director by Supplementary Regulation Number 15 to the General Maximum Price Regulation, Order No. G-1 is hereby issued.

1. *Maximum prices for firewood.* On and after November 19, 1942, regardless of any contract or other obligation, no person shall sell or deliver in the Counties of Richland, Lexington and Fairfield, State of South Carolina, any firewood covered by this order and no person shall buy or receive in the course of trade or business in the Counties of Richland, Lexington and Fairfield, said State, any firewood covered by this order, at prices higher than the maximum prices set forth below:

(a) The maximum prices for sales or deliveries at retail of firewood, sawed and split into pieces which may vary from twelve to eighteen inches in length, shall be:

1. One cord	$9.00
2. One-half cord	4.75
3. One-fourth cord	2.40

(b) The maximum prices for sales or deliveries of firewood, regardless of length, other than at retail, shall be: $6.00 per cord.

The prices established in this order include delivery at the purchaser's premises and other services incident to the sale of firewood customarily performed by the seller in March 1942.

All credit terms, discounts, allowances and price differentials offered by the seller during March 1942, shall be maintained.

2. *Definitions.* When used in this order the term:

(a) "Firewood" means any wood, other than kindling, prepared and intended for consumption as fuel.

(b) "A cord". A cord shall contain 128 cubic feet of wood.

(c) All other terms used, unless the context otherwise requires, shall be construed in accordance with § 1499.20 of the General Maximum Price Regulation.

3. *Records and reports.* (a) Every seller at retail whose maximum prices are established by this order must keep posted at a conspicuous place in his place of business a copy of this order.

(b) Every seller whose maximum prices are established by this order shall keep for inspection by the Office of Price Administration a record of each sale of firewood made by him on and after the effective date of this order. Such record must show the date of delivery, the kind and quantity of wood sold, the name of the purchaser and the amount charged for the sale.

(c) Every seller at retail whose maximum prices are established by this order shall deliver to the purchaser with respect to each sale a written bill or invoice which shall contain (1) the date on which the sale or contract of sale was made; (2) a description of the size, kind, quality and quantity of firewood involved in the transaction; (3) the price charged; and (4) the following statement:

By Order No. G-1 issued by the South Carolina Office on November 19, 1942 and effective November 19, 1942, the Office of Price Administration established maximum prices for firewood in the Counties of Richland, Lexington, and Fairfield, South Carolina, at $9.00 per cord, $4.75 per half cord, and $2.40 per one-fourth cord, when sold at retail, and sawed and split into pieces which may vary from twelve to eighteen inches in length, and maximum prices for sales or deliveries of firewood, other than at retail, at $6.00 per cord. Copy of said order may be inspected at the place of business of the above named seller.

4. *Applicability of the General Maximum Price Regulation.* Except as otherwise provided herein, all transactions subject to this order remain subject to all the provisions of the General Maximum Price Regulation, together with all amendments and supplementary regulations that have been heretofore or may be hereafter issued.

5. *Effective date.* This order shall become effective November 19, 1942.

This order may be revoked or amended by the State Director of the Office of Price Administration for the State of South Carolina at any time.

Issued this 19th day of November 1942.

FIREWOOD IN BEAUFORT COUNTY, S. C.

Order No. G-2 under Supplementary Regulation No. 15 to the General Maximum Price Regulation. (Formerly Price Order No. 2.)

The Director of the State Office of the Office of Price Administration for the State of South Carolina has determined upon his own motion that in his judgment the maximum prices established in § 1499.2 of the General Maximum Price Regulation for the sale or delivery of firewood are inadequate to insure a sufficient supply of firewood to meet heating requirements in the County of Beaufort, in the State of South Carolina. The State Director has ascertained and given due consideration to the increased costs of production and transportation which sellers of firewood in this County and State must incur in order to produce such firewood compared with such costs in March, 1942, and in any earlier

months in which firewood was generally produced in the County aforesaid. So far as practicable, the Director has advised and consulted with sellers of firewood who will be affected by this order.

In the judgment of the State Director, the maximum prices established by this order are and will be generally fair and equitable and will adjust maximum prices established in § 1499.2 of the General Maximum Price Regulation to the minimum extent necessary to insure a sufficient supply of firewood in the County of Beaufort, State of South Carolina.

Therefore, under the authority vested in the State Director of Supplementary Regulation Number 15 to the General Maximum Price Regulation, Order No. G–2 is hereby issued.

1. *Maximum prices for firewood.* On and after December 17, 1942, regardless of any contract or obligation, no person shall sell or deliver in the County of Beaufort, State of South Carolina, any firewood covered by this order and no person shall buy or receive, in the course of trade or business in the County of Beaufort, said State, any firewood covered by this order, at prices higher than the maximum prices set forth below:

(a) The maximum prices for sales or deliveries at retail of pine and oak firewood, sawed or cut into lengths which may vary from twelve to eighteen inches in length, shall be:

SALES AT RETAIL

[Lengths varying from twelve to eighteen inches]

	Oak		Pine	
	Split	Unsplit	Split	Unsplit
One cord	$9.50	$8.00	$9.00	$7.50
One-half cord	5.25	4.25	4.75	3.75
One-third cord	3.25	2.75	3.00	2.50
One-sixth cord	2.00	1.50	1.75	1.25

SALES OTHER THAN AT RETAIL

[Regardless of length]

	Oak	Pine
One cord	$6.00	$5.50

and that suppliers of such firewood are devoting their efforts and productive capacities to other purposes, and that the retailers of cordwood find it impossible to meet the demand for fuelwood in the area referred to.

It is the intent of this order to relieve the shortage by encouraging the production and distribution of firewood at prices designed to be equitable both to sellers and purchasers.

This order is effective December 17, 1942.

Dated December 17, 1942.

JAMES C. DERIEUX,
State Director.

FLUID MILK IN BRADLEY COUNTY, TENN.

Order No. G–4 under § 1499.18 (c), as amended of the General Maximum Price Regulation. Adjustment of certain fluid milk prices for Bradley County, Tenn. (Formerly Price Order No. 18 (c)–4.)

The Regional Administrator of the Office of Price Administration for Region IV has determined that a serious shortage of Grade A raw milk, both at wholesale and at retail, exists in Bradley County, Tennessee. The Regional Administrator has further found that a supply of Grade A raw milk is essential to a standard of living consistent with the prosecution of the war; that the existing shortage in Bradley County, Tennessee, will be eliminated by adjusting the maximum prices of sellers of Grade A raw milk in Bradley County, Tennessee, to the extent permitted by this order; and that such adjustment will not create or tend to create a shortage, or a need for increases in prices in any other locality and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Therefore, under the authority vested in the Regional Administrator, by § 1499.18 (c) of General Maximum Price Regulation, as amended, *It is hereby ordered,* That:

I. *Adjusted maximum prices for grade A raw milk.* On and after December 14, 1942, the maximum price for Grade A raw milk in glass and paper containers sold and delivered within the boundaries of Bradley County, Tennessee, by any person at wholesale shall be 11¢ per quart, 6¢ per pint, and 3½¢ per half-pint when sold in glass containers, and 13¢ per quart, and 7¢ per pint when sold in paper containers; and the maximum price for Grade A raw milk in glass and paper containers sold and delivered within the boundaries of Bradley County, Tennessee, by any person at retail, other than a person selling such milk at a hotel, restaurant, soda fountain, bar, cafe, or other similar establishment for consumption on the premises, shall be 13¢ per quart, 7¢ per pint, and 5¢ per half-pint when sold in glass containers, and 15¢ per quart and 8¢ per pint when sold in paper containers.

II. *Requirements of notification.* (1) All persons making sales at wholesale pursuant to this order shall in writing notify each purchaser of the maximum prices established by this order for sales at wholesale on or before the first delivery of such product to such purchaser after the effective date hereof.

(2) All persons making sales at retail pursuant to this order, except persons making such sales from a retail store, shall in writing notify each purchaser of the maximum prices established by this Order for sales at retail on or before the first delivery of such product to such purchaser after the effective date hereof.

(3) The written notifications required in subparagraphs III (1) and (2) shall contain the following statement:

By Order No. G–3 issued by the Atlanta Regional Office on December 7, and effective December 14, the Regional Administrator of the Office of Price Administration for Region IV established adjusted maximum prices for Grade A raw milk within the boundaries of Bradley County, Tennessee, as follows:

	Wholesale	Out of retail store	Retail home-delivered
GLASS			
Quarts	11	13	13
Pints	6	7	7
Half-Pints	3½	5	5
PAPER			
Quarts	13	15	15

Copy of said order and the accompanying opinion may be inspected at the place of business of the seller.

(4) Every person making sales and deliveries of grade A raw milk at wholesale or retail pursuant to this order shall post a copy of this order and the accompanying opinion at a conspicuous place in his place of business, and shall make such order and opinion available during usual business hours for examination by any person requesting to see same.

III. *Applicability of the General Maximum Price Regulation.* Except as otherwise provided herein, all transactions subject to this order remain subject to all the provisions of the General Maximum Price Regulation, together with all amendments that have been heretofore or which may be hereafter issued.

IV. *Effective date.* This order No. G–4 shall become effective December 14, 1942.

This order No. G–4 may be revoked or amended by the Regional Administrator at any time.

FLUID MILK IN STEPHENS COUNTY, GA.

Order No. G–5 (formerly Price Order No. 18 (c)–6) under § 1499.18 (c), as amended, of the General Maximum Price Regulation. Adjustment of certain fluid milk prices for Stephens County, Georgia.

The Regional Administrator of the Office of Price Administration for Region IV has determined that a serious shortage of fluid milk, both at wholesale and at retail, exists in Stephens County, Georgia. The Regional Administrator has further found that a supply of fluid milk is essential to a standard of living consistent with the prosecution of war; that the existing shortage in Stephens County, Georgia will be eliminated by adjusting the maximum prices of sellers of fluid milk in Stephens County to the extent permitted by this order; and that such adjustment will not create or tend to create a shortage, or a need for increase in prices in any other locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Therefore, under the authority vested in the Regional Administrator by § 1499.18 (c) of General Maximum Price Regulation, as amended, *It is hereby ordered,* That:

I. *Adjusted maximum prices for Grade A raw and pasteurized milk.* On and after December 30, 1942, the maximum price for Grade A Raw and Pasteurized milk sold and delivered in Stephens County, Georgia by any person at wholesale shall be 14¢ per quart, 8¢ per pint and 4¢ per half-pint; and the maximum price for Grade A Raw and Pasteurized milk sold and delivered in Stephens County, Georgia by any person at retail (including sales to the War Department or the Department of the Navy of the United States) other than a person selling such milk at a hotel, restaurant, soda fountain, bar, cafe, or other similar establishment for consumption on the premises, shall be 16¢ per quart, 9¢ per pint and 5¢ per half-pint; *Provided, however,* That the maximum price for Grade A Raw and Pasteurized milk sold and delivered in Stephens County, Georgia by any person at wholesale to a Post Exchange shall be 16¢ per quart, 9¢ per pint and 5¢ per half-pint.

II. *Definitions.* (1) "Stephens County, Georgia" shall mean the area included within the established boundaries of such county.

(2) "Grade A raw milk" shall mean liquid Grade A raw milk in quart, pint and half-pint glass containers.

(3) "Grade A pasteurized milk" shall mean liquid Grade A pasteurized milk in quart, pint and half-pint glass containers.

(4) All other terms used, unless the context otherwise requires, including the terms "retail" and "wholesale" shall be construed in accordance with § 1499.20 of the General Maximum Price Regulation.

III. *Requirements of notification.* (1) All persons making sales at wholesale pursuant to this order shall in writing notify each purchaser of the maximum prices established by this order for sales at wholesale on or before the first delivery of such product to such purchaser after the effective date hereof.

(2) All persons making sales at retail pursuant to this order, except persons making such sales from a retail store, shall in writing notify each purchaser of the maximum prices established by this order for sales at retail on or before the first delivery of such product to such purchaser after the effective date hereof.

(3) The written notifications required in subparagraphs III (1) and (2) shall contain the following statement:

By Order No. G–5, issued by the Atlanta Regional Office on December 22, 1942 and effective December 30, 1942, the Regional Administrator of the Office of Price Administration for Region IV established adjusted maximum prices for grade A raw and pasteurized milk within the boundaries of Stephens County, Georgia, as follows:

FLUID MILK IN FULTON AND DE KALB COUNTIES, GA.

Order No. G–9 under § 1499.18 (c), as amended, of General Maximum Price Regulation. Adjustment of certain fluid milk prices for Fulton and De Kalb Counties, Georgia. (Formerly Price Order No. 18 (c)–10.)

The Regional Administrator of the Office of Price Administration for Region IV has determined that a serious shortage of fluid milk, both at wholesale and at retail, is threatened in Fulton and De Kalb Counties, Georgia. The Regional Administrator has further found that a supply of fluid milk is essential to a standard of living consistent with the prosecution of war; that the threatened shortage in Fulton and De Kalb Counties, Georgia will be eliminated by adjusting the maximum prices of sellers of fluid milk in Fulton and De Kalb Counties, Georgia to the extent permitted by this Order; and that such adjustment will not create or tend to create a shortage, or a need for increase in prices in any other locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Therefore, under the authority vested in the Regional Administrator, by § 1499.18 (c) of General Maximum Price Regulation, as amended, *It is hereby ordered,* That:

I. *Adjusted maximum prices for raw and pasteurized fluid milk, premium milk, chocolate milk and butter milk.* On and after January 1, 1943 the maximum price for raw and pasteurized fluid milk in glass and paper containers sold and delivered within the boundaries of Fulton and DeKalb Counties, Georgia by any person at wholesale shall be 15¢ per quart, 8¢ per pint and 4¢ per half-pint when sold in glass containers and 16¢ per quart, 9¢ per pint and 5¢ per half-pint when sold in paper containers; and the maximum price for raw and pasteurized fluid milk in glass and paper containers sold and delivered within the boundaries of Fulton and DeKalb Counties, Georgia by any person at retail, other than a person selling milk at a hotel, restaurant, soda fountain, bar, cafe or other similar establishment for consumption on the premises, shall be 17¢ per quart, 9¢ per pint and 5¢ per half-pint when sold in glass containers and 18¢ per quart, 10¢ per pint and 6¢ per half-pint when sold in paper containers: *Provided,* That the maximum price of any seller for any specific kind, grade, quality or quantity of premium milk, chocolate milk or butter milk shall be a price reflecting the same differential in terms of cents between such product and standard whole mile (raw or pasteurized), in containers of the same size and type, as existed under prices established by such seller under General Maximum Price Regulation.

II. *Definitions.* (1) "Fulton and DeKalb Counties, Georgia" shall mean the area included within the established boundaries of such counties.

(2 "Raw and pasteurized fluid milk" shall mean liquid milk containing no less than 3.5% butter fat content in half-pint, pint and quart glass and paper containers but shall not include premium milk, chocolate milk or butter milk.

(3) "Premium milk" shall mean certified milk, vitamin D milk and Golden Guernsey milk.

(4) All other terms used, unless the context otherwise requires, including the terms "retail" and "wholesale" shall be construed in accordance with § 1499.20 of General Maximum Price Regulation.

III. *Requirements of notification.* (1) All persons making sales at wholesale pursuant to this order shall in writing notify each purchaser of the maximum prices established by this order for sales at wholesale within five days after the first delivery of such product to such purchaser after the effective date hereof.

(2) All persons making sales at retail pursuant to this order, except persons making such sales from a retail store, shall in writing notify each purchaser of the maximum prices established by this order for sales at retail within five days after the first delivery of such product to such purchaser after the effective date hereof.

(3) The written notifications required in subparagraphs III (1) and (2) shall contain the following statement:

By Order No. G-9, issued by the Atlanta Regional Office on December 31, 1942 and effective January 1, 1943, the Regional Administrator of the Office of Price Administration for Region IV established adjusted maximum prices for raw and pasteurized fluid milk within the boundaries of Fulton and DeKalb Counties, Georgia, as follows:

	Wholesale	Out of retail store	Retail home delivered
CLASS	*Cents*	*Cents*	*Cents*
Quarts	15	17	17
Pints	8	9	9
Half-pints	4	5	5
PAPER			
Quarts	16	18	18
Pints	9	10	10
Half-pints	5	6	6

This order contains the following proviso—the maximum price of any seller for any specific kind, grade, quality or quantity of premium milk, chocolate milk or butter milk shall be a price reflecting the same differential in terms of cents between such product and standard whole milk (raw or pasteurized), in containers of the same size and type, as existed under prices established by such seller under General Maximum Price Regulation. The order defines premium milk to mean certified milk, vitamin D milk and Golden Guernsey milk.

Copy of said order and the accompanying opinion may be inspected at the place of business of the seller.

(4) Every person making sales and deliveries of raw and pasteurized fluid milk at wholesale or retail pursuant to this order shall post a copy of this order and the accompanying opinion at a conspicuous place in his place of business, and shall make such order and opinion available during usual business hours for examination by any person requesting to see same.

IV. *Applicability of the General Maximum Price Regulation.* Except as otherwise provided herein, all transactions subject to this order remain subject to all the provisions of the General Maximum Price Regulation, together with all amendments that have been heretofore or which may be hereafter issued.

V. *Effective date.* This order No. G–9 shall become effective January 1, 1943.

This order No. G–9 may be revoked or amended by the Regional Administrator at any time.

Provided that milk in paper containers may be sold at 1¢ above the price for the corresponding container size for glass set forth in the schedule of prices heretofore listed in this subsection, and provided that the maximum price of any seller for any specific kind, grade, quality or quantity of premium milk, chocolate milk or buttermilk shall be a price reflecting the same differential in terms of cents between such product and standard whole milk (raw or pasteurized) in containers of the same size and type, as existed under prices established by such seller under the General Maximum Price Regulation.

This order is not intended to establish maximum prices for the sale at retail of milk at a hotel, restaurant, soda fountain, bar, cafe or other similar establishment for consumption on the premises, such sales remaining subject in all respects to the provisions of the General Maximum Price Regulation.

II. *Definitions.* (a) "Cobb County, Georgia," shall mean the area included within the established boundaries of such county.

(b) "Raw and pasteurized fluid milk" shall mean liquid milk containing no less than 3.5 per cent butterfat content in half-pint, pint and quart glass and paper containers but shall not include premium milk, chocolate milk or buttermilk.

(c) "Premium milk" shall mean certified milk, vitamin D milk and Golden Guernsey milk.

(d) All other terms used, unless the context otherwise requires, including the terms "retail" and "wholesale," shall be construed in accordance with § 1499.20 of the General Maximum Price Regulation.

III. *Requirements of notification.* (a) All persons making sales at retail and all persons making sales at wholesale pursuant to this order except persons making retail sales from a retail store, shall in writing notify each purchaser of the maximum price established by this order within five days after the first delivery of such product to such purchaser after the effective date hereof.

(b) The written notification required in subparagraph III (a) shall contain the following statement:

By Order No. G–13 issued by the Atlanta Regional Office on January 19, 1943, and effective January 21, 1943, the Regional Administrator of the Office of Price Administration for Region IV established adjusted maximum prices for whole milk, raw and pasteurized, within the boundaries of Cobb County, Georgia, as follows:

On and after January 21, 1943, the maximum price for whole milk, raw and pasteurized, sold and delivered in quarts, pints, and half pints in glass containers within the boundaries of Cobb County, Georgia, by any person at wholesale or retail shall be either the prices set forth in subsection (a) or subsection (b), whichever is higher:

(a) The maximum prices established by any such seller under the General Maximum Price Regulation (if such seller has prior to the effective date of this order established such maximum price), or

(b) Glass Containers:

This order is not intended to establish maximum prices for the sale at retail of milk at a hotel, restaurant, soda fountain, bar, cafe or other similar establishment for consumption on the premises, such sales remaining subject in all respects to the provisions of the General Maximum Price Regulation.

Copy of this order and the accompanying opinion may be inspected at the place of business of the seller.

(c) Every person making sales and deliveries of whole milk, raw and pasteurized, at wholesale or retail pursuant to this order shall post a copy of this order and the accompanying opinion at a conspicuous place in his place of business, and shall make such order and opinion available during usual business hours for examination by any person requesting to see same.

IV. *Applicability of the General Maximum Price Regulation.* Except as otherwise provided herein, all transactions subject to this order remain subject to all the provisions of the General Maximum Price Regulation, together with all amendments that have been heretofore or which may be hereafter issued.

V. *Effective date.* This order No. G–13 shall become effective the 21st day of January, 1943.

This order No. G–13 may be revoked or amended by the Regional Administrator at any time.

THE UNITED LIGHT AND POWER COMPANY, ET AL.

NOTICE OF FILING OF SUPPLEMENTAL APPLICATION

In the matter of the United Light and Power Company, Continental Gas & Electric Corporation, and Eastern Kansas Utilities, Inc., et al.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 3d day of August 1943.

Notice is hereby given that an application has been filed with this Commission by Eastern Kansas Utilities, Inc., a subsidiary of Continental Gas & Electric Corporation, a registered holding company; the said application being designated as a supplemental application to Application No. 9; and

Notice is further given that any interested person may not later than August 17, 1943 at 5:30 p. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest or may request that he be notified if the Commission should order a hearing thereon. At any time, thereafter, such application as filed or as amended may be granted by an appropriate order of the Commission. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

All interested persons are referred to the said application which is on file in the office of the said Commission for a statement of the subject matter which is summarized below:

The Eastern Kansas Utilities, Inc., was permitted to acquire electric utility assets and certain non-utility assets by order of the Commission dated July 16, 1942, which order under the provisions of section 11 (b) (1) of the Public Utility Holding Company Act of 1935 required that the non-utility assets be divested within one year from the date of the order. The application requests an extension until July 16, 1944 of the time for compliance with that divestment order on the ground that the applicant has been unable in the exercise of due diligence to comply therewith.

By the Commission.

THE LITCHFIELD ELECTRIC LIGHT AND POWER COMPANY AND NY PA NJ UTILITIES COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of August 1943.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by NY PA NJ Utilities Company, a registered holding company, and its wholly-controlled subsidiary, The Litchfield Electric Light and Power Company; and

All interested persons are referred to the said application-declaration which is on file in the office of the said Commission for a statement of the transactions therein proposed which are summarized below:

NY PA NJ Utilities Company proposes to sell all of its securities of The Litchfield Electric Light and Power Company, consisting of the entire outstanding issue of 2500 shares of common stock (with no par value), to The Connecticut Light and Power Company, a non-affiliate, for a base cash consideration of $485,000.

NY PA NJ Utilities Company also proposes to acquire from The Litchfield Electric Light and Power Company all of the latter's holdings of 280 shares of common stock of Atlantic Utility Service Corporation, paying therefor a cash consideration of $3,710, and, in consideration for the receipt from said subsidiary of the sum of $1,321.29, to indemnify the latter against any and all claims which may be asserted against it by Atlantic Utility Service Corporation.

NY PA NJ Utilities Company also proposes to pay The Litchfield Electric Light and Power Company the further sum of $1,143.87, in consideration for an assignment of certain claims, at the same time indemnifying it against counter-claims. Certain other payments, indemnifications and adjustments between the applicants-declarants are also proposed.

The said application-declaration contains a request that the Commission enter an order reciting in substance that the proposed sale and transfer of common stock by NY PA NJ Utilities Company is necessary and appropriate to effectuate the provisions of section 11 (b) of the Act; and

The applicants-declarants have designated sections 9 (a), 10, 12 (a), 12 (d), and 12 (f) of the Act, and Rules U-43, U-44, and U-45 promulgated thereunder, as applicable to the filing.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matters;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and the Rules of the Commission thereunder be held on August 16, 1943, at 10 a. m., e. w. t., at the offices of the Securities and Exchange Commis-

sion, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held;

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings in such matters. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice;

It is further ordered, That, without limiting the scope of the issues presented by said application-declaration, particular attention will be directed at such hearing to the following matters:

1. Whether the proposed transactions are in the public interest and in the interest of investors and consumers;

2. Whether the various considerations for the proposed transactions are fair and reasonable;

3. The propriety of the proposed accounting treatment of each of the proposed transactions on the books of the applicants-declarants;

4. Whether the proposed acquisition by NY PA NJ Utilities Company of the common stock of Atlantic Utility Service Corporation complies with the provisions of sections 9 and 10 of the Act, and specifically whether it is detrimental to the carrying out of the provisions of section 11 of the Act;

5. Whether the proposed sale of the common stock by NY PA NJ Utilities Company is necessary and appropriate to effectuate the provisions of section 11 (b) (1) of the Public Utility Holding Company Act of 1935;

6 Whether, in all respects, the proposed transactions comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder;

7. Whether, and to what extent, it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose terms or conditions in regard to any of the proposed transactions.

By the Commission.

(b) Eastern Shore Public Service Company (Delaware) will retire or redeem:

$4,800,000 principal amount of First Mortgage and First Lien Twenty-year 5½% Bonds, Series A, due September 1, 1947, callable at 101% (price effective September 1, 1943) of the principal amount;

$2,250,000 principal amount of First Mortgage and First Lien Twenty-five Year 5% Bonds, Series B, due September 1, 1955, callable at 102% (price effective September 1, 1943) of the principal amount;

$200,000 face amount 3% note payable to The Chase National Bank of the City of New York due May 20, 1944, payable at any time at the face amount, secured by the pledge of $900,000 principal amount of First Mortgage and First Lien 5% Bonds, Series C, due September 1, 1946 of Eastern Shore Public Service Company (Delaware), which bonds are to be cancelled;

20,177 shares of $6 Series, no par preferred stock, at $106 per share plus accrued dividends;

14,538⅜ shares of $6.50 Series, no par preferred stock, at $106.50 per share, plus accrued dividends.

(c) The new combined Delaware Power & Light-Eastern Shore Public Service Company (Delaware) will sell:

$15,000,000 principal amount of 30-year 3% First Mortgage and Collateral Trust Bonds to net the said combined Company not less than the principal amount and accrued interest, secured by an open-end mortgage on the properties and franchises of the said combined Company, and by the pledge of the outstanding securities of the subsidiaries of said combined Company;

$4,000,000 par value of Preferred Stock ($100 par) to be sold to net the said combined Company not less than par, plus accrued dividends, and with a dividend rate not to exceed 4.4%;

1,162,600 shares of $13.50 par value Common Stock ($15,695,100) to be sold to The United Gas Improvement Company in consideration of the payment by The United Gas Improvement Company of its holdings of the outstanding Common Stock of Delaware Power & Light Company and Eastern Shore Public Service Company (Delaware), and $6,287,063.50 cash.

(d) Maryland Light and Power Company will redeem its publicly-held long-term debt, consisting of $1,089,000 principal amount of First Mortgage First Lien Bonds, Series A, 5½%, due January 1, 1950, callable at 102 (present price) of the principal amount and accrued interest.

(e) The Eastern Shore Public Service Company of Maryland will retire the $3,592,500 principal amount of First Mortgage Bonds, 4% Series due 1969 issued under its present indenture, dated September 1, 1939, which indenture is to be discharged, and pledged under the mortgage of Eastern Shore Public Service Company (Delaware), which mortgage is also to be discharged.

(f) The new combined Maryland Light and Power-Eastern Shore Public Service Company of Maryland will issue 37,600 shares of no par capital stock (stated value $3,760,000) and $3,760,000 of 30-year 4% Notes, all of which securities will be owned by the new combined Delaware Power & Light-Eastern Shore Public Service Company (Delaware), and pledged under its new mortgage.

(g) Eastern Shore Public Service Company of Virginia will retire its outstanding debt aggregating $1,403,319.91, including the $1,372,500 principal amount of its First Mortgage Bonds, 4% Series due 1969, issued under its present indenture, dated September 1, 1939, which is to be discharged, and pledged under the mortgage of Eastern Shore Public Service Company (Delaware), which is also to be discharged, and will issue 7,750 shares of no par value capital stock (stated value $775,000) and $775,000 principal amount of 30-year 4% notes, all of which securities will be owned by the new combined Delaware Power & Light-Eastern Shore Public Service Company (Delaware) and pledged under its new mortgage.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matters and that the application shall not be granted except pursuant to further order of the Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on September 3, 1943, at 10 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locusts Streets, Philadelphia, Pennsylvania, in such rooms as the hearing room clerk in room 318 will at that time advise. At such hearing cause shall be shown why such application shall be granted. Any person desiring to be heard or otherwise participate in the proceedings should file with the Secretary of the Commission, on or before the 28th day of August, 1943, his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of the issues presented by the application otherwise to be considered in these proceedings, particular attention will be directed at the hearing to the following matters and questions:

1. Whether it is in the public interest and the interest of investors and consumers and in conformity with the applicable provisions of the Act to grant the application.

2. Whether all fees in connection with the proposed transactions are fair and reasonable.

3. Whether and to what extent it is appropriate in the public interest and for the protection of investors and consumers to impose terms and conditions with respect to the proposed transactions.

4. Generally, whether the proposed transactions meet the appropriate provisions of the Act and Rules and Regulations promulgated thereunder.

By the Commission.

UNITED PUBLIC SERVICE CORP.

NOTICE OF FILING SUPPLEMENTAL APPLICATION AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3rd day of August 1943.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by United Public Service Corporation.

All interested persons are referred to said application, which is on file in the offices of the Commission for a statement of the transactions therein proposed which are summarized as follows:

United Public Service Corporation proposes to sell its 148,055 shares of Class B Common Stock of United Public Utilities Corporation to Wilbur W. Thompson who offers to buy said shares of stock for the sum of $16,000 clear of fees or commissions less transfer taxes estimated at approximately $105.

The application states that said shares of stock are the sole remaining asset of United Public Service Corporation other than cash and receivables; that said Wilbur W. Thompson is the president of Commercial National Bank of Iron Mountain, Iron Mountain, Michigan; that he is not a holding company, or a subsidiary or an affiliate or associate of any registered holding company as defined in the Act; that it is his intention to hold said shares for investment and public distribution is not contemplated; and that the proposed price of $16,000 is the best price obtainable at the present time.

The application further states that it is filed in accordance with the Commission's orders of December 30, 1941, January 23, 1942 and November 30, 1942 issued in the above entitled matter providing that sales or distributions of the remaining assets of United Public Service Corporation should not be made, except upon further order of the Commission.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matters and that the application shall not be granted except pursuant to further order of the Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on August 25, 1943 at 10 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as the hearing room clerk in room 318 will at that time advise.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of the issues presented by the application otherwise to be considered in these proceedings, particular attention will be directed at the hearing to the following matters and questions:

1. Whether it is in the public interest and the interest of investors and consumers to grant the application.

2. Whether and to what extent, if any, it is appropriate in the public interest or for the protection of investors and consumers that terms and conditions be imposed with respect to the proposed transactions.

3. Whether the proposed transactions meet the appropriate provisions of the Act and rules, regulations or orders of the Commission promulgated thereunder.

CITIES SERVICE POWER AND LIGHT CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3rd day of August 1943.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Cities Service Power & Light Company ("Power &

Light"), a registered holding company. All interested persons are referred to said application or declaration, which is on file at the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Power & Light seeks authority in its discretion to expend (over and above the amounts presently permitted by rules of the Commission) not more than One Million Dollars ($1,000,000) in the purchase in the open market of shares of its outstanding 5½% Debentures during the 12-month period next following the date of the Commission's Order on the declaration. The purchases are to be made through brokers or dealers, on securities exchanges or in the over-the-counter market or at private sales not solicited by Power & Light and at prices not exceeding the current offering price on the New York Curb Exchange at the time of such purchase. No fees or commissions are to be paid in connection with such purchases except the usual brokers' or dealers' commissions and Power & Light does not anticipate any additional expenses in any significant amount in connection therewith.

As of July 18, 1943, Power & Light's cash position was $5,076,000, and the amount of its outstanding 5½% Debentures segregated between that held by Cities Service Company (a registered holding company and the parent company of Power & Light) and by others was as follows:

Title of issue	Held by parent	Held by others	Total outstanding
5½% Debentures due 1949	$1, 914, 000	$13, 044, 000	$14, 958, 000
5½% Debentures due 1952	2, 289, 000	29, 468, 000	31, 755, 000
	$4, 203, 000	$42, 510, 000	$46, 713, 000

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said declaration and that said declaration should not become effective except pursuant to further order of the Commission;

It is ordered, That a hearing be held upon said matters on the 18th day of August, 1943, at 10:00 a. m., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why such declaration should be permitted to become effective.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearings. The officer so designated to preside at said hearings is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That, without limiting the scope of the issues presented by said declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether, pursuant to section 12 (c) of said Act, an order refusing to permit said declaration to become effective is necessary or appropriate to protect the financial integrity of Cities Service Power & Light Company and its subsidiary companies, to safeguard the working capital of the public-utility companies in the holding-company system of Cities Service Power & Light Company, or to prevent the circumvention of any provisions of said Act or of any rules, regulations or orders thereunder.

(2) Whether any terms or conditions with respect to the proposed acquisition by Cities Service Power & Light Company of its outstanding Debentures are necessary or appropriate to protect the financial integrity of Cities Service Power & Light Company and its subsidiary companies, to safeguard the working capital of the public-utility companies in the holding-company system of Cities Service Power & Light Company, or to prevent the circumvention of any provisions of said Act or of any rules, regulations or orders thereunder.

It is further ordered, That the Secretary of the Commission shall give notice of said hearing by mailing a copy of this order to Cities Service Power & Light Company, and that notice of said hearing be given to all persons by publication of this order in the FEDERAL REGISTER. It is requested that any person desiring to be heard in these proceedings shall file with the Secretary of this Commission, on or before August 13, 1943, an appropriate request or application therefor, as provided by Rule XVII of the Rules of Practice of the Commmission.

By the Commission.

ENGINEERS PUBLIC SERVICE COMPANY, ET AL.

ORDER DISMISSING PROCEEDING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 3rd day of August 1943.

In the matter of Engineers Public Service Company, The Western Public Service Company, a Maryland corporation, Missouri Service Company, and The Northern Kansas Power Company, Respondents.

The Commission having on the 23rd day of July, 1941, instituted proceedings pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935, directed to Engineers Public Service Company, a registered holding company, The Western Public Service Company, a Maryland corporation, likewise a registered holding company and a subsidiary company of said Engineers Public Service Company, Missouri Service Company and The Northern Kansas Power Company, the two companies last named being direct subsidiaries of said The Western Public Service Company, for the purpose of determining what steps should then or thereafter be required to be taken by The Western Public Service Company and its subsidiary companies in order to comply with the provisions of section 11 (b) (2) of said Act; and

Said The Western Public Service Company, having thereafter redeemed at their respective call prices all of its publicly-held securities and having disposed of all of its assets (See Holding Company Act Releases Nos. 3230 and 3245, December 29, 1941); and

Said The Western Public Service Company, having been liquidated and dissolved, and the Commission by its order of January 19, 1942, having found that the said company had ceased to be a holding company and that the registration of said company had ceased to be in effect (see Holding Company Act Release No. 3282, January 19, 1942); and

It appearing to the Commission that the issues raised by its order of July 23, 1941 have become moot and that it is in the public interest and in the interest of investors and consumers that said proceedings should be dismissed:

It is ordered, That said proceedings be and the same are hereby dismissed.

By the Commission.

STANDARD OIL CO. AND CONSOLIDATED NATURAL GAS CO.

ORDER EXTENDING EFFECTIVE DATE OF ORDER DENYING EXEMPTION: AND EXTENDING TIME WITHIN WHICH TO FILE FORM

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 3rd day of August, A. D. 1943.

In the matters of Standard Oil Company (Incorporated in New Jersey), File No. 31-130, and Consolidated Natural Gas Company, File No. 30-203.

The Commission, on February 5, 1942, having issued its Findings, Opinion and Order, denying the application of Standard Oil Company, pursuant to section 3 (a). (3) of the Public Utility Holding Company Act of 1935, for an exemption from the provisions of said Act, but having extended the effective date of said order to August 4, 1942; and

Standard Oil Company having caused Consolidated Natural Gas Company (a) to be organized and file on July 31, 1942, pursuant to section 5 (a) of the Act, a notification of registration as a person purposing to become a holding company, and (b) to file applications and declarations regarding the proposed acquisition from Standard Oil Company of all the voting securities of certain natural gas utility companies concerning which hearings have been held and substantially completed; and

The Commission on August 3, 1942 and on January 20, 1943 having issued its order granting applications of Standard Oil Company for a further extension to February 4, 1943 and August 4, 1943, respectively, of the effective date of the order of February 5, 1942; and

Standard Oil Company having now requested that the effective date of the Commission's order of February 5, 1942, as extended, be further extended for an additional period of eight days to August 12, 1943 on the grounds that, although it is proceeding diligently in working out a program for the disposition of the securities of the gas utility companies owned by it, the company is of the opinion that it will not be possible to complete its plans by August 4, 1943; and

Consolidated Natural Gas having for similar reasons also requested that the time within which it is required to file its registration statement on Form U5B pursuant to Rule U-1 (b) promulgated under the Act, be extended from August 4, 1943 to September 3, 1943; and

It appearing to the Commission that such requests for further extensions are reasonable and are not detrimental to the public interests or the interests of investors and consumers;

It is hereby ordered, That the effective date of the order of the Commission dated February 5, 1942, denying the application of Standard Oil Company for exemption, pursuant to section 3 (a) (3) of the Public Utility Holding Company Act of 1935, be, and the same hereby is, extended to August 12, 1943; and

It is further ordered, That the time within which Consolidated Natural Gas Company is required to file its registration statement on Form U5B pursuant to Rule U-1 (b), promulgated under the Public Utility Holding Company Act of 1935, be and the same hereby is, extended to September 3, 1943.

By the Commission.

[Certificate 105]

PHILADELPHIA MATTRESS MANUFACTURERS ASSOCIATES

APPROVAL OF PRODUCTION PLAN

TO THE ATTORNEY GENERAL:

I submit herewith a plan of the organization, procedure and objectives of the Philadelphia Mattress Manufacturers Associates, a war production association of certain companies located in Philadelphia, Pennsylvania, which has been approved by the Chairman of the Smaller War Plants Corporation. The purpose of the association is to combine the facilities and skills of the member companies for the manufacture of articles, equipment, supplies and materials for war and essential civilian requirements. The activities of the association will relate solely to such production and will terminate within six months after the termination of the war.

For the purposes of section 12 of Public Law No. 603, 77th Congress (56 Stat. 357), I approve this association; and after consultation with you, I hereby find and so certify to you that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with my approval as herein expressed is requisite to the prosecution of the war.

Dated: July 31, 1943.

DONALD M. NELSON, *Chairman.*

PART 802—SUGAR DETERMINATIONS

SUGAR COMMERCIALLY RECOVERABLE FROM SUGARCANE IN HAWAII

Determination of sugar commercially recoverable from sugarcane in the Territory of Hawaii, pursuant to the Sugar Act of 1937 (Revised).

Pursuant to the provisions of section 302 (a) of the Sugar Act of 1937, as amended, and Executive Order No. 9322, issued March 26, 1943, as amended by Executive Order No. 9334, issued April 19, 1943, the following determination is hereby issued:

§ 802.31 *Sugar commercially recoverable from sugarcane in the Territory of Hawaii.* The amount of sugar, raw value, commercially recoverable from the sugarcane grown on any farm in the Territory of Hawaii and marketed (or processed by the producer) for the extraction of sugar shall be the amount of sugar, raw value, recovered from such sugarcane.

This determination supersedes the "Determination of Sugar Commercially Recoverable from Sugarcane in the Territory of Hawaii, Pursuant to the Sugar Act of 1937," issued July 2, 1938.

(Sec. 302, 50 Stat. 910; 7 U.S.C. 1940 ed. 1132; E.O. 9322, as amended by E.O. 9334)

Issued this 5th day of August 1943.

PART 802—SUGAR DETERMINATIONS

SUGAR COMMERCIALLY RECOVERABLE FROM SUGAR BEETS

Pursuant to the provisions of section 302 (a) of the Sugar Act of 1937, as amended, and Executive Order No. 9322, issued March 26, 1943, as amended by Executive Order No. 9334, issued April 19, 1943, the following determination is hereby issued:

§ 802.11 *Determination of sugar commercially recoverable from sugar beets.* The amount of sugar, raw value, commercially recoverable from sugar beets marketed under that type of agreement commonly known as "individual test contract" shall be deemed to be 95 percent of the total sugar in the sugar beets, net weight, at the time of delivery to a processor; and the amount of sugar, raw value, commercially recoverable from sugar beets marketed under any other type of agreement shall be deemed to be 97 percent of the amount of sugar calculated by applying to the net weight of the sugar beets, at the time of delivery to a processor, the average percentage of sugar content in the cossettes of all of the sugar beets included in a common marketing agreement: *Provided, however,* That in all cases the tests used to determine the sugar content are those tests customarily used for such purpose by sugar beet processors.

This determination supersedes, with respect to the 1943 and subsequent crops, the determination entitled "Determination of Sugar Commercially Recoverable from Sugar Beets," issued June 21, 1940.

(Sec. 302, 50 Stat. 910; 7 U.S.C. 1940 ed. 1132; E.O. 9322, as amended by E.O. 9334)

Issued this 5th day of August 1943.

sult in a shortage in the supply of freestone peaches produced in the State of California, for defense and private account; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1405.20 *Restrictions relative to the shipment of freestone peaches*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) The term "freestone peaches" means all fresh freestone peaches grown in the State of California, except the Elberta, J. H. Hale, and Rio Oso Gem varieties.

(2) The term "person" means any individual, partnership, corporation, association, business trust, or any organized group of persons whether incorporated or not.

(3) The term "ship" means to convey fresh freestone peaches, or cause fresh freestone peaches to be conveyed, by railroad, truck, boat, or any other means whatsoever.

(4) The term "Director" means the Director of Food Distribution, War Food Administration.

(b) *Restrictions.* (1) No person (other than a carrier of peaches for another person) may ship any freestone peaches from a point within the State of California to a point without the State of California.

(2) The restrictions hereof shall be observed by each person affected by this order without regard to the rights of creditors, existing contracts, or payments made.

(c) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises, or stocks of fresh freestone peaches of any person, and to make such investigations, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(d) *Records and reports.* (1) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in freestone peaches as defined herein.

(3) The record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Subsequent record-keeping or reporting requirements will be subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(e) *Petition for relief from hardship.* Any person affected by this order, who considers that compliance herewith would work an exceptional and unreasonable hardship on him, may file a petition for relief with the Regional Director, War Food Administration, serving the area (8 F.R. 9315) in which the peaches, subject to the restrictions hereof, are located. Petition for such relief shall be in writing, and shall set forth all pertinent facts and the nature of the relief sought. If such person is dissatisfied with the action taken on the petition by the Regional Director, he may, by requesting the Regional Director therefor, secure a review of such action by the Director. The Director may, after such review, take such action as he deems appropriate, and such action shall be final.

(f) *Violations.* The War Food Administrator may, by suspension order, prohibit any person who violates any provision of this order from receiving, making any deliveries of, or using freestone peaches, or any other material subject to priority or allocation control by the War Food Administrator, and may recommend that any such person be prohibited from receiving, making any deliveries of, or using materials subject to the priority or allocation control of other governmental agencies. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(g) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the Food Distribution Administration, War Food Administration, P. O. Box 230, Sacramento 1, California. Ref. FD–73.

(i) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., August 7, 1943.

PART 1405—FRUITS AND VEGETABLES

ELBERTA PEACHES GROWN IN OREGON OR WASHINGTON

The fulfillment of requirements for the defense of the United States will result in a shortage in the supply of peaches produced in the States of Oregon and Washington, for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1405.18 *Restrictions relative to the shipment of peaches*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) The term "peaches" means fresh Elberta peaches, including any and all strains of the Elberta variety of peaches, grown in the State of Oregon or in the State of Washington.

(2) The term "person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(3) The term "ship" means to convey peaches or to cause such peaches to be conveyed by railroad, truck, boat, or any other means whatsoever, from a point within Oregon and Washington to a point without Oregon and Washington. The conveyance or transportation of peaches from Oregon to Washington, or vice versa, is not within the meaning of the term "ship."

(4) The term "Director" means the Director of Food Distribution, War Food Administration.

(b) *Restrictions.* (1) No person (other than a carrier of peaches for another person) may, during any calendar year, except pursuant to (b) (2), (b) (3), or (f) hereof, ship any peaches in excess of 100 percent of the quantity of peaches shipped by such person in 1942: *Provided,* That any person who, prior to the effective time of this order, has shipped in excess of the quota herein prescribed shall not be deemed, on account of such shipments heretofore made, to have violated the provisions of this order, but any shipment hereafter by any such person will be in violation of the provisions hereof, except such shipment as may be made pursuant to (b) (2), (b) (3), or (f) hereof.

(2) The Director may authorize any person to ship a particular lot of peaches if (i) the peaches are not suitable for canning or freezing; (ii) canning or freezing facilities are not accessible; or (iii) for any other reason which the Director determines is necessary in order to effectuate the purposes of this order.

(3) The Director may, if he determines that such will tend to effectuate the purposes of this order, issue general authorizations, from time to time, authorizing the shipment of certain grades or sizes of peaches produced in a designated area, and the quantity or quantities thereof which may be shipped.

(4) The Director may, if he determines that such will tend to effectuate the purposes of this order, prescribe the minimum grade of all peaches which may be shipped.

(5) Each person, prior to making each shipment of peaches, shall, when the Director so prescribes and announces, cause each such shipment to be inspected by a duly authorized representative of the Federal-State inspection service; and each such shipper shall submit promptly, or cause to be submitted promptly, to the Food Distribution Administration, War Food Administration, Room 210, Mayer Building, Portland, Oregon, the Federal-State shipping point inspection certificate with respect to each shipment of peaches by such person, which certificate shall set forth such information as may be required by the Director with respect to the variety, grade, or size of the peaches contained in such lot or shipment.

(6) The restrictions hereof shall be observed by each person affected by this order without regard to the rights of creditors, existing contracts, or payments made.

(c) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises, or stocks of peaches of any person, and to make such investigations, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(d) *Records and reports.* (1) The Director shall be entitled to obtain such information from and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in peaches.

(3) The record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Subsequent record-keeping or reporting requirements will be subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(e) *Petition for relief from hardship.* Any person affected by this order, who considers that compliance herewith would work an exceptional and unreasonable hardship on him, may file a petition for relief with the Regional Director, War Food Administration, serving the area (8 F.R. 9315) in which the peaches, subject to the restrictions hereof, are located. Petition for such relief shall be in writing, and shall set forth all pertinent facts and the nature of the relief sought. If such person is dissatisfied with the action taken on the petition by the Regional Director, he may, by requesting the Regional Director therefor, secure a review of such action by the Director. The Director may, after such review, take such action as he deems appropriate, and such action shall be final.

(f) *Violations.* The War Food Administrator may, by suspension order, prohibit any person who violates any provision of this order from receiving, making any deliveries of, or using peaches, or any other material subject to priority or allocation control by the War Food Administrator, and may recommend that any such person be prohibited from receiving, making any deliveries of, or using materials subject to the priority or allocation control of other governmental agencies. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be

prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(g) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director, and may be redelegated by him to any employee of the United States Department of Agriculture.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the Food Distribution Administration, War Food Administration, Room 210, Mayer Building, Portland, Oregon.

(i) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., August 9, 1943.

PART 1460—FATS AND OILS

USE AND DISTRIBUTION OF COTTONSEED, PEANUT, SOYBEAN, AND CORN OIL

Food Distribution Order No. 29, as amended (8 F.R. 5619), § 1460.13, issued under authority of the War Food Administrator on April 28, 1943, is amended as follows:

1. By deleting the provisions in (a) (2) thereof and inserting, in lieu thereof, the following:

(2) The term "refined oil" means any oil pressed, expelled, or extracted from cottonseed, peanuts, soybeans, or corn, which has been refined by treating with caustic soda, soda ash, or otherwise to reduce the free fatty acid content, and which may or may not have been further processed. Such processing may include, but is not limited to, bleaching, deodorizing, winterizing, or hydrogenation. However, unless otherwise specified by the Director, "refined oil" when allocated for delivery pursuant to this order shall mean (in the absence of a previous contract between the deliverer and the deliveree, or unless otherwise requested by the deliveree) oil that is once refined, unbleached, and undeodorized.

2. By deleting the provisions in (b) thereof and inserting, in lieu thereof, the following:

(b) *Restrictions on delivery of crude oil.* No person shall deliver and no person, except an industrial user, shall accept delivery of crude oil, except as specifically authorized or directed by the Director. In any authorization or directive issued pursuant to this paragraph (b), the Director may designate the point from which the oil is to be shipped and the point where it is to be received.

3. By deleting the provisions in (c) thereof and inserting, in lieu thereof, the following:

(c) *Restrictions on delivery of refined oil.* No person shall deliver refined oil to any other person who is a refiner, non-refining margarine manufacturer, or non-refining shortening manufacturer, and no refiner, non-refining margarine manufacturer, or non-refining shortening manufacturer shall accept delivery of refined oil, except as specifically authorized or directed by the Director. In any authorization or directive issued pursuant to this paragraph (c), the Director may designate the point from which the oil is to be shipped and the point where it is to be received.

With respect to violations of said Food Distribution Order No. 29, as amended, rights accrued, or liabilities incurred prior to the effective date of this amendment, said Food Distribution Order No. 29, as amended, shall be deemed to be in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, or liability.

This amendment shall become effective as of 12:01 a. m., e. w. t., August 7, 1943.

PART 1465—FISH AND SHELLFISH

ALLOCATION OF IMPORTED SALTED FISH

The fulfillment of requirements for the defense of the United States will result in a shortage in the supply of salted fish for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1465.23 *Regulation of salted fish imported into the United States.*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) The term "person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(2) The term "salted fish" means and includes the following if such fish are cured or preserved in any manner with the use of salt, but does not mean or include the following if such are smoked or packed in air-tight containers: Cod (Gadus macrocephalus and Gadus callarias), haddock (Melanogrammus aeglefinus), hake (Urophycis species and Merluccius productus), pollock (Pollachius virens), cusk (Brosmius brosme), ling (Molva molva), and saithe (Gadus virens).

(3) The term "green-salted" means and includes salted fish neither skinned nor boned (except that the vertebral column may be removed) when containing more than 43 percent of moisture, by weight.

(4) The term "dry-salted" means salted fish neither skinned nor boned (except that the vertebral column may be removed) when containing not more than 43 percent of moisture, by weight.

(5) The term "boneless" means and includes salted fish, skinned or boned, whether or not dried.

(6) The term "1943 pack" means and includes the salted fish produced from the fish caught during the calendar year of 1943.

(7) The term "import" means, except as used in (e) hereof, to enter for consumption in the continental United States from any foreign country, including the Treaty Coasts defined in the Treaty of October 20, 1818, between the United States and Great Britain, entitled "Convention Respecting Fisheries, Boundary, and the Restoration of Slaves", proclaimed on January 30, 1819, or to withdraw from the bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States, for consumption in the continental United States.

(8) The term "import" as used in (e) hereof means to enter for consumption in the Territory of Puerto Rico from any foreign country, including the Treaty Coasts defined in the aforesaid Treaty of October 20, 1818, between the United States and Great Britain, or to withdraw from the bonded custody of the United States Bureau of Customs (bonded warehouse) in the Territory of Puerto Rico for consumption in the Territory of Puerto Rico.

(9) The term "importer" means any person who is the first owner, in the continental United States, of imported salted fish; and it is immaterial, in determining whether a person is an importer, whether or not the United States import duty, if any, or other payments were made through or by a customs broker, nominal consignee, or other agent.

(10) The term "Director" means the Director of the Food Distribution Administration, War Food Administration.

(11) The term "governmental agency" means (i) the Armed Services of the United States (for the purpose of this order, such does not include the United States Army post exchanges, United States Navy ship's service departments, or United States Marine Corps post exchanges); (ii) the Food Distribution Administration, War Food Administration (including, but not restricted to, the Federal Surplus Commodities Corporation); (iii) the War Shipping Administration; (iv) the Veterans' Administration; and (v) any other instrumentality or agency designated by the War Food Administrator. The term "governmental agency" also includes any contract school or ship operator, as defined in Food Distribution Regulation 2 (8 F.R. 7523), purchasing restricted salted fish in accordance with said Food Distribution Regulation 2.

(12) The term "Armed Services of the United States" means the Army, the Navy, the Marine Corps, or the Coast Guard of the United States.

(b) *Allocations.* (1) Notwithstanding any previous contract or other arrangement, no person shall import into the continental United States, for consumption in the continental United States, any salted fish except as permitted by this order.

(2) From the 1943 pack, each importer is, subject to the limitation of the quota determined hereunder, and subject further to the various other provisions hereof and to the import authorization under War Production Board Order M-63 (8 F.R. 8818), as amended, hereby authorized to import for consumption in the continental United States (i) from Canada not more than 55 percent, net weight, of the salted fish imported by the respective importer from Canada in 1942; (ii) from Newfoundland not more than 55 percent, net weight, of the salted fish imported by the respective importer from Newfoundland in 1942; and (iii) from Iceland not more than 20 percent, net weight, of the salted fish imported by such importer from Iceland in 1942. Each quantity of salted fish imported in 1942 by a particular importer for the use of any governmental agency or sold to any governmental agency by such importer subsequent to the importation of such salted fish in 1942 shall be excluded from the computation of the respective importer's quota, as aforesaid. The quota which may be imported pursuant hereto shall be computed on the basis of dry-salted fish, but each importer may import his entire quota in green-salted, dry-salted, or boneless fish, as defined in (a) hereof, or any combination thereof: *Provided*, That the following ratio shall be applied to each such quota: one pound of dry-salted fish equals 1.75 pounds of green-salted fish, and one pound of dry-salted fish equals 0.85 pound of boneless fish.

(3) Each importer shall, prior to importing salted fish pursuant to the provisions hereof, submit to the Director a statement, with respect to each lot of salted fish imported by such person in the calendar year of 1942 and in 1943 prior to the effective date hereof, showing (i) the country of origin, (ii) the name of the shipper, (iii) the quantity, (iv) the date and port of entry, (v) the rate of duty paid, (vi) the name of the person making the United States Customs entry or withdrawal from the bonded custody of the United States Bureau of Customs, and (vii) the quantity of salted fish sold in 1942 and in 1943 prior to the effective date hereof, by such importer to a governmental agency and the name of the particular governmental agency. The Director shall, from the information submitted to him and from such other information as may be available to him, determine, in accordance with the provisions of this order, the respective importer's quota which may be imported from the 1943 pack of salted fish: *Provided*, That the quantity of salted fish from the 1943 pack which has been imported in 1943 by any importer, prior to the effective date of this order, shall be deducted in computing the respective importer's quota, except that any such quantity of such salted fish as may have been imported for the use of any governmental agency or sold by the respective importer, prior to the effective date hereof, to any governmental agency subsequent to the importation of such salted fish shall not be deducted in computing the respective importer's quota. The Director shall notify each importer with respect to the respective importer's quota determined pursuant hereto; and an importer shall not import salted fish in excess of his quota.

(c) *Reallocation.* Each importer's quota pursuant hereto is on condition that the respective importer shall contract on or before September 15, 1943, for the purchase of the entire quota of salted fish allocated hereunder to the respective importer, and submit, on or before September 20, 1943, to the Director a copy of each such contract: *Provided*, That no such contract need be submitted with respect to salted fish which are the product of American fisheries and are from the Treaty Coasts or regions described in the aforesaid Treaty of October 20, 1818, between the United States and Great Britain. An importer may, under his quota pursuant to this order, import only such salted fish of the 1943 pack as may have been contracted for as aforesaid, by the respective importer on or before September 15, 1943. The Director may reallocate among other importers or other persons, including but not being limited to the Food Distribution Administration or the Federal Surplus Commodities Corporation, the unused portion of any importer's quota not thus under contract on September 15, 1943.

(d) *Exemption from quota restrictions.* The provisions of this order shall not be construed as restricting the importation of salted fish by or for a governmental agency: *Provided*, That any such importation of salted fish by or for a governmental agency shall be free from regulation hereunder only if, with respect to each such importation, a certificate is issued, prior to the importation of the salted fish of the 1943 pack, by the Quartermaster General of the Army, the Chief of the Bureau of Supplies and Accounts or the Chief of the Bureau of Naval Personnel of the Navy, the Commandant of the United States Coast Guard, the Quartermaster of the United States Marines, the Administrator of the War Shipping Administration, the Director of the Veterans Administration, the Director, or the duly authorized representative of any of the foregoing, and such certificate is issued to the person having the prime contract with a governmental agency, and specifying, in such certificate, the following: the name of the importer supplying such salted fish and that such salted fish are for direct Army, Navy, Coast Guard, or Marine Corps issue or for contract feeding of the Army, the Navy, the Coast Guard, or the Marine Corps personnel, or for consumption on ships operating under the War Shipping Administration. Each importer who claims that a particular importation and delivery of salted fish is for a governmental agency and is, therefore, exempt from quota restriction under this order, shall promptly submit to the Director a copy of each such certificate, described hereinabove, and certify to the Director that such is a true and correct copy of the certificate issued, as aforesaid.

(e) *Restrictions relative to Puerto Rico.* The Food Distribution Administration is hereby authorized, notwithstanding any provision of Food Distribution Regulation 2 (8 F.R. 7523) or any other order or regulation, to purchase all of the salted fish for the requirements of the Territory of Puerto Rico. No person other than the Food Distribution Administration may import salted fish of the 1943 pack into the Territory of Puerto Rico.

(f) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of salted fish of any person, and to make such investigations, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(g) *Records and reports.* The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order. The record-keeping and reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942. Subsequent specific record-keeping or reporting requirements by the Director will be subject to approval by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(h) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship on him may apply in writing for relief to the Director, setting forth in such petition all pertinent facts and the nature of the relief sought. The Director may thereupon take such action as he deems appropriate, which action shall be final.

(i) *Violations.* The War Food Administrator may, by suspension order, prohibit any person who violates any provision of this order from receiving, making any deliveries of, or using salted fish, or any other material subject to priority or allocation control by the War Food Administrator, and may recommend that any such person be prohibited from receiving, making any deliveries of, or using materials subject to the priority or allocation control of other governmental agencies. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be

instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(j) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the Director of Food Distribution, War Food Administration, United States Department of Agriculture, Washington 25, D. C., Ref. FD–72.

(l) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., August 5, 1943.

(E.O. 9280, 7 F.R. 10179; E.O. 9322, 8 F.R. 3807; E.O. 9334, 8 F.R. 5423)

Issued this 5th day of August 1943.

MARVIN JONES,
War Food Administrator.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter VIII—Procurement and Disposal of Equipment and Supplies

PART 81—PROCUREMENT OF MILITARY SUPPLIES AND ANIMALS

FIXED PRICE CONTRACTS, SUBCONTRACTING, ETC.

Section 81.367 is added as follows:

§ 81.367 *Fixed price contracts; subcontracting.* (a) All fixed price contracts, except those in which, in the opinion of the contracting officer, subcontracting (as defined in paragraph (d) quoted herein is impracticable, will contain the following clause without deviation:

Subcontracting. (a) It is mutually understood and agreed that the policy of the Government, as declared by Congress in Public Law 603—77th Congress (the Smaller War Plants Act), is to bring about the greatest utilization of small war plants facilities which is consistent with efficient production of war materials.

(b) The Contractor agrees to accomplish the maximum amount of subcontracting to smaller war plants that the Contractor finds to be consistent with the efficient performance of all its other obligations undertaken by this contract.

(c) The Government agrees that in any renegotiation proceedings involving this contract, proper consideration will be given to the efficiency and ingenuity exhibited by the prime contractor in subcontracting to, and in utilizing the facilities of, smaller war plants; to the amount of such subcontracting so accomplished; and to the amount of technical, engineering, and other assistance rendered by the Contractor to such subcontractors.

(d) For the purposes of this article the term "subcontracts" includes only contracts for the production of or work upon an item, component, or assembly manufactured according to Government specifications or specifications of a prime contractor and does not include (1) any purchase of a standard commercial or catalog item, or (2) any purchase of a basic raw material, or (3) any purchase of supplies or services for the general operation of the contractor's plant, or (4) any purchase from a parent, subsidiary, or affiliate of the Contractor.

(b) It is to be noted that the above clause is applicable to fixed price contracts only. The application of this clause, or a similar one, to cost-plus-a-fixed-fee contracts is under consideration and regulations in this regard will be published shortly. (Sec. 5a, National Defense Act as amended, 41 Stat. 764, 54 Stat. 1225; 10 U.S.C. 1193–1195, and the First War Powers Act 1941, 55 Stat. 838, 50 U.S.C. Sup. 601–622) [A.S.F. Memorandum No. S5–145–43, 28 July 1943]

Section 81.223 (d) (4) is amended as follows:

§ 81.223 *Factors governing placement of contracts.* * * *

(d) *Labor shortage areas.* * * *

(4) *Exceptions.* The restrictions stated in this paragraph (d) do not apply to the placing of contracts:

(i) With firms which currently employ less than 100 wage earners and which will not employ more than 100 wage earners during the performance of the contract; or

(ii) With originating manufacturers for a newly developed article in accordance with § 81.224. (Sec. 5a, National Defense Act as amended, 41 Stat. 764, 54 Stat. 1225; 10 U.S.C. 1193–1195 and the First War Powers Act 1941, 55 Stat. 383, 50 U.S.C. Sup. 601–622) [A.S.F. PART 3—DIGEST OF CEASE AND DESIST ORDERS

J. E. TODD, INC.

§ 3.6 (t) *Advertising falsely or misleadingly: Qualities or properties of product or service:* § 3.6 (x) *Advertising falsely or misleadingly: Results.* In connection with offer, etc., of respondent's medicinal preparation designated "Todd's Capsules", or any other similar preparation, disseminating, etc., any advertisement by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of respondent's said preparation, which advertisement represents, directly or through inference, that respondent's preparation has any therapeutic value in the treatment of arthritis, neuritis, or rheumatism or similar diseases or conditions; or that said preparation will relieve or alleviate the symptoms of pain associated with such diseases or conditions; or that said preparation possesses curative properties in the treatment of any of such diseases or conditions; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, J. E. Todd, Inc., Docket 4549, July 27, 1943]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 27th day of July, A. D. 1943.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondent, testimony and other evidence in support of and in opposition to the allegations of said complaint taken before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner upon the evidence and exceptions filed thereto, supplemental report of the trial examiner, and briefs and supplemental briefs filed in support of the complaint and in opposition thereto; and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, J. E. Todd, Inc., a corporation, its officers, agents, representatives, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, or distribution of its medicinal preparation designated "Todd's Capsules," or any other preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same name or under any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or through inference, that respondent's preparation has any therapeutic value in the treatment of arthritis, neuritis, or rheumatism or similar diseases or conditions; or that said preparation will relieve or alleviate the symptoms of pain associated with such diseases or conditions; or that said preparation possesses curative properties in the treatment of any of such diseases or conditions.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce as "commerce" is defined in the Federal Trade Commission Act of respondent's medicinal preparation, which advertisement contains any of the representations prohibited in paragraph 1 hereof.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

AMOGEN COMPANY

§ 3.6 (t) *Advertising falsely or misleadingly; Qualities or properties of product or service:* § 3.6 (x) *Advertising falsely or misleadingly: Results:* § 3.71 (e) *Neglecting, unfairly or deceptively, to make material disclosure: Safety.* In connection with offer, etc., of respondent's medicinal preparation designated "Amogen Tablets", or any other similar preparation, disseminating, etc., any advertisement by means of the United States mails, or in commerce, or by any means, to induce, etc., purchase in commerce of said preparation, which advertisement represents, directly or through inference, that said preparation (1) is a cure or remedy for or has any therapeutic value in the treatment of malaria, common colds and fevers, poor digestion, acid or gas on the stomach, overindulgence in food and drink, clogged bowels, neuralgia, rheumatic pains and fever, sallow complexion, pimples, sores, boils, or skin irritations; (2) has any therapeutic value in the treatment of billiousness or excess bile in the system, headaches, coated tongue, bad breath, or bad taste in the mouth, in excess of such temporary relief as may be afforded by a laxative when such conditions are due to or caused by constipation; or (3) will rid the system of poisons or enable the user to avoid sickness or maintain good health; or which advertisement (4) fails to reveal that the continued use of said preparation over a long period of time may result in mercury poisoning, and that said preparation should not be used in cases of abdominal pains, nausea, vomiting, or other symptoms of appendicitis; prohibited, subject to the provision, however, as respects said last named prohibition, that if the directions for use, wherever they appear, on the label, in the labeling, or both on the label and in the labeling, contain a warning of the potential dangers in the use of said preparation as hereinbefore set forth, such advertisements need contain only the cautionary statement, "Caution: Use only as directed". (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112, 15 U.S.C., sec 45b) [Cease and desist order, Amogen Company, Docket 4836, July 27, 1943]

In the Matter of J. R. Hodges, Individually and Trading Under the Style and Firm Name of Amogen Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 27th day of July, A. D. 1943.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, and the stipulation as to the facts entered into by and between counsel for the Commission and the respondent upon the record, which provides, among other things, that without further evidence or other intervening procedure, the Commission may issue and serve upon the respondent herein findings as to the facts and conclusions based thereon and an order disposing of the proceeding, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, J. R. Hodges, trading under the name Amogen Company, or under any other name or names, his agents, representatives, or employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of his medicinal preparation designated "Amogen Tablets" or any other preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement

A. Which represents, directly or through inference, that said preparation

(a) Is a cure or remedy for or has any therapeutic value in the treatment of malaria, common colds and fevers, poor digestion, acid or gas on the stomach, overindulgence in food and drink, clogged bowels, neuralgia, rheumatic pains and fever, sallow complexion, pimples, sores, boils, or skin irritations;

(b) Has any therapeutic value in the treatment of biliousness or excess bile in the system, headaches, coated tongue, bad breath, or bad taste in the mouth, in excess of such temporary relief as may be afforded by a laxative when such conditions are due to or are caused by constipation;

(c) Will rid the system of poisons or enable the user to avoid sickness or maintain good health.

B. Which fails to reveal that the continued use of said preparation over a long period of time may result in mercury poisoning, and that said preparation should not be used in cases of abdominal pains, nausea, vomiting, or other symptoms of appendicitis: *Provided, however,* That such advertisement need contain only the statement, "Caution: Use Only as Directed," if and when the directions for use, wherever they appear, on the label, in the labeling, or both on the label and in the labeling, contain warnings to the above effect.

2. Disseminating or causing to be disseminated, by any means, any advertisement for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of said preparation in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any of the representations prohibited in paragraph (1) hereof, or which advertisement fails to reveal the dangerous consequences which may result from the use of the said preparation as required in said paragraph (1).

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Social Security Board, Federal Security Agency

[Regulations 3, Further Amended]

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE

EVIDENCE AS TO DEATH

This regulation, amends Regulations No. 3[1] (Part 403, Title 20, Code of Federal Regulations, 1940 Supp.), by amending § 403.702 (c) thereof, as amended, to read as follows:

(c) *Evidence as to death.* An applicant for benefits or a lump sum based upon the wages of a deceased individual shall file supporting evidence as to the death of such individual and as to the time and place of such death. Such evidence may also be required by the Board as to the death of any other individual when such other individual's death is relevant to the determination of the applicant's entitlement. Such evidence shall be of the following character:

(1) A certified copy of the public record of death, coroner's report of death, or verdict of the coroner's jury of the State or community where death occurred, or a certificate by the custodian of the public record of death or a statement of the contents of the record of death certified by an individual designated by the Board; or

(2) A statement of the funeral director, attending physician, or of the superintendent, physician, or interne of the institution where the death occurred; or

(3) A certified copy of an official report or finding of death, made by any agency or department of the United States which is authorized or requested to make such report or finding in the administration of any law of the United States, or a statement of the contents of such report or finding certified by an in-

[1] 5 F.R. 1849. For a chronological description of the statutory basis for the old-age and survivors insurance system under title II of the Social Security Act, as amended, and the regulations which have been issued thereunder, see § 403.1 of Regulations No. 3 of the Social Security Board. (§ 403.1, Title 20, Code of Federal Regulations, 1940 Supp.).

dividual designated by the Board: *Provided, however,* That a finding of presumptive death made pursuant to section 5 of Public Law 490, 77th Congress, as amended, (50 U. S. C. A. App. § 1005) shall be accepted only as evidence of the fact of death and not of the date of death.

If none of the evidence described in subparagraphs (1), (2), and (3) of this paragraph is obtainable, the reason therefor should be stated and the applicant may submit:

(4) The verified statements of two or more persons, having personal knowledge of the death, setting forth the facts and circumstances as to the place, date and cause of death; or

(5) Other evidence of probative value.

If death occurs outside the United States there must be furnished a report of the death by a United States consul, or other agent of the State Department, bearing the signature and official seal of such consul or agent, or a certified copy of the public record of death authenticated by the United States consul or other agent of the State Department, or other evidence of probative value.

Whenever it is necessary to determine the death of an individual other than the wage earner, in order to determine the right of another to a benefit under section 202 (f) or a lump sum under section 202 (g) of the Act, and such individual has been unexplainedly absent from his residence and unheard of for a period of 7 years, the Board, upon satisfactory establishment of such facts, will presume that such individual has died, in the absence of any substantial evidence to the contrary.

(Sec. 205 (a), 53 Stat. 1368, sec. 1102, 49 Stat. 647; 42 U.S.C. sec. 405 (a), 1302)

In pursuance of sections 205 (a) and 1102 of the Social Security Act, as amended, the foregoing regulation adopted by the Board is hereby prescribed this 31st day of July, 1943.

[SEAL] A. J. ALTMEYER,
Chairman.

Approved: August 3, 1943.

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

[Order No. 2]

PART 601—ADMINISTRATIVE; GENERAL

BITUMINOUS COAL PRODUCERS ADVISORY BOARDS

It would be very helpful in carrying out the purposes of Executive Order No. 9332 (8 F.R. 5355) if there were available a Bituminous Coal Producers Advisory Board for each bituminous coal producing district. Accordingly, pursuant to powers conferred upon me as Secretary of the Interior and as Solid Fuels Administrator for War, I hereby order that:

Sec.
601.11 Establishment and functions of Boards.
601.12 Designation of members.
601.13 General plan of operation.
601.14 Vacancies on Boards.

AUTHORITY: §§ 601.11 to 601.14, inclusive, issued under E.O. 9332, 8 F.R. 5355.

§ 601.11 *Establishment and functions of Boards.* A Bituminous Coal Producers Advisory Board be set up in each bituminous coal producing district, as described in the Bituminous Coal Act of 1937, as amended, to serve on a volunteer basis and furnish (a) such information and advice, as may be requested from time to time by the Solid Fuels Administration for War and (b) any information and advice which the Bituminous Coal Producers Advisory Board believes would help in carrying out the purposes of Executive Order No. 9332.

§ 601.12 *Designation of members.* The members of the Bituminous Coal Producers Advisory Board for each district shall be designated by the Solid Fuels Administrator for War and any changes in the membership of such Board shall be subject to the approval of the Solid Fuels Administrator for War.

§ 601.13 *General plan of operation.* Each Bituminous Coal Producers Advisory Board may obtain such voluntary contributions from producers within the district as it deems advisable, provided that the budget and the general plan of operation have been approved by the Solid Fuels Administrator for War. Within twenty days after the designation by the Solid Fuels Administrator for War of the members of the Board the proposed budget for the remainder of the calendar year 1943 and the proposed general plan of operation of the Board shall be filed with the Solid Fuels Administrator for War.

§ 601.14 *Vacancies on Boards.* The Solid Fuels Administrator for War will receive and consider suggestions and nominations from time to time from producers and from the principal labor organizations in each district as to changes in membership of the Bituminous Coal Producers Advisory Board and as to successors to members when they resign or retire.

Issued this 3d day of August 1943.

HAROLD L. ICKES,
Solid Fuels Administrator for War.

Chapter IX—War Production Board

Subchapter B—Executive Vice Chairman

AUTHORITY: Regulations in this subchapter issued under P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-321]

L. SCHOENLEIN AND SON

August Schoenlein, doing business as L. Schoenlein & Son at 3006 Parkside Drive, Baltimore, Maryland, is a building contractor. Subsequent to September 7, 1942, the effective date of Conservation Order L-41, as amended, he began construction of an addition to a restaurant building at an estimated cost in excess of $4,000, without the authority of the War Production Board. He then applied to the War Production Board for permission to complete the construction and this application was denied. Respondent continued construction to a total cost of $4,302.92, which substantially exceeded the limits permitted under Conservation Order L-41. Respondent had in his possession, prior to the commencing of this construction, a copy of Conservation Order L-41, and his action must therefore be deemed a wilful violation of this Order. This violation of Conservation Order L-41 has diverted scarce materials to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing facts, *It is hereby ordered,* That:

§ 1010.321 *Suspension Order S-321.* (a) August Schoenlein, doing business as L. Schoenlein & Son, or under any other name, his or its successors or assigns, are hereby prohibited from ordering, purchasing, accepting delivery of, withdrawing from inventory, or in any other manner securing or using material or construction plant in order to begin construction or to continue construction, as defined in Conservation Order L-41, unless hereafter specifically authorized in writing by the War Production Board.

(b) Deliveries of material to August Schoenlein, doing business as L. Schoenlein & Son, or under any other name, his or its successors or assigns shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned, applied, or extended to such deliveries by means of preference rating certificates, preference rating orders, or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) No allocation or allotment of materials or products, the supply or distribution of which is governed by any order or regulation of the War Produc-

tion Board shall be made to August Schoenlein, doing business as L. Schoenlein & Son, or under any other name, his or its successors or assigns, unless hereafter specifically authorized in writing by the War Production Board.

(d) Nothing contained in this order shall be deemed to relieve August Schoenlein, doing business as L. Schoenlein & Son, or under any other name, his or its successors or assigns from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on August 6, 1943, and shall expire on November 6, 1943.

Issued this 30th day of July 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-341, Amdt. 1]

WESTERN SALES AND SUPPLY CO.

Bernard W. Stein, Abraham Stein, Harold H. Stein, and J. R. Stein, doing business as Western Sales and Supply Company at 1011 West Highland Avenue, Hollywood, California, have appealed from the provisions of Suspension Order S-341, issued on June 10, 1943, and in connection with the appeal have asked for permission to sell their inventory of steel products located in their Hollywood, California warehouse. The Chief Compliance Commissioner, after considering all the circumstances, has decided to grant such permission, in accordance with the terms of paragraph (b) (1) set forth below, which is to be incorporated into the suspension order as a new paragraph.

Section 1010.341 *Suspension Order S-341* issued June 10, 1943, is hereby amended by including therein a new paragraph to be known as paragraph (b) (1) reading as follows:

(b) (1) Nothing herein contained shall be deemed to prevent the respondents from selling the stock of steel products which they have in their Hollywood, California warehouse, provided the following conditions are complied with:

(i) Deliveries must be in accordance with paragraphs (d) (1), (2) and (3) of CMP Regulation No. 4 as amended.

(ii) Deliveries must be made in accordance with the rules, regulations and orders of the Office of Price Administration.

(iii) No delivery shall be made without obtaining the approval of the Regional Compliance Chief of the San Francisco Regional Office of the War Production Board.

Issued this 6th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1066—MOTORIZED FIRE APPARATUS

[General Limitation Order L-43, as Amended August 6, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of the materials entering into the manufacture of motorized fire apparatus for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1066.1 *General Limitation Order L-43*—(a) *Definitions.* For the purposes of this order:

(1) "Motorized fire apparatus" means self-propelled motorized fire apparatus and auxiliary pumping units of fire apparatus, and includes accessories therefor and equipment thereon.

The term shall not include second hand apparatus nor parts or materials for the repair or maintenance of existing apparatus.

(2) "Sedan" means self-propelled motorized fire apparatus of which more than 50% of the area behind the windshield is enclosed.

(3) "Service ladder truck" means self-propelled motorized fire apparatus on which the equipment carried consists of service or ground ladders, miscellaneous equipment, and tools.

(4) "Squad car" means self-propelled motorized fire apparatus designed to carry men.

(5) "Salvage car" means self-propelled motorized fire apparatus designed to carry canvas covers, life nets, and similar equipment.

(6) "Rescue car" means self-propelled motorized fire apparatus designed to carry first aid equipment.

(7) "Hose truck" means self-propelled motorized fire apparatus designed to carry fire hose.

(8) "Pumper" means self-propelled motorized fire apparatus carrying a booster tank, a pump, and hose, which is designed primarily to pump water from sources other than its own booster tank.

(9) "Tank truck" means self-propelled motorized fire apparatus carrying a water tank, a pump, and hose, which is designed primarily to pump water from its own water tank rather than from outside sources. The term shall include, but not by way of limitation, so-called "crash trucks".

(10) "Aerial ladder truck" means self-propelled motorized fire apparatus on the chassis of which are combined an aerial ladder and any or all of the following equipment: (i) a complement of service or ground ladders, (ii) fire hose, (iii) a booster tank, (iv) a pump. An aerial ladder truck may also carry miscellaneous equipment.

(11) "Auxiliary pumping unit" means the following types of fire apparatus:

(i) A pump designed to be mounted on the front or side of a self-propelled vehicle and designed to receive its pumping power from the motor of the self-propelled vehicle;

(ii) A pump and motor designed to be mounted on a trailer, skid, or other type of support; and

(iii) A vehicle or other support carrying a pump or a pump and motor of the types described in the preceding subparagraphs of this paragraph (a) (11).

The term does not include any pumps covered by Limitation Order L-192 or L-246, or Schedule VII to Limitation Order L-217.

(12) "Copper base alloy" means any alloy in the composition of which the weight of copper equals or exceeds 40 per cent of the weight of all metal in the alloy.

(13) "Specification of the War Production Board" means the specification for 500 and 750 g. p. m. pumpers on file at the offices of the Safety and Technical Equipment Division of the War Production Board, Washington, 25 D. C. (Copies of this specification may be obtained by addressing a communication to the address indicated in paragraph (k) of this order.)

(14) "Manufacturer" means any person engaged in the business of manufacturing, fabricating or assembling motorized fire apparatus.

(15) "Distributor" means any person engaged in the business of purchasing and reselling motorized fire apparatus without further fabrication of such apparatus.

(16) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons, whether incorporated or not.

(b) *Restrictions on manufacture of motorized fire apparatus.* Except as permitted by paragraph (c) of this order, no manufacturer shall take any action to commence, continue or complete the manufacture of:

(1) Any sedan, service ladder truck, squad car, salvage car, rescue car, or hose truck;

(2) Any chassis for use in connection with a pumper carrying a centrifugal pump of 500 g. p. m. capacity, as rated by the National Board of Fire Underwriters, unless such pumper is being manufactured for delivery to or for the account of the Navy of the United States, Lend-Lease, or any person to whom an export license covering the specific equipment has been issued by the Board of Economic Warfare;

(3) Any 1½ ton chassis for use in connection with a tank truck, unless such tank truck is being manufactured for delivery to or for the account of the Navy of the United States or Lend-Lease;

(4) Any pumper except the following types:

(i) Pumpers which carry centrifugal pumps of either 500 or 750 g. p. m. capacities, as rated by the National Board of Fire Underwriters, and which conform to the "Specification of the War Production Board", and

(ii) Pumpers which carry centrifugal pumps of 1000 or 1250 g. p. m. capacity, as rated by the National Board of Fire Underwriters: *Provided, however,* That the manufacture of such pumpers shall not

be commenced until the specifications therefor have been submitted to the War Production Board and have been specifically approved by the War Production Board;

(5) Any tank truck except one having a pump capacity of not more than 400 g. p. m. and carrying a water tank of a capacity of 250 gallons or more, *Provided, however,* That the restrictions set forth in this subparagraph (5) shall not apply to the manufacture of tank trucks for delivery to or for the account of the Army or Navy of the United States or Lend-Lease;

(6) Any aerial ladder truck except one carrying

(i) An extension ladder of not less than 65 feet nor more than 100 feet in length;

(ii) Not more than 500 feet of 2½ inch fire hose, if hose is required;

(iii) A booster tank of not less than 100 gallon nor more than 200 gallon capacity, if a booster tank is required; and (iv) A pump having a capacity of not more than 100 g. p. m., if a pump is required.

(c) *Exceptions.* (1) Notwithstanding the restrictions set forth in paragraph (b) of this order any motorized fire apparatus in the process of manufacture on April 16, 1943, may be completed to fill purchase orders bearing preference ratings which had been assigned to the person placing the order prior to April 16, 1943. Deliveries of such apparatus may be made and accepted without further authorization under paragraph (e) (5) (iii) of this order.

(2) The provisions of paragraphs (b) (2) and (b) (3) of this order shall not be construed to prohibit any alteration or further fabrication of chassis which have been obtained under the provisions of General Conservation Order M-100.

(d) *Restrictions on use of materials in motorized fire apparatus.* Except as specifically authorized by the War Production Board, no manufacturer shall incorporate in the manufacture of any motorized fire apparatus, or of component parts thereof, any aluminum, copper, copper base alloy nickel, chromium, cadmium, tin, zinc, alloy steel, carbon steel, or synthetic rubber, except to the extent permitted in Appendix A, attached to this order.

(e) *Restrictions on sale and delivery of motorized fire apparatus.* (1) No manufacturer or distributor shall install a bell on any motorized fire apparatus, and no person shall sell or deliver any bell which he knows or has reason to believe will be used in connection with motorized fire apparatus;

NOTE: Paragraph (1) amended August 6, 1943.

(2) No manufacturer or distributor shall install any new or used rubber tires on any auxiliary pumping unit, and no person shall sell or deliver any new or used rubber tires which he knows or has reason to believe will be used on an auxiliary pumping unit, except to fill "War Orders" as defined in General Limitation Order M-15-b.

(3) No manufacturer or distributor shall sell, deliver, or otherwise supply:

(i) Any accessories or equipment for use in connection with new motorized fire apparatus other than the types and kinds permitted for pumpers by paragraph D-20 of the "Specification of the War Production Board."

(ii) Any intercooler for use in connection with any auxiliary pumping unit, except where it is to be used in place of a radiator.

(iii) Any tachometer for use in connection with motorized fire apparatus, except tachometers which were completed and in the possession of manufacturers or distributors on April 16, 1943.

NOTE: Paragraph (iii) amended August 6, 1943.

(4) No person shall sell or deliver any suction hose for use in connection with motorized fire apparatus except to fill purchase orders bearing preference ratings of AA-5 or higher;

(5) Subject to the further restrictions contained in paragraph (g) of this order, no person shall sell or deliver any pumper, tank truck, aerial ladder truck, or auxiliary pumping unit, except to or for the account of:

(i) The Army or Navy of the United States;

(ii) Any agency of the United States Government for delivery to or for the account of the government of any country pursuant to the Act of March 11, 1941, entitled, "An Act to Promote the Defense of the United States" (Lend-Lease Act); or

(iii) Any other person who has been authorized by the War Production Board on Form PD-556 to receive the specific motorized fire apparatus and has delivered to his supplier a copy of such form signed in the name of the War Production Board.

(6) No person shall purchase or accept delivery of any material if he knows or has reason to believe that the sale or delivery of such material is prohibited by the terms of subparagraphs (1), (2), (3), (4) or (5) of this paragraph (e).

(f) *Authorizations on Form PD-556.* (1) Each person seeking authorization under paragraph (e) (5) (iii) of this order to receive any pumper, aerial ladder truck, tank truck, or auxiliary pumping unit shall prepare Form PD-556 in quintuplicate (copies of which form may be obtained at the local offices of the War Production Board) in the manner prescribed therein, subject to the following instructions:

(i) The form should be filed only by the person (transferee) desiring to receive the specified motorized fire apparatus and not by the person (transferor) desiring to make delivery of such apparatus.

(ii) In describing the apparatus for which application is made, give the type, size, manufacturer's name and any other pertinent descriptive material. Do not fill in columns (b) and (c) of table II.

(iii) Do not fill in sections (6), (7) and (8) of table III.

(iv) Under section (5) of table III state in detail the reasons why the apparatus applied for is needed at this time. (The application cannot be processed unless a full statement is made on this subject.)

(2) Any authorization by the War Production Board on Form PD-556 may be granted subject to any conditions which the War Production Board deems necessary. Such conditions may include the requirement that a different size or type of apparatus be obtained, or any other condition. The War Production Board may also assign a preference rating on Form PD-556 if such rating is deemed necessary.

(g) *Production and shipping schedules and restrictions thereon.* On or before April 26, 1943, and on or before the 15th day of each succeeding calendar month, each manufacturer of motorized fire apparatus shall file with the War Production Board in triplicate on Form PD-774 his proposed production and shipping schedules of motorized fire apparatus for such period as production and shipping may be planned. Upon receipt of such form, the War Production Board will approve or disapprove the proposed production and shipping schedule, or make such changes therein as it shall deem necessary, and will thereupon return to the manufacturer a copy of such form as approved or changed. Notwithstanding any preference rating which any order may bear or any rule or regulation of the War Production Board, each manufacturer shall produce and ship motorized fire apparatus in accordance with his production and shipping schedules as approved or changed by the War Production Board.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(i) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(j) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(k) *Correspondence.* Reports to be filed and other communications concerning this order shall be addressed to the War Production Board, Safety and Technical Equipment Division, Washington (25), D. C., Ref: L-43.

Issued this 6th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A

NOTE: Paragraph (6) amended August 6, 1943.

In accordance with paragraph (d) of this order, the following materials may be incorporated in the manufacture of motorized fire apparatus, or of component parts thereof, to the extent indicated below, unless any of the uses specified herein shall conflict with the provisions of any other limitation ("L") or conservation ("M") order, in which case the more restrictive order shall control:

(1) Alloy steel containing chromium, in relief valves and seats and highly stressed steel parts, including axles, shafts and gears, to the extent allowed by the National Emergency Steel Specifications; in engine exhaust valves to the extent permitted by Limitation Order L-128; in pump shafts not exceeding 14%;

(2) Alloy steel containing nickel, in piston pins for engines over 125 horsepower and in heavy duty gears, to the extent allowed by the National Emergency Steel Specifications; and in engine exhaust valves to the extent permitted by Limitation Order L-128;

(3) Aluminum, as authorized in accordance with the provisions of Order M-1-i;

(4) Carbon steel, to the extent essential to the efficient functioning of the parts;

(5) Chromium, in alloy steel as permitted under paragraph (1) of this Appendix A; and in plating to the extent essential to the efficient functioning of the parts plated;

(6) Copper or copper base alloy (of the lowest type and grade which is practical for the particular application), in automotive parts to the extent permitted by Limitation Order L-106; and copper base alloy (of the lowest type and grade which is practical for the particular application), in intercoolers; suction tube caps; discharge valve caps; valves (not including the handles); relief valves; impellers, rings and rotors; and in swivels and rollers in suction hose couplings;

(7) Synthetic rubber, in valve packing, pump packing, hydraulic hose lines and fuel pump lines;

(8) Tin, in copper base alloys (where no tin-free alloy can be used); and in solders and babbitts to the extent permitted by Preference Order M-43;

(9) Zinc, in carburetors, fuel pumps, speedometers, and windshield wipers; in plating to the extent essential to the efficient functioning of the parts plated; and for protection of ferrous parts substituted for nonferrous parts.

PART 3207—INDUSTRIAL TYPE INSTRUMENTS, CONTROL VALVES AND REGULATORS: SIMPLIFICATION

[Schedule VI to Limitation Order L-272]

WELDING EQUIPMENT GAUGES

§ 3207.7 *Schedule VI to Limitation Order L-272*—(a) *Definition.* A "welding equipment gauge" is any gauge which is designed and manufactured for use on oxyacetylene apparatus. This does not include any gauge for use on acetylene generators or compressed gas pipe lines and manifolds, nor does it include gauges for regulators for the control of therapeutic gases or oxygen respiratory apparatus.

(b) *Specifications.* Welding equipment gauges shall be manufactured according to the following specifications only:

(1) Sizes shall be limited to 2-inch or 2½-inch dial diameter.

(2) Case material shall be zinc plated steel, with black finish inside and out.

(3) Screw ring shall be brass or plated steel, with black finish.

(4) Glass shall be beveled.

(5) Cupped litho silvered dial shall be used, and shall bear the legend: "Use no oil." High pressure gauge dials shall include a residual gas volume scale. No other service markings shall be used; but this does not mean that the gauge manufacturer may not put his name or trademark on the gauge.

(6) Pressure ranges shall be limited to the following: 0-30 lbs.; 0-60 lbs.; 0-100 lbs.; 0-200 lbs.; 0-400 lbs.; 0-600 lbs.; 0-3000 lbs.

(7) All gauge models shall conform to such safety requirements as are prescribed for such gauges by the National Board of Fire Underwriters on August 6, 1943.

(c) *Special provisions.* (1) The exemption provisions of paragraph (c) (1) (i) of Limitation Order L-272 shall not apply to this schedule, which means that welding equipment gauges manufactured to fill existing purchase orders must conform to these specifications. A producer may, however, sell or deliver any completed welding equipment gauges which he has on hand or use up any gauge parts which he has in stock on August 6, 1943.

(2) The provisions of paragraph (c) (2) of Limitation Order L-272 shall not apply to this schedule, which means that welding equipment gauges must conform to the above specifications notwithstanding anything that Limitation Order L-134 says with respect to the use of chromium or nickel in instruments and instrument parts.

Issued this 6th day of August 1943.

PART 3230—BROOM MATERIALS AND BROOMS

[General Conservation Order L-283]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials entering into the manufacture of brooms for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3230.1 *General Conservation Order L-283*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons whether incorporated or not.

(2) "Broom corn" means the plant of the sorghum family used in the manufacture of brooms.

(3) "Fiber" means any fiber used in the manufacture of brooms, excluding broom corn.

(4) "Warehouse broom" means a broom of the type ordinarily used in industrial plants or for some other special industrial, agricultural, mining or commerccial purpose. It does not include push or street brooms.

(5) "Household broom" means a broom of the type ordinarily used for household purposes and includes brooms manufactured for other purposes if they are of the type ordinarily used in the household.

(6) "Producer" means any person who produces, while this order is in effect, more than six hundred (600) brooms during any calendar month.

(7) "Wound broom" means a broom assembled by wrapping wire or twine over the broom corn or fiber to fasten them to the handle.

(8) "Whisk broom" means a small broom of the type ordinarily used for brushing clothes, and includes barber brooms, lobby brooms and the like.

(9) "Metal cap broom" means a broom the handle of which is attached to two metal plates and in which the fiber is secured by clamping these plates over it.

(10) "Metal case broom" means a broom in which the handle and fiber are attached by means of an open top oval band of thin sheet metal.

(11) "Design" of a broom means the make-up, construction and quality in every detail, so that any two brooms of the same design are necessarily identical.

(c) *Restrictions on purchasing and accepting delivery of broom corn.* No producer shall purchase or accept delivery of, or cause to be purchased or delivered for his account, any broom corn if his inventory of broom corn will thereby be increased to an amount in excess of that consumed by him during the six month period ended March 31, 1943.

(d) *Manufacturing restriction applying to all types of brooms.* No producer shall manufacture any broom the handle of which has more than two coats of protective coating (i. e., lacquer, varnish, paint, etc.) *Provided, however,* That no protective coating may be used which must be obtained with a preference rating.

(e) *Manufacturing restrictions applying to wound household and warehouse brooms.* (1) No producer shall manufacture any wound household or warehouse broom:

(i) Finished except by lock, rundown or ring neck finish.

(ii) Having a ring neck finish using more than the number of turns of wire shown in the following schedule:

Weight per dozen:	*Number of turns*
Up to 28 pounds	Not more than 8 turns.
28 to 32 pounds	Not more than 10 turns.
32 pounds and over.	Not more than 14 turns.

(iii) Having a rundown finish more than 1 inch in width (not including the width of the bead).

(iv) Utilizing wire larger than 18½ gauge, Washburn and Moen steel wire

gauge, or wire that is tinned, galvanized, nickled, cadmium coated or finished with enamel or liquor.

(v) Having a metal hanger or cap.

(vi) Utilizing twine having a tensile strength of less than 36 pounds or more than 44 pounds on brooms weighing 32 pounds per dozen or over, or of less than 25 pounds or more than 33 pounds for brooms weighing under 32 pounds per dozen.

(vii) Having more than 4 seams of sewing, if the head measures less than 15 inches; more than 5 seams of sewing if the head measures at least 15 inches but less than 16½ inches; or more than 6 seams of sewing if the head measures more than 16½ inches: *Provided, however,* That if a metal band is used the number of permitted sewings shall be fewer by 2 than the number specified above.

(viii) Having a handle of greater diameter than the following:

	Hardwood (inches)	Softwood (inches)
Broom weight under 32 pounds	1	1 5/16
Broom weight 32 pounds or over	1 5/16	1¼

(ix) Having metal bands, except in brooms weighing 32 pounds or over.

(2) No producer shall use more than 20 designs in manufacturing wound brooms.

(f) *Manufacturing restrictions applying to whisk brooms.* (1) No producer shall manufacture any whisk brooms:

(i) With metal caps, metal hangers or other similar parts made of metal, except metal reinforcements for plush caps.

(ii) Using wire larger than 21 gauge, Washburn and Moen steel wire gauge, except that 20 gauge may be used where the head measures 8 inches or longer.

(iii) Using tinned, galvanized, nickled, cadmium coated wire or wire finished with enamel or liquor.

(iv) Using more than 18 turns of wire on the handle.

(v) Using twine having a tensile strength of less than 18 pounds or more than 24 pounds.

(vi) Having more than one seam of sewing where the head measures less than 5½ inches long, more than 2 seams where the head measure 5½ inches or over but less than 8 inches, or more than 3 seams where the head measures over 8 inches.

(2) No producer shall cut broom corn measuring over 14 inches from the knuckle to the end of the broom corn for use in whisk brooms.

(3) No producer shall use more than 20 designs in manufacturing whisk brooms.

(4) No producer shall produce during any semi-annual calendar period beginning July 1, 1943 more whisk brooms than he produced during the first six calendar months of 1943.

(g) *Manufacturing restrictions applying to metal cap or case brooms.* (1) No producer shall manufacture any metal cap broom using more than 5¼ ounces of metal in the cap (including nails and rivets), except that brooms having over 20 ounces of broom corn or fiber may use up to 6¾ ounces of metal in the cap.

(2) No producer shall manufacture any metal case broom using more than 2 ounces of metal in the case (including nails and rivets), except that brooms having over 20 ounces of broom corn or fiber may use up to 4¾ ounces of metal in the case.

(3) No producer shall manufacture any metal case or metal cap broom:

(i) Using more than one coat of finish on the cap or case;

(ii) Using twine having a tensile strength of less than 27 or more than 35 pounds in brooms having under 20 ounces of broom corn or fiber, or less than 36 pounds or more than 44 pounds in brooms having 20 ounces or more of broom corn or fiber;

(iii) Having any sewings on brooms using cut broom corn or fiber under 9½" long, more than 2 seams of sewing on brooms using corn or fiber over 9½" but less than 13", or more than 3 on brooms using corn or fiber 13" or over, except that 3 seams may be used on hide brooms;

(iv) Using handles having a diameter greater than the following:

	Hardwood (inches)	Softwood (inches)
Brooms having over 20 ounces of broomcorn or fiber	1 5/8	1¾
Other weights	1	1

(v) Using wire bands weighing in the aggregate more than 1¾ ounces per broom.

(vi) Using a metal or wire band in addition to sewings (except on brooms made exclusively of bass or palmyra stalks), or more than one metal or wire bands where there are no sewings.

(4) No producer shall use more than 18 designs in manufacturing metal cap brooms or more than 15 designs in manufacturing metal case brooms.

(h) *Restrictions on the manufacture of toy brooms and hearth brooms.* No producer shall manufacture any toy brooms or hearth brooms.

(i) *Weight standards.* Whenever the weight of a broom is referred to in this order the weight specified is the weight of the broom per dozen using a maple handle. Where other types of handles are used, the weight specified shall be adjusted by the difference between the weight of the handle used and a maple handle. Weights are also specified on the assumption that the broom corn or fiber is dry and similar adjustment shall be made where the broom corn or fiber is wet.

(j) *Exceptions.* The War Production Board may authorize in writing the manufacture of brooms not made in accordance with paragraphs (d) through (h) above where such brooms are required for a particular military, industrial or household purpose. Application for such authorization shall be made by letter describing in detail the broom proposed to be made and stating the need for such broom.

This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(k) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the ground of the appeal.

(l) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington 25, D. C. Ref.: L-283.

(m) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Effective dates.* Paragraphs (e), (f), (g) and (h) of this order shall take effect on September 1, 1943. All other paragraphs shall become effective immediately.

Issued this 6th day of August 1943.

PART 3157—HAULAGE CONSERVATION

[General Haulage Conservation Order T-1 as Amended August 6, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials and facilities for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3157.1 *General Haulage Conservation Order T-1*—(a) *Definitions.* For the purpose of this order (and any lists, supplements or schedules hereto, unless otherwise indicated):

(1) "Controlled delivery" means any delivery (including reconsignment) of any material specified on List 1 or 2 annexed hereto, or on any supplement or schedule hereto, where the delivery is to be made under the conditions specified for such material in such list, supplement or schedule.

(2) "Originate" means to load or to tender or offer to a carrier for delivery.

(3) Any distance or mileage which is specified in any list, schedule or supplement to this order, shall be measured over the shortest route over which carload freight may be transported without transfer of lading.

(4) The boundary of any city or village specifically referred to in any list, schedule or supplement hereto, shall be deemed to include the railroad switching limits as established in duly published rail tariffs.

(b) *List 1 materials.* (1) No person shall originate a controlled delivery of any List 1 material, except as specifically authorized or directed in writing by the War Production Board.

(2) Any person seeking authorization to originate a controlled delivery of any List 1 material may make application on Form WPB-2188 (Formerly PD-782), or, in emergency, by telegram, containing substantially the information called for by such form.

(c) *List 2 materials.* (1) Each person shall report on Form WPB-2188 (formerly PD-782) on or before the 20th day of each calendar month all controlled deliveries of List 2 materials which he then intends to originate during the succeeding calendar month.

(2) Each person shall report on Form WPB-2188 (formerly PD-782) on or before the 10th day prior to originating such delivery any controlled delivery of List 2 materials which he then intends to originate and has not previously reported.

(3) Any person may originate a controlled delivery of List 2 materials reported pursuant to paragraph (c) (1) or (2), unless otherwise specifically directed in writing by the War Production Board.

(4) No person shall originate a controlled delivery of List 2 materials which has not been reported pursuant to paragraph (c) (1) or (2), except as specifically directed or authorized in writing by the War Production Board. Application for such authorization may be made on Form WPB-2188 (formerly PD-782), or, in emergency, by telegram containing substantially the information called for by such form.

(d) *Deliveries originating outside United States.* With respect to any delivery terminating within the forty-eight states or the District of Columbia, but in fact originating elsewhere, the delivery shall, for the purpose of this order and any supplements or schedules hereto, be deemed to have been originated by the consignee at the point of entry.

(e) *Materials covered by supplements and schedules.* The War Production Board may from time to time issue supplements or schedules to this order prescribing conditions governing controlled deliveries of particular materials specified thereon. On and after the effective date of any such supplement or schedule, no person shall make a controlled delivery of any such material except as specified in such supplement or schedule.

(f) *Nonapplicability of order.* This order shall not apply to any carrier when acting in the capacity of a carrier, nor shall it operate as an assignment of, or right to obtain, transportation equipment.

(g) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) *Applicability of other orders.* Nothing contained in this order shall be construed to limit the requirements of any other War Production Board order now or hereafter issued.

(3) *Appeals.* Any appeal from denials of applications or from directions pursuant to this order, or any supplement or schedule hereto, shall be made by filing a letter in triplicate, referring to the particular action appealed from and stating fully the grounds of the appeal.

(4) *Violations.* Any person who wilfully violates any provision of this order, or any supplement or schedule hereto, or who, in connection therewith wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order or any supplement or schedule hereto, shall unless otherwise directed be addressed to: War Production Board, Washington, D. C., Ref.: T-1 (Specify commodity).

Issued this 6th day of August 1943.

WAR PRODUCTION BOARD,

PART 1305—ADMINISTRATION

[Supp. Order 45,[1] Amdt. 2]

EXEMPTION OF BEVERAGE COASTERS AND SEA SHELLS IN HAWAII

A statement to accompany this amendment to Supplementary Order No. 45 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1305.59 (b) is added to read as follows:

(b) The provisions herein with respect to beverage coasters and sea shells shall not be applicable in the Territory of Hawaii.

This amendment shall become effective August 11, 1943.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 200,[1] Amdt. 10]

RUBBER HEELS, RUBBER HEELS ATTACHED, AND ATTACHING OF RUBBER HEELS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 200 is amended in the following respects:

1. Section 1315.1420 is amended by adding the following item to Table I–A under the heading "Men's half heels (all sizes)."

Item	Maximum price for sales to wholesalers[2]	Maximum price for sales to shoe repairmen[2]	Unit of sale to wholesalers and shoe repairmen	Maximum price to consumer for heels attached by shoe repairmen[3] (per pair)
Corded	$1.58	$2.10	1 doz. pairs	$0.55

2. Section 1315.1420 (h) is amended to read as follows:

(h) The maximum price for sales by wholesalers to that class of wholesaler who during March, 1942, purchased rubber heels from wholesalers at prices higher than those set forth in Table I–A for sales to wholesalers is the price set forth in Table I–A for sales of the rubber heels in question to shoe repairmen, less 20 percent. The seller may add to the maximum price calculated in accordance with this paragraph the same proportion of transportation costs incurred in the delivery of rubber heels that the seller required purchasers of the same class to pay during March, 1942, on deliveries of rubber heels. The maximum price determined in accordance with the provisions of this paragraph shall be decreased by 5 percent if the purchaser pays cash within 30 days after delivery of the rubber heels.

This amendment shall become effective August 12, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871, E.O. 9328; 8 F.R. 4681)

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 200,[1] Amdt. 11]

RUBBER HEELS, RUBBER HEELS ATTACHED AND THE ATTACHING OF RUBBER HEELS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 200 is amended in the following respects:

1. The preamble is amended by adding a paragraph thereto to read as follows:

In the judgment of the Price Administrator the standardization required by this regulation is the only practicable means of securing effective price control of rubber heels sold in the shoe repair trade.

2. Section 1315.1401 is amended to read as follows:

§ 1315.1401 *Prohibition against dealing in rubber heels, rubber heels attached and attaching rubber heels at prices in excess of the maximum.* On and after September 1, 1942, regardless of any contract or other obligation:

(a) No person shall sell or deliver rubber heels or attached rubber heels in the shoe repair trade at prices in excess of the maximum fixed by this regulation;

(b) No person shall attach rubber heels at prices in excess of the maximum fixed by this regulation;

(c) No person shall buy or receive rubber heels or attached rubber heels in the shoe repair trade, in the course of trade or business at prices in excess of the maximum fixed by this regulation; and

(d) No person shall agree, offer, solicit or attempt to do any of the foregoing.

3. Sections 1315.1402 to 1315.1420 inclusive, are redesignated §§1315.1406 to 1315.1424, respectively.

4. Section 1315.1402 is added to read as follows:

§ 1315.1402 *Maximum manufacturers' prices for rubber heels sold in the shoe repair trade.* The maximum manufacturers' prices for sales of rubber heels in the shoe repair trade are set forth in Appendix A. Those prices vary depending upon whether the heel in question is classed as a "corded", "super", "standard", "competitive", or "special competitive" heel. The classification of a heel for pricing purposes is dependent upon the brand name on the heel and the physical tests the heel can meet. Accordingly, in order to be sold at the maximum price for any of the particular grades in Appendix A, the heel must meet both the physical tests set forth in paragraph (c) of § 1315.1405 for that grade of heel and must be of a brand which is listed in paragraph (a) of § 1315.1405 as belonging to that grade of heel. If the brand name of the heel places it in a higher priced category than the physical tests, the physical tests shall control. If the physical tests place the heel in a higher priced category than the brand name, the brand name shall control. However, in such case, the manufacturer may apply for reclassification of the brand name in accordance with § 1315.1403. If the manufacturer marks the heel with a V-marking in accordance with paragraph (a) of § 1315.1410 to indicate the physical tests that the heel can equal or exceed, the V-marking shall control.

5. Section 1315.1403 is added to read as follows:

§ 1315.1403 *Classification and reclassification of brands.* (a) A manufacturer who introduces a new brand name for a heel or who wishes to have a certain brand name reclassified shall file a report and six pairs of the heel with the Office of Price Administration, Washington, D. C. This report shall include the following:

(1) The abrasion index and tensile strength of the heel.

(2) The classification in which he wishes the brand name to be placed.

(3) A statement indicating that all hee's produced by him that bear that brand name will equal or exceed the quality of the sample heels submitted.

After receipt of the report and samples, the Office of Price Administration will either amend the regulation to classify or reclassify the heel or will deny the request for reclassification.

(b) Every manufacturer who after August 4, 1943, sells a rubber heel, the brand name of which places it in a higher price category than the physical tests it can meet (as set forth in paragraph (c) of § 1315.1405) shall file a report and six pairs of the heel with the Office of Price Administration, Washington, D. C., within five days after he first sells any such heel. The report shall include the abrasion index and the tensile strength of the heel. After receipt of the report and samples, the Office of Price Administration will determine whether the brand name shall be reclassified.

6 Section 1315.1404 is added to read as follows:

§ 1315.1404 *Maximum wholesalers' prices for rubber heels sold in the shoe repair trade and maximum shoe repairmen's prices for rubber heels, attached rubber heels and attaching rubber heels.* Maximum wholesalers' prices for rubber heels and maximum shoe repairmen's prices for rubber heels, rubber heels attached and attaching rubber heels are set forth in Appendix A. Those prices vary depending upon whether the heel in question is classed as a "corded," "super," "standard," "competitive," or "special competitive" heel. If the heel is not marked with a V–1, V–2, V–3 or V–4, the maximum price for selling or attaching the heel or selling it attached depends on the brand name of the heel. The classification of heels by brand names is set forth in paragraph (a) of § 1315.1405. Thus, for example, if a certain brand of heel is listed in that paragraph as being a competitive grade heel and if that heel is not marked with a V–1, V–2, V–3 or V–4, the heel may not be sold, attached or sold attached at a price in excess of that stated in Appendix A for a "competitive grade" heel. If a heel is marked with a V–1, V–2, V–3 or V–4, the maximum price for selling or attaching the heel or selling the heel attached shall depend on the V-marking on the heel. For example, if a heel is marked with a "V–2" it may not be sold, attached or sold attached at a price in excess of the maximum price listed in Appendix A for a V–2 heel.

7. Section 1315.1405 is added to read as follows:

§ 1315.1405 *Price categories for heels.* In §§ 1315.1402 and 1315.1404 it is stated that the maximum price of a heel depends upon whether it is classed as a "corded", "super", "standard", "competitive" or "special competitive" heel. This section is for the purpose of classifying heels into the various price categories set forth in Appendix A.

(a) *Classification of heels, not marked with V–1, V–2, V–3 or V–4, by brand names.*—(1) *Sales by persons, other than manufacturers.* The classifications of heels not marked with a V-symbol for sales by persons other than manufacturers follows:

(2) *Sales by manufacturers.* The classifications of heels not marked with a V-symbol for sales by manufacturers are the same as those set forth in the preceding subparagraph (1). However, the restrictions as to the physical tests the heel can meet which are set forth in paragraph (c) of this section are applicable to sales by manufacturers.

(b) *Classifications of heels marked with V–1, V–2, V–3 or V–4.* The following are the classifications for heels marked with a V-symbol:

Heels marked with—	*Grade*
V–1	Super
V–2	Standard
V–3	Competitive
V–4	Special Competitive

Sellers, other than manufacturers, may rely on the V-symbol that appears on the heel. No manufacturer may mark a heel with a particular V-symbol unless the heel equals or exceeds the physical tests for that V-symbol set forth in paragraph (c).

(c) *Physical tests for heels sold by manufacturers* — (1) *Non-fiber heels.* The following are the physical tests that "non-fiber" heels sold by manufacturers must meet:

Grade	Minimum abrasive index [1]		Tensile strength
	All types except whole heels	Whole heels	
Super (V–1)	23	20	1,000
Standard (V–2)	18	16	800
Competitive (V–3)	13	12	500
Special Competitive (V–4)	8	8	400

[1] No minus tolerance is permitted. The methods of federal specifications EA–ZZ–H–141 and ZZ–R–601a shall be applicable to the specifications.

"Non-fiber heels" are either heels which do not contain any fiber or heels which contain fiber only in one or more plugs, which are placed in the area of greatest wear.

(2) *Corded heels.* A "corded" heel sold by a manufacturer must have a minimum abrasion of 28. If produced after June 19, 1943, it must contain clearly discernible whole cords which at any given level lie generally parallel to each other.

(i) *Segment fiber heels.* "Segment fiber heels" are heels which have a non-fiber base stock and a segment containing fibers placed at the back of the heel in the area of greatest wear. If such heels are produced before June 20, 1943, the physical tests set forth in subparagraph (1) are applicable. However, those tests shall be applied only to the non-fiber portion of the heel. If such heels are produced on or after June 20, 1943, the physical tests applicable shall be those set forth in the next subdivision.

(ii) *Fiber heels.* A "fiber heel" is any heel containing fiber in any portion of the heel. However, for the purposes of this regulation the term "fiber heel" does not include corded heels, segment fiber heels produced before June 20, 1943, or heels which only contain fiber in one or more plugs placed in the area of greatest wear. If the manufacturer wishes, he may apply the physical tests set forth in subparagraph (1) to fiber heels. If those physical tests are used, each compound used in the manufacture of the heels must meet those requirements. If the tests just set forth are not applied, the physical tests for fiber heels shall be their wearing qualitity as compared with non-fiber heels. In such cases, fiber heels shall be deemed to have wearing qualities which are equal to those of a special competitive heel, until tests are made which prove a better wearing quality. If a manufacturer believes that a fiber heel sold by him has wearing qualities that are equal to a higher grade of non-fiber heel than "special competitive", he shall submit eight pairs of the fiber heel and evidence that the fiber heel wears as well as non-fiber heels in the price category in which the manufacturer wishes to place the fiber heel. After receipt of this report, the Office of Price Administration will determine whether the fiber heel wears as well as non-fiber heels in the price category in which the manufacturer wishes to place the fiber heel. Until the Office of Price Administration notifies the manufacturer that the fiber heel has such wearing qualities, the heel may not be sold at a price in excess of that established for special competitive heels.

8. Section 1315.1410 is amended to read as follows:

§ 1315.1410 *Marking and posting*—(a) *Marking.* No person may mark any rubber heels produced after August 4, 1943, for sale in the shoe repair trade with the symbol "V–1," "V–2," "V–3" or "V–4" unless the heel in question can equal or exceed the physical tests for the particular symbol set forth in paragraph (c) of § 1315.1405. If a manufacturer uses such a "V" symbol on rubber heels it shall be marked as follows: All rubber heels, except sport heels and women's scoop lifts, toplifts, toplift strips and toplift blocks, shall have the symbol imprinted prominently on the face of every such heel in the place receiving the least wear. If sport heels and women's scoop lifts, toplifts, toplift strips and toplift blocks are marked with a "V" symbol, they shall be marked in a manner which is approved in writing by the Office of Price Administration. The marking of the unit of sale container (in the case of sport heels, a container for 12 or less pairs of heels) is an approved method of marking sport heels and women's scoop lifts (1 and 3 nail hole) and died out toplifts. A paper sticker on each toplift strip or block is also an approved method of marking toplift strips and toplift blocks.

(b) *Posting.* On and after October 5, 1943, every shoe repairman engaged in the business of selling rubber heels or attached rubber heels or of attaching rubber heels shall keep posted in a conspicuous place in each establishment at which rubber heels are offered for sale, or at which the attaching of rubber heels is contracted for, a poster, provided by the Office of Price Administration, setting forth the maximum prices which he is permitted to charge under this regulation.

9. Section 1315.1424 is amended by revoking footnotes 5 and 6 to Table I–A.

10. Section 1315.1424 (g) is revoked.

This amendment shall become effective August 5, 1943.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the provisions of the Federal Reports Act of 1942.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 220,[1] Amdt. 12]

CERTAIN RUBBER COMMODITIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 220 is amended in the following respects:

1. Section 1315.1553 (c) is amended to read as follows:

(c) If a commodity priced under this section contains synthetic or substitute rubber or balata the price of which in effect on August 1, 1943, was lower than the price in effect on March 31, 1942, the manufacturer shall deduct from the price determined in accordance with the provisions of paragraph (a) of this section a differential to be calculated as follows:

(1) Where the manufacturer compounds the synthetic or substitute rubber or balata contained in the commodity, he shall first determine the amount of each type of synthetic or substitute rubber or balata required to produce the commodity. The manufacturer will then multiply this amount by the difference between the price of the synthetic or substitute rubber or balata in effect to him on March 31, 1942, and the price for that material in effect to him on August 1, 1943. The resulting figure is the differential. If the manufacturer customarily sold several sizes, styles or compounds of the commodity at the same price to the same class of purchasers, he shall use the same differential for all sizes, styles or compounds of the commodity that he sold at the same price to the same class of purchasers. This differential shall be calculated in the manner just set forth except that in applying that method the manufacturer shall use the method he customarily used in March, 1942, to arrive at a uniform price. If the manufacturer had no such customary method, he shall use as a basis for calculating the differential that size, style or compound of the commodity of which he sold the largest quantity during the period January 1, 1943, to July 1, 1943.

(2) Where the manufacturer did not compound the synthetic or substitute rubber or balata contained in the commodity he shall first determine the price for the material or part purchased by him which contains synthetic or substitute rubber or balata in accordance with paragraph (a) (1) (ii) (*a*) of § 1315.1557. The manufacturer shall then deduct from that price the first price at which he purchased the material or part containing the synthetic or substitute rubber or balata after August 1, 1943, not to exceed the applicable maximum price. The resulting figure is the differential.

2. Section 1315.1557 (a) (1) (ii) (*b*) is amended to read as follows:

(*b*) The price of any synthetic or substitute rubber or balata used in the calculation of materials costs shall be determined in accordance with the provisions of inferior subdivision (*a*) above except that the date, August 1, 1943, shall be substituted for the dates March, 1942, and March 31, 1942.

3. Section 1315.1557a is added to read as follows:

§ 1315.1557a *Fractions of a cent.* Notwithstanding any other provisions of this regulation, maximum prices determined under this regulation shall be adjusted to the nearest fraction of a cent that the seller customarily used during March, 1942, in pricing commodities in the same line.

This amendment shall become effective August 12, 1943.

[MPR 225,[1] Amdt. 6]

PRINTING AND PRINTED PAPER COMMODITIES

A statement of considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Maximum Price Regulation 225 is amended in the following respects:

1. Section 1347.472 (a) (6) (iv) is hereby revoked.

2. Section 1347.477 (b) is added to read as follows:

(b) *Equalization of maximum prices, established under certain long term contracts, to sellers' general levels of prices as of March 1942.* This paragraph (b) provides a method by which a seller can, in re-negotiating certain long term contracts, restore normal pricing differentials between his various classes of purchasers.

(1) To establish a maximum price under this paragraph (b), a seller must prove to the Office of Price Administration that prior to April 1942, he had put into effect a price increase and made delivery or supply pursuant thereto of:

(i) The same or a similar commodity or service, or

(ii) Most commodities or services produced or supplied by him which are comparable to the commodity or service being repriced.

He must also prove that his reason for having delivered, supplied, or offered to deliver or supply this article or service during March, 1942 at a lower price than is reflected in his general March price level was a contract entered into before his general price increase and before January 1, 1942.

(2) If the seller meets the requirements of subparagraph (1) above, his maximum price shall be:

(i) The highest price which he charged on deliveries or supplies during March 1942, of the same or a similar commodity or service to a purchaser of a different class, adjusted to reflect his customary differential in price between the two classes of purchasers or, if he had no customary differential, the actual percentage differential existing at the date of the contract; or

(ii) If he made no delivery or supply of the same or a similar commodity or service to any other class of purchasers during March 1942, then his maximum price shall be computed according to the pricing formula in §§ 1347.453 or 1347.454 (b), whichever shall be applicable.

(3) Every seller determining a maximum price under the provisions of this paragraph (b), shall, before making a sale at such a price, file a report with the Office of Price Administration, Printing and Publishing Unit, Reference 695, Washington, D. C., specifying in full detail all of the data necessary to prove the requirements of this section. If the new maximum price has been

[Rev. SR 14[3] to GMPR,[4] Amdt. 12]

DOMESTIC WINES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Supplementary Regulation No. 14 is amended by adding section 2.18 to Article II thereof to read as follows:

SEC. 2.18 *Domestic wines: Records and reports required from brand owners*—(a) *Brand names in use during March 1942*—(1) *Report of brand description.* On or before September 10, 1943, every owner of a brand name used during March 1942 for sales of domestic wines shall report the brand description of the domestic wines sold thereunder and his maximum prices therefor to the Office of Price Administration, Washington, D. C. If the brand name was used during March 1942 for sales of more than one type of domestic wines, the brand owner shall make a separate report for each such type.

(2) *Forms for brand names in use during March 1942*—(i) *Where brand description has not been changed.* If the brand name is one which the owner used during March 1942 and the type of domestic wines is the same type sold thereunder during March 1942, the report shall be on Form 635–369a as set forth at paragraph (e) of this section.

(ii) *Where brand description has been changed.* If the brand name is one which the owner used during March 1942 but the brand description differs in any respect from the brand description covering the domestic wines sold thereunder during March 1942, the report shall be on Form 635–369b as set forth at paragraph (e) of this section.

(b) *Brand names in use on August 5, 1943 but not in use during March 1942*—(1) *Report of brand description.* On or before September 10, 1943, every owner of a brand name not used during March 1942 for sales of domestic wines, but being used for that purpose on August 5, 1943, shall report the brand description of the domestic wines being sold thereunder and his maximum prices therefor to the Office of Price Administration, Washington, D. C. If such brand name is being used for more than one type of domestic wines, the brand owner shall make a separate report for each brand description.

(2) *Form for brand name not in use during March 1942.* If the brand name is one which the owner did not use during March 1942 the report shall be on Form 635–369c as set forth at paragraph (e) of this section.

(c) *Brands introduced after August 4, 1943; and changes in brand description after August 4, 1943 of brands sold during March 1942.* (1) Brand introduced after August 4, 1943. An owner of a brand who after August 4, 1943 desires:

(i) To sell any domestic wines of any brand description under a brand name not used for that purpose since March 1, 1942; or

(ii) To sell domestic wines of any brand description not in use either during March 1942 or on August 5, 1943 shall file a report with the Office of Price Administration, Washington, D. C. Such report shall be on Form 635–369c as set forth at paragraph (e) of this section.

(2) *Changes in brand description after August 4, 1943 of brand name sold during March 1942.* An owner of a brand name used during March 1942 who after August 4, 1943 desires to sell domestic wines of a changed brand description under such brand name shall file a report with the Office of Price Administration, Washington, D. C. Such report shall be on Form 635–369b as set forth at paragraph (e) of this section.

(3) *Time within which reports must be filed.* The reports required to be filed under paragraph (c) shall be filed at least 20 days before the brand owner offers for sale, sells or delivers the commodity for which the report is required.

(d) *Explanations and definitions*—(1) *Explanations.* (i) Each report required by this section shall contain the information and be on the form required under the applicable paragraph thereof. Forms for reports are available at regional and district offices of the Office of Price Administration, or at its principal office in Washington, D. C. Duplicate copies of reports are not required and a report once properly made need not be repeated.

(ii) The brand description required by this section for domestic wines shall be as follows:

(*a*) Class of wine, such as

Grape wine
Citrus wine
Fruit wine
Wine from other agricultural products
Vermouth
Imitation, concentrate or substandard wine

(Unless otherwise designated a brand description using only the word "wine" will be classed as "grape wine" so the words "grape wine" need not be included in the brand description if the word "wine" is used.)

(*b*) Kind of wine, such as

Still wine
Sparkling wine
Carbonated wine

(The brand description must indicate whether a wine is a "sparkling wine" or a "carbonated wine," and any wine not so designated will be considered as a "still wine" so that the words "still wine" need not be included in the brand description.)

(*c*) Type of wine, such as

Sherry	Catawba
Port	Barbera
Muscatel	Zinfandel
Claret	Hock
Chablis	Muscat
Sauterne	Champagne
Concord	Burgundy
Marsalos	Chianti
Madeira	Cabernet
Scuppernong	Riesling
Angelica	Moselle
Tokay	Malaga
Rhine	Haut Sauterne

and in the case of all wines made from fruits, berries and other agricultural products the name of the commodity from which made, such as

Apple	Gooseberry
Blackberry	Loganberry
Currant	Cherry

(*d*) Sub-type designation, such as

Natural	Old fashioned
Dry	Pink
Pale dry	Wild
White	Secco-pio
Red	Wild mountain
Sweet	Light

NOTE: If a vintage designation is used in the brand description it shall be included as part of the type and sub-type description.

(*e*) Appellation of origin, such as

California	Lake Erie Islands
New York State	Livermore Valley
American	Cucamonga Valley
Napa Valley	Georgia

(*f*) Alcoholic content must be stated in the case of wines containing 14 percent or more of alcohol by volume. In the case of wines containing less than 14 percent alcohol by volume the alcoholic content may, but need not, be stated.

(*g*) Where the label or labels used by a brand owner for any particular brand description contain all the information required under this subdivision (ii) the label or labels may be submitted in lieu of a written brand description.

(iii) Neither acceptance by the Office of Price Administration of any report filed under this section, nor its failure to act thereon shall constitute approval of the maximum prices listed by a brand owner in the report.

(2) *Definitions.* For the purposes of this section:

(i) "Owner of a brand name" or "brand owner" means the person such as a vintner, bottler, packer, wholesaler or retailer licensed to use or entitled to exclusive use of the brand name for sales of domestic wines of a particular brand description.

(ii) "Label" or "labels" means the label or labels affixed to the bottle or other unit of sale of domestic wines in accordance with Regulation No. 4 relating to the Labeling and Advertising of Wine, As Amended, issued by the Federal Alcohol Administration.

(iii) A brand name shall be deemed "used" during or at a particular time if domestic wines were then being sold or offered for sale thereunder.

(iv) "Domestic wines" means California Grape Wine as defined in section 2.11, fruit wines, berry wines and grape wines (other than California grape wines) as defined in section 2.15, also citrus wine as defined in Class 4, wine from other agricultural products as defined in Class 6, vermouth as defined in Class 7, imitation and sub-standard wine and concentrates as defined in Class 8 of Regulation No. 4 relating to Labeling and Advertising of Wine, As Amended, issued by the Federal Alcohol Administration.

DRY EDIBLE BEANS, SALES EXCEPT AT WHOLESALE AND RETAIL: GRADE LABELING

A statement of the considerations involved in the issuance of this amendment has been filed with the Division of the Federal Register.*

1. Section 1351.1205 is amended to read as follows:

§ 1351.1205 *Statement of grades in certain cases.* (a) Every country shipper making a sale of dry edible beans in any quantity or container type or size shall state on the invoice, or other document of sale, and if he wishes, he may also state on the container or on a tag or label attached to the container, the "United States Grade" of the dry edible beans being sold. If the state within which the sale is made requires it, he may also state the appropriate "state grade". He shall employ no designation of grade other than "United States grade" or "state grade", as defined in the next paragraph.

(b) When used in this paragraph "United States grade" means the standards and grades of dry edible beans set forth in the "United States standards for Beans" issued by the United States Department of Agriculture. "State grade" means standards and grades promulgated by any State or agency thereof under authority of an act of the State legislature permitting the establishment of such standards and grades.

(c) Nothing in this regulation shall be construed as permitting the shipment in intrastate commerce of any grades of dry edible beans which are prohibited, by the laws of any State, from being so shipped.

This amendment shall become effective August 5, 1943.

Chapter XVIII—Office of Economic Stabilization

Subchapter A—Office of the Economic Stabilization Director

[Regulation 1]

PART 4002—REGULATIONS ON GRADING AND GRADE LABELING

GRADING AND GRADE LABELING OF MEATS

Pursuant to the provisions of the Act of October 2, 1942, entitled "An Act to amend the Emergency Price Control Act of 1942, to aid in preventing inflation, and for other purposes" (Public Law No. 729, 77th Congress, 2d Session), Executive Order No. 9250, dated October 3, 1942, and Executive Order No. 9328, dated April 8, 1943, and in order to prevent the breakdown of existing price controls essential to stabilization of the cost of living and to aid in the effective prosecution of the war by preventing dislocations in the distribution of meat and meat products, the following regulation is hereby issued:

Sec.
4002.1 Prohibition against dealing in or storing meat unless graded and grade marked.
4002.2 Duty to maintain and identify grades of beef and veal.
4002.3 Duty to maintain and identify grades of lamb and mutton.
4002.4 Provisions applicable to sellers of beef, veal, lamb or mutton at retail.
4002.5 Enforcement.
4002.6 Definitions.
4002.7 Effective date.

AUTHORITY: §§ 4002.1 to 4002.7, inclusive, issued under E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

§ 4002.1 *Prohibition against dealing in or storing meat unless graded and grade marked.* No person shall sell, offer to sell, ship, deliver, store or retain in his possession and no person in the course of trade or business shall buy or receive any beef, veal, lamb or mutton unless such beef, veal, lamb or mutton has been graded and grade marked in the manner required by this regulation; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

§ 4002.2 *Duty to maintain and identify grades of beef and veal.* No person shall sell, offer to sell, ship, deliver or break, and no person in the course of trade or business shall buy or receive any beef carcass or wholesale cut or veal carcass or wholesale cut unless each such carcass and wholesale cut has been identified by grade in accordance with the provisions of this section. No custom slaughterer shall ship, deliver or break and no person shall receive or accept any beef carcass or wholesale cut or veal carcass or wholesale cut unless such carcass and wholesale cut has been identified by grade in accordance with the provisions of this section. Each person shall maintain uniform grades, as specified in paragraph (a) of this section; shall determine his maximum prices for beef and veal pursuant to Revised Maximum Price Regulation No. 169, Beef and Veal Carcasses and Wholesale Cuts,[1] upon the basis of such uniform grades rather than upon the basis of his own grades, as provided in paragraph (b) of this section; and shall have his products identified by grade designations, as provided by paragraph (c) of this section.

(a) *Uniform grades.* (1) Beef carcasses and the wholesale cuts therein contained derived from steers, heifers and cows shall be graded into the following uniform grades: choice, good, commercial, utility, cutter and canner; except, that no cow carcass or wholesale cut shall be graded choice. Beef carcasses and wholesale cuts derived from bulls and stags shall be graded in the same manner, except that no bull carcass or wholesale cut shall be graded choice or good, and no stag carcass or wholesale cut shall be graded choice. In determining the grade of each beef carcass, the "Specifications for Official United States Standards for Grades of Carcass Beef"[2] set forth in § 1364.528 of Revised Maximum Price Regulation No. 169, Beef and Veal Carcasses and Wholesale Cuts, and incorporated herein by reference, shall be used and the grade of such carcass shall apply to each wholesale cut derived therefrom, except that the specifications therein for the two grades, prime and choice, shall be combined and treated as a single grade, choice, and the specifications therein for the two grades cutter and canner shall be combined and treated as a single grade.

(2) Veal carcasses and the wholesale cuts therein contained shall be graded into the following uniform grades: Choice, good, commercial, utility and cull. In determining the grade of each such carcass the "Specifications for Official United States Standards for Grades of Veal and Calf Carcasses"[3] set forth in § 1364.529 of Revised Maximum Price Regulation No. 169, and incorporated herein by reference, shall be used and the grade of such carcass shall apply to each wholesale cut derived therefrom, except that the specifications therein for the two grades, prime and choice, shall be combined and treated as a single grade, choice.

(b) *Duty to determine maximum prices on the basis of uniform grades.* The word "grade" as used in this section means any uniform grade referred to in paragraph (a) of this section and shall not be construed to mean the private grade of an individual seller.

Irrespective of the private grading system heretofore used by the seller, it shall be the duty of the seller, except as provided in paragraph (c) (3) to have classified into the uniform grades provided for in paragraph (a) of this section, by an official grader of the United States Department of Agriculture, the beef carcasses and beef wholesale cuts of cattle and the veal carcasses and veal wholesale cuts of calves slaughtered by the seller or sold by the seller, and then to determine the maximum price for each grade of beef carcass and beef wholesale cut by reference to §§ 1364.451 and 1364.452 of Revised Maximum Price Regulation No. 169 and for each grade of veal carcass and veal wholesale cut by reference to §§ 1364.466 and 1364.467 of Revised Maximum Price Regulation No. 169.

(c) *Duty to identify products by grade marks.* (1) No person shall sell, offer to sell, ship, deliver or break any beef or veal carcass unless a stamp has been placed thereon with harmless marking fluid conforming to the formula for violet branding fluid approved by the United States Department of Agriculture, Bureau of Animal Industry, set forth in § 1364.526 of Revised Maximum Price Regulation No. 169, and incorporated herein by reference, marking the appropriate grade letter, as hereinafter designated, in such manner as to identify by such letter the uniform grade of each beef wholesale cut or veal wholesale cut which may be derived from the carcass, except that in the case of a calf or veal carcass sold with the skin on, the grade letter shall be stamped only on the shanks and briskets. The purchaser of a calf or veal carcass with the skin on shall not sell, offer to sell, ship or break such carcass after removal of the skin unless a stamp has been placed thereon, marking the appropriate grade letter, as hereinafter designated, in such manner as to identify by such letter the uniform grade of each veal wholesale cut which may be derived from such carcass.

The term "bull" or "stag" as the case may be shall be similarly stamped on all bull and stag carcasses and wholesale cuts. The grade and prescribed sex identification of each beef carcass and wholesale cut and veal carcass and wholesale cut must appear on the seller's invoice.

(2) The appropriate grade letter for each uniform grade shall be as follows:

Beef grade	Grade letter	Veal grade
Choice	AA	Choice.
Good	A	Good.
Commercial	B	Commercial.
Utility	C	Utility.
Cutter and Canner	D	Cull.

The grade letter shall be at least ½ inch in height and width. In stamping any beef or veal carcass determined by an official grader of the United States Department of Agriculture to conform to the grade standards contained in Revised Maximum Price Regulation No. 169, such official grader may use the grade designations U. S. choice or choice, U. S. good or good, U. S. commercial or commercial, U. S. utility or utility, U. S. cutter or cutter, U. S. canner or canner, U. S. cull or cull, whichever is appropriate, in lieu of the grade letters established in the subparagraph.

(3) (i) No person shall sell, offer to sell, ship, deliver or break any beef or veal carcass irrespective of grade unless such carcass has been examined and graded by an official grader of the United States Department of Agriculture in accordance with the "Rules and Regulations of the Secretary of Agriculture Governing the Grading and Certification of Meats, etc."[4] as modified to the extent set forth in § 1364.527 of Revised Maximum Price Regulation No. 169, which is incorporated herein by reference, and unless a stamp has been placed upon such carcass by such official grader in the manner set forth in paragraph (c) (1) of this section: *Provided,* That in any instance where any person is unable to procure the services of an official grader within 24 hours after such person has made an application for grading, pursuant to section 3 of Regulation No. 4 (Grading Service) contained in § 1364.527 of Revised Maximum Price Regulation No. 169, then the provisions of this subparagraph shall not apply, for so long a period as the Food Distribution Administration of the United States Department of Agriculture certifies in writing that it is unable to provide such person with the services of an official grader. During such period such beef and veal carcasses shall be graded by the slaughterer in the manner provided in paragraphs (a), (b), (c) (1) and (c) (2) of this section.

(ii) If the slaughterer is a farm slaughterer or if he is primarily the resident operator of a farm engaging only casually, and not as a business, in slaughtering cattle or calves as a service for others, he shall not be required to have the cattle or calves slaughtered by him graded by an official grader of the United States Department of Agriculture. Such beef or veal as is sold by such slaughterer or is slaughtered by him as a service for sale by others shall be graded by him in accordance with the requirements of paragraphs (a), (b), (c) (1) and (c) (2) of this section.

"Farm slaughterer" as used in this subparagraph (c) (3) (ii) and in § 4002.3, (c), means a person chiefly engaged in producing agricultural products as the resident operator of a farm, who did not deliver meat in 1941 of a live weight of more than 10,000 pounds and whose current slaughter is not in excess of that permitted such slaughterers under Food Distribution Order No. 27[5] or any superseding order.

(4) Whenever any person having a financial interest in any beef or veal carcass which has been graded and grade stamped by an official grader pursuant

to paragraph (c) (3) hereof or otherwise, is dissatisfied with the determination of such official grader, such person may appeal the grading and grade stamping by making an application for appeal grading in the manner provided in Regulation No. 5 (Appeal grading) contained in § 1364.527 of Revised Maximum Price Regulation No. 169, and shall thereafter give immediate notice in writing to the Office of Price Administration at Washington, D. C., of such appeal.

(d) *Use of other grading and branding systems.* Any seller may use a private grading and branding system in addition to that required by the foregoing paragraphs of this section: *Provided*, That he shall identify his private grading and branding system in such manner as to distinguish it from the official grade stamp as required by paragraph (c) of this section.

§ 4002.3 *Duty to maintain and identify grades of lamb and mutton.* No person shall sell, offer to sell, ship, deliver or break and no person in the course of trade or business shall buy or receive any lamb or mutton carcass or cut unless it has been identified by grade and marked in accordance with the provisions of this section. Each person shall maintain uniform grades, as specified in paragraph (a) of this section; shall determine his maximum prices for lamb and mutton pursuant to Revised Maximum Price Regulation No. 239, Lamb and Mutton Carcasses and Cuts at Wholesale and Retail,[6] upon the basis of such uniform grades rather than upon the basis of his own grades; and shall have his products identified by grade designations, as provided by paragraph (a) of this section.

(a) Except as otherwise provided in paragraphs (b) and (c) of this section, it shall be the duty of each person to have all lambs, including yearlings, and all sheep slaughtered by or for him, or sold by him, classified by an official grader of the United States Department of Agriculture in accordance with the "Rules and Regulations of the Secretary of Agriculture Governing the Grading and Certification of Meats, etc.", (§ 1364.527, Revised Maximum Price Regulation No. 169). Each carcass shall be classified into one of the grades set out in Column I below and marked with harmless marking fluid with the grade designation set out in Column II, if classified by an official grader, or the grade letter set out in Column III, such grade letter to be at least ½ inch in height and width, if classified by anyone other than an official grader pursuant to paragraph (b) of this section. Where the grade designation set out in Column II is stamped on the carcass, there shall also be stamped the word "yearling" if the carcass being graded is that of a yearling, and the word "mutton" if that of a mature sheep. The carcass shall be marked in such a manner as to result in each wholesale cut being identified by grade.

The "Specifications for Official United States Standards for Grades of Lamb Carcasses, Yearling Mutton Carcasses" set forth in § 1364.185 of Revised Maximum Price Regulation No. 239, Lamb and Mutton Carcasses and Cuts at Wholesale and Retail, and incorporated herein by reference, determine the proper classification of each carcass, except that no mutton buck may be graded higher than commercial.

The harmless marking fluid used in marking the carcass shall conform to the formula for violet branding fluid approved by the United States Department of Agriculture, Bureau of Animal Industry, set forth in § 1364.526 of Revised Maximum Price Regulation No. 169.

(b) In any instance where any person is unable to procure the services of an official grader within 24 hours after such person has made an application for grading, pursuant to section 3 of Regulation No. 4 (Grading Service) (§ 1364.-527, Revised Maximum Price Regulation No. 169), then such person shall not be required to have the lamb or sheep slaughtered by, or for him, or sold by him, graded by an official grader of the United States Department of Agriculture for so long a period as the Food Distribution Administration of the United States Department of Agriculture certifies in writing that it is unable to provide such person with the services of an official grader. During such period, such lamb or mutton carcasses shall be graded by such person in accordance with the requirements of paragraph (a) of this section.

(c) If the slaughterer is a farm slaughterer or if he is primarily the resident operator of a farm engaging only casually, and not as a business, in slaughtering sheep or lamb as a service for others, he shall not be required to have the lamb or sheep slaughtered by him graded by an official grader of the United States Department of Agriculture. Such lamb or mutton as is sold by such slaughterer, or is slaughtered by him as a service for sale by others, shall be graded by him in accordance with the requirements of paragraph (a) of this section.

(d) Whenever any person having a financial interest in any lamb or mutton carcass which has been graded and grade stamped by an official grader pursuant to paragraph (b) hereof or otherwise, is dissatisfied with the determination of such official grader, such person may appeal the grading and grade stamping by making an application for appeal grading in the manner provided in Regulation No. 5 (Appeal grading) contained in § 1364.527 of Revised Maximum Price Regulation No. 169, and shall thereafter give immediate notice in writing to the Office of Price Administration at Washington, D. C., of such appeal.

(e) *Use of other grading and branding systems.* Any person may use a private grading and branding system in addition to that required by the foregoing paragraphs of this section: *Provided*, That he shall identify his private grading and branding system in such manner as to distinguish it from the grade stamp required by paragraphs (a), (b) and (c) of this section.

(f) Each invoice, sales slip or other memorandum of sale covering sales of lamb or mutton carcasses, wholesale cuts or hotel supply cuts shall show the grade and age classification of each lamb or mutton carcass or cut sold.

§ 4002.4 *Provisions applicable to sellers of beef, veal, lamb or mutton at retail.* No retail seller shall sell, offer to sell, deliver, store or retain in his possession any beef, veal, lamb or mutton unless such beef, veal, lamb or mutton has been graded, grade marked and/or designated as hereinafter set forth:

(1) All carcasses and wholesale cuts of beef, veal, lamb and mutton must be graded and must have a mark showing the grade on them, in accordance with §§ 4002.2 (c) (2) and 4002.3 (a). No retail seller shall have in his store refrigerator, cooler or warehouse any meat which does not have the grade name or mark stamped on each wholesale cut.

(2) If any retail seller slaughters the animal himself, he shall have it graded and marked before the carcass is broken in the manner provided by § 4002.2, in the case of beef and veal, and § 4002.3, in the case of lamb and mutton.

(3) No retail seller shall remove the grade mark from any carcass, wholesale cut or retail cut, nor shall he put different grades of meat together in a showcase.

(4) Each grade of meat which shall have been separated in the showcase as required in (3) above, shall be designated by the appropriate official grade, so that customers can see and read it.

(5) Upon request by any customer, the retail seller shall give such customer a receipt showing the date, the retail seller's name and address, the name, weight, and grade of each retail cut sold.

§ 4002.5 *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties provided by section 11 of the Act of October 2, 1942, entitled "An Act to amend the Emergency Price Control Act of 1942, to aid in preventing inflation, and for other purposes" and to all other actions, proceedings and penalties provided by law.

§ 4002.6 *Definitions.* (a) When used in this regulation, the term:

(1) "Person" means any individual, corporation, partnership, association or other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any agency of any of the foregoing: *Provided*, That no punishment shall apply to the United States or to any such government, political subdivision or agency.

(2) "Beef," "beef carcass," "beef wholesale cut," "veal," "veal carcass," and "veal wholesale cut" shall have the same meaning ascribed by Revised Maximum Price Regulation No. 169, Beef and Veal Carcasses and Wholesale Cuts.

(3) "Lamb," "yearling lamb," "mutton," "lamb cut," "cut," and "wholesale cut" shall have the same meaning ascribed by Revised Maximum Price Regulation No. 239, Lamb and Mutton Carcasses and Cuts at Wholesale and Retail.

(4) "Sales at retail" means sales to the ultimate consumer: *Provided*, That no wholesaler, processor, packer, slaughterer, branch house, car-route, hotel supply house, commercial user, purveyor of meals, war procurement agency or other government agency shall be deemed to be an ultimate consumer, except that a sale to a purveyor of meals on usual retail terms by a retailer at least 80 percent of whose sales of meat during the preceding calendar month were made to ultimate consumers shall be deemed a sale at retail.

(5) "Retail seller" means a person regularly and generally engaged in making sales at retail.

(6) "Retail meat cut" shall have the same meaning ascribed by Maximum Price Regulation No. 355, Retail Ceiling Prices for Beef, Veal, Lamb and Mutton Cuts and All Variety Meats and Edible By-Products.[7]

(b) Unless the context otherwise requires, other terms used herein:

Applicable to beef and veal shall be subject to the definitions set forth in Revised Maximum Price Regulation No. 169, Beef and Veal Carcasses and Wholesale Cuts;

Applicable to lamb and mutton shall be subject to the definitions set forth in Revised Maximum Price Regulation No. 239, Lamb and Mutton Carcasses and Cuts at Wholesale and Retail; and

Applicable to retail sellers shall be subject to the definitions set forth in Maximum Price Regulation No. 355, Retail Ceiling Prices for Beef, Veal, Lamb and Mutton Cuts and All Variety Meats and Edible By-Products.

§ 4002.7 *Effective date.* This Regulation No. 1 shall become effective August 5, 1943.

Issued this 5th day of August 1943.

TITLE 46—SHIPPING

Chapter IV—War Shipping Administration

[General Order 36[1]]

PART 301—GENERAL REGULATIONS

REPAIRS AND OTHER WORK ON MERCHANT VESSELS

It appears that in many instances arrangements for repairs to and other work on merchant vessels are being made between contractors and owners or managing agents, and that such vessels are being placed in yards without consultation with or notification of the Office of The Coordinator for Ship Repair and Conversion. This serves to nullify the intent and purpose of the Coordinator's office, namely, the fullest utilization of repair facilities of the United States in prosecuting the war to a successful conclusion. In addition, it now appears desirable for the Coordinator's office to obtain certain information concerning the volume of work performed under subcontract, to determine the need for additional repair facilities in the several ports.

Accordingly, pursuant to the authority vested in me by Executive Order 9054, as amended, I hereby order and direct, That:

§ 301.21 *Scope of regulations.* All owners, managing agents, vessel repair yards and contractors, British Ministry of War Transport, and Local and District Managers of the Maintenance and Repair Division of the War Shipping Administration shall arrange for or perform repairs to and other work on merchant vessels in accordance with the following regulations (§§ 301.22 through 301.24).

§ 301.22 *Allocation of vessel by Coordinator for Ship Repair and Conversion.* Except under circumstances of extreme emergency, no merchant vessel shall be placed in or at water-side facilities of a contractor for repairs or other work until allocation of said vessel to such contractor has been approved by the Office of the Coordinator for Ship Repair and Conversion.

§ 301.23 *Extreme emergency repairs or work and reports.* Repairs or other work effected by contractors without water-side facilities, effected on loading berths, in the stream, or at other locations away from the site of the contractor's water-side facilities, or performed in or at water-side facilities under conditions of extreme emergency, need not be previously allocated by the Coordinator's office. In all such cases, the owner, managing agent, representative of the British Ministry of War Transport, or Local or District Manager, concerned therewith shall report in writing to the Coordinator, with a copy to the Executive Manager, Maintenance & Repair Division, War Shipping Administration, 45 Broadway, New York City, listing the name of the vessel, contractor, type of work, estimated cost, starting and estimated or actual completion date of the repairs or other work, within 5 days after allocation thereof.

§ 301.24 *Reports of repairs or other work effected by subcontract.* All ship repair contractors shall report weekly, within 5 days after the end of each calendar week, all repair or other work on merchant vessels effected on a subcontract basis, listing the name of the vessel, subcontractor, type of work, estimated cost, and starting and estimated or actual completion date. The report shall be submitted to the local office of the Coordinator, with a copy to the Executive Manager, Maintenance and Repair Division, War Shipping Administration, 45 Broadway, New York City.

PART 305—INSURANCE

MISCELLANEOUS AMENDMENTS

Pursuant to the authority contained in the Act approved June 29, 1940 (54 Stat. 689), as amended, and Executive Order 9054, February 7, 1942 (7 F.R. 837), General Order 6, Revised, is amended and supplemented as follows:

Effective with the date of the opening of the New York City Cargo Underwriting Office, § 305.2 *Submission of risks*, § 305.4 *Quotation of rate*, and § 305.9 *Issuance of facultative policy*, are amended by striking out in each respectively the words and figures "at room 4089, Commerce Building, Washington, D. C." and inserting in lieu thereof the words and figures "at Room 915, 99 John Street, New York 7, N. Y."

Section 305.12 *Special rules* is clarified by adding at the end thereof:

(g) No return of premium for any reason will be allowed where the amount of the return premium involved is less than $100.00 or unless amounting to 10 percent or more of the original premium in respect to any facultative cargo war risk insurance.

Section 305.22 *Form of facultative policy* as published in General Order 6, Revised, is amended by striking out all material of the form appearing from the beginning thereof to the first numbered clause and inserting in lieu thereof the following:

UNITED STATES OF AMERICA

WAR SHIPPING ADMINISTRATION

Warshipcargo Policy

This policy of insurance witnesseth that in consideration of a premium as shown above, receipt of which is hereby acknowledged, the War Shipping Administration hereby insures, in accordance with applicable provisions of Law:

------- for account of whom it may concern.
Upon ----------
----------, identified as set forth below
In the sum of ---------- dollars
At and from ---------- to ----------
Warranted goods shipped and in transit on or before midnight of the 30th consecutive calendar day from and including the effective date of this policy. Any loss payable hereunder shall be payable in funds current in the United States, to ---------- or order, upon surrender of this Policy, thirty days after full proofs of loss and proofs of interest have been filed with the War Shipping Administration.

(For marks, numbers, or other identification of cargo, and special conditions)

If marks, numbers, or other specific identification of cargo are not noted hereon, then, unless otherwise agreed by the War Shipping Administration, the same must be incorporated in an endorsement duly signed by the War Shipping Administration within seven days from the effective date of the policy or prior to the sailing of the vessel from port of loading, whichever last occurs.

Subpart A, Cargo Insurance, is supplemented by adding the following:

§ 305.25 *Establishment of New York City Cargo Underwriting Office.* There is established in the offices of the War Shipping Administration, Division of Wartime Insurance, at 99 John Street, New York 7, N. Y., a cargo unit of the Underwriting Section for the underwriting of cargo war risk insurance. This office is designated the New York City Cargo Underwriting Office and shall perform such functions as may now or hereafter be established in General Order by the War Shipping Administration.

Over-the-Counter Facultative Cargo War Risk Insurance

§ 305.50 *Establishment of an over-the-counter facultative cargo war risk insurance procedure.* Effective with the date of opening of the New York City Cargo Underwriting Office, a new procedure for the underwriting of cargo war risk insurance on a facultative or special risk basis is established. This procedure will be known as the "Over-the-Counter" facultative cargo war risk insurance procedure and unless hereafter announced or otherwise agreed shall be applicable only to insurances negotiated by or through persons, firms or corporations in the metropolitan area of New York City. The procedure hitherto established for the binding of cargo war risk insurance on a facultative or special risk basis as set forth in § 305.3 shall continue to apply to all facultative cargo war risk insurance business negotiated other than as aforesaid.

§ 305.51 *Presentation and receipt of prepared policies.* On request the New York City Cargo Underwriting Office will furnish to applicants for insurance or their representatives sets of blank policies in sufficient quantities for appropriate use. The applicant for insurance will prepare the set of policies so received and must present the same by mail or hand delivery to the New York City Cargo Underwriting Office, as a set, consisting of an original, duplicate-original, and four copies, along with a receipt slip executed in duplicate on the form set forth in § 305.61. When a prepared set (or sets) of policies is (are) received with an accompanying receipt slip, the New York City Cargo Underwriting Office will immediately assign a policy number to each respective risk listed on the receipt slip for which an applicable set of prepared policies has been submitted, and will place on the receipt slip the acknowledged time and date of receipt. The duplicate receipt slip, indicating the time of the acknowledged receipt and the policy number, will be handed back to the person making the delivery, or will be mailed to the address indicated thereon.

§ 305.52 *Payment of premium.* In order to obtain the effective validation of any set of policies (or any set of endorsements for which payment of premium is necessary) as of the time of the acknowledged receipt thereof, payment of sufficient premium at the correct rate for the applicable voyage and conditions of insurance must be received by the New York City Cargo Underwriting Office by means of either a certified check, or a cashier's check or a money order payable to the order of War Shipping Administration prior to the close of business of the second business day following the date of the acknowledged receipt of such set of policies or such set of endorsements as shown by the original receipt slip.

(a) Payment of premium must be made by one check or money order for all policies (and/or endorsements) listed on a single receipt slip, and may be so made by a single check or money order for one or more receipt slips which are acknowledged as having been received on the same day.

(b) The check or money order in payment of premium must be accompanied either by the set of prepared policies or the duplicate acknowledged receipt slip for the purposes of identification.

§ 305.53 *Validation of policies.* When the New York City Cargo Underwriting Office is satisfied that the set of policies is prepared properly and sufficient premium for the applicable voyage and conditions of the insurance has been paid in accordance with the provisions of Sec. 305.52, it will cause the set of policies to be made effective subject to the policy warranties as of the time of the acknowledged receipt thereof as shown by the receipt slip. The original, duplicate-original, and two copies of the validated set of policies will be returned to the person requesting delivery in return for the duplicate receipt slip or such policies will be mailed to the address indicated on the receipt slip.

(a) If proper payment of premium is not made any set of policies submitted may in the discretion of the New York City Cargo Underwriting Office be treated as null, void and of no effect.

§ 305.54 *Correction of policies and validation.* When the New York City Cargo Underwriting Office ascertains that any set of prepared policies contains one or more errors it may return the original, duplicate-original and two copies of the policies together with a rejection slip which will indicate the respects in which the set of policies is required to be corrected.

(a) When the New York City Cargo Underwriting Office is satisfied that sufficient premium for the applicable voyage and conditions of the insurance has been paid in accordance with the provisions of § 305.52 and that all corrections which are indicated to be necessary on the rejection slip are made, and within three business days following the date appearing on the rejection slip, either the original and duplicate-original policies are returned without other changes or a new set of policies embodying no change other than the corrections indicated to be necessary on the rejection slip, is submitted, the policies will be made effective subject to the policy warranties as of the time of the acknowledged receipt thereof as shown by the original receipt slip.

(b) Notwithstanding the foregoing the New York City Cargo Underwriting Office has the right to make any necessary corrections in any set of policies. Any change so made shall be conclusively binding on the applicant for insurance upon acceptance by him of the policy so corrected.

(c) If proper payment of premium is not made any set of resubmitted policies may in the discretion of the New York City Cargo Underwriting Office be treated as null, void and of no effect.

§ 305.55 *Manner of increasing insured amounts.* Whenever a set of endorsements consisting of an original, duplicate-original and two copies is received by the New York City Cargo Underwriting Office, prepared properly on the form set forth in § 305.59, and it is ascertained that sufficient premium for the applicable voyage and conditions of insurance has been paid in accordance with the provisions of § 305.52, such set of endorsements will be made effective subject to its terms and conditions as of the time of its acknowledged receipt as shown by the receipt slip. The original and duplicate-original of the validated set of endorsements will be returned to the person requesting delivery in return for the duplicate receipt slip, or such endorsements will be mailed to the address indicated on the receipt slip.

(a) If a shipment of additional merchandise is the reason for the increased amount insured a description of such additional merchandise must be furnished in writing including specific identification.

§ 305.56 *Manner of extending the transit warranty.* In a proper instance, subject to the provisions of § 305.10 (a), whenever an extension of the time within which the goods are warranted to be shipped and in transit is required, an extension of the transit warranty will be granted provided a set of endorsements, consisting of an original, duplicate-original, and two copies, prepared properly on the form set forth in § 305.60 is presented to the New York City Cargo Underwriting Office. The set of endorsements will be made effective as of the time of its acknowledged receipt by the New York City Cargo Underwriting Office, subject to the regulations set forth in this section, unless otherwise agreed by the War Shipping Administration. The original and duplicate-original of such set of validated endorsements will be returned to the person requesting delivery in return for the duplicate receipt slip, or such endorsements will be mailed to the address indicated on the original receipt slip.

(a) In the instance of the presentation of a set of these endorsements on a date which is more than seven (7) days prior to the then existing expiration date of the transit warranty, the set of endorsements may be returned without further action, or treated as null, void and of no effect by the New York City Cargo Underwriting Office, unless otherwise agreed.

(b) If the correct rate of premium for the applicable voyage and conditions of insurance in effect at the time of the acknowledged receipt of the set of endorsements by the New York City Cargo Underwriting Office is not greater than that by which premium has already been calculated and paid, the set of endorsements will be validated without the requirement of additional premium.

(c) If the correct rate of premium for the applicable voyage and conditions of insurance in effect at the time of the acknowledged receipt of the set of endorsements by the New York City Cargo Underwriting Office is greater than that by which premium has already been calculated and paid, then payment of sufficient additional premium must be made in accordance with the provisions of § 305.52 in order to permit the set of endorsements to be validated as of the time of the acknowledged receipt.

§ 305.57 *Other endorsements.* Whenever it is necessary to endorse the policy with any endorsement other than the Standard Endorsements set forth respectively in § 305.59 and § 305.60, the applicant for insurance or his representative or the policy-holder may request any necessary endorsement by submitting a form of endorsement or sufficient information in the form of a letter. If the New York City Cargo Underwriting Office is satisfied that the request is appropriate and that any additional premium required has been paid in accordance with the provisions of § 305.52, it will validate or prepare the necessary endorsement.

§ 305.58 *Correction of endorsements and validation.* When the New York City Cargo Underwriting Office ascertains that any set of prepared endorsements contains one or more errors it may return the original and duplicate-original, together with a rejection slip which will indicate the respects in which the set of endorsements is required to be corrected.

(a) When the New York City Cargo Underwriting Office is satisfied that sufficient premium for the applicable voyage and conditions of the insurance has been paid in accordance with the provisions of § 305.52 and that all corrections which are indicated to be necessary on the rejection slip are made, and within three business days following the date appearing on the rejection slip, either the original and the duplicate-orginal endorsements are returned without other changes or a new set of endorsements embodying no change other than the corrections indicated to be necessary on the rejection slip, is submitted, the set of endorsements will be made effective according to its terms as of the time of the acknowledged receipt thereof as shown by the original receipt slip.

(b) Notwithstanding the foregoing the New York City Cargo Underwriting Office has the right to make any necessary corrections in any set of endorsements. Any change so made shall be conclusively binding on the applicant for insurance upon acceptance by him of the endorsement so corrected.

(c) If proper payment of premium is not made any set of submitted endorsements may in the discretion of the New York City Cargo Underwriting Office be treated as null, void and of no effect.

§ 305.59 *Standard form of increase endorsement.* Unless otherwise agreed the following is the standard form of increase endorsement.

Endorsement No. -------- to be attached to Cargo War Risk Policy No. -------- issued to ---------- by War Shipping Administration.

In consideration of an additional premium of $--------, the insured amount of the Policy to which this endorsement is attached is increased by the sum of ---------- ($--------) Dollars, and the description of merchandise insured hereunder is amended as set forth below; warranted, however, with respect to the amount of increase only, that the goods to which this Policy is applicable have not become waterborne on an overseas vessel prior to the day and hour this endorsement is effective, or if waterborne prior to that time on any vessel that the goods are on a vessel safe in port at the effective day and hour of this endorsement, or held covered pursuant to the terms and conditions of Clause 12 of the Policy.

It is further warranted that there is no known or reported loss of or damage to said vessel and interest insured at the effective day and hour of this endorsement.

(Amended description of merchandise)

All other terms and conditions remaining unchanged. Effective this -------- day of ---------- 19---- at ------ am pm

For ----------
Director of Wartime Insurance,
War Shipping Administration.

§ 305.60 *Standard form of endorsement for extension of the transit warranty.* Unless otherwise agreed the following is the standard form of Endorsement for Extension of the Transit Warranty:

Endorsement No. -------- to be attached to Cargo War Risk Policy No. --------, Issued to ---------- by War Shipping Administration. *(In consideration of an additional premium of $--------.)

It is understood and agreed that the transit warranty contained in this policy as originally issued or as amended by endorsement, which requires the goods to which this insurance is applicable to be shipped and in transit on or before a specified time, is hereby amended to permit the goods to be shipped and in transit on or before midnight of the expiration of the 30th consecutive calendar day, (including the effective day of this endorsement) from the effective day of this endorsement, such amendment being subject to the following: That if such goods were, after the expiration of the transit warranty contained in this policy as originally issued, or as amended by endorsement, both placed in transit and waterborne prior to the effective day and hour of this endorsement then it is warranted such goods are on a vessel safe in port on the effective day and hour of this endorsement, or held covered pursuant to the terms and conditions of Clause 12 of the policy.

It is further warranted that there is no known or reported loss of or damage to said vessel and interest insured at the effective day and hour of this endorsement.

All other terms and conditions remaining unchanged. Effective this ------ day of ---------- 19---- at ------ a. m.-p. m.

For ----------
Director of Wartime Insurance,
War Shipping Administration.

§ 305.61 *Receipt slip.* The following is the form of receipt slip which will be acceptable for use in connection with the submission of prepared policies or endorsements to the New York City Cargo Underwriting Office:

§ 305.62 *Office hours.* For the purposes of payment of premium and issuance of validated policies or endorsements the New York City Cargo Underwriting Office will regard 4:00 P. M., E. W. T. as the time of closing of the business day unless otherwise specially agreed.

§ 305.63 *Applicability of other sections of General Order No. 6, Revised.* All sections of General Order No. 6, Revised, as supplemented, dealing with facultative cargo war risk insurance, insofar as the same are not in conflict with §§ 305.50 through 305.64 for providing facultative cargo war risk insurance on an over-the-counter basis, shall be deemed applicable to the underwriting of facultative cargo war risk insurance by the New York City Cargo Underwriting Office. In no event, however, shall the provisions in respect to a special guarantee deposit account apply to the writing of facultative cargo war risk insurance on an over-the-counter basis by the New York City Cargo Underwriting Office.

§ 305.64 *Powers of the New York City Cargo Underwriting Office.* The Director of Wartime Insurance, or his representative duly authorized by a written directive, may waive strict compliance with any regulation for procuring facultative cargo war risk insurance to the extent that he may determine that such waiver is not contrary to the purposes of the statute under which such insurance is provided or to the interests of the War Shipping Administration. In any determination as aforesaid the decision of the Director of Wartime Insurance or his duly authorized representative shall be conclusive upon all parties thereto.

Subpart A, Cargo Insurance, Open Policy Cargo War Risk Insurance, is supplemented by adding the following:

§ 305.153 *Automatic reinstatement endorsement.* Effective with the day of the publication hereof the following clause shall automatically be made a part of each Warshipopencargo Policy which attached prior to January 30, 1943, unless written or telegraphic notice to the contrary is received by the War Shipping Administration, Division of Wartime Insurance, from the policyholder within thirty (30) days from the date of the publication hereof:

It is understood and agreed that in the event prior to January 30, 1943 this policy became void through failure of the policyholder to maintain a sufficient collateral deposit or surety bond but such voidance has not become known to the policyholder prior to the date of the publication of this clause in the FEDERAL REGISTER, this policy shall be deemed automatically reinstated as of January 30, 1943 with respect to all shipments:

(a) Under ocean bills of lading dated on or after January 30, 1943, or

(b) If ocean bills of lading are not issued under equivalent shipping documents dated on and after said date, or

(c) If no ocean bills of lading or equivalent shipping documents are issued or the same are undated, laden on overseas vessel on or after such date.

With respect to shipments other than as aforesaid the reinstatement shall only become effective upon arrival of the insured merchandise at first safe port (other than port of final destination) subsequent to January 30, 1943.

In consideration of the reinstatement of this policy as aforesaid it is understood and agreed that with respect to insurances so reinstated the policy-holder waives any claim which might otherwise arise for return of premium by reason of the voidance of said policy and admits liability for all premium payments which would have been due under this policy with respect to such shipments if the breach of warranty had not arisen.

All other terms and conditions remaining unchanged.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter A—General Rules and Regulations

[Service Order 135, Amdt. 1]

PART 95—CAR SERVICE

DEMURRAGE CHARGE AT MEXICAN BORDER POINTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 5th day of August, A. D. 1943.

Upon further consideration of the provisions of Service Order No. 135 (8 F.R. 9569-70) of July 10, 1943, and good cause appearing therefor:

It is ordered, That Service Order No. 135 (8 F.R. 9569-70) be, and it is hereby, amended to read as follows:

§ 95.502 *Demurrage charge at Mexican border points.* (a) After expiration of the free time allowed by tariffs lawfully on file with this Commission on interstate or foreign shipments in carloads originating at points in, or moving through, the United States and destined to points in Mexico the demurrage charges at Brownsville, Texas; Calexico, California; Cantu, California; Division, California; Douglas, Arizona; Eagle Pass, Texas; El Paso, Texas; Laredo, Texas; Naco, Arizona; Nogales, Arizona; Presidio, Texas; and San Ysidro, California; on such carload shipments shall be $5.50 per car per day or fraction thereof, for each of the first two (2) days, and shall be $22.00 per car per day or fraction thereof, for each succeeding day.

(b) *Average agreements.* Carload shipments from and to the points set forth in paragraph (a) of this section shall not be included in any average agreement at named border points.

(c) *Tariff provisions suspended.* The operation of all tariff rules, regulations, or charges insofar as they conflict with the provisions of paragraphs (a) and (b) of this section is hereby suspended.

(d) *Announcement of suspension.* Each railroad, or its agent, on or before the effective date of this order, and upon not less than one day's notice to the Commission and the public, shall file and post a supplement to each of its tariffs affected hereby, substantially in the form authorized in Rule 9 (k) of Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of the operation of any of the provisions therein, and establishing the substituted provisions above set forth. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, That this order shall become effective at 12:01 a. m., August 6, 1943, and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

PART 95—CAR SERVICE

SHIPMENT OF GRAVEL TO FOSTERS OR SHREVEPORT, LA.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 5th day of August, A. D. 1943.

It appearing, that shipments of gravel in carloads originating at points in Arkansas and Louisiana and destined to Fosters or Shreveport, Louisiana, or any other point near Shreveport, for use at Barksdale Field are being weighed on railroad track scales, thus impeding the use, control, supply, movement, and distribution of cars; in the opinion of the Commission an emergency exists requiring immediate action to avoid a shortage of equipment and congestion of traffic:

It is ordered, That Service Order No. 139, (8 F.R. 10774) be, and it is hereby, amended to read as follows:

§ 95.21 *Carloads of gravel destined to Fosters or Shreveport, Louisiana, or any other point near Shreveport, for use at Barksdale Field, not to be weighed.* (a) No common carrier by railroad subject to the Interstate Commerce Act shall weigh or permit to be weighed any shipment of gravel in carloads, on any railroad track scales when such traffic originates on or after the effective date of this order at any point or points in Arkansas or Louisiana and is destined to Fosters or Shreveport, Louisiana, or any point near Shreveport, for use at Barksdale Field, except that a limited number of cars may be weighed as is necessary to obtain average weights. The operation of all tariff rules or regulations insofar as they conflict with the provisions of this order is hereby suspended.

(b) *Announcement of suspension.* Each of such railroads shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, That this order shall become effective at 12:01 A. M., August 6, 1943, and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the Act are issued under section 14 thereof and § 522.5 (b) of the Regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective August 2, 1943.

The employment of learners under these Certificates is limited to the terms and conditions as designated opposite the employer's name. These Certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the Regulations and as indicated on the Certificate. Any person aggrieved by the issuance of the Certificates may seek a review or reconsideration thereof.

FRUIT AND VEGETABLE PACKING AND FARM PRODUCTS ASSEMBLING INDUSTRY

NOTICE OF HEARING ON MINIMUM WAGE RECOMMENDATION

Notice of hearing on the minimum wage recommendation of Industry Committee No. 62 for the Fruit and Vegetable Packing and Farm Products Assembling Industry, to be held August 26, 1943.

Whereas the Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to section 5 (b) of the Fair Labor Standards Act of 1938, on July 2, 1943, by Administrative Order No. 202, appointed Industry Committee No. 62 for the Fruit and Vegetable Packing and Farm Products Assembling Industry, composed of an equal number of representatives of the public, employers in the Industry and employees in the Industry, and on July 15, 1943, by Administrative Order No. 206 enlarged the Committee by appointing nine additional members, likewise equally representative of the public, employers, and employees in the Industry, all of such representatives having been appointed with due regard to the geographical regions in which the Industry is carried on; and

Whereas Industry Committee No. 62, on July 27, 1943, recommended a minimum wage rate for the Fruit and Vegetable Packing and Farm Products Assembling Industry and duly adopted a report containing such recommendation and reasons therefor and filed such report with the Administrator on July 30, 1943, pursuant to section 8 (d) of the Act and § 511.19 of the regulations issued under the Act; and

Whereas the Administrator is required by section 8 (d) of the Act, after due notice to interested persons and giving them an opportunity to be heard, to approve and carry into effect by order the recommendation of Industry Committee No. 62 if he finds that the recommendation is made in accordance with law and is supported by the evidence adduced at the hearing, and, taking into consideration the same factors as are required to be considered by the Industry Committee, will carry out the purposes of section 8 of the Act; and, if he finds otherwise, to disapprove such recommendation;

Now, therefore, notice is hereby given that:

I. The recommendation of Industry Committee No. 62 is as follows:

Wages at a rate of not less than 40 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the Fruit and Vegetable Packing and Farm Products Assembling Industry (as defined in Administrative Order No. 202) who is engaged in commerce or in the production of goods for commerce and is not exempt under section 13 (a) of the Act.

II. The definition of the Fruit and Vegetable Packing and Farm Products Assembling Industry as set forth in Administrative Order No. 202, issued July 2, 1943, is as follows:

The assembling and preparing for market of fresh fruits and vegetables, and other farm and related products (including wild and domesticated animals other than those assembled for processing into food for human or animal consumption).

a. It includes, but without limitation:

(1) The packing of fresh fruits and vegetables; the shelling of nuts; the ginning and compressing of cotton; the retting and decorticating of flax and other vegetable fibers; and other similar operations performed on farm and related products.

(2) The gathering or collecting of wild berries, plants, flowers, gums, saps, seeds and other forms of wild plant or animal life.

(3) "The leaf processing branch of the Cigar Industry" as defined in the wage order for the Cigar Industry.

b. *Provided, however,* This industry does not include:

(1) the assembling of fresh fruits and vegetables or other farm and related products when performed in a marketing or wholesaling establishment which does no preparing for market within the meaning of this definition and which receives directly from gatherers of non-cultivated products or from farmers products constituting less than one-half of all products handled; (2) logging; (3) public warehousing of commodities other than cotton; (4) any product included in the Canned Fruits and Vegetables and Related Products Industry; Cottonseed and Peanut Crushing Industry; Vegetable Fats and Oils Industry; and Meat, Poultry, and Dairy Products Industry (as defined in Administrative Orders Nos. 182, 189, 190, and 201 respectively), or in the Grain Products Industry and the Tobacco Industry (as defined in the wage orders for such industries).

III. The full text of the report and recommendation of Industry Committee No. 62 is and will be available for inspection by any person between the hours of 9:00 a. m. and 4:00 p. m. at the following offices of the United States Department of Labor, Wage and Hour Division:

Whether the recommendation of Industry Committee No. 62 should be approved or disapproved.

V. Any interested person supporting or opposing the recommendation of Industry Committee No. 62 may appear at the aforesaid hearing to offer evidence, either on his behalf or on behalf of any other person: *Provided,* That not later than August 21, 1943, such person shall file with the Administrator at New York, New York, a notice of his intent to appear which shall contain the following information:

1. The name and address of the person appearing.

2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing.

3. Whether such person proposes to appear for or against the recommendation of Industry Committee No. 62.

4. The approximate length of time requested for his presentation.

Such notice may be mailed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York, and shall be deemed filed upon receipt thereof.

VI. Any person interested in supporting or opposing the recommendation of Industry Committee No. 62 may secure further information concerning the aforesaid hearing by inquiry directed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York, or by consulting with attorneys representing the Administrator who will be available for that purpose at the Office of the Solicitor, United States Department of Labor, in Washington, D. C., and New York, New York.

VII. Copies of the following document relating to the Fruit and Vegetable Packing and Farm Products Assembling Industry will be made available on request for inspection by any interested person who intends to appear at the aforesaid hearing:

Report entitled, "Memorandum to Industry Committee No. 62 for the Fruit and Vegetable Packing and Farm Products Assembling Industry," prepared by the Economics Branch, Wage and Hour and Public Contracts Divisions, United States Department of Labor, July 1943.

VIII. The hearing will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Administrator or Presiding Officer as are deemed appropriate.

1. The hearing shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York.

2. In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and place at which he may offer evidence at the hearing. If such person does not appear at the time set in the notice, he will not be permitted to offer evidence at any other time except by special permission of the Presiding Officer.

3. At the discretion of the Presiding Officer, the hearing may be continued from day to day, or adjourned to a later date, or to a different place by announcement thereof at the hearing by the Presiding Officer or by other appropriate notice.

4. At any stage of the hearing, the Presiding Officer may call for further evidence upon any matter. After the hearing has been closed, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.

5. All evidence must be presented under oath or affirmation.

6. Written documents or exhibits, except as otherwise permitted by the Presiding Officer, must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof.

7. Written documents and exhibits shall be tendered in duplicate and the persons preparing the same shall be prepared to supply additional copies if such are ordered by the Presiding Officer. When evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the Presiding Officer the original document together with two copies of those portions of the document intended to be put in evidence.

8. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing may be issued by the Administrator at his discretion, and any person appearing in the proceeding may apply in writing for the issuance by the Administrator of the subpoena. Such application shall be timely and shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

9. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

10. The rules of evidence prevailing in the courts of law or equity shall not be controlling.

11. The Presiding Officer may, at his discretion, permit any person appearing in the proceeding to cross-examine any witness offered by another person insofar as is practicable, and to object to the admission or exclusion of evidence by the Presiding Officer. Requests for permission to cross-examine a witness offered by another person and objections to the admission or exclusion of evidence shall be stated briefly with the reasons for such request or the ground of objection relied on. Such requests or objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the Presiding Officer. Objections to the approval of the Committee's recommendation and to the promulgation of a wage order based upon such approval must be made at the hearing before the Presiding Officer.

12. Before the close of the hearing, written requests shall be received from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matter in issue. If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceedings and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.

13. Briefs (12 copies) may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

14. On the close of the hearing, a complete record of the proceedings shall be filed with the Administrator. No intermediate report shall be filed unless so directed by the Administrator. If a report is filed it shall be advisory only and have no binding effect upon the Administrator.

15. No order issued as a result of the hearing will take effect until after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER.

Signed at New York, New York, this 2d day of August, 1943.

L. METCALFE WALLING,
Administrator.

MEAT, POULTRY, AND DAIRY PRODUCTS INDUSTRY

NOTICE OF HEARING ON MINIMUM WAGE RECOMMENDATION

Notice of hearing on the minimum wage recommendation of Industry Committee No. 61 for the Meat, Poultry, and Dairy Products Industry, to be held August 24, 1943.

Whereas the Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to section 5 (b) of the Fair Labor Standards Act of 1938 on June 16, 1943, by Administrative Order No. 201, appointed Industry Committee No. 61 for the Meat, Poultry, and Dairy Products Industry, composed of an equal number of representatives of the public, employers in the Industry and employees in the Industry, such representatives having been appointed with due regard to the geographical regions in which the Industry is carried on; and

Whereas Industry Committee No. 61, on July 13, 1943, recommended a minimum wage rate for the Meat, Poultry, and Dairy Products Industry and duly adopted a report containing such recommendations and reasons therefor and filed such report with the Administrator on July 14, 1943, pursuant to section 8 (d) of the Act and § 511.19 of the regulations issued under the Act; and

Whereas the Administrator is required by section 8 (d) of the Act, after due notice to interested persons and giving them an opportunity to be heard, to approve and carry into effect by order the recommendation of Industry Committee No. 61 if he finds that the recommendation is made in accordance with law and is supported by the evidence adduced at the hearing and taking into consideration the same factors as are required to be considered by the Industry Committee, will carry out the purposes of section 8 of the Act; and, if he finds otherwise, to disapprove such recommendation;

Now, therefore, notice is hereby given that:

I. The recommendation of Industry Committee No. 61 is as follows:

Wages at a rate of not less than 40 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the Meat, Poultry and Dairy Products Industry (as defined in Administrative Order No. 201) who is engaged in commerce or in the production of goods for commerce.

II. The definition of the Meat, Poultry, and Dairy Products Industry as set forth in Administrative Order No. 201, issued June 16, 1943, is as follows:

The assembling, processing, and marketing of meat animals and meat animal products, poultry and poultry products, and dairy products.

a. It includes, but without limitation, any product or by-product obtained from livestock, poultry, wild fowl and game (including meats, milk, and eggs) and any other product which is derived from any other form of animal life (such as fish, reptiles, and frogs), and which is assembled, processed or marketed for animal or human consumption.

b. *Provided, however,* That the definition shall not include:

(1) Storing performed by an independent warehouse.

(2) Any product included in the Leather Industry; Drug, Medicine, and Toilet Preparations Industry (as defined in the wage orders for these industries); or in the Canned Fruits and Vegetables and Related Products Industry; and the Chemical, Petroleum and Coal Products, and Allied Manufacturing Industries (as defined in Administrative Orders Nos. 182 and 193 respectively).

The definition of the Meat, Poultry, and Dairy Products Industry covers all occupations in the industry which are necessary to the production of the articles or the operations specified therein including clerical, maintenance, shipping and selling occupations: *Provided, however,* The definition does not cover such clerical, maintenance, shipping and selling occupations (a) when carried on in an establishment or department exclusively engaged in wholesaling or selling, the greater part of the sales of which establishment or department are sales of products which are not included in this industry; and (b) when carried on exclusively in connection with the sale of articles not included in this industry: *And provided, further,* That where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek, unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.

III. The full text of the report and recommendation of Industry Committee No. 61 is and will be available for inspection by any person between the hours of 9:00 a. m. and 5:00 p. m. at the following offices of the United States Department of Labor, Wage and Hour Division:

Copies of the Committee's report and recommendation may be obtained by any person upon request addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York.

IV. A public hearing will be held on August 24, 1943, before the Administrator of the Wage and Hour Division or a representative designated to preside in his place at 10:00 a. m. at the National Headquarters Office, Wage and Hour Division, 165 West 46th Street, New York, New York, for the purpose of taking evidence on the following question:

Whether the recommendation of Industry Committee No. 61 should be approved or disapproved.

V. Any interested person supporting or opposing the recommendation of Industry Committee No. 61 may appear at the aforesaid hearing to offer evidence, either on his behalf or on behalf of any other person; provided that not later than August 18, 1943, such person shall file with the Administrator at New York, New York, a notice of his intent to appear which shall contain the following information:

1. The name and address of the person appearing.
2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing.
3. Whether such person proposes to appear for or against the recommendation of Industry Committee No. 61.
4. The approximate length of time requested for his presentation.

Such notice may be mailed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York, and shall be deemed filed upon receipt thereof.

VI. Any person interested in supporting or opposing the recommendation of Industry Committee No. 61 may secure further information concerning the aforesaid hearing by inquiry directed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York, or by consulting with attorneys representing the Administrator who will be available for that purpose at the Office of the Solicitor, United States Department of Labor, in Washington, D. C. and New York, New York.

VII. Copies of the following document relating to the Meat, Poultry, and Dairy Products Industry will be made available on request for inspection by any interested person who intends to appear at the aforesaid hearing:

Report entitled, "Memorandum to Industry Committee No. 61 for the Meat, Poultry and Dairy Products Industry," prepared by the Economics Branch, Wage and Hour Division, United States Department of Labor, June 1943.

VIII. The hearing will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Administrator or the Presiding Officer as are deemed appropriate.

1. The hearing shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York.
2. In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and the place at which he may offer evidence at the hearing. If such person does not appear at the time set in the notice, he will not be permitted to offer evidence at any other time except by special permission of the Presiding Officer.
3. At the discretion of the Presiding Officer, the hearing may be continued from day to day, or adjourned to a later date, or to a different place by announcement thereof at the hearing by the Presiding Officer or by other appropriate notice.
4. At any stage of the hearing, the Presiding Officer may call for further evidence upon any matter. After the Presiding Officer has closed the hearing before him, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.
5. All evidence must be presented under oath or affirmation.
6. Written documents or exhibits, except as otherwise permitted by the Presiding Officer, must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof.
7. Written documents and exhibits shall be tendered in duplicate and the persons preparing the same shall be prepared to supply additional copies if such are ordered by the Presiding Officer. When evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the Presiding Officer, the original document together with two copies of those portions of the document intended to be put in evidence.
8. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing may be issued by the Administrator at his discretion, and any person appearing in the proceeding may apply in writing for the issuance by the Administrator of the subpoena. Such application shall be timely and shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.
9. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.
10. The rules of evidence prevailing in the courts of law or equity shall not be controlling.
11. The Presiding Officer may, at his discretion, permit any person appearing in the proceeding to cross-examine any witness offered by another person insofar as is practicable, and to object to the admission or exclusion of evidence by the Presiding Officer. Requests for permission to cross-examine a witness offered by another person and objections to the admission or exclusion of evidence shall be stated briefly with the reasons for such request or the ground of objection relied on. Such request or objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the Presiding Officer. Objections to the approval of the Committee's recommendation and to the promulgation of a wage order based upon such approval must be made at the hearing before the Presiding Officer.
12. Before the close of the hearing, the Presiding Officer shall receive written requests from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matter in issue. Those requests will be forwarded to the Administrator by the Presiding Officer with the record of the proceedings. If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceedings, and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.
13. Briefs (12 copies) may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.
14. On the close of the hearing, the Presiding Officer shall forthwith file a complete record of the proceedings with the Administrator. The Presiding Officer shall not file an intermediate report unless so directed by the Administrator. If a report is filed, it shall be advisory only and have no binding effect upon the Administrator.
15. No order issued as a result of the hearing will take effect until after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER.

Signed at New York, New York, this 29th day of July 1943.

L. METCALFE WALLING,
Administrator.

DELEGATION OF POWERS TO REGIONAL OFFICIALS IN DEVELOPMENT OF WAR HOUSING PROJECTS

AUGUST 3, 1943.

The purpose of this section is to set forth the powers and duties, to be exercised in the regional offices in connection with the development of projects undertaken pursuant to the provisions of Pub. Laws 671, 781, and 849, 76th Cong., and Pub. Laws 9, 73, and 353, 77th Cong., as amended.

1. *Regional directors and assistant regional directors.* To regional directors and assistant regional directors there is hereby delegated the power:

a. To execute contracts in any amount whatsoever with respect to the development of projects, except that until further notice the acceptance of options to purchase land or the execution of leases for sites shall be referred to the Central Office for acceptance or execution.

b. To execute or approve contract changes in any amount whatsoever with respect to the development of projects and to act as the representative of the head of the department for the purpose of approving such contract changes when the contract documents require the approval of such contract changes by the head of department or his duly authorized representative.

2. *Regional directors.* To regional directors there is hereby delegated the power:

a. To act as representatives of the head of the department for the purpose of approving the consideration of contractors' requests for extension of time, when contracts permit the waiver by the head of the department or his duly authorized representative of the contractors' failure to notify the Government of the delay within the period of time stated in the contract.

b. To make such findings of need as are required by the provisions of the Lanham Act, (Pub. Law 849, 76th Cong.) with respect to the installation of furniture for family dwellings.

c. Pursuant and subject to the provisions of the First War Powers Act, Executive Orders 9001 and 9116, and the National Housing Administrator's General Order FPHA-7.

(1) To make advance payments to contractors;

(2) To waive requirements of advertising and competitive bidding, to the extent permitted or required by established FPHA policies and procedures.

3. *Regional directors and assistant regional directors for development.* To regional directors and assistant regional directors for development there is hereby delegated the power:

a. To select or approve sites;

b. To grant revocable licenses, permits and easements, and execute appropriate instruments therefor, to facilitate the provision of adequate utility services;

c. To execute appropriate deeds of conveyance or other instruments for the dedication of land acquired for permanent projects only, for necessary streets, alleys, walks or other means of ingress and egress, and utilities;

d. To effectuate, wherever possible, the annexation of project property by political subdivision if necessary to facilitate the extension of adequate public facilities or services, including utilities, to such property.

4. *Regional construction advisers.* To regional construction advisers, there is hereby delegated the power:

a. To approve contract changes of $2,500 or less and to act as representative for head of the department for the purpose of approving contract changes of $2,500 or less when the contract documents require the approval of such changes by the head of the department or his duly authorized representative;

b. To execute contract changes in any amount, subject however to the approval of all contract changes in excess of $2,500, by the regional director or assistant regional directors.

5. *Project engineers.* To project engineers there is hereby delegated the power:

a. To execute contract changes in any amount, subject however to the approval of all contract changes in excess of $500 by the regional director or assistant regional directors, or in case of contract changes of $2,500 or less, subject to the approval of the regional construction adviser;

b. To execute contract changes in the aggregate of $5,000 on any one project if the contract change involves only latent soil, or other conditions covered by Article 4 of the lump sum contract, and to act as representative of the head of the department for the purpose of approving such changes in excess of $500;

c. To approve lump sum subcontracts up to and including $500.

6. *Exercise of authority.* The incumbents of the above-named offices are hereby instructed that they shall exercise the powers delegated to them only in accordance with established FPHA policies and procedures, applicable laws and regulations and within approved budgets, and shall execute documents in their own names.

WHOLESALE FLORISTS OF PHILADELPHIA

RECOMMENDATION OF JOINT ACTION PLAN

Pursuant to a provision of a general order issued by the Office of Defense Transportation for the purpose, among others, of conserving and providently utilizing motor vehicles and vital equipment, materials and supplies (General Order ODT 17, as amended, 7 F.R. 5678, 7694, 9623; 8 F.R. 8278, 8377), S. S. Pennock Co., Callnon Bros., Delaware County Wholesale Florists, Berger Bros., Eugene Bernheimer, Philadelphia Cut Flower Co., and Irvin & Penater, all of Philadelphia, Pennsylvania, have filed with the Office of Defense Transportation for approval an amended joint action plan relating to the transportation and delivery by motor vehicle of flowers and related articles in Philadelphia and vicinity.

The participants in the plan, wholesale florists, deliver flowers and related articles in their own trucks to retailers in Philadelphia and within a 25-mile radius thereof. They propose to eliminate wasteful operations by the pooling of deliveries and the formation of a cooperative association which will perform the delivery service. The cooperative will be able to make all deliveries with 6 or 7 trucks, whereas 15 trucks were formerly operated by the individual participants. Their trucks will be sold, stored, leased to the cooperative, or held in reserve. Operation under the plan will result in estimated savings of 19,000 truck-miles a month. Other wholesale florists of Philadelphia are invited to join in the plan. The plan does not contemplate joint selling activities or exchange of customers.

It appearing that the proposed joint action plan is in conformity with General Order ODT 17, as amended, and that the effectuation thereof will accomplish substantial conservation and efficient utilization of motor trucks and vital materials and supplies, the attainment of which purposes is essential to the successful prosecution of the war, I have approved the plan and recommend that the Chairman of the War Production Board find and certify under section 12 of Public Law No. 603, 77th Congress (56 Stat. 357), that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with said joint action plan, is requisite to the prosecution of the war.

Issued at Washington, D. C., this 2d day of August 1943.

Director,

Regional, State, and District Office Orders.

[S. Dak. Order G-1 Under SR 15]

FIREWOOD IN SOUTH DAKOTA

South Dakota State Office Order No. G-1 under § 1499.75 (a) (1) of Supplementary Regulation No. 15 to the General Maximum Price Regulation. (Formerly Order No. 1.)

The Director of the State Office of the Office of Price Administration for the State of South Dakota has determined upon his own motion that in his judgment the maximum prices established in § 1499.2 of the General Maximum Price Regulation, as amended, for the sale or delivery of firewood are inadequate to insure a sufficient supply of firewood to meet heating requirements in certain areas hereinafter described within the State of South Dakota. The State Director has ascertained and given due consideration to the increased production costs which sellers of firewood within the specified areas of the State of South Dakota must incur in order to produce such firewood compared with the costs of production in March 1942 (and in any earlier months in which firewood was generally produced in the State of South Dakota). He has ascertained and given due consideration to the extent of increased transportation costs which must be incurred by such sellers of firewood in order to move sufficient supplies thereof to meet the requirements of the several affected localities in the State of South Dakota. He has also compared the average selling prices within the areas with the higher maximum prices established in the territory immediately adjacent to these specified areas of South Dakota. He has also considered such other circumstances as may be pertinent to the procurement of sufficient supplies of firewood to meet the requirements of the localities affected.

In the judgment of the State Director the alternative maximum prices established by this order are and will be generally fair and equitable and will adjust maximum prices established in § 1499.2 of the General Maximum Price Regulation, as amended, to the minimum extent necessary to insure a sufficient supply of firewood in these areas of the State of South Dakota.

Therefore under the authority vested in me by Supplementary Regulation No. 15 to the General Maximum Price Regulation, as amended, *It is ordered:*

1. Maximum prices for firewood within the areas hereinafter described, shall be the prices established for such sellers under § 1499.2 of the General Maximum Price Regulation, as amended, or the adjusted prices hereinafter provided in paragraphs 2 and 3 hereof, whichever shall be higher.

2. The adjusted prices for sales and deliveries of firewood in cords or multiples or fractions thereof (or in equivalent quantities expressed in terms of ricks or weights) within that portion of Pennington and Custer Counties lying East of the Eastern boundary lines of the Black Hills and Harney National Forests and the South Dakota State Park shall be as follows:

Body wood cut as furnace wood in 12", 16", 24" lengths	$9.00
Body wood cut in 12", 16", 24" lengths	8.50
Body wood 4' lengths	7.50
Slab wood cut in 12", 16", 24" lengths, 4' lengths	8.00

3. Maximum prices for sales and deliveries of firewood in cords or multiples or fractions thereof (or in equivalent quantities expressed in terms of ricks or weights) for that portion of Pennington and Custer Counties lying west of the

eastern boundary line of and within the area of the Black Hills and Harney National Forests and the South Dakota State Park shall be as follows:

Body wood cut as furnace wood in 12", 16", 24" lengths	$7.00
Body wood cut in 12", 16", 24" lengths	6.25
Body wood cut in 4' lengths	5.50
Slab wood	no adjustment

4. The terms used herein shall have the following meanings:

(a) A standard cord shall be the amount of wood cut in 4 foot lengths which is contained in a space of 128 cubic feet when well ranked and stowed.

(b) A cord of four foot firewood shall contain a standard cord.

(c) A cord of 24-inch firewood shall contain the quantity of 24-inch wood cut from a standard cord but not less than 104 cubic feet of 24-inch wood when compactly piled.

(d) A cord of 16-inch firewood shall contain the quantity of 16-inch wood cut from a standard cord but not less than 96 cubic feet of 16-inch wood when compactly piled.

(e) A cord of 12-inch firewood shall contain the quantity of 12-inch wood cut from a standard cord but not less than 96 cubic feet of 12-inch wood when compactly piled.

5. When firewood shall be sold by weight, such weights shall be computed in accordance with established practice in such a fashion that the price per cwt. shall not exceed the maximum prices per cord established hereunder for each type of wood.

6. A "rick" shall for the purposes of this order and in accordance with standard practices and customs prevailing in the areas affected be ¼ of a standard cord, or its equivalent.

7. Body wood shall consist of dry mixed timber of 3" diameter or greater; and weighing not less than 2600 lbs. per cord.

8. Slab wood shall consist of dry mixed edgings, slashings, branches, roots (but not including sawdust or by-products of mill or forestry operations) used for fuel consumption and weighing not less than 2200 lbs. per cord.

9. Firewood shall mean mixed pine, fir, and hardwood species indigenous to South Dakota.

10. The adjusted prices herein provided for shall be f. o. b. the seller's yard or place of business.

11. Every seller of firewood at retail shall make the necessary changes in its posting of maximum prices for cost-of-living commodities required by section 13 of the General Maximum Price Regulation, as amended, to reflect the increase in the maximum prices for firewood in accordance with the permission granted hereby.

12. This order shall be effective from the date hereof. It is subject to revocation or amendment by the State Director at any time hereafter upon a finding that a shortage of supply of firewood is no longer threatened. This order is further subject to revocation by any price regulation issued hereafter, or by any supplement or amendment hereafter issued as to any price regulation, the provisions of which may be contrary hereto.

GUY HARDING,
State Director.

[No. Calif. Order G-1 Under SR 15]

FIREWOOD IN HUMBOLDT COUNTY, CALIF.

Order No. G-1 under § 1499.75 (a) (1) of Supplementary Regulation 15 to the General Maximum Price Regulation—Firewood. (Formerly Price Order No. 1).

The Director of the Northern California State Office of the Office of Price Administration has determined upon his own motion that in his judgment the maximum prices established under the General Maximum Price Regulation for the sale and delivery of firewood are inadequate to insure a sufficient supply of firewood to meet the heating requirements in Humboldt County, State of California.

The State Director has ascertained and given due consideration to the increased production and distribution costs which sellers of firewood in Humboldt County are now experiencing as compared with the costs of production and distribution generally prevailing in Humboldt County in March 1942. He has given due consideration to the importance of firewood as a source of residential heat in Humboldt County and the necessity of using such firewood for heating purposes as a means of minimizing the use of coal, oil, and other types of heating fuel.

The State Director has given due consideration to the increased demand for labor in defense industries in Humboldt County and the resultant increased demand for firewood that is now being experienced in Humboldt County. He has determined on the necessity of utilizing the waste from lumber mills as a source of firewood so as to minimize the use of labor in furnishing firewood to the residents of Humboldt County.

So far as practicable, the Director has advised and consulted with representative members of the industry which will be affected by this order.

In the judgment of the State Director, the maximum prices established by this order are and will be generally fair and equitable and will adjust maximum prices of firewood established under General Maximum Price Regulation to the minimum extent necessary to insure a sufficient supply of firewood in Humboldt County and will effectuate the purpose of this order.

Therefore, under the authority vested in the State Director by Supplementary Regulation 15 to the General Maximum Price Regulation, this Northern California State Order No. G-1 is hereby issued.

1. *Prohibition against dealing in firewood above maximum prices.* On and after November 14, 1942, regardless of any contract, agreement, or other obligation:

(a) No person shall sell or deliver firewood in Humboldt County at prices higher than the maximum prices established under this order, and

(b) No person in the course of trade or business shall buy or receive firewood in Humboldt County at prices higher than the maximum prices established under this order.

2. *Evasion.* The price limitations set forth in this order No. G-1 shall not be

evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to firewood in Humboldt County, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying agreement or other trade understanding, or otherwise.

Without limiting the generality of the foregoing, the price limitation set forth herein shall not be evaded by improper classification of any item of firewood, splitting of orders into small quantities in order to increase prices, discontinuing or increasing the cost of delivery, or by decreasing or discontinuing cash discounts.

3. *Less than maximum prices.* Lower prices than those set forth in this order No. G–1 may be charged, demanded, paid, or offered.

4. *Maximum prices for sales of firewood in Humboldt County.* The maximum price for each item of firewood shall be the sum of the following items:

(a) The highest net price (after adjustment for all applicable customary charges, discounts, quantity differentials and other allowances) established for the seller under the General Maximum Price Regulation to a purchaser of the same class, and

(b) An amount equal to 20% of said highest net price.

5. *Adjustment of maximum prices for different classes of customers.* If the seller had an established practice in March of 1942 of giving allowances, discounts, or other price differentials, to different classes of purchasers, he is required to continue this practice, and his maximum prices calculated for any type of firewood must be reduced to reflect such allowances, discounts and price differentials. No seller shall change his customary allowances, discounts or other differentials unless such change results in lower prices.

It has been the practice in some instances for lumber mills who sell their waste to wood dealers to require that the employees of the mill be granted a special price. This order stipulates that such practice, if it existed in March 1942, shall continue.

6. *Applicability of maximum prices.* The prices established by this order apply only to sellers selling firewood at wholesale and retail. This order does not apply to mills selling mill waste.

7. *Applicability of the General Maximum Price Regulation.* Except insofar as they are inconsistent, all of the provisions and definitions contained in the General Maximum Price Regulation are incorporated in this order.

8. *New sellers.* Every person engaged in or who proposes to engage in the business of selling firewood at wholesale or retail who was not in such business at his present location in March 1942, and who is not a transferee as described in section 5 of the General Maximum Price Regulation, shall apply to the Northern California State Office of the Office of Price Administration for a method of pricing firewood and shall adhere to the method given him by said Office.

9. *Method of billing of sales of firewood.* Every seller selling firewood in Humboldt County shall on each sale of firewood separately state on the Bill or Invoice his maximum price established under the General Maximum Price Regulation and the increase allowed him under this order.

10. *Affidavits of compliance.* (a) Before any seller of firewood may sell at prices in excess of those established for him under the General Maximum Price Regulation, and avail himself of the increases allowed him under this order, such seller must file with the Northern California State Office of the Office of Price Administration a sworn statement stating that he is not, at the time of the issuance of this order, and has not, since the General Maximum Price Regulation controlled the prices which he may charge for firewood, sold at prices in excess of the maximum prices established by the General Maximum Price Regulation for such seller. The effective date of the General Maximum Price Regulation with regard to sales at wholesale was May 11, 1942; with regard to sales at retail, the effective date was May 18, 1942.

(b) Such sworn statement shall also contain a statement by every seller of firewood at retail that he has filed with his local War Price and Rationing Board his maximum prices for firewood as determined by the General Maximum Price Regulation.

(c) In the event that any seller cannot submit the sworn statement showing that he has not violated the maximum prices applicable to such seller under the General Maximum Price Regulation, he shall present the facts of his case to the Northern California State Office of the Office of Price Administration. Such office will, after due consideration of the matter, make such individual adjustment with such seller as the facts of his case may warrant, and thereafter give specific permission to such seller to fix his maximum prices for the sales of firewood in accordance with the maximum prices prescribed in this order.

11. *Records and reports.* (a) Every person making sales of firewood at wholesale, who is subject to this order No. G–1, shall within fifteen days after the effective date of this order file with his local War Price and Rationing Board a statement of his maximum prices for firewood as determined under the General Maximum Price Regulation.

(b) Every seller of firewood subject to this order and every buyer in the course of trade or business shall preserve for examination by representatives of the Office of Price Administration copies of invoices covering each sale of firewood, and prepared in accordance with the provisions of this order.

12. *Definitions.* (a) Firewood means any wood prepared and intended for consumption as fuel.

13. *Amendment.* This order may be revoked or amended at any time by the Northern California State Office of the Office of Price Administration.

14. *Effective date.* This Northern California State Office Order G–1 shall become effective November 21, 1942.

Issued: November 21, 1942.

FRANCIS CARROLL,
State Director.

FIREWOOD IN DESIGNATED COUNTIES IN CALIFORNIA

Order No. G-2 under § 1499.75 (a) (1) of Supplementary Regulation 15 of the General Maximum Price Regulation—Firewood. (Formerly Price Order No. 2.)

The Director of the Northern California State Office of the Office of Price Administration has determined upon his own motion that in his judgment the maximum prices established under the General Maximum Price Regulation for the sale and delivery of firewood in Santa Cruz, San Benito, and Monterey Counties, State of California, are inadequate to insure a sufficient supply to meet the heating requirements in these three Counties.

That State Director has ascertained and given due consideration to the increased costs of production and distribution which sellers of firewood in these three Counties are now experiencing as compared with the costs generally prevailing in these Counties in March, 1942. He has given due consideration to the importance of firewood as a source of residential heat in the three Counties and the necessity of using such firewood for heating purposes as a means of minimizing the use of coal, oil, and other types of heating fuel.

So far as practicable the Director was advised and consulted with representative members of the industry. He has determined that the new maximum prices established are and will be generally fair and equitable and will effectuate the purposes of this order.

Therefore, in order to accelerate the movement of firewood now in the stocks of dealers to the consuming public, under the authority vested in the State Director by Supplementary Regulation No. 15 of the General Maximum Price Regulation, this Northern California State Order No. G–2, is hereby issued.

1. *Prohibition against dealing in firewood above maximum prices.* On and after December 12, 1942, regardless of any contract, agreement, or other obligation:

(a) No person shall sell or deliver firewood in Monterey, Santa Cruz, or San Benito Counties at prices higher than the maximum prices established under this order, and

(b) No person in the course of trade or business shall buy or receive firewood in Monterey, Santa Cruz, or San Benito Counties at prices higher than the maximum prices established under this order.

2. *Evasion.* (a) The price limitation set forth in this order No. G–2 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to firewood in Monterey, San Bonito or Santa Cruz Counties, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying agreement or other trade understanding, or otherwise.

(b) Without limiting the generality of the foregoing, the price limitations set forth herein shall not be evaded by improper classification of any item of firewood, splitting of orders into small quantities in order to increase prices (except as specifically allowed in Appendices A, B, C, & D of this Order), discontinuing or increasing the cost of delivery, or by decreasing or discontinuing cash discounts.

(c) The maximum prices herein set forth shall not be evaded by any practice or practices of any seller in connection with the cutting or splitting of firewood to a particular size demanded by the customer. If larger pieces of firewood are cut to a special size demanded by the customer, the quantity of wood for which the customer is to be charged is to be measured after said cutting and not before. In such case, the customer should be charged only on the basis of the measured cord or fraction thereof after the cutting has been completed, and the customer should be billed only for the measured cord or fraction thereof, after the said cutting, actually delivered to the customer.

3. *Less than maximum prices.* Lower prices than those set forth in this order No. G–2 may be charged, demanded, paid, or offered.

4. *Maximum prices for sales of firewood in Monterey, Santa Cruz, and San Bonito Counties.* The maximum price for each item of firewood shall be the following:

(a) *Sales at retail.* The maximum prices set forth in Appendices A, B, & C.

(i) Said prices are delivered prices. In the event the seller at retail does not deliver, but sells f. o. b. his yard, the retailer shall deduct from said maximum price, an amount equal to the differential between the delivered price and the f. o. b. price which said retailer had established in March, 1942, for f. o. b. sales as compared with delivered sales.

(ii) In the event any retailer had no such established differential in March, 1942, the amount of deduction shall be an amount equal to the cost to the customer of having the firewood delivered by the most usual and reasonable method.

(iii) In no event, however, shall a seller at retail refuse to sell to a purchaser on a delivered basis, if the customer desires to purchase the firewood on a delivered basis.

(b) *Sales at wholesale.* The maximum prices set forth in Appendix D. These prices shall be prices at the wholesaler's yard.

5. *Adjustment of maximum prices for different classes of customers.* If the seller had an established practice in March of 1942, of giving allowances, discounts, or other price differentials, to different classes of purchasers, he is required to continue this practice, and his maximum prices calculated for any type of firewood must be reduced to reflect such allowances, discounts and price differentials. No seller shall change his customary allowances, discounts or other differentials unless such change results in a lower price.

6. *Applicability of maximum prices.* The prices established by this order apply only to sellers selling firewood at wholesale and retail. This order does not apply to mills selling mill waste.

7. *Applicability of the General Maximum Price Regulation.* Except insofar as they are inconsistent, all of the provisions and definitions contained in the General Maximum Price Regulation are incorporated in this order.

8. *Method of billing of sales of firewood.* Every seller selling firewood in Monterey, Santa Cruz, or San Bonito Counties shall incorporate a statement on his bill or invoice to the effect that the prices charged for the firewood covered by the bill or invoice are not in excess of the maximum prices allowed by State Order No. G–2.

9. *Affidavit of compliance.* (a) Before any seller of firewood may sell at prices in excess of those established for him under the General Maximum Price Regulation, and avail himself of any increases allowed him under this order, such seller must file with the Northern California State Office of the Office of Price Administration a sworn statement stating that he is not, at the time of the issuance of this order, and has not, since the General Maximum Price Regulation controlled the prices which he may charge for firewood, sold at prices in excess of the maximum prices established by the General Maximum Price Regulation for such seller. The effective date of the General Maximum Price Regulation with regard to sales at wholesale was May 11, 1942; with regard to sales at retail, the effective date was May 18, 1942.

(b) In the event that any seller cannot submit the sworn statement showing that he has not violated the maximum prices applicable to such seller under the General Maximum Price Regulation, he shall present the facts of his case to the Northern California State Office of the Office of Price Administration. Such office will, after due consideration of the matter, make such individual adjustment with such seller as the facts of his case may warrant, and thereafter give specific permission to such seller to fix his maximum prices for the sales of firewood in accordance with the maximum prices prescribed in this order.

(c) Every dealer in firewood, whether at wholesale or retail shall post a copy of ceiling prices established under this order in his place of business where it can be readily seen by his customers.

10. *Records and reports.* Every seller of firewood subject to this order and every buyer in the course of trade or business shall preserve for examination by representatives of the Office of Price Administration copies of invoices covering each sale of firewood, and prepared in accordance with the provisions of this order.

11. *Definitions.* (a) "Firewood" means any wood prepared and maintained for consumption as fuel.

(b) "Cord" means any pile of firewood containing 128 cubic feet of firewood.

(c) "Delivered" means delivered to the curb of the customer.

12. *Revocation.* This order may be revoked or amended at any time by the Northern California State Office of the Office of Price Administration.

13. *Effective date.* This Northern California State Office Order No. G–2 shall become effective December 12, 1942.

Issued December 12, 1942.

FRANCIS CARROLL,
State Director.

[No. Calif. Order G-3 Under SR 15]

FIREWOOD IN SANTA CLARA AND SAN MATEO COUNTIES, CALIF.

Order No. G-3 (Formerly Price Order No. 3) under § 1499.75 (a) (1) of Supplementary Regulation 15 to the General Maximum Price Regulation—Firewood.

The Director of the Northern California State Office of the Office of Price Administration has determined upon his own motion that in his judgment the maximum prices established under the General Maximum Price Regulation for sale and delivery of firewood in Santa Clara and San Mateo Counties, State of California, are inadequate to insure a sufficient supply to meet the heating requirements in these two Counties, and are inadequate to move the existing stocks of wood in dealers' hands to the consuming public.

The State Director has ascertained and given due consideration to the increased costs of production and distribution which sellers of firewood in these two Counties are now experiencing as compared with the costs generally prevailing in these counties in March, 1942. He has given due consideration to the importance of firewood as a source of residential heat in the two Counties, and the necessity of using such firewood for heating purposes as a means of minimizing the use of coal, oil, and other types of heating fuel.

So far as practicable, the Director has advised and consulted with representative members of the industry. He has determined that the new maximum prices established are and will be generally fair and equitable and will effectuate the purposes of this order.

Therefore, in order to accelerate the movement of firewood now in the stocks of dealers to the consuming public, and to eliminate inequalities in the existing maximum prices of firewood, under the authority vested in the State Director by Supplementary Regulation No. 15 of the General Maximum Price Regulation this Northern California State Order No. G-3 is hereby issued.

1. *Prohibition against dealing in firewood above maximum prices.* On and after December 15, 1942, regardless of any contract, agreement, or other obligation:

(a) No person shall sell or deliver firewood in Santa Clara or San Mateo Counties at prices higher than the maximum prices established under this order, and

(b) No person in the course of trade or business shall buy or receive firewood in Santa Clara or San Mateo Counties at prices higher than the maximum prices established under this order.

2. *Evasion.* (a) The price limitations set forth in this order No. G-3 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to firewood in Santa Clara or San Mateo Counties, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying agreement or other trade understanding, or otherwise.

(b) Without limiting the generality of the foregoing, the price limitations set forth herein shall not be evaded by improper classification of any item of firewood, splitting of orders into small quantities in order to increase prices (except as specifically allowed in Appendices A, B, C, and D of this order), discontinuing or increasing the cost of delivery, or by decreasing or discontinuing cash discounts.

(c) The maximum prices herein set forth shall not be evaded by any practice or practices of any seller in connection with the cutting or splitting of firewood to a particular size demanded by the customer. If larger pieces of firewood are cut to a special size demanded by the customer, the quantity of wood for which the customer is to be charged is to be measured after said cutting and not before. In such case, the customer should be charged only on the basis of the measured cord or fraction thereof after the cutting has been completed, and the customer should be billed only for the measured cord or fraction thereof, after the said cutting, actually delivered to the customer.

3. *Less than maximum prices.* Lower prices than those set forth in this order No. G-3 may be charged, demanded, paid, or offered.

4. *Maximum prices for sales of firewood in Santa Clara and San Mateo counties.* The maximum price for each item of firewood shall be the following:

(a) *Sales at retail.* The maximum prices set forth in Appendices A, B & C.

(i) In the case of sack stovewood, delivered and cash and carry prices are set out.

(ii) In all other cases said prices are delivered prices.

(a) In the event the seller at retail does not deliver, but sells f. o. b. his yard, the retailer shall deduct from said maximum price, an amount equal to the differential between the delivered price and the f. o. b. price which said retailer had established in March, 1942, for f. o. b. sales as compared with delivered sales.

(b) In the event any retailer had no such established differential in March, 1942, the amount of deduction shall be an amount equal to the cost to the customer of having the firewood delivered by the most usual and reasonable method.

(c) In no event, however, shall a seller at retail refuse to sell to a purchaser on a delivered basis, if the customer desires to purchase the firewood on a delivered basis.

(b) *Sales at wholesale.* The maximum prices set forth in Appendix D. These prices shall be prices at the wholesaler's yard.

5. *Adjustment of maximum prices for different classes of customers.* If the seller had an established practice in March of 1942, of giving allowances, discounts, or other price differentials, to different classes of purchasers, he is required to continue this practice, and his maximum prices calculated for any type of firewood must be reduced to reflect such allowances, discounts and price differentials. No seller shall change his customary allowances, discounts or other differentials unless such change results in a lower price.

6. *Applicability of maximum prices.* The prices established by this order apply only to sellers selling firewood at wholesale and retail. This order does not apply to mills selling mill waste.

7. *Applicability of the General Maximum Price Regulation.* Except insofar as they are inconsistent, all of the provisions and definitions contained in the General Maximum Price Regulation are incorporated in this order.

8. *Method of billing of sales of firewood.* Every seller selling firewood in Santa Clara and San Mateo Counties shall incorporate a statement on his bill or invoice to the effect that the prices charged for the firewood covered by the bill or invoice are not in excess of the maximum prices allowed by State Order No. G-3.

9. *Affidavit of compliance.* (a) Before any seller of firewood may sell at prices in excess of those established for him under the General Maximum Price Regulation, and avail himself of any increases allowed him under this order, such seller must file with the Northern California State Office of the Office of Price Administration a sworn statement stating that he is not, at the time of the issuance of this order, and has not, since the General Maximum Price Regulation Controlled the prices which he may charge for firewood, sold at prices in excess of the maximum prices established by the General Maximum Price Regulation for such seller. The effective date of the General Maximum Price Regulation with regard to sales at wholesale was May 11, 1942; with regard to sales at retail, the effective date was May 18, 1942.

(b) In the event that any seller cannot submit the sworn statement showing that he has not violated the maximum prices applicable to such seller under the General Maximum Price Regulation, he shall present the facts of his case to the Northern California State Office of the Office of Price Administration. Such office will, after due consideration of the matter, make such individual adjustment with such seller as the facts of his case may warrant, and thereafter give specific permission to such seller to fix his maximum prices for the sales of firewood in accordance with the maximum prices prescribed in this order.

(c) Every dealer in firewood, whether at wholesale or retail shall post a copy of ceiling prices established under this order in his place of business where it can be readily seen by his customers.

10. *Records and reports.* Every seller of firewood subject to this order and every buyer in the course of trade or business shall preserve for examination by representatives of the Office of Price Administration copies of invoices covering each sale of firewood, and prepared in accordance with the provisions of this order.

11. *Definitions.* (a) "Firewood" means any wood prepared and maintained for consumption as fuel.

(b) "Cord" means any pile of firewood containing 128 cubic feet of firewood.

(c) "Delivered" means delivered to the curb of the customer.

12. *Other grades of firewood.* The maximum prices for all other grades, kinds, and sizes of firewood shall be the maximum price established under the General Maximum Price Regulation for each particular seller.

13. *Revocation.* This order may be revoked or amended at any time by the Northern California State Office of the Office of Price Administration.

14. *Effective date.* This Northern California State Office Order No. G-3 shall become effective December 15, 1942.

Issued December 15, 1942.

FRANCIS CARROLL,
State Director.

[No. Calif. Order G-4 Under SR 15]

FIREWOOD IN CALIFORNIA AREAS NOT COVERED BY OTHER ORDERS

Order No. G-4 under § 1499.75 (a) (1) of Supplementary Regulation No. 15 to the General Maximum Price Regulation (formerly Price Order No. 4)—Firewood.

The Director of the Northern California State Office of the Office of Price Administration has determined upon his own motion that in his judgment, the maximum prices established under the General Maximum Price Regulation for the sale and delivery of firewood in the various areas of Northern California, as to which specific orders have not heretofore been issued, are inadequate to insure a sufficient supply to meet the heating requirements in such areas, and are inadequate to move the existing stocks of wood in dealers' hands to the consuming public.

The State Director has ascertained and given due consideration to the increased costs of production and distribution which sellers of firewood in these various areas are now experiencing as compared with the costs generally prevailing in such areas in March, 1942. He has given due consideration to the importance of firewood as a source of residential heating in these various areas, and the necessity of using such firewood for heating purposes as a means of minimizing the use of coal, oil, and other types of fuel.

So far as practicable, the Director has advised and consulted with representative members of the industry. He has determined that the new maximum prices established by this order are, and will generally be, fair and equitable, and will effectuate the purposes of this order.

Therefore, in order to accelerate the movement of firewood now in the stocks of dealers to the consuming public, and to eliminate inequalities in the existing prices of firewood, under the authority vested the State Director by Supplementary Regulation 15 to the General Maximum Price Regulation, this Northern California Order No. G-4 is hereby issued.

1. *Prohibition against dealing in firewood above maximum prices.* On and after December 19, 1942, regardless of any contract, agreement, or other obligation:

(a) No person shall sell or deliver firewood in any specific area covered by this order at prices higher than the maximum prices established under this order for sales or deliveries in such area, and

(b) No person shall buy or receive firewood in any specific area covered by this order at prices higher than the maxi-

mum prices established under this order for sales or deliveries in such area.

2. *Evasion.* (a) The price limitations set forth in this Order No. G–4 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to firewood in the areas covered by said order alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge or discount, premium or other privilege, or by tying agreement or other trade understanding, or otherwise.

(b) Without limiting the generality of the foregoing, the price limitations set forth herein shall not be evaded by improper classification of any item of firewood, splitting of orders into small quantities in order to increase prices (except as specifically allowed in this order), discontinuing or increasing the cost of delivery, or by decreasing or discontinuing cash discounts.

(c) The maximum prices herein set forth shall not be evaded by any practice or practices of any seller in connection with the cutting or splitting of firewood to a particular size demanded by the customer. If larger pieces of firewood are cut to a special size demanded by the customer, the quantity of wood for which the customer is to be charged is to be measured after said cutting and not before. In such case, the customer should be charged only on the basis of the measured cord or fraction thereof after the cutting has been completed, and the customer should be billed only for the measured cord or fraction thereof, after the said cutting, actually delivered to the customer.

3. *Less than maximum prices.* Lower prices than those set forth in this order No. G–4 may be charged, demanded, paid, or offered.

4. *Areas covered by this Order No. G–4.* For the purposes of fixing prices for a Northern California area not already covered by specific price orders setting prices of firewood, the said Northern California area shall be divided into districts. Each district shall be known by number and shall consist of the counties listed below:

(a) *District I:* Del Norte, Siskiyou, Modoc, Lassen, Plumas, Shasta, Trinity, Sierra, Nevada, Placer, El Dorado, Amador, Calaveras, Tuolumne, Mariposa, Alpine, and Mono.

(b) *District II:* Butte, Tehama, Glenn, Colusa, Yuba, Yolo, Sacramento, and Sutter.

(c) *District III:* Mendocino and Lake.

(d) *District IV:* Alameda, Contra Costa, San Francisco, Marin, Sonoma, Napa, and Solano.

(e) *District V:* San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, and Tulare.

5. *Maximum prices for sales of firewood in district I.* The maximum price for each item of firewood shall be the following:

(a) *Sales at retail.* The maximum prices set forth in Appendix A.

(i) In the case of sack stovewood, delivered and cash and carry prices are set out.

(ii) In all other cases said prices are delivered prices.

(a) In the event the seller at retail does not deliver, but sells f. o. b. his yard, the retailer shall deduct from said maximum price, an amount equal to the differential between the delivered price and the f. o. b. price which said retailer had established in March, 1942, for f. o. b. sales as compared with delivered sales.

(b) In the event any retailer had no such established differential in March, 1942, the amount of deduction shall be an amount equal to the cost to the customer of having the firewood delivered by the most usual and reasonable method.

(c) In no event, however, shall a seller at retail refuse to sell to a purchaser on a delivered basis, if the customer desires to purchase the firewood on a delivered basis.

(d) In some instances sellers at retail made an extra charge for piling the firewood on the consumer's premises. If any dealer had a customary charge in March, 1942, for piling of the wood on the consumer's premises, in addition to his charge for wood delivered to the consumer's curb, such dealer may charge the additional amount indicated in said Appendix A as a "storage charge" for rendering such service to the consumer, if the consumer requests such service.

(b) *Sales other than at retail.* The maximum prices set forth in Appendix A.

(i) Said prices are prices at the seller's yard, or f. o. b. means of transportation at the customary place of delivery, depending upon the practice of the particular seller in March, 1942.

(ii) If the seller, at the purchaser's request, delivers the wood in his own truck to the buyer's place of business, the seller may make an additional charge for such delivery. Such charge shall not exceed the charge which such seller made in March, 1942, for delivery. If the seller had an established differential in March, 1942, for wood sold on a delivered as compared with a non-delivered basis, such differential shall be the maximum price which the seller may charge for such delivery.

(iii) If the purchaser requests the seller to pile the wood in the purchaser's yard, such seller may make a charge for such service. Such charge shall not exceed the charge which the seller would have made for such service in March, 1942.

If, pursuant to the purchaser's request, the seller renders either or both of the above services, when billing the purchaser, the seller shall separately state on his invoice:

(a) the price for the wood, not to exceed the maximum prices set forth in Appendix A, and

(b) the cost of the additional service or services.

6. *Maximum prices for sales of firewood in District II.* (a) The maximum price for each item of firewood shall be the price set out in Appendix B.

(b) The provisions of paragraph 5 above concerning the terms and conditions of sale, etc., are referred to and incorporated herein and shall apply to all sales of firewood in said District II.

7. *Maximum prices for sales of firewood in District III.* (a) The maximum price for each item of firewood shall be the price set out in Appendix C.

(b) The provisions of paragraph 5 above concerning the terms and conditions of sale, etc., are referred to and incorporated herein and shall apply to all sales of firewood in said District III.

8. *Maximum prices for sales of firewood in District IV.* (a) The maximum price for each item of firewood shall be the price set out in Appendix D.

(b) The provisions of paragraph 5 above concerning the terms and conditions of sale, etc., are referred to and incorporated herein and shall apply to all sales of firewood in said District IV, except that in the case of sales of mill waste other than at retail, the prices listed shall be prices delivered at the usual place of delivery to the retailer.

9. *Maximum prices for sales of firewood in District V.* (a) The maximum price for each item of firewood shall be the price set out in Appendix E.

(b) The provisions of paragraph 5 above concerning the terms and conditions of sale, etc., are referred to and incorporated herein and shall apply to all sales of firewood in said District V.

10. *Mixed sales.* In the event that a seller sells any lot of wood which contains two or more classes of firewood which, under the terms of this order have different maximum prices, the maximum price of the entire lot of wood shall be determined by ascertaining the quantity of each class of wood in the lot, and charging the proper maximum price applicable to the amount of each class of wood in the lot. In such case, the seller may not add to the price of each individual item of wood the additional amount allowed where fractional cords of wood are ordered by and sold to consumers. Further, the seller must, in his invoice, itemize the type, quantity, and price of each class in the shipment.

11. *Adjustment of maximum prices for different classes of customers.* If the seller had an established practice in March of 1942, of giving allowances, discounts, or other price differentials, to different classes of purchasers, he is required to continue this practice, and his maximum prices calculated for any type of firewood must be reduced to reflect such allowances, discounts and price differentials. No seller shall change his customary allowances, discounts or other differentials unless such change results in a lower price.

12. *Applicability of maximum prices.* The prices established by this order apply only to sellers selling firewood at retail and to sellers selling other than at retail. However, this order does not apply to mills selling mill waste.

The provisions fixing said prices are expressly subject to the provisions of section 9 (b) (1) of the General Maximum Price Regulation.

13. *Applicability of the general maximum price regulation.* Except insofar as they are inconsistent, all of the provisions and definitions contained in the General Maximum Price Regulation are incorporated in this order.

14. *Method of billing of sales of firewood.* Every seller selling firewood in the areas covered by this order shall incorporate a statement on his bill or invoice to the effect that the prices charged for firewood covered by the bill or invoice are not in excess of the maximum prices allowed by State Order No. G–4.

15. *Affidavit of compliance.* (a) Before any seller of firewood may sell at prices in excess of those established for him under the General Maximum Price Regulation, and avail himself of any increases allowed him under this order, such seller must file with the Northern California State Office of the Office of Price Administration a sworn statement stating that he is not, at the time of the issuance of this order, and has not, since the General Maximum Price Regulation controlled the prices which he may charge for firewood, sold at prices in excess of the maximum prices established by the General Maximum Price Regulation for such seller. The effective date of the General Maximum Price Regulation with regard to sales at wholesale was May 11, 1942; with regard to sales at retail, the effective date was May 18, 1942.

(b) In the event that any seller cannot submit the sworn statement showing that he has not violated the maximum prices applicable to such seller under the General Maximum Price Regulation, he shall present the facts of his case to the Northern California State Office of the Office of Price Administration. Such office will, after due consideration of the matter, make such individual adjustment with such seller as the facts of his case may warrant, and thereafter give specific permission to such seller to fix his maximum prices for the sales of firewood in accordance with the maximum prices prescribed in this order.

(c) Every seller of firewood, whether selling at retail, or other than at retail, shall post a copy of the ceiling prices governing the sale of firewood in the area in which said seller is located, as established under this order, in his place of business where it can be readily seen by his customers.

16. *Records and reports.* Every seller of firewood subject to this order and every buyer in the course of trade or business shall preserve for examination by representatives of the Office of Price Administration copies of invoices covering each sale of firewood, and prepared in accordance with the provisions of this order.

17. *Other grades of firewood.* The maximum prices for all other grades, kinds, and sizes of firewood shall be the maximum price established under the General Maximum Price Regulation for each particular seller.

18. *Definitions.* (a) "Firewood" means any wood prepared and maintained for consumption as fuel.

(b) "Cord" means any pile of firewood containing 128 cubic feet of firewood.

(c) "Delivered" means delivered to the curb of the customer.

(d) "Storage charge" means the practice which existed as to some sellers at retail of making an extra charge for the piling of cord wood and firewood, other than sack wood, in the premises of the consumer. Such storage charge would be added to the price of the firewood when such additional service was requested by the purchaser. When not so requested, the firewood would be delivered to the consumer's curb, under normal circumstances.

(e) "Sales other than at retail" means all sales except sales by retail dealers to ultimate consumers: *Provided, however,* That this does not refer to sales covered by section 9 (b) (1) of the General Maximum Price Regulation, nor to sales by mills of mill waste.

(f) "F. O. B. means of transportation the customary place of delivery has reference to sales other than at retail. Such sales may be f. o. b. the seller's yard, or f. o. b. the means by which the seller transports the wood to the purchaser, as for example, by truck or railroad car. The customary place of delivery may vary, depending upon the particular seller's practice, for example, such customary place of delivery may be the rail siding adjoining the purchaser's yard, or the nearest rail depot to purchaser's yard, or some other place, depending upon the practice of the particular seller.

19. *Revocation.* This order may be revoked or amended at any time by the Northern California State Office of the Office of Price Administration.

20. *Effective date.* This Northern California State Office Order No. G4 shall become effective December 19, 1942.

Issued December 19, 1942.

FRANCIS CARROLL,
State Director.

[Region VIII Order G–2 Under Rev. MPR 122]

BITUMINOUS COAL IN SEATTLE, WASH., AREA

Order No. G–2 Under Revised Maximum Price Regulation 122—Solid Fuels Sold and Delivered by Dealers. Maximum prices for certain sales of bituminous coal in Seattle, Washington area.

For the reason set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region VIII of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122 and the Emergency Price Control Act of 1942, as amended, *It is hereby ordered:*

(a) *What this order does*—(1) *In general.* This order establishes dollar-and-cents maximum prices for sales to consumers in the Seattle Area of certain kinds of bituminous coal. The maximum prices established herein supersede those previously established under Revised Maximum Price Regulation No. 122 and are the only maximum prices applicable to the sales covered by this order. The maximum prices established by this order may not be increased to reflect increased mine prices, transportation, or other costs.

(2) *Kinds of coal covered.* Maximum prices for sales to domestic consumers in the Seattle Area of bituminous coals produced in Bituminous Coal Division Districts 19, 20, 22, and 23 shall be those prescribed in paragraphs (b) and (c).

(3) *Kinds of sales covered.* This order applies only to sales of coal to domestic consumers. As used herein the term "domestic consumer" means a purchaser who uses the coal purchased to heat a dwelling housing not more than four family units. A sale to a public housing authority shall be deemed a sale to a domestic consumer, whenever by its terms such sale calls for a delivery of the coal directly to individual tenants of such authority.

(4) *Area covered.* This order applies to sales of bituminous coals in the Seattle Area, which comprises the area within the corporate city limits of Seattle, Washington, the area bounded by the northern corporate limits of the City of Seattle, Puget Sound, North 145th Street, and Lake Washington, and the area bounded by the southern corporate limits of the City of Seattle, Puget Sound, South 160th Street, State Highway 1–L, and State Highway 5. A sale is deemed to be made within the Seattle Area when, and only when, the coal is delivered within such Area, regardless of the seller's place of business.

(5) *Applicability of Revised Maximum Price Regulation No. 122.* (i) Except as otherwise provided herein the provisions of Revised Maximum Price Regulation No. 122 apply to all transactions which are the subject of this order. Any violation of the order shall constitute a violation of Revised Maximum Price Regulation No. 122, and shall subject the person violating to the penalties and liabilities prescribed in § 1340.264 thereof.

(ii) The terms used in this order unless defined herein, shall have the same meanings as in Revised Maximum Price Regulation No. 122.

(b) *Tables of maximum prices.* (1) The maximum prices for sales to domestic consumers in the Seattle Area of untreated bituminous coals produced in Bituminous Coal Division Districts 19 (Wyoming), 20 (Utah), 22 (Montana), and 23 (Washington) are set forth in Tables I to XIV hereunder.

(b) (2) The term "delivered f. o. b. yard" means delivered at the dealer's place of business, loaded on the purchaser's vehicle or other conveyance.

(3) The term "delivered to buyer's premises" means delivered into the buyer's bin or other storage facility, where such delivery can be made directly from the dealer's truck by the use of shovels and/or chutes.

(4) The maximum prices listed in the columns headed "2 ton", "3 ton", and "5 ton" are the maximum prices per net ton for deliveries in the quantities indicated.

(5) *Packing charges.* Where delivery into the buyer's basement bin or other storage facility can be effected only by carrying the coal from the dealer's truck in tins, baskets, or other containers, the maximum price "delivered to buyer's premises" may be increased by a packing charge not in excess of the appropriate maximum charge provided in subdivision (1) below.

(i) The maximum packing charge shall be $1.00 per ton for the first 170 feet or less which the coal is carried on the level, plus 35 cents per ton for each additional 75 feet or fraction thereof on the level. Each step up or down shall count as 10 feet on the level. Each foot of rise or fall of incline shall count as twenty feet on the level.

(ii) Packing charges must be separately stated on sales slips or invoices.

(6) *Addition for dust treatment.* When any of the coals listed in Tables I to XIV of subparagraph (1) has been treated to minimize dust, its maximum price may be increased by an amount not in excess of the producer's charge for such treatment: *Provided,* That such amount may not exceed ten cents per ton for nut and larger sizes, fifteen cents per ton for pea size, and thirty-five cents per ton for stoker and slack sizes: *And provided further,* That the coal is described as treated on the sales slip or invoice.

(c) *Container deposit charges.* When coal is delivered in bags owned by the dealer he may require the payment of a deposit charge in addition to the maximum price established herein, provided that such charge may not be unreasonably in excess of the cost of the bags delivered and that a full refund of such charge be made upon return of the bags in substantially the same condition as when received by the buyer.

(d) *Taxes.* A dealer subject to this order may collect in addition to the maximum prices established herein, provided he states them separately:

(1) The amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by him, or an amount equal to the amount of such tax paid by any of his prior suppliers and separately stated and collected from the dealer by the supplier from whom he purchased; and

(2) The amount of the Washington State Sales Tax payable by such dealer.

(e) Less than maximum prices may be charged, paid, or offered, but this order shall not authorize or excuse any sale in violation of any order of the Bituminous Coal Division setting minimum prices.

(f) *Records and reports.* The provisions of § 1340.262 of Revised Maximum Price Regulation 122 shall remain in full effect with respect to all dealers in the Seattle area, except that the dollars-and-cents maximum prices established by this order need not be reported pursuant to paragraph (c) of said section.

(g) *Posting of maximum prices, sales slips, and receipts.* (1) Every dealer subject to this order shall post at his place of business in a manner plainly visible to and understandable by the purchasing public, all of the maximum prices established herein which are applicable to his sales, and shall keep a copy of this order available for examination by any person during ordinary business hours.

(2) Every dealer making sales subject to this order shall give to each purchaser an invoice or sales slip showing the name and address of the dealer; the name and address of the purchaser; the kind, type, and quantity of bituminous coal sold; the price thereof; and such special or additional charges, if any, which are required to be separately stated by other provisions of this order.

(h) *Petitions for amendment.* Any person seeking an amendment of any provisions of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the San Francisco Regional Office of the Office of Price Administration, and shall be acted upon by the Regional Administrator.

(i) This order may be revoked, amended, or corrected at any time.

This order becomes effective August 9, 1943.

WEST TEXAS UTILITIES COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 4th day of August 1943.

Notice is hereby given that an application or declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") by West Texas Utilities Company ("West Texas"), a subsidiary of American Public Service Company, a registered holding company, and an indirect subsidiary of Central and South West Utilities Company and The Middle West Corporation, both registered holding companies.

All interested persons are referred to said document which is on file in the office of the Commission, for a statement of the transactions therein proposed, which are summarized as follows:

West Texas proposes to issue and sell $18,000,000 principal amount of First Mortgage Bonds, due August 1, 1973 and with the proceeds of the sale, together with treasury funds of the company to the extent required, redeem and retire the company's $18,000,000 principal amount of outstanding First Mortgage Bonds, Series A, 3¾%, due May 1, 1969.

The bonds are to be sold by competitive bidding pursuant to the provisions of Rule U-50. The company has requested that the ten day period specified in such rule be shortened to six days. The interest rate, price to be received and the purchasers of the proposed bonds are to be supplied by amendment.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said application or declaration shall not be granted or permitted to become effective except pursuant to further order of this Commission; and

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on August 16, 1943, at 10: 00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why such declarations and applications shall become effective or shall be granted. Notice is hereby given of said hearing to the above-named declarant and applicant and to all interested parties, said notice to be given to said declarant and applicant by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That any person desiring to be heard or otherwise wishing to participate herein shall notify the Commission to that effect in the manner provided in Rule XVII of the Commission's Rules of Practice on or before August 13, 1943.

It is further ordered, That Robert P. Reeder, or any officer or officers of the Commission designated by it for that purpose, shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Act and to a Trial Examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said applications and declarations otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the bonds proposed to be issued are reasonably adapted to the security structure and earning power of the declarant.

2. Whether the fees and commissions, or other remuneration to whomsoever paid, directly or indirectly, in connection with the issue, sale, or distribution of the security are reasonable.

3. Whether the terms and conditions of the issue or sale of the security are detrimental to the public interest or the interest of investors or consumers.

4. Whether the accounting entries to be made in connection with the proposed financing and the adjustment of accounts incident thereto are in accord with sound and accepted principles of accounting and accounting practices.

5. Whether the provisions of the indenture securing the proposed bonds are appropriate.

6. Whether all State laws applicable to the proposed transactions have been complied with.

7. Whether the transactions as proposed will comply with the provisions of Rule U-50 with respect to competitive bidding and whether the ten day period specified in such rule should in this instance be shortened to six days.

8. Whether it is necessary or appropriate to impose any terms and conditions with respect to the proposed transactions in the public interest, for the protection of investors and consumers, or in order to assure compliance with the standards of the Act.

By the Commission.

LOUISIANA DEPARTMENT OF HIGHWAYS

REVOCATION OF PREFERENCE RATING

Name of builder: Louisiana Department of Highways, Baton Rouge, Louisiana; Project identified as SN-FAP 68 E (1), located at Shreveport, La. (Serial No. 29621).

The revocation of preference rating issued on July 2, 1943 with respect to the above serially numbered project is hereby amended by striking paragraph 3 thereof and by substituting the following:

3. *Prohibition of construction.* The Builder shall neither perform nor permit the performance of any further construction or installation on the project, except further permitted construction being construction necessary to complete the following work:

1. The installation of storm sewer tile in such open trenches as have been made and the back-filling thereof along with such additional storm water work as is the absolute minimum necessary to prevent undue damage to the work already incorporated.

2. The restoration of entrance facilities to adjacent property to the same practicable condition as existed prior to the start of construction.

3. Such other minor items of work as are necessary to prevent undue damage to materials already incorporated in the project.

The foregoing permitted construction shall not be construed as permitting the construction work to progress as originally planned and proposed nor shall the foregoing permitted construction be construed as permission for the installation of any concrete paving.

EXECUTIVE ORDER 9367

PROHIBITING, WITH CERTAIN EXCEPTIONS, INSTRUCTION OF APPLICANTS FOR CIVIL SERVICE AND FOREIGN SERVICE EXAMINATIONS BY OFFICERS OR EMPLOYEES OF THE GOVERNMENT

By virtue of the authority vested in me by section 1753 of the Revised Statutes of the United States (U.S.C., title 5, sec. 631), and as President of the United States, it is hereby ordered as follows:

1. No officer or employee of the Government shall directly or indirectly instruct or be concerned in any manner in the instruction of any person or classes of persons with a view to their special preparation for the examinations of the United States Civil Service Commission or the examinations of the Boards of Examiners for the Foreign Service of the Department of State: *Provided*, That this order shall not be construed to prevent any agency of the Government from utilizing Government facilities and the services of Federal officers and employees whenever such facilities or services may be necessary or useful in carrying out the duties imposed upon such agency by law in the training and testing of disabled members or former members of the armed forces of the United States or in the conduct of educational or training programs which are open exclusively to members or former members of the armed forces: *Provided further*, That due credit in civil service examinations shall be given by the Civil Service Commission to any member or former member of the armed forces of the United States who has satisfactorily completed any such educational or training program conducted by a Government agency.

2. Violation of the provisions of this order by any officer or employee of the Government shall be considered sufficient cause for removal from the service.

3. This order supersedes Executive Orders No. 359 of October 13, 1905, No. 1277 of December 23, 1910, No. 3088 of May 17, 1919, and No. 3215 of January 13, 1920.

PART 1405—FRUITS AND VEGETABLES

ELBERTA PEACHES GROWN IN OREGON OR WASHINGTON

Pursuant to the authority vested in me by Food Distribution Order No. 74, issued by the War Food Administrator on August 6, 1943, effective in accordance with the provisions of Executive Order No. 9280, dated December 5, 1942; Executive Order No. 9322, dated March 26, 1943; and Executive Order No. 9334, dated April 19, 1943, and in order to effectuate the purposes of the aforesaid orders, *It is hereby ordered*, as follows:

§ 1405.19 *Delegation of authority*—(a) *Definitions.* (1) When used herein, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof, the term "order" means Food Distribution Order No. 74, issued by the War Food Administrator on August 6, 1943.

(2) Each term defined in Food Distribution Order No. 74–1 shall, when used herein, have the same meaning as set forth in said Food Distribution Order No. 74.

(b) *Authority delegated.* In accordance with the provisions of § 1405.18 (g) of the order, there is hereby delegated to Merritt A. Clevenger, as Order Administrator, and Donald R. Rush and Harold A. Brock, as Deputy Order Administrators, the following authority to administer, in the respects hereinafter stated, the aforesaid order:

(1) The aforesaid Order Administrator may, after having received in each instance prior approval by the Chief or Acting Chief of the Fruit and Vegetable Branch, Food Distribution Administration, War Food Administration, issue general authorizations in accordance with the provisions of § 1405.18 (b) (3) of the order, and may, after having received in each instance prior approval as aforesaid, prescribe, in accordance with the provisions of § 1405.18 (b) (4) of the order, the minimum grade of all peaches which may be shipped pursuant to such order.

(2) The aforesaid Order Administrator may exercise the authority conferred on the Director by the provisions of § 1405.18 (b) (5) and § 1405.18 (c) of the order.

(3) The aforesaid Order Administrator or any Deputy Order Administrator may exercise the authority conferred on the Director by the provisions of § 1405.18 (b) (2) of the order.

(c) *Effective date.* The provisions hereof shall become effective at 12:01 a. m., e. w. t., August 9, 1943.

PART 1407—DRIED FRUIT

RESTRICTIONS ON PURCHASE, ACCEPTANCE, AND DELIVERY OF DRIED FRUIT

Food Distribution Order No. 16 (8 F.R. 1705), issued by the Secretary of Agriculture on January 30, 1943, is hereby amended to read as follows:

§ 1407.1 *Restrictions on the purchase, delivery, and use of dried fruit*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) The term "dried fruit" means the whole or fleshy portions of apples, apricots, peaches, pears, prunes, and the Thompson seedless, Muscat, Sultana, and Zante currant varieties of grapes preserved by the removal therefrom of part of the natural moisture and, unless otherwise indicated, shall include such fruit in its natural or processed condition.

(2) The term "packer" means any person engaged in the business of processing and packaging dried fruit or having dried fruit processed and packaged for his account.

(3) The term "producer" means any person engaged in the production of dried fruits; and such term includes, but is not limited to, any owner of fresh fruit at the time such fruit is dried.

(4) The term "processing" means grading, sizing, stemming, seeding, or treating dried fruit by the use of water, steam, chemicals, or compressed or hot air; or cutting fresh apples for the production of dried apples.

(5) The term "governmental agency" means (i) the Armed Services of the United States; (ii) the Food Distribution Administration, War Food Administration (including, but not restricted to, the Federal Surplus Commodities Corporation); (iii) the War Shipping Administration; (iv) the Veterans' Administration; and (v) any other instrumentality or agency designated by the War Food Administrator. The term "governmental agency" also includes any contract school or ship operator, as defined in Food Distribution Regulation 2 (8 F.R. 7523), purchasing restricted fruit in accordance with said Food Distribution Regulation 2.

(6) The term "Armed Services of the United States" means the Army, the Navy, the Marine Corps, or the Coast Guard of the United States.

(7) The term "Director" means the Director of Food Distribution, War Food Administration.

(8) The term "person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(b) *Restrictions on packers and producers.* (1) No producer may sell or deliver dried fruit except to (i) the Food Distribution Administration (including but not restricted to the Federal Surplus Commodities Corporation); (ii) any person or agency designated by the Director; or (iii) a packer.

(2) Each packer shall, without regard to existing contracts, set aside and hold for delivery to a governmental agency, all dried fruit, and all fresh fruit acquired for use in the production of dried fruit, which was in his possession, under his control, or under contract to him on August 10, 1942, or was acquired by such packer within a period of two calendar years thereafter. All fruit so set aside shall not be processed or packed without instructions furnished by the Director, or any governmental agency, if such fruit is to be purchased by a governmental agency. The Director or any governmental agency may issue specifications at any time as to the processing, packing, labeling, boxing, and strapping of the fruit to be acquired by each such governmental agency.

(3) Each packer shall mail to, or file with, the Director on the 15th and last days of each month reports on Form FDO series. (This reporting requirement has been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.)

(4) If the Director determines that any dried fruit set aside pursuant to this order is not required for a governmental agency, the Director may release such dried fruit at any time by notice directed to the packer. So far as such action is consistent with the defense requirements of the United States, such releases shall be of such a character as to allow all packers substantially equal proportions of their packs of each fruit for sale to purchasers other than governmental agencies.

(5) Any quantities of dried fruit allocated or released shall, unless otherwise specified, be withdrawn by the packer from the earliest reported stocks of such dried fruit.

(c) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of dried fruit of any person, and to make such investigations, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(d) *Records and reports.* The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(e) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship on him may apply in writing for relief to the Director, setting forth in such petition all pertinent facts and the nature of the relief sought. The Director may thereupon take such action as he deems appropriate, which action shall be final.

(f) *Violations.* The War Food Administrator may, by suspension order, prohibit any person who violates any provision of this order from receiving, making any deliveries of, or using dried fruit, or any other material subject to priority or allocation control by the War Food Administrator, and may recommend that any such person be prohibited from receiving, making any deliveries of, or using materials subject to the priority or allocation control of other governmental agencies. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(g) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department

of Agriculture any or all of the authority vested in him by this order.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the Director of Food Distribution, War Food Administration, United States Department of Agriculture, Washington 25, D. C., Ref. FDO 16.

(i) *Conservation Order No. M–205, as amended, superseded.* This order supersedes in all respects Conservation Order No. M–205, as amended, issued by the War Production Board on November 11, 1942, except that, as to violations of said order, or rights accrued, liabilities incurred, or appeals taken under said order, said Conservation Order No. M–205, as amended, shall be deemed in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, or liability. Any appeal pending under said Conservation Order No. M–205, as amended, shall be considered under (e) hereof.

(j) *Effective date.* This order shall become effective 12:01 a. m., e. w. t., August 10, 1943.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess Profits Taxes

[T.D. 5289]

PART 30—REGULATIONS UNDER THE EXCESS PROFITS TAX ACT OF 1940

AVERAGE BASE PERIOD NET INCOME IN CASE OF PRIOR STOCK ACQUISITION

Section 30.742–2 (b) (3) (ii) (B) of Regulations 109, as added by Treasury Decision 5242, approved March 11, 1943, is amended by striking out the last paragraph (including examples (1) and (2) of such paragraph) and by inserting in lieu thereof the following paragraph:

Section 742 (f) (1) also applies in cases in which a component (referred to as the "first corporation") of the taxpayer transfers assets for the stock in a corporation (referred to as the "second corporation") and both corporations become components of the taxpayer (the second corporation becoming a component either directly or as a component of the first corporation). The statute also applies to any other corporation which becomes a component of the taxpayer and which at the time of a stock acquisition by the taxpayer or first corporation (under the circumstances described in section 742 (f) (1) (A) or (B)) was connected, directly or indirectly, through stock ownership with the corporation the stock of which was acquired. In the case of such a corporation connected through stock ownership, the statute applies regardless of the manner of acquisition of the stock of such connected corporation held at such time (for example, whether or not acquired for a consideration other than the issuance of stock). The statute also applies regardless of the date before such time that the corporation holding such stock, directly or indirectly, acquired such stock of such connected corporation. That is, it is immaterial whether the stock of such connected corporation held at such time was acquired before, on, or after December 31, 1935, as long as such stock was acquired before the time the acquisition of stock of the corporation to which it was so connected occurred in a transaction described in section 742 (f) (1) (A) or (B). In the case of any such corporation connected through stock ownership at such time, the amount of its excess profits net income, or deficit, which is to be eliminated under section 742 (f) (1) is to be determined by reference to that part of such amount which is attributable to the period prior to such time and which is attributable to the stock held, directly or indirectly, at such time, and not disposed of thereafter, by the corporation the stock of which was acquired at such time by the taxpayer or first corporation. Such experience to be eliminated is to be attributed to the period prior to such time and to such stock so held upon the basis of the principles previously stated in this subsection. To the extent that the stock of a corporation (later to become a component) was not so held at such time but was subsequently acquired, after December 31, 1935 by the taxpayer or another corporation (a first or second corporation), for assets of the latter, the base period experience of such corporation is to be excluded in accordance with the rules previously set forth in this subsection for excluding the experience of a component when the latter's stock is acquired after December 31, 1935, for assets by the taxpayer. The application of these rules in such cases is illustrated by the following examples:

Example (1). The R, S, T, and U Corporations were in existence prior to January 1, 1936, and at all times made their income tax returns on the calendar year basis. The S Corporation came into existence on January 1, 1935, and issued all of its stock to the stockholders of the T Corporation for the stock of the latter. On January 1, 1937, the S Corporation purchased for cash all of the stock of the U Corporation. On January 1, 1938, the R Corporation purchased for cash all of the stock of S from the latter's stockholders. On December 31, 1939, S acquired all of the assets of the T and U Corporations in Supplement A transactions. On December 31, 1940, R acquired all of the assets of S in a Supplement A transaction. In computing the Supplement A average base period net income of R, there is to be excluded under section 742 (f) (1) the experience of S, T, and U for 1936 and 1937.

Example (2). Assume the same facts as in example (1) above except that the S Corporation made the acquisition of the U Corporation's stock on January 1, 1939 (after the acquisition by R of the stock of S). In such case, there is to be excluded under section 742 (f) (1) the experience of both S and T for 1936 and 1937 and the experience of U for 1936, 1937, and 1938.

Example (3). The W, X, Y, and Z Corporations were all in existence in 1935 and at all times made their income tax returns on the calendar year basis. In July, 1935, the X Corporation acquired 50 percent of the stock of Y from the stockholders of the latter. On January 1, 1937, the W Corporation acquired for assets (other than its own stock) all of the stock of the X Corporation from the latter's stockholders. On January 1, 1938, the X Corporation acquired for assets (other than its own stock) the remaining 50 percent of the stock of the Y Corporation from other stockholders of the latter. On January 1, 1939, the Y Corporation acquired for assets (other than its own stock) all of the stock of the Z Corporation from the latter's stockholders. On January 31, 1939, the X Corporation acquired all of the assets of the Y Corporation in a Supplement A transaction and on November 30, 1939 the W Corporation acquired all of the assets of the X Corporation in a Supplement A transaction. On December 31, 1939, the W Corporation acquired all of the assets of the Z Corporation in a Supplement A transaction. In computing the Supplement A average base period net income of the W Corporation, there is to be excluded all of the experience of the X Corporation for 1936. There is also to be excluded all of the experience of the Y Corporation for 1936, one-half of such experience being excluded because of the 50 percent ownership of its stock by the X Corporation at the time the stock of X was acquired by W, and the other half being excluded because of the subsequent acquisition of the other 50 percent of the stock of Y by the X Corporation for the assets of the latter. One-half of the experience of the Y Corporation for 1937 is also to be excluded because of the acquisition of one-half of its stock on January 1, 1938 by the X Corporation for assets of the latter. The entire experience of the Z Corporation for 1936, 1937, and 1938 is to be excluded because of the acquisition from the stockholders of Z on January 1, 1939 of the stock of Z for assets of the Y Corporation.

(Sec. 62 of the Internal Revenue Code (53 Stat. 32; 26 U.S.C. 62), as made applicable by sec. 729 (a) of the Internal Revenue Code (54 Stat. 989; 26 U.S.C. 729 (a)), and sec. 742 (f) (1) of the Internal Revenue Code, as added by sec. 228 (c) of the Revenue Act of 1942 (Pub. Law 753, 77th Cong.))

Acting Commissioner of Internal Revenue.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter A—General Provisions

PART 903—DELEGATIONS OF AUTHORITY

[Directive 28]

INTERNAL COMBUSTION ENGINES FOR FARMERS

Pursuant to authority vested in me by Executive Order No. 9024 of January 16, 1942, Executive Order No. 9125 of April 7, 1942, and War Production Board Regulation No. 1 as amended March 24, 1943, and in order to facilitate the distribution of internal combustion engines, rated at not more than twenty (20) H. P., for use in essential agricultural needs, *It is hereby ordered:*

§ 903.40 *Directive 28.* (a) Subject to the provisions of paragraph (b), the War Food Administrator is hereby authorized to assign preference ratings to farmers, and to persons operating farm equipment on farms for hire, to enable them to procure engines for essential agricultural needs.

(b) The War Food Administrator in exercising the authority delegated in paragraph (a) above will comply with such conditions as may be prescribed from time to time by written memorandum from the Program Vice-Chairman in respect to the following matters:

(1) The level of preference ratings assignable pursuant to paragraph (a).

(2) The uses for which such ratings are assigned.

(3) The form of the instruments by which such ratings are assigned.

(4) The total quantity of internal combustion engines, rated at not more than twenty (20) H. P., for which ratings may be so assigned.

(5) The period of time during which ratings may be so assigned.

(c) The War Food Administrator is authorized to inspect the books, records and other writings of engine producers, distributors and dealers to determine their compliance with Priorities Regulations and orders insofar as preference ratings assigned under the authority of this Directive are concerned.

(d) The War Food Administrator may exercise the authority delegated in this Directive through such officials, including the United States Department of Agriculture War Boards, as he may determine.

(e) Nothing herein shall be construed to limit or modify any order heretofore issued by the Director of Priorities of the Office of Production Management, by the Director of Industry Operations of the War Production Board, by the Director General for Operations of the War Production Board, or by the War Production Board, as from time to time amended, nor to delegate to the War Food Administrator the power to extend, amend, or modify any such order.

(f) For the purpose of this Directive:

(1) "Engine" means any internal combustion air-cooled or liquid-cooled gasoline or kerosene driven engine, rated at not more than twenty (20) H. P. This Directive does not cover engines above 20 H. P. nor Diesel engines.

(2) "Farmer" means a person who engages in farming by raising crops, livestock, bees or poultry, and persons operating farm equipment on farms for hire. It does not include a person who raises agricultural products entirely for his own use.

(3) "Producer" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacturing or assembling of engines.

(4) "Distributor" or "Dealer" means any person engaged in the business of selling engines to farmers or other consumers.

PART 905—SPECIFICATIONS

[Directive 29]

NATIONAL EMERGENCY SPECIFICATIONS OF GRADE LUMBER

Pursuant to the authority vested in me by Executive Orders No. 9024 of January 16, 1942, No. 9040 of January 24, 1942, and No. 9125 of April 7, 1942, and pursuant to the policy stated in the Joint Directive of the War Production Board and the War and Navy Departments dated May 20, 1942, and the Army and Navy Munitions Board "List of Prohibited Items for Construction Work", dated April 1, 1942, as revised and supplemented, the following policy is prescribed (1) for the War Production Board and for the Army, Navy, Maritime Commission, Reconstruction Finance Corporation, National Housing Agency, and (2) for all other Departments and Agencies in respect to war construction and the financing of war construction.

§ 905.3 *National Emergency specifications for design, fabrication and erection of stress grade lumber and its fastenings for buildings.* (a) "National Emergency Specifications for the Design, Fabrication and Erections of Stress Grade Lumber and its Fastenings for Buildings"[1] issued by the War Production Board on August 9, 1943, shall apply to and shall govern the design, fabrication and erection of all buildings in which stress grades of lumber are used, and which are constructed by, or the construction of which is financed by or must be approved by any of such departments or agencies. Such emergency specifications shall be used only in the design, fabrication and erection of buildings to the extent stress grades of lumber are used and the contracts for which are placed on and after November 1, 1943, but such departments and agencies are empowered to put this directive into immediate effect wherever

[1] Filed as part of the original document. Copies may be obtained from the War Production Board.

possible. As used herein, "stress grade" lumber means lumber which has been graded for strength by a recognized lumber grading or inspection bureau or agency.

(b) Nothing herein shall prevent the Army, Navy, or Maritime Commission from specifying and using higher stresses than those set forth in such emergency specifications for any buildings which are under their control.

(c) With respect to any such contracts already placed by any of said departments or agencies, or entered into prior to November 1, 1943, the department or agency concerned shall review the contract promptly and shall change to said emergency specifications unless such change will result in a substantial delay in the war effort.

(d) The department or agency undertaking or approving the construction shall obtain from the person in responsible charge of the design of each such building a certificate to the effect that such emergency specifications have been complied with. In cases where Forms WPB–617 (formerly PD–200) and WPB–2570 (formerly PD-200C) must be filed with the War Production Board in order to obtain authorization to begin construction of such building, such certificate shall be filed with said forms.

(e) Authority to depart from the provisions of this directive may, upon specific request, be granted by the War Production Board. Applications for such authority shall be submitted in writing with the application for permission to begin construction, or, if no such application is necessary, by letter addressed to: War Production Board, Conservation Division, Washington 25, D. C., Ref.: Directive 29.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–269, Amdt. 1]

STAPLETON HEATING COMPANY

Stapleton Heating Company of Johnstown, Pennsylvania, has appealed from the provisions of Suspension Order S–269, issued April 3, 1943. After a review of the case, it has been determined that the appeal be denied but that Suspension Order S–269 be modified so as to expire on August 6, 1943, instead of October 6, 1943.

In view of the foregoing: *It is hereby ordered*, That Paragraph (c) of § 1010.269, Suspension Order S–269, issued April 3, 1943, is hereby amended to read as follows:

(c) This order shall take effect on April 6, 1943, and shall expire on August 6, 1943, at which time the restrictions contained in this order shall be of no further effect.

Issued this 6th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1010—SUSPENSION ORDERS

[Stay of Execution of Suspension Order S–316]

CLARK OIL COMPANY

A stay of execution was issued, pursuant to direction of the Deputy Chief Compliance Commissioner, on June 11, 1943, which provided that the Government should have an opportunity to arrange for a rehearing in the matter of the Clark Oil Company. A rehearing was held and this stay is issued upon direction of the Deputy Chief Compliance Commissioner pending determination of the rehearing. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.316 *Suspension Order S–316.* (a) The provisions of Suspension Order S–316, issued May 6, 1943, are hereby stayed effective July 11, 1943.

(b) This stay shall expire at such time as the Compliance Commissioner shall have rendered a supplementary report in the above matter and an order has been duly issued pursuant thereto.

Issued this 7th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3099—ACETIC ANHYDRIDE, ACETIC ACID AND ACETALDEHYDE

[Allocation Order M–243, as Amended August 7, 1943]

Part 3099 "Acetic Anhydride" is hereby amended to read "Acetic Anhydride, Acetic Acid and Acetaldehyde."

Section 3099.1 *General Preference Order M–243* is hereby amended to read:

§ 3099.1 *Allocation Order M–243*—(a) *Definitions.* (1) "Acetic anhydride" means acetic anhydride (ethanoic anhydride of any grade and from whatever source derived.

(2) "Acetic acid" means acetic acid (ethanoic acid) of any grade and from whatever source derived, including recovered acetic acid. The term does not include acetic acid recirculated as such within a manufacturing process nor does it include acetic acid of less than 12% concentration (vinegar) produced at plants at which there are no facilities for further chemical conversion.

(3) "Recovered acetic acid" means that acid which is removed from a manufacturing process in which that acid was used as a raw material whether introduced as acetic acid or acetic anhydride, or as a solvent or any other material, excluding acetic acid which is recirculated as such within the manufacturing process. By "removed" is meant removal for resale, conversion into acetic anhydride, or use in another manufacturing process in the same plant or separate plants.

(4) "Acetaldehyde" means acetaldehyde (acetic aldehyde or ethyl aldehyde) of any grade and from whatever source derived.

(5) "Producer" means any person who produces or imports acetic anhydride, acetic acid or acetaldehyde, and includes any person who has acetic anhydride, acetic acid or acetaldehyde produced for him pursuant to toll agreement.

(6) "Distributor" means any person who buys acetic anhydride, acetic acid or acetaldehyde for purposes of resale as such.

(7) "Supplier" means a producer or distributor.

(b) *Restrictions on deliveries.* (1) No supplier shall deliver acetic anhydride, acetic acid or acetaldehyde to any person except as specifically authorized in writing by War Production Board, in the normal case upon application filed pursuant to paragraph (e) hereof.

(2) No person shall accept delivery in any calendar month from all suppliers of more than 27,000 pounds in the aggregate of any one of the three chemicals, acetic anhydride, acetic acid or acetaldehyde, except as specifically authorized in writing by War Production Board, in the normal case upon application filed pursuant to paragraph (f) (1) hereof. Acetic acid weight shall be calculated on a 100% acid basis.

(3) No person shall accept delivery in any calendar month from all suppliers of 27,000 pounds or less in the aggregate of any one of the three chemicals, acetic anhydride, acetic acid (100% basis) or acetaldehyde, and no person shall place any such order for such delivery, unless and until he shall have furnished each supplier with a use certificate pursuant to paragraph (f) (2) hereof, but such certificate need not be furnished with respect to any one of the chemicals, acetic anhydride, acetic acid (100% basis) or acetaldehyde where the quantity of such chemical delivered or ordered for delivery in any calendar month from all suppliers is not more than 54 gallons.

(c) *Restrictions on use.* (1) No supplier shall use acetic anhydride, acetic acid or acetaldehyde except as specifically authorized or directed in writing by War Production Board, in the normal case upon application filed pursuant to paragraph (f) (1) hereof.

(2) Each person who with an order for acetic anhydride, acetic acid and acetaldehyde furnishes the certificate required by paragraph (f) (2), shall use the chemical delivered on such order only as specified in such certificate except as otherwise specifically authorized or directed in writing by War Production Board.

(3) Acetic anhydride, acetic acid and acetaldehyde allocated for inventory shall not be used for any purpose except as specifically authorized or directed in writing by War Production Board.

(d) *General and special instructions of War Production Board.* (1) Authorizations and directions as to deliveries and use to be made by suppliers and with respect to acceptance of delivery in quantities exceeding 27,000 pounds (in the case of acetic acid on a 100% basis) in the aggregate in each month will generally be issued by War Production Board prior to the beginning of such month, but War Production Board may at any time issue special directions to any person with respect to:

(i) Use, delivery or acceptance of delivery of acetic anyhdride, acetic acid or acetaldehyde.

(ii) Production of acetic anhydride, acetic acid or acetaldehyde.

(2) War Production Board may issue to suppliers and other persons, other and different directions with respect to preparing and filing Forms WPB 2945 (formerly PD–600) and WPB 2947 (formerly PD–602) provided for in the paragraphs (e) and (f).

(e) *Applications by suppliers for authorization to deliver.* (1) Each supplier seeking authorization to make delivery of acetic anhydride, acetic acid or acetaldehyde during any calendar month to any person who has filed with him Form WPB 2945 (formerly PD–600) respecting a delivery in such month, shall file application on or before the 20th of the preceding month. The application shall be made on Form WPB 2947 (formerly PD–602) in the manner set forth in the general instructions appearing on that form, subject to the special instructions appearing in Appendix A. If there is an inconsistency between the general and special instructions, the special instructions must be followed.

(2) Each supplier seeking authorization to make delivery of acetic anhydride, acetic acid or acetaldehyde during any calendar month to any person who has filed with him the use certificate provided for by paragraph (f) (2) or to any person ordering not more than 54 gallons, shall file application on or before the 20th of the preceding month. The application shall be made on Form WPB 2947 (formerly PD–602) in the manner set forth in the general instructions appearing on that form, subject to the special instructions appearing in Appendix A. If there is an inconsistency between the general and special instructions, the special instructions must be followed.

(f) *Applications and use certificates to be filed by prospective purchasers.* (1) Each person wishing to obtain delivery in any calendar month from all sources of more than 27,000 pounds of any one of the three chemicals, acetic anhydride, acetic acid (100% basis) and acetaldehyde (and each supplier requiring authority to use any such chemical in any calendar month regardless of quantity) shall file application on or before the 15th of the preceding month. The application shall be made on Form WPB 2945 (formerly PD–600) in the manner set forth in the general instructions appearing on that form, subject to the special instructions contained in Appendix B. If there is an inconsistency between the general and special instructions, the special instructions must be followed.

(2) Each person wishing to accept delivery in any calendar month from all sources of not more than 27,000 pounds (but more than 54 gallons) of any one of the three chemicals, acetic anhydride, acetic acid (100% basis) and acetaldehyde, shall file with each supplier on or before the 15th of the preceding month a certificate stating the use for which he is ordering such chemical. Such certificate must be substantially in the form indicated in Appendix C. It need not be filed with War Production Board. A supplier must not deliver any such chemical where he knows or has reason to believe the purchaser's certificate is false, but in the absence of such knowledge, or reason to believe, he may rely on the certificate.

(g) *Miscellaneous provisions* — (1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of War Production Board, as amended from time to time.

(2) *Approval of reporting requirements.* Forms WPB 2945 and WPB 2947 (formerly PD–600 and PD–602 respectively) provided for in paragraphs (e) (1), (e) (2) and (f) (1), have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C., Ref: M–243.

This amended order shall take effect September 1, 1943, except that the provisions as to applications for authority to deliver, accept delivery or use during September 1943, shall take effect at once. Order M–243, issued October 20, 1942 shall continue in effect until so superseded.

Issued this 7th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A—SPECIAL INSTRUCTIONS FOR SUPPLIER'S FORM WPB 2947 (FORMERLY PD–602)

(1) *Obtaining forms.* Copies of Form WPB 2947 (formerly PD–602) may be obtained at local field offices of the War Production Board.

(2) *Number of copies.* Prepare an original and three copies. File original and two copies with War Production Board, Chemicals Division, Washington, D. C., Ref: M–243, retaining the third copy for your files. The original shall be manually signed by a duly authorized official.

(3) *Separate set of forms for each chemical.* Where the supplier's application relates to deliveries of two or more of the three chemicals, he shall file a separate set of Form WPB 2947 (formerly PD–602) for each.

(4) *Information at top of form.* In the heading, under "name of material" specify "Acetic anhydride", "Acetic acid" or "Acetaldehyde"; leave "grade" blank; under

"WPB Order No.", specify "M-243"; indicate month and year during which deliveries covered by the application are to be made; under "Unit of measure", specify "pounds", except in the case of acetic acid, where indicate "pounds of 100% acetic acid"; under "Name of Company", specify your name and the address of the plant from which shipment will be made.

(5) *Grade (percent) of acetic acid.* In the case of proposed deliveries of acetic acid, specify grade in Column 7 (Remarks) in terms of percent of acid content.

(6) *Listing of customers.* In Column 1 (except for small orders as explained in (8) below) list the name of each customer from whom an order for delivery during the applicable month has been received. List first the name of each customer who has filed with you Form WPB 2945 (formerly PD-600) in connection with his order. Thereafter, leave a space, and insert in Column 1 "Use certificate", and then list the name of each customer from whom a use certificate has been received under paragraph (f) (2) with respect to a delivery in the applicable month. Do not list names of customers who have not placed with you either Form WPB 2945 or a use certificate. If it is necessary to use more than one sheet to list customers, number each sheet in order and show separately on the last sheet the total poundage ordered by customers filing Form WPB 2945 and the total poundage ordered by customers filing use certificates.

(7) *Primary product and end use.* In Column 1-a, opposite the name of each customer filing a use certificate (obtained under paragraph (f) (2)), specify the product or products in the manufacture or preparation of which acetic anhydride, acetic acid (100% basis) or acetaldehyde will be used by such customer, the end use to which such product or products will be put, Army or, Navy contract numbers, Lend-Lease requisition or contract numbers, and export license numbers, all as indicated on such use certificate. The quantity of acetic anhydride, acetic acid (100% basis) or acetaldehyde used in the manufacture or preparation of each primary product for each end use shall be shown separately. If the chemical ordered by a customer is for two or more uses, indicate each use separately and list the quantity ordered for each use. It is not necessary to show primary product or end use with respect to a customer filing Form WPB 2945 (formerly PD-600). Instead, in Column 1-a, opposite the name of each customer filing such Form WPB 2945, enter merely "WPB 2945."

(8) *Small orders.* It is not necessary to list the name of any customer to whom the supplier is to deliver in the applicable month not more than 54 gallons of any one of the three chemicals, acetic anhydride, acetic acid (100% basis) or acetaldehyde, unless such customer has filed a use certificate, nor is it necessary in the case of any such delivery to show the name of the product or end use. Instead, write in Column 1 "Total small order deliveries (estimated)" and in Column 4, specify total estimated quantity of acetic anhydride, acetic acid or acetaldehyde to be delivered on such orders.

(9) *Use by producers.* Each producer who has filed application on Form WPB 2945 (formerly PD-600) specifying himself as his supplier, shall list his own name as customer in Column 1 on Form WPB 2947 (formerly PD-602).

(10) *Table II.* Each producer shall report production, deliveries and stocks as required by Table II, Columns 9 to 16, inclusive. Distributors shall fill out only Columns 10, 12, and 13. In Column 8 producers and distributors shall show, where Form WPB 2947 (formerly PD-602) relates to acetic acid, the percent of acid content or where Form WPB 2947 (formerly PD-602) relates to acetic anhydride or acetaldehyde, will leave Column 8 blank.

(11) *Recovered acetic acid.* In the case of recovered acetic acid show such acid separately from other acetic acid in Table II. If necessary, use supplemental rider and attach to Form WPB 2947 (formerly PD-602).

APPENDIX B—SPECIAL INSTRUCTIONS FOR CUSTOMER'S FORM WPB 2945 (FORMERLY PD-600)

(1) *Obtaining forms.* Copies of Form WPB 2945 (formerly PD-600) may be obtained at local field offices of the War Production Board.

(2) *Number of copies.* Prepare an original and four copies. Forward original and two copies to War Production Board, Chemicals Division, Washington 25, D. C., Ref: M-243, forward one copy to the supplier with whom order is placed, and retain one copy for your files. The original shall be signed by a duly authorized official. Where the application is by a supplier for authorization to use, no copy should be sent to a producer or distributor.

(3) *Separate set of forms for each chemical.* A customer who wishes to obtain delivery of two or more of the three chemicals, acetic anhydride, acetic acid or acetaldehyde, must file a separate set of Form WPB 2945 (formerly PD-600) for each.

(4) *Material.* In the heading under "Name of chemical", specify "Acetic anhydride", "Acetic acid" or "Acetaldehyde", as the case may be; under "WPB Order No.", specify "M-243"; under "Unit of measure", specify "Pounds", except in the case of acetic acid, where specify "Pounds of 100% acetic acid".

(5) *Month and year.* In the heading, at top of Table I, specify the month and year for which delivery is requested.

(6) *Grade (percent) of acetic acid.* Leave blank Columns 1 and 11, except in the case of acetic acid where percent of acid content should be stated.

(7) *Quantities.* In the case of applications for acetic acid, indicate in Columns 2, 13 to 16, inclusive, and 18, quantities in terms of pounds of 100% acetic acid.

(8) *Primary product.* In Column 3, applicant must specify in terms of the following the product or products in the manufacture or preparation of which the chemicals subject to this order will be used:

(For acetic anhydride)

Aspirin.
Cellulose acetate.
Cellulose acetate butyrate.
Cellulose acetate propionate.
Explosives.
Synthetic casein fibre.
Synthetic vitamins.
Triacetin.
Other primary products (specify).
Resale (as acetic anhydride).
Export (as acetic anhydride).
Inventory (as acetic anhydride).

(For acetic acid)

Acetic anhydride.
Drugs and pharmaceuticals.
Dyestuffs.
Amyl acetate.
Butyl acetate.
Ethyl acetate.
Isopropyl acetate.
Photographic products.
Sodium acetate.
Vinyl acetate.
Other primary products (specify).
Resale (as acetic acid).
Export (as acetic acid).
Inventory (as acetic acid).

(For acetaldehyde)

Acetic acid.
Butadiene.
Pentaerythritol.
Other primary products (specify).
Resale (as acetaldehyde).
Export (as acetaldehyde).
Inventory (as acetaldehyde).

(9) *End use.* In Column 4, applicant will specify with respect to each primary product the ultimate use to which such primary product will be put in terms of the following:

Opposite any primary product listed in Column 3 which is subject to allocation, specify in Column 4 only the allocation order number (for example, "M-326" for cellulose acetate, cellulose acetate butyrate and cellulose acetate propionate; "Order M-159" for butyl acetate; "Order M-327" for ethyl acetate and isopropyl acetate; "Order M-10" for vinyl acetate; "Order M-178" for butadiene; and "Order M-25" for pentaerythritol.

Opposite any primary product listed in Column 3 which is not under allocation, specify end use in terms of the following, giving also Army and Navy contract numbers, and Lend-Lease requisition or contract numbers when available:

Dyestuffs.
Explosives.
Leather tanning and processing.
Mordant.
Paint pigment.
Photographic film.
Other film (specify).
Plastics.
Rubber accelerators.
Solvents.
Surface coatings.
Synthetic resins (specify type and state end use if not under allocation).
Textile bleaching.
Other end uses (specify).

Opposite "Export" in Column 3, specify in Column 4 the name of individual, company or governmental agency to whom or for whose account the material is to be exported, the country of destination and the governing export license number, unless Lend-Lease, in which case merely specify the Lend-Lease requisition or contract number.

Opposite "Resale" in Column 3, distributors shall write into Column 4 "upon further authorization" or "for uncertified small orders of 54 gallons or less." In the case of small orders for acetic acid, also specify "100% basis".

Opposite "Inventory" in Column 3 specify in Column 4 "subject to further authorization".

(10) *Tables II, III and IV.* Fill out Tables II, III and IV completely.

(11) *Table V.* In Column 23, list each primary product produced in last month. In Column 24, list quantity of acetic anhydride, acetic acid (100% basis) or acetaldehyde, consumed in last month in the manufacture of each such primary product. In Column 25, list the quantity of acetic anhydride, acetic acid (100% basis) or acetaldehyde allocated to you for the manufacture of each such primary product in last month.

APPENDIX C—CUSTOMER'S CERTIFICATE OF INTENDED USE

The undersigned purchaser hereby certifies to War Production Board and to his supplier, pursuant to Order No. M-243, that the ---------- [specify whether acetic anhydride, acetic acid or acetaldehyde] ordered for delivery in ----------, 194--, will be used
month
by him in the manufacture or preparation of the following product(s), and that such product(s) on the basis of order(s) filed with the undersigned, will be put to the following end use(s):

	Gallons	Primary product	End use
(A)	--------	----------	--------
(B)	--------	----------	--------

Name of Purchaser

---------- By ---------- -----
Date Duly Authorized Official Title

Instructions for customer's certificate

(1) The certificate shall be signed by an authorized official of the purchaser, either manually or as provided in Priorities Regulation No. 7.

(2) Where a purchaser wishes to receive from all sources more than 54 gallons of any one of the three chemicals, acetic anhydride, acetic acid (100% basis) or acetaldehyde, a separate certificate shall be filed as to each.

(3) The purchaser will specify under "Primary product", the exact product or products in the manufacture or preparation of which the acetic anhydride, acetic acid or acetaldehyde will be used or incorporated. Primary products should be stated in terms of the primary products listed in paragraph (8) of Appendix B.

(4) Under "End use", purchaser will specify the ultimate or end use to which the primary product will be put in terms of the end uses stated in paragraph (9) of Appendix B. He will also indicate whether civilian, Lend-Lease, other export or military, and if the product is for uses falling in two or more such categories, the percentage falling in each. Also, indicate contract numbers in the case of military use, requisition or contract numbers in the case of Lend-Lease, and in the case of other export, export license numbers. A distributor ordering acetic anhydride, acetic acid or acetaldehyde for resale as such will leave blank the "End use" column.

PART 970—CHLORINATED HYDROCARBON REFRIGERANTS

[Amdt. 1 to Conservation Order M-28, as amended July 10, 1943]

Section 970.1 *Conservation Order M-28, as amended July 10, 1943* is hereby amended in the following respects:

1. That part of paragraph (b) which defines Classes III and IV is amended to read as follows: (leaving the remainder of the paragraph unchanged):

(b) * * *

Class III: (a) Maritime Commission or War Shipping Administration, for charging new refrigeration or air conditioning systems at factories of equipment manufacturers.

(b) Maritime Commission or War Shipping Administration, for charging new refrigeration or air conditioning systems in the field.

(c) Maritime Commission or War Shipping Administration, for maintenance and repair of systems already installed.

Class IV: (a) For maintenance of industrial, wholesale, retail, and household refrigeration systems used for the processing, storage, and dispensing of food and food products; but excluding systems referred to on List A or List B.

(b) For maintenance of industrial refrigeration and air conditioning systems used for processing of products other than food.

(c) For maintenance of all other refrigeration and air conditioning systems not included under (a) or (b) above, and not on List A or List B. This class includes sealed railroad cars.

2. Subparagraph (d) (3) is amended to read as follows:

(d) * * *

(3) *Deliveries by suppliers after August 7, 1943, for uses in (b) and (c) of Class IV.* Chlorinated hydrocarbon refrigerants will not be allocated for the uses described in parts (b) and (c) of Class IV by regular monthly deliveries to suppliers. In the event a system operated for any of such uses becomes inoperative for lack of refrigerant, a separate application for refrigerants must be made by the owner of the system, directly to the War Production Board, General Industrial Equipment Division, by letter, telegram, or other communication, stating (i) whether the system is used for air conditioning or refrigeration, (ii) its size or capacity by horsepower or tons of refrigeration, (iii) the minimum operating charge necessary to restore the systems to operation, (iv) why conversion to another type of refrigerant is not practicable, (v) the functional use of the system in the plant, and (vi) the end product being processed by its use. If the application is granted, the Board will issue a specific direction to the producer authorizing and directing delivery of a specified quantity to be made to the owner of the particular system for the use specified. No user, supplier, or other person shall deliver any chlorinated hydrocarbon refrigerant to the owner of such a system unless and until the Board has specifically directed such delivery to be made. This paragraph (d) (3) shall be followed, as long as it remains in effect, notwithstanding any other provisions of this order. However, suppliers will continue to place their orders for refrigerants, for uses described in Class IV in parts (a), (b) and (c) (listing (a), (b) and (c) separately), in accordance with paragraph (d).

NOTE: This reporting requirement has been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

Issued this 7th day of August 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-368]

HOWARD GRAHAM, INC.

Howard Graham, Inc. is engaged in the operation of a retail furniture store at 1359 Madison Street, Memphis, Tennessee. Between September 1, 1942 and December 17, 1942, it sold and delivered new metal heating equipment, consisting of more than 50% metal by weight, although the orders therefor bore no preference ratings and had no certificates endorsed thereon, in violation of Limitation Order L-79. At the time of the transactions, respondent, through its officers, had general knowledge of the existence of War Production Board regulations and specifically of General Limitation Order L-79, and the officers of said corporation were under a duty to inform themselves of the regulations applicable to the business of the corporation. Their failure properly to inform themselves of these regulations constituted wilful violations of the order.

These violations of General Limitation Order L-79, as amended, have diverted scarce materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.368 *Suspension Order S-368.* (a) Howard Graham, Inc., its successors and assigns, shall not directly or indirectly purchase, accept delivery of, sell, deliver, or deal in, new metal heating equipment (as defined in Limitation Order L-79), either as complete units or parts therefor, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Howard Graham, Inc., its successors, or assigns from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on August 9, 1943, and shall terminate on November 9, 1943.

Issued this 2d day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

WALLICK AND BUENGER REALTY CO.

O. D. Wallick and Leonard H. Buenger, partners, doing business as Wallick & Buenger Realty Company, of Cheyenne, Wyoming, are, and for several years have been, realtors, title abstractors, and builders of residences. On August 29, 1942 the company applied to the War Production Board on Form PD-105 for a preference rating on Preference Rating Order P-55, to be used in procuring materials for the construction of 16 one-family dwelling units in Cheyenne. In this application the company agreed that in consideration of the issuance of the order, which was issued, 8 of the units would be held for rental to defense workers and would not be sold. In violation of this agreement the company did not hold any of those units for rental, but entered into contracts to sell, and sold, each of them before its construction was completed. In purchasing the materials that were used in constructing the 16 units, the company did not apply or extend any preference ratings and purchased and used 16 twenty-gallon water heaters and 16 hot-air furnaces which it was not authorized to purchase. The company kept no records of preference ratings assigned, or which should have been assigned, to purchase orders for materials used in con-

structing the 16 units, as required by Priorities Regulation No. 1.

The company, in constructing and selling the units, acted in reckless disregard of, and made no effort to familiarize itself with, the provisions and restrictions of its PD–105 application, the Preference Rating Order P–55 issued to it, and Priorities Regulation No. 1, and is guilty of wilful and significant violations of each of them.

This conduct of Wallick & Buenger Realty Company has hampered and impeded the war effort of the United States. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.380 *Suspension Order No. S–380.* (a) Deliveries of material to O. D. Wallick and Leonard H. Buenger doing business as Wallick & Buenger Realty Company, a partnership, or otherwise, their successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned, applied or extended to such deliveries to them, their successors or assigns, by means of preference rating certificates, preference rating orders, general preference orders, or any other orders and regulations of the War Production Board, unless hereafter approved in writing by the War Production Board.

(b) No allocation or allotment shall be made to O. D. Wallick and Leonard H. Buenger doing business as Wallick & Buenger Realty Company, a partnership, or otherwise, their successors or assigns, of any material or product, the supply or distribution of which is governed by any order of the War Production Board, except as specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve O. D. Wallick and Leonard H. Buenger doing business as Wallick & Buenger Realty Company, a partnership, or otherwise, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on August 9, 1943, and shall expire on December 9, 1943, at which time the restrictions contained in this order shall be of no further effect.

Issued this 2d day of August 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–385]

W. H. DEISROTH, INC.

W. H. Deisroth Incorporated is engaged in the manufacture of paper boxes at Third and Cambria Streets, Philadelphia, Pennsylvania. On October 30, 1942, it extended a preference rating, which had been received by it on May 7, 1942 for paper boxes, to the purchase of five fluorescent lighting fixtures which were capital equipment. This extension occurred more than ninety days after receipt of the rating and was an improper extension for obtaining capital equipment, and therefore constituted a violation of Priorities Regulation No. 3.

On November 2, 1942, respondent extended a preference rating for the purchase of a water lifter which was not to be delivered to respondent or to be incorporated in any materials made by respondent, but was delivered to respondent's landlord. It possessed no rating available to purchase this water lifter, and such action constituted a violation of Priorities Regulation No. 3. On or about May 8, 1942, respondent purchased a suction conveyor, which is used in the making of paper boxes, pursuant to a P–11–a preference rating certificate which it had no right to use. The respondent's false representations in connection with said certificate constituted a violation of Priorities Regulation No. 1. On December 10, 1942, respondent extended a preference rating for the purchase of an electric motor to replace one which had been burned in respondent's plant. This was done without authority from the War Production Board and the rating extended was not proper for the purchase of capital equipment.

Responsible officers of the company must be deemed either to have had direct knowledge of the aforesaid Regulations or from their past experience and general knowledge of the Orders of the War Production Board, they should have known of the aforesaid Regulations, and their violations must therefore be deemed wilful. These wilful violations of Priorities Regulation No. 1 and Priorities Regulation No. 3 have diverted critical materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing facts, *It is hereby ordered*, That:

§ 1010.385 *Suspension Order No. S–385.* (a) W. H. Deisroth Incorporated, Philadelphia, Pennsylvania, its successors or assigns, shall not engage in the manufacture of any paper "boxes" as said term is defined in Limitation Order L–239 as amended, unless hereafter specifically authorized in writing by the War Production Board.

(b) The provisions of this order shall not apply to orders bearing a preference rating of AA–3 or higher.

(c) Nothing contained in this order shall be deemed to relieve W. H. Deisroth Incorporated, its successors or assigns, of any restrictions, prohibitions, or provisions contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on August 9, 1943 and shall expire on November 9, 1943.

Issued this 2d day of August 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–391]

R. F. MESTAYER LUMBER CO., INC.

R. F. Mestayer Lumber Co., Inc., is a corporation engaged in the retail distribution of lumber and builders' supplies at 1533 Lafitte Avenue, New Orleans, Louisiana. Between November 1, 1942, and January 1, 1943, the respondent sold about $900 worth of lumber and building materials knowing that they were to be incorporated into a night club, located in New Orleans, where construction work had been started the estimated cost of which exceeded the limit permitted under Conservation Order L–41. Between December 1, 1942, and March 1, 1943, respondent made deliveries of more than $450 worth of lumber and other construction materials to another night club, located in New Orleans, where construction work had been started the estimated cost of which exceeded the limit permitted under Conservation Order L–41.

Respondent was familiar with Conservation Order L–41, and it knew or should have known from its business experience the construction limits imposed by this Order. The respondent knew that these two projects were night clubs, and would have as their principal designed function public amusement, and its actions in supplying these materials must be deemed to constitute wilful violations of Conservation Order L–41. These actions of respondent have diverted scarce materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing facts, *It is hereby ordered*, That:

§ 1010.391 *Suspension Order No. S–391.* (a) Delivery of materials to R. F. Mestayer Lumber Co., Inc., its successors or assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation or allotment shall be made to R. F. Mestayer Lumber Co., Inc., its successors or assigns, of any material or product the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve R. F. Mestayer Lumber Company, Inc., its successors or assigns, from any restriction, prohibition, or provision contained in any order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on August 9, 1943, and shall expire on October 9, 1943.

Issued this 4th day of August 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–392]

W. F. WOODBURY

W. F. Woodbury operates a lumber business at 154 East Fourth Street, Dunkirk, New York. On or after August 3, 1942, he began construction of two residences at 305 and 311 Railroad Avenue, Dunkirk, New York at an estimated cost of $1,000 each, in violation of Conservation Order L–41. After construction was begun, respondent filed an application with the War Production Board for approval of these two construction jobs. These applications for special permission were denied because the construction jobs were not deemed essential to the war effort. Respondent was aware of Conservation Order L–41 and his actions must be deemed to constitute wilful violations. These wilful violations of Conservation Order L–41 have diverted scarce materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing facts, *It is hereby ordered*, That:

§ 1010.392 *Suspension Order No. S–392.* (a) Delivery of materials to W. F. Woodbury, his successors or assigns, shall not be accorded priority, directly or indirectly, over deliveries under any other contract or order, and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, or any other orders or regulations of the War Production Board, except as specifically authorized in writing by the War Production Board.

(b) No allocation shall be made to W. F. Woodbury, his successors or assigns, of any material the supply or distribution of which is governed by any order of the War Production Board, except as specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve W. F. Woodbury, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on August 9, 1943, and shall expire on October 9, 1943.

Issued this 4th day of August 1943.

PART 1041—PRODUCTION, TRANSPORTATION, REFINING AND MARKETING OF PETROLEUM

[Preference Rating Order P–98–b as Amended August 9, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1041.2 *Preference Rating Order P–98–b.*

Purpose and Scope

(a) *Purpose.* The purpose of this order is to make available methods by which an operator may acquire deliveries of material for essential production and construction operations as well as for maintenance or repair purposes or as operating supplies. This order also applies to the use of material in certain construction operations and establishes uniform standards by which operators in the petroleum industry may obtain and use their necessary material requirements for the effective continuance of necessary petroleum industry operations.

From time to time supplementary orders or directions will be issued to operators covering the use of allotment numbers, symbols or preference ratings or the delivery or use of material and informing them of modifications in the programs and policies of the War Production Board or the Petroleum Administration for War.

(b) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Operator" means:

(i) Any person located in the United States, its territories or possessions to the extent that he is engaged in the petroleum industry (Domestic operator); or

(ii) Any person located in the Dominion of Canada to the extent that he is engaged in the petroleum industry and to whom and in whose name a copy of this order or of Preference Rating Order P–98, Extended and Amended, is or has been specifically issued and to whom a serial number has been assigned (Canadian operator).

(3) "Supplier" means any person with whom a delivery order is placed for delivery of material to an operator or to another supplier.

(4) "Petroleum" means petroleum, petroleum products and associated hydrocarbons, including but not limited to natural gas.

(5) Except as provided in Schedule B hereof, "petroleum industry" means any operation directly incident to:

(i) The discovery, development or depletion of petroleum pools (production);

(ii) The extraction or recovery of natural gasoline and associated hydrocarbons (natural gasoline production);

(iii) The transportation, movement, loading or unloading of petroleum other than natural gas (transportation);

(iv) The processing, refining or compounding of finished or unfinished petroleum products (refining);

(v) The distribution or dispensing of petroleum products (other than natural gas) and the storing of petroleum products incident thereto (marketing);

and shall include for each of the above listed branches of the industry, to the extent applicable therein, the investigation into more efficient or more effective methods of conducting petroleum industry operations by means of research or technical laboratories.

(6) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(7) "Production operation" means any use of material for construction, expansion, improvement, reconstruction, remodeling, alteration, maintenance, repair, or replacement incident to production.

(8) "Construction operation" means any use of material for construction, expansion, improvement, reconstruction, remodeling, alteration, maintenance, repair, or replacement incident to natural gasoline production, transportation, refining or marketing.

(9) "Maintenance or repair" means that use of material specified in Schedule A hereof.

(10) "Operating supplies" means any material (other than material used for maintenance or repair purposes) which is essential to and consumed in the petroleum industry and which is normally carried by an operator as operating supplies or which is normally chargeable to operating expense.

(11) "Research laboratory material" means material used exclusively for the purpose of carrying out investigations

into more efficient or more effective methods of conducting petroleum industry operations by means of research or technical laboratories, except that such material shall not include material for use in the construction of laboratory buildings or other structures.

(12) "Controlled material", "Class A product" and "Class B product" shall have the same meanings, respectively, as in CMP Regulation No. 1 of the War Production Board.

(13) "Allotment" means a determination by the Petroleum Administration for War or a further determination by any operator or secondary consumer as to the portion of its allotment of controlled materials which may be received by an operator or a secondary consumer, as the case may be.

(14) "Delivery order" means any purchase order, contract, release or shipping instruction which constitutes a definite and complete instruction from a purchaser to a seller calling for delivery of any material or product. The term does not include any contract, purchase order, or other arrangement which, although specifying the total amount to be delivered, contemplates that further instructions are to be given.

(15) "Authorized controlled material order" means any delivery order for any controlled material as such (as distinct from a product containing controlled material) which is placed pursuant to an allotment as provided in paragraph (j) of this order or which is specifically designated to be such by any regulation or order of the Petroleum Administration for War or the War Production Board.

(c) *Restrictions on scope of order.* (1) No operator may use an allotment number or symbol or apply a preference rating to secure delivery of any material which may be acquired under this order other than in accordance with the applicable provisions of this order: *Provided, however*, That an operator who, but for the terms of this subparagraph, would be required by Priorities Regulation No. 9 to utilize the method provided in that regulation to obtain priorities assistance for export, shall continue to obtain priorities assistance in the manner provided by Priorities Regulation No. 9, as amended from time to time.

(2) No operator may apply a preference rating to obtain delivery of any material specified or referred to on Schedule "C" except in conformity with the directions set forth on that schedule.

(3) Any allotment number or symbol issued or any preference rating assigned to any operator prior to May 15, 1943 shall not be considered revoked by the provisions of subparagraph (1) of this paragraph (c).

MRO Material

(d) *Method of securing MRO material and laboratory equipment.* (1) To secure delivery of research laboratory material or material for maintenance or repair purposes or as operating supplies—including without limitation controlled materials, Class A, or Class B products—an operator is hereby authorized to use allotment symbol MRO–P–98–b and a preference rating of AA–1, except for such material to be used in retail marketing (service station operations), to secure the delivery of which a preference rating of AA–5 is hereby authorized. Material delivered or to be delivered for use as research laboratory material, or for maintenance or repair purposes or as operating supplies is referred to as "MRO material".

(2) In placing an allotment symbol or preference rating on a delivery order for MRO material, the operator shall endorse upon such delivery order the certification provided in paragraph (l).

NOTE: Paragraph (d) (2) as amended August 9, 1943.

(3) Any operator requiring aluminum (in any of the forms or shapes constituting a controlled material) as essential MRO material, where the use of other material for this purpose is impracticable, may obtain such aluminum from a controlled materials producer or from an approved aluminum warehouse in amounts of not to exceed 100 pounds from all sources during any one calendar quarter, only by endorsing upon any delivery order the certification provided in paragraph (l).

Any operator requiring aluminum as essential MRO material (in any of the forms or shapes constituting a controlled material) in amounts in excess of 100 pounds from all sources during any one calendar quarter, where the use of other material for this purpose is impracticable, may apply for an allotment of the amount thereof in excess of 100 pounds during any one calendar quarter by a letter addressed to the Aluminum and Magnesium Division, War Production Board, Washington 25, D. C., Ref: MRO. Such letter should contain substantially the information called for by paragraphs (d) (1) to (d) (6) of Supplementary Order M–1–i, as amended March 10, 1943. Such operator may place authorized controlled material orders, based on any allotment received pursuant to such application, with a controlled materials producer or an approved aluminum warehouse only by using the certification provided in paragraph (l).

(4) Prior to placing with a supplier a delivery order for MRO material bearing the certification provided in paragraph (l), each operator shall submit copies of delivery orders to the Petroleum Administration for War or the Office of Oil Controller, as follows:

(i) Where Schedule D is applicable, submission shall be made in the manner and to the places specified therein. If Schedule D is not applicable:

(ii) Where the total cost to the operator of all items on the delivery order is $100.00 or more, but less than $1000.00, and the cost of every item on the delivery order is less than $500.00, *one* copy of such delivery order shall be submitted.

(iii) Where the total cost to the operator of all items on the delivery order is $1000.00 or more and the cost of every item on the delivery order is less than $500.00, *two* copies of such delivery order shall be submitted.

(iv) Where the cost to the operator of any item on the delivery order is $500.00 or more, *two* copies of such delivery order shall be submitted.

No delivery order need be submitted by an operator where the total cost to the operator of all items on the delivery order is less than $100.00.

When the delivery order is for MRO material to be used in production, a domestic operator shall submit such delivery order to the district office of the Petroleum Administration for War in the district where the material is to be used. When the delivery order is for MRO material to be used in any other branch of the industry, a domestic operator shall submit such delivery order: (a) to a district Office of the Petroleum Administration for War (in the district in which the material will be used or in which the purchasing office of the operator is located, as the operator may elect) where such delivery order is to be submitted in accordance with paragraphs (d) (4) (ii) or (d) (4) (iii); or (b) to the Washington Office of the Petroleum Administration for War where such delivery order is to be submitted in accordance with paragraph (d) (4) (iv). A Canadian operator shall, in every instance, submit such delivery order to the Office of Oil Controller of the Dominion of Canada.

Each such delivery order submitted to the Petroleum Administration for War or the Office of Oil Controller shall have endorsed upon it or be accompanied by a statement identifying the specific use to which the material is to be put, the branch of the petroleum industry and the PAW District in which the material is to be used, the price, quantity and description of the material on the delivery order (including weight if a controlled material), and, where applicable, such additional information as may be necessary to enable the proper official to make an accurate determination of the operator's needs.

(5) No operator may place with a supplier any delivery order submitted in accordance with paragraph (d) (4) (iii) or (d) (4) (iv) until approval has been received from the Petroleum Administration for War or the Office of Oil Controller.

(6) In placing a delivery order bearing an allotment symbol or preference rating, no operator shall alter the customary designation of any item or subdivide an ordinary purchase of any item or items for the purpose of making it appear that an item costs less than $500.00; that the total cost of all items on the delivery order is less than $1000.00; or that the total cost of all items on the delivery order is less than $100.00.

(e) *Emergency provisions for securing MRO material.* (1) If there has been an actual breakdown or suspension of operations and if the method specified in paragraph (d) for using the allotment symbol, preference rating or certification will not permit an operator to obtain MRO material on the date and in the quantity required, the operator may request authority to obtain delivery of such material by communicating by letter, telegram or telephone with the Petroleum Administration for War, Washington 25, D. D., Ref: P–98–b, supplying the following information:

(i) Date of actual breakdown or suspension of operations and exact explanation as to what extent operations are affected;

(ii) Description of equipment to be repaired and its function in maintaining continuous operation;

(iii) Price, quantity, and detailed description of necessary material (including weight if a controlled material) and number and date of delivery order(s) therefor.

Whenever any of the above information is furnished by telephone, the operator shall confirm such information within three days by a letter of telegram. No delivery order for MRO material for emergencies need be submitted.

(2) No operator may place with a supplier a delivery order, covering the delivery of material for which approval has been requested pursuant to paragraph (e) (1), until approval has been received from the Petroleum Administration for War or the War Production Board. In placing any such delivery order after receipt of approval, the operator shall use the certification provided in paragraph (l).

Material for Production Operations

(f) *Method of securing material for production operations*—(1) *Authorization of preference rating.* (i) To secure delivery of any material (other than MRO material) requiring the use of a preference rating, which material is for a production operation, an operator is hereby authorized to use a preference rating of AA–2X.

(ii) Subject to the applicable provisions of Petroleum Administrative Order No. 11, as amended and supplemented from time to time, an operator is hereby authorized to place an order with a supplier for delivery of material requiring the use of a preference rating, which material is for a production operation, only where the delivery order covering any such material is placed in accordance with the provisions of subparagraphs (f) (4) and (f) (5) of this order.

(2) *Allotment of controlled materials.* (i) Any domestic operator, who during the year 1942 drilled 40,000 feet of hole or more, may apply for authority to obtain delivery of any material (other than MRO material) requiring the use of an allotment number, which material is for a production operation, only by submitting to the District Office of the Petroleum Administration for War in the District where the material is to be used Form WPB–2565 (formerly PD–873) at least four months prior to the calendar-quarter in which such material is to be delivered. Notwithstanding this provision, any such operator may request interim assistance to obtain additional quantities of such material for a production operation, or any domestic operator who during the year 1942 drilled less than 40,000 feet of hole, may apply for authority to obtain delivery of any material (other than MRO material) requiring the use of an allotment number for a production operation, only by submitting to the District Office of the Petroleum Administration for War in the District where the material is to be used Form WPB–2565 (formerly PD–873) not less than one month prior to the time the operator proposes to initiate or to obtain delivery of such material for such production operation.

(ii) Any Canadian operator may apply for authority to obtain delivery of any material (other than MRO material) requiring the use of an allotment number, which material is for a production operation, only by submitting to the Office of Oil Controller of the Dominion of Canada Form WPB–2565 (formerly PD–873) not less than one month prior to the time the operator proposes to initiate or to obtain delivery of such material for such production operation.

(iii) Submission of Form WPB–2565 (formerly PD–873) to the Petroleum Administration for War or the Office of Oil Controller shall constitute an application for an allotment of controlled materials, an application for an allotment number, and, subject to the applicable provisions of Petroleum Administrative Order No. 11, as amended and supplemented from time to time, an application for authority to use an allotment number to secure delivery of material necessary for the production operation(s) specified on such form. The Petroleum Administration for War or the Office of Oil Controller may thereafter make an allotment and authorize the use of an allotment number to secure delivery of material necessary for the production operation(s) specified on such form. Such allotment and authorization will be made on Form WPB–2565 (formerly PD–873).

(3) An operator may use an allotment number which he may have been authorized to use by placing it upon the delivery order for controlled materials to be used in the production operation(s) specified on Form WPB–2565 (formerly PD–873) and by certifying the delivery order as provided in paragraph (l). An operator may use the preference rating authorized by subparagraph (f) (1) (i) by placing it upon any delivery order for material requiring the use of a preference rating and by certifying the delivery order as provided in paragraph (l).

NOTE: Paragraph (f) (5), (6), (7) redesignated (f) (4), (5), (6) and amended August 9, 1943.

(4) Prior to placing with a supplier a delivery order bearing an allotment number or preference rating for the delivery of any material (other than MRO material) to be used in a production operation, each operator shall submit copies of delivery orders to the Petroleum Administration for War or the Office of Oil Controller, as follows:

(i) Where the total cost to the operator of all items on the delivery order is $100.00 or more, but less than $1000.00, and the cost of every item on the delivery order is less than $500.00, one copy of such delivery order shall be submitted.

(ii) Where the total cost to the operator of all items on the delivery order is $1000.00 or more or where the cost to the operator of any item on the delivery order is $500.00 or more, two copies of such delivery order shall be submitted.

No delivery order need be submitted by an operator where the total cost to the operator of all items on the delivery order is less than $100.00.

A domestic operator shall submit such delivery order to the District Office of the Petroleum Administration for War in the District where the material is to be used. A Canadian operator shall submit such delivery order to the Office of Oil Controller of the Dominion of Canada.

Each such delivery order submitted to the Petroleum Administration for War or the Office of Oil Controller shall have endorsed upon it or be accompanied by a statement identifying the serial number of the Form WPB 2565 (formerly PD–873) which was returned to him as authority to acquire the material, the specific use to which the material is to be put, and the price, quantity and description of material on the delivery order.

(5) No operator may place with a supplier any delivery order submitted in accordance with paragraph (f) (4) (ii) until approval has been received from the Petroleum Administration for War or the Office of Oil Controller.

(6) In placing a delivery order bearing an allotment number or preference rating for material to be used in a production operation, no operator shall alter the customary designation of any item or subdivide an ordinary purchase of any item or items for the purpose of making it appear that an item costs less than $500.00; the total cost of all items on the delivery order is less than $1000.00; or the total cost of all items on the delivery order is less than $100.00.

Material for Construction Operations

(g) *Authorization required for certain construction operations.* No operator may accept delivery of, acquire, or use material in a construction operation except in accordance with Schedule E hereof.

(h) *Method of securing material for construction operations.* (1) Any domestic operator may apply for authority to obtain delivery of material (other than MRO material) requiring the use of an allotment number or preference rating, which material is for a construction operation, only by submitting to the Petroleum Administration for War those forms at such times as may be specified in Schedule E hereof. Any Canadian operator may apply for authority to obtain delivery of material (other than MRO material) requiring the use of an allotment number or preference rating, which material is for a construction operation, only by submitting to the Office of Oil Controller of the Dominion of Canada those forms at such times as may be specified in Schedule E hereof.

(2) Submission of the proper form for a specific construction operation as specified in Schedule E hereof shall constitute an application for an allotment of controlled material, an application for an allotment number and preference rating, an application for authority to use an allotment number and preference rating, and, subject to the applicable provisions of Schedule E hereof, an application for authorization to accept delivery of or acquire material and to initiate the construction operation(s) specified in the form submitted. The Petroleum Administration for War, the Office of Oil Controller, or the War Production Board may thereafter make an allotment and authorize the use of an allotment number and preference rating to secure delivery of material necessary for the construction operation(s) specified in or authorized pursuant to an application submitted in accordance with Schedule E hereof.

(3) In the event that authority to use an allotment number and preference rating is granted to the operator, the operator may use such allotment number and preference rating by placing them upon the delivery order for material to be used in the specified construction operation(s) and by certifying the delivery order as provided in paragraph (l).

(4) Preference ratings assigned to construction operation(s) may be applied or extended only for the purpose of acquiring those items of material specifically approved in connection with the construction operation(s) specified in or authorized pursuant to an application submitted in accordance with Schedule E hereof; and authorized controlled material orders may be placed only for the purpose of acquiring those items of controlled material specified for use in the construction operation(s).

(5) Any application upon the required form specified in Schedule E hereof for a construction operation located in the United States, its territories or possessions shall be submitted to the Petroleum Administration for War, Washington 25, D. C., or to such other place as may be specifically designated in Schedule E hereof. Any such application for a construction operation located in the Dominion of Canada shall be submitted to the Office of Oil Controller of the Dominion of Canada.

Allotments, Placement of Orders, General

(i) *Allotments in production or construction operations.* In certain instances an operator, who has obtained the necessary allotment of controlled materials for a production or construction operation, may require the manufacture and installation of certain Class A products or may undertake the construction operation through a construction contractor. In either case it may be necessary for the operator to allot a portion of his allotment to the Class A product manufacturer or to the contractor (each of whom then becomes a secondary consumer) for reallotment or the placement of controlled material orders. Any operator making such an allotment shall follow the procedures established therefor in CMP Regulation No. 1, except as otherwise modified by this order. A secondary consumer who receives any such allotment shall not be bound by the provisions of this order and must rely upon existing procedures other than those established by this order in securing necessary material.

(j) *Placement of delivery orders; application of preference ratings.* (1) An operator who has complied with the provisions of paragraph (d), (e), (f) or (h) of this order may place a delivery order with any supplier for delivery of material authorized pursuant to such paragraph and may place upon such delivery order the allotment number or symbol or preference rating which has been duly authorized in accordance with the provisions of this order. The allotment symbol MRO–P–98–b shall constitute an allotment symbol for the purpose of CMP Regulation No. 3.

NOTE: Paragraphs (j) (3), (4) redesignated paragraphs (j), (2), (3) August 9, 1943.

(2) Any delivery order for controlled materials placed pursuant to this order and bearing the certification provided for in this order shall constitute an authorized controlled material order: *Provided*, That such delivery order must be in sufficient detail to permit entry on mill schedules and must be received by the controlled materials producer at such time in advance as is specified in Schedule III of CMP Regulation No. 1, or at such later time as the controlled materials producer may find it practicable to accept the same.

(3) The allotment number referred to in this paragraph (j) or endorsed upon any delivery order bearing the certification provided for in this order shall be the abbreviated allotment number prescribed by paragraph (c) (6) (ii) of CMP Regulation No. 1, including as the last two digits, the number of the month in which delivery is requested in place of the number identifying the quarter for which the allotment received is valid.

(k) *Use, cancellation, or reduction of allotments.* (1) When an allotment received by an operator is not reallotted, or authorized controlled material orders therefor are not placed, within 30 days of receiving the allotment, the operator shall promptly notify the Petroleum Administration for War in Washington, D. C., or the Office of Oil Controller in Toronto, Canada, of this fact and of the extent to which the allotment has not been reallotted or authorized controlled material orders therefor have not been placed. In the event that an operator elects not to use an allotment which has been received by him, he shall, within 30 days of receiving the allotment, notify the Petroleum Administration for War in Washington, D. C. or the Office of Oil Controller in Toronto, Canada of this fact and of the extent to which he has elected not to use the allotment, together with the reasons therefor.

(2) An operator who has made an allotment may cancel or reduce the same by notice in writing to the person to whom it was made. Where an allotment received by an operator is cancelled, he must cancel all allotments which he has made and all authorized controlled material orders which he has placed, on the basis of the allotment; and where an allotment received by an operator is reduced, he must cancel or reduce allotments which he has made, or authorized controlled material orders which he has placed, to the extent that the same exceed his allotment as reduced. In the event that this course of action is impracticable, the operator shall immediately report to the Petroleum Administration for War or the Office of Oil Controller for instructions.

(l) *Certification.* An operator may use any allotment number or symbol or preference rating authorized pursuant to this order only by endorsing upon his delivery order a certification in substantially the following form, signed manually or as provided in Priorities Regulation No. 7:

> The undersigned purchaser certifies, subject to the penalties of section 35A of the United States Criminal Code, to the seller and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order, to receive the item(s) ordered for the purpose for which ordered, and to use any preference rating or allotment number or symbol which the undersigned has placed on this order.

This certification may be used in lieu of any other certification required by any CMP regulation to be endorsed on a delivery order or to be furnished therewith. Any certification provided for in this order, so used, shall be construed to be a representation of facts in the same manner and to the same extent as any specific certification required by any CMP regulation.

(m) *Restoration of inventories.* An operator may, subject to the provisions of this order, use the allotment number or symbol and the preference rating duly authorized in accordance with the provisions of this order to restore to a practical working minimum his inventory of material where the inventory has been depleted through use of MRO material or material necessary to a production or construction operation: *Provided*, That no delivery of material which would result in surplus material, as defined in Preference Rating Order P–98–c, may be accepted by any operator.

(n) *Restrictions.* No operator may use the allotment number or symbol or the preference rating duly authorized in accordance with the provisions of this order:

(1) To obtain delivery of material in greater amounts or on earlier dates than required to fulfill the purpose authorized pursuant to the provisions of this order.

(2) To obtain delivery of material for any purpose other than a purpose authorized pursuant to the provisions of this order.

(3) To obtain delivery of material which can be secured without the use of an allotment number or symbol or preference rating.

(4) To obtain delivery of material the use of which could be eliminated without serious loss of efficiency by substitution of less scarce material, or by change of design.

(5) To obtain delivery of material in such amounts or at such dates that receipt of such amounts on the requested dates would result in surplus material, as defined in Preference Rating Order P–98–c.

(6) To obtain deliveries of material on or after August 1, 1943 unless such operator is a participant in the PAW Materials Redistribution Program No. 2 in the event that participation by the operator in such program is required by the terms of the program.

(o) *Applicability of other orders and regulations.* (1) This order and all transactions affected hereby, except as herein otherwise provided, are subject to all applicable orders or regulations of the War Production Board, as amended from time to time.

(2) None of the provisions of CMP Regulation Nos. 2, 5, or 6 (or the limitations incorporated in any CMP regulation which otherwise would subject an operator to the provisions of CMP Regulation Nos. 2, 5, or 6) shall apply to an operator and no operator shall obtain any material under or be limited by the provisions of such regulations or limitations. The provisions of paragraphs (i), (s), (s–1) and (u) of CMP Regulation No. 1 shall not apply to an operator who secures delivery of material in accordance with the provisions of this order and no such operator shall to this extent be limited by the provisions of these paragraphs of CMP Regulation No. 1. None of the provisions of Limitation Order L–41, as amended from time to time, shall apply to an operator as such operator is limited by the provisions of such order.

(p) *Further limitations on use of priorities assistance.* The Petroleum Administration for War may issue in its own name further restrictions or limitations on the use of priorities assistance by operators in the petroleum industry.

(q) *Communications.* All reports which may be required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed:

(1) By any person located in the United States, its territories or possessions to: Petroleum Administration for War, Interior Building, Washington 25, D. C., Ref: P–98–b.

(2) By any person located in the Dominion of Canada to: Office of Oil Controller, Dominion of Canada, Toronto, Canada, Ref: P–98–b.

Wherever communications are specifically directed to be addressed to a District Office of the Petroleum Administration for War such communications shall be addressed to the District Office for the appropriate area as specified in Schedule F hereof.

(r) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Petroleum Administration for War or the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

Issued this 9th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A

"Maintenance or repair" means, without regard to accounting practice, any use of material:

(1) In production, natural gasoline production, transportation or refining for any of the following purposes:

(i) The upkeep of material or equipment in a sound working condition;

(ii) The restoration of material or equipment which has been rendered unsafe or unfit for service by wear and tear, damage, destruction, failure of parts or similar causes; or

(iii) Any other production or construction operation not exceeding in material cost $500 for any one complete operation which has not been subdivided for the purpose of coming within this definition:

Provided, That upkeep or restoration shall not include any use of material for the improvement of material or equipment by the replacement of material which is still serviceable in the existing material or equipment: *And provided further*, That maintenance or repair shall not include the installation or replacement of pumping or other artificial lifting equipment or the deepening or plugging back of any well.

(2) In marketing for any of the following purposes:

(i) The upkeep of any structure or equipment in a sound working condition;

(ii) The restoration of any structure or equipment or part thereof to a sound working condition when such structure or equipment or part thereof has been rendered unsafe or unfit for further service by wear or tear, damage, destruction, failure of parts or similar causes; or

(iii) Any other construction operation in connection with any bulk plant (but not any service station or retail outlet) not exceeding in material cost $500 for any one complete operation which has not been subdivided for the purpose of coming within this definition:

Provided, That upkeep or restoration shall not include any use of material for the improvement of any structure or equipment by the replacement of material which is still serviceable in the existing structure or equipment: *And provided further*, That maintenance or repair shall not include any construction operation in connection with a service station or retail outlet other than for upkeep or restoration purposes.

SCHEDULE B—NON-PETROLEUM INDUSTRY USES OF MATERIAL

Other than as specifically provided for in this schedule, use of the following material shall not be considered as a use of material in the petroleum industry:

(a) Material or equipment which is to be used by consumer accounts for or in the storage or dispensing of petroleum, including liquefied petroleum gas.

(b) Material or equipment which is to be used for transportation by means of a tank truck or trailer, railroad rolling stock, or marine equipment: *Provided*, That:

(1) Where material is to be used on a tank truck or trailer and is specialized petroleum

material or equipment which is actually to be attached to the truck or trailer and is necessary to the containing, dispensing, measuring the movement, or distributing of petroleum, such use shall be considered a use of material in the petroleum industry.

(ii) Where material is to be used on railroad rolling stock and the rolling stock is owned or leased by the operator, used on his premises and in the petroleum industry, and is not under the jurisdiction of the Interstate Commerce Commission, such use shall be considered a use of material in the petroleum industry.

(iii) Where material is to be used on marine equipment and the marine equipment is used or chartered by the operator, is used on or in the vicinity of his premises and in the petroleum industry, and is not under the jurisdiction of the United States Maritime Commission, the Navy Department, or any other federal agency for the purpose of establishing methods by which material incident to the operation of the marine equipment may be made available, such use shall be considered a use of material in the petroleum industry.

(c) Material or equipment which is to be used in connection with a construction operation for "residential construction" or "multiple residential construction", as defined in Limitation Order L-41, as amended from time to time.

SCHEDULE C—SPECIAL DIRECTIONS CONCERNING CERTAIN MATERIAL AND EQUIPMENT USED IN THE PETROLEUM INDUSTRY

An operator may apply a preference rating to obtain delivery of the material specified on Lists A, B and C of Priorities Regulation No. 3, as amended from time to time, only in accordance with paragraph (f) of Priorities Regulation No. 3. Each operator should acquaint himself fully with the new Priorities Regulation No. 3, before applying preference ratings made available by P-98-b.

SCHEDULE D

Because of the over-all materials situation, it has been necessary in exceptional instances to develop specialized treatment for certain types of material. In certain instances, special treatment is necessary only for the purpose of developing requirements to assure sufficient supplies to operators. Material of this character is treated in Part I of this schedule.

In other instances, the critical shortage of particular materials and the universal importance of such materials to the war program have required more complete control than ordinarily required by this order. Material of this character is treated in Part II of this schedule.

The schedule has been so arranged as to provide a flexible medium whereby as the status of important classes of material alters, particular classes can be added to or subtracted from the lists—thus, adjusting the material demand and supply picture to the needs of petroleum industry operators.

PART I—MATERIAL REQUIRING SUBMISSION OF DELIVERY ORDER FOR INFORMATION ONLY

(a) Prior to placing with a supplier a delivery order (for the MRO material specified in (b) of Part I of this schedule) bearing the certification provided in paragraph (1), each operator shall submit for information purposes only (to the district office of the Petroleum Administration for War in the district where the material is to be used or the Office of Oil Controller) one copy of any delivery order for such material unless the total cost to the operator of all items on the delivery order is less than $100.00. No delivery order need be submitted by an operator where the total cost to the operator of all items on the delivery order is less than $100.00.

(b) Specified MRO material:

(i) Aluminum allotted pursuant to application made to the Aluminum and Magnesium Division of the War Production Board.

(ii) Rotary bits.

(c) In placing a delivery order bearing an allotment symbol or preference rating, no operator shall alter the customary designation of any item specified in Part I, (b) of this schedule or subdivide an ordinary purchase of any item or items specified in Part I, (b) of this schedule for the purpose of making it appear that the total cost of all items on the delivery order is less than $100.00.

PART II—MATERIAL REQUIRING PRE-SUBMISSION OF DELIVERY ORDER

(a) Prior to placing with a supplier a delivery order (for the MRO material specified in (b) of Part II of this schedule) bearing the certification provided in paragraph (1), each operator shall submit for approval *two* copies of any delivery order for such material where the total cost to the operator of all items on the delivery order is $100.00 or more. No delivery order need be submitted by an operator where the total cost to the operator of all items on the delivery order is less than $100.00.

When the delivery order is for the MRO material specified in Part II, (b) to be used in production, a domestic operator shall submit such delivery order to the district office of the Petroleum Administration for War in the district where the material is to be used. When the delivery order is for such MRO material to be used in any other branch of the industry, a domestic operator shall submit such delivery order: (a) to a district office of the Petroleum Administration for War (in the district in which the material will be used or in which the purchasing office of the operator is located, as the operator may elect) where the total cost of all items on the delivery order is $100.00 or more and the cost of every item on the delivery order is less than $500.00; or (b) to the Washington Office of the Petroleum Administration for War where the cost of any item on the delivery order is $500.00 or more. A Canadian operator shall, in every instance, submit such delivery order to the Office of Oil Controller of the Dominion of Canada.

Each delivery order submitted to the Petroleum Administration for War or the Office of Oil Controller shall have endorsed upon it or be accompanied by a statement identifying the specific use to which the material is to be put, the branch of the petroleum industry and the PAW district in which the material is to be used, the price, quantity and description of the material on the delivery order (including weight if a controlled material), and, where applicable, such additional information as may be necessary to enable the proper official to make an accurate determination of the operator's needs.

(b) Specified MRO material:

(i) Cast iron valves over 12 inches.

(ii) Industrial control instruments including relief and control valves and regulators.

(iii) Steel valves.

(c) No operator may place with a supplier a delivery order, covering the delivery of material for which approval has been requested pursuant to (a) of Part II of this schedule, until approval has been received from the Petroleum Administration for War.

(d) In placing a delivery order bearing an allotment symbol or preference rating, no operator shall alter the customary designation of any item specified in Part II, (b) of this schedule or subdivide an ordinary purchase of any item or items specified in Part II, (b) of this schedule for the purpose of making it appear that an item costs less than $500.00 or that the total cost of all items on the delivery order is less than $100.00.

SCHEDULE E

This schedule both describes and determines how to obtain the delivery of material for and authority to use material in construction operations.

Schedule E shall not determine the methods by which an operator obtains delivery of, acquires or uses MRO material or material for production operations. Requirements governing the use of priorities assistance to secure delivery of and use MRO material are treated in paragraphs (d) and (e) and Schedules A, C, and D. Requirements governing the use of priorities assistance to secure delivery of material for production operations are treated in paragraph (f); the use of material in production operations is covered in PAO No. 11.

The requirements in this schedule with respect to applications for authorization to accept delivery of or acquire material and to initiate a construction operation (but not with respect to obtaining priorities assistance) do not apply to any Canadian operator.

For the purpose of this Schedule E, "material on hand" means any material

(1) which has been or can be obtained without priorities assistance (other than priorities assistance assigned by paragraph (b) (1) of M-208); or

(2) which has been acquired with priorities assistance (other than priorities assistance made available by this order to secure delivery of MRO material) for a purpose other than use in the construction operation for which application must be made on the appropriate form specified in Column (4) below; and

(1) Petroleum industry operations	(2) Construction operations covered by this schedule	(3) Extent of authorization required and method of obtaining authorization	(4) Use form below to obtain authority to engage in a construction operation, if required	(5) Use form below to obtain priorities assistance	(6) Order which governs the need to obtain authority
Marketing	Any construction operation, as defined in P-98-b, to the extent covered by PAO No. 12	(1) Authority is granted by PAO No. 12 to undertake certain construction operations and installations of equipment. As to such operations or installations, no action need be taken. (2) Authority must be obtained before undertaking any construction operation or installation of equipment other than those specifically permitted by PAO No. 12. To request authority, file PAW Form 23 with the District Director of Marketing at the PAW District Office for the District in which the material will be used.	PAW Form 23	Form WPB-617 [formerly PD-200].	PAO No. 12.
Natural gasoline production.	Any construction operation as defined in P-98-b (any production operation as defined in PAO No. 11 directly incident to the extraction or recovery of natural gasoline and associated hydrocarbons).	Authority must be obtained under PAO No. 11 before engaging in any such construction operation. To request authority, file PAW Form 4 as follows: 3 copies with the Director of Natural Gas & Natural Gasoline, Petroleum Administration for War, Washington, D. C. 1 copy with the District Director of Natural Gas & Natural Gasoline, Petroleum Administration for War District Office.	PAW Form 4	Form WPB-617 [formerly PD-200].	PAO No. 11.
Refining or transportation.	(a) Any construction operation, as defined in P-98-b, with an estimated material cost of less than $3,000 for any one complete operation, which can be completed primarily with material on hand.	Any operator, to the extent that he is engaged in refining or transportation, may undertake any construction operation as described and limited in Column (2) (a) without obtaining any authority to do so	----------	----------	P-98-b Schedule E.
	(b) Any construction operation, as defined in P-98-b, with an estimated material cost of $3,000 or more for any one complete operation, which can be completed primarily with material on hand.	No operator, to the extent that he is engaged in refining or transportation, may undertake any construction operation described and limited in Column (2) (b) unless he obtains prior authority to do so. To request such authority, file Form WPB-617 [formerly PD-200] with the Petroleum Administration for War, Washington, D. C.	Form WPB-617 [formerly PD-200].	----------	P-98-b Schedule E.
	(c) Any construction operation, as defined in P-98-b, the delivery of material for which will require priorities assistance.	No operator, to the extent that he is engaged in refining or transportation, may undertake any construction operation described in Column (2) (c) unless he obtains prior authority to do so from the Petroleum Administration for War. To request such authority, file Form WPB-617 [formerly PD-200] with the Petroleum Administration for War Washington, D. C.	Form WPB-617 [formerly PD-200].	Form WPB-617 [formerly PD-200].	P-98-b Schedule E.

NOTES—READ CAREFULLY

a. *Use of Form WPB-1548 [formerly PD-200B].* After an operator has filed a Form WPB-617 [formerly PD-200] and has been authorized to construct or has been granted priorities assistance, Form WPB-1548 [formerly PD-200B] should be used (1) to obtain priorities assistance for additional material; (2) to obtain greater quantities of material than authorized by the priorities assistance granted; or (3) to obtain a higher preference rating than the rating granted, if such is necessary to secure delivery of material at the time required.

b. *Form WPB-617 [formerly PD-200] used for both authority and priorities assistance.* Where both authority to initiate a construction operation and priorities assistance are required and Form WPB-617 [formerly PD-200] is prescribed for both purposes, it is only necessary to file such Form WPB-617 [formerly PD-200] once for both purposes.

c. *Where to file Forms WPB-617 [formerly PD-200] and WPB-1548 [formerly PD-200B].* Domestic operators should file with the Washington office of the Petroleum Administration for War; Canadian operators should file with the Office of Oil Controller.

d. *When to file forms.* PAW Form 23, PAW Form 4, and Form WPB-617 [formerly PD-200] (when it is used to obtain authority to initiate a construction operation) must be filed before construction or installation is begun. Where Form WPB-617 [formerly PD-200] is used to obtain priorities assistance only, it should be filed at the earliest possible opportunity and preferably with PAW Form 23 or PAW Form 4, if authority to initiate a construction operation in Marketing or Natural Gasoline Production is to be requested.

e. *Filing of Form CMP-4C.* Not required of operators except where specifically requested by the Petroleum Administration for War or the Office of Oil Controller.

(3) which will not be replaced in the operator's inventory by the use of priorities assistance made available by this order to secure delivery of MRO material.

For further definitions of the terms used in the table below consult the respective orders referred to therein.

In addition to the orders specified, the terms of any other applicable E, L, M, or U order shall apply.

SCHEDULE F—INSTRUCTIONS FOR DIRECTING COMMUNICATIONS TO DISTRICT OFFICES

District 1. (Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, District of Columbia) Direct communications to Petroleum Administration for War, 1104 Chanin Building, 122 East 42nd Street, New York, N. Y. Ref: P-98-b.

District 2. (Ohio, Kentucky, Tennessee, Indiana, Michigan, Illinois, Wisconsin, Minnesota, Iowa, Missouri, Oklahoma, Kansas, Nebraska, South Dakota, North Dakota) Direct communications to Petroleum Administration for War, 1200 Bium Building, 624 South Michigan Avenue, Chicago, Ill., (or) 410 Beacon Building, 406 South Boulder Avenue, Tulsa, Okla. Ref: P-98-b.

District 3. (Alabama, Mississippi, Louisiana, Arkansas, Texas, New Mexico) Direct communications to Petroleum Administration for War, 245 Mellie Esperson Building, Houston, Tex. Ref: P-98-b.

District 4. (Montana, Wyoming, Colorado, Utah, Idaho) Direct communications to Petroleum Administration for War, 320 First National Bank Building, Denver, Colo. Ref: P-98-b.

District 5. (Arizona, California, Nevada, Oregon, Washington, Territories of Alaska or Hawaii) Direct communications to Petroleum Administration for War, 855 Subway Terminal Building, Los Angeles, Calif. Ref: P-98-b.

Chapter XI—Office of Price Administration

PART 1341—CANNED AND PRESERVED FOODS

[MPR 409,[1] Amdt. 2]

FROZEN FRUITS, BERRIES AND VEGETABLES (1943 PACK AND AFTER)

A statement of the considerations involved in the issuance of Amendment No. 2 to Maximum Price Regulation No. 409 has been issued and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 409 is amended in the following respects:

1. Section 2 is amended to read as follows:

SEC. 2. *List of maximum prices which packers may charge for frozen fruits, berries and vegetables packed and frozen in barrels.* The maximum prices per pound, carload basis f. o. b. shipping point, which packers may charge for the following frozen fruits, berries and vegetables, packed and frozen in barrels after the 1942 pack shall be:

Variety and sugar basis:	*Maximum price per pound, cents*
Cherries:	
4+1	13¾
5+1	14
Blackberries:	
Straight	17¾
Boysenberries:	
Straight	17¾
Gooseberries:	
Straight	13¾
Loganberries:	
Straight	17¾
Raspberries, black:	
4+1	17¾
5+1	18¼
Straight	18¾
Raspberries, red:	
4+1	19¾
5+1	20¼
Straight	20¾
Strawberries (Ettersburg variety):	
3+1	17¾
3+1 sortouts	15¾
4+1	18¼
4+1 sortouts	16¼
5+1	18¾
Straight	19¾
Strawberries (other varieties):	
3+1	16¼
3+1 sortouts	14¼
4+1	16¾
4+1 sortouts	14¾
5+1	17¼
Straight	17¾
Youngberries:	
Straight	17¾

When a packer sells a listed item on a "no-storage" basis, that is, at a price which includes only the first month's storage, his maximum price shall be reduced by ¼¢ per pound.

Barreled products which are not listed shall be priced as if they were under section 3.

2. Paragraphs (a), (b), (c) and (j) of section 3 are amended to read as follows:

SEC. 3. *Maximum prices which packers may charge for frozen fruits, berries and vegetables packed and frozen in containers other than barrels*—(a) *General pricing method.* The packer shall figure a maximum price per dozen or other unit, f. o. b. shipping point, for each separate kind, grade, style of pack, container type and size of frozen fruits, berries, and vegetables, packed and frozen after the 1942 pack, in containers other than barrels. The maximum price for such an item, including all storage, shall be figured by adding together his "base price" and his "permitted increase for miscellaneous costs."

(b) *Base price.* The packer's base price in each case shall be his maximum price, f. o. b. factory, for the item under Maximum Price Regulation No. 207, after it has been adjusted for raw material costs. However, no maximum price authorized under § 1341.202 (d) for the 1943 pack of any item may be used. (If the packer sold or delivered none of the 1942 pack of the item between August 24, 1942, and June 16, 1943, his base price shall be the maximum price, adjusted for raw material costs, which he would have figured for the 1942 pack of the item if Maximum Price Regulation No. 207 had been effective January 1, 1942.) Adjustments for raw material costs shall be made as follows:

(1) *Adjustment for commodities included in the Commodity Credit Corporation's raw materials program.* In the case of commodities included in the Commodity Credit Corporation's raw materials program the packer shall adjust for raw material costs in each case, as follows: First, he shall determine the weighted average cost for raw materials used in the 1942 pack of the product which he figured under § 1341.202 (b) (2) of Maximum Price Regulation No. 207. If this figure is less than the price at which the Commodity Credit Corporation will resell the raw product to packers in that area, after these figures have been converted to cents per dozen or other unit of the finished product, the difference between them shall be added to the maximum price for the item under Maximum Price Regulation No. 207. If this figure is greater than that resale price, after conversion to a finished product basis, the difference between them shall be subtracted from the maximum price for the item under Maximum Price Regulation No. 207. The figure resulting from this addition or subtraction is the packer's base price in sales to purchasers other than United States agencies. (In figuring base prices in sales to United States agencies, the packer shall use the Commodity Credit Corporation's purchase price for the area in which the packer received delivery of the raw materials, instead of the resale price, when making the foregoing calculations.) Commodities included in the Commodity Credit Corporation's program include:

Beans, snap
Corn
Peas

Purchase and resale prices under the Commodity Credit Corporation's raw materials program are published by the Department of Agriculture and may be obtained from its local State war boards.

(2) *Adjustment for commodities not included in the Commodity Credit Corporation's raw materials program.* In the case of the following commodities, the packer shall adjust for raw material costs in each case by adding to his maximum price for the item under Maximum Price Regulation No. 207 the appropriate figure named in the following table (after conversion to cents per unit of the finished product).

Variety:	*Cents per pound (raw weight)*
Asparagus:	
California, Oregon and Washington	1½
Other states	1
Spinach	0

In the case of the following commodities, the packer shall adjust for raw materials by subtracting the weighted average cost for raw materials used in the 1942 pack of the product which he figured under § 1341.202 (b) (2) of Maximum Price Regulation No. 207 from the appropriate figure named in the following table (after conversion to cents per unit of the finished product) and adding the difference so obtained to his maximum price for the item under Maximum Price Regulation No. 207.

Variety:	*Cents per pound (raw weight)*
Cherries	8½
Blueberries (wild):	
Maine, New Hampshire, Vermont, and Massachusetts only	12
(For other blueberry prices, see table below)	
Boysenberries	12
Gooseberries	8
Loganberries	12
Raspberries, Black	13
Raspberries, Red	15
Strawberries (Ettersburg variety)	14
Strawberries (Other varieties)	12
Youngberries	12

	Dollars per ton (raw weight)
Peaches, clingstone	$60
Pears:	
California	$65
Oregon and Washington	$75
(For other pear prices, see table below)	
Plums	$55
Prunes, fresh	$40
Other varieties (to be announced)	

In the case of the following commodities, the packer shall adjust for raw material costs by subtracting the weighted average cost for raw materials used in the 1942 pack of the product which he figured under § 1341.202 (b) (2) of Maximum Price Regulation No. 207 from the weighted average cost for raw materials used in the 1943 pack of the product, based on not less than the first 75 per cent of his 1943 purchases, and adding the difference so obtained (after conversion to cents per unit of the finished product) to his maximum price for the item under Maximum Price Regulation No. 207. However, the packer may not add an amount greater than the figure listed below (after the listed figure has been converted to a finished product basis).

	Cents per pound (raw weight)
Blueberries (cultivated)	3
Blueberries (wild):	
States other than Maine, New Hampshire; Vermont and Massachusetts	3
	3
Cranberries	3
Currants	8
Dewberries	3
Elderberries	
Huckleberries	3
Johnsonberries	3
Olympic berries	3

	Dollars per ton (raw weight)
Apricots	31
Pears:	
States other than California, Oregon and Washington	8
Other varieties (to be announced)	

Commodities for which no figure is named continue to be subject to Maximum Price Regulation No. 207.

(c) *Permitted increase for miscellaneous costs.* The packer's permitted increase for miscellaneous costs shall be figured by adding the following factors:

(1) The packer's permitted increase for labor shall be figured by multiplying the "base price" for the item by the appropriate percentage figure named in Appendix A. However, for areas for which no percentage figure is named in Appendix A, and for those items which are included in the labor subsidy program of the Commodity Credit Corporation, that is, snap beans, corn and peas sold to purchasers other than United States agencies, the packer's permitted increase for labor shall be 0. (For snap beans, corn and peas sold to purchasers other than United States agencies, compensation for labor increases is given by the Commodity Credit Corporation in certain prescribed situations.)

(2) For cold-packed commodities, an additional one-quarter cent may be added for each pound of the finished product in a unit of the size being priced.

(j) *Items sold on a "no-storage" basis.* When a packer sells an item of frozen fruits, berries or vegetables on a "no-storage" basis, that is, at a price which includes only the first month's storage, his maximum price under paragraph (a) shall be reduced by ¾¢ per pound of the finished product in the case of quick-frozen items and ¼¢ per pound in the case of cold-packed items.

3. Sections 18 and 19 are added to read as follows:

SEC. 18. *Reports which packers must file.* Every packer shall file with the district or state office of the Office of Price Administration for the area in which he is located a statement showing:

(a) The maximum prices which he has figured under this regulation and the items to which they are respectively applicable. Where any maximum price is figured on a delivered basis, he shall also show his price figured on an f. o. b. shipping point basis.

(b) A list of all his customary allowances, discounts, and other price differentials.

The statement for any item shall be filed on or before August 31, 1943, or within twenty days after the maximum price for it has been established in the manner explained in section 15.

SEC. 19. *Records which packers must keep.* (a) Every packer shall keep a copy of the report which he must file under section 18 in order that it may be examined by any person during ordinary business hours. Any packer who claims that he would be substantially injured by showing this statement to another person may file it with the district or state office of the Office of Price Administration for the area in which he is located, with a statement explaining why he would be substantially injured. The information will not be shown to anyone unless withholding it would be contrary to the purposes of this regulation.

(b) Every packer shall keep for examination by the Office of Price Administration, as long as the Emergency Price Control Act of 1942, as amended, remains in effect, records of the same kind as he has customarily kept, relating to the prices which he charged after June 16, 1943.

4. Appendix A is added to the regulations, to read as follows:

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[Rev. MPR 257]

PULPWOOD PRODUCED IN THE STATES OF MINNESOTA, MICHIGAN AND WISCONSIN

Maximum Price Regulation No. 257 is redesignated Revised Maximum Price Regulation No. 257 and is revised and amended to read as set forth herein.

In the judgment of the Price Administrator the price of pulpwood has risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the price of pulpwood prevailing in the States of Minnesota, Michigan and Wisconsin between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. The Price Administrator has advised and consulted with representative members of the industry. In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been prepared and is issued simultaneously herewith.*

§ 1347.351 *Maximum prices for pulpwood produced in the State of Minnesota, Michigan and Wisconsin.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Revised Maximum Price Regulation No. 257 Pulpwood Produced in the States of Minnesota, Michigan and Wisconsin is hereby issued.

AUTHORITY: § 1347.351 issued under Pub. Laws 421 and 729, 77th Cong.; Pub. Law 151, 78th Cong., E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

REVISED MAXIMUM PRICE REGULATION NO. 257—PULPWOOD PRODUCED IN THE STATES OF MINNESOTA, MICHIGAN AND WISCONSIN

Sec.
1. Prohibitions.
2. Less than maximum prices.
3. Adjustable pricing.
4. Evasion.
5. Records and reports.
6. Enforcement.
7. Petitions for amendment.
8. Definitions.
Appendix A: Maximum prices for pulpwood.

SECTION 1. *Prohibition.* (a) On and after August 6, 1943, in the continental limits of the United States, regardless of any contract, agreement, lease or other

obligation, no person shall buy and no person shall sell, deliver or transfer pulpwood cut from the stump in the states of Minnesota, Michigan, or Wisconsin, at prices in excess of the maximum prices set forth in Appendix A hereof; and no person shall agree, offer, solicit, or attempt to do any of the foregoing.

(b) *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price.

(c) *Specific prohibited practices.* The following are among the practices prohibited:

(1) Up-grading, up-scaling or allowing a greater net scale than the actual scale content of the pulpwood;

(2) Increasing the price of pulpwood by failing to make an effort in good faith to collect monetary or other advances such as trucks, tires, or other equipment to producers. Any advance whatsoever to a producer is to be considered as part of the price of the pulpwood to be supplied by the producer.

SEC. 2. *Less than maximum prices.* Lower prices than those set forth in Appendix A may be changed, demanded, paid or offered.

SEC. 3. *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

SEC. 4. *Evasion.* The price limitations set forth in this Revised Maximum Price Regulation No. 257 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to pulpwood produced in the states of Minnesota, Michigan, and Wisconsin, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other understanding, or otherwise.

SEC. 5. *Records and reports.* (a) Every person making a purchase or sale of pulpwood, for which a maximum price is established by this Regulation, shall make and shall preserve, for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942 shall be in effect, the same records of such purchases and sales as such person customarily made prior to the effective date of this regulation.

(b) Every person required to keep records by paragraph (a) of this section shall submit such reports as the Office of Price Administration, with the approval of the Bureau of the Budget, may from time to time require.

SEC. 6. *Enforcement.* Persons violating any provision of this Revised Maximum Price Regulation No. 257 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

SEC. 7. *Petitions for amendment.* (a) Persons seeking any amendment of this Revised Maximum Price Regulation No. 257 may file petitions for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

SEC. 8. *Definitions.* (a) When used in this Revised Maximum Price Regulation No. 27, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing:

(2) "Pulpwood producer" or "seller" includes any person who sells pulpwood;

(3) "Consumer" includes any person who purchases pulpwood for its own consumption;

(4) "Pulpwood" means any spruce, balsam fir, hemlock, jack pine, tamarack, white birch or poplar wood sold for manufacture into woodpulp;

(5) "Spruce wood" includes Black spruce (Picea mariana) and White spruce (Picea glauca);

(6) "Balsam fir wood" includes Abies balsamea;

(7) "Jack Pine wood" includes Jack Pine (Pinus banksiana), Pitch pine (Pinus rigida), White pine (Pinus strobus), and Norway pine (Pinus resinosa);

(8) "Hemlock wood" includes Hemlock (Tsuga canadensis) and Tamarack (Larix laricina);

(9) "Poplar wood" includes any commercial species of the Genus Populus;

(10) "White birch wood" includes Betula papyrifera;

(11) "Peeled pulpwood" includes any pulpwood from which the bark has been removed by any manual process prior to its delivery to a consumer;

(12) "Rossed pulpwood" includes any pulpwood from which the bark has been removed by any mechanical process prior to its delivery to a consumer;

(13) "Rough pulpwood" means pulpwood from which the bark has not been removed;

(14) "A cord of pulpwood" means an amount of pulpwood (whether peeled, rossed, or rough) which, when properly prepared and stacked, contains 128 cubic feet;

(15) "Dealer" means any person who sells to consumers pulpwood not cut or prepared by such person, but purchased by such persons in the condition in which it is to be delivered to the consumer and who sold and delivered not less than 8,000 cords of pulpwood to consumers in the 1942–1943 operating season, or who shall sell and deliver not less than 8,000 cords of pulpwood to consumers in any subsequent operating season. "Operating season" means the period between the first day of May in one year and the last of April in the next succeeding year:

(16) "Trader" means any person who has not or cannot qualify as a dealer, but who purchases and sells pulpwood not cut or prepared by such person, and who purchases wood in the same condition in which the wood is to be delivered to a consumer, and includes a dealer when the dealer sells to a person other than a consumer;

(17) "Culls" means decayed sticks of wood, or sticks otherwise unsuited for manufacture into wood pulp;

(18) "A shipment of pulpwood" means an amount of pulpwood delivered at a single time to a purchaser, or to a common carrier for delivery to a purchaser, pursuant to the terms of any contract or agreement between a purchaser and a seller;

(19) "Sale" or "sold" includes sales and deliveries, sales, and contracts to sell pulpwood.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used herein.

Appendix A: Maximum prices for pulpwood. (a) (1) Maximum prices per cord of pulpwood shall not exceed the following, delivered by the seller or at his expense on board railway cars, f. a. s. vessel, in a lake or stream, or at streamside:

Species	Rough	Peeled or rossed
Spruce wood	$15.00	$18.00
Balsam wood	13.00	16.00
Jack pine wood	11.50	14.00
Hemlock wood	11.00	13.50
Poplar wood	9.00	11.00
		[1] 12.50
White birch wood	9.00	11.00

[1] For 147 cubic feet of properly piled wood in 55-foot lengths.

(2) In cases where wood is delivered by a seller or at his expense at a consumer's mill, an amount not in excess of $1.00 per cord may be added to the maximum prices set forth in subparagraph (1) of this appendix.

(3) Sales may be made at points other than those mentioned in subparagraphs (1) and (2) above. In all such cases the actual costs per cord for transportation to and for loading on the railway cars, vessel or stream by which the wood is to be delivered to the mill, or, in the case of wood to be trucked to the mill at the buyer's expense, the costs per cord of such trucking shall be deducted from the appropriate maxium price set forth above.

(4) The prices established herein are for sound wood of top quality. All trade practices and customs with respect to allowances for culls, for firekills, or for defective wood of any kind must be observed.

(5) *Mixed shipments.* If a shipment contains a mixture of species, the maximum price per cord shall be ascertained by determining the number of cords of each species in the shipment and then applying the maximum price for each species.

(c) *Dealers and traders.* (1) If a consumer of pulpwood buys pulpwood through a dealer as defined in section 8 (a) (15), such consumer may pay such dealer, in addition to the maximum price provided in Appendix A, a commission not to exceed $1.00 per cord. If any person buys pulpwood through a trader, as defined in section 8 (a) (16), such person may pay such trader, in addition to the maximum price provided in Appendix A, a commission not to exceed 50¢ per cord: *Provided,* That in no case shall the aggregate amount of commissions, on any cord of pulpwood exceed $1.00.

(2) In no event shall a person receive a dealer's or trader's commission, or the proceeds of any such commission on pulpwood cut by him or by his own operations. In no event shall a person receive a dealer's or trader's commission on the cut of another person pursuant to any contract, agreement, or understanding of any sort whatsoever between the two, whereby each is to sell, and charge a commission on the wood cut by the other. In no event shall the dealer's or trader's commission be split or divided with any other person, except that a dealer may pay a trader a trader's commission out of the dealer's commission. In addition to the price paid by the consumer a dealer may receive a dealer's commission only from a consumer and only if the dealer fulfills all of the following requirements (i) through (vii) inclusive pertinent to him with respect to the transactions.

In addition to the price paid by his vendee, a trader may receive a trader's commission only if the trader fulfills all of the following requirements pertinent to him (which means all the requirements pertinent to traders, and accordingly does not include (ii) with respect to the transactions:

(i) Copies are kept of all contracts or settlement sheets in which a dealer's or trader's commission is charged;

(ii) The sale is made by the dealer to the consumer;

(iii) The pulpwood sold by the dealer to the consumer or sold by the trader to his vendee has been completely prepared for delivery by a person other than the dealer or trader;

(iv) The dealer or trader guarantees the merchantable quality of the pulpwood and that the pulpwood is free from all liens and incumbrances;

(v) The dealer's or trader's commission in such transactions is shown as a separate item on the settlement sheet. This settlement sheet must contain a statement that the dealer or trader has had no part in the preparation or delivery of the pulpwood, and that the charges are not in excess of Revised Maximum Price Regulation No. 257;

(vi) The dealer's allowance is not split or divided with any other person except as hereinbefore provided, or that the trader's allowance has not been split or divided with any person whatsoever;

(vii) All pertinent provisions in this Revised Maximum Price Regulation No. 257 are strictly complied with.

(3) Persons who have not qualified as dealers, but who intend to do so, shall state their intention so to do in writing to the Paper and Paper Products Branch of the Office of Price Administration, Washington, D. C. Nothing contained herein shall be construed to prohibit payment of a dealer's allowance in escrow to a bank or bank and trust company to be paid to such dealer if and when it shall have been determined by the Paper and Paper Products Branch of the Office of Price Administration that such dealer has qualified so as to be entitled to receive such commission, but otherwise to be repaid by such fiduciary to the consumer at the end of the calendar year.

Effective date. This Revised Maximum Price Regulation No. 257 shall become effective August 6, 1943.

NOTE: The record-keeping and reporting provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 6th day of August 1943.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 262,[1] Amdt. 9]

SEASONAL AND MISCELLANEOUS FOOD COMMODITIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1351.957 is amended to read as follows:

§ 1351.957 *Information which producers of peanut candy or potato chips must give their customers of price increases*—(a) *Notice from producers to wholesalers of price increases.* In the case of any item of peanut candy or potato chips which is being sold by a producer to a wholesaler for the first time after the producer's maximum price for it has been established under § 1351.955, the producer shall send the wholesaler (before or at the time of delivery) a written statement which lists for each such item included in the sale (1) the weighted average price charged by the producer during the month of March 1942, called the "base price", (2) the producer's maximum price, as calculated under the provisions of this regulation, called the "maximum price", and (3) the amount of the difference between the "base price" and the "maximum price", called the "wholesaler's permitted increase." When any producer of peanut candy or potato chips has established a maximum price by taking the maximum price of his competitor, as provided in § 1351.955 (b), his base price shall be the base price of the competitor. When calculating the "wholesaler's permitted increase", the producer shall adjust any fraction of a cent to the nearest fractional unit in which the wholesaler customarily quotes prices for the item.

(b) *Notice from producers to retailers of price increases*—(1) *General package requirement.* Every producer who sells any item of peanut candy or potato chips during the 90-day period from and after the effective date of this regulation whether to a wholesaler or a retailer, shall include with the shipping case (or other package unit in which the retailer usually purchases the product) a "Notice of retailer's permitted increase." This notice must be either pasted or stamped on the outside of each shipping case sold, or printed on a slip and enclosed. In the latter case the producer shall place this statement on the outside: "Retailer's notice enclosed." The producer shall calculate the retailer's permitted increase for the item by reducing the permitted increase which he computed for the wholesaler under paragraph (a), where necessary, to the units in which the commodity is usually sold at retail. When making this calculation, the producer shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent. Except for the proper insertion, the notice of retailer's permitted increase shall read as follows:

Notice of retailer's permitted increase. Your new OPA ceiling price for the enclosed item is your March ceiling price *plus* ..... cents per retail container. OPA requires you to keep this information for examination.

(2) *First sales directly to retailers; where notices do not accompany packages.* In the case of any item of peanut candy or potato chips which is being sold by a producer to any retailer for the first time after the producer's maximum price for it has been established under § 1351.955 and which for any reason is being sold in a form which does not include a producer's notice of retailer's permitted increase, the producer shall send the retailer (before or at the time of delivery) a written statement that (i) clearly identifies each such item included in the sale and (ii) states the "permitted increase" for it which the retailer is directed to add to his maximum price as established under the General Maximum Price Regulation. When preparing the statement the producer shall calculate the retailer's permitted increase for the item by reducing the permitted increase which he computed for the wholesaler under paragraph (a), where necessary, to the units in which the commodity is usually sold at retail. When making this calculation, the producer shall adjust fractions of one-half cent or more to the next higher cent and fractions of less than one-half cent to the next lower cent. Each statement shall be accompanied by this notice:

Your new OPA ceiling price for each item noted is your March ceiling price *plus* the permitted increase shown per retail container. OPA requires you to keep this information for examination.

This statement may also contain similar information for any other items covered by this regulation even though they are not included in the sale.

This amendment shall become effective August 13, 1943.

PART 1361—SOFTWOOD LUMBER

[MPR 94,[1] Amdt. 5]

WESTERN PINE AND ASSOCIATED SPECIES OF LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 94 is amended in the following respects:

1. Section 1381.502 (b) (2) (iii) is amended by inserting the word "Alaska," between the words "California," and "Mexico."

2. Section 1381.511 is amended by adding a paragraph (c) to read as follows:

(c) *Maximum prices for Alaskan lumber.* The maximum f. o. b. mill prices for Engelmann spruce, red cedar, and incense cedar lumber produced in Alaska and delivered to points outside the continental United States shall be the maximum f. o. b. mill prices set forth in Appendices F, G, and H, plus an amount equal to freight under the Maritime Commission's published freight rate from Seattle, Washington, to the mill's shipping point, including surcharges, War Risk insurance, and wharfage and handling charges under the published Seattle Wharfage and Handling rate for comparable lumber. The maximum delivered prices for such lumber shall be the maximum f. o. b. mill price arrived at according to the foregoing, plus transportation charges permitted by § 1381.504.

3. Section 1381.513, Appendix A, in the table entitled "Differentials and rules applicable to all grades of ponderosa pine", Rule 10 is amended to read as follows:

10. For 4/4 and thicker stock dressed thicker than standard: for 1/32" add $1.00, and for 1/16" add $2.00. No further addition is permitted.

This amendment shall become effective August 13, 1943.

PART 1389—APPAREL

[MPR 330,[1] Incl. Amdt. 1]

RETAILERS' AND WHOLESALERS' PRICES FOR WOMEN'S, GIRLS' AND CHILDREN'S OUTERWEAR GARMENTS

Sections 1389.551 (d), 1389.555 (g), 1389.557 (e), 1389.559 (d) added; §§ 1389.552 (a), (c); 1389.553; 1389.554 (a), (b), (c), (d) (1), (2), (3), (4), (e), (f) (2), (3); 1389.555 (c), 1389.557 (c), (d); 1389.559 (a); 1389.560; 1389.562 (g); Appendices A, B amended; § 1389.551 (b) corrected by Amendment 1, effective August 7, 1943 (except that sellers may on or before August 13, deliver garments covered by this regulation at prices established under existing regulations), so that Maximum Price Regulation 330 shall read as follows:

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for retailers and wholesalers of certain women's, girls' and children's outerwear garments. The maximum prices established by this regulation are in the judgment of the Price Administrator, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.* Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 330 is hereby issued.

Appendix A: What garments must be priced under this regulation.
Appendix B: Example of a pricing chart.

AUTHORITY: §§ 1389.551 to 1389.562, inclusive, issued under 56 Stat. 23, 765, Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681

§ 1389.551 *Scope of this regulation*—(a) *What garments must be priced under this regulation.* A list of the women's, girls' and children's outerwear garments which must be priced under this regulation is given in Appendix A at the end of the regulation. This regulation applies only to the garments which are described in that list. Hereafter, the women's, girls' and children's outerwear garments covered by this regulation are referred to as "garments."

(b) *Kinds of sales which are covered.* This regulation applies to sales by retailers and wholesalers. It does not apply to sales by manufacturers, manufacturing-retailers, custom-tailors or dressmakers. These terms are defined in § 1389.562. If after reading these definitions, you are in doubt as to whether this regulation applies to you, consult the nearest field office of the Office of Price Administration.

(c) *When this regulation takes effect.* This regulation takes effect February 24, 1943. As to garments delivered to you on or after February 24, 1943, you may not sell at higher prices than the ceiling prices set by this regulation. As to garments delivered to you before February 24, 1943, you were required to set your ceiling prices under § 1499.2 (a) of the General Maximum Price Regulation [2] or under Maximum Price Regulation 153, as amended.[3] You may, if you desire, continue to use those ceiling prices for these garments, or you may reprice your garments under the ceilings set in this regulation.

(d) *How to use this regulation for Spring and Fall pricing.* (1) The Spring selling season is the period between March 1 and July 31.

(2) The Fall selling season is the period between August 1 and February 29.

§ 1389.552 *How to find your ceiling price under this regulation*—(a) *Explanation of rules.* You find your ceiling price under this regulation by calculating the markup which you took on garments you delivered during the "base period", and then applying that markup to the cost of the garments you are pricing. You find what the "base period" markup is by using one of the pricing rules which are given in § 1389.554. However, you are not permitted to sell any garment at a higher price than the "highest price line" at which you delivered a garment of the same "category number" during the period which fixes your "highest price line" limitation. (This "highest price line" provision is explained in § 1389.553.)

(b) *What is a "category number."* The garments covered by this regulation are listed in Appendix A. Each kind of garment (such as dresses, coats, suits, skirts) is broken down into certain size groups. Each size group is described as a category and given a "category number."

For example: all "women's" coats are placed in Category No. 1; all "misses'" and "junior misses'" coats in sizes from 9 to 20, inclusive, are in Category No. 2; all "teen age" coats in sizes from 10 to 16, inclusive, are in Category No. 3; "women's" jackets are in Category No. 11; "girls'" dresses in sizes from 7 to 14, inclusive, are in Category No. 24, etc.

(c) *What is the "base period".* The base period is very important because you must figure your mark-up from your deliveries of garments during that period.

(1) *For sales of toddlers' garments, or blouses under size 30, or slacks and slack suits.* The "base period" for all garments in Category Nos. 5a, 10a, 15a, 20a, 25a, 26a, 26b and 32-39 is the period between (i) August 1 and December 31, 1942 for retailers and (ii) July 1 and October 31, 1942 for wholesalers.

For retailers who made their first delivery of garments in Category Nos. 5a, 10a, 15a, 20a, 25a, 26a, 26b or 32-39 after October 1, 1942 (September 1, 1942 for wholesalers) but before April 7, 1943, the "base period" is the first four months immediately following the first delivery of garments.

(2) *For sales of garments in all other category numbers.* The "base period" for retailers is the period between August 1 and December 31, 1941; for wholesalers, the period between July 1 and October 31, 1941.

For retailers who made their first delivery of garments in these category numbers after October 1, 1941 but before April 7, 1943, and for wholesalers who made their first delivery of garments after September 1, 1941, but before April 7, 1943, the "base period" is the first four months immediately following the first delivery of garments.

§ 1389.553 *Explanation of "highest price line" limitation.* In order that consumers may continue to buy garments at customary price levels, this regulation provides a highest price line limitation, or an over-all ceiling rule, for each category number during each selling season. The rule is that you may not under any circumstances sell any garment (a) during the Spring selling season for more than the highest selling price line at which you delivered a garment of the same category number during March

*Copies may be obtained from the Office of Price Administration.

1942, or (b) during the Fall selling season for more than the highest selling price line at which you delivered a garment of the same category number either during your base period or during March 1942.[4]

If you did not deliver any garments of the same category number during the period which determines your highest price line limitation (March 1942 for the Spring selling season; the base period or March 1942, whichever is higher, for the Fall selling season), then your highest price line limitation is the same as that of your most closely competitive seller of the same class for a garment of that category number during that selling season. Moreover, if your base period does not include the 3-month period between October 1 and December 31 (for wholesalers, the 2-month period between September 1 and October 31), then your highest price line limitation during the Fall selling season is the same as that of your most closely competitive seller of the same class for the same category number during the Fall selling season.

§ 1389.554 *How to use the pricing rules*—(a) *Pricing chart.* In order to price under this regulation it is necessary to prepare a pricing chart. On or before September 1, 1943, you must prepare a pricing chart which contains:

(1) A list of the category numbers you delivered during your base period.

(2) A list of the cost prices at which you purchased garments in each of these category numbers. (If you intend to use the exception provided in Rule 1 (§ 1389.554 (c)) for any cost prices, such cost prices on your pricing chart should be preceded by the symbol "(S)".)

(3) The discount, terms or allowance at which you purchased the largest number of garments at each cost price listed in (2).

(4) The selling price at which you delivered during the base period the largest number of garments of each cost price listed in (2).

(5) The percentage markup taken on each selling price listed in (4).

(6) The highest selling price line at which you delivered a garment of each category number during March 1942 (or, if you did not deliver the category number and now intend to deliver it, the highest selling price line at which your most closely competitive seller of the same class delivered a garment of the category number during March 1942. In such cases place the symbol "(C)" preceding the highest selling price line.)

(7) The highest selling price line at which you delivered a garment of each category number during the base period (or, if you did not deliver the category number, and now intend to deliver it, or if your base period does not include the 3-month period between October 1 and December 31 (the 2-month period between September 1 and October 31 for wholesalers), the highest selling price line at which your most closely competitive seller of the same class delivered a garment of the category number during the base period. In such cases place the symbol "(C)" preceding the highest selling price line.)

You must keep a copy of your pricing chart available for examination by the OPA. (An example of a pricing chart and detailed instructions for its preparation are found in Appendix B.)

NOTE: If you discover an incorrect entry on your pricing chart, you may correct it at any time: *Provided*, That you note next to the correction the date on which it is made. However, you must never deliver a garment at a higher price than the ceiling price shown on your chart on the date when the garment is delivered; corrected entries may be used as a basis for pricing only for garments delivered after the date of the correction noted on your pricing chart.

(b) *Summary of pricing rules.* In order to find your ceiling price for a garment, you use whichever of the five following pricing rules is applicable. You will note that your ceiling price generally depends upon the relationship between your present cost and one of the cost prices listed in your pricing chart. If your present cost is based on different terms or on a different discount from those listed for the cost prices in your pricing chart, you must adjust your present cost accordingly.

For example. Your present cost price is $19.75 less 8/10 EOM. In order to determine which pricing rule to use, you look at your pricing chart to find which cost prices listed there, if adjusted to a net basis, would be closest or equal to the actual net cost of your $19.75 less 8/10 EOM. You find cost prices of $19.75 less 3/10 EOM and $18.75 less 1/10 EOM listed on your pricing chart. To compare your present cost price with those listed on your chart, you adjust all three cost prices to a net basis. Thus the $19.75 less 8/10 EOM which you now purchase is adjusted to $18.17 ($19.75×92%=$18.17); your $19.75 less 3/10 EOM is adjusted to $19.16 ($19.75×97%=$19.16); and your $18.75 less 1/10 EOM is adjusted to $18.56 ($18.75×99%=$18.56).

In calculating your maximum price for this $19.75 less 8/10 EOM line under any of the first four pricing rules you must adjust that cost to reflect the terms or discount listed on your pricing chart for the cost price to which you are comparing it. (For an illustration of this requirement, see the second example under Rule 2.)

(1) *Rules 1 2 and 3.* You first find whether you delivered during the base period a garment of the same category number as the garment for which you are calculating your ceiling price. If you did, you then find your ceiling price by using either Rule 1, 2 or 3.

(2) *Rule 4* If you find that you did not deliver during the base period a garment of the same category number as the garment you are pricing, you then must calculate your ceiling under Rule 4.

(3) *Rule 5* You are permitted to price a garment under Rule 5 only if none of the rules from 1 through 4 applies to your case. For example, you use Rule 5 if you first started selling garments after April 7, 1943.

(c) *Pricing rules for garments of a category number delivered during the base period.* To find your ceiling price for garments of the same category number as garments which you delivered during the base period, you compare the cost price at which you purchased the garments now being priced with the cost price at which you purchased garments of the same category number which you delivered during the base period, and then use the first of the next three rules that applies.[5]

Rule 1. The ceiling price for a garment of the same cost to you as a garment you delivered during the base period is the selling price at which you delivered the largest number of such garments during the base period.

For example: You want to find your ceiling price for women's dresses (Category No. 21), which you now buy in a $6.75 cost price line. During the base period you delivered a total of 250 women's dresses which you bought at a $6.75 cost price. Of these 250 dresses your selling price was $9.95 for 50 of these dresses, $10.95 for 125 of them and $11.95 for 75 of them. Your ceiling price this season for dresses which cost you $6.75 is $10.95, since that is the price at which you delivered in the base period the largest number of women's dresses that cost you $6.75.

If during the base period you delivered an equal number of units at two or more different selling prices then your ceiling price shall be the lowest of these selling prices.

For example: You want to find your ceiling price for women's coats (Category No. 1), which you now buy in a $6.75 cost price line. In the base period, you delivered 120 coats that cost you $22.75. You delivered 20 of them at $32.50, 50 of them at $35.00 and 50 at $39.95; the rule requires that you take as your ceiling the lower of the two selling prices ($35.00).

NOTE: There is an exception permitting you to price garments of the same cost as garments delivered during the base period under Rule 3 rather than Rule 1 if both of the following conditions are met:

1. If this cost price is lower than the cost of any garment in the same category number which was both delivered to you and offered by you for sale during the base period; and

2. If the selling price at which you delivered the largest number of garments of that category number and cost price line during the base period was substantially lower than the initial offering prices of the same styles of garments in Spring 1941 (Spring 1942 for Category Nos. 5a, 10a, 15a, 20a, 25a, 26a, 26b and 32–39).

For example: You want to find your ceiling price for girls' suits (Category No. 9) which you now purchase at $3.75. You delivered 130 girls' suits of that cost price in a particular style at $5.98 in Spring 1941, and 70 of the same style at $4.50 during the base period. These were the only $3.75 suits you delivered during the base period. Moreover, you did not offer for sale during the base period any girls' suits delivered to you during the base period at a cost of $3.75 or less. You need not price the $3.75 girls' suits which you now purchase, at $4.50 by using this Rule, but you may price them under Rule 3.

Rule 2. This rule is used where the garment being priced is bought by you at a cost different from the cost of garments of the same category number which you delivered in the base period.

In such case, you calculate your ceiling price as follows: You first find the next lower cost price line of garments of the same category number which you delivered during the base period. You then find the selling price at which you delivered the largest number of units of such garments in that next lower cost price line during the base period. Then you find the percentage markup which you took on these garments in the base period and apply the same percentage markup to the garments you are pricing. This is done by subtracting the percentage markup from 100%, and dividing the cost of the garments you are pricing by the difference. The result is the ceiling price.

For example: You want to find your ceiling price for women's dresses (Category No. 21), that you now buy at a $7.75 cost price line. In the base period you delivered women's dresses that cost you $6.75 and $8.75, but you did not deliver any that cost you $7.75. To calculate your ceiling, you find your next lower cost price line in women's dresses, that you delivered in the base period, which is $6.75. You delivered in the base period altogether 200 women's dresses which you bought in a $6.75 cost price line. You delivered 125 of them at $10.95 and 75 at $11.95. Since $10.95 is the selling price at which you delivered the largest number of units, you then calculate the percentage markup, which you took in the base period on the garments sold at $10.95 and which cost you $6.75. This markup is 38.4%. (This percentage markup is found in Column E of your Pricing Chart). You then apply this same percentage markup in pricing your $7.75 garments and you find that your ceiling price is $12.58 ($7.75÷61.6%=$12.58).

Where you find that a garment which you now purchase has a different cost price from any garment of the same category number listed on your pricing chart, and that you bought such garment on terms different from those listed for the next lower cost price on your pricing chart, you must adjust the cost of the garment you are now pricing to reflect the terms listed on your pricing chart for the next lower cost price, and then, using the adjusted cost, take the percentage markup of the next lower cost price.

For example: The seller whose pricing chart is shown in Appendix B (a) listed the following cost prices for women's coats:

$18.75 1/10 EOM
19.75 8/10 EOM
22.75 8/10 EOM

He now wishes to price a woman's coat (Category No. 1) purchased at $19.75 less 3/10 EOM. This is clearly not the same cost price line as the $19.75 less 8/10 EOM listed on his pricing chart. He adjusts both of his $19.75 cost prices and his $18.75 less 1/10 EOM to reflect net terms. The $19.75 less 8/10 EOM listed on his pricing chart had a net cost of $18.17 ($19.75×92%=$18.17); the $19.75 less 3/10 EOM which he now purchases has a net cost of $19.16 ($19.75×97%=$19.16); the $18.75 less 1/10 EOM had a net cost of $18.56 ($18.75×99%=$18.56). Therefore, in pricing his woman's coat purchased at $19.75 less 3/10 EOM under Rule 2, the seller uses the percentage markup on his next lower cost price. This is his $18.75 less 1/10 EOM. Since this cost price line was purchased at 1/10 EOM, he adjusts his $19.75 less 3/10 EOM to reflect a discount of 1/10 EOM and now shows a cost price of $19.35 less 1/10 EOM ($19.75×97%=$19.16; $19.16÷99%=$19.35). Applying the percentage markup listed for $18.75 cost price (37.4%) to the woman's coat with an adjusted cost of $19.35, he finds his ceiling price for women's coats purchased at $19.75 less 3/10 EOM is $30.90 ($19.35÷62.6%=$30.90).

Rule 3. This rule is used where the garment you are pricing is bought by you at a cost which is lower than any cost price line of garments of the same category number which you delivered in the base period. In such case you follow exactly the same procedure set forth in Rule 2, except that you apply the percentage markup listed on your pricing chart for the lowest cost price line of garments of the same category number delivered in the base period instead of the next lower cost price line. If you can use the exception provided in Rule 1, you will have marked an (S) preceding certain of the lowest cost prices on your pricing chart. In using this Rule you disregard cost prices preceded by (S).

For example: You have some women's dresses (Category No. 21) that you bought for $2.75. During the base period you did not deliver any women's dresses costing less than $3.75. Column D of your pricing chart shows you that the selling price at which you delivered the largest number of $3.75 dresses is $5.98. Column E shows you that your percentage markup was 37.3%. By applying this same markup in pricing your $2.75 dresses, you find that your ceiling price is $4.39 ($2.75÷62.7%=$4.38).

However, if you find that your $3.75 cost price for women's dresses is marked with an (S) you disregard the percentage markup listed for that cost price and find your ceiling price for your $2.75 dresses by applying the percentage markup listed on your pricing chart for the lowest cost price line of women's dresses not preceded by (S).

(d) *Pricing rules for garments in a category number not delivered during the base period.* To find your ceiling price for garments which are in a category number that you did not deliver during the base period, you compare the cost price line of the garment being priced with the cost price line at which you bought garments of other category numbers delivered by you during the base period, and then use Rule 4.

[4] For purpose of this limitation, the prices authorized by any order granting an adjustment under the GMPR or under MPR 153, as amended, are considered to be prices of garments delivered during March 1942 or the base period. If the authorized price for a particular category number is higher than the highest price at which you actually delivered garments of that category number, it should be listed in Column F or G of your pricing chart.

[5] In applying these rules, the selling price authorized for a particular cost price line in any category number by an order granting an adjustment under MPR 153, as amended, shall be deemed to be the selling price at which the seller during the base period delivered the largest number of garments of that category number having the same cost price line; and any percentage markup authorized for a particular cost price line and or category number by such an order shall be deemed to be the percentage markup taken by the seller on the largest number of garments of the same cost price line and/or category number delivered during the base period. These adjusted selling prices and percentage margins should be listed on your Pricing Chart in Columns D and E respectively.

Rule 4. Your ceiling price for a garment of a category number that you did not deliver in the base period is determined as follows:

(1) If during the base period you delivered garments of any other category number which had been purchased at the same cost as the garment you are pricing, your ceiling price is the same as the Rule 1 ceiling price for garments of that other category number which have the same cost. However, if the cost price listed for that other category number on your pricing chart is preceded by an (S), you use subparagraph (3) below for the garment you are pricing.

Example 1. You want to find your ceiling price for women's suits (Category No. 6), now purchased for $6.75. You did not deliver any women's suits during the base period, but you did deliver women's slack suits (Category No. 36) which cost you $6.75. Column D of your pricing chart shows $10.95 as the price at which you delivered the largest number of women's slack suits. Accordingly, $10.95 is your ceiling price for women's suits.

However, if your $6.75 slack suit cost price were preceded by an (S), you would use subparagraph (3) below for your $6.75 women's suits.

(2) If you did not deliver during the base period garments of any category number which you bought at the same cost as the garment you are pricing, then you take the next lower cost price line of garments which you delivered in the base period and find the selling price at which you delivered the largest number of such garments; then find the percentage markup which you took on these garments, and use this markup in calculating the ceiling price of the garments you now wish to deliver.

Example 2. You want to find the ceiling price for misses' suits (Category No. 7) which you now buy at $9.25. You did not deliver any misses' suits during the base period, nor did you deliver any garments at all which you bought at $9.25. You delivered women's dresses (Category No. 21) bought at $8.75, which is the next lower cost price line for any garments delivered by you in the base period. Column E of your pricing chart shows 37.3% as your markup on $8.75 women's dresses, since Column D shows that you delivered the largest number of those dresses at $13.95. Accordingly, 37.3% is your markup for $9.25 misses' suits, and your ceiling price is $14.75

(3) If you did not deliver during the base period any garment bought at a cost price lower than the garment you are pricing, then you take the lowest cost price line of garments which you did deliver, and which is not preceded by an (S) on your pricing chart, and find the selling price at which you delivered the largest number of such garments. Then find the percentage markup which you took on these garments and use this markup in calculating the ceiling price of the garments you now wish to deliver.

Example 3. You want to find your ceiling price for misses' blouses (Category No. 26) which now cost you $2.50. You did not deliver any misses' blouses during the base period. The lowest cost price line at which you bought any garments delivered during the base period was $3.75, for women's dresses (Category No. 21). Column D of your pricing chart shows that you delivered the largest number of the $3.75 dresses at $5.98, and Column E shows 37.3% as the markup. Accordingly, you use 37.3% as your markup for the $2.50 blouses; and your ceiling price is $3.99 ($2.50 ÷ 62.7% = $3.99).

However, if your $3.75 cost price for women's dresses was preceded by an (S) on your pricing chart, you use the percentage markup which you took on garments in the lowest cost price line not preceded by an (S).

(4) In applying Rule 4, you might find that in the base period the largest number of garments that you delivered in two or more category numbers, which you purchased in the same cost price line, or in the next lower cost price line, or in the lowest cost price line, was delivered at different selling prices. In any such case in determining your ceiling price you must use that selling price or that percentage markup which gives you the lowest ceiling price. Also, if you find that you delivered during the base period an equal number of units at two or more different selling prices, then you shall use the lowest of these selling prices.

Example 4: Suppose that in calculating your ceiling price on the women's suits mentioned in Example 1 above, you find that during the base period you delivered not only women's dresses bought at $6.75, but also girls' coats (Category No. 4), which you bought at $6.75 and delivered at $9.95. Under Rule 1, your ceiling price for girls' coats bought at $6.75, is $9.95, since in the base period you delivered the largest number of girls' coats bought at that price for $9.95, and therefore, your ceiling price for these women's suits is $9.95 instead of $10.95 since that selling price gives you the lowest ceiling price.

Example 5. Suppose that in calculating your ceiling price on the misses' suits mentioned in Example 2 above, which you now buy at $9.25, you find that during the base period you delivered two different category numbers of garments each purchased at $8.75, namely women's dresses (Category No. 21) and women's coats (Category No. 1). You took a percentage markup of 32% on the coats and a percentage markup of 37.3% on the dresses. Using the 32% markup for your $9.25 misses' suits, you would have a ceiling price of $13.60 ($9.25 ÷ 69% = $13.60). If you could use the 37.3% markup, your ceiling price would be $14.75 ($9.25 ÷ 62.7% = $14.75). However, you must take the percentage markup which will give you the lowest ceiling price. This is 32%, and your ceiling price for your $9.25 misses' suits is therefore $13.60.

(e) *Rule 5: For wholesalers and retailers who started selling garments on or after April 7, 1943, or who cannot otherwise price.* This rule is used when you find that none of the preceding four pricing rules applies to your situation. You may determine your ceiling prices in either of the following ways, provided you keep the records required by § 1389.557 (d):

(1) The ceiling price for the garment being priced shall be the same as the ceiling price established by your most closely competitive seller of the same class for the same garment or, if none has been established for the same garment, for the similar garment most nearly like it; or

(2) The ceiling price for the garment being priced shall be the same as the ceiling price established by your most closely competitive seller for a garment of the same category number having the same cost price line.

If you price any garments under subparagraph (2) of this rule, then you must use the same method for pricing all garments of that category number having the same cost price line.

(f) *Special provisions for selling establishments which sell through separate departments.* (1) For the purpose of this regulation each separate department of a selling establishment shall be considered a separate seller.

(2) The highest price at which a separate department of a selling establishment may deliver a garment of a category number which it did not deliver during the period determining its highest price line limitation (March 1942 for the Spring selling season; the base period or March 1942, whichever is higher, for the Fall selling season) shall be the highest price line at which any department of the same selling establishment may deliver a garment of the same category number during the same selling season. Moreover, if the base period of the separate department does not include the 3-month period between October 1 and December 31 for retailers (the 2-month period between September 1 and October 31 for wholesalers) the highest price at which it may deliver any garment during the Fall selling season is the highest price at which any department in the same selling establishment may deliver a garment of the same category number during the Fall selling season.

(3) A separate department which is established after April 7, 1943, by a selling establishment which was in business prior to that date, shall establish its maximum prices in the following manner:

(i) The highest price line at which it may sell a garment in any category number shall be the highest price line at which any department of the selling establishment is permitted to sell a garment of that category number under this regulation.

(ii) The maximum markup which it may apply to the cost of the garment being priced shall be the highest markup which any department of the selling establishment is permitted to take had the garment been sold in that department or unit.

§ 1389.555 *What acts are prohibited by this regulation.* On and after the effective date of this regulation regardless of any contract or other obligation, no person shall do any of the following:

(a) Sell or deliver any garment at a price higher than the ceiling price permitted by this regulation, although he may lawfully charge prices below the ceiling.

(b) Change his customary discounts, allowances or price differentials, if the change results in a higher net price.

(c) Make a sale of garments which is conditioned directly or indirectly on the purchase of any other commodity or service. (Matched sets, however, if designed by the manufacturer for sale at a unit price, and so purchased by the seller under this regulation, may be sold at a unit price unless such sale is prohibited by any order of the War Production Board.)

(d) Do any other act which directly or indirectly increases, above the maximum price, the consideration paid for a garment or delivery of any garment.

(e) Buy or receive, in the course of trade or business, any garment which was sold in violation of any of the paragraphs of this section.

(f) Agree, offer, solicit or attempt to do any of the acts prohibited by this regulation.

(g) For the purposes of evading the price limitations set forth in this regulation, purchase, deliver, contract, deal or otherwise operate with or through any other person under common control with, controlled by, controlling or otherwise affiliated with the seller. No person shall do any other act which directly or indirectly increases the consideration paid for any garment. Any practice which is a device to secure the effect of a higher-than-ceiling price is as much a violation as an outright raising of the maximum price. This applies to devices making use of commissions, services, transportation arrangements, premiums, discounts, special privileges, tying agreements, trade understandings and all similar practices.

§ 1389.556 *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, proceedings for the suspension of licenses, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that War Procurement Agencies and Governments whose defense is vital to the defense of the United States shall be relieved of liability, civil or criminal, imposed by price regulations issued by the Office of Price Administration.]

§ 1389.557 *Records.* (a) You must keep a record of all prices established under this regulation. For each price, the record must show (1) the cost of the garment, (2) the selling price, (3) if you did not price under Rule 1, the percentage markup used in establishing the ceiling price, and (4) the pricing rule under which the ceiling was calculated.

(b) You must also preserve the records that you were required to prepare by § 1389.8 of Maximum Price Regulation 153, as amended.

(c) If, in Column F or Column G of your pricing chart you have listed a price established by your most closely competitive seller of the same class, you must keep a record showing his name and address.

(d) If you used paragraph (1) of Rule 5 in pricing any garments, then you must keep a record of (1) the name and address of your most closely competitive seller of the same class whose garment you used to establish your maximum price, (2) a description of such garment of such most closely competitive seller, and (3) a description of your same or similar garment priced on the basis of such garment.

If you used paragraph (2) of Rule 5 in pricing any garment, then you must keep a record of (1) the name and address of your most closely competitive seller of the same class whose ceiling prices you used to establish your ceiling prices, and (2) a chart showing the cost price line, percentage markup, and ceiling price established by your most closely competitive seller of the same class for each cost price line in each category number which you priced by reference to his ceiling prices. Such chart will be your pricing chart for those cost prices in those category numbers.

(e) If, prior to April 7, 1943, you delivered garments covered by this regulation, you must prepare and keep available for examination by the OPA the pricing chart required by § 1389.554 (a).

§ 1389.558 *Invoices, sales slips and receipts, notification and disclosure to retailers.* (a) Every wholesaler, in connection with a sale to a retailer shall deliver an invoice or other similar document showing (1) the date, (2) the name and address of the seller and purchaser, (3) the style number and category number of each of the different styles of garment sold, (4) the quantity of each different style of garment sold, (5) the price of each different style of garment sold, and (6) all discounts, allowances and other price differentials.

(b) Every retailer who has customarily given his customers a sales slip, receipt or similar evidence of purchase must continue to do so. Upon request from a customer, a retailer, regardless of previous custom, must give the purchaser a receipt showing (1) the date, (2) the name and address of the seller, (3) the name and description of each garment sold, and (4) the price received for it.

§ 1389.559 *Relation to the other maximum price regulations.* (a) The General Maximum Price Regulation[6] shall not apply and this regulation shall apply to sales of garments covered by this regulation, except that garments in Category Nos. 5a, 10a, 15a, 20a, 25a, 26a, 26b and 32–39 purchased by the seller pursuant to written contracts entered into on or before August 7, 1943, may be priced under the GMPR provided they are sold and delivered by the seller on or before November 1, 1943. In addition, the following sections of the GMPR are made a part of this regulation, and you must observe them:

(1) Sellers operating more than one retail establishment (§ 1499.4a).

(2) Transfers of business or stock in trade (§ 1499.5).

(3) Federal and state taxes (§ 1499.7).

(4) Current records (§ 1499.12).

(5) Marking and posting of cost-of-living commodities (§ 1499.13), except that paragraph (b) of § 1499.13 (filing of cost-of-living statements) does not apply.

(6) The licensing provisions of § 1499.16 shall apply to every person who sells women's, girls', children's and toddler's outerwear garments at wholesale or retail.

(7) The adjustment provision of § 1499.18 (d) shall apply to every retailer of garments purchased pursuant to a Fair Trade Agreement as provided in the GMPR.

(b) *Revised Maximum Export Price Regulation.*[7] Revised Maximum Export Price Regulation shall apply, and this regulation shall not apply to sales or deliveries for which maximum prices are established by Revised Maximum Export Price Regulations, issued by the Office of Price Administration.

(c) *Maximum Price Regulation 153, as amended.* This regulation shall be considered as an amendment to Maximum Price Regulation No. 153, as amended, for

[6] 8 F.R. 3096, 3849, 4347, 4486, 4724, 4978, 4848, 6047, 6962, 8511, 9025, 9991.

[7] 2d Revision: 8 F.R. 4132, 7662, 9998.

all purposes, except that it shall be known as Maximum Price Regulation No. 330.

(d) *Maximum Price Regulation 142.*[8] Maximum Price Regulation 142—Retail Prices for Summer Seasonal Commodities—shall not apply, and this regulation shall apply to sales of girls' slacks, overalls and slack suits of cotton or rayon.

§ 1389.560 *Amendment and adjustable pricing*—(a) *How this regulation may be amended.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment of general applicability. Any such petition must be filed in accordance with the provisions of Revised Procedural Regulation No. 1,[9] issued by the OPA.

(b) *Adjustable pricing.* If you wish, you may sell at the maximum price permitted by this regulation subject to an agreement with the buyer to charge a higher price if it becomes the legal maximum price by the time delivery is made. But you must never charge a price which is higher than the maximum price in effect at the time of delivery. Moreover, unless authorized by the OPA, you must not deliver at a price which is to be adjusted upward in accordance with action taken by the OPA after delivery. This authorization will be given only where: (1) a request for a change in the applicable price is pending; (2) authorization is necessary to promote distribution or production; and (3) it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

[Supplementary Order No. 28 (7 F.R. 9619) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

§ 1389.561 *Geographical applicability of this regulation.* This regulation shall be applicable to the continental United States, and to the District of Columbia, but not to the territories and possessions of the United States.

§ 1389.562 *Definitions.* (a) Unless the context otherwise requires or unless otherwise specifically provided herein, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the terms used in this regulation.

(b) "Retail sale" or "sale at retail" means a sale to an ultimate consumer other than an industrial or commercial user.

(c) "Wholesale sale" or "sale at wholesale" means a sale, otherwise than at retail, of a garment which the seller received in substantially the form in which he sells it. Sales by a manufacturer of those garments which he produces or has produced for him are not considered sales at wholesale.

(d) A "manufacturer" is a person who sells a garment which he has fabricated or which has been fabricated for him by an agent or by a "contractor" as that term is defined in Maximum Price Regulation No. 172.[10]

(e) A "manufacturing-retailer" is a manufacturer who maintains one or more establishments selling at retail, or who otherwise sells to ultimate consumers and who sells substantially all of the garments that he manufactures to ultimate consumers.

(f) A "custom tailor" or "dressmaker" is a manufacturer who sells to ultimate consumers from his own establishment, garments fabricated by himself to the individual specifications and at the special order of such ultimate consumers.

(g) "Cost price line," "cost price" and "cost" have the same meaning when used in this regulation. You find the cost price line of a garment by taking whichever of the following is lower:

(1) The actual cost of the garment, or

(2) The maximum price, at the time of purchase, that the regulations of the OPA permit your source of supply to charge for the garment.

In calculating your selling price under this regulation, you use the same cost basis that you used in the base period. Thus, if in the base period in calculating selling price, you used as "cost", your invoice price, before subtracting discounts or freight, you now calculate your markup on the same basis.

(h) "Seller" means a seller of any of those types of women's, girls' and children's outerwear garments covered by this regulation.

Appendix A: What Garments Must Be Priced Under This Regulation

This regulation covers the garments listed below, if fabricated from yard goods (including knitted fabrics and laces). It does not cover garments fabricated from materials obtained by the assignment of an A-2 preference rating by the War Production Board, pursuant to Limitation Order M-207; nor does it cover uniforms and women's work clothing which would ordinarily be purchased only for wear in industrial, commercial, institutional or agricultural occupations. Note, however, that sportswear and utility wear suitable for general use are covered.

(a) *Coats.* "Coats" include all feminine outerwear garments commonly known as coats, usually worn over other outer apparel, untrimmed, trimmed, fur-trimmed and fur-lined, sport and dress, including capes and wraps, but not including rainwear garments or garments made of artificial leather. "Rainwear garments" are those which are commonly regarded as having their chief use as protection against rain.

Category numbers:

1—"Women's"—all sizes.

2—"Misses'" and "jr. misses'"—sizes from 9 to 20, inclusive.

3—"Teen age"—sizes from 10 to 16, inclusive.

4—"Girls'"—sizes from 7 to 14, inclusive.

5—"Children's"—sizes from 3 to 6, inclusive.

5a—"Toddlers'"—sizes from 6 months to 4 years, inclusive.

(b) *Suits.* "Suits" include all two-piece feminine outerwear garments, untrimmed, trimmed and fur-trimmed, consisting of a "separate jacket" and "separate skirt" fabricated of either matching or contrasting material to be sold at a unit price. Two-piece dresses, however, are not included.

Category numbers:

6—"Women's"—all sizes.

7—"Misses'" and "jr. misses'"—sizes from 9 to 20, inclusive.

8—"Teen age"—sizes from 10 to 16, inclusive.

9—"Girls'"—sizes from 7 to 14, inclusive.

10—"Children's"—sizes from 3 to 6, inclusive.

10a—"Toddlers'"—sizes from 6 months to 4 years, inclusive.

(c) *Separate jackets.* "Separate jackets" include all feminine outerwear garments commonly known as jackets which can be opened from neck to hem and which ordinarily are not worn tucked into a skirt, slacks or shorts. Note that this includes ski jackets, skating jackets and other sport jackets. Garments made of artificial leather are, however, excepted. Boleros, jerkins and other garments of the same type are considered to be jackets.

Category numbers:

11—"Women's"—all sizes.

12—"Misses'" and "jr. misses'"—sizes from 9 to 20, inclusive.

13—"Teen age"—sizes from 10 to 16, inclusive.

14—"Girls'"—sizes from 7 to 14, inclusive.

15—"Children's"—sizes from 3 to 6, inclusive.

15a—"Toddlers'"—sizes from 6 months to 4 years, inclusive.

(d) *Separate skirts.* "Separate skirts" include all feminine outerwear garments commonly known as skirts, including skating skirts, but excluding culottes.

Category numbers:

16—"Women's"—all sizes.

17—"Misses'" and "jr. misses'"—sizes 9 to 20, inclusive.

18—"Teen age"—sizes from 10 to 16, inclusive.

19—"Girls'"—sizes from 7 to 14, inclusive.

20—"Children's"—sizes from 3 to 6, inclusive.

20a—"Toddlers'"—sizes from 6 months to 4 years, inclusive.

(e) *Dresses.* "Dresses" include all feminine outerwear garments commonly known as dresses, whether made in one-piece models or in two-piece models consisting of a skirt and a separate blouse, or separate unlined jacket, and sold at a unit price. Such garments include dresses used for street, evening, house or utility wear. Jumpers, pinafores, brunchcoats, smocks and similar garments are considered dresses.

Category numbers:

21—"Women's"—all sizes.

22—"Misses'" and "jr. misses'"—sizes from 9 to 20, inclusive.

23—"Teen age"—sizes from 10 to 16, inclusive.

24—"Girls'"—sizes from 7 to 14, inclusive.

25—"Children's"—sizes from 3 to 6, inclusive.

25a—"Toddlers'"—sizes from 6 months to 3 years, inclusive.

(f) *Blouses.* "Blouses" include all feminine outerwear garments, commonly known as blouses or shirtwaists.

Category numbers:

26—"Women's", "misses'" and "jr. misses'"—all sizes.

26a—"Teen age" and "girls'"—sizes from 7 to 16, inclusive.

26b—"Children's" and "toddlers'"—sizes from 6 months to 6 years, inclusive.

(g) *Snowsuits.* "Snowsuits" include all (1) toddlers' and children's (including boys'), (2) girls' and (3) teen age outerwear garments commonly known as snowsuits or ski suits.

Category numbers:

27—"Children's" and "toddlers'" one and two-piece snowsuits (with or without a matching hat)—sizes from 1 to 6, inclusive.

28—"Teen age" and "girls'" one and two-piece snowsuits (with or without a matching hat)—sizes from 7 to 16, inclusive.

(h) *Legging sets and separate leggings.* "Legging sets" and "separate leggings" include all (1) toddlers' and children's (including boys'), and (2) girls' outerwear garments commonly known as legging sets and separate leggings, but excluding garments made of artificial leather.

Category numbers:

29—Legging sets—sizes from 1 to 14, inclusive.

30—Separate leggings—sizes from 1 to 14, inclusive.

(i) *Separate ski pants.* "Separate ski pants" include all (1) toddlers' and children's (including boys'), (2) girls' and (3) teen age outerwear garments commonly known as ski pants.

Category number:

31 Separate ski pants—sizes from 1 to 16, inclusive.

(j) *Separate slacks.* "Separate slacks" include all women's, girls' and children's outerwear garments commonly known as slacks, and usually cut in the same style as men's trousers, reaching from waist to calf or below and having long loose legs, including slacks with any attached sleeveless bodice commonly known as "overalls" or "jumperalls", but excluding culottes.

Category numbers:

32—"Women's"—all sizes.

33—"Misses'" and "jr. misses'"—sizes from 9 to 20, inclusive.

34—"Teen age" and "girls"—sizes from 7 to 16, inclusive.

35—"Children's" and "toddlers'" (including boys', except boys' tailored pants which are covered by Maximum Price Regulation 177)[11]—sizes from 6 months to 6 years, inclusive.

(k) *Slack suits.* "Slack suits" include women's, girls' and children's outerwear garments commonly known as slack suits or slack sets, consisting of a slack and separate jacket, or a slack and separate or attached blouse, sold at a unit price. Garments commonly known as "coveralls" are included.

Category numbers:

36—"Women's"—all sizes.

37—"Misses" and "jr. misses"—sizes from 9 to 20, inclusive.

38—"Teen age" and "girls'"—sizes from 7 to 16, inclusive.

39—"Children's" and "toddlers'" (including boys', except boys' tailored suits which are covered by Maximum Price Regulation 177)—sizes from 6 months to 6 years, inclusive.

Any seller (including a separate department described in paragraph (f) of § 1389.554) who sells garments in women's and misses' or juniors' sizes and who customarily delivered garments in women's and misses' or juniors' sizes at the same percentage markups may, at his option, combine garments in those sizes when calculating the selling price at which he sold the largest number of garments of each cost price line during the base period.

Two-piece dresses and snowsuits purchased by the seller pursuant to written contracts entered into on or before August 7, 1943, may be delivered by the seller on or before November 1, 1943 at the ceiling prices in effect prior to August 7, 1943 for two-piece dresses and snowsuits of the same cost prices.

Appendix B: Examples of a Pricing Chart

(a) *Pricing chart.* An example of the pricing chart required by § 1389.554 (a) follows:

(b) *How to prepare your pricing chart:*

1. In Column A, list the category numbers of the garments you are pricing. You will find the category numbers for the garments in Appendix A.

2. In Column B, list all the cost price lines at which you purchased garments that you delivered during the base period. (Section 1389.552 (c) explains what the base period is). If you are permitted to use the exception provided in Rule 1 (§ 1389.554 (c)) for any cost price lines, you should place the symbol "(S)" preceding each such cost price line in your Pricing Chart.

3. In Column C, list the discount, terms or allowance at which you purchased the largest number of garments at each cost price line listed in Column B.

4. In Column D, list the selling price at which you delivered during the base period the largest number of units of each cost price line listed in Column B. (See Rule 1, if you delivered the same number of units at two or more selling prices, for then you use the lowest selling price).

5. In Column E, list the percentage markup taken on each cost price line listed in Column B. This is how you make this calculation:

Step 1. You subtract the cost price line (Column B) from the selling price (Column D) and the difference is the dollar markup.

Step 2. Divide this dollar markup by the selling price (Column D) and the result is the percentage markup.

For example: In the Pricing Chart listed above, in order to find the percentage markup taken on the $3.75 cost price line, you subtract $3.75 (Column B) from $5.98 (Column D). The difference is $2.23. By dividing $2.23 by $5.98 (Column D), you find your percentage markup to be 37.3%.

6. The percentage markups illustrated in Column E and in the examples given throughout the regulation are markups on selling price. If you usually calculate your markups on your cost prices, you may under this regulation, continue to calculate your markups on cost instead of on selling price. However, you must calculate your markups in the same manner now that you did in the base period.

7. In Columns F and G, respectively, list the highest price line at which you delivered

[8] 7 F.R. 3553, 3720, 5179, 5520, 8945, 8948.
[9] 7 F.R. 8961, 8 F.R. 3313, 3533, 6173.
[10] 7 F.R. 4882, 6384, 8351, 8948, 10864; 8 F.R. 6063.
[11] 7 F.R. 5182, 7475, 8792, 7100, 7944, 8940, 9000, 8948.

in March 1942 and the base period a garment of each category number listed in Column A. If you did not deliver a garment of any category number in March 1942 or in the base period and now intend to deliver it, then list the highest price line at which your most closely competitive seller of the same class delivered a garment of the same category number in March 1942 or in the base period. If your base period does not include the 3-month period between October 1 and December 31 (the 2-month period between September 1 and October 31 for wholesalers) you should list in Column G the highest selling price line at which your most closely competitive seller of the same class delivered a garment of the same category number during March 1942 or during the base period. In any case in which you list the highest selling price line of a competitive seller, you should precede such price by the symbol "(C)" on your Pricing Chart.

This regulation shall become effective February 24, 1943.

[Issued February 18, 1943]

NOTE: All record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 7th day of August 1943.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[RO 13,[1] Incl. Amdt. 50]

PROCESSED FOODS

Sections 23.3 (a), (b), 23.4 (a), (b) amended by Amendment 50, effective August 13, 1943, so that Ration Order 13 shall read as follows:

Why Processed Foods Must Be Rationed

Our soldiers and sailors in combat areas must be fed—they must be well fed. The armed forces of our allies must be fed. War is fought, and won, as much by food as by munitions. Food is a weapon which we must forge and send wherever needed—to the millions of our fighting men—to our allies and their fighting men—to their fighters on the home front, in factories, in shipyards, in munitions plants.

Processed foods—canned and frozen fruits and vegetables, and dried fruits—have been aptly called "fighting foods." Because they are compact, easily shipped and easily prepared—because they can be kept for long periods without spoiling—they fill a vital need of our armed forces and those of our allies.

Thus, the war has brought a tremendous increase in the demand for processed foods. A large part of our supply of these fighting foods must be shipped to our armed forces and to our allies.

At the same time, the war has limited our ability to increase production indefinitely. Shortages of tin, rubber and steel—of manpower and of plant facilities—place definite limits on the possibilities of expansion.

The result is that our supplies are not sufficient to meet normal civilian demands. The supplies of processed foods which are available must therefore be rationed so that everyone can get his fair share.

The use of canned baby foods has increased tremendously during the past few years. Here too, however, the war limits our ability to expand production indefinitely. Baby foods are therefore included in the program in order to help avoid depriving any mother of the convenience of using these foods because of uneven distribution of supplies. Babies have war ration books, and their books can be used for those foods.

The Point Rationing System

Processed foods are rationed by what is called a "point" system. A particular "price", in points, is fixed for each item of processed foods. That "price" is called its "point value". Every consumer is then given a certain number of "points" which he can "spend" for processed foods, just as he has a certain amount of money which he can spend. He can get less of a higher priced item, or more of a lower priced item.

The reason for adopting this system is that there are a great number of different items of processed foods. If the supply of each item were divided evenly, there would not be enough to go around. Thus, if everyone were given stamps for canned asparagus, the amount which each consumer could get would be too small to be useful.

However, many of those items can be substituted for each other. To a considerable extent, the use of one item, rather than another, depends upon personal preference. For example, one person may prefer canned peaches, while another prefers canned pears.

The point system provides a method for letting everyone choose the kinds he prefers. It gives the same type of flexibility that a person has when he spends his money. He can get canned peas or, if he prefers, canned asparagus. He can get a small can of peas and a small can of asparagus, instead of a large can of peas.

Furthermore, the point system provides a method for adjusting demand to the available supply. For example, if canned tomatoes are relatively plentiful, a low point value could be fixed. More people would then buy canned tomatoes, just as when the money price is low. If canned tomatoes become scarce, their point value is increased. Fewer consumers will then buy them, since consumers who do not want canned tomatoes badly will not wish to spend too many of their points on canned tomatoes, when they could get other processed foods at a lower point price.

The point rationing system has been in use in England for a long time. It works simply and easily—and it is the most satisfactory method yet devised for fair and flexible distribution of a group of commodities which should be rationed together.

How Consumers Get Processed Foods

Consumers are given "points" for processed foods in the form of the blue stamps in War Ration Book Two. Each stamp has a number which shows the number of points for which it is good.

Consumers register for and get War Ration Book Two during the week before processed foods rationing actually begins. When they apply for the book, they declare their stocks of processed foods and give up stamps for any excessive amounts they have.

During the week of registration for War Ration Book Two, consumers are not permitted to buy processed foods. The reason for this is to give retailers a chance to stock up and to prepare to meet demands under rationing. At the same time, it helps make sure that all consumers start evenly. If purchases were permitted, a hoarder could get his War Ration Book Two, and then go out and buy processed foods during the rest of the week without giving up points. This would give him an unfair advantage which would be inconsistent with the purposes of rationing.

When rationing begins, a consumer gives up stamps when he buys processed foods in much the same way as he gives up sugar stamps when he gets sugar. If he buys an item with a point value of 11 points, he gives up stamps worth 11 points. Retailers are required to post point values plainly, so that consumers will know just how many points each item costs.

Just as in the case of sugar, only certain stamps are good at a particular time. In this way, supplies are spread out evenly among consumers, over the year. At the outset of the program, 48 points worth of stamps will be good each month.

While no consumer starts with more points than the number in his War Ration Book Two, the order makes provision for cases of special need. A consumer who needs processed foods because of special dietary requirements due to illness can go to his local Board and get a certificate for more points, so that he can get the additional foods he needs. A consumer who lives in remote areas and who buys supplies for a long period at one time can exchange his stamps for a certificate, so that he can make his purchases all at once.

The order permits housewives to lend processed foods to each other. It also permits any person who has more processed foods of a particular kind than he needs, to exchange them for other types of processed foods of equal point value.

All of these provisions for special cases give the system necessary flexibility and permit it to operate in a way which will cause as little hardship as possible.

How Other Users Get Processed Foods

Many consumers eat in restaurants or other eating establishments. The problem of rationing the food supply of those establishments (called "institutional users") is not confined to processed foods. Institutional users need other rationed foods. Therefore, the method by which institutional users get rationed foods—sugar and coffee, as well as processed foods—is covered by a general order, called General Ration Order 5.

There is another purpose for which processed foods are used. Processed foods are used in making other items which are not rationed under this order. That use is called an "industrial use." For example, bakeries may use canned or dried fruits in making pies. Pies are not rationed. Therefore, a bakery which uses canned peaches to make peach pie is an "industrial user."

It is obvious that if consumers are cut, these uses should also be cut. Therefore, the allotments given to industrial users are calculated in such a way that they will take a cut which is fair as compared with the cut borne by the average home consumer.

How the Trade Operates Under the Order

In order to make sure that all processed foods are accounted for, points must be given up for all sales of processed foods. When a retailer buys from a wholesaler, he gives up to the wholesaler points he got from consumers or from other people to whom he made sales. Similarly, when a wholesaler buys from a producer or importer (called a "processor"), the wholesaler gives up points. Processors then turn over their points to the Office of Price Administration—and the points they turn over must match the point value of processed foods they transferred.

It is also important to make sure that supplies of processed foods are evenly distributed and that every person who deals in processed foods has his proper share to sell. This is done by making provision for retailer and wholesaler inventories. No one, however, can get a supply of processed foods for sale unless he is engaged or is about to engage in the business of dealing in them. He must show that he is part of the channel of distribution. Therefore, retailers, wholesalers and processors are required to register under this order and to give information showing the volume of their business.

Retailers register and report only once—at the end of the first month of rationing. They report their sales during that month. Their volume shows how large a supply they need under rationing. A retailer is therefore given an "allowable inventory" which is based on his sales during the first month of rationing. However, to make sure that he has a large enough stock to work with flexibly, his sales are multiplied by a "factor" fixed by the Office of Price Administration, to get his allowable inventory.

Wholesalers also get allowable inventories, based on their sales under rationing. However, in some respects they are treated differently from retailers.

Wholesalers occupy a strategic position in the distribution of processed foods. Many of them have large warehouse space. During the packing seasons, supplies must flow to them freely, since the limited storage space of most processors would otherwise overflow. During those seasons, the problems of storage and warehousing make it important to let wholesalers get large quantities, even if they do not need them all for immediate sale. In other seasons, when supplies are scarce, the amount going to each wholesaler should be reduced, since no storage problem exists and even distribution is important.

Wholesalers are therefore required to report their sales each month. The Office of Price Administration fixes a factor, for each month, to reflect available supplies and proper distribution of them. Each wholesaler then gets a maximum allowable inventory for each month, equal to his sales during the last month, multiplied by that factor.

Any retailer or wholesaler who does not have large enough stocks when rationing begins, can come in during the first month for an emergency adjustment. He will be given a certificate for enough points to get adequate working stocks.

Processors have no allowable inventory problems, since they sell stocks which they themselves produce or import. However, all processed foods must be accounted for. Furthermore, rationing can be effective only if the available supply is known. Processors are therefore required to make monthly reports of their sales, inventories and production or imports. In this way, the necessary information is obtained. Processors are, of course, required to register at the start of rationing, so that supplies at that time, and the sources of future supplies, can be known.

Adjustments at Trade Levels

The order makes provision for various adjustments at trade levels, to get maximum flexibility. For example, retailers and wholesalers may apply for adjustments of their allowable inventories, to cover changed conditions or unusual situations. They can also apply for "loans" of points, if their own points are tied up in shipments which have not arrived. Provision is made for new business—for persons who wish to engage in processing, wholesaling or retailing processed foods.

Provisions of this type, coupled with the provisions made for special cases at the consumer level, should permit the order to operate on the smoothest and most flexible basis consistent with effective rationing.

RATION ORDER NO. 13—PROCESSED FOODS

ARTICLE I—INTRODUCTION

Sec.
1.1 This order covers processed foods.
1.2 Processed foods are rationed by the point system.
1.3 Points come in the form of stamps, certificates and ration checks.

ARTICLE II—CONSUMERS

2.1 When a person is a consumer.
2.2 Consumers may not purchase processed foods from February 21, 1943 to February 28, 1943.
2.3 Consumers may purchase after February 28, 1943, only for points.
2.4 How points are given up by consumers.
2.5 Consumers who need more processed foods because of illness may apply for more points.
2.6 Consumers who must purchase in quantity may apply for certificates.
2.7 Service men may get certificates to acquire processed foods.
2.8 [Revoked]
2.9 Consumers who must have more processed foods for their subsistence may apply for more points.

ARTICLE III—PROCESSORS

3.1 Explanation of the terms processor and processor establishment.
3.2 Processors must register and file reports.
3.3 Processor is given a registration number.
3.4 Processor may not do business if he does not register and file reports.
3.5 Processors must report their inventories.
3.6 A processor must turn over the points he receives to the Washington Office.
3.7 [Revoked]
3.8 Processors must keep records.
3.9 Processors must account for differences between their transfers and the number of points given up to the Office of Price Administration.

ARTICLE IV—WHOLESALERS

4.1 Explanation of the terms wholesaler and wholesaler establishment.
4.2 Wholesalers must register and file reports.
4.3 Wholesaler may not do business if he does not register and file reports.
4.4 Wholesalers must report their inventories.
4.5 Wholesalers must report their sales and points on hand.
4.6 A wholesaler is allowed a maximum inventory.
4.7 Wholesaler may not acquire processed foods if actual inventory is greater than maximum allowable inventory.
4.8 Washington Office may grant working point capital to wholesalers.
4.9 Wholesalers must keep records.
4.10 Inventory adjustments because of additions to the list of processed foods.

ARTICLE V—RETAILERS

5.1 Explanation of the terms retailer and retail establishment.
5.2 Retailers must get statement of purchases during March 1943.
5.3 Retailers must register.
5.4 Retailer may not do business unless he has registered.
5.5 Retailers must report their inventories.
5.6 Retailers must report their sales and points on hand.
5.7 Certain retailers need not report inventory and other information.

10.10 Processed foods may be delivered point-free to certain persons.
10.11 Processed foods may be transferred, point-free, in connection with transfer of a business.
10.12 Processors may transfer point-free to allow for spoilage.
10.13 Grower of dry beans, peas or lentils may transfer them to country shippers point-free.
10.14 Country shipper or grower of dry beans, peas, or lentils may transfer them point-free to growers for seed purposes.
10.15 Wholesaler or retailer may transfer dry beans, peas, or lentils point-free for seed.
10.16 Dry beans, peas, or lentils may be transferred point-free between country shippers.

ARTICLE XI—SALE OF BUSINESS

11.1 Sale or transfer of retail, wholesale, or processor establishment.
11.2 Sale or transfer of industrial user establishments.

ARTICLE XII—NEW BUSINESSES

12.1 New retail establishments may be opened.
12.2 New wholesale establishments may be opened.
12.3 New processor establishments may be opened.
12.4 In special cases, allotments may be granted for new industrial user establishments.

ARTICLE XIII—CLOSING OF BUSINESS

13.1 What a person who closes his establishment must do.

ARTICLE XIV—MISCELLANEOUS ADJUSTMENTS

14.1 Retailer may apply for inventory adjustments after March 1943.
14.2 Wholesaler may apply for inventory adjustments after March 1943.
14.3 Wholesalers and retailers may apply for point loans.
14.4 Adjustments for lost, destroyed, stolen or spoiled processed foods.
14.5 Applications may be made for other adjustments.
14.6 Wholesaler or retailer may apply for points to replace dry beans, peas, or lentils transferred point-free for seed.
14.7 Person acquiring seed beans, peas, or lentils may transfer them as food only for points.

ARTICLE XV—ISSUANCE AND USE OF CERTIFICATE

15.1 How certificates are issued.
15.2 Certificates are good for a limited time.
15.3 A certificate must be endorsed.
15.4 [Revoked]
15.5 Names of persons who have been given certificates may be posted.
15.6 Certificates are the property of the Office of Price Administration and may be revoked.
15.7 Sugar purchase certificates may be corrected and used as processed foods purchase certificates.

ARTICLE XVI—RECORDS, REPORTS AND INSPECTIONS

16.1 Records must be kept for two years.
16.2 Records may be inspected by Office of Price Administration.
16.3 Places where processed foods are kept may be inspected.
16.4 Records and reports are confidential.
16.5 Office of Price Administration may extend time for registration and reports.
16.6 Office of Price Administration may require applicants to give information.
16.7 Persons who produce certain items similar to processed foods must file reports.

ARTICLE XVII—ADDITIONAL RECORDS TO BE KEPT BY CHAINS

17.1 Chains must keep records of transfers of stocks and points between establishments.

ARTICLE XVIII—APPEALS

18.1 Persons directly affected by action taken under this order can appeal.

ARTICLE XIX—MISCELLANEOUS RULES AND PROHIBITIONS

19.1 Additional prohibitions.
19.2 Stamps and certificates may not be taken by legal process or acquired by will.
19.3 Office of Price Administration must be notified of legal proceedings.
19.4 General Ration Order 5 governs whenever inconsistent with this order.

ARTICLE XX—SUSPENSION ORDERS

20.1 Office of Price Administration may issue suspension orders.

ARTICLE XXI—DEFINITIONS

21.1 Definitions

ARTICLE XXII—EXPORTS

22.1 Processed foods may be exported point-free.
22.2 Points may be obtained to acquire processed foods for export.
22.3 Exporter must account for all processed foods exported.

ARTICLE XXIII—EXEMPT AGENCIES: SHIPS' STORES; GOVERNMENTAL INVESTIGATORY AGENCIES

23.1 Exempt agencies may acquire processed foods.

23.6 Industrial users may replenish foods used in products transferred to agencies designated in General Ration Order 11.
23.7 Ships' stores for ocean-going vessels.
23.8 Governmental investigatory agencies may acquire processed foods needed in their investigations.

ARTICLE XXIV—GROWERS AND COUNTRY SHIPPERS OF DRY BEANS, PEAS, AND LENTILS

24.1 Explanation of terms grower and country shipper with respect to dry beans, peas, and lentils.
24.2 Country shippers must register and file reports.
24.3 Country shipper is given a registration number.
24.4 Country shipper may not do business if he does not register and file reports.
24.5 Country shippers must report their inventories.
24.6 A country shipper must turn over the points he receives to the Washington office.
24.7 A country shipper must keep records.
24.8 Country shippers must open a ration bank account.
24.9 Growers who sell or transfer dry beans, peas, or lentils to persons other than country shippers must do so only for points.

ARTICLE XXV—ACQUISITION OF PROCESSED FOODS BY RESIDENTS OF MEXICO

25.1 Residents of Mexico may acquire processed foods in the United States.
25.2 How processed foods may be transferred to residents of Mexico.
25.3 Records and reports by supplier from whom processed foods are to be acquired.
25.4 Records and reports by suppliers who transferred processed foods to residents of Mexico before July 1, 1943.

ARTICLE XXVI—HOME PROCESSED FOODS

26.1 Explanation of terms "home processor" and "home processed foods."
26.2 Person may consume home processed foods he produces and may give away limited amounts.
26.3 A person may sell home processed foods he produces.
26.4 Person producing processed foods in place other than a "kitchen" may get permission to treat them as home processed foods.
26.5 Person may have foods grown by members of his family unit processed by a processor for household consumption.
26.6 Consumer groups may acquire and use processed foods they produce in commercial scale processing facilities.
26.7 Certain community groups may apply to Washington office for an exception.
26.8 Group II and III institutional users may use and transfer processed foods they produce as provided in General Ration Order 5.

APPENDICES

Appendix A
Appendix B

EFFECTIVE DATE

Article I—Introduction[2]

SECTION 1.1 *This order covers processed foods.*

(a) The foods which are covered by this order are called "processed foods" and are listed in section 21.1 (a) (10).

[Paragraph (a) amended by Amendment 3, 8 F.R. 2664, effective 3-1-43, Amendment 16, 8 F.R. 5342, effective 4-27-43 and Amendment 24, 8 F.R. 5757, effective 5-2-43]

(b) Puncturing or opening the container in which processed foods are packed, or merely removing them from the container, does not cause them to cease to be processed foods.

(c) When any processed food is prepared for service and served, it is no longer considered a processed food. Thus, a "person" who is served canned peaches in a restaurant, as part of a meal, is not getting processed food. Furthermore, when a processed food has been used in making a product which is not rationed under this order, it ceases to be a processed food. For example, canned peaches may be used in baking peach pie—that pie, and the peaches in it, are not processed foods.

SEC. 1.2 *Processed foods are rationed by the point system.* (a) All types of processed foods are rationed together, as a group, through the use of the point system of rationing. Each item of processed foods is given a particular point value for each size in which it is sold. The point value of a processed food is the number of points that must be given up by any person who wants to get it, just as the money price of an article is the amount of money it costs. The point values will be fixed by the Office of Price Administration in a supplement to this order, containing the official table of point values. These point values may be changed from time to time, as conditions require.

SEC. 1.3 *Points come in the form of stamps, certificates and ration checks.* (a) There are several forms of tokens or ration currency which represent points.

(b) The basic tokens are the blue "stamps" in War Ration Book Two, which are designated by the Office of Price Administration to be used for the acquisition of processed foods. They are the form in which points are generally given up by consumers.

(c) Other forms of ration currency authorized by the Office of Price Administration are "certificates" (OPA Form R-1201) and ration checks drawn on ration bank accounts. A certificate is issued by the Office of Price Administration (or a person authorized by that office to issue it) and is worth the number of points stated on it. Ration checks are very much like ordinary checks. They are drawn on a bank account in which a person has deposited his points, just as an ordinary check is drawn on a bank account in which he has deposited his money. (The cases in which ration checks are used are covered in Articles VIII and IX.)

Article II—Consumers

SEC. 2.1 *When a person is a consumer.* (a) Any "person" who buys or "acquires" "processed foods" for his personal use or for use at a table at which he eats, is a "consumer". (When a person gets processed foods in order to resell them or in order to use them in making other products for sale, he is not a consumer, since those are not personal uses. He is a consumer only so far as he does get processed foods for personal uses.)

SEC. 2.2 *Consumer may not purchase processed foods from February 21, 1943 to February 28, 1943.* (a) From February 21, to February 28, 1943, inclusive, no consumer may buy or acquire processed foods from any other person. (However, a consumer may borrow processed foods from, and return borrowed processed foods to, another consumer and may acquire processed foods from another consumer for consumption at a common table.)

SEC. 2.3 *Consumers may purchase after February 28, 1943 only for points.* (a) Beginning March 1, 1943, a consumer may buy or acquire processed foods only by giving up points equal to the point value of the processed foods acquired. However, a consumer may exchange processed foods with any other person for other processed foods of equal point value, without giving up points and may transfer and acquire processed foods as provided in Article XXVI of this order.

[Paragraph (a) as amended by Amendment 31, 8 F.R. 6339; effective 5-27-43]

(b) Consumers may lend processed foods to, or borrow them from, other consumers, and they may return borrowed processed foods. They may also acquire processed foods from other consumers for consumption at a common table. No points are to be given up for such transactions. (A transaction is not a loan of processed foods if any charge is made.)

SEC. 2.4 *How points are given up by consumers* — (a) *A consumer uses stamps.* A consumer gives up points, when he acquires processed foods, by surrendering blue "stamps" taken from his War Ration Book Two. A stamp is not good unless the book from which it is taken has a validation stamp properly placed on its cover.

(b) *Stamps may be used only during fixed periods.* Each blue stamp in War Ration Book Two is good for a limited time only and a consumer may use it only during that time. The letter printed on the stamp is used to indicate the time when it may be used by a consumer. Stamps lettered "A," "B" and "C" may be used only during March 1943. Stamps lettered "D," "E" and "F" may be used only from March 25, 1943 to April 30, 1943, inclusive. The other blue stamps in War Ration Book Two may be used only during periods which will be fixed in a supplement to this order. These periods may be changed by the Office of Price Administration, even after they have begun.

(c) *General rules for the use of stamps by consumers.* A consumer must give up stamps worth exactly the point value of the processed foods he acquires. The number of points a stamp is worth is shown by the figure printed on it. Stamps must be given up at the time processed foods are acquired. The stamps may be used by a consumer only if torn out of the war ration book in the presence of the person who is selling or transferring the processed foods. A stamp may be used only to get processed foods for the consumer from whose book it is taken, or for use at a table at which he eats.

(d) *A consumer also uses certificates.* Any consumer to whom a "board" issues a "certificate" may use it to acquire processed foods, just as the blue stamps from War Ration Book Two are used. The number of points a certificate is worth, and the date when it expires, will

[2] Words which are specially defined in this order are shown in quotation marks the first time they appear in each article. All definitions are given in section 21.1 of the order.

be shown on that certificate. A consumer to whom a certificate has been issued must sign his name on the back before he may use it.

(e) *How mail order purchases are made.* A consumer who orders processed foods for delivery by mail may detach stamps from his War Ration Book Two and send them with his order. The stamps are good if the envelope in which they are inclosed is postmarked on or before the last day on which they may be used by a consumer, even if the seller does not receive them until after that date. If the seller cannot fill all or any part of the order, he will return a ration check for the difference. The consumer may endorse that check and use it to get processed foods.

[Paragraph (e) as amended by Amendment 22, 8 F.R. 5847, effective 5-10-43]

SEC. 2.5 *Consumers who need more processed foods because of illness may apply for more points.* (a) Any consumer whose health requires that he have more processed foods than he can get with War Ration Book Two, may apply for additional points. The application must be made, on OPA Form R-315, by the consumer himself or by someone acting for him, and may be made in person or by mail. The application can be made only to the board for the place where the consumer lives. His application (on OPA Form R-315) must contain a written statement signed by a person licensed by the laws of the State in which the certification is made to prescribe for human medication all internal drugs which may be prescribed within that State. The statement must show why the applicant must have more processed foods, the amounts and types he needs during the next two months, and why he cannot use unrationed foods instead.

[Paragraph (a) as amended by Amendment 44, 8 F.R. 9216, effective 7-8-43]

(b) If the board finds that his health depends upon his getting more processed foods, and that he cannot use or cannot get unrationed foods, it shall issue to him one or more certificates for the number of points necessary to get the additional processed foods he needs during the next two months.

SEC. 2.6 *Consumers who must purchase in quantity may apply for certificates.* (a) Some consumers may not be able to get processed foods during the period when their stamps are good, either because of transportation difficulties, or because they live an unusually long distance from their market. Such a consumer may apply for a certificate in exchange for some or all of the blue stamps in his War Ration Book Two, so that he can get the amount of processed foods to which he is entitled at a time when he is able to get them. The application must be made on OPA Form R-315, in person or by mail, to the board for the place where he lives. It must be made by the consumer himself or by someone acting for him.

(b) If the board finds that the consumer will suffer hardship because he cannot get the processed foods to which he is entitled during the periods when his stamps are good (for the reasons set forth above), it may issue to him a certificate. The certificate may be for any number of points up to the value of the remaining blue stamps in his War Ration Book Two. The board must remove from that book, and cancel, blue stamps worth the amount of the certificate.

SEC. 2.7 *Service men may get certificates to acquire processed foods.* (a) Members of the Armed Forces of the United States and Allied Nations who do not have War Ration Book Two and are not entitled to have it, may obtain certificates to get processed foods under the circumstances and in accordance with the procedure set forth in General Ration Order 9.

[Sec. 2.7 as amended by Amendment 34, 8 F.R. 7380, effective 6-7-43]

SEC. 2.8 [Revoked]

[Sec. 2.8 revoked by Amendment 31, 8 F.R. 6839, effective 5-27-43]

SEC. 2.9 *Consumers who must have more processed foods for their subsistence may apply for more points.* (a) Consumers (including those who eat in group one institutional establishments, as defined in General Ration Order 5) may apply for additional points if they cannot get enough fruits or vegetables to meet minimum nutritional needs for such foods, because (1) supplies of such foods are not reasonably accessible to them, except at infrequent intervals, and (2) they have no facilities for storing such foods long enough and in the quantities required to supply their needs.

(b) Any consumer who needs more processed foods for the reasons set forth in paragraph (a) of this section, may apply to his board, in person or by mail, on OPA Form R-315. He must submit his War Ration Book Two with his application. One application may be made covering more than one consumer, but the name of each shall be listed on the application, and the War Ration Book Two of each person included in the application must be submitted with it. The application must state in detail:

(1) Why the persons included therein cannot obtain enough fruits or vegetables to meet minimum nutritional standards;

(2) How many pounds of processed foods they will need;

(3) For how long a period;

(4) How many pounds of processed foods (including home canned) they have, at the time of application; and

(5) How many pounds of fresh fruits or vegetables (excluding potatoes) will be available to them during the period covered by the application.

(c) All regional offices are authorized to rule on applications under this section, and to authorize boards or district offices (or, where there are none, state offices) to rule on them. A board or district (or state) office may rule on such an application only if the regional office for the area where it is located has given it such authority. If the board has not been given such authority, it shall forward the application with its recommendation to the district (or state) office. If the district (or state) office has been given such authority, it shall indicate what action is to be taken, and return the file to the board. If the district (or state) office has not been given such authority, it shall forward the file to the regional office. The regional office shall then indicate what action is to be taken, and return the file to the board. All certificates to be issued under this section shall be issued by boards.

(d) The regional office, or board or district (or state) office which is authorized to rule on such applications, may issue or authorize the issuance of one or more certificates for the number of points that it finds should be allowed. No board or district (or state) or regional office shall issue or authorize the issuance of a certificate unless it finds that the applicants will be unable to get enough fruits or vegetables, during the period covered by the application, to meet minimum nutritional needs for such foods because (1) supplies of such foods are not reasonably accessible to them, except at infrequent intervals, and (2) they have no facilities for storing such foods long enough and in the quantities required to supply their needs. In determining how many points to allow, consideration shall be given to the amount of processed foods, and fresh fruits or vegetables (excluding potatoes) which will be available to the applicants during the period covered by the application. In addition, the board or district (or state) office shall be governed by any further conditions established by the regional or Washington office.

(e) Any board which issues certificates under this section shall keep a record of the number of points which it has issued. It shall, within five (5) days after the end of each month, send to the district (or state) office a statement of the total number of points issued each month. The district (or state) office shall forward such statements to the regional office. The regional office shall forward such statements to the Washington office.

[Sec. 2.9 added by Amendment 6, 8 F.R. 3179, effective 3-12-43]

Article III—Processors

SEC. 3.1 *Explanation of the terms processor and processor establishment—*(a) *A place where processed foods are produced is a processor establishment.* Any place at which a "person" produces "processed foods" for sale or other "transfer", is a "processor establishment." (This article does not apply with respect to dry beans, peas, or lentils, to "growers" or to "country shippers." Article XXIV sets forth the definitions and rules controlling growers and country shippers with respect to dry beans, peas, and lentils. However, any person who is a grower or country shipper of dry beans, peas, or lentils as well as a "processor" of other processed foods is controlled by both Article XXIV and Article III of this order.)

(1) A person produces processed foods:

(i) If he bottles, cans or packs fruits, fruit juices, vegetables, vegetable juices, soups or baby foods, in hermetically sealed containers and sterilizes them by the use of heat; or

(ii) If he packs and freezes fruits or vegetables; or

[Paragraph (ii) as amended by Amendment 36, 8 F.R. 7490, effective 6-6-43]

(iii) [Revoked]

[Paragraph (iii) revoked by Amendment 16, 8 F.R. 5342, effective 4-27-43]

(iv) If he packs fruit or vegetable juices from containers over one (1) gallon into hermetically sealed containers of one (1) gallon or less and sterilizes them by the use of heat; or

(v) [Revoked]

[Paragraph (v) revoked by Amendment 36, 8 F.R. 7490, effective 6-6-43]

(vi) If he precooks dry beans, peas, or lentils; or

(vii) [Revoked]

[Paragraph (vii) revoked by Amendment 28, 8 F.R. 5181, effective 5-17-43]

(viii) If he uses processed foods to produce other processed foods (as, if he uses canned peaches to make canned fruit salad).

NOTE: Not all items in the above groups are processed foods as that term is defined. For example, fruit and vegetable juices packed in containers over one gallon are not processed foods. Canned olives are not processed foods. Therefore, a person who packs fruit juices in containers over one gallon, or who cans or bottles olives, does not thereby produce a processed food.

[Paragraph (a) amended by Amendment 9, 8 F.R. 4342, effective 4-2-43]

(b) *A place to which processed foods are imported is a processor establishment.* Any place (including space in a public warehouse) to which a person imports processed foods into the United States, from any place outside the United States, for sale or transfer, is also a processor establishment.

(c) *Place where person keeps only processed foods he produced is a processor establishment.* The term processor establishment also includes any place (including space in a public warehouse) at which a person does not produce or import processed foods, if he regularly keeps there, for sale or transfer, only stocks of processed foods which he himself produced or imported. (If he also regularly keeps there, for sale or transfer, processed foods produced or imported by someone else it is a processor establishment only if it meets the requirements of paragraph (d); otherwise it is a wholesale or retail establishment, depending upon the nature of his operations there.)

[Paragraph (c) amended, paragraph (d) added, former paragraphs (d) and (e) redesignated (e) and (f) by Amendment 30, 8 F.R. 6838, effective 5-27-43]

(d) *A place where a person keeps processed foods produced by someone else may be a processor establishment.* There are two cases in which a place where a person keeps processed foods produced or imported by someone else is a processor establishment:

(1) A place where a person keeps, for sale or transfer, processed foods produced or imported by someone else, is a processor establishment as to those stocks if the person keeping such processed foods, also produces processed foods, whether at that place or elsewhere, and if he does not, in any one calendar year, acquire (at all his establishments together, of whatever type) for sale or transfer more processed foods produced or imported by someone else than 10% by weight of the processed foods he himself produced or imported in the previous calendar year. As soon as his acquisitions for sale or transfer, of processed foods produced or imported by someone else exceed that 10%, within the calendar year, that place shall cease to be a processor establishment as to those stocks, and becomes a wholesale or retail establishment depending upon the nature of his operations there. He must then follow the procedure set forth in Article XII with respect to new businesses.

(2) There is one other case in which a place where a person keeps processed foods produced or imported by someone else is a processor establishment. A person may get processed foods from someone else, to use them in producing other processed foods for sale or transfer. If he keeps the processed foods obtained from someone else only to produce other processed foods, the place where he keeps them is a processor establishment.

(e) *A place where processed foods produced only for own use is not a processor establishment.* A place at which a person produces or imports processed foods only for his own use, and not for sale or transfer, is not a processor establishment. (Thus, if he produces processed foods, at a particular place, only for the purpose of using them in baking pies, or in serving meals, that place is not a processor establishment.) Also, a place does not become a processor establishment because a person produces home processed foods there, even if he produces them for sale or transfer.

[Paragraph (e) as amended by Amendment 31, 8 F.R. 6839, effective 5-27-43]

(f) *Person who has processor establishment is a processor.* Any person who has a processor establishment is called a "processor".

SEC. 3.2 *Processors must register and file reports—*(a) *Registration.* Every processor must register with the Office of Price Administration by filing OPA Form R-1305, at any time from March 1, 1943 to March 10, 1943, inclusive. The form must be completed and signed by the processor or his authorized agent. If he has more than one processor establishment, he must show, for each, its name and address, the type of business done there, and the name of the person authorized to report for it on OPA Form R-1305.

(b) *Reports.* Every processor must file periodic reports, also on OPA Form R-1305, covering the operations of his processor establishment during each reporting period set forth in Appendix B. The report must be signed by him or by his authorized agent. If he has more than one processor establishment, he must file a separate report for each, except that he may combine in a single report all his processor establishments in a single state. The first report which must be filed is for February 1943, and is part of his registration. Reports for subsequent reporting periods must be filed within eight days after the end of the reporting period.

[Paragraph (b) amended by Amendment 14, 8 F.R. 4921, effective 4-20-43 and Amendment 35, 8 F.R. 7353, effective 5-31-43]

(c) *Some processors need not file reports for reporting periods after February 1943.* A processor who produced or imported less than 10,000 pounds of processed foods during 1942 must register but need not file a report for any reporting period after February 1943. However, if his total production and imports in 1943 reach 10,000 pounds, he must file reports beginning for the reporting period in which that figure was reached.

[Paragraph (c) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

(d) *Processors must give information called for by form.* The processor must give all information called for by OPA Form R-1305.

(e) *Registration and reports must be filed in Washington.* The processor's registration and periodic reports must be filed by mailing OPA Form R-1305 to the Office of Price Administration, care of the Bureau of the Census, Washington, D. C. The form is considered filed on time if the envelope is postmarked on or before the last day it is due.

[Paragraph (e) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

(f) *Registration of persons who become processors because of additions to the list of processed foods.* A person who becomes a processor because the foods he produces are added to the list of processed foods, must, within eight days after such addition, file a report on OPA Form R-1305 covering his operations during the preceding reporting period. The report must be mailed to the Office of Price Administration, care of the Bureau of Census, Washington, D. C., and is treated as his registration.

[Paragraph (f) added by Amendment 36, 8 F.R. 7490, effective 6-6-43]

SEC. 3.3 *Processor is given a registration number.* (a) After a processor has registered, the "Washington Office" will send him a card giving him his registration number. After he gets the registration number, he must use it on each invoice or similar document prepared in connection with any sale or transfer of processed foods from any of his processor establishments.

SEC. 3.4 *Processor may not do business if he does not register and file reports.* (a) No processor may transfer or "acquire" processed foods after March 10, 1943, unless he has registered in the manner required.

(b) No processor may transfer or acquire processed foods after any date on which a report is due from him, unless he has filed that report.

SEC. 3.5 *Processors must report their inventories.* (a) As part of his registration, a processor must report, on OPA Form R–1305, the point value of his inventory of processed foods (by items and sizes) at the close of business on February 28, 1943. His inventory at the beginning and end of each reporting period must then be reported in his report for that period.

[Paragraph (a) as amended by Amendment 35, 8 F.R. 7353, effective 5–31–43]

(b) A processor's inventory at his processor establishment consists of all processed foods physically located at that establishment or in transit to it. However, the following items are not part of that inventory:

(1) Processed foods stored at the establishment for a person other than his customer or transferee, or held there as security for a loan to someone else (or similar transaction), or in transit to it for either of those purposes;

(2) Processed foods included in the inventory of one of his other establishments.

SEC. 3.6 *A processor must turn over the points he receives to the Washington office.* (a) A processor is required to turn over to the Washington Office points he receives for sale or transfers of processed foods. However, he may use some of them for the following purposes:

(1) To get back processed foods he transferred; or

(2) To acquire processed foods with which to produce other processed foods; or

(3) To acquire for sale or transfer processed foods produced or imported by someone else, if the place at which he acquires them is a processor establishment as to those stocks, under section 3.1 (d) (1).

[Paragraph (a) amended by Amendment 30, 8 F.R. 6838, effective 5–27–43 and Amendment 47, 8 F.R. 9629, effective 7–19–43]

(b) A processor must give up to the Office of Price Administration for cancellation, all points he receives for sales or transfers of processed foods. Not later than the eighth day of every reporting period he must issue and mail to the Office of Price Administration, care of the Bureau of the Census, Washington, D. C., his certified ration check (payable to the Office of Price Administration) for all those points he received during the preceding reporting period. A processor who is required to file periodic reports on OPA Form R–1305, must attach his check to the report. A processor who does not have to file reports must send his check in a sealed envelope, enclosing a statement showing his name, principal business address and registration number.

[Paragraph (b) as amended by Amendment 35, 8 F.R. 7353, effective 5–31–43]

(c) A processor who used some of those points to acquire processed foods, as permitted in paragraph (a) of this section, must issue and send his check for the rest. He must enclose with his check a statement giving the names and addresses of the persons from whom he acquired the processed foods, the items he acquired, and their point values. If he used the points to acquire processed foods, as permitted in paragraph (a) (3) of this section, he must state, in pounds, the total amount of processed foods he produced or imported during the preceding calendar year and his total acquisitions during the current calendar year, for sale or transfer, of processed foods produced or imported by someone else.

[Paragraph (c) as amended by Amendment 30, 8 F.R. 6838, effective 5–27–43]

SEC. 3.7 [Revoked]

[Sec. 3.7 revoked by Amendment 30, 8 F.R. 6838, effective 5–27–43]

SEC. 3.8 *Processors must keep records.* (a) Beginning March 1, 1943, every processor must keep, at each of his processor establishments, a record showing, by items and sizes:

(1) All processed foods produced or imported there;

(2) All processed foods sold or transferred to (or reserved for) exempt agencies;

(3) All processed foods used in producing other processed foods; and

(4) All processed foods, produced or imported by someone else, acquired for sale or transfer.

[Paragraph (4) added by Amendment 30, 8 F.R. 6838, effective 5–27–43]

(b) He must also keep, at his principal business office, a copy of his registration and of his periodic reports on OPA Form R–1305 (if any are required). If he has more than one processor establishment, he must keep at each establishment a copy of the report filed for it. (However, if he has filed a combined report for several processor establishments, he must keep copies of the reports at one of them.)

[Paragraph (b) as amended by Amendment 35, 8 F.R. 7353, effective 5–31–43]

(c) In addition, at the time of any change in the point value of any item of processed foods, every processor must make a record of the amount and sizes of that item which he has in his inventory. The record must show the point value of the item before and after the change, and the amount by which the point value of his inventory was increased or decreased as a result. In addition, at the time any item is added to or removed from the list of processed foods, every processor must keep a record of the amount, sizes, and point value of that item which he has in his inventory. If he has more than one processor establishment, he must make and keep such a record at each establishment.

[Paragraph (c) as amended by Amendment 36, 8 F.R. 7490, effective 6–6–43]

SEC. 3.9 *Processors must account for differences between their transfers and the number of points given up to the Office of Price Administration.* (a) Every processor must attach to his periodic report on OPA Form R–1305, beginning with the report for March 1943, a statement accounting for all differences between the point value of the processed foods sold or transferred by him during that reporting period, and the number of points given up by him to the Office of Price Administration. Also, if he used any processed foods in grading the processed foods which he produced or imported, he must attach a statement showing how much he used. The statements must be signed by the same person who signed the periodic report.

[Sec. 3.9 added by Amendment 14, 8 F.R. 4921, effective 4–20–43 and amended by Amendment 35, 8 F.R. 7353, effective 5–31–43]

Article IV—Wholesalers

SEC. 4.1 *Explanation of the terms wholesaler and wholesale establishment.* (a) Any place, including a public warehouse, where a "person" who deals in "processed foods" keeps stocks of those foods for sale or other "transfer" is a "wholesale establishment," if fifty percent or more of those stocks are transferred from there directly to persons other than "consumers." However, if he keeps the stocks which are not transferred to consumers, just to supply his own establishments, it is a wholesale establishment only if it supplies:

(1) At least one of his wholesale establishments; or

(2) At least four of his "retail establishments."

(A place where a person regularly keeps for sale or transfer only stocks of processed foods which he himself produced or imported is a "processor establishment" and not a wholesale establishment. Also, a place which is a processor establishment under section 3.1 (d) (1) is not a wholesale establishment. In addition, this Article does not apply, with respect to dry beans, peas, or lentils, to "growers" or to "country shippers." Article XXIV sets forth the definitions and rules controlling growers and country shippers with respect to dry beans, peas, and lentils. However, any person who is a grower or country shipper of dry beans, peas, or lentils as well as a "wholesaler" of other processed foods, is controlled by both Article XXIV and Article IV of this order.)

[Paragraph (a) amended by Amendmet 9, 8 F.R. 4342, effective 4–2–43 and Amendment 30, 8 F.R. 6838, effective 5–27–43]

(b) Any person dealing in processed foods who has a wholesale establishment is called a wholesaler.

SEC. 4.2 *Wholesalers must register and file reports*—(a) *Registration.* Every wholesaler must register with the Office of Price Administration by filing OPA Form R–1310, at any time from April 1, 1943 to April 10, 1943, inclusive. The form must be completed and signed by the wholesaler or his authorized agent. If he has more than one wholesale establishment, he must file a combined registration for all of them on a single form.

(b) *Reports.* Every wholesaler must file periodic reports, also on OPA Form R–1310, covering the operations of his wholesale establishment during each reporting period set forth in Appendix B. The report must be signed by him or by his authorized agent. If he has more than one wholesale establishment, he must file a separate report for each, except that he may combine in a single report all his wholesale establishments for a single state. The first report which must be filed is for March 1943, and is part of his registration. Reports for subsequent reporting periods must be filed within eight days after the end of the reporting period.

[Paragraph (b) as amended by Amendment 35, 8 F.R. 7353, effective 5–31–43]

(c) *Wholesaler must give information called for by form.* The wholesaler must give all information called for by OPA Form R–1310.

(d) *Registration and reports must be filed in Washington.* The wholesaler's registration and periodic reports must be filed by mailing OPA Form R–1310 to the Office of Price Administration, care of the Bureau of the Census, Washington, D. C. The form is considered filed on time if the envelope is postmarked on or before the last day it is due.

[Paragraph (d) as amended by Amendment 35, 8 F.R. 7353, effective 5–31–43]

(e) *Registration of persons who become wholesalers because of additions to the list of processed foods.* (1) A person who becomes a wholesaler because foods he keeps for sale or transfer are added to the list of processed foods, must, within eight days after such addition, file a report on OPA Form R–1310 covering his operations during the preceding reporting period. He must give all the information called for by the form. The report must be mailed to the Office of Price Administration, care of the Bureau of Census, Washington, D. C., and is treated as his registration.

(2) His maximum allowable inventory for the current reporting period is then determined by multiplying his sales or transfers of each such item during the preceding reporting period (less returns of processed foods made during that period) by the point value assigned to that item. The resulting figures are added together and the sum is multiplied by the wholesale factor fixed for the current reporting period by the Office of Price Administration in a supplement to this order.

[Paragraph (e) added by Amendment 36, 8 F.R. 7490, effective 6–6–43 and amended by Amendment 49, 8 F.R. 10665, effective 7–31–43]

SEC. 4.3 *Wholesaler may not do business if he does not register and file reports.* (a) No wholesaler may transfer or "acquire" processed foods after April 10, 1943, unless he has registered in the manner required.

(b) No wholesaler may transfer or acquire processed foods after any date on which a report is due from him unless he has filed that report.

SEC. 4.4 *Wholesalers must report their inventories.* (a) As part of his registration, a wholesaler must report, on OPA Form R–1310, his inventory of processed foods (by items and sizes) at the opening of business on March 1, 1943, and the point value of his inventory of processed foods (by items and sizes) at the close of business on March 31, 1943. If he has more than one wholesale establishment, his registration must include a report of the total point value of his inventory at all those establishments. His inventory at the beginning of the next reporting period must then be reported in his report for that period.

[Paragraph (a) amended by Amendment 2, 8 F.R. 2681, effective 3–1–43, Amendment 23, 8 F.R. 5757, effective 5–1–43 and Amendment 35, 8 F.R. 7353, effective 5–31–43]

(b) A wholesaler's inventory at his wholesale establishment consists of processed foods physically located at that establishment or in transit to it. It includes processed foods which he holds there on consignment. However, the following items are not part of that inventory:

(1) Processed foods stored at the establishment for a person other than his customer or transferee, or held there as security for a loan to someone else (or similar transaction), or in transit to it for either of those purposes;

(2) Processed foods included in the inventory of one of his other establishments.

SEC. 4.5 *Wholesalers must report their sales and points on hand.* (a) A wholesaler must also report, as part of his registration:

(1) The point value of all processed foods transferred by him during March 1943, not including exchanges of merchandise or transfers from one to another of his wholesale establishments; and

(2) The total number of points which he has available for acquiring processed foods, at the close of business on March 31, 1943. He must include all points which he has on hand, all in his ration bank account and all which he has already given up for processed foods not yet shipped to him. However, he is not to include points he has received for processed foods which he has not yet shipped.

(b) The point value of his transfers during each subsequent reporting period and the total number of points he has at the end of that period for which he can get processed foods, must then be reported in his report for that period.

[Paragraph (b) amended by Amendment 23, 8 F.R. 5757, effective 5–1–43 and Amendment 35, 8 F.R. 7353, effective 5–31–43]

SEC. 4.6 *A wholesaler is allowed a maximum inventory*—(a) *General.* For each reporting period every wholesaler is entitled to an operating inventory (called a maximum allowable inventory) based on his transfers during the second preceding reporting period. (For example, a wholesaler's maximum allowable inventory for the period from July 4 to July 31, 1943, inclusive, is based on his transfers during the period from May 2 to June 5, 1943, inclusive.) This maximum allowable inventory is stated in terms of points.

[Paragraph (a) amended by Amendment 35, 8 F.R. 7353, effective 5–31–43 and Amendment 39, 8 F.R. 8705, effective 6–29–43]

(b) *Amount of maximum allowable inventory.* To get a wholesaler's maximum allowable inventory for any reporting period, the point value of all processed foods transferred from his wholesale establishments during the second preceding reporting period (less returns of processed foods made during that period) is multiplied by a factor which the Office of Price Administration will fix for each reporting period. The result is his maximum allowable inventory for the reporting period in question. Exchanges of processed foods, and transfers from one to another of his wholesale establishments, must not be included in this computation. The factor for each reporting period will be fixed by the Office of Price Administration in a supplement to this order.

[Paragraph (b) amended by Amendment 14, 8 F.R. 4921, effective 4–20–43, Amendment 35, 8 F.R. 7353, effective 5–31–43, Amendment 39, 8 F.R. 8705, effective 6–29–43 and Amendment 49, 8 F.R. 10665, effective 7–31–43]

(c) *Point inventory.* (1) In order to determine how large a stock of processed foods, measured in points, a wholesaler has and is in a position to get, it is necessary to find out two things:

(i) The point value of his inventory; and

(ii) The number of points he has available for acquiring processed foods, since he can use those points to get additional stocks. These points include all which he has on hand, all in his ration bank account (except those for which ration checks are outstanding), all which he already has given up for processed foods not yet shipped to him, and all which he has not yet received for processed foods he has already shipped. However, points he has received for processed foods which he has not shipped, or points he owes for processed foods already shipped to him, are not included.

[Paragraph (ii) amended by Amendment 14, 8 F.R. 4921, effective 4–20–43 and Amendment 40, 8 F.R. 9024, effective 7–6–43]

(2) The sum of the above two figures, at a particular time, shows the amount of processed foods he has and can get at that time. That sum is called his point inventory. The wholesaler must make this computation at the time of filing his periodic report on OPA Form R–1310.

[Paragraph (2) amended by Amendment 35, 8 F.R. 7353, effective 5–31–43 and Amendment 39, 8 F.R. 8705, effective 6–29–43]

(d) *When a wholesaler is entitled to a certificate.* If a wholesaler's maximum allowable inventory for any reporting period is greater than his point inventory at the end of the preceding reporting period, he is entitled to receive a "certificate", upon request, for the number of points needed to make up the difference. However, after April 1943, he is not entitled to a certificate unless that difference is more than 10% of his maximum allowable inventory. The certificate will be issued by the "Washington Office", after his report has been checked.

[Paragraph (d) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

(e) [Revoked]

[Paragraph (e) revoked by Amendment 39, 8 F.R. 8705, effective 6-29-43]

SEC. 4.7 *Wholesaler may not acquire processed foods if actual inventory is greater than maximum allowable inventory.* (a) A wholesaler must not acquire processed foods at any time when his actual inventory is larger than his maximum allowable inventory. A wholesaler also must not acquire processed foods if it would bring his actual inventory above his maximum allowable inventory. Even if he has points available, he may not use them to get more stock than is needed to bring his actual inventory up to his maximum allowable inventory. However, if he has already given up points for a transfer of processed foods at a time when he was entitled to acquire them, he may take delivery of those foods. Furthermore, regardless of his actual inventory, he may, during a reporting period, acquire processed foods for the purpose of keeping his stocks balanced, in an amount not more than 10% of the number of points he received for his sales or transfers of processed foods during the period covering April 1 to May 1, 1943, inclusive.

[Sec. 4.7 amended by Amendment 25, 8 F.R. 5758, effective 5-2-43 and Amendment 35, 8 F.R. 7353, effective 5-31-43]

SEC. 4.8 *Washington Office may grant working point capital to wholesalers.* (a) For the purpose of providing a wholesaler with enough points with which to acquire processed foods up to the amount of his maximum allowable inventory when that maximum is raised during the height of the packing season, the Washington Office of the Office of Price Administration may issue points to him in anticipation of such an increase. The number of points to be issued for this purpose will be calculated in the following manner:

(1) The point value of the wholesaler's transfers of processed foods during the reporting period covering April 1 to May 1, 1943, inclusive, is determined;

(2) That figure is multiplied by 7 (a number which it is believed will give each wholesaler a working point capital sufficient to provide the points he will need to acquire processed foods up to the amount of his greatest maximum allowable inventory);

(3) From that figure is deducted the wholesaler's point inventory at the close of business on May 1, 1943, (including the number of points the wholesaler owes the Office of Price Administration on account of his March excess inventory) and the point value of any certificates issued to him by the Office of Price Administration to increase his point inventory since May 1, 1943;

(4) To the resulting figure is added the number of points given up to the Office of Price Administration by such wholesaler since May 1, 1943, on account of his March excess inventory.

[Sec. 4.8 as amended by Amendment 39, 8 F.R. 8705, effective 6-29-43]

SEC. 4.9 *Wholesaler must keep records.* (a) Every wholesaler must keep, at each of his wholesale establishments, a record of the point value of all transfers of processed foods from that establishment during each reporting period. He must also keep, at his principal business office, a copy of his registration and of the reports on OPA Form R-1310 which he filed with it. If he has more than one wholesale establishment, he must keep at each establishment a copy of the reports filed for it. (However, if he has filed a combined report for several wholesale establishments, he must keep copies of the reports at one of them, and must also keep a record of the inventory of each at the close of business on March 31, 1943.)

[Paragraph (a) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

(b) In addition, at the time of any change in the point value of any item of processed foods, every wholesaler must make a record of the amount and sizes of that item which he has in his inventory. The record must show the point value of the item before and after the change, and the amount by which the point value of his inventory was increased or decreased as a result. In addition, at the time any item is added to or removed from the list of processed foods, every wholesaler must keep a record of the amount, sizes, and point value of that item which he has in his inventory. If he has more than one wholesale establishment, he must make and keep such a record at each establishment.

[Paragraph (b) as amended by Amendment 36, 8 F.R. 7490, effective 6-6-43]

SEC. 4.10 *Inventory adjustments because of additions to the list of processed foods.* (a) Whenever an item is added to the list of processed foods at the beginning of a reporting period, a wholesaler's maximum allowable inventory is adjusted in his report for that period in the following way:

(1) The amount of that item which he sold or transferred during the preceding reporting period (less returns of that item made during such period) is multiplied by the point value assigned to that item at the beginning of the current reporting period;

[Paragraph (1) as amended by Amendment 49, 8 F.R. 10665, effective 7-31-43]

(2) The resulting figure is multiplied by the wholesale factor fixed for the current reporting period in the supplement to this order.

(b) Whenever a wholesaler adjusts his maximum allowable inventory as described in paragraph (a) of this section, he must attach to his report a statement showing:

(1) His inventory of that item at the beginning of the preceding reporting period;

(2) The amount of that item acquired by him during the preceding reporting period; and

(3) His inventory of that item at the end of the preceding reporting period.

[Sec. 4.10 added by Amendment 36, 8 F.R. 7490, effective 6-6-43]

Article V—Retailers

SEC. 5.1 *Explanation of the terms retailer and retail establishment.* (a) Any place, including a public warehouse, where a "person" who deals in "processed foods" keeps stocks of those foods for sale or other "transfer" is a "retail establishment" if more than fifty per cent of those stocks are sold or transferred from there directly to "consumers". It is also a retail establishment, even if the amount sold or transferred to consumers is fifty per cent or less, in the following case:

(1) If some of those stocks are transferred directly to consumers; and

(2) If the rest of those stocks are kept there just to supply his own establishments of any type; and

(3) If no "wholesale establishments", and not more than three retail establishments, are supplied from there

(A place where a person regularly keeps for sale or transfer only stocks of processed foods which he himself produced or imported is a "processor establishment" and not a retail establishment. Also, a place which is a processor establishment under section 3.1 (d) (1) is not a retail establishment.)

[Paragraph (3) as amended by Amendment 30, 8 F.R. 6838, effective 5-27-43]

(b) Any person dealing in processed foods who has a retail establishment is called a "retailer".

SEC. 5.2 *Retailers must get statement of purchases during March 1943.* (a) When a retailer buys or "acquires" processed foods during March 1943, he must get from his seller or transferor a statement showing the name of the seller or transferor, the date of the purchase or acquisition, and the number of points given up for the processed foods.

SEC. 5.3 *Retailers must register*—(a) *General.* Every retailer must register his retail establishments with the Office of Price Administration, at any time from April 1, 1943 to April 10, 1943, inclusive, on OPA Form R-1302. The registration form must be completed and signed by the retailer or his authorized agent. He must give all information called for by OPA Form R-1302.

(b) *Place where registration must be filed.* A retailer who has only one retail establishment must file his registration, in person or by mail, with the "board" for the place where that establishment is located. If he has more than one retail establishment, he must file a combined registration for all those establishments, in person or by mail, with the board for the place where his principal business office is located. A person who has a wholesale or a processor establishment, as well as a retail establishment, must file his retailer registration, by mail, with the Office of Price Administration, care of the Bureau of the Census, Washington, D. C.

(c) *Filing by mail.* Where a registration form is filed by mail, it is considered filed on time if the envelope is postmarked on or before April 10, 1943.

SEC. 5.4 *Retailer may not do business unless he has registered.* (a) No retailer may transfer or acquire processed foods after April 10, 1943, unless he has registered in the manner required.

SEC. 5.5 *Retailers must report their inventories.* (a) As part of his registration, every retailer (except those covered in section 5.7) must report the point value of his inventory of processed foods at the close of business on March 31, 1943. If he has more than one retail establishment, a separate inventory report for each establishment must be filed with his registration.

(b) A retailer's inventory at his retail establishment consists of processed foods physically located at that establishment or in transit to it, and also of processed foods stored, or in transit for storage, for that establishment at any other place (including a public warehouse). It includes processed foods held on consignment. However, the following items are not part of that inventory:

(1) Processed foods stored at the establishment for a person other than his customer or transferee, or held there as security for a loan to someone else (or similar transaction), or in transit to it for either of those purposes;

(2) Processed foods still in the possession of his seller or transferor;

(3) Processed foods included in the inventory of one of his other establishments.

SEC. 5.6 *Retailers must report their sales and points on hand.* (a) Every retailer (except those covered by section 5.7) must also report, as part of his registration:

(1) The point value of all processed foods transferred by him during March 1943, not including exchanges of merchandise or transfers from one to another of his retail establishments; and

(2) The total number of points which he has available for acquiring processed foods, at the close of business on March 31, 1943. He must include all points which he has on hand, all in his ration bank account (if any) and all which he has already given up for processed foods not yet shipped to him. However, he is not to include points he has received for processed foods which he has not yet shipped.

(b) He must attach to and file with his registration, a statement showing each of his purchases or other acquisitions of processed foods during March 1943, the name and address of his seller or transferor, and the points he gave up for each purchase or other acquisition.

SEC. 5.7 *Certain retailers need not report inventory and other information.* (a) A retailer whose gross sales of all commodities during March 1943 were $200 or less must register on OPA Form R-1302, but need not report his inventory, sales or transfers, and points on hand. However, if he elects not to report this information, he will have to operate on the basis of turnover of the stocks he has, and he will not be eligible, when he registers, to receive a certificate enabling him to increase his working stocks.

[Sec. 5.7 as amended by Amendment 14, 8 F.R. 4921, effective 4-20-43]

SEC. 5.8 *A retailer is given an allowable inventory*—(a) *General.* Every retailer (except those who elect not to report, as permitted by section 5.7) is entitled to an operating inventory, called an allowable inventory, which is based on his transfers of processed foods during March 1943. This allowable inventory is stated in terms of points.

(b) *Amount of allowable inventory.* To get a retailer's allowable inventory the point value of all processed foods transferred from his retail establishments during March 1943, is multiplied by a factor fixed by the Office of Price Administration in a supplement to this order. The result is his allowable inventory. Exchanges of processed foods, and transfers from one to another of his retail establishments, must not be included in this computation.

(c) *Point inventory.* (1) In order to determine how large a stock of processed foods, measured in points, a retailer has and is in a position to get, it is necessary to find out two things:

(i) The point value of his inventory; and

(ii) The number of points which he has available for acquiring processed foods, since he can use those points to get additional stocks. These points include all which he has on hand, all in his ration bank account, if any (except those for which ration checks are outstanding), all which he has already given up for processed foods not yet shipped to him, and all which he has not yet received for processed foods he has already shipped. However, points he has received for processed foods which he has not yet shipped, or points he owes for processed foods already shipped to him, are not included.

[Paragraph (ii) amended by Amendment 14, 8 F.R. 4921, effective 4-20-43 and Amendment 40, 8 F.R. 9024, effective 7-6-43]

(2) The sum of the above two figures, at the close of business on March 31, 1943, shows the amount of processed foods he has and can get at that time. That sum is called his point inventory. The retailer makes this computation at the time of filing his registration on OPA Form R-1302.

(d) *When a retailer is entitled to a certificate.* If a retailer's point inventory at the close of business on March 31, 1943, is less than his allowable inventory, he is entitled to receive a "certificate" for the number of points needed to make up the difference. The certificate will be issued by the Board with which he registers, or by the "Washington Office", if he is required to register with that office.

(e) *What a retailer must do if he has excess inventory.* If a retailer's point inventory at the close of business on March 31, 1943, is greater than his allowable inventory, the difference is excess inventory. He must, in that case, give up to the Office of Price Administration, for cancellation, points equal to his excess inventory. Points for that amount must be forwarded with his registration. If he does not have a ration bank account, he may give up the points in any form. If he has a ration bank account, he must give up the points in the form of a certified check drawn on that account, made payable to the Office of Price Administration. A retailer who does not have enough points at the time of registration may accumulate and forward them later. However, until he has given up points equal to his excess inventory, he may not acquire during any one calendar month processed foods having a point value of more than 25 percent of the number of points he received for his sales or transfers of processed foods during March 1943.

[Paragraph (e) as amended by Amendment 13, 8 F.R. 4726, effective 4-8-43 and Amendment 22, 8 F.R. 5847, effective 5-10-43]

SEC. 5.9 [Revoked]

[Sec. 5.9 revoked by Amendment 47, 8 F.R. 9629, effective 7-19-43]

SEC. 5.10 *Retailers must keep records.* (a) Every retailer must keep a copy of his registration, at his principal business office. If he has more than one retail establishment, he must keep at each establishment a copy of the inventory report filed for it.

(b) He must also keep, at his principal business office, the statements from his suppliers showing their sales or transfers to him during March 1943.

(c) In addition, at the time of any change in the point value of any item of processed foods, after March 31, 1943, every retailer must make a record of the amount and sizes of that item which he has in his inventory. The record must show the point value of the item before and after the change, and the amount by which the point value of his inventory was increased or decreased as a result. In addition, at the time any item is added to or removed from the list of processed foods, every retailer must keep a record of the amounts, sizes, and point value of that item which he has in his inventory. If he has more than one retail establishment, he must make and keep such a record at each establishment.

[Paragraph (c) amended by Amendment 7, 8 F.R. 3949, effective 3-29-43 and Amendment 36, 8 F.R. 7490, effective 6-6-43]

SEC. 5.11 *Retailers must post point prices.* (a) Beginning March 1, 1943, every retailer must post the current Official Table of Point Values (OPA Form R–1313) in his retail establishment in such manner that it can be plainly seen and read by purchasers.

[Paragraph (a) as amended by Amendment 47, 8 F.R. 9629, effective 7–19–43]

(b) Every retailer who has an establishment at which the processed foods he carries are displayed to consumers must post there the point value of every item of processed foods he carries. The point value must be posted, in such manner that it can be plainly seen and read by consumers, in one or more of the following ways:

(1) On the commodity itself; or

(2) On the shelf or other place where the commodity is kept; or

(3) On a list attached to, or posted next to, the shelf or other place where the commodity is kept.

Article VI—Industrial Users

SEC. 6.1 *Explanation of the terms industrial user and industrial user establishment.* (a) An "industrial user establishment" is any place at which "processed foods" are used in producing or manufacturing for sale or "transfer" any product which is not a processed food. (For example, a bakery at which canned peaches are used in baking peach pies, for sale or transfer, is an industrial user establishment. Canned peaches are processed foods, but peach pie is not). It also includes any place (except places where processed foods are used for sampling or demonstration in accordance with section 10.9) at which processed foods are used for experimental, educational, testing or demonstration purposes. A place at which processed foods are used in producing other processed foods is a "processor establishment" and not an industrial user establishment. (An example of this would be the use of canned peaches for making canned fruit salad, since both canned peaches and canned fruit salad are processed foods.) Moreover, a place, such as a restaurant, at which processed foods are used in the preparation for service and the service of meals, would be an "institutional user establishment," and not an industrial user establishment. (An "institutional user" may obtain processed foods allotments, and may use processed foods, only in accordance with the provisions of General Ration Order 5.)

[Paragraph (a) amended by Amendment 2, 8 F.R. 2681, effective 3–1–43 and Amendment 10, 8 F.R. 4525, effective 4–12–43]

(b) Any "person" who operates an industrial user establishment is called an "industrial user".

(c) A wholesaler or retailer who marks or labels dry beans, peas, or lentils in accordance with applicable federal or state seed laws (or, if none is applicable, in accordance with the standards stated in the federal seed law), does not thereby become an industrial user.

[Paragraph (c) added by Amendment 9, 8 F.R. 4342, effective 4–2–43]

SEC. 6.2 *Industrial users must register*—(a) *General.* Every industrial user must register his industrial user establishment with the Office of Price Administration, at any time from March 1, 1943, to March 10, 1943, inclusive, on OPA Form R–1308, in duplicate. The registration form must be completed and signed by the industrial user or his authorized agent. If he has more than one industrial user establishment, he must file a combined registration for all those establishments.

(b) *Place where registration must be filed.* The registration form must be filed, in person or by mail, with the "board" for the place where his principal business office is located. He must give all information called for by the form.

SEC. 6.3 *Industrial user may not do business unless he has registered.* (a) No industrial user may "acquire" or use processed foods at his industrial user establishment, after March 10, 1943, unless he has registered as required.

SEC. 6.4 *Industrial users must report their inventories.* (a) As part of his registration, an industrial user must report the point value of his inventory of processed foods (by items) at the close of business on February 28, 1943. If he has more than one industrial user establishment, a separate inventory report for each establishment must be filed with his registration.

(b) His industrial user inventory consists of all processed foods included in the inventory of his industrial user establishments. The inventory of an industrial user establishment consists of all processed foods physically located at the establishment or in transit to it. However, the following items are not part of that inventory:

(1) Processed foods stored at the establishment for another person, or held there as security for a loan to someone else (or similar transaction), or in transit to it for either of those purposes;

(2) Processed foods included in the inventory of any of his other establishments of any type.

(c) His industrial user inventory also includes all processed foods which he holds at, or which are in transit to, any other place for his industrial use. However, processed foods included in the inventory of any establishment which is not an industrial user establishment must not be reported as part of his industrial user inventory.

(d) In addition, within 20 days of the date on which any item is added to the list of processed foods, every industrial user must report to the board with which he is registered his inventory of that item, in pounds and point value, as of the date on which it becomes a processed food. His inventory of that item shall be treated as excess inventory. He may at the same time apply for an increase in his allotment (for the allotment period in which such item is added to the list of processed foods) by reason of that addition.

[Paragraph (d) added by Amendment 36, 8 F.R. 7490, effective 6–6–43]

SEC. 6.5 *Industrial users must report their base period use.* (a) As part of his registration, an industrial user must also report the number of pounds of processed foods he used in his industrial user establishment during 1942. The report must show the amount he used during each of the following four month periods in 1942, called base periods:

(1) January to April, inclusive;

(2) May to August, inclusive;

(3) September to December, inclusive.

If he has more than one industrial user establishment, he must file, as part of his registration, a separate report of his use in each.

(b) The report must show his use, during those periods, of each of the following classes of processed foods:

(1) Canned and bottled;

(2) Dried and dehydrated;

(3) Frozen (packed in containers of ten pounds or less);

(4) Frozen (packed in containers of over ten pounds).

In addition, the report must show his use, during those periods, of fruit and vegetable juices in containers over one gallon and of jellies and preserves.

[Paragraph (b) as amended by Amendment 36, 8 F.R. 7490, effective 6–6–43]

(c) If an industrial user's establishment was not in operation for the full base period, his use of processed foods at the establishment during that base period is fixed, for all the purposes of this order, in the following way:

(1) *If it was in operation during a part of the base period.* (i) The amount of processed foods used there by him during that part of the period is determined; (ii) That amount is divided by the number of days it was in operation during the period; (iii) The result is multiplied by the number of days the establishment would have been operated during the base period, if it had been a normal period of operations; (iv) The resulting figure is treated as the amount used during the base period.

(2) *If it was not in operation at all during the base period.* (i) The amount of processed foods used there by him during all of 1942 is determined; (ii) That amount is divided by the number of days it was in operation during 1942;

(iii) The result is multiplied by the number of days the establishment would have been operated during the base period, if it had been a normal period of operations;

(iv) The resulting figure is treated as the amount used during the base period.

(3) *If it was not in operation at all during 1942, but was in operation at some time between January 1, 1943 and February 28, 1943, inclusive.* (i) The amount of processed foods used there by him between January 1, 1943 and February 28, 1943, inclusive, is determined;

(ii) That amount is divided by the number of days it was in operation between January 1, 1943 and February 28, 1943, inclusive;

(iii) The result is multiplied by the number of days the establishment would have been operated during the base period, if it had been a normal period of operations;

(iv) The resulting figure is treated as the amount used during the base period.

(d) The rules set forth under (1) and (2) of the last paragraph do not apply where an industrial user establishment was not in operation during all or part of a base period because of a normal seasonal shutdown or for any similar reason. Where that is so, it is assumed that conditions will be the same during the corresponding period in 1943, and the allotment must depend upon his actual use during the base period.

SEC. 6.6 *Industrial users allotments*—(a) *General.* An industrial user is given an allotment to enable him to get and use processed foods at his industrial user establishments. Allotments are given for fixed periods, called allotments periods. The first allotment period is from March 1, 1943 through April 30, 1943. The second period is from May 1, 1943 through August 31, 1943. The third period is from September 1, 1943 through December 31, 1943.

(b) *Application for allotments.* An industrial user's registration is treated as an application for an allotment for the first allotment period. His application for an allotment for any other allotment period must be made, in person or by mail, to the board with which he is registered. No particular form need be used for such an application. The application must be made not more than fifteen (15) days before, nor more than five (5) days after, the beginning of the period, unless he shows a good reason for applying at another time.

(NOTE: An industrial user is permitted to use processed foods only up to the amount of his allotment. He may therefore need an allotment even if his stocks are sufficient, since his allotment establishes his right to use processed foods—it is not just a method by which he gets them.)

(c) *Amount of allotment.* An industrial user's allotment is determined on the basis of his total use of processed foods at his industrial user establishments during the four month base period in 1942 corresponding to the allotment period. (The base period corresponding to the first allotment period is January 1, 1942 through April 30, 1942.) The amount of each class of processed foods (canned and bottled, dried, and frozen) used by him during the base period is multiplied by a factor fixed for that class by the Office of Price Administration in a supplement to this order. The numbers which result are added, and the total is his allotment, stated in points. (The factor is fixed in such a way that it gives an allotment which fairly represents both the average point value of the processed foods used and the reduction in use required as a result of the scarcity of processed foods).

(d) *Right to a certificate: excess inventory.* (1) An industrial user is entitled to get and use processed foods up to the amount of his allotment. He is therefore, given a certificate for the number of points he needs in order to get that amount. However, if he has stocks on hand, he can use them for his allotment and therefore needs fewer points. For that reason, the point value of his inventory at the close of business on February 28, 1943 must be deducted from his allotment. (The method of determining his inventory at the close of business on February 28, 1943, is covered by section 6.4.)

(2) If the point value of an industrial user's inventory is less than his allotment, he is entitled to get, from the board with which he registers, a certificate for the number of points needed to make up the difference.

(3) If the point value of an industrial user's inventory is greater than his allotment, the difference is excess inventory. In that case, he is not entitled to receive a certificate for the first allotment period. He is not entitled to get a certificate until the total of his subsequent allotments exceeds his excess inventory.

(e) *Issuance of certificate.* Only one certificate will be issued by the board, for the full number of points to which an industrial user is entitled, even if he has more than one industrial user establishment. However, if he is entitled to a certificate for more than 30,000 points for the second allotment period (May 1, 1943 to August 31, 1943, inclusive) the board must first issue a certificate for only one half of the total amount. A certificate for the balance is to be issued to him at any time he requests it after June 5, 1943.

[Paragraph (e) as amended by Amendment 36, 8 F.R. 7490, effective 6–6–43]

(f) *Industrial users who have unbalanced stocks.* If an industrial user is not entitled to receive a certificate because he has excess inventory, but finds that he does not have an adequate stock of a particular kind of processed foods, he may apply to the board with which he is registered on OPA Form R–315, for a certificate to enable him to get that kind. The application must show the kind and amount of food which he needs and the reasons he needs it. The board may call upon him for any other information which it finds necessary in order to act upon the application. If the board finds that he does not have an adequate stock of the particular food, it may issue to him a certificate for the number of points needed, up to one-third of his allotment for that period. The points so issued must be treated as excess inventory. The granting of the application shall not be treated as an increase in his allotment. The board may grant only one such application for an industrial user.

[Paragraph (f) added by Amendment 17, 8 F.R. 5480, effective 4–29–43]

(g) *Industrial users may apply for points with which to make advance purchases of frozen foods.* An industrial user may apply at any time before August 15, 1943 for points with which to acquire, in advance, frozen processed foods. The application must be made on O. P. A. Form R–315 to the board with which he is registered and must state the amount of frozen processed foods he wishes to acquire under this paragraph. The board may issue a certificate to the applicant. However, the number of points issued must not exceed an amount computed in the following way:

(1) Determine the total number of pounds of frozen processed foods which the applicant used from September 1 through December 31, 1942, inclusive, and from January 1 through April 30, 1942, inclusive;

(2) Multiply that number by 2.4;

(3) Deduct the amount of his excess inventory.

The points so issued must then be treated as excess inventory. One half of the points so issued must be deducted from any certificate issued to the applicant for the third allotment period of 1943 and the balance must be deducted from any certificate issued to him for the first allotment period of 1944.

[Paragraph (g) added by Amendment 36, 8 F.R. 7490, effective 6–6–43]

(h) *Accounting for errors.* If an industrial user receives an allotment larger than he is entitled to receive, as a result of an error, omission, or mistake made in his application or by his board, the amount of the excess shall be treated as excess inventory.

[Paragraph (h) added by Amendment 47, 8 F.R. 9629, effective 7–19–43]

SEC. 6.7 *Registration after March 10, 1943*—(a) *Registration of persons who become industrial users because of changes in the list of processed foods.* (1) Any person who becomes an industrial user because the foods he uses in his operations are added to the list of processed foods (or because he uses processed foods in making products which are removed from the list of processed foods) must, if he used those foods in his operations prior to March 1, 1943, register his industrial user establishment by filing OPA Form R–1308 within twenty days after he becomes an industrial user. The registration form must be filed, in person or by mail, with the board for the place where his principal business office is located. He must give all the information called for by the form. However, he must report his inventory of processed foods as of the time he became an industrial user. This registration is treated as an application for an allotment for the allotment period in which he became an industrial user.

(2) Any person who becomes an industrial user because the foods he uses in his operations are added to the list of processed foods (or because he uses processed foods in making products which are removed from the list of processed foods) may, if he began to use those foods in his operations since February 28, 1943, apply for an allotment. The application must be made on OPA Form R–315 to the board for the place

where his principal business office is located. The application must show:

(i) The product the applicant makes;
(ii) The size of the establishment;
(iii) The amount invested in it;
(iv) The market supplied;
(v) The date on which he started to use the processed foods;
(vi) His inventory of processed foods;
(vii) The amount and kinds of foods used since he began operations; and
(viii) The amount of allotment requested.

The board may call for any additional information it finds necessary. It may not pass on the application, but must forward it, together with all information received, to the district office (or, where there is none, to the State office). It may attach its recommendation, if any, as to the action to be taken. The district (or State) office must forward the entire file to the "Washington Office," for decision, or take such other action as the Washington Office may authorize or direct.

(3) Any allotment given to an industrial user pursuant to an application made under this paragraph is to be reduced in proportion to the part of the allotment period which had elapsed at the time he became an industrial user.

[Paragraph (3) added by Amendment 46, 8 F.R. 9459, effective 7-14-43]

(b) *Late registrations.* (1) The board may permit an industrial user who failed to register at the time required, to register and apply for an allotment at a later date. In his registration, he must report his inventory of processed foods as of the first day of the period in which he was required to register.

(2) His allotment is computed in the same way as that of an industrial user who registered on time. However, unless he shows good cause for his failure to register on time, his allotment is to be reduced in proportion to the part of the allotment period which had elapsed at the time he registered and he may not receive an allotment for expired allotment periods.

[Sec. 6.7 as amended by Amendment 36, 8 F.R. 7490, effective 6-6-43]

SEC. 6.8 *Restrictions on use of processed foods by industrial users.* (a) No industrial user may use, during an allotment period more processed foods than his allotment for that period plus any unused part of his allotments for earlier periods.

(b) No industrial user may use for any purpose except an industrial use, processed foods which are included in his inventory, or which he acquired with points he received as an industrial user.

SEC. 6.9 *Industrial users must keep records.* (a) Every industrial user must keep a copy of his registration at his principal business office. He must also keep a record of his inventory at the close of business on February 28, 1943. In addition, if he has more than one industrial user establishment, he must keep, at each establishment, a record of its inventory on that date. He must also preserve his records showing his use of processed foods during the period for which he reported in his registration.

(b) In addition, an industrial user must keep a record of the amount of processed foods he acquires and the date of acquisition, and the amount of processed foods used at each of his industrial user establishments during each allotment period. He must also keep a record of the amount of the following items used by him:

[Paragraph (1) revoked and former paragraphs (2) and (3) redesignated (1) and (2) by Amendment 36, 8 F.R. 7490, effective 6-6-43]

(1) Fruit and vegetable juices in containers over 1 gallon;

(2) Jams, jellies, and preserves.

SEC. 6.10 *Dry beans, peas and lentils, and dried and dehydrated soups and soup mixtures are included in classes of processed foods.* (a) Whenever this order refers to processed foods by classes, the class of canned and bottled processed foods includes dry beans, peas and lentils, and the class of dried and dehydrated processed foods includes dried and dehydrated soups and soup mixtures.

[Sec 6.10 added by Amendment 2, 8 F.R. 2681, effective 3-1-43]

Article VII—Combined Operations and Combined Establishments

SEC. 7.1 *A person who operates different types of establishments is treated as if he were different persons.* (a) (1) The same "person" may operate different kinds of establishments. He may have, for example, both a "wholesale establishment" and a "retail establishment". For the purposes of this order, he is both a "wholesaler" and a "retailer", since he has establishments of both kinds. The provisions of this order dealing with retailers apply to him as far as the operation of his retail establishment is concerned. The operation of his wholesale establishment is regarded as separate and is governed by the provisions dealing with wholesalers. Thus, he is treated as if he were two persons.

(2) This rule also applies to the way in which a person who is both a wholesaler and a retailer must handle the points he gets in connection with his wholesale and his retail establishment. The only points he may use as a retailer are those he gets in connection with his retail establishment. If he "transfers" "processed foods" from his wholesale establishment to his retail establishment, points he has as a retailer must be given up. When those points are given up to his wholesale establishment, they become points he has as a wholesaler. Points he has as a retailer must be kept and handled separately from the points he has as a wholesaler.

(3) The same rules apply to a person who has other types of establishments, such as "processor" or "industrial user establishments".

(b) Where a person has establishments of more than one kind, he must operate them as if each separate kind belonged to a separate person, as far as the provisions of this order are concerned. All dealings between establishments of different kinds operated by the same person are treated just as if those establishments were operated by different persons.

SEC. 7.2 *The same person may be both a wholesaler or retailer and industrial user at the same place.* (a) A person may keep stocks of processed foods at a place for sale or other transfer and may also use processed foods at that place for the production of some commodity other than processed foods.[*] (For example, he may sell canned peaches at a particular place and may also operate a bakery there and use canned peaches in baking pies.) In a case of this type, the place is treated as two establishments. If processed foods are sold or transferred from there, it may be a retail or a wholesale establishment, depending upon the facts. It would also be an industrial user establishment, since processed foods are used there in baking pies for sale.

(b) A place of the type described in the last paragraph must be registered as a retail or wholesale establishment, depending upon which it is. Its sales or transfers of processed foods, and its stocks held for sale or transfer, must be included in that registration. It must also be registered as an industrial user establishment, and its stocks held for such use must be included in the industrial user registration.

SEC. 7.3 *The same person may be both a wholesaler or retailer and an institutional user at the same place.* (a) If, in the case described in the last section, the person operated a restaurant at that place as well as (or instead of) a bakery, it would also be an "institutional user establishment" (Restaurants are covered by General Ration Order 5 and are called "institutional users" in that order.) A place of that type must be registered under General Ration Order 5. Its restaurant activities and its stocks of processed foods held for restaurant use must be included in that registration.

SEC. 7.4 *The same person may be both a processor and a wholesaler or retailer at the same place.* (a) A person may produce or import processed foods at a particular place, for sale or transfer. He may also regularly keep at that place, for sale or transfer, processed foods which he did not produce or import, but which he acquired from someone else. In such a case, that place is a processor establishment, since he produced or imported processed foods there. It may also be a retail or wholesale establishment, depending upon the facts, since he regularly keeps there, for sale or transfer, processed foods which someone else produced or imported. (This does not apply if the place where he keeps, for sale or transfer, processed foods produced or imported by someone else is a processor establishment as to those stocks, under section 3.1 (d) (1). In such a case, the place is not a wholesale or retail establishment.)

[Sentences in parentheses added by Amendment 30, 8 F.R. 6838, effective 5-27-43]

(b) A place of the type described in the last paragraph must be registered as a processor establishment. It must also be registered as a wholesale or retail establishment, depending upon which it is. Its production and imports, and its stocks and shipments of processed foods produced or imported there, must be included in the processor report. Stocks which were produced or imported by someone else, and the sales or transfers of those stocks, must be included in the wholesaler or retailer report. (However, stocks of processed foods kept there for producing other processed foods must be included in the processor report.)

SEC. 7.5 *The same place may be more than one establishment.* (a) The situations described in the last three sections are examples of the rule that the same place may be more than one establishment, depending upon the type of business or operations carried on there. Wherever the operations at a place are such that it is more than one establishment, it is treated just as if each of those establishments were located at a different place.

(b) No place can, however, be both a retail and a wholesale establishment of the same person. Under the definitions of retail and wholesale establishments, the place may be one or the other, but not both.

(c) The word establishment, as it is used in this order, covers the operation at a place, as well as the place itself. Where a person such as a wholesaler or a retailer does not operate from any fixed place, his wholesale or retail operations as a whole are regarded as an establishment. Similarly, if a person who deals in processed foods and makes sales or transfers of them does not actually keep processed foods at any particular place, his operations as a whole, are regarded as his establishment, and he may register as a wholesaler or a retailer, depending on the class of persons to whom he makes transfers.

[Paragraph (c) added by Amendment 15, 8 F.R. 5318, effective 4-27-43]

Article VIII—Ration Bank Accounts

SEC. 8.1 *A ration bank account is an account in which points are deposited.* (a) A ration bank account is a bank account very much like an ordinary checking account. A "person" who opens a ration bank account deposits in it points he receives, and issues checks drawn on it for points he uses. These checks are called ration checks.[†] (The general rules for the opening, closing and use of ration bank accounts are covered by General Ration Order 3A.[‡])

SEC. 8.2 *Who must open a ration bank account.* (a) *Processors.* Every "processor" must open at least one ration bank account for all his "processor establishments". If he has more than one processor establishment he may open a separate account for each or for any group of them, and he may, if he wishes, open one more account than he has processor establishments.

[Paragraph (a) as amended by Amendment 20, 8 F.R. 5818, effective 5-8-43]

(b) *Wholesalers.* Every "wholesaler" must open at least one ration bank account for all his "wholesale establishments". If he has more than one wholesale establishment he may open a separate account for each or for any group of them, and he may, if he wishes, open one more account than he has wholesale establishments.

[Paragraph (b) as amended by Amendment 20, 8 F.R. 5818, effective 5-8-43]

(c) *Retailers.* Every "retailer" whose gross sales of all foods during the month of December 1942, or during any single calendar month since December 1942, were more than $2,500.00, and every retailer who has more than one "retail establishment", must open at least one ration bank account for all his retail establishments. If he has more than one retail establishment he may open a separate account for each or for any group of them, and he may, if he wishes, open one more account than he has retail establishments. Also, any retailer who receives points (stamps, certificates, or endorsed ration checks) from, and makes transfers to, consumers by mail must have a ration bank account. Any other retailer may open an account for his retail establishment if he had a processed foods ration bank account on April 16, 1943, or has a ration bank account for any other rationed food. (A bank is not required to open or maintain such accounts; but if it does so, it must open or maintain them for any such retailer who applies.) No other retailer may open an account.

[Paragraph (c) as amended by Amendment 11, 8 F.R. 4784, effective 4-16-43, Amendment 20, 8 F.R. 5818, effective 5-8-43, Amendment 22, 8 F.R. 5847, effective 5-10-43 and Amendment 45, 8 F.R. 9305, effective 7-12-43]

(d) *Industrial users.* An "industrial user" is entitled to open a ration bank account, but is not required to do so. If he opens an account, he must use it for all his "industrial user establishments". However, if he has more than one industrial user establishment, he may open a separate account for each, or for any group of them.

(e) *Institutional users.* The opening of ration bank accounts by "institutional users" is covered by General Ration Order 5.

(f) *Application for additional accounts.* Any processor, wholesaler, or retailer who wishes to open more ration bank accounts than the number permitted by this section, may apply on OPA Form R-315 to the Washington Office for authority to open further ration bank accounts. He must state in his application all the facts which he claims show his need for additional ration bank accounts.

[Paragraph (f) added by Amendment 20, 8 F.R. 5818, effective 5-8-43]

(g) *Washington Office may open accounts.* The Washington Office of the Office of Price Administration may open one or more ration bank accounts and it may issue ration checks instead of certificates to persons entitled to receive points under the provisions of this order. Wherever this order provides that the Washington Office shall issue a certificate, it may, in its discretion, issue a ration check instead.

[Paragraph (g) added by Amendment 38, 8 F.R. 8357, effective 6-22-43]

SEC. 8.3 *All points must be deposited in the account.* (a) Every processor, wholesaler, retailer, or industrial user, who has a ration bank account, must deposit in his account all points he receives, whether in the form of "stamps"[†] certificates or ration checks.

SEC. 8.4 *When points must be deposited*—(a) *Stamps.* A person who has a ration bank account may not deposit stamps later than one month and ten days after the last date on which they were good for use by a consumer. (The periods during which particular stamps are good for use by consumers are fixed in the supplement to this order.) If the last day on which the stamps were good for use by a consumer is not the last day of a calendar month and the next calendar month has a day which corresponds thereto, then a "month", as used in this paragraph, is the period from the last day on which the stamps were good for use by a consumer to and including the corresponding day of the next calendar month; otherwise it is the period from the last day on which the stamps were good for use by a consumer to and including the last day of the next calendar month.

[Paragraph (a) amended by Amendment 29, 8 F.R. 6138, effective 5-10-43 and Amendment 47, 8 F.R. 9629, effective 7-19-43]

(b) *Certificates.* He may not deposit a certificate later than 20 days after the date which appears on it. (The fact that the certificate may have passed through several hands before reaching him does not give him any more time to deposit it.)

(c) *Effect of failure to deposit stamps or certificates.* A stamp or certificate which was not deposited on time is not good, and may not be used or accepted for any purpose.

(d) *Ration checks.* Ration checks may be deposited at any time.

Article IX—Sales and Transfers of Processed Foods

SEC. 9.1 *No transfers may be made to consumers between February 21, 1943*

[*] 8 F.R. 1130, 1449.

[†] For the purposes of General Ration Order 3A, blue "stamps" from the War Ration Book Two, certificates (Form OPA R-1201) and ration checks are to be regarded as "evidences". That term is not, however, actually used in this order.

and February 28, 1943. (a) From February 21, 1943 to February 28, 1943, inclusive, no "person" may sell or "transfer" "processed foods" to a "consumer" regardless of any contract or other agreement. (Certain transactions between consumers, covered in section 2.2 are excepted from this rule.)

SEC. 9.2 *Only retailers, wholesalers and processors may transfer processed foods.* (a) Beginning March 1, 1943, only "retailers", "wholesalers", "processors", "country shippers" and "growers" may sell or transfer processed foods. (Certain transactions between consumers, covered in section 2.3 (b); certain transactions by seed dealers, covered in section 14.7; and certain other transactions covered in Articles X and XXVI are excepted from this rule.)

[Paragraph (a) amended by Amendment 9, 8 F.R. 4342, effective 4-2-43 and Amendment 31, 8 F.R. 6839, effective 5-27-43]

(b) An "industrial user" who has an excess inventory of processed foods may apply for permission to sell or transfer any part of that excess. The application shall be made on OPA Form R-315 to the Board with which he is registered. He must state in his application the kinds, quantities and point value of the processed foods he wishes to sell or transfer, the reason he wishes to sell or transfer them, the way in which they are to be sold or transferred, and any other information that the Board requests. The Board shall grant the application if good cause is shown. If the application is granted, the processed foods must be sold or transferred for points in the same way that a retailer is permitted to sell or transfer processed foods, and within five days after the sale or transfer, the transferor must give up to the Board all points which he received for the processed foods sold or transferred. The Board shall reduce his excess inventory by an amount equal to the number of points given up.

(c) "Institutional users" may sell or transfer processed foods only as permitted in General Ration Order 5.

(d) Any person not covered by paragraphs (a), (b) or (c) may apply for permission to sell or transfer processed foods. The application shall be made on OPA Form R-315 to the Board for the place where he lives or where he has his principal business office. He must state in his application the kinds, quantities and point value of the processed foods he wishes to sell or transfer, the reason he wishes to sell or transfer them, the way in which they are to be sold or transferred, and any other information that the Board requests. Only one such application may be made by a person on his own behalf or on behalf of the members of his family unit. The Board shall grant the application if good cause is shown. If the application is granted, the processed foods must be sold or transferred for points in the same way that a retailer is permitted to sell or transfer processed foods, and within five days after the sale or transfer, the transferor must give up to the Board all points which he received for the processed foods sold or transferred.

(e) If the person making the sale or transfer, as permitted in paragraph (d), is a consumer who has been charged with an excess number of cans of processed foods (as shown by a notation on the inside front cover of his War Ration Book Two, or by the removal from his War Ration Book Two of eight point blue stamps which have not yet become valid); the number of cans with which he is charged shall be reduced by one for each can or bottle of processed foods of eight ounces or over which he has transferred and for which he turns over points. If the number of cans by which that reduction is to be made does not exceed the notation on the inside front cover of the consumer's book, the Board shall reduce the number noted on the book by the appropriate amount. Otherwise, the Board shall issue a substitute book exactly corresponding to that surrendered by the consumer, except that no number shall be written on the inside front cover of the substitute book and an appropriate reduction shall be made in the number of eight point blue stamps not yet valid, which are to be removed. If the processed foods sold or transferred were charged against several members of a family unit the Board shall divide the reduction as equally as possible among the books of members of the family unit which have been charged with an excess number of cans of processed foods.

[Paragraphs (b), (c), (d) and (e) added by Amendment 48, 8 F.R. 10511, effective 7-31-43]

SEC. 9.3 *Transfers after February 28, 1943 may be made only for points.* (a) Beginning March 1, 1943, no person may sell or transfer, and no person may buy or "acquire" processed foods, regardless of any contract or other agreement, unless points are given up in the way this order requires. (The word "transfer", as it is defined, means to sell, as well as to transfer in other ways. The word "acquire", means to buy, as well as to get in other ways. Therefore, the only words which will generally be used, in later sections, are "transfer" and "acquire".)

The rules covering various kinds of transactions are set forth in the sections which follow.

SEC. 9.4 *How processed foods are transferred to consumers.* (a) *General.* Processed foods may be transferred to a consumer, and may be acquired by him, only if he gives up to the seller, or transferor, points equal to the point value of the processed foods transferred. (Certain transactions between consumers covered in section 2.3 (b), are excepted from this rule. Certain other exceptions are covered in Article X.)

(b) *How points are given up.* Points may be given up by, and taken from, a consumer only in the form of blue stamps from his War Ration Book Two, a certificate issued for him, or a ration check issued to him and endorsed by him.

[Paragraph (b) as amended by Amendment 22, 8 F.R. 5847, effective 5-10-43]

(c) *When points must be given up.* The seller or transferor must take the points from the consumer at the time when the processed foods are transferred.

(d) *When stamps must be detached.* The seller or transferor may accept a stamp only if it is torn out of War Ration Book Two in his presence, and only if the book has a validation stamp on its cover. Loose stamps may not be used by a consumer and they must not be accepted by the seller or transferor.

(e) *When stamps are good.* Each stamp is good for a limited time and may be accepted for a transfer to a consumer only during that time. The letter printed on the stamp serves to indicate when it may be used by a consumer. Stamps lettered A, B and C may be accepted from a consumer, only during March 1943. Stamps lettered D, E and F may be accepted only from March 25, 1943 to April 30, 1943, inclusive. The periods during which other stamps may be accepted from a consumer are fixed by the Office of Price Administration in a supplement to this order.

(f) *Use of certificates.* A certificate may be accepted from a consumer only if it has been signed on the back by the person for whom it was issued (or by someone authorized to act for him, if he cannot write.) A certificate is not valid for a transfer to a consumer after the date shown on its face, and may not be used or accepted for such a transfer after that date.

(g) *Mail order sales.* (1) Processed foods may be transferred to consumers by mail if a certificate, detached stamps, or a ration check payable to, and endorsed by the consumer, are received with the order. Stamps or certificates which are received after the last day on which they are good in the hands of the person who sends them may be accepted if the envelope in which they are enclosed is postmarked on or before that date.

[Paragraph (1) as amended by Amendment 22, 8 F.R. 5847, effective 5-10-43]

(2) If the transferor fails to deliver processed foods equal in point value to the points received, he shall issue and send to the consumer a ration check for the balance.

(3) Before accepting stamps from and making transfers to consumers by mail, any retailer, wholesaler, or processor who wishes to do so must notify, in writing, the district office for the place where his principal business office is located (or, where there is no district office, the State office). The notice must give his name and principal business address, the name and address of each establishment from which he will make transfers to consumers by mail, and must contain an estimate of the dollar volume of his mail order deliveries of processed foods to consumers during 1942. He may not make any such transfers until he has given this notice. Beginning March 1, 1943, he must keep a record of the dollar volume or the point value of his transfers of processed foods to consumers by mail.

[Paragraph (3) as amended by Amendment 26, 8 F.R. 6046, effective 5-13-43]

(4) No retailer may receive points from and make transfers to consumers by mail unless he has a ration bank account.

[Paragraph (4) as amended by Amendment 22, 8 F.R. 5847, effective 5-10-43]

(h) *Ration checks.* A ration check may be accepted from a consumer only if it is payable to him and has been endorsed by him (or by someone authorized to act for him, if he cannot write).

[Paragraph (h) added by Amendment 22, 8 F.R. 5847, effective 5-10-43]

SEC. 9.5 *How processed foods are transferred to persons other than consumers*—(a) *General.* Processed foods may be transferred to and acquired by a retailer, wholesaler, or a processor, or an industrial user or institutional user only if he gives up to the seller (or transferor) points equal to the point value of the processed foods transferred.[8] (Certain exceptions to this rule are covered in Article X.)

(b) *Point value.* The number of points which must be given up for a transfer of processed foods is determined by their point value at the time of the transfer.

(c) *When points must be given up.* (1) The transferor must get the points from the transferee, and the transferee must give them up, at or before the time when the transfer is made. Exceptions to this rule are stated in the next two subparagraphs.

(2) If the transfer is made through shipment by railroad or any other public carrier, the transferor may arrange to have the carrier get the points for him from the transferee at the time of actual delivery, or to have the points obtained for him by anyone in exchange for the bill of lading or other document entitling its holder to take possession of the processed foods.

(3) The points may be given up later, but not more than ten days after the time when the transfer is made, if the conditions of this subparagraph are satisfied. A transferee may not accept the transfer in this case unless he has points on hand (excluding points not yet surrendered for processed foods bought or acquired) or in his ration bank account (excluding the amounts of ration checks issued which have not yet been cleared) equal to the point value of the processed foods transferred. The transferor must, at or before the time he transfers the processed foods to the transferee, prepare and keep a memorandum showing the name of the transferee, the date of transfer of the processed foods, a description of the items, and their point value. If the transferor does not get the points within the time required by this subparagraph, he must immediately notify the district (or State) office for the place where the transfer was made, of the default. As long as the transferee is in default, he must not acquire any processed foods and no transferor who has knowledge of the default may transfer such foods to him. (However, he may continue to acquire processed foods and transferors may continue to transfer such foods to him, pursuant to Article X.)

(4) Points which are mailed are considered given up when the envelope containing them is postmarked.

[Paragraph (c) amended by Amendment 2, 8 F.R. 2681, effective 3-1-43 and Amendment 40, 8 F.R. 9024, effective 7-6-43]

(d) *Form in which transferor must get points.* The transferor may take points from the transferee only in the form of stamps, certificates, or a ration check drawn on the transferee's ration bank account or endorsed by him.

[Paragraph (d) as amended by Amendment 22, 8 F.R. 5847, effective 5-10-43]

(1) *Stamps.* No stamp may be accepted from the transferee more than one month after the last date on which it was good for use by a consumer. If the last day on which the stamps were good for use by a consumer is not the last day of a calendar month and the next calendar month has a day which corresponds thereto, then a "month", as used in this subparagraph, is the period from the last day on which the stamps were good for use by a consumer to and including the corresponding day of the next calendar month; otherwise it is the period from the last day on which the stamps were good for use by a consumer to and including the last day of the next calendar month. The stamps must either by pasted on gummed sheets (OPA Form R-120) or enclosed in sealed envelopes. If the stamps are pasted on gummed sheets, the name and address of the transferee must be written on each sheet, and only stamps of the same point value, and valid for a transfer to the transferee at the time they are given up, may be pasted on the same sheet. If the stamps are enclosed in sealed envelopes, they must be handled in all respects in accordance with the procedure described in General Ration Order 7[9] for the use of such envelope.

[Paragraph (1) amended by Amendment 29, 8 F.R. 6138, effective 5-10-43 and Amendment 47, 8 F.R. 9629, effective 7-19-43]

(2) *Certificates.* A certificate may not be accepted from the transferee unless the name of the person to whom it was issued has been written on the back. The back of the certificate must also carry the signature of the transferee. The certificate may not be accepted more than ten days after the date shown on its face. However, if it was issued to the transferee, it may not be accepted after the date shown on its face.

(3) *Ration checks.* A ration check may be accepted by a transferor only if it is made payable to him and if it is drawn by his transferee, or if it is endorsed by his transferee and by the person to whom the check was issued, if the check was not issued to the transferee. (The rules for handling ration checks are set forth in General Ration Order 3A.)

[Paragraph (3) as amended by Amendment 22, 8 F.R. 5847, effective 5-10-43]

(e) *Form in which transferee must give up points*—(1) *Wholesalers and processors.* A wholesaler or a processor must give up points only in the form of a ration check drawn on his ration bank account.

(2) *Retailers.* A retailer who is required to have a ration bank account must give up points only in the form of a ration check drawn on that account. Other retailers may give up points only in the form of stamps, certificates, or ration checks endorsed by them.

(3) *Industrial and institutional users.* An industrial or institutional user who has a ration bank account must give up points only in the form of a ration check drawn on that account. Any other industrial or institutional user may give up points only in the form of certificates or ration checks endorsed by him.

[Paragraphs (2) and (3) as amended by Amendment 22, 8 F.R. 5847, effective 5-10-43]

(4) *General.* Points may be transferred freely between establishments of the same type operated by the same person, and points of one of those establishments may be used to get processed foods for another of them. However this rule does not apply to the movement of points between institutional user establishments, which is covered by the provisions of General Ration Order 5.

[Paragraph (4) as amended by Amendment 2, 8 F.R. 2681, effective 3-1-43]

(f) *Transfers to retailers during March 1943.* A retailer, wholesaler or processor who transfers processed foods to a retailer during March 1943, must prepare and give to the retailer a written statement (in any convenient form) showing the name and address of both the transferor and transferee, the date of the transfer, and the number of points given up by the transferee. The transferor must keep a copy of the statement at his principal business office.

SEC. 9.6 *Transfers between establishments of different types operated by the same person.* (a) All of the rules set forth above which apply to transfers from one person to another, also apply to transfers between establishments of different types operated by the same person. (For example, a person may have both a wholesale and a retail establishment. He is, therefore, both a wholesaler and a retailer. He is permitted to transfer processed foods from his wholesale to his retail establishment. However, when he does so, he must give up points from the retail to the wholesale establishment just as if those establishments were operated by two different persons.)

[8] For convenience, the retailer, wholesaler processor, or industrial or institutional user, to whom the transfer is made, will sometimes be called "the transferee", in the paragraphs which follow.

[9] 8 F.R. 2858, 2997, 4840, 6965.

SEC. 9.7 *Transferor may not use points he receives in advance until processed foods are transferred.* (a) A transferor may receive points from his transferee before he actually transfers the processed foods. In that case, he may not use points so received, to get other processed foods, until he has actually transferred to the transferee processed foods worth that number of points.

SEC. 9.8 *Points may be returned for underdeliveries of processed foods.* (a) If a retailer, wholesaler, processor, country shipper, or grower receives points in advance for a transfer of processed foods, and is unable to transfer all or any part of the amount ordered, he may return the points in excess. He must return the points in the same form he would use to give up points for a purchase or other acquisition of processed foods. (For example, a wholesaler can give up points only in the form of a ration check. He would, therefore, deposit all the points received by him, and draw a check for any amount to be returned. However, this section does not apply to consumers, except in connection with mail order transactions.)

[Sec. 9.8 as amended by Amendment 9, 8 F.R. 4342 effective 4-2-43]

SEC. 9.9 *Points must be given up for imports of foods.* (a) Any person (other than persons importing processed foods in accordance with section 10.10) who imports processed foods must give up points to the Collector of Customs (or his deputy) at or before the time the foods are released or delivered to him by the Collector.

(b) The Collector of Customs shall turn over each month, to the district (or, where there is none, the State) office for the area in which the point of entry is located, all points received by him in this way during the preceding month.

[Sec. 9.9 added by Amendment 14, 8 F.R. 4921, effective 4-20-43]

Article X—Point-Free Transfers

SEC. 10.1 *Processed foods in transit prior to effective date of rationing, may be acquired point-free.* (a) No points need be given up for a delivery of "processed foods" to a "person" other than a "consumer", if those processed foods were in transit to him on February 28, 1943.

(NOTE: Processed foods which were in transit to a "processor", or an "industrial" or "institutional user" at the close of business on February 28, 1943, must be included in the inventory which he reports in his registration.)

(b) No points need be given up for a delivery to any person other than a consumer, of an item which is added to the list of processed foods, if the item was in transit to him on the day preceding such addition.

[Paragraph (b) added and section heading amended by Amendment 36, 8 F.R. 7490, effective 6-6-43]

SEC. 10.2 *Processed foods may be exchanged for other processed foods.* (a) Any person may exchange processed foods with any other person for processed foods of equal point value, without giving up or taking points. (This rule applies even if there is a money payment to make up any difference in the money value of the processed foods exchanged.) However, neither a "grower" nor a "country shipper" may exchange dry beans, peas, or lentils for other processed foods.

[Sec. 10.2 as amended by Amendment 9, 8 F.R. 4342, effective 4-2-43]

SEC. 10.3 *Lost or stolen processed foods may be returned, point-free.* (a) No points need be given up for a return of lost or stolen processed foods to the person who lost them or from whom they were stolen.

SEC. 10.4 *Stocks of processed foods may be moved point-free between establishments of the same person.* (a) No points need be given up when a person moves stocks of processed foods from one of his establishments to another of his establishments of the same kind. For example, a person who has two "retail establishments" may move processed foods from one to the other, without exchanging points between them. (However, a record must be kept of the amount of stocks involved in each such movement.) When a person "transfers" processed foods between establishments of different kinds—for example, from his "wholesale establishment" to his retail establishment—points must be given up just as if those establishments were operated by different persons.

(b) This rule does not apply to the movement of stocks between "institutional user establishments", which is covered by the provisions of General Ration Order 5.

[Paragraph (b) as amended by Amendment 2, 8 F.R. 2681, effective 3-1-43]

SEC. 10.5 *Processed foods may be stored and returned from storage, point-free.* (a) No points need be given up for a delivery of processed foods for storage purposes only.

(b) No points need be given up for a delivery of processed foods from the place of storage to the person who stored them, or to a person to whom he has sold or transferred them. (However, that sale or transfer must be made in a way permitted by this order.)

SEC. 10.6 *Security interests in processed foods may be created and released, point-free.* (a) No points need be given up for a transfer of processed foods, or of any interest in them, for security purposes only. (For example, if processed foods are pledged or mortgaged the person with whom they are pledged or mortgaged need not give up points.)

(b) No points need be given up for a release of a security interest in processed foods, or for a return of those foods to the person who originally transferred them for security purposes. (For example, a person who pledged processed foods may get them back without giving up points. Similarly, a person who gave a chattel mortgage on his processed foods need not give up points when the mortgage is ended.)

SEC. 10.7 *Processed foods may be transferred, point-free, for liquidation, by operation of law, or in judicial proceedings*—(a) *General.* No points need be given up for a transfer of processed foods to a person who gets them for liquidation only. Also, no points need be given up for a transfer of processed foods as part of a judicial proceeding, or by operation of law, order of a court, or judicial process.[1] (For example, processed foods may be taken over by a creditor, under a court order, without any surrender of points. If processed foods are assigned for the benefit of creditors, the person to whom they are assigned need not give up points to the person making the assignment. Also, a person need not give up points when he inherits processed foods or "acquires" them by will.)

(b) *How transferee may dispose of the processed foods.* A person who acquires processed foods in this way must within five days after acquiring them, report to the district office (or, where there is none, to the State office) for the place where his principal business office is located:

(1) The kinds and the point value of the processed foods acquired;

(2) The name and address of the person from whom they were acquired;

(3) The way in which and the date when they were acquired. He may not use the processed foods unless he gives up to the district (or State) office, for cancellation, points equal to their point value. He may, however, sell or transfer them in the same way that a "retailer" is permitted to sell or transfer processed foods. He must immediately after selling or transferring them, account to the district (or State) office for points equal to their point value.

(c) *Consumer inheritance.* A consumer who gets processed foods from another consumer, by inheritance or by will, may use them without giving up points.

SEC. 10.8 *Processed foods may be acquired, point-free, by insurers or for salvage*—(a) *Acquisition of damaged processed foods.* Damaged processed foods, and undamaged processed foods mingled with them, may be transferred to, and acquired by, the following persons, without any surrender of points:

(1) A person who has paid or is liable for a claim for the damage done to the foods, and who is entitled to reimburse himself by taking them over;

(2) A person in the business of adjusting losses or of reconditioning or selling damaged articles.

[1] A "wholesaler" may acquire processed foods in this way even if his actual inventory is or would become larger than his maximum allowable inventory.

(b) *Disposal of the processed foods.* The person acquiring the processed foods must, within five days after acquiring them, report to the district office (or, where there is none, to the State office) for the place where his principal business office is located:

(1) The kinds and point value of the processed foods acquired;

(2) The name and address of the person from whom he acquired them;

(3) The way in which and the date when they were acquired. If he cannot ascertain the kinds and point value immediately, he must describe the approximate amount he received and must give the detailed information as soon as he can. He may dispose of those processed foods only by a sale or transfer in the same way that a retailer is permitted to sell or transfer processed foods. He must, immediately after selling or transferring them, account to the district (or State) office for points equal to their point value. If he cannot dispose of them all, he must report to the district (or State) office the amount which was not salable.

SEC. 10.9 *Processed foods may be transferred to prospective buyers for sampling, point-free and may be used for sampling and demonstration.* (a) A processor, country shipper, or grower may deliver processed foods to prospective buyers (other than consumers) for sampling, without getting points. However, he may not deliver in this way more than one-fortieth of one percent of the total amount of processed foods produced or imported by him.

(b) A retailer or "wholesaler", who acquires processed foods from a processor, country shipper, or grower, may sample some of them in order to check grades and quality, and may use some of them to demonstrate them to prospective purchasers other than consumers. However, he may not use for this purpose more than one-tenth of one percent of the total amount of processed foods acquired by him. A wholesaler shall attach to his periodic report to the Washington Office on OPA Form R-1310 a statement accounting for the amount of processed foods used by him for sampling or demonstration to prospective purchasers.

[Sec 10.9 amended by Amendment 9, 8 F.R. 4342, effective 4-2-43. Paragraph (b) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

SEC. 10.10 *Processed foods may be delivered point-free to certain persons*—(a) *Point-free delivery to processors.* No points need be given up for a transfer of processed foods by an authorized customs official to a processor if the processor gives his signed statement to the official showing:

(1) His name;

(2) His principal business address;

(3) His processor registration number;

(4) The address of the establishment at which the foods are to be kept for sale or transfer or for his own use in making other processed foods; and

(5) The amount and kind of processed foods imported at the time.

(b) *Point-free delivery to country shippers.* No points need be given up for a transfer of dry beans, peas or lentils by an authorized Customs Official to a country shipper if the country shipper gives his signed statement to the Official showing:

(1) His name;

(2) His principal business address;

(3) His country shipper's registration number; and

(4) The amount of dry beans, peas and lentils imported at the time.

[Paragraph (b) as amended by Amendment 47, 8 F.R. 9629, effective 7-19-43]

(c) *Collector of Customs to send statements to Washington Office.* After the close of each month the Collector of Customs shall deliver all processors' and country shippers' statements received during that month to the Office of Price Administration, care of the Bureau of the Census, Washington, D. C.

[Paragraph (c) added and former paragraph (c) redesignated (d) by Amendment 47, 8 F.R. 9629, effective 7-19-43]

(d) *Point-free delivery to representatives of foreign governments, prisoners of war, internees and others.* No points need be given up for a transfer of processed foods by an authorized customs official:

(1) Upon request by the Department of State, to representatives of foreign governments who are within the classes of persons specified in Article 432 (a) or Article 433 (c), Customs Regulations of 1937;

(2) To members of the armed forces of the United Nations, other than those of the United States, who are on duty within the United States, where the processed foods are consigned or addressed to them and are intended for their personal or official use;

(3) To enemy prisoners of war and enemy civilian internees and detainees in the United States, where the processed foods are consigned or addressed to them.

[Sec. 10.10 amended by Amendment 14, 8 F.R. 4921, effective 4-20-43]

SEC. 10.11 *Processed foods may be transferred, point-free, in connection with transfer of a business.* (a) No points need be given up for a sale or transfer of processed foods in the inventory of an establishment, as part of a sale or other transfer of the establishment itself for continued operation. A person who so buys or acquires processed foods may not use them, but may hold them only for sale or transfer. However, a person who acquires an industrial user establishment may use its stocks up to the amount of any allotment he gets. (The procedure which the transferor and transferee must follow, where an establishment is transferred for continued operation, is covered in Article XI.)

SEC. 10.12 *Processors may transfer point free to allow for spoilage.* (a) In any case in which a processor makes a money allowance to his transferee to cover spoilage of the processed foods transferred, he may, in order to allow for spoilage, transfer to his transferee, without receiving points, processed foods in an amount not exceeding the same percentage of the total amount transferred that the money allowance made is of the total price paid. However, such transfer may not, in any event, exceed one-fourth of one percent of the total amount transferred.

(b) If the actual spoilage of processed foods transferred by a processor exceeds one-fourth of one percent, the transferee may return the spoiled foods to the processor and receive points for the difference between the amount spoiled and any allowance already made. However, if he does not return the spoiled processed foods, he may receive points for that difference only if and to the extent that the processor makes a money adjustment for the spoiled processed foods.

(c) The processor must keep a record of the name and address of each person to whom such point-free transfers and point returns are made, the dates thereof, and the amounts of such transfers and returns.

[Sec. 10.12 added by Amendment 2, 8 F.R. 2681, effective 3-1-43]

SEC. 10.13 *Grower of dry beans, peas, or lentils may transfer them to country shippers point-free.* (a) No points need be given up for a sale or transfer of dry beans, peas, or lentils by a grower to a country shipper. At the time of the point-free sale or transfer, the country shipper must give to the grower, and the grower must get from the country shipper, a written receipt on which the country shipper's OPA registration number appears.

SEC. 10.14 *Country shipper or grower of dry beans, peas, or lentils may transfer them point-free to growers for seed purposes.* (a) No points need be given up for a sale or transfer of dry beans, peas, or lentils by a country shipper or grower to a grower, when the transferee acquires the dry beans, peas, or lentils for use as seed.

SEC. 10.15 *Wholesaler or retailer may transfer dry beans, peas, or lentils point-free for seed.* (a) No points need be given up for a sale or transfer of dry beans, peas, or lentils by a wholesaler or retailer to a person when such person acquires the dry beans, peas, or lentils for use as seed. However, when the transferor sells or transfers, point-free for use as seed, dry beans, peas, or lentils which were in his inventory on March 1, 1943, or which he acquired for points, he shall make and keep a record of the name and address of the transferee, the date of the sale or transfer, and the amounts of dry beans, peas, or lentils transferred point-free for use as seed.

SEC. 10.16 *Dry beans, peas, or lentils may be transferred point-free between country shippers.* (a) No points need be given up for a sale or transfer of dry

beans, peas, or lentils by one country shipper to another country shipper. At the time of the point-free sale or transfer, the country shippers must exchange written receipts and invoices on which their respective names and addresses and OPA registration numbers appear.

[Sec. 10.13 through Sec. 10.16 added by Amendment 9, 8 F.R. 4342, effective 4-2-43]

Article XI—Sale of Business

SEC. 11.1 *Sale or transfer of retail, wholesale, or processor establishment*—(a) *General.* (1) When any "person" sells or "transfers" to any other person the business and inventory of his "retail", "wholesale" or "processor establishment", for continued operation, they must both notify the "board" at which the establishment is registered, or the "Washington Office", if it is registered there. The notice must be given in writing, within five (5) days after the sale or transfer, and must show:

(i) The name and business address of the establishment and of the persons transferring and "acquiring" it;

(ii) The point value of the inventory transferred; and

(iii) The number of points in the establishment's ration bank account, if any, and the number of points on hand, including points sent to a supplier for "processed foods" not yet shipped.

This notice will be treated as the transferee's registration and as a cancellation of the transferor's registration.

(2) If the transferor has a ration bank account, he must notify the district office, in the way required by General Ration Order 3A (the ration banking order).

(b) *Purchaser of retail or wholesale establishments may get its points.* The purchaser or transferee of a retail or wholesale establishment may get and use all of the establishment's points in the same way that the seller or transferor was entitled to use them. (If it is a wholesale establishment, however, he may not use those points to exceed its maximum allowable inventory, except as permitted by section 4.7 (a).) If the establishment has a ration bank account, the transferor is to give all the establishment's points to the transferee by issuing a ration check. If the establishment does not have a ration bank account, the transferor is to give to the transferee the stamps and certificates he has and to endorse and give to the transferee any ration checks he has. (If the transferee is required to have a ration bank account he must deposit all the points in that account. If the transferee is not required to have a ration bank account, he may endorse the checks and use them to get processed foods.)

[Paragraph (b) as amended by Amendment 22, 8 F.R. 5847, effective 5-10-43]

(c) *Seller of processor establishment must give up all points to the Office of Price Administration.* A person who sells or transfers a processor establishment must, within five (5) days after the transfer, turn over to the Washington Office, all points on hand at that establishment and all in its ration bank account. He does so by issuing and sending his certified ration check, payable to the Office of Price Administration, along with his notice of the transfer. (If any of the points represent processed foods not yet shipped, he must attach to his notice a statement showing the amount and the person from whom he got them.)

(d) *Same rules apply to sale of an entire chain.* The rules set forth above also apply to a person who has more than one establishment of a particular kind and who sells or transfers all of them for continued operation. He must give the information, and give up or transfer the points for all the establishments.

(e) *Sale of part of a chain.* Where the seller or transferor also has other establishments of the same kind which are not sold or transferred, the procedure described in paragraph (a) of this section must be followed. However, while the purchaser or transferee may acquire the processed foods inventory of the transferred establishment, he may not acquire its points. In this case, the seller or transferor keeps the points. If he is a "retailer," or "wholesaler," he may use the points with his other establishment of the same kind as the transferred establishment. If he is a "processor," he must give up to the Washington Office, the points received for sales and transfers of processed foods from that establishment at the time that he is required to give up points received by his other processor establishments.

SEC. 11.2 *Sale or transfer of industrial user establishments*—(a) *General.* (1) When an industrial user sells or transfers to any other person the business and inventory of his industrial user establishment, for continued operation, both the transferor and transferee must notify the board at which the establishment is registered. The notice must be in writing, within five (5) days after the sale or transfer, and must show:

(i) The name and business address of the establishment and of the persons transferring and acquiring it;

(ii) The point value of the inventory transferred;

(iii) The number of points in the establishment's ration bank account, if any, and the number of points on hand, including points sent to a supplier for processed foods not yet shipped.

(2) If the transferor has a ration bank account, he must notify the district office, in the way required by General Ration Order 3A.

(b) *Transferor must give up unused points.* The seller or transferor must give up to the board all unused points he has for the establishment. If the establishment has a ration bank account, he must give up the points in the form of his certified ration check payable to the Office of Price Administration. The notice described in paragraph (a) of this section, and the surrender of unused points, will be treated as a cancellation of the transferor's registration and allotment.

(c) *Application for allotment by transferee.* The transferee may not use the stocks of processed foods transferred with the establishment unless he receives an allotment. The application for an allotment must be made, on OPA Form R-315, to the board for the place where his principal business office is located, and must state facts showing whether:

(1) The entire establishment, including substantially all the equipment the good will, and the processed foods inventory, has been transferred;

(2) The transferee will continue to serve, from that establishment, the same general class of customers and the same area served by it before the transfer;

(3) The equipment of the transferred establishment will be continued in use after the transfer; and

(4) The transferee will continue to produce, at the establishment, the same product or products, though not necessarily under the same trade name.

The board shall send the application, the notices sent to it by both parties and the transferor's registration to the district office (or, where there is none, to the State office).

(d) *Granting of allotment.* If the district (or State) office finds that the establishment will continue to be operated in substantially the same manner as before the transfer and that the tests described in paragraph (c) are satisfied, it shall assign to the transferee the transferor's allotment and base period use, for that establishment. It shall also give him a certificate for the number of points that the transferor surrendered to the board, or, if the amount of processed foods transferred to the transferee with the establishment is larger than the unused part of the allotment for the current period, plus any unused part of the transferor's earlier allotments, the difference shall be treated as excess inventory. The transferee may not use any part of the allotment already used by the transferor, but he may use any unused part of any prior allotment the transferor received for that establishment.

(e) *Same rules apply to sale of entire chain.* The same rules apply where a person who has more than one industrial user establishment sells or transfers all of them, for continued operation.

(f) *Sale of part of a chain.* (1) When the seller or transferor has other industrial user establishments which are not sold or transferred, the procedure described in paragraphs (a) and (c) of this section must be followed, except that the transferor must also apply to the board with which he registered for a redetermination of his allotment and his base period use. The board shall send the application and notices of both parties, and the transferor's registration, to the district office, or, where there is none, to the State office. If the district (or State) office finds that the tests described in paragraph (c) are satisfied, it shall grant an allotment to the transferee and assign to him a base period use. It shall first determine the amount of the transferor's allotment and base period use allocable to the transferred establishment. That base period use shall be assigned to the transferee. The transferee's allotment shall be the part of the transferor's allotment corresponding to the unexpired part of the allotment period. The base period use and the allotment assigned to the transferee shall be deducted from the base period use and current allotment of the transferor. The district office shall issue a certificate to the transferee (or determine his excess inventory) on the basis of the allotment granted to him and the amount of the inventory he acquired from the transferor. If the amount of processed foods transferred with the establishment is less than the allotment assigned to the transferee, the transferor must give up points to the Office of Price Administration for the difference. If he does not give up points, that difference shall be treated as excess inventory.

(g) *Transferee's registration.* A transferee is regarded as registered as soon as the district (or State) office assigns an allotment and base period use to him.

(h) *Use of allotment by transferee.* A transferee may not use an allotment assigned to him under this section if his operation of the transferred establishment ceases to meet the tests described in paragraph (c).

Article XII—New Businesses

SEC. 12.1 *New retail establishments may be opened*—(a) *How stocks are obtained.* A "person" who wishes to open a "retail establishment" after February 1943, may apply for a "certificate" to get stocks of "processed foods" The application must be made, on OPA Form R-315, to the "board" for the place where the establishment will be located. (If he also has a "wholesale" or "processor establishment", he must apply to the "Washington Office", and not to the board.) The application must show:

(1) The proposed name and address of the establishment;

(2) The amount he has invested or expects to invest in it;

(3) The size of the establishment;

(4) The number of points he needs in order to get adequate stocks;

(5) The point value of any stocks of processed foods he may have for that establishment.

(b) *Issuance of certificate.* The board (or the Washington Office) will issue to him a certificate for the number of points he needs to get an adequate working inventory.

(c) *Registration.* At the end of his first full month of operation, he must register that establishment, on OPA Form R-1302, in the same way that "retailers" register between April 1 and April 10, 1943. He must give all information called for by the form. However, he must show his sales and "transfers" of processed foods from that establishment during his first full month of operation, instead of during March 1943, and must report his point inventory at the end of that month, instead of at the end of March 1943. When he registers, he may get a certificate or, if he has excess inventory, he must give up points to the Office of Price Administration in the same way as retailers who register between April 1 and April 10, 1943. He may not, however, be given a certificate for more than the amount by which his allowable inventory exceeds the amount of the certificate given to him when he applied on OPA Form R-315.

(d) *Procedure where no additional stocks are needed.* Where the person who wishes to open the retail establishment has enough stocks, he need not apply on OPA Form R-315. He may begin operation with the stocks he has. However, before making any sales or transfers of processed foods from the establishment after April 10, 1943, he must notify the board for the place where the establishment is located. If he also has a wholesale or a processor establishment, he must notify the Washington Office, instead of the board. The notice must be in writing and must give the name and address of the establishment and the point value of its inventory. At the end of his first full month of operation, he must register the establishment and follow the procedure described in the last paragraph.

SEC. 12.2 *New wholesale establishments may be opened*—(a) *How stocks are obtained.* A person who wishes to open a wholesale establishment after February 1943, may apply for a certificate to get stocks of processed foods. The application must be made to the Washington Office on OPA Form R-315. The application must show:

(1) The proposed name and address of the establishment;

(2) The amount he has invested or expects to invest in it;

(3) The size of the establishment;

(4) The number of points he needs in order to get adequate stocks;

(5) The point value of any stocks of processed foods he may have for that establishment.

(b) *Issuance of a certificate.* The Washington Office will issue to him a certificate for the number of points he needs to get an adequate working inventory.

(c) *Reports.* Beginning for his first full reporting period of operation, he must file reports for that establishment, on OPA Form R-1310, and follow the same procedure as a "wholesaler" who registered between April 1 and April 10, 1943.

(d) *Procedure where no additional stocks are needed.* Where the person who wishes to open the wholesale establishment has enough stocks, he need not apply on OPA Form R-315. He may begin operations with the stocks he has. However, before making any sales or transfers of processed foods from that establishment after April 10, 1943, he must notify the Washington Office. The notice must be in writing and must give the name and address of the establishment and the point value of its inventory.

SEC. 12.3 *New processor establishments may be opened.* (a) A person who opens a processor establishment which was not in operation during February 1943 must notify the Washington Office before making sales or transfers of processed foods from that establishment. The notice must be in writing and must show:

(1) The name and address of the establishment;

(2) The type of processed foods he produces or imports there;

(3) The inventory of that establishment on the date of the notice.

He must file reports for that establishment, on OPA Form R-1305, beginning for the reporting period in which he started operations there.

[Paragraph (3) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

SEC. 12.4 *In special cases, allotments may be granted for new industrial user establishments.* (a) A person who has or wishes to open an "industrial user establishment" which he did not operate at any time between January 1, 1942 and February 28, 1943, may apply for an allotment. No such application may be granted in any case, unless it is found that:

(1) The operation of the establishment will make a direct contribution to the war effort or is essential to meet civilian needs in the area it will serve; and

(2) The product it will produce cannot be obtained from any other source in the area to be supplied.

(b) The application must be made on OPA Form R-315, to the board for the place where the establishment is or will be located. The application must show:

(1) The product the applicant will make;

(2) The size of the establishment;

(3) The amount he has invested or intends to invest in it;

(4) The market to be supplied;

(5) The kinds and point value of any processed foods he may have for that establishment;

(6) The amount of the allotment requested.

(c) The board may call for any additional information it finds necessary. It may not pass on the application, but must forward it, together with all information received, to the district office (or, where there is none, to the State office). It may attach its recommendation, if any, as to the action to be taken. The district (or State) office must forward the entire file to the Washington Office, for decision, or take such other action as the Washington Office may authorize or direct.

(d) An industrial user who already has an allotment, may not open another industrial user establishment and use his allotment there, unless he applies under this section and is given permission to do so.

Article XIII—Closing of Business

SEC. 13.1 *What a person who closes his establishment must do*—(a) *General.* (1) Any "retailer", "wholesaler", "processor", "country shipper", or "industrial user" who goes out of the business of dealing in or using "processed foods" at his establishment must notify the "board" at which it is registered, or the "Washington Office", if it is regis-

tered there. (A person is considered as going out of the business of dealing in or using processed foods if the foods he deals in or uses at his establishments are removed from the list of processed foods.) The notice must be given in writing within five (5) days after he goes out of the business. It must show:

(i) The name and address of the establishment;

(ii) The point value of its inventory at the time that he ceases doing business in processed foods at that establishment; and

(iii) The number of points in the establishment's ration bank account, if any, and the number of points on hand, including points in the hands of his suppliers for processed foods not yet shipped. If he has a ration bank account he must also notify the district office in the way required by General Ration Order 3A (the Ration Banking Order).

[Paragraph (1) as amended by Amendment 47, 8 F.R. 9629, effective 7-19-43]

(2) He must account to the Office of Price Administration for all points he has for the establishment at which he ceased doing business. If all his stocks of processed foods have not been disposed of at the time of the notice, he must account for the rest of the points as soon as the stocks have been liquidated. An industrial user who has given the notice called for above, may sell or "transfer" his unused stocks of processed foods in the same way that a retailer is permitted to make sales or transfers.

(b) *Closing of entire chain.* The rules set forth in paragraph (a) of this section, also apply to a "person" who has more than one establishment of a particular kind and who goes out of business at all of them. He must give the information required, and must give up the points, for all the establishments.

(c) *Closing of part of a chain.* (1) A person who has several retail, wholesale or processor establishments may go out of business at one or more, but may continue to operate the others. In that case, he need not give up points to the Office of Price Administration at that time but may use them for the operation of the establishments which he continues.

(i) If the establishment closed was a "retail establishment", he must notify the board at which it is registered within five (5) days after he closes it. If it is registered at the Washington Office, he must notify that office instead. The notice must be in writing and must give the name and address of the establishment closed.

(ii) If the establishment closed was a "wholesale" or "processor establishment", he must indicate that fact in his next periodic report.

[Paragraph (ii) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

(2) A person who has several "industrial user establishments" may go out of business at one or more, but may continue to operate the others. In that case he must notify the board with which he is registered. The notification must be in writing and must state whether and to what extent he will continue to serve, from his other establishments, the same area and the same general class of customers. The board must send the notification and his registration to the district office, or where there is none, to the State office. The district (or State) office shall determine the extent to which he remains entitled to use his entire allotment. He may keep his entire allotment only if his remaining establishments will continue to serve the same general class of customers and the same area as the establishment closed. His allotment and his base period use must be reduced to the extent that he will cease to serve the same class of customers and the same area. If his allotment is reduced, he must give up to the Office of Price Administration points equal to the reduction. If he does not have points to give up, the amount of the reduction shall be treated as excess inventory.

Article XIV—Miscellaneous Adjustments

SEC. 14.1 *Retailer may apply for inventory adjustments after March 1943*—(a) *How to apply.* A "retailer" who finds that his allowable inventory is inadequate may apply for an adjustment. The application must be made, on OPA Form R-315, to the "board" with which he registered, or to the "Washington Office", if he registered there. The application must give the following information:

(1) The amount of his allowable inventory;

(2) The reasons why he claims that it is inadequate;

(3) The point value of his sales and "transfers" of "processed foods" during the thirty days before his application, not including exchanges, and transfers from one of his "retail establishments" to another;

(4) The amount of the adjustment which he needs.

He must also give any other information that the board (or the Washington Office) may request.

(b) *Application based on increase of business.* If he asks for a larger inventory because of an increase in business which is not due to regular seasonal variations, his application is to be acted upon in the following way:

(1) The point value of his sales or transfers upon which his allowable inventory was based is determined;

(2) The point value of his sales and transfers of processed foods, during the thirty days before the application is determined;

(3) If the second figure is more than ten percent larger than the first figure, he is to get a "certificate" for the difference between them multiplied by the factor fixed in the supplement to this order for determining retailer allowable inventories;

(4) If the second figure is not more than ten percent larger than the first, his application is to be denied.

(c) *Other applications.* If he asks for a larger inventory for any other reason, a board may not act on the application but must send it, and any other information received, to the district office, or, where there is none, to the State office. The board may attach its recommendation, when it transmits the application. The district (or State) office shall send the file to the Washington Office, for decision, or take such other action as the Washington Office may authorize or direct.

SEC. 14.2 *Wholesaler may apply for inventory adjustments after March 1943*—(a) *How to apply.* A "wholesaler" who finds that his maximum allowable inventory is inadequate may apply for an adjustment. The application must be made to the Washington Office, on OPA Form R-315, and must give the following information:

(1) The amount of his maximum allowable inventory for the reporting period in which he applies;

[Paragraph (1) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

(2) The reasons why he claims that it is inadequate;

(3) The amount of the adjustment which he needs.

He must also give any other information that the Washington Office may request.

(b) *Action on application.* The Washington Office will act on the application according to the circumstances of the case.

SEC. 14.3 *Wholesalers and retailers may apply for point loans*—(a) *General.* A retailer or a wholesaler may have large seasonal variations in the amount of business that he does. He may therefore need an unusually large inventory at certain times. In other cases due to difficulties of transportation, a retailer or a wholesaler may have a large number of points tied up in the hands of his supplier, for processed foods which he has not yet received. In these situations the retailer or wholesaler may wish to borrow points in order to get enough processed foods to tide himself over. He does not need a permanent adjustment, but simply a loan of points which he can pay back later.

(b) *Application for a point loan.* A retailer or wholesaler may apply for a point loan when he needs more points to get processed foods for a limited period of time, because of uncertainties or delays in transportation or because of seasonal variations in his business. He must apply on OPA Form R-315, to the board with which he is registered (or to the Washington Office, if he is registered there). The application must show:

(1) His allowable inventory;

(2) The reasons he needs a point loan;

(3) The number of points he needs to borrow;

(4) The length of time for which he needs the loan.

He must give any other information that the board (or the Washington Office) requests.

(c) *Action on application.* If he needs a point loan for any of the reasons set forth in the last paragraph, he may be given a certificate for the number of points needed. The loan can be for any period up to two months. He must give back that number of points to the Office of Price Administration, for cancellation, not later than the date set at the time the certificate is issued.

(d) *When Board may not act upon application.* A board may not grant a point loan of more than fifty percent of the applicant's allowable inventory. If more than that is needed, it must send the application, together with all information it received, to the district office or, where there is none, to the State office. It may attach its recommendation as to the action to be taken. The district (or State) office shall send the file to the Washington Office, for decision, or take such other action as the Washington Office may authorize or direct.

SEC. 14.4 *Adjustments for lost, destroyed, stolen or spoiled processed foods*—(a) *Lost, destroyed or stolen processed foods*—(1) *How to apply.* Any "person" whose processed foods were lost, destroyed or stolen, or taken away by legal process or order of a court, may apply for a certificate for the number of points needed to replace them. The application must be made on OPA Form R-315. A "consumer" who wants a certificate must apply to the board for the place where he lives. Any other person must apply to the board with which he is registered (or to the Washington Office, if he is registered there). The application must give:

(i) A description of the processed foods he wishes to replace, showing their point value;

(ii) A description of the way in which they were lost, destroyed, stolen, or taken away.

He must also give any other information that the board (or the Washington Office) may request.

(2) *Action on application.* If the board (or the Washington Office) finds the statements made in the application to be true, it will issue to him a certificate for the number of points needed to replace the foods.

(3) *Recovery of lost or stolen foods.* If the applicant gets back any of the processed foods covered by his application, he must give back to the Office of Price Administration, for cancellation, points equal to the point value of the foods he recovered.

(b) *Spoiled processed foods.* No adjustment, other than that provided in section 10.12 is granted for processed foods which spoiled. Spoiled processed foods not covered in section 10.12 may be replaced only by exchanging them for other processed foods of equal point value. However, a "processor" must account, in his periodic report to the Washington office, for processed foods which spoiled in his hands, or which he took back in an exchange.

[Paragraph (b) amended by Amendment 2, 8 F.R. 2681, effective 3-1-43 and Amendment 35, 8 F.R. 7353, effective 5-31-43]

(c) [Revoked]

[Paragraph (c) revoked by Amendment 2, 8 F.R. 2681, effective 3-1-43]

SEC. 14.5 *Applications may be made for other adjustments*—(a) *How to apply.* Any retailer, wholesaler, processor, country shipper, or industrial user who needs an adjustment in his inventory or allotments, or other relief, may apply, on OPA Form R-315, to the board with which he is registered, or to the Washington Office, if he is registered there. He must state in his application all facts which he claims show his need for the adjustment, and the nature and amount of the adjustment he requests. He must also give any other information that the board (or the Washington Office) requests.

[Paragraph (a) as amended by Amendment 47, 8 F.R. 9629, effective 7-19-43]

(b) *Action on application.* A board may not act upon an application under this section. It must send the application, together with all other information received, to the district office, or, where there is none, to the State office. It may attach its recommendation as to the action to be taken. The district (or State) office shall send the file to the Washington Office, for decision, or take such other action as the Washington Office may authorize or direct.

SEC. 14.6 *Wholesaler or retailer may apply for points to replace dry beans, peas, or lentils transferred point-free for seed.* (a) Any wholesaler or retailer who sells or transfers, point-free for use as seed, dry beans, peas, or lentils which were in his inventory on March 1, 1943, or which he acquired for points, may apply on OPA Form R-315 to the Board with which he is registered (or to the Washington Office, if he is registered there) for a certificate for the number of points which he would have received if his transferees had given up points for the dry beans, peas, or lentils so transferred.

(b) The application must contain a statement:

(1) Of the amounts of such dry beans, peas, or lentils sold or transferred point-free for seed purposes;

(2) That the applicant did not receive points for the sales or transfers;

(3) Of the number of points which he would have received if his transferees had given up points for the dry beans, peas, or lentils sold or transferred point-free for use as seed; and

(4) Of the dates between which the sales or transfers were made. The total number of points for which application is made must not exceed the total point value of the amounts of dry beans, peas, and lentils which were in the applicant's inventory on March 1, 1943, or which he acquired for points and which he sold or transferred point-free for use as seed and of which records are kept as required by section 10.15 (a).

(c) If the Board (or the Washington Office) finds the statements made in the application to be true, it will issue to him a certificate for the number of points needed to replace the dry beans, peas, or lentils sold or transferred point-free for use as seed.

[Sec. 14.6 added by Amendment 9, 8 F.R. 4342, effective 4-2-43]

SEC. 14.7 *Person acquiring seed beans, peas, or lentils may transfer them as food only for points.* (a) Any person who, for sale or transfer, acquired dry beans, peas, or lentils marked or labeled in accordance with any applicable federal or state seed laws (or, if none is applicable, in accordance with the standards stated in the federal seed law), may transfer them for use as food only if the transferee gives up points equal to the point value of the processed foods so sold or transferred.

(b) Points received for dry seed beans, peas, or lentils, acquired point-free for use or transfer as seed but sold or transferred for use as food, may not be used by the transferor for any purpose. They must, within 5 days of the sale or transfer, be given up to the board for the place where the principal business office of the transferor is located. At the time the points are given up, the transferor must report in writing to the board:

(1) The amounts of dry seed beans, peas, or lentils sold or transferred as food;

(2) The reason that the dry seed beans, peas, or lentils were sold or transferred as food; and

(3) The names and addresses of the persons to whom they were transferred.

[Sec. 14.7 added by Amendment 9, 8 F.R. 4342, effective 4-2-43]

Article XV—Issuance and Use of Certificates

SEC. 15.1 *How certificates are issued*—(a) *By whom issued.* "Certificates" (OPA Form R-1201) may be issued by the "Washington Office", by a "board", by any authorized officer or representative of the Office of Price Administration, or by any "person" authorized by the Office of Price Administration to issue them. Certificates may be issued only in the cases and for the purposes permitted by this or any other order of the Office of Price Administration.

(b) *How certificates are issued.* The person who issues a certificate must insert, in ink, the words "Processed Foods" in the appropriate space and must sign it and fill in:

(1) The number of points for which it is issued;

(2) The name of the person for whom it is issued; and

(3) The expiration date of the certificate, which is 60 days after the date on which it is issued.

A certificate which is not filled out in this way is not good for the acquisition of processed foods and may not be used or accepted for that purpose.

SEC. 15.2 *Certificates are good for a limited time.* (a) A certificate may not be used by the person for whom it was issued after the date shown on its face. However, a "retailer" who "transferred" processed foods for a certificate may use it to acquire processed foods within ten days after the date shown on its face, if he does not have and is not required to have a ration bank account. Any person who has a ration bank account may deposit a certificate (whether it was issued to him, or received by him for a transfer of processed foods) within twenty days after the date shown on its face. A certificate is thus not valid for any purpose more than twenty days after the date shown on its face.

SEC. 15.3 *A certificate must be endorsed.* (a) Before it can be used, a certificate must be signed on the back by the person for whom it was issued, or by a person authorized to sign for him, if he cannot write.

(b) Any retailer, "wholesaler" or "processor" who has transferred processed foods for a certificate must sign his name on the back of the certificate before he can deposit or use it.

SEC. 15.4 [Revoked]

[Sec. 15.4 revoked by Amendment 22, 8 F.R. 5847, effective 5-10-43]

SEC. 15.5 *Names of persons who have been given certificates may be posted.* (a) A board may post at its office the name of any person to whom it has issued a certificate under this order. However, it shall not do so if it would reveal information of a military character, or information which any public law enforcement or investigating agency wishes to keep confidential.

SEC. 15.6 *Certificates are the property of the Office of Price Administration and may be revoked.* (a) All certificates are the property of the Office of Price Administration, whether or not they have been issued.

(b) The Office of Price Administration may suspend, cancel, or revoke any certificate issued if it finds it in the public interest to do so.

SEC. 15.7 *Sugar purchase certificates may be corrected and used as processed foods purchase certificates.* (a) Where no food ration certificates (OPA Form R-1201) are available, sugar purchase certificates (OPA Form R-306) may be used instead, if the word "sugar" in the title is changed to "processed foods", and the rest of the sentence following the applicant's name and address and ending with "Administration" is changed to read "is issued [amount in words] ([amount in numerals]) points of processed foods". In the upper right corner, "not valid before" shall be changed to "not valid after", and the date inserted there shall be 60 days from date of issue. The date in the lower right corner shall be left blank.

[Sec. 15.7 added by Amendment 14, 8 F.R. 4921, effective 4-20-43]

Article XVI—Records, Reports and Inspections

SEC. 16.1 *Records must be kept for two years.* (a) Every "person" must hold, for at least two years, all records which this order requires him to keep.

SEC. 16.2 *Records may be inspected by Office of Price Administration.* (a) All records kept under this order may be inspected by the Office of Price Administration, through any authorized representative. The inspection may be made at a person's place of business during regular business hours. In the case of records kept on forms prepared by the Office of Price Administration, the inspection of those records may be made at any time or place fixed by the Office of Price Administration. Every person required to keep records under this order must keep them available for such inspection.

SEC. 16.3 *Places where processed foods are kept may be inspected.* (a) The Office of Price Administration, through any authorized representative, may at any reasonable time inspect any place where "processed foods" are produced, imported or kept. Any person who produces, imports, or has processed foods, must permit such inspection of the place where he produces, imports or keeps them.

SEC. 16.4 *Records and reports are confidential.* (a) Information and documents obtained from any person under this order will not be disclosed, whether in response to a subpoena or in any other way, except to that person, unless the Administrator (or a representative of the Office of Price Administration designated by him) finds that the requested disclosure is not contrary to law and consents to it.

SEC. 16.5 *Office of Price Administration may extend time for registration and reports.* (a) The "Washington Office" may, for good cause, give any person additional time to file any registration or report which this order requires him to file. Any person who needs more time for filing a registration or report may apply, in writing, to the Washington Office. He must explain, in his application, why he needs more time. The Washington Office may impose any conditions it finds proper, when it grants such an extension of time.

SEC. 16.6 *Office of Price Administration may require applicants to give information.* (a) The Washington Office, a "board", or a district manager, State director or regional administrator may require any person who files an application or an appeal under this order to appear in person, to bring witnesses and to supply any information needed for passing on his case.

SEC. 16.7 *Persons who produce certain items similar to processed foods must file reports.* (a) Every person, who, for sale or transfer (1) produces jams, jellies, preserves, fruit butters, fountain fruits, pickles or relishes, or (2) cans or bottles fruit or vegetable juices in hermetically sealed containers over one gallon and sterilizes them by the use of heat, or (3) cans condensed or evaporated milk, or meat, or fish or shellfish in hermetically sealed containers sterilized by the use of heat, or (4) packages dried or dehydrated fruits (unless he packages them only for sale or transfer directly to consumers), or (5) packages dried or dehydrated vegetables or meat stocks whether or not in combination with noodles or other similar paste products, for use as a dried soup or soup base, must file periodic reports on OPA Form R-1305. He must give all information as to those items called for by the form.

[Paragraph (a) amended by Amendment 16, 8 F.R. 5342, effective 4-27-43, Amendment 28, 8 F.R. 5181, effective 5-17-43, Amendment 35, 8 F.R. 7353, effective 5-31-43, Amendment 36, 8 F.R. 7490, effective 6-6-43 and Amendment 46, 8 F.R. 9459, effective 7-14-43]

(b) The first report is for February 1943 and must be filed, by mail, with the Office of Price Administration, care of the Bureau of the Census, Washington, D. C., not later than March 10, 1943. Reports for subsequent reporting periods must be filed not later than eight days after the end of the period.

[Paragraph (b) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

Article XVII—Additional Records To Be Kept by Chains

SEC. 17.1 *Chains must keep records of transfers of stocks and points between establishments.* (a) Every "person" who has more than one "retail", "wholesale" or "processor establishment" must keep at each establishment (or at the place exercising immediate supervision over that establishment) a record in any convenient form, which shows:

(1) The amount of "processed foods" "transferred" from and "acquired" by that establishment, the date of each transfer or acquisition, and the name and address of the establishment to which the processed foods were transferred, or from which they were acquired. The record must show the amount of processed foods which were transferred and acquired, either by items and sizes, or by point value. (However, no such records need be kept for transfers of processed foods to "consumers"); and

(2) The number of points received for transfers of processed foods from that establishment, the disposition of those points, and the dates of their disposition. If the records are kept at the place exercising immediate supervision over one or more establishments, a list must also be kept at that place, showing the address of each establishment whose records are kept there.

[Paragraph (a) as amended by Amendment 33, 8 F.R. 7268, effective 6-4-43]

(b) In addition, he must keep for each ration bank account used by him for more than one establishment, a record showing the number of points deposited in that account by and for each such establishment, and the dates of the deposits.

Article XVIII—Appeals

SEC. 18.1 *Persons directly affected by action taken under this order can appeal.* (a) Any "person" directly affected by the action of a "board", district manager, state director or regional administrator, on any application or other matter, may appeal from that action in the way permitted by Procedural Regulation No. 9 of the Office of Price Administration.

(b) This section shall not apply to action taken on any application made under sections 12.4 or 14.5, except action taken by a board, district, State, or regional office which has been authorized by the Office of Price Administration to grant or deny such application.

[Paragraph (b) as amended by Amendment 14, 8 F.R. 4921, effective 4-20-43]

Article XIX—Miscellaneous Rules and Prohibitions

SEC. 19.1 *Additional prohibitions.* (a) No "person" shall use points unless he has received them in a way permitted by this or any other order of the Office of Price Administration.

(b) No person shall "transfer", "acquire", use or possess "processed foods" except in a way permitted by this or any other order of the Office of Price Administration.

(c) No person shall give or transfer points, a "stamp" or a "certificate" to any other person, except in a way permitted by this or any other order of the Office of Price Administration.

(d) No person may transfer processed foods for a stamp, certificate or ration check if he knows or has reason to believe that it is not valid or that the person tendering it is not entitled to use it.

(e) No person shall have a stamp, certificate or ration check in his possession except the person (or agent of the person) to whom it was issued or by whom it was acquired in a way permitted by this or any other order of the Office of Price Administration.

(f) No person shall deface, mutilate, or destroy any stamp, certificate or ration check, except where permitted by this or any other order of the Office of Price Administration. A defaced or mutilated stamp, certificate or ration check is not valid for any purpose.

(g) No person shall counterfeit, forge, or alter a stamp, certificate or ration check, and no person shall transfer, acquire, possess or use a counterfeited, forged or altered stamp, certificate or ration check.

(h) No person shall offer, solicit, attempt or agree to do, or assist in doing, any act in violation of this order.

(i) Paragraphs (b), (c), (e), (f) and (g) of this section do not apply to public officials who do any of those acts in the performance of their public duties.

(j) No person shall, in any registration, report, application, or other statement or record made pursuant to or required by this order, make any untrue statement of fact, or omit to state any fact which is required to be stated or which is necessary to make a statement not misleading.

(k) No person shall, after demand, withhold a stamp, certificate or ration check from the person who is entitled to have it.

(l) No person shall sell or transfer any item of processed foods at a price in excess of the applicable maximum price established for that item by the Office of Price Administration.

(m) Beans, lentils, or peas acquired point-free for use as seed shall not be used by any person as food.

[Paragraph (m) added by Amendment 4, 8 F.R. 2943, effective 3-8-43]

SEC. 19.2 *Stamps and certificates may not be taken by legal process or acquired by will.* (a) No stamp, certificate or ration check, or any interest in it, may be taken or seized by judicial process or by any court order. However, a person to whom a War Ration Book Two or a certificate has been issued may bring a legal proceeding to recover it from any person who is wrongfully in possession of it. He may, as part of that proceeding, take or seize it by judicial process or court order.

(b) No stamp or certificate, or any interest in it, may be transferred or acquired by inheritance or by will.

SEC. 19.3 *Office of Price Administration must be notified of legal proceedings.* (a) Any person who has a stamp, certificate or ration check must notify the district office of the Office of Price Administration immediately after the beginning of any legal proceeding involving that stamp, certificate or check.

SEC. 19.4 *General Ration Order 5 governs whenever inconsistent with this order.* (a) If any provision of this order is inconsistent with the provisions of General Ration Order 5, the provisions of General Ration Order 5 shall govern, and shall supersede the provisions of this order to the extent that they are inconsistent.

[Sec. 19.4 added by Amendment 2, 8 F.R. 2681, effective 3-1-43]

Article XX—Suspension Orders

SEC. 20.1 *Office of Price Administration may issue suspension orders.* (a) Any "person" who violates this order may, by administrative suspension order, be prohibited from receiving any "transfer" or delivery of, or from selling or using or otherwise disposing of, any "processed food" or other rationed product or facility. Such suspension order shall be issued for such period as in the judgment of the Administrator, or such person as he may designate for such purpose, is necessary or appropriate in the public interest and to promote the national security.

Article XXI—Definitions

SEC. 21.1 *Definitions.* (a) When used in this order:

(1) "Acquire" means to accept a "transfer" or to get possession or title in any other way.

(2) "Board" means a war price and rationing board established by the Office of Price Administration.

(3) "Certificate" means a certificate on OPA Form R-1201, or on OPA Form R-306 revised in accordance with section 15.7.

[Paragraph (3) as amended by Amendment 14, 8 F.R. 4921, effective 4-20-43]

(4) "Consumer" means any "person" who "acquires" "processed foods" for personal use, or for use at a table at which he eats.

(5) "Industrial user" means any "person" who has an "industrial user establishment".

(6) "Industrial user establishment" means any place where a "person" uses "processed foods" in producing or manufacturing, for sale or "transfer", any product which is not a processed food. It also includes any place (except places where processed foods are used for sampling or demonstration in accordance with section 10.9) at which processed foods are used for experimental, educational, testing or demonstration purposes.

[Paragraph (6) as amended by Amendment 10, 8 F.R. 4525, effective 4-12-43]

(7) "Institutional user" means any "person" who has an "institutional user establishment".

(8) "Institutional user establishment" means an institutional user establishment as defined in General Ration Order 5. (With certain exceptions, it means any place where a "person" uses a rationed food in the preparation of food which he serves to "consumers", or in the service of food to consumers.)

(9) "Person" means not only an individual, but also a partnership, corporation, association, or business trust. It includes a government, government agency and any other organized group or enterprise.

(10) "Processed foods" means:

(i) The following fruits, fruit juices, vegetables, vegetable juices, soups, and baby foods in hermetically sealed containers of any type and sterilized by the use of heat:

FRUITS (INCLUDING PICKLED, SPICED, OR BRANDIED)

Apples (including crabapples).
Applesauce.

Berries.
Cherries.
Cranberries or sauce (whole, strained, or jellied).
Figs.
Fruit cocktail, fruits for salad, or mixed fruits.
Grapefruit.
Peaches.
Pears.
Pineapple.
Plums.
Prunes.

FRUIT JUICES

Citrus juices.
Apricot, peach, or pear juice or nectar.
Grape juice.
Pineapple juice.
Prune juice.

VEGETABLES

Asparagus.
Beans, all types and varieties (including soaked dry beans, pork and beans, lentils, etc.).
Beets (including pickled).
Carrots.
Chili sauce.
Corn.
Greens, leafy (including only beet, collard, dandelion, kale, mustard, poke, or turnip).
Mixed vegetables (containing over 20% by volume of vegetables listed under this subdivision).
Mushrooms.
Peas.
Pumpkin.
Sauerkraut.
Spinach.
Squash.
Tomatoes.
Tomato catsup.
Tomato paste.
Tomato pulp or puree.
Tomato sauces (containing over 5% dry tomato solids).

VEGETABLE JUICES

All other fruits and berries not specifically listed.
All fruit juices.

VEGETABLES

Beans, baked.
Beans, green (all styles).
Beans, lima (all varieties).
Corn, cut.
Corn on the cob.
Greens, leafy.
Peas.
Spinach.
All other vegetables and vegetable combinations.

(iii) Dry beans, peas, and lentils.

NOTE: Foods in the above group which are not covered by this order are listed in Appendix A. The foods listed in Appendix A are not "processed foods" as that term is used.

[Paragraph (10) amended by Amendment 1, 8 F.R. 2238, effective 2–21–43, Amendment 3, 8 F.R. 2684, effective 3–1–43, Amendment 24, 8 F.R. 5757, effective 5–1–43, Amendment 32, 8 F.R. 7267, effective 6–6–43 and Amendment 43, 8 F.R. 9216, effective 7–4–43]

(11) "Processor" means any "person" who has a "processor establishment".

(12) "Processor establishment" means any place where a "person" produces "processed foods" for sale or "transfer". This does not apply, with respect to dry beans, peas, or lentils, to "growers" or to "country shippers". A person is considered to "produce" if he:

(i) Bottles, cans or packs fruits, fruit juices, vegetables, vegetable juices, soups or baby foods, in hermetically sealed containers and sterilizes them by the use of heat; or

(ii) Packs and freezes fruits or vegetables; or

(iii) [Revoked]

[Paragraph (iii) revoked by Amendment 16, 8 F.R. 5342, effective 4–27–43]

(iv) Packs fruit or vegetable juices from containers over one (1) gallon into hermetically sealed containers of one (1) gallon or less and sterilizes them by the use of heat; or

(v) [Revoked]

[Paragraph (v) revoked by Amendment 36, 8 F.R. 7490, effective 6–6–43]

(vi) Precooks dry beans, peas, or lentils; or

(vii) [Revoked]

[Paragraph (vii) revoked by Amendment 28, 8 F.R. 5181, effective 5–17–43]

(viii) Uses processed foods to produce other processed foods.

The term "processor establishment" also means any place to which a person imports processed foods into the United States, from any place outside the United States, for sale or transfer. It also includes a place at which a person does not produce or import processed foods, if he regularly keeps there, for sale or transfer, only processed foods which he himself produced or imported. Finally, there is one case in which a place where a person keeps stocks of processed foods produced or imported by someone else is a processor establishment. If he keeps those stocks at that place just to use them to produce other processed foods, that place is a processor establishment.

[Paragraph (12) amended by Amendment 9, 8 F.R. 4342, effective 4–2–43]

(13) "Retail establishment" means any place, (other than a "processor establishment") where a "person" who deals in "processed foods" keeps stocks of those foods for sale or transfer, if more than fifty per cent of those stocks are sold or transferred from there directly to "consumers". Even if the amount sold or transferred from there directly to consumers is fifty per cent or less, it is still a retail establishment in the following case:

(i) If some of those stocks are transferred directly to consumers; and

(ii) If he keeps the rest of the stocks just to supply his own establishments; and

(iii) If no "wholesale establishment" and not more than three retail establishments are supplied from there.

(14) "Retailer" means any "person" who has a "retail establishment."

(15) "Stamp" means a blue stamp in, or taken from War Ration Book Two.

(16) "Transfer" means to sell, give, exchange, lend, deliver, or consign. It includes any transfer of possession or title, however accomplished, and any movement of goods from one establishment to another. The use by any "person" of "processed foods" which he holds for sale or transfer is considered a transfer of those foods to himself. However, delivery to a carrier for shipment is not regarded as a transfer to the carrier; and delivery by the carrier to the consignee is not regarded as a transfer by the carrier.

(17) "Washington Office" means the national headquarters of the Office of Price Administration, in Washington, D. C.

(18) "Wholesale establishment" means any place (other than a "processor establishment" or a place at which dry beans, peas, or lentils are kept by a "grower" or "country shipper") where a "person" who deals in "processed foods" keeps stocks of those foods for sale or transfer, if fifty percent or more of those stock are transferred from there directly to persons other than "consumers". However, if he keeps the stocks which are not transferred to consumers, just to supply his own establishments, it is a wholesale establishment only if it supplies;

(i) At least one of his wholesale establishments; or

(ii) At least four of his "retail establishments".

[Paragraph (18) as amended by Amendment 9, 8 F.R. 4342, effective 4–2–43]

(19) "Wholesaler" means any "person" who has a "wholesale establishment".

(20) "Country shipper" means:

(i) The first "person" who "acquires" dry beans, peas, or lentils from a "grower" for purposes of sale or "transfer" if such person is regularly engaged in the distribution of dry beans, peas, or lentils and if more than fifty percent of the dry beans, peas, and lentils sold or transferred by him are sold or transferred to persons other than "consumers", "retailers", or "industrial" or "institutional users";

(ii) A person who imports dry beans, peas, or lentils for purposes of sale or transfer.

(21) "Grower" means any "person" who, for sale or "transfer", grows or produces dry beans, peas, or lentils for his own account or for the account of himself and others. Such person is a grower with respect to the dry beans, peas, and lentils grown or produced by him. However, if he is a "country shipper", he is a country shipper even with respect to the dry beans, peas, and lentils grown or produced by him.

[Paragraphs (20) and (21) added by Amendment 9, 8 F.R. 4342, effective 4–2–43]

Article XXII—Exports

SEC. 22.1 *Processed foods may be exported point-free.* (a) Any "person" who exports "processed foods" to any foreign country or to any territory or possession of the United States (other than the District of Columbia) need not receive points for the export.

SEC. 22.2 *Points may be obtained to acquire processed foods for export.* (a) A person who needs points with which to "acquire" processed foods for export to any foreign country or to any territory or possession of the United States (other than the District of Columbia), may apply, on OPA Form R–315, to the district office (or, where there is none, to the State office) for the place where his principal business office is located. The application must show:

(1) His name and business address;

(2) The port (or other shipping point) from which they will be shipped, and the method of shipment;

(3) The name and address of the person to whom the foods are to be exported; and

(4) The number of points needed.

He must also give any other information which the district (or State) office may request. However, military or naval information which is secret in nature need not be disclosed.

(b) If the district (or State) office finds that the processed foods will be acquired for export, it shall issue a "certificate" for the number of points needed.

(c) No person may use processed foods acquired for a certificate issued under this section, for any purpose other than export to a foreign country or to a territory or possession of the United States (other than the District of Columbia). However, if he is unable to export them, he may dispose of them by sale or transfer in the way a "retailer" is permitted to do so under this order. Immediately after such a sale or transfer, he must give up to the district (or State) office all points received for them.

SEC. 22.3 *Exporter must account for all processed foods exported.* (a) Any person who exports processed foods (other than a "consumer" who acquired them with his "stamps") must submit a copy of a Shippers' Export Declaration (Commerce Form 7525) to the Office of Price Administration within seven days after the export. The declaration must contain a list of the processed foods exported and must contain a signed statement by an authorized customs official that, to the best of his knowledge and belief, those processed foods were exported by such person. A "processor", or a "wholesaler" who did not receive an advance of points under section 22.2 must mail the declaration to the "Washington Office" along with his report for the reporting period in which he exported the processed foods. Any other person must send the declaration to the district (or State) office.

[Paragraph (a) as amended by Amendment 35, 8 F.R. 7353, effective 5–31–43]

(b) If the foods were consigned to an agency of the United States and no Shippers' Export declaration was filed at the time of the shipment the exporter may submit, instead of the Declaration, a bill of lading, manifest, or other satisfactory evidence that the foods were actually exported.

(c) A person who received an advance of points under section 22.2 must account to the district (or State) office within thirty days for all the points he received. At that time he must return any points which he did not use to acquire processed foods for export. If, within that time, he exported all the processed foods which he acquired with the points received, he need only submit the declaration or other evidence of export.

(d) A retailer or wholesaler who exported processed foods and who did not receive an advance of points under section 22.2 may, when he submits the declaration or other evidence of export, apply on OPA Form R–315 for points equal to the point value of the processed foods he exported. If the district (or State) or the Washington office finds that the stated amount of processed foods was exported by the applicant and that he has not already received points with which to acquire or replace them, it shall issue a certificate to him for the number of points of processed foods which he exported.

(e) An agency of the United States which has exported processed foods need not submit a declaration or other evidence of export, and need not account for an advance of points under section 22.2.

[Article XXII added by Amendment 2, 8 F.R. 2681, effective 3–1–43]

Article XXIII—Exempt Agencies; Ships' Stores; Governmental Investigatory Agencies

SEC. 23.1 *Exempt agencies may acquire processed foods.* (a) Nothing in this order restricts the amounts of "processed foods" which may be "acquired" by the Army, Navy, Marine Corps or Coast Guard of the United States or by the War Shipping Administration, Office of Lend-Lease Administration or Food Distribution Administration. (These agencies are referred to in this order as "exempt agencies" and are exempt agencies for the purpose of General Ration Order 3B.) In addition, the Army Exchange Service, to the extent it acquires processed foods for export to a foreign country or a territory or possession of the United States (except the District of Columbia), and ships' service departments afloat, are exempt agencies under this order and General Ration Order 3B, and may acquire processed foods without restriction as to quantity.

SEC. 23.2 *How exempt agencies acquire processed foods.* (a) Each of the agencies listed in section 23.1 is authorized to open one or more exempt ration bank accounts of the type described in General Ration Order 3B. Processed foods may be "transferred" to and acquired by these agencies only in exchange for points in the form of ration checks equal to the point value of the processed foods transferred. However, processed foods may be transferred between or within these agencies without the surrender of points.

(b) Any "person" who transfers processed foods to any of these agencies must, at or before the time of delivery, submit to it an invoice or other statement for the points payable on account of the transfer. The ration check must be sent to the transferor by the time of delivery or as soon as practicable thereafter.

[Paragraph (b) as amended by Amendment 47, 8 F.R. 9629, effective 7–19–43]

(c) If for any reason a ration check cannot be used when one of these agencies acquires processed foods, an emergency acknowledgment shall be given to the transferor, instead of a check. This acknowledgment may be in any form, but must show the name of the agency, the name and address of the activity within the agency for which the processed foods are acquired, the name and address of the activity to which the emergency acknowledgment must be sent for replacement by a ration check, the point value of the processed foods acquired, and the date of acquisition. The acknowledgment must be signed by an authorized officer or employee of the agency, and must show his official title or rank. A person to whom such an acknowledgment is given may not exchange it at a "board" or use it to acquire processed foods but must send it to the agency activity designated thereon, and a ration check for the amount of processed foods transferred shall be given to him in exchange for the acknowledgment.

SEC. 23.3 *Post exchanges and ships' service departments ashore may acquire processed foods for points.* (a) Processed foods may be transferred to and acquired by Army exchanges, post exchanges of the Marine Corps, ships' service departments ashore of the Navy and Coast Guard, commissary stores and ships' service departments of the Training Organization of the War Shipping Administration, and other similar activities designated by the respective exempt agencies, only in exchange for points in the form of ration checks equal to the point value of the processed foods transferred, without regard to who transfers them. However, these activities may not

open ration bank accounts with unlimited drawing privileges of the type described in General Ration Order 3B. Points needed by these activities for the acquisition of processed foods will be issued to them in accordance with arrangements between the Office of Price Administration and the Army Exchange Service of the United States War Department, the Bureau of Naval Personnel of the Navy Department, the Coast Guard and the Marine Corps, and the Training Organization of the War Shipping Administration. (The issuance of points for use by Army exchanges, post exchanges and ships' service departments ashore for the acquisition of processed foods for institutional use is covered by General Ration Order 5.)

[Paragraph (a) amended by Amendment 41, 8 F.R. 9012, effective 7-1-43 and Amendment 50, effective 8-13-43]

(b) Points may be transferred freely without a transfer of processed foods among ration bank accounts maintained for Army exchanges, among accounts maintained for post exchanges, among accounts maintained for ships' service departments ashore of the Navy, among accounts maintained for commissary stores and ships' service departments of the Training Organization of the War Shipping Administration, and among accounts maintained for ships' service departments ashore of the Coast Guard.

[Paragraph (b) as amended by Amendment 50, effective 8-13-43]

(c) During March 1943, Army exchanges, Post Exchanges, Ships' Service Departments Ashore, and similar designated activities, may, if ration checks are unavailable, use emergency acknowledgments to acquire processed foods, in the way described in section 23.2 (c). An emergency aknowledgment issued under this section may not be used by the person to whom it was issued to acquire processed foods, but must be exchanged for a ration check at the activity designated thereon.

SEC. 23.4 *Sales commissaries, post exchanges and ships' service departments ashore may transfer processed foods for points.* (a) Army exchanges, post exchanges, ships' service departments ashore, sales commissaries, commissary stores, and any other activity of the Army, Navy, Training Organization of the War Shipping Administration, Marine Corps or Coast Guard and the Food Distribution Administration may transfer processed foods only in exchange for points in the same way as "retailers" are permitted to make transfers under this order. However, they are not required to register as retailers, "wholesalers", or "processors".

(b) All points so received by Army exchanges, post exchanges, ships' service departments ashore, sales commissaries, commissary stores, or any other activity of the Army, Navy, Training Organization of the War Shipping Administration, Marine Corps or Guard Guard or by the Food Distribution Administration must be deposited in the ration bank accounts maintained for them. These points may then be used to acquire other processed foods.

[Paragraphs (a) and (b) as amended by Amendment 50, effective 8-13-43]

SEC. 23.5 *Veterans' Administration and Coast and Geodetic Survey may apply for allotments under General Ration Order 5.* (a) Allotments of processed foods for the Veterans' Administration and the Coast and Geodetic Survey will be granted in accordance with the provisions of General Ration Order 5.

[Sec. 23.5 as amended by Amendment 21, 8 F.R. 5819, effective 5-8-43]

SEC. 23.6 *Industrial users may replenish foods used in products transferred to agencies designated in General Ration Order 11.* (a) Any "industrial user" who, before July 1, 1943, transfers to any exempt agency any products which he manufactured after February 28, 1943, in the manufacture of which he used processed foods may apply to and obtain from his board a "certificate" equal in point value to the processed foods used by him in such products. The application shall be made on OPA Form R-315, on or before August 1, 1943, and shall set forth the nature and amount of the products, the time when the products were manufactured, the date when such products were transferred and the amount of processed foods he used in such products. The application shall be accompanied by such evidence of transfer to the exempt agency as the board may require. If a certificate is issued under this section, the industrial user's allotment for the allotment period in which it is issued shall be considered increased by the amount of the certificate.

(b) Any industrial user who used a processed food in products which are acquired on or after July 1, 1943, by any of the designated agencies covered by General Ration Order 11, may apply for replacement or advance of such processed foods under the conditions and in accordance with the procedure set forth in General Ration Order 11.

[Sec. 23.6 as amended by Amendment 41, 8 F.R. 9012, effective 7-1-43]

SEC. 23.7 *Ships' stores for ocean-going vessels*—(a) *The owner of the vessel must get a statement from the collector of the customs.* Any person who operates an ocean-going vessel engaged in the transportation of cargo or passengers in foreign, coastwise, or intercoastal trade, and who needs processed foods as ships' stores, must get a statement signed by the Collector of the Customs (or his deputy) authorizing the operator of the vessel (or his agent) to acquire a specified amount of processed foods as ships' stores.

(b) *Acquisition of the processed foods by the owner of the vessel.* The operator of the vessel (or his agent) may, without giving up points, acquire processed foods up to the amount shown on the Customs Collector's statement, by giving the statement to the person from whom he acquired the processed foods.

(c) *Transfer of processed foods to the owner of the vessel.* In exchange for the Customs Collector's statement, any retailer, wholesaler, or processor may, without getting points, transfer processed foods to the operator of the vessel (or his agent) up to the amount specified on the statement. A retailer or wholesaler may then exchange the Customs Collector's statement for a certificate, at his board. He must attach to the statement a signed receipt, invoice, or other evidence to prove the transfer of the processed foods. If the board is satisfied that the processed foods were transferred as ships' stores, it shall issue a certificate to the retailer or wholesaler for the number of points needed to replace the processed foods transferred. A processor must send the Customs Collector's statement and the attached receipt or other evidence with his monthly report (on OPA Form R-1305) to the Office of Price Administration, care of the Bureau of the Census, Washington, D. C.

SEC. 23.8 *Governmental investigatory agencies may acquire processed foods needed in their investigations.* (a) An investigatory agency of the United States or of any State or local government which needs processed foods in order to perform its inspections or investigations may apply for points to acquire them. The application must be in writing, on an official letterhead of the agency (if any is available), and must state the name of the agency, the purpose for which points are needed, the period during which they are needed, and the number of points required. An agency of the United States may make its application to the Washington Office, or to any district or State office. An agency of a State or local government shall apply to the district office (or, where there is none, to the State office). If the district, State, or Washington Office finds that points are needed in order to carry on the investigatory activities of the agency, it shall issue one or more certificates for the number of points required.

(b) The Food and Drug Administration of the Federal Security Agency (which is hereby designated an exempt agency for this purpose) may open one or more exempt ration book accounts of the type described in General Ration Order 3B. However, it may issue ration checks against those accounts only to acquire processed foods which are needed for inspection or investigation.

(c) Any government agency which acquires processed foods for purposes of inspection or investigation may, after they have served the purpose for which they were acquired, dispose of them to any federal, state or local institution without receiving points for them. The institution which receives the processed foods shall report in writing the amount received and the date on which it was received to the district (or State) office for the area in which it is located. Its allotment shall not be regarded as increased by such acquisition.

Article XXIV—Growers and Country Shippers of Dry Beans, Peas, and Lentils

SEC. 24.1 *Explanation of terms grower and country shipper with respect to dry beans, peas, and lentils*—(a) *Grower.* Any "person" who, for sale or "transfer", grows or produces dry beans, peas, or lentils for his own account or for the account of himself and others, is a "grower" with respect to the dry beans, peas, and lentils grown or produced by him. However, if he is a "country shipper", he is a country shipper even with respect to the dry beans, peas, and lentils grown or produced by him.

(b) *Country shipper.* A country shipper is:

(1) The first person who "acquires" dry beans, peas, or lentils from a grower for purposes of sale or transfer if such person is regularly engaged in the distribution of dry beans, peas, or lentils and if more than fifty percent of the dry beans, peas, and lentils sold or transferred by him are sold or transferred to persons other than "consumers", "retailers", or "industrial" or "institutional users"; or

(2) A person who imports dry beans, peas, or lentils for purposes of sale or transfer.

NOTE: Such person is a country shipper whether he acquires the dry beans, peas, or lentils by warehouse receipt, or otherwise. A person operating a warehouse in which dry beans, peas, or lentils are sorted or cleaned for the account of another person is not a country shipper unless the warehouseman acquires title to the dry beans, peas, or lentils.

(c) *Country shipper may not be grower, processor, or wholesaler.* A person who is a country shipper may not be a grower, "processor", or "wholesaler" with respect to dry beans, peas, or lentils, nor may he include dry beans, peas, or lentils in the inventory or transfers of any of his "processor" or "wholesale establishments". Any country shipper of dry beans, peas, or lentils who is also a processor of other "processed foods" is covered by Article III with respect to the other processed foods and by Article XXIV with respect to dry beans, peas, or lentils.

(d) *A person who is a country shipper or a grower and also a retailer must be treated as two separate persons.* A person who has a "retail establishment" and who is also a country shipper or a grower must be treated as two separate persons.

SEC. 24.2 *Country shippers must register and file reports*—(a) *Registration.* Every country shipper of dry beans, peas, or lentils must register with the Office of Price Administration by filing OPA Form R-1303 at any time before April 20, 1943. The form must be completed and signed by the country shipper or his authorized agent.

(b) *Reports.* Every country shipper of dry beans, peas, or lentils must file a monthly report, also on OPA Form R-1303, covering his operations during the month before. The reports must be signed by him or his authorized agent. His first report will cover March 1943, and will be his registration. Reports for each subsequent month must be filed within 20 days after the end of the month. Any country shipper of dry beans, peas, or lentils who is also a processor of other processed foods must file reports on both OPA Form R-1305 and OPA Form R-1303.

[Paragraph (b) as amended by Amendment 35, 8 F.R. 7353, effective 5-31-43]

(c) *Some country shippers need not file reports for months after March 1943.* A country shipper of dry beans, peas, or lentils who handled less than 10,000 pounds of dry beans, peas, and lentils during 1942 must register but need not file a report for any month after March 1943. However, if the dry beans, peas, and lentils transferred by him in 1943 reach a total of 10,000 pounds, he must file reports beginning for the month in which that figure was reached.

(d) *Country shippers must give information called for by form.* Country shippers of dry beans, peas, or lentils must give all the information called for by OPA Form R-1303.

(e) *Registration and reports must be filed in Washington.* The country shipper's registration and monthly reports must be filed by mailing OPA Form R-1303 to the Office of Price Administration, care of the Bureau of the Census, Washington, D. C. The form is considered filed on time if the envelope is postmarked on or before the last day it is due.

SEC. 24.3 *Country shipper is given a registration number.* (a) After a country shipper of dry beans, peas, or lentils has registered, the "Washington Office" will send him a card giving him his registration number. After he gets the registration number, he must use it on each report, invoice, or similar document prepared in connection with any sale or transfer by him of dry beans, peas, or lentils. (A country shipper who is also a processor of other processed foods will receive two registration numbers. He will receive one registration number as a processor when he registers by filing OPA Form R-1305. That number must be used on his documents prepared in connection with his sales or transfers of processed foods other than dry beans, peas, and lentils He will receive a different registration number when he registers by filing OPA Form R-1303. That second number must be used on his documents prepared in connection with his sales, transfers, and acquisitions of dry beans, peas, or lentils.)

SEC. 24.4 *Country shipper may not do business if he does not register and file reports.* (a) No country shipper may transfer or acquire dry beans, peas, or lentils after April 20, 1943 unless he has registered in the manner required.

(b) No country shipper may transfer or acquire dry beans, peas, or lentils after any date on which a report is due from him, unless he has filed that report.

SEC. 24.5 *Country shippers must report their inventories.* (a) As part of his registration and monthly reports, a country shipper must report his inventory.

(b) A country shipper's inventory consists of all dry beans, peas, and lentils owned or possessed by him, or in transit to him. However, the following items are not part of that inventory:

(1) Dry beans, peas, or lentils stored for the account of persons other than his purchasers or transferees;

(2) Dry beans, peas, or lentils held by him as security for a loan made by him to another (or similar transaction); or

(3) Dry beans, peas, or lentils in transit to him for either of those purposes.

SEC. 24.6 *A country shipper must turn over the points he receives to the Washington office.* (a) A country shipper of dry beans, peas, or lentils is not permitted to buy or acquire processed foods with the points he gets for sale or transfer of dry beans, peas, and lentils which were part of the inventory reported by him, except for one purpose: to get back dry beans, peas, or lentils which he sold or transferred.

[Paragraph (a) as amended by Amendment 47, 8 F.R. 9629, effective 7-19-43]

(b) A country shipper must give up to the Office of Price Administration for cancellation, all points he receives for sales or transfers of dry beans, peas, and lentils. Not later than the 20th day of every month he must issue and mail to the Office of Price Administration, care of the Bureau of the Census, Washington, D. C., his certified ration check (payable to the Office of Price Administration) for all those points he received during the month before. A country shipper who is required to file monthly reports on OPA Form R-1303, must attach his check to the report. A country shipper who does not have to file monthly reports must send his check in a sealed envelope, enclosing a statement showing his name, principal business address, and registration number.

(c) A country shipper who used some of those points to get back dry beans, peas, or lentils which he transferred must issue and send his check for the rest. He must enclose with his check a statement giving the name of the person who returned the dry beans, peas, or lentils and their point value.

SEC. 24.7 *A country shipper must keep records.* (a) Beginning April 1943, every country shipper of dry beans, peas, or lentils must keep at his principal business office a record showing:

(1) All dry beans, peas, and lentils acquired by him;

(2) All dry beans, peas, and lentils sold or transferred for points;

(3) All dry beans, peas, and lentils sold or transferred for purposes of seed;

(4) All dry beans, peas, and lentils sold or transferred point-free to other country shippers; and

(5) All weight adjustments.

(b) He must also keep, at his principal business office, a copy of his registration and of his monthly report on OPA Form R–1303 (if any are required).

(c) In addition, at the time of any change in the point value of dry beans, peas, or lentils, every country shipper must make a record of the amount of that item which he has in his inventory. The record must show the point value of the item before and after the change and the amount by which the point value of his inventory was increased or decreased as a result.

SEC. 24.8 *Country shippers must open a ration bank account.* (a) Every country shipper must open at least one ration bank account for his operations in dry beans, peas, and lentils. If he has more than one business office, he may, if he wishes, open a separate account for each or for any group of them.

SEC. 24.9 *Growers who sell or transfer dry beans, peas, or lentils to persons other than country shippers must do so only for points.* (a) Any grower, who sells or transfers dry beans, peas, or lentils directly to persons other than country shippers, must do so only for points equal to the point value of the dry beans, peas, and lentils sold or transferred.

(b) Points, received by a grower as a result of sales or transfers of dry beans, peas, or lentils directly to persons other than country shippers, may not be used by the grower for any purpose. They must, between the 1st and 10th days of the following month, be given up to the "Board" for the place where the dry beans, peas, or lentils were grown.

[Article XXIV added by Amendment 9, 8 F.R. 4342, effective 4–2–43]

Article XXV—Acquisition of Processed Foods by Residents of Mexico

SEC. 25.1 *Residents of Mexico may acquire processed foods in the United States.* (a) Any "person" who resides in Baja California, Mexico, within ninety kilometers of the border between Mexico and the United States, or in any other part of Mexico within twenty kilometers of that border, may apply for points to "acquire" "processed foods" in the United States. The application must be made, in person, on OPA Form R–183, to the "board" whose office is nearest his customary point of entry into the United States, or if the applicant is unable to apply to the board because of inadequacy of transportation, to the customs officer in charge of his customary point of entry. A single application must be made by the applicant for himself and for all members of his "family unit" (that is, for all persons living in his household who are related to him by blood, marriage, or adoption) who wish to acquire processed foods. An application may be made by a person under 18 years of age only if he is the head of a household or is not a member of a family unit. However, anyone who can complete the application may sign or present it as agent for an applicant who is unable to appear.

(b) The application must be signed by the applicant or his agent and must show:

(1) His name, address and age;

(2) The names and ages of all persons living in his household who are related to him by blood, marriage or adoption and who wish to acquire processed foods;

(3) The name and address of the "retailer", "wholesaler", "processor", "country shipper", or "grower" from whom the processed foods are to be acquired; and

(4) The serial number of the Non-Resident Alien's Border Crossing Identification Card, if any, or of the passport, if any, bearing either a visa for entry into the United States or a notation showing that such a visa has been issued for use by the applicant, and of any cards or passports issued for use by the persons included in the application. The applicant shall present them, if any have been issued, to the board (or Customs Officer) at the time he makes his application. He shall also give any other information which the board or Customs Office may request.

[Paragraph (4) as amended by Amendment 42, 8 F.R. 9012, effective 7–1–43]

(c) If the board (or Customs Officer) finds that the persons covered by the application reside in Mexico, within the area described in paragraph (a), and desire to acquire processed foods in the United States, it shall grant the application and shall issue yellow punch cards (OPA Form R–184) as provided in this article. (Applicants who have received certificates for a period prior to July 1, 1943, may obtain yellow punch cards for a subsequent period by returning to the board (or Customs Officer) the duplicate copies of such certificates, in accordance with paragraph (m).)

(d) The monthly ration of processed foods for each of the persons for whom the application is granted shall be 48 points. Yellow punch cards shall be issued for periods of two calendar months, beginning July 1, 1943. However, a card shall be issued for only one calendar month, if it is issued in August 1943 or in any second month thereafter, unless it is then issued for the next two month period. The full monthly ration shall be allowed for the month in which the application is made regardless of the time of the month when it is made, if a ration is desired for that month.

(e) One yellow punch card shall be issued for all persons included in the application. However, if there are more than 5 such persons, one additional yellow punch card shall be issued for each additional 5 persons or less. The board (or Customs Officer) shall indicate the number of persons for whom the card is issued by perforating the appropriate box on the top of the card. For each person fewer than 5 for whom a card valid for two months is issued, the board (or Customs Officer) shall remove two of the horizontal strips, each containing the numbers 1 to 48, starting at the bottom of the card. For each person fewer than 5 for whom a card valid for one month is issued, the board (or Customs Officer) shall remove horizontal strips starting at the bottom of the card, in sufficient number to leave as many strips attached to the card as there are persons for whom the card is issued.

(f) The board (or Customs Officer) shall indicate the period for which the yellow punch card is valid by perforating the appropriate boxes under the words "Ration for". The name and address of the applicant and of the retailer, wholesaler, processor, country shipper or grower from whom the processed foods will be acquired shall be written by the board (or Customs Officer) in the spaces on the card provided for that purpose. If the applicant has a Non-Resident Alien's Border Crossing Identification Card, or passport bearing either a visa for entry into the United States or a notation showing that such a visa has been issued, the board (or Customs Officer), at the time a yellow punch card is issued, shall endorse the letter "R" upon these immigration papers and upon the immigration papers, if any, of the other persons included in the application. A validation stamp (OPA Form R–123) shall be pasted on the reverse side of each yellow punch card issued.

(g) If the board (or Customs Officer) which issued a yellow punch card is not the board for the area in which the supplier designated on the card is located it shall notify the supplier's board of the issuance by following the procedure indicated below:

(1) If the card is issued pursuant to an application on OPA Form R–183, it shall send to the supplier's board a copy of the application, with a notation of its action.

(2) If the card is issued upon surrender of an expired certificate or yellow punch card, without a new application on OPA Form R–183, as provided in paragraph (m), it shall send the expired card or certificate to the supplier's board.

(h) Between the 10th and the 15th of July 1943, and between the 10th and 15th day of every second month thereafter, each board shall send a "certificate" to each retailer, wholesaler, processor, country shipper or grower within its area entitled thereto, who has been designated on yellow punch cards for which he has not previously been given a certificate. However, no certificate shall be issued to any such supplier until he has submitted to the board the reports required by section 25.3.

(i) Each certificate issued under paragraph (h) in July 1943, shall be for the number of points computed in the following manner:

(1) Add the number of points allowed by all the yellow punch cards on which the supplier has been designated, issued prior to July 10, 1943;

(2) Deduct from that total the number of points, if any, which the supplier owes. The number of points which he owes, is the total number of points given him by certificates previously issued under this Article, less the point value of all processed foods transferred by him to residents of Mexico, prior to July 1, 1943.

[Paragraphs (c), (d), (e), (f), (g), (h), and (i) as amended by Amendment 42, 8 F.R. 9012, effective 7–1–43]

(j) Each certificate issued under paragraph (h) in September 1943, or in any second month thereafter, shall be for the number of points computed in the following manner:

(1) Add the number of points allowed by all the yellow punch cards on which the supplier has been designated, issued before the 10th day of the current month and after the 9th day of the second preceding month, and for which no certificate has previously been issued.

(2) Deduct from that total the number of points, if any, which the supplier owes. The number of points which he owes is the total number of points given him by all certificates previously issued to him under this Article, less the point value of all processed foods transferred by him to residents of Mexico, up to the end of the preceding month, pursuant to this Article.

(k) For the purposes of paragraphs (i) and (j) only, a yellow punch card issued by a Customs Officer or a board other than the supplier's board shall be considered issued on the date when the supplier's board receives the information as to issuance, as provided in paragraph (g).

(l) A retailer or wholesaler designated on any yellow punch card issued to an applicant at any time other than between the 1st day and the 9th day of July 1943, or of any second month thereafter, may apply to his board for a certificate to cover that card. His application need not be on any particular form. He must show that he will be unable to acquire sufficient processed foods to meet consumer demand under rationing if he waits until the next regular period for issuance of certificates under paragraph (h). The board may give him a certificate for the number of points allowed by any such cards.

(m) Upon the expiration of a certificate issued under section 25.1 (c) as it read prior to July 1, 1943, or of any yellow punch card, the board (or Customs Officer) shall issue a yellow punch card for a subsequent period, but only if the applicant returns the expired duplicate certificate or card to it. The applicant shall, within five days after the expiration of any certificate or yellow punch card issued to him, return the duplicate of the certificate, or the card, to the board (or Customs Officer), either in person or by mail. However, if the duplicate certificate or yellow punch card has been lost, destroyed or stolen, a supplier's statement given to the applicant before July 1, 1943 under section 25.2 as it read prior to that date, or a white punch card given to the applicant by his supplier as provided in section 25.2 as amended, may be returned to the board (or Customs Officer) instead. If the applicant has not received such a statement or a white card, a board may waive compliance with this requirement. No new application is required for the issuance of a yellow punch card to replace an expired yellow punch card or an expired certificate issued for a period prior to July 1, 1943, unless, since the date of the last application, there has been a change in the number of members of the applicant's household related to him by blood, marriage or adoption who wish to acquire processed foods. Acceptance by applicant of a yellow punch card to replace an expired card or certificate shall constitute a representation by the applicant that the number of such persons has not been reduced

(n) An applicant may apply to the board (or Customs Officer) where his original application was made, to change the retailer, wholesaler, processor, country shipper or grower from whom he acquires processed foods. However, no application for such a change shall be made with respect to any currently valid yellow punch card unless the supplier designated on the card refuses to transfer processed foods against it under section 25.2. Any yellow punch card thereafter issued to the applicant by the board (or Customs Officer) shall be issued with the name and address of the new supplier written on it in the space provided for that purpose.

[Paragraphs (j), (k), (l), (m), and (n) added by Amendment 42, 8 F.R. 9012, effective 7–1–43]

SEC. 25.2 *How processed foods may be transferred to residents of Mexico.* (a) Each supplier who has been designated by an applicant as the person from whom processed foods are to be acquired, may transfer to the applicant to whom a yellow punch card has been issued, or to his authorized agent, and the applicant (or his agent) may acquire from the supplier, processed foods up to the number of points allowed by the yellow punch card, at any time during the valid period indicated on the card.

[Paragraph (a) as amended by Amendment 42, 8 F.R. 9012, effective 7–1–43]

(b) A supplier who transfers processed foods against a yellow punch card shall, at or before the time of his first transfer against that card, make an exact copy of it on a white punch card which will be furnished to him by his board.

(c) Each time a supplier transfers processed foods against a yellow punch card he shall indicate, on the transferee's yellow punch card and upon the duplicate white punch card made out by the supplier, the point value of the processed foods transferred. This is to be done by perforating the appropriate box in the horizontal strip, or crossing out the number in that box, beginning at the bottom of the card, and by removing one strip for each 48 points of processed foods transferred. (For example, if the processed foods first transferred have a point value of 44 points, the supplier is required to perforate the box in the first horizontal strip containing the number 44 or to cross out that number. If the second transfer is for 24 points, the supplier is required to remove the first strip and to perforate the box in the second horizontal strip containing the number 20 or to cross out that number.)

(d) No transfer may be made unless the yellow punch card is presented to the transferor. However, if the applicant or his agent fails to present the yellow punch card on the ground that it has been lost, destroyed or stolen, the supplier may make an exact copy of his white punch card on another white punch card. He shall sign the white punch card which he makes out in this manner. This card may then be used in place of the lost, destroyed or stolen yellow punch card.

[Paragraphs (b), (c) and (d) added by Amendment 42, 8 F.R. 9012, effective 7–1–43]

SEC. 25.3 *Records and reports by supplier from whom processed foods are to be acquired.* (a) Any retailer, wholesaler, processor, country shipper or grower who has been designated by an applicant as the supplier from whom processed foods are to be acquired shall maintain and keep at his place of business the white punch card which he is required by section 25.2 (b) to make out for each such applicant. Not later than the 10th day of September 1943 and not later than the 10th day of every second month thereafter the supplier must give his board a written statement showing the total number of points given to him by certificates issued under this Article during the two preceding calendar months and the total number of unused points left on yellow punch cards valid for those months, on which he has been designated as supplier.

[Sec. 25.3 as amended by Amendment 42, 8 F.R. 9012, effective 7–1–43]

SEC. 25.4 *Records and reports by suppliers who transferred processed foods to residents of Mexico before July 1, 1943.* (a) Any retailer, wholesaler, processor, country shipper or grower to whom a certificate has been issued under this Article prior to July 1, 1943, shall maintain and keep at his place of business a record showing the name of each applicant for whom he has received such certificate, the point value of each certificate and of all processed foods transferred against it and the dates of such transfers. Before the 10th day of July 1943, he must give to his board a written statement showing the total point value of all certificates received by him for June 1943 and the total point value of all transfers of processed foods made under such certificates during that month.

[Article XXV added by Amendment 19, 8 F.R. 5568, effective 4–26–43]

Article XXVI—Home Processed Foods

SEC. 26.1 *Explanation of terms home processor and home processed foods—(a) Processed foods produced in kitchen are home processed foods.* "Processed foods" produced in a "kitchen" are "home processed foods":

(1) A "person" is considered to "produce" home processed foods, for the purposes of this Article, if he:

(i) Takes an active part in the processing of such foods; or

(ii) Contributes the fruits or vegetables for processing by others; or

(iii) Contributes facilities, such as steamers, pressure cookers, or the kitchen, to be used by others to produce such foods.

(2) A "kitchen" is a place principally used for the preparation of meals, or for the demonstration of such preparation (such as a kitchen in a school or in a home economics center).

SEC. 26.2 *Person may consume home processed foods he produces and may give away limited amounts—Points need not be given up for use.* A person may consume home processed foods he produces, and may let members of his "family unit", and others who eat at his table or on a farm he operates, consume them, without giving up points.

(1) A "family unit" consists of all persons related by blood, marriage, or adoption, who regularly reside in the same household.

(b) *Gifts.* He and the members of his family unit may give (but not sell) such foods to any other person without receiving points, but no more than fifty (50) quarts (or one hundred (100) pounds) of such foods per member may be given away point-free by the family unit in any calendar year. One quart of processed foods is considered the equivalent of two pounds.)

SEC. 26.3 *A person may sell home processed foods he produces—(a) He may sell only for points.* A person may not sell or "transfer" home processed foods produced by him (except for those he is permitted to give away point-free under section 26.2 (b)) unless he gets points equal to the point value of the foods so transferred. He must also get points for any gifts made in excess of the amount permitted by section 26.2 (b). (The point value of home processed foods is fixed by Revised Supplement No. 1 to this order.)

(b) *He must keep records and surrender points to board.* For this purpose he need not register as a "processor" or make reports, but must keep a record of any transfer he makes, showing the amount and date of the transfer, and the name and address of the person to whom the transfer is made. If he makes any transfers of home processed foods for points during any month, he must give up the points to his "board," on or before the tenth day of the next month.
